The following people addressed the Board:

Favor:

- Michael Dye, 4280 Dove Point, Duluth
- TJ Vogt, 5020 Woodlong Lane, Cumming
- David Dell, 5714 Southlake Court, Oakwood

Opposition:

- Wes Robinson, 200 E E Butler Parkway, Gainesville
- Stephanie Davis Sullards, 4337 Benefield Road, Braselton
- Nancy Nichols, 4431 Benefield Road, Braselton
- David Poppo, 4365 Benefield Road, Braselton
- Chris Campbell, 4324 Benefield Road, Braselton

Commissioner Cooper/Commissioner Powell — *approve tabling item 44 until the January 23, 2025 Voting Meeting* — *unanimous*

45 **5859 & 5871 Brookton Lula Road | Rezone |** from Agricultural Residential (AR-IV) to Planned Industrial Development (PID) & Gateway Corridors Overlay District (GCOD) | on a combined 2.01± acre tract located on the south side of Brookton Lula Road, approximately 311 feet from its intersection with Cleveland Highway | Zoned AR-IV; Tax Parcels 12030 000009E & 000009C | **Proposed Use: Welding business** | Commission District 3 | **Jason Helton, applicant**

Mr. Lawhon introduced the item. Ms. Garmon discussed the item.

Commissioner Poole/Commissioner Powell — approve removing item 45 from the table — unanimous

After discussion, it was determined that this item was not previously tabled.

Commissioner Poole/Commissioner Stowe — rescind previous motion to remove from table and approve withdrawal of item 45 including a refund of application fees — unanimous

 6539 Ransom Free Road | Use Subject to County Commission Approval | on a 19.78± acre tract located on the southwest side of Ransom Free Road at its intersection with Thompson Road | Zoned AR-IV; Tax Parcel 12014 000023 | Proposed Use: Agri-entertainment venue | Commission District 3 | Patrick & Lorraine Cash, applicant

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

• Lorraine Cash, 6539 Ransom Free Road, Clermont

Commissioner Poole/Commissioner Powell — approve with the seven (7) conditions listed below — unanimous

Conditions:

- 1. The property shall be developed in accordance with the site plan dated September 1, 2024, and as described in the project narrative dated September 4, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including but not limited to, Environmental Health, the Fire Marshal, and Hall County Engineering.
- 3. The following statement regarding the potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 4. All conditions of zoning shall be made as part of any plats or construction plans created for the property.
- 5. Hours of operation shall be 9:00 am to 10:00 pm.
- 6. Any signage must be approved by the Director of Planning and Zoning or their designee.
- 7. Driveway shall be approved by Hall County Engineering prior to issuance of permit.

47 **O Dorsey Drive | Use Subject to County Commission Approval |** on a 6.42± acre tract located on the west side of Dorsey Drive approximately 1,025 feet from its intersection with Dorsey Circle | Zoned AR-III & V-C, Tax Parcel 08034 004037 | **Proposed Use: 2-lot subdivision** | Commission District 2 | **Larry Phillips, applicant**

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

• Larry Phillips, 3675 Browns Bridge Road, Gainesville

Commissioner Powell/Commissioner Poole — approve with the five (5) conditions listed below — unanimous

Conditions:

- 1. The property shall be developed in accordance with the site plan dated September 10, 2024, and as described in the project narrative dated October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The property shall be subdivided into a maximum of two (2) single-family residential lots in accordance with the requirements of the Agricultural-Residential-III (AR-III, 17.60) and Vacation Cottage (V-C) zoning districts as detailed in 17.240, Area and Setback Requirements.
- 3. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 4. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Official code of Hall County.
- 5. All conditions of zoning shall be made part of any plats created for the property.
- 1780 Hancock Avenue Extension | Use Subject to County Commission Approval | on a 1.15± acre tract located on the west side of Hancock Avenue at its intersection with Griffin Circle | Zoned I-II (GCOD), Tax Parcel 00137 000005
 | Proposed Use: Outdoor storage | Commission District 4 | Jones Tree Service, Inc, applicant

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

• Russell Dye, 425 Spring Street, Gainesville

Commissioner Stowe/Commissioner Poole — approve with the seven (7) conditions listed below — unanimous

Conditions:

- 1. The property shall be developed in accordance with the site plan dated August 27, 2024, and as described in the project narrative submitted on August 28, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. New opaque screening material shall be added to all sections of the existing perimeter fence and shall be maintained.
- *3. Operating hours shall be limited to 7:00 am to 8:30 pm Monday through Friday.*
- 4. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 5. All conditions of zoning shall be made part of any plats created for the property.
- 6. The development shall be exempt from GCOD standards.
- 7. Any further development or renovation to the property is subject to GCOD standards.

