

All, We have our State and County license for Used Parts Sales, but we sell/broker vehicles each month along with our used parts sales. Under State rules to continue we are required to have a used car broker/sales license along with our parts license.

The county approved the conditional use request for Used Parts /salvage/Junkyard and I assumed the issue of selling some used cars would not be an issue but when we spoke with Zoning department, they interpreted the rules for Gateway that we must go before Board to get another conditional use approved for this as well.

Go Pull It has two other sites in different counties and getting a used car broker use/license was no issue but Hall County does not offer a broker license.

Thanks

Joey Cox
