

Illinois Braille Series

This popular braille course for adults now has improved braille formatting and includes colorful new covers.

The **Illinois Braille Series** is a classic program for teaching literary braille to former print readers. It includes raised print letters, braille, tracking guidelines, practice activities, writing drills, and an interesting variety of reading selections. This 2-volume set progresses from uncontracted to contracted braille in 50 lessons.

While the content of the Illinois Braille Series has not changed, the format in Books I and II has been adjusted to accommodate the beginning braille reader.

Format Improvements

Book I is now produced in standard-sized braille rather than enlarged (jumbo) braille. Guidelines and double spacing have been added to assist the learner. **Book II** provides special formatting to aid development of efficient hand movement.