49 **0 & 3902 Belmont Highway | Amend Conditions of Zoning |** on a 15.75 ± acre tract located on the east side of Belmont Highway approximately 1,770 feet from its intersection with Mountain Creek Road | Zoned PID; Tax Parcels 15013 00074 (pt.) & 000017B | **Proposed Use: Truck parking and office** | Commission District 3 | **Gus E. Simpson, applicant**

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

• Bill Haynes, 9463 Callus Mill Road, Lula

Commissioner Poole/Commissioner Stowe — approve with the seventeen (17) conditions listed below — unanimous

Conditions:

1. Development is approved as generally shown on the concept plan dated July 31, 2023, and described in the original letter of intent dated October 2,

2023 and updated narrative dated August 30, 2024, modified as necessary for compliance with development standards enforced at the time of site plan approval. Minor changes can be approved by the Planning Director provided there are no reductions in buffers, no changes in the structural design and materials, and the changes do not create the need for a variance from the Hall County development standards.

- 2. The proposed dump truck storage shall be limited to a maximum of 35 trucks on-site at any one time.
- 3. Light fixtures shall be installed with full cut-offs. Any existing fixtures shall be retrofitted to be full cut-off.
- 4. All proposed on-site improvements shall be located beyond proposed GDOT project limits.
- 5. Any building to be utilized for the business shall be inspected for compliance with commercial building code requirements. Should any improvements be required for compliance, work shall be completed and inspected prior to the issuance of a certificate of occupancy or business license.
- 6. All truck parking shall be located outside of the 300-foot Gateway Corridors Overlay District limit as depicted on Hall County GIS maps.
- 7. No gravel shall be permitted within the Gateway Corridors Overlay District. All employee parking areas and driveways shall be paved with asphalt or concrete.
- 8. No approval of the proposed use in Hall County shall constitute approval of the use on any portion of the property within Jackson County.
- 9. Plans for any further improvements or development of the property shall be submitted for review and appropriate permits obtained.
- 10. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property. "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 11. The hours of operation for the business shall be 6:30 am-7:00 pm Monday through Friday, and 6:30 am-12:30 pm on Saturday, and the business will be closed on Sundays.
- 12. The driveway shall be paved from the edge of road to the limits of the Gateway Corridors Overlay District (measuring 300 feet from centerline of the road).
- 13. The existing manufactured home and accessory building located within the limits of the Gateway Corridors Overlay District (measuring 300 feet from the centerline of the road) shall be exempt from GCOD standards, as the use will be dedicated to a caretaker/employee's residence for the business.
- 14. Direct sales of dirt, sand, gravel, mulch, and rock is prohibited on site.
- 15. The proposed entrance shall be approved and permitted by the Georgia Department of Transportation.
- 16. The annual business license renewal for calendar year 2025 shall be subject to Board of Commissioners approval.
- 17. There shall be no auctions, sales of vehicles, equipment or materials allowed on site.

50 6619 Lanier Island Parkway | Amend Conditions of Zoning | on a 3.85± acre tract located on the east side of Lanier Island Parkway at its intersection with Pass Drive | Zoned PCD (GCOD); Tax Parcel 07355 002002 | Proposed Use: Expansion of services | Commission District 2 | UHC of Atlanta North c/o Doug Weston III, applicant

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

• Doug Weston, 11300 Highway 92, Woodstock

Commissioner Powell/Commissioner Stowe — approve with the five (5) conditions listed below — unanimous

Conditions:

- 1. The property shall be developed according to the site plan dated July 31, 2024, and the project narrative received on August 22, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of the site plan approval. A maximum of 12 U-Haul vehicles shall be permitted on the property, with no more than 3 of these U-Haul trucks or trailers permitted to be parked at the development entrance.
- 2. All previous conditions from the February 23, 2017 zoning approval shall apply as amended herein:
 - a. The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at the time of site plan approval.
 - b. All storage units shall be enclosed with the exception of the boat sale storage at the front of the property.
 - c. No drystack or outside storage other than the boat sale storage shall be allowed without proper screening.
 - d. The boat sales office (Building 1) and boat storage as depicted in the site plan shall adhere to the Gateway Corridors Overlay District architectural standards.
- *3.* The monument sign shall be permitted to have internal illumination as shown on the elevations dated August 19, 2024.
- 4. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.
- 5. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.

