

Amscot Financial's "Just a Dollar" Campaign Raises Over \$139,000 for Florida Students and Teachers

March 2025

The Consortium of Florida Education Foundations is proud to celebrate the results of Amscot Financial's 2025 "Just a Dollar" campaign, which raised an outstanding \$139,623.44 to support students, teachers, and schools across Florida. This total includes a generous \$40,000 corporate gift from Amscot Financial, underscoring their continued commitment to educational success throughout the state.

Now in its 16th year, the "Just a Dollar" campaign by Amscot Financial has cumulatively raised more than \$1.7 million, benefiting students across the company's 24-county service territory. Each year in February, the campaign invites Amscot customers across more than 230 statewide locations to add a \$1 donation to their transaction during the month-long effort. These small individual gifts, combined with Amscot's match, demonstrate the incredible power of community support in helping close funding gaps and create new opportunities for Florida's students and educators.

"We are tremendously grateful for Amscot Financial's enduring partnership and the generosity of its customers," said Mary Chance, President of the Consortium of Florida Education Foundations. "Each dollar raised directly benefits local classrooms, ensuring students and teachers have the resources they need to thrive."

Since the campaign's inception, Amscot Financial and its customers have provided substantial support to local education foundations across Florida, funding programs such as teacher supply stores, classroom grants, and student enrichment initiatives. Every dollar raised through "Just a Dollar" remains in the community where it was donated, helping schools address unmet needs and foster greater educational success.

"Our 16-year partnership with Amscot Financial has created a lasting legacy in Florida's schools," Chance added. "The 'Just a Dollar' campaign continues to show how small acts of generosity, when multiplied, can have a truly transformative impact."
