Executive Summary:

Presenter: RD

Recommendation:

Approval, with conditions: 1. The proposed use shall substantially conform with the proposed narrative and site plan. The proposed development shall be allowed to have up to 20,000 sq. ft. total in the two buildings. No further action by the Hall County Planning Commission and the Board of Commission shall be required for the proposed use as submitted by the applicant. 2. The project building elevations, materials, and colors shall be submitted to the Director of Planning and Development during the design review process for approval. 3. The development shall conform to Gateway Corridor Standards with the following exception: Standing seam roof panels shall be allowed if chosen with the color being approved by the Director of Planning and Development. 4. Driveway design and location shall be approved by Hall County Engineering and GDOT prior to the design review process. 5. All conditions of zoning shall be included on the final plat prior to recording. 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, and the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices." 7. The project shall meet all requirements of the Hall County Engineering Department.