51 **2522 Lee Land Road | Amend Conditions of Zoning |** on a 42.458± acre tract located on the north side of Lee Land Road at its intersection with Webb Girth Road | Zoned PRD; Tax Parcel 15030 000027A | **Proposed Use: Model homes within a townhome development** | Commission District 4 | **Trey Bell, applicant**

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

• Trey Bell, 4143 Schubert Road, Flowery Branch

Commissioner Stowe/Commissioner Powell — approve with the eight (8) conditions listed below — Vote: 4 to 0

Commissioner Cooper —aye

Commissioner Powell – aye

Chairman Higgins – aye

Commissioner Poole — abstained

Commissioner Stowe - aye

Motion passed.

Conditions

- 1. The property shall be developed in accordance with the site plan and project narrative approved on December 10, 2021, and updated with the site plan dated September 5, 2024, and narrative dated August 29, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated December 10, 2021, as amended shall apply:
 - a. The development shall generally occur as described in the site plan project narrative, modified for compliances with zoning conditions, Hall County regulations, and any other regulatory agencies at time of development.
 - b. The dwelling units with an overall site density not to exceed 4.1 dwelling units per acre.
 - c. Townhomes shall have a maximum of two stories.
 - *d.* The following standards shall apply to the development: *i.* Setbacks:
 - 1. Front -20 feet between garage and curb
 - 2. Side 20 feet from adjacent building
 - 3. Rear 20 feet from adjacent building
 - ii. Minimum heated floor area 1,450 sq. ft.
 - *iii.* A minimum of 2 off-street parking spaces will be provided per dwelling unit

- *iv.* With the exception of required stormwater or utility improvements existing trees and vegetative buffer will remain undisturbed.
- v. All façades shall be finished with a combination of brick, stone, stucco, or fiber cement type siding. Front facades shall incorporated changes in these materials to alter color or texture. Vinyl siding shall be prohibited
- vi. Materials and colors for exterior finishes shall be reviewed and approved by the Planning Director or their designee prior to construction
- vii. Each townhome shall have a single-car garage with a door that is no wider than 50% of the front façade of the individual unit.
- *viii.* Garage door shall be located a minimum of 20 ft. from the front edge of the sidewalk nearest the dwelling.
- 3. The development shall be limited to a maximum of 4 model homes prior to approval and recording of the final plat. Model homes permits may be issued prior to Final Plat recording provided that hard surfaces (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to Final Plat recording.
- 4. Amenities including a dog park and playground shall be completed prior to fifty percent (50%) build-out of the development. Additional amenities may be constructed by the developer at the discretion and approval of the Director of Planning and Zoning.
- 5. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.
- 6. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 7. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 8. Temporary parking for model homes of no more than six spaces may be located on lots other than those where the model homes are located. Final location is subject to the review and approval of the Director of Planning and Zoning or their designee.
- 52 **4610 & 4616 Winder Highway | Amend Conditions |** of a Planned Residential Development (PRD) on a combined 31.64± acre tract located on the south side of Winder Highway (GA-53); at its intersection with Plantation Drive | Zoned PRD; Tax Parcels 15037A000070 & 15037A000001 | Proposed Use: 88unit townhome development | Commission District 1 | Georgia South Development, LLC, applicant

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

• Steve Gilliam, 340 Jesse Jewell Parkway Suite 300, Gainesville

Opposition:

- Ryan Smith, 3926 Ellision Farm Road, Gainesville
- Terrell Strickland, 4606 Winder Highway, Flowery Branch

Commissioner Cooper/Commissioner Powell — approve with the twenty-five (25) conditions listed below — Vote: 4 to 1

Commissioner Cooper —aye

Commissioner Powell — aye

Chairman Higgins — aye

Commissioner Poole — nay

Commissioner Stowe - aye

Motion passed.

Conditions:

- 1. The property shall be developed in accordance with the site plan dated July 5, 2024, and as described in the project narrative dated December 3, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The development shall be limited to 74 townhome units.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. All front and side facades of each townhome pod shall be composed of brick, stone, or a combination of the two, excluding gables which shall be composed of a masonry product. Vinyl siding is prohibited. Homes shall be consistent with the submitted renderings. Final review and approval of building elevations is subject to the Assistant Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. All residential driveways shall measure no less than 22 feet from the rightof-way to the front of the garage door.
- 7. The development shall feature internal sidewalks no less than five (5) feet in width constructed on both sides of all internal streets, and shall also connect to the existing sidewalks along Winder Highway.
- 8. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.

