

## GM Start of Season Checklist

### **Onboarding and Pre-Season Prep:**

- ☐ I have been onboarded to the Fenworks Platform and set as a manager of my school page
- ☐ I have checked with my school's IT to ensure the Fenworks email domain (Fenworks.com) is unblocked
- ☐ I have read the **Season Information, General Rules, and League Structures** sections and have reviewed the rules for each drone racing league and format I am rostering a team for on the Fenworks Website <https://fenworks.com/drone-racing-season-information/>
- ☐ I have reviewed the resource page on the Fenworks website <https://fenworks.com/drone-racing-resources/> and watched all the resource videos to understand what my students must do on game day

### **Registration Checklist:**

**View all our guides here:** <https://fenworks.com/drone-racing-resources/>

- ☐ Review the Registration Guide PDF and Video, found under the "Resources for GMs and Coaches" section
- ☐ Invite your students to the Fenworks platform
  - Confirm that your signed-up students have successfully registered on the platform.
- ☐ Add your players as members to your school page, create rosters, and assign team captains.
- ☐ Register rosters to their respective leagues. You can do so by clicking the "Not in a Season" button on the team and then selecting the correct season
- ☐ Support students as they learn how to use the Fenworks Platform
- ☐ Make sure students have read and reviewed the Racer Checklist found on the Resource Page

### **Software Testing**

- ☐ Verify that all students can access the Fenworks Platform and the Fenworks Website (Fenworks.com) on school computers
- ☐ Verify VelociDrone works on school computers
  - You should also test that online play is working. Contact your school's IT, and give them the "Networking and Specs Guide" found under "Resources for IT/Admins" on <https://fenworks.com/drone-racing-resources/>
- ☐ Verify that Betaflight can be accessed and is downloaded to the computers as well. The video guide can be found on <https://fenworks.com/drone-racing-resources/>.
