Good afternoon,

Two minutes is not long enough to thank you for your service to Hall County. When I have an opportunity to speak on Thursday, I will not be able to share some of my concerns about the White Sulphur rezoning. Traffic is one of my concerns.

One afternoon, I was stuck in traffic heading north on White Sulphur Road. The student pick-up line at Deal Elementary had backed up onto White Sulphur and was blocking the flow of traffic.

Another afternoon, I was turning left at the red light at Ramsey onto White Sulphur. The traffic was bumper to bumper from 365 through the red light into Kubota. There is no turn signal, so you are forced to wait for the traffic to clear.

We are having problems without the Inland Port or Industrial Park traffic.

If the Inland port is processing 200,000 containers a year, that could be over 1000 trucks per day. I have asked the Port for their details on truck traffic, but I have not heard from them. Whatever industry goes in at White Sulphur and other property around the Port, it is important to study the traffic report.

Thank you for your help and doing what is best for our community.