- 9. The development shall be limited to a maximum of one (1) townhome building prior to approval and recording of the final plat. Model home permits may be issued prior to Final Plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to Final Plat recording.
- 10. There shall be a mandatory Homeowners' Association (HOA).
- 11. All roadways within the development shall meet all county standards and be developed for public use.
- 12. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 13. Vehicle parking for guests shall be no less than 20 spaces and mail kiosk parking shall be no less than 15 spaces as shown on the site plan dated July 5, 2024. All roadway design and parking configurations shall meet Hall County Traffic standards.
- 14. The amenity area shall include guest parking, outdoor pavilion, picnic area, playground and open area (natural) with pedestrian bridge, and a mail kiosk. The amenity area shall be completed by 50% of final buildout.
- 15. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 16. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 17. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision
- 18. The Open Space and lot configuration shall be designed to meet section 17.430.110.E and section 17.430.110.F, including the requirement that "F. The open space shall be directly accessible to the largest practicable number of lots within the subdivision. Non-adjoining lots shall be provided with safe, convenient access to the open space." The designed lot layout shall be approved by the Planning Director prior to submission of the application for a Preliminary Plat/ LDP application.
- 19. Aminimum 50 foot transitional buffer will be required along all property boundaries, as shown on the site plan dated July 5, 2024. A fence shall be installed along the northern boundary from Winder Highway to the 50 foot stream buffer and then south to the 50-foot stream buffer of the opposite stream running along the southern property line. The fence along parcel 15037A000002 shall beinstalled at 6 feet tall and shall be installed 8 feet inside of the transitional buffer into the subdivision. The remaining 42 feet shall be landscaped and shall include vegetation of 6 feet at planting. From the intersection of the subject property with parcels 15037A00002 and 15037A000030 to the stream buffer the fence will be 8 feet tall and 2 feet inside the transitional buffer. Applicant shall pay for and install a commercial

grade screen on the fence facing parcel 15037A000029 to the stream buffer. The fence from the stream buffer at the corner of 15037A000029 to the second stream buffer shall be 6 foot. Following installation of the fence and screen, the HOA of the development shall not be responsible for maintaining the screen. The property owner of parcel 15037A000029 has agreed to reimburse applicant up to \$5.00 per linear foot for the raising of the fence from 6 feet to 8 feet. Along Winder Highway, the 6 feet fence shall be installed on the inside of the 10 feet and the landscaping buffer would be on the roadside. Full landscaped with plan submitted to and approved by the Planning and Development Director. The planted buffers shall conform to the requirements as described in section 17.260.020 Vegetation Buffers and Vision Clearance.

- 20. The proposed stormwater pond shall be on a separate "utility" lot that is not a part of the open space.
- 21. The proposed sewer lift station shall be on a separate "utility" lot with design, ownership and access to be determined by Hall County Public Works prior to submission of the Preliminary Plat/LDP application.
- 22. The development shall be designed so that all state waters and required buffers (50' and 75') do not encroach on any individual townhome lot.
- 23. Townhome facades shall have a minimum 2-foot offset no less than every 2 units to add to the visual interest of the development.
- 24. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 25. There shall be a 50 foot buffer along the access easement which exists on the subject property from Winder Highway to tax parcel 15037A000002.
- 53 **5342 Robin Trail | Appeal of Administrative Official |** on a 2.15± acre tract located on the east side of Robin Trail approximately 740 feet from its intersection with Forest Way | Zoned AR-IV; Tax Parcel 15039D000018 | **Proposed Use: Single-family residence** | Commission District 1 | **Yuemian Zhen, applicant**

Mr. Lawhon introduced the item. Ms. Garmon discussed the item. Mr. Lawhon conducted the Public Hearing.

