Sorry this is so last minute, it's like herding cats.

I've got another one to forward to you guys for the commissioners and will have at least two more but it'll probably be after today.

I was trying to get my letter from Courtney Ryan at NHHS in before today since they have today off but we didn't quite make it in time.

Thanks,
Tyler Crawford

inspired entertainment...

February 17, 2023

To Whom It May Concern,

We are a company specializing in the manufacturing of trackless trains and other amusement rides used in the agricultural entertainment business. Our products are used at many locations around the world including many farms, orchards, pumpkin patches, Christmas tree farms and corn mazes. These products are also used locally including the Dawsonville outlet mall, Pendergrass Flea Market and two trains operating in downtown Helen.

Pro-Series Fabrication has been machining and producing parts for our tractor-based locomotives for years. These parts are integral for us to transform a Kubota tractor into a ride that these farms and children love.

Thank You,

Anthony Cravens
General Manager
