

2/2/23

Tyler,

I am writing you this letter just to let you know how much I appreciate your fabrication skills when it came to helping me re-create the parts for my Bobcat skid steer restoration.

As you know, this was the first Bobcat they were able to mass-produce and successfully sell here in America. Now that parts are so scarce for these antique machines, you helped immensely by machining these otherwise unobtainable parts. I had looked for some time for a shop or person who could replicate parts for these older skid steers with no success until someone had mentioned you.

Once completed, this Bobcat skid steer will go back into service on my homestead for general grounds maintenance, gravel spreading, and to clean out our manure pit from our chicken house.

I thank you for the work you've done and will do with our upcoming mechanical agricultural projects. I will be happy to refer you and your services as one of the rare entities around that can do what you do.

Sincerely,

A handwritten signature in cursive script that reads "Niclas Jancic".
