Subject: Calvary Station, LLC

COUNTY ENGINEER  
**Brent E. Cook, PE, PTOE, RSP1**

Hall County Engineering has reviewed the report submitted by Calvary Station, LLC located at 1563 Calvary Church Road. The "Monitoring, Inspection and Testing Plan" was prepared by Logic Environmental of Duluth, Georgia. Logic Environmental appears to be licensed in the State of Georgia to perform work of this type. The report contains inspection reports and testing logs which state that the waste material contain no prohibited waste. The report appears consistent with the zoning conditions.

It is our opinion that Calvary Station, LLC is eligible for renewal of their business license.
