This application contains Work Activity and Costs in the following areas:	Equipment Hold Ctrl key to select multiple areas.

Federal Funding Accountability and Transparency Act Certification (FFATA)

You shall report the names and total compensation of each of the five most highly compensated executives for the preceding completed fiscal year, if:

a. in the sub-grantee's preceding fiscal year, the sub-grantee received
   i. 80 percent or more of its annual gross revenues from Federal procurement contracts (and subcontracts) and Federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and subawards); and
   ii. $25,000,000 or more in annual gross revenues from Federal procurement contracts (and subcontracts), and Federal financial assistance subject to the Transparency Act (and subawards); and

b. The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at http://www.sec.gov/answers/execomp.htm.)

Are all of the above statements true?	No

Project Details

Summarize the proposed project, including its purpose and how it aligns with the State's funding priorities for this Grant:	Soft targets and mass gatherings, including sporting events, concerts, festivals, and parades, remain vulnerable to terrorist threats involving vehicles. These locations often attract large crowds but lack permanent protective infrastructure to prevent unauthorized vehicles from entering pedestrian areas. Vehicle-based attacks can occur with little warning and have the potential to cause mass casualties. Hall County has limited access to crash-rated mobile vehicle barriers capable of protecting large public gatherings and other high-risk locations. Many events take place on public streets or in areas with multiple vehicle access points, making it difficult for law enforcement to establish secure perimeters. Traditional traffic barricades and temporary road closures are useful for managing traffic but do not provide the same protection against intentional vehicle attacks. This creates a capability gap in the County's ability to protect soft targets and crowded places. The Hall County Sheriff's Office, in coordination with Hall County Emergency Management and other public safety agencies, provides security and emergency response services throughout the County. Hall County has a population of approximately 221,745 and welcomes millions of visitors to Lake Lanier annually. The County hosts numerous public events and community gatherings that require coordinated security planning and protective measures. The Hall County Sheriff's Office is requesting $89,995 through the Homeland Security Grant Program to purchase a Delta Scientific Corporation MP5000 hydraulically operated mobile, surface-mounted vehicle barrier system. The proposed system is independently crash-tested and certified to established vehicle impact standards, providing law enforcement with a reliable means of protecting crowded public areas against intentional vehicle attacks. Its hydraulic operation allows controlled vehicle access, while its mobile design permits deployment at different locations without permanent installation or excavation. This project will directly support Law Enforcement Terrorism Prevention Activities (LETPA) by strengthening the Sheriff's Office's ability to prevent and protect against vehicle-based terrorist attacks. The barrier system will improve perimeter security, restrict unauthorized vehicle access, and reduce vulnerabilities at public gatherings. Its mobility will also support coordinated security operations with Emergency Management and regional law enforcement partners. The project will provide the following outcomes:

* Increased protection against vehicle-based terrorist attacks at soft targets and mass gatherings.

* Improved ability to establish secure perimeters and control vehicle access.

* Enhanced law enforcement terrorism prevention capabilities.

* Greater flexibility to deploy protective equipment throughout Hall County.

* Improved coordination among local and regional public safety agencies.

This project supports the DHS/FEMA national priority of Enhancing the Protection of Soft Targets and Crowded Places by addressing security vulnerabilities at public gatherings and other high-risk locations. The investment will expand Hall County's protective security capabilities, strengthen terrorism prevention efforts, and provide a long-term resource for protecting residents, visitors, and critical infrastructure.

The SHSP supports state, local, tribal, and territorial preparedness activities that address high-priority preparedness gaps across all core capabilities that support terrorism preparedness.

FY 2026 Homeland Security Grant Program National Priorities:

Enhancing the Protection of Soft Targets and Crowded Places.

Enhancing Election Security.

Supporting Homeland Security Task Forces and Fusion Centers.

Enhancing and Integrating Cybersecurity Resiliency.

Border Crisis Response and Enforcement Support.

Will the funds being applied for supplant other funding for this project?

