Re: Emergency Repairs for Claude Park Road Culvert Failure

POST OFFICE DRAWER 1435
GAINESVILLE, GA 30503

t: 770.535.8270 | f: 770.531.6711

DIRECTOR
Wesley Geddings

Description: The corrugated metal pipe culvert underneath Claude Parks Road, Murrayville, Georgia, located in the vicinity of block 6380, has failed causing the roadway base to wash out thus creating a situation where the roadway pavement is in imminent danger of collapsing. Eighty-Five (85) addresses are located on Claude Parks Road.

The roadway is currently closed to traffic and the Public Works Department (PWD) requested a proposal from E.R. Snell (ERS), who is on the County Contract #39-018 for Demand Services On-Call Construction Contractors, and two (2) other contractors, to assess the emergency repairs. The PWD would like to proceed with these emergency repairs that would replace the existing metal corrugated culvert with concrete box culverts and restore the roadway for the quoted amount of \$ 799,173.00. The Scope of work includes the following:

1. Removal & disposal of existing culvert
2. Excavation, up to 12" of #57 stone bedding under new culvert, and backfill of new box culvert and associated roadway grading.
3. New box culvert, concrete & rebar, for a Triple 8' x 8' x 70 LF, Design 1 (up to 10' fill), 90 degree skew, 2 sets of wingwalls & parapets, 2 aprons.
4. Rip rap & plastic filter fabric.
5. Grassing & Erosion Control.
6. Graded Aggregate Base & Asphalt Paving & Striping.

Finance has allocated funding as: 909-SP-VII Culvert Replace, Account Code 5009 (5009/027-909-5009) for \$420,972.00, and 1816-SO-VIII Culvert Replace (5009/028-1816-5009) for \$ 378,201.00

If you approve this purchase, please sign below and return to Purchasing.
