

Change Order Request

After reviewing all cost impacts associated with this proposal, the only item Wilson Construction Management is unable to account for is the No. 57 stone required to backfill the Gravix wall. Please see the detailed cost breakdown below for further reference.

| Inclusions |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Square foot area of the Gravix wall included in this pricing is calculated from the top of level pad to the top of the barrier wall. |
| 2. The quantity of #57 stone backfill is anticipated to be approximately 7,000 TNS to backfill 100% infill of the Gravix walls. This change order is accounting for 40% of the total volume. Billing will be based on the units installed. |