No

Example: SPLOST or other local funds already planned for use to do this project

Primary Core Capability to be addressed by this Project: Common - Physical Protective Measures

Estimate the amount of funding you are requesting that will be used to strengthen the selected Primary Core Capability: $ 89,995.00

Secondary Core Capability to be addressed by this Project: Common - Situational Assessment

Estimate the amount of funding you are requesting that will be used to strengthen the selected Secondary Core Capability: $ 89,995.00

How much of the funding in the proposed project can be associated with Law Enforcement Terrorism Prevention Activities (LETPA)? $ 89,995.00

This could include activities and equipment with a nexus to terrorism that are focused on information sharing and analysis; target hardening; treat recognition; terrorism interdiction; fusion center operation; or training/exercises associated with these activities.

Briefly explain how this project will support LETPA:	The purchase of the Delta Scientific mobile vehicle barrier system will directly support Law Enforcement Terrorism Prevention Activities (LETPA) by strengthening the Hall County Sheriff's Office's ability to prevent and protect against vehicle-based terrorist attacks. Soft targets and mass gatherings, including festivals, parades, sporting events, and other public gatherings, are particularly vulnerable to these types of threats due to large crowds and limited permanent security infrastructure. The proposed barrier system is independently crash-tested and certified to established vehicle impact standards, providing law enforcement with an effective means of restricting unauthorized vehicle access and protecting crowded public areas. Unlike traditional traffic barricades, the system is designed to withstand vehicle impacts and provide an additional layer of protection against intentional vehicle attacks. Its mobile design will allow deputies to establish secure perimeters and implement protective measures at various locations based on identified threats and security needs. This investment will enhance the Sheriff's Office's existing terrorism prevention efforts by addressing vulnerabilities at soft targets and crowded places, improving security during large public events, and strengthening coordination with Hall County Emergency Management and other law enforcement partners. The equipment will also provide a reusable resource that can support regional security operations and mutual aid responses when needed. By expanding the County's protective security capabilities, this project will reduce vulnerabilities to vehicle-based terrorist threats, improve law enforcement readiness, and support the Homeland Security Grant Program's priority of enhancing the protection of soft targets and crowded places.

Risk Assessment

Agency Tax Status?	Appropriated Division of the Town
Agency Fiscal Year:	July- June For example: July-June or Jan-Dec
Legal name of the entity to which the FTIN was assigned:	Hall County, GA
Does the Physical Address on file match your address as listed on SAM.gov?	No
Address Line 1:	2875 Browns Bridge Road
Address Line 2:	
City:	GAINESVILLE
State:	GA - Georgia
Zip Code:	30504
Is the Mailing Address on file correct?	Yes

PO Box 907730 Gainesville Georgia 30501

Has your organization been audited in the past 12 months?	Yes, by an outside audit firm
Is your organization required to have a single audit conducted in accordance with the Single Audit Act (sub recipient expends $1,000,000 or more in federal assistance during its fiscal year)?	Yes
Has the A-133 single audit been submitted to primary pass through Party?	Yes
Who was the audit sent to?	Georgia Department of State Audits
What date was the audit sent?	Jan 25, 2026
Did the organization have significant audit findings from your last single audit regarding program non-compliance?	No
If the single audit has not yet been conducted, when will this be completed?	Dec 31, 2026

What type of accounting system do you use?	Manual
Does your organization have written policies and procedures for checks and balances of all fiscal transactions?	Yes
Does your organization maintain for inspection all the books, documents, payroll papers, accounting records and grant files pertaining to sub grant agreements and contracts for a period of three years after the close of the sub-grant?	Yes
Is the Unique Entity Identifier (UEI) on file for your organization correct?	Yes

UEI:

Costs

Cost Line Items

- Cost line items should be listed in the order of descending priority, with the most important item first, then second most important item next, and so on.
- Costs must be rounded to the nearest whole dollar amount.
- For Equipment items costing $5,000 or more each it is required to provide a Tangible Property Report. If applicable, please attach to this application prior to submission.

Classification	Description	Qty	Price	Total

EHP Review

Projects that are not classroom training and are not simply (portable) equipment purchases will require an Environmental and Historic Preservation (EHP) Review to be done before work begins. If you wish to review the EHP screening form or program requirements, they can be found at the FEMA EHP site by clicking here.

EHP Review Required:	No
