Re: Water Availability
Proposed Multi-Use Development
PIN: 08111 003005

Dear Jaffer,

The purpose of this letter is to confirm the availability of water service to the above referenced property.

The City of Gainesville owns and operates an existing 12-inch DIP water main in the right-of-way of McEver Road along the property frontage. The City also owns and operates an existing 8-inch DIP water main in the right-of-way of Lights Ferry Road along the property frontage.

Currently, the City has adequate domestic water capacity to serve your proposed multi-use development.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford
Permitting Services and GIS Manager

cc: Tracy Robar, P.E., Engineering and Construction Div. Manager
Chris Thornhill, Project Manager