The following people addressed the Board:

Favor:

- Yuemian Zhen, 8360 Saint Marlo Fairway Drive, Duluth
- Rodney Clark, 2660 White Sulphur Road, Gainesville

Commissioner Cooper/Commissioner Poole — approve appeal with applicant obtaining retroactive permits with fees and penalties — unanimous

County Administrator

Mr. Propes addressed the Board. He stated the following:

- Hall County Offices will be closed on Tuesday, December 24, 2024 and Wednesday, December 25, 2024 in observance of the Christmas holiday.
- Hall County Offices will also be closed on Wednesday, January 1, 2025 in observance of the New Years Day holiday. Wished Hall County employees and their families a Merry Christmas and Happy New Year.
- Thanked Chairman Higgins for his service and leadership to Hall County. Propes noted that Chairman Higgins has made a generational impact on Hall County.

Commission Time

Commissioner Kathy Cooper, District 1, stated that she has enjoyed working alongside Chairman Higgins and he is a great person.

Commissioner Billy Powell, District 2, announced that the County has recieved notice that the DOT has given a notice to proceed on the Sardis Connector. Stated it was been a pleasure to serve alongside Chairman Higgins and called him a good leader for this community.

Commissioner Gregg Poole, District 3, wished Chairman Higgins continued great health.

Commissioner Jeff Stowe, District 4, stated that Chairman Higgins has been a great example of a commissioner and a God-fearing man.

Chairman Richard Higgins stated that it is all about working as a team. Stated that sometimes they do not always agree but they agree to disagree and move forward and make good decisions. Stated he appreciated the rest of the Board and what they mean to this County.

<u>Adjourn</u>

Commissioner Powell/Commissioner Stowe — adjourn at 7:56 p.m. — unanimous

Ratification Agreement

WHEREAS, reference is made to that certain Proposal for a Comprehensive Records Management System - Hall County Clerk's Office, dated October 8, 2019 (hereinafter referred to as the "Agreement"), from Kofile Technologies, Inc., the predecessor-ininterest to GovOS, Inc., a Delaware corporation, and accepted by the Hall County (Georgia) Clerk of Court; and

WHEREAS, the undersigned hereby desire to clarify the "Go Live" date and to otherwise ratify, adopt, and confirm the Agreement, and all terms and provisions thereof, to the extent and in the manner hereinafter set forth.

Now, THEREFORE, in consideration of the mutual benefits to be derived herefrom and other good and valuable consideration, the receipt and sufficiency of which are hereby accepted and acknowledged, the undersigned do hereby: (i) agree that the "Go Live" date, which also governs the term of the Agreement and its renewal options, was August 3, 2020; (ii) acknowledge that the Agreement had an initial term of twelve (12) months from the "Go Live" date and included four (4) one-year renewal options; and (iii) ratify, adopt and confirm the Agreement and all of its terms and provisions, and do hereby agree and declare that the Agreement, and all corrections and amendments thereof, are valid and binding on them as of the date hereof.

Introduction

Organizational Strength and Financial Stability:

Kofile Technologies, Inc. (Kofile) is a private corporation under the umbrella of Kofile Technologies Group, Inc. (f/k/a Kofile, Inc.). Its principal place of business is 6300 Cedar Springs Road, Dallas, TX 75235, and Kofile has five other Conservation and Digitization Laboratories across the US. Kofile currently serves numerous counties with complete records management solutions.

Kofile's record of accomplishment proves its ability to exceed a county's needs. This, and a reputation for outstanding customer service, has resulted in a significant market share in the industry. Kofile strongly believes that it is the most-committed company in the industry. Without question, it is the most financially backed. Kofile's financial structure is well suited to the needs of county governments. William D. 'Sonny' Oates is Kofile's CEO. Oates is a pioneer in the development and distribution of products and services to counties.

Kofile, its principals, directors, or majority shareholder(s), or any company Kofile has held a controlling interest in, or which has held a controlling interest in Kofile, has never filed for, involuntarily put into bankruptcy, nor declared bankrupt. Kofile's accounting department includes multiple personnel to guarantee a segregation of duties and a system of checks and balances. A computerized accounting software system assists with quality control and accounts receivable/payable. Kofile has three CPAs on staff, with a combined experience of over 75 years. As a privately held company, all corporate financial statements are CPA-prepared. Also, as a privately-held for-profit corporation, Kofile uses a national public accounting firm for internal audits.

