Dear Mr. Brown,

The purpose of this letter is to confirm the availability of domestic water service to the above referenced properties.

The City of Gainesville owns and operates an existing 16-inch DIP water main in the right-of-way on the south side of Friendship Road adjacent to the subject properties. Currently, the City has adequate domestic water capacity to serve your proposed residential development.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford  
Permitting Services Manager
