DIRECTOR
Randi Doveton

To: Richard Higgins, Chairman
Kathy Cooper, District 1
Billy Powell, District 2
Gregg Poole, District 3
Jeff Stowe, District 4

From: Randi Doveton, Director

Date: December 5, 2022

Subject: **4053 Cleveland Highway | Rezone** | from Agriculture-Residential-III (AR-III) to Suburban-Shopping (SS) to allow a grocery store, convenience store with gas & restaurant | Reginald Crayton, P.E., applicant.

The request before you is the rezoning application of Reginald Crayton, P.E., to allow a grocery store, convenience store with gas & restaurant on 6.34± acres. This item is located within Commission District 3.

The proposed use (a shopping center) is a use requiring County Commission approval but no concurrent application was submitted for review or approval. This is not unusual since applicants often want assurance of the appropriate zoning classification prior to investing in more detailed plans for a conditional use application. **The Planning Commission voted to approve the use along with the rezoning. The use shall require a separate legal ad and sign posting before the Board of Commissioners can approve it. Should you approve the rezoning request, the use will be on your January 26, 2023 voting meeting agenda.**

At their November 21, 2022 meeting, the Hall County Planning Commission voted to recommend approval of the Rezoning request (and use of a shopping center) with seven (7) conditions **(4-0, Pilcher absent)**.

There were no written comments submitted in advance of the Planning Commission meeting and no one spoke during the public forum.

There have been no changes to the request since the Planning Commission took action.

Planning Commission Approval Conditions:

1. The proposed use shall substantially conform with the proposed narrative and site plan. The proposed development shall be allowed to have up to 20,000 sq. ft. total in the two buildings. No further action by

- the Hall County Planning Commission and the Board of Commission shall be required for the proposed use as submitted by the applicant.
2. The project building elevations, materials, and colors shall be submitted to the Director of Planning and Development during the design review process for approval.
 3. The development shall conform to Gateway Corridor Standards with the following exception: Standing seam roof panels shall be allowed if chosen with the color being approved by the Director of Planning and Development.
 4. Driveway design and location shall be approved by Hall County Engineering and GDOT prior to the design review process.
 5. All conditions of zoning shall be included on the final plat prior to recording.
 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property:
“Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices.”
 7. The project shall meet all requirements of the Hall County Engineering Department.
