Thank you for clarifying these conditions. I really was not understanding the planning I needed to do. See the attached map with 8 lots that could potentially be created in the future to accommodate my family's children and grandchildren, possibly great-grandchildren. So with that in mind, I'd like to change some of the conditions

#1 will have no maximum lot requirements, as long as the lots comply with AR-1 zoning.
#5 shall not limit accessory structures, as long as the structures are in compliance.
#7 condition shall be deleted.

see attachment.

Thanks and let me know of any questions and anything else I need to do. Sorry for the confusion, as I was only looking to the near future and not beyond.

Jan Truelove
