Comment:

Fire Rescue is requesting to purchase two (2) new forty (40) foot conex containers that have been modified for live fire training. This addition will align with NFPA 1403 standards for live burns, and the modular design will allow instructors to create variable conditions while simulating multiple incident types.

Fire Rescue recommends continuing with the same company (Symtech) that supplied the previous burn container to maintain compatibility and ensure warranty coverage. The original purchase for the Training Center burn building was approved by BOC item #670-2023 on December 12, 2023.

Pricing is provided through Sourcewell Contract #102325.

The FY 2027 Estimated Amount has been reviewed against the approved FY 2027 budget by Finance.
