General information

Use only authorized parts. Any damage or malfunction caused by the use of unauthorized parts is not covered by Warranty or Product Liability. Any unauthorized use or copying of the contents or any part thereof is prohibited. This applies in particular to trademarks, model denominations, part numbers, and drawings.

Instructions for use

This spare parts list contains no safety regulations and is merely intended to assist in the ordering of spare parts.

For information about operating, servicing, or repairing, the relevant Safety and operating instructions must be consulted at all costs.

Please observe the safety instructions listed in the relevant Safety and operating instructions!

This is a detailed exploded view diagram of a mechanical assembly, likely a piece of industrial equipment. The diagram shows the following components and their assembly relationships:

- Part 1:** The main vertical support structure, featuring a curved top section and a base with mounting points.
- Part 2:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 3:** A small cylindrical component, similar to part 2, located near the base of the main structure.
- Part 4:** A large, complex bracket or support arm that connects to the main structure and other components.
- Part 5:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 6:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 7:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 8:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 9:** A long, thin horizontal plate or cover that fits over the top of the main structure.
- Part 10:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 11:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 12:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 13:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 14:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 15:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 16:** A large, rectangular plate or cover that fits over the front of the main structure.
- Part 17:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 18:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 19:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 20:** A large, rectangular plate or cover that fits over the top of the main structure.
- Part 21:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 22:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 23:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 24:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 25:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 26:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 27:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 28:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 29:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 30:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 31:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 32:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 33:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 34:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 35:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 36:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 37:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.
- Part 38:** A small cylindrical component, possibly a pin or bush, located near the base of the main structure.

The diagram is labeled with the reference code **51.01** in the bottom right corner.

This technical drawing is an exploded view of a mechanical assembly, showing 14 numbered components. The assembly is divided into two main sections by a dashed line. The upper section includes a main housing (0), a central shaft assembly (1) with a spring (9), and a large circular flange (4). The lower section features a gear assembly (10, 11, 12) with a spring (3), a small component (7) with a pin (8), and a large circular flange (5 (6)) with a spring (6). The components are labeled with numbers 0 through 13, with some parts having alternative designations in parentheses.