Kofile Proposal Comprehensive Records Management System Hall County Clerk Office

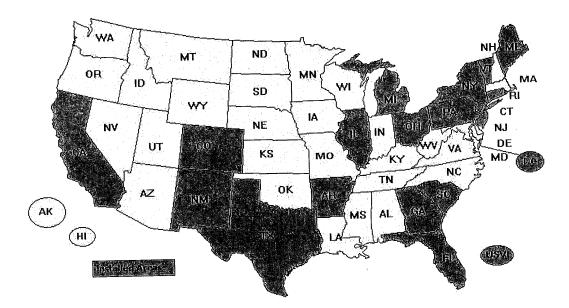

Kofile's Greatest Strengths - Kofile has the experience and technologies required to develop and support one of the leading edge records management solutions in the market today. Our knowledge and expertise from decades of involvement in records management offerings for government offices gives us a competitive edge, but our greatest strength is our commitment to continually offer the best solutions to work for your office. Each installation is unique and we will never treat it as a "cookie cutter" type project. Our team will take the time to understand your office's current processes and future vision in order to successfully develop our relationship to advance records management. When choosing Kofile, you are selecting more than a product and service but a partner who is dedicated to offering a solution that works in the present and in the future.

Summary of Kofile's Greatest Strengths:

EXPERIENCE - 140+ system installations 21 geographical areas and over 70 government offices	INNOVATION		SERVICE ORIENTED
	- Built-in auto-indexing - Built-in auto-redaction	- Custom Workflows - Custom interfaces, menus, fields, reports	 All inclusive support & maintenance package including quarterly releases Commitment to "Best in Class" service and "Raving Fans"
	- Self-service KIOSKS		
	 eCertification eFiling 	- Not a "cookie-cutter" solution	
	 FraudSleuth (with profiles) 	 Solution is tailored to your office's needs and 	- Continual focus on ongoing development
	 Email return of receipts and escrow account usage 	best practices	
	 CountyFusion Software Internet Services: designed to provide real- time information 		
a strange that we have been been been			and the state of the second

Experience

National Presence - The Kofile Team has extensive experience in implementing records management solutions for County Government offices. Below, is a graphical representation of our installation and support experience of 100+ system installations in over 70 government offices across 21 geographical areas.

Local Experience - Kofile has over 30 years' experience implementing, converting and supporting document management systems specifically designed for county government. The system being proposed for the County Office has been implemented in numerous counties. The implementation and development team who would be assigned to the County has extensive experience in installing and developing records management systems. Every team member has over 5 years' experience with government records management systems. Most staff members have over 15 years' industry experience. The team also stays on top of the industry news and best practices through association memberships, conferences, educational sessions and publications including:

- IACREOT International Association of Clerks, Recorders, Election Officials & Treasurers
- » NACRC National Association of County Recorders, Election Officials and Clerks
- PRIA Property Records Industry Association
- AIIM Association for Information and Image Management

Solutions for County Government

Our Mission

Our mission is to provide county government with cost effective tools, technology and services that will allow them to effectively and efficiently record, secure and access records and data.

Our Solutions

The versatility of CountyFusion's solutions and technology has been proven by the successful implementation of the solutions for land records, courts and licensing bureaus and by providing an electronic suite of platforms for eRecording, eFilings and eCertifications. We have also employed the resources and expertise to offer any entity a full spectrum of records management services ranging from on-site software/hardware installations, comprehensive training, ongoing support, data conversions and micrographics (scanning, indexing, archival) services all performed onshore.

Designed for county government, CountyFusion software allows the county holder of land and vital records to automate workflows, operate in an efficient and cost effective manner, utilize current resources, and better serve their constituents. CountyFusion can be expanded to incorporate other offices such as tax, assessor, and courts to create a comprehensive county records management solution. Kofile has designed the proposed system to be configured to a County's workflow. During the implementation process we work with you to map out the optimal workflow for your office based upon your desired operational efficiencies, your environment, volumes and staff. With our experts in workflow design, we provide our recommendations to ensure the workflow(s) will meet your needs and to best serve your constituents. At Kofile, we understand every County has their own special nuances, requirements, and proven workflows. For this reason, the decision was made to not sell counties a "cookie-cutter" solution, but rather a flexible and customizable solution, ensuring the County their unique needs and interests are considered and integrated into the final solution.

The Solution proposed for County addresses, meets and in many cases, exceeds all of the County's current requirements, while leaving enough flexibility to address future configurations and state mandated programs.

The Solution includes:

- CountyFusion Software
- Implementation Services
- Conversion Services
- Training Services
- Integration Services

Solution Overview

Kofile offers a total records management solution for county government offices. Our Solution encompasses the latest security and technologies through a full-spectrum of services enabling your office to reach three vital initiatives:

Digitize the Past

We can help county government offices digitize the past by converting historical land records into an easy-to-manage electronic format. We scan and index your archived records so you won't have to rely on original formats that are fragile and difficult to store and access.

