Hi Michelle,

I will be turning 70 in the next year and a half, I wanted a house were I could live on a main floor and have my daughter next to us to help us in our later years.

I would like to subdivide our 7.5 acres so that I can give my daughter and her husband 2.5 acres next door to build their dream home, so when they have kids they will be close to us so we can help each other.

Please do all possible to expedite our request.

Please find the plat which also shows where they plan on building their home as well as a soil sample.

Sincerely,
Robert Deleon
