Executive Summary:

Presenter: KA

Recommendation:

Denial, as the proposed zoning is not consistent with the “Rural Neighborhood” future land use classification within the Comprehensive Plan. However, if the Commission chooses to approve this request, staff recommends the following conditions:

1. The property shall be developed in accordance with the site plan dated February 6, 2026, and narrative dated March 10, 2026, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
2. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: “Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices.”
3. Short term rentals are prohibited in this development.
4. All water and waste management systems shall comply with the requirements of the appropriate regulatory agencies.
5. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval.
6. All conditions of zoning shall be made a part of any plats or construction plans created for the property