Features:

- Images and indexes film, fiche, books, aperture cards and maps
- Legacy database conversions
- Data authentication
- Quality Control Reporting
- Film Archival

Automate the Present

Kofile helps county government offices automate their records management, maintenance, and reporting processes with CountyFusion, our customizable solution for recording offices. With CountyFusion, you can have peace of mind, knowing that your public records are organized, accurate, and supported by our ongoing service, support and development. Our CountyFusion technology is designed to help you serve your constituents with more speed and quality. Your staff will find it easy to use our system, because we design your customized system with their workflows and most important tasks in mind. With CountyFusion you'll quickly gain quantifiable improvements and peace of mind for your entire team. The Solution is designed to be userfriendly and promote accuracy and efficiency through advanced technologies and proven processes. It offers a streamlined method for the County to record, eRecord, index, image and retrieve records. The CountyFusion System will enhance the County's operational efficiencies, maximize its resources, improve the quality, integrity and security of the records and images, and allow County to enhance the services provided to constituents.

Features:

Recording

General transaction information entry | Cover sheets with barcodes | Quick Calculation interface to determine fees due for walk-ins

Cashiering

Automatic Calculation of Fees | Fees broken down by document and transaction | Detailed Receipting

• Scanning

Imaging | Batch Scanning | Supports Scan-first workflow and Self-Service KIOSKS

• Indexing

Advanced Indexing with OCR/ICR + Automated Indexing + Redaction + Automated Redaction + Verification

- Archival
 - Image to film archival in accordance with State guidelines
- Search portal

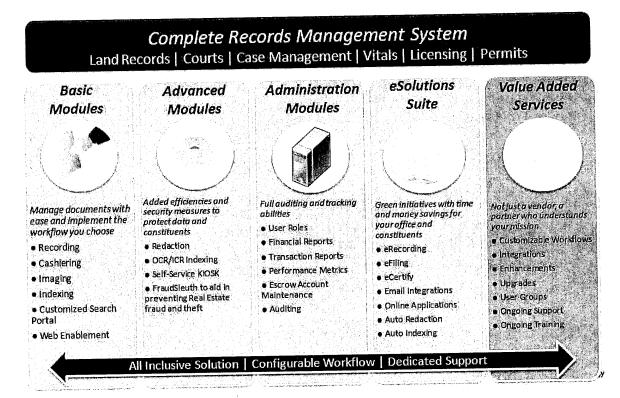

Secure Web-enablement | eProcessing | Private Labeling | Clerk's website for improved service and communications to public | Advanced search functionality to improve experience for agents and public | Professional/advanced searches for agents | Simple searches for general public | New Revenue Streams available immediately

Administration

User Roles | Financial Reports | Comprehensive Reporting | Auditing | Performance Metrics | Escrow Account Maintenance

- eSolutions SUITE: GO GREEN! and save time and money for your office and constituents.
 eRecording = eFiling = eCertify (additional fees would apply to add this feature) = Email Integrations (email receipts & documents) = Online Application Processing
- Value add-ons

Customizable Workflows | Integrations | Enhancements & Upgrades | User Group Meetings | Dedicated Ongoing Support & Training | Fraud Prevention Aid with FraudSleuth | Integrations with other County Offices | Data Conversions

Secure the Future

We can help county government offices secure the future by providing state-of-the-art backup and file protection services to keep public records protected from catastrophic loss. In addition, we are experienced in helping recording offices proactively develop a strategy for preserving, protecting, and recovering records in post-emergency situations.

Features:

- Central, secure database
- Redundant server off-site
- Disaster Preparedness
- Records accessible 24/7

4 levels of Replication: 1) on-site automated backup; 2) replication to data center; 3) automated backup at data center; and 4) archival to microfilm

CountyFusion Software Specifications

As a result of our discussions with County, our goal is to partner with your office and implement a solution that exceeds all of your business requirements and addresses the areas of opportunity that have been identified.

