Kristie,

We discussed this morning. EWSA does have a water main at the lot location and will be able to serve with potable water. The property owner/home owner will need to contact EWSA for setting up their account and purchasing the water meter when they're ready. If you need additional information, please contact Brooke or Tim at the email above. My last day in the office with EWSA is tomorrow.

Sincerely,
 John V. Cronan
 Systems Coordinator

John,

Thank you for chatting with me today. I have attached the proposed site plan that would reconfigure the currently platted 3 lots into 4 lots. Please let me know if water service will be available for the addition of the 4th lot. Thank you.

Regards,
