they have not been compliant in over a decade with current codes and it got swept under the rug by the previous Hall County Commission and Administration. This all came out at the meeting last month when this was tabled. This dude has run roughshod over all rules and regulations and did what he wanted. How they have kept a business license is baffling. How they have not been shut down is baffling. Well not really. We know whose district this is in. The old Admin telling code enforcers and others to let this one slide and not to make him do anything on citations and such is the epitome of corruption.
