Re: Water Availability

Proposed 157-Unit Residential Development

5079 Winder Highway Parcel 15038 000059

To whom it may concern:

The purpose of this letter is to confirm the availability of water service to the above referenced property.

The City of Gainesville owns and operates an existing 12-inch ductile iron water main in the right-of-way of Old Winder Highway adjacent to the subject property.

Currently, the City has adequate domestic water capacity to serve your proposed 119-unit residential development.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford

Permitting Services and GIS Manager
