Katie and Beth,

I hope you had a great weekend. I know the reasoning for the requirements for the Gateway Corridor are to ensure that the corridor looks esthetically pleasing. I feel the building I am proposing meets that standard and will be a standout in the area. I have attached a rendering of the building with a waterline in the front of the building. I think the contrast looks great while still looking like a vintage gas station/ country building. I wanted to get your thoughts if a waterline in the front would be acceptable.

Thank you

John
