STATEMENT OF HARDSHIP

The Hall County Planning Commission has the authority, in specific cases, to grant variances from the terms of the Zoning Regulations when the variance will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the Zoning Regulations will, in specific cases, result in unnecessary hardship and so that the resolution shall be observed, public safety and welfare secured, and substantial justice done. The authority to grant such variances shall be limited to those instances where a hardship is clearly established as required by the Zoning Regulations.

In all cases involving requests for residential variances from the terms of the Zoning Regulations, a plat or survey of the property prepared by a registered surveyor, architect, or engineer shall be required. In all cases involving variances for commercial or industrial uses of land, a site plan of the property prepared by a registered surveyor, architect, or engineer shall be required. Variances may be granted only upon a finding by the board that:

Describe how each situation listed below relates to your application:

1. There are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship).

The current house, residential accessory buildings, and commercial kennel is located on a 9.49-acre parcel with no frontage on a public right-of-way.

The property is accessed via permanent perpetual non-exclusive 50FT easement. The easement is the flag pole portion of tax parcel 12128.000005, also known as 8720 Forrester Rd. The property was created by deed in the early 1990's and has continued to be transferred by deed.

2. The application of the requirements of this resolution to this particular property would create an unusual hardship.

The parcel currently exists as a non-conforming parcel which was created by a deed in the early 1990s. Permits to construct a house, accessory buildings, and a commercial kennel were obtained between 1999 and 2020. We have a buyer for both the house and commercial

kennels but the purchaser must obtain loans from 2 different sources; therefore, the property must be subdivided.

3. Such conditions are peculiar to the particular piece of property involved and not common to other properties in the neighborhood. That is, the application of the regulation would deprive the applicant of the rights commonly enjoyed by others in the neighborhood.

All lots served by the flag pole prescriptive easement have the same access issue. This property is being sold to 1 owner but must be separated

to meet the lendign criteria of the bank and SBA. The property will continue to under one ownership.

4. Such conditions are not the result of any actions of the property owner.

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this resolution provided; however, that no variance may be granted for a use of land or building or structure that is prohibited by this resolution. For example, granting the variance would not confer any special privilege that is denied by this regulation to other property in the same zoning district.

Granting a variance will not create an issue related to safety and access since nothing is changing except that an existing parcel with an existing

residential use and commercial use is being sold to one buyer with separate lien holders.

I hereby certify that the above information and all attached information is true and correct.