Together we will:

- Enhance your operational efficiencies to maximize resources
- Improve the quality, integrity and security of your records
- Improve the service provided to your constituents and agents
- Integrate other areas of the county to create consistency and eliminate redundancy
- Preserve and protect land records and other public records

Our proposed pricing includes the following products/services:

- CountyFusion Software Licensing
- Data and Image Conversion
- Implementation & Installation Support
- Hardware Equipment (includes installation and configuration)
- Ongoing Support & Development
- Ongoing Enhancements & Upgrades

CountyFusion Software System Software Modules

Imaging Module

The automated processes used during the image capture portion of the workflow are based on user preferences and or administrative controls. The system is customizable to allow for the individual to establish minimal computer-enhanced processes which will automate such routines like automatic cropping, de-skewing, de-speckling, etc. As some of these features are not necessary during the scanning process based on the quality of the document, some documents such as back file scanning of older books may require these functions.

The CountyFusion system can also be setup for administrative control of image processing feature to add more control of what information or image modifications are allowed by each user. Based on a detailed review of the parameters of the office and the documents captured, minimum standard requirements would be established to ensure no system operator modifies

any document beyond the acceptable limits of the captured image. This also helps ensure that a standard is followed and any document requiring enhancement is clearly identified immediately.

Cashiering Module

CountyFusion's Solution includes a robust, user-friendly cashiering module that tracks all monies taken and dispersed by your office. The CountyFusion System allows the County to accept and process multiple payment types including cash and check transactions, pre-paid escrow accounts, debit accounts, ACH electronic payments and credit card fund processing. The system provides customer account statements and the ability to invoice customers. CountyFusion provides the County ways to easily correct errors and monitor all activity through detailed audit trails. Each transaction can be tracked by user and by workstation to allow detailed reporting. The CountyFusion System allows a user to quickly switch logins at a workstation to ensure the transaction is recorded under their name. Close-outs can be done on demand or at desired times of the day

The CountyFusion system has a very robust reporting functionality which allows the administrator to track almost every aspect of production, transactions as well as financial and audit reports. Receipts are processed upon the acceptance of money for any transaction. Receipts can be generated on-screen and show details as desired by the County and be printed upon demand or automatically. Daily, weekly, and monthly receipting and other financial reports are available for balancing of funds. CountyFusion works closely with the County to ensure reporting requirements are met during the implementation process.

Advanced Indexing Module

The CountyFusion System is packaged with its own OCR/ICR technologies. The intelligent software is developed, maintained and supported by the Kofile team. The OCR/ICR engine in CountyFusion utilizes ABBYY as a 3rd party component.

The CountyFusion Solution streamlines the data entry and verification process for your office with advanced indexing capabilities:

- At the core of CountyFusion's scanning, imaging, and indexing solution rests CountyFusion's advanced Optical Character Recognition (OCR) and proprietary Intelligent Character Recognition (ICR) technologies that not only convert documents to electronic format, but also automatically identifies predetermined information within documents, such as parties to a contract, dates, legal descriptions, addresses, dollar amounts and other important information from unstructured documents.
- Optical Character Recognition (OCR) and Intelligent Character Recognition (ICR) which expedites indexing and improves accuracy of information through Automatic Identification, Automatic Validation and Automatic Population during the indexing process.

- Automatic Validation: The CountyFusion OCR engine compares the data entered into the system with what is on the document, using color coding to identify if it agrees or identifies discrepancies. Indexers can quickly identify areas that require attention.
- Automatic Identification: The CountyFusion OCR engine can also look up fields in the document to allow 'drag & drop' of text with parsing of data.
- Automatic Population: The CountyFusion ICR functionality (smart indexing) will automatically populate fields with data from the document. Certain rules are built into the system to look for pattern definitions or triggers to identify the fields.

Redaction Module

The CountyFusion System includes the ability to automatically and manually redact sensitive data on documents submitted for recording.

Kofile understands the importance of protecting citizens' private data and includes redaction capabilities in our proposed CountyFusion application. The redaction module is developed inhouse by Kofile's development team.

The redaction process for sensitive data such as social security numbers is handled in the indexing phase of each recording. The CountyFusion System includes redaction and auto-redaction features.

When a document is redacted, the CountyFusion System automatically saves the original document (to be accessible by staff) and creates a redacted copy which is available to the public. The redaction process for social security numbers is handled in the indexing phase of each recording. During the indexing process, the document is run through our OCR Engine to identify any social security numbers or any other predefined information or fields. This will allow the indexer or verifier to quickly identify any social security numbers and confirm redaction of them.

CountyFusion is designed to allow for customization of the use of certain utilities. This is one utility that can be utilized upfront when the indexing is being done on a document or as the document is being viewed by the public.

The CountyFusion redaction process is very detailed to ensure proper safeguarding of citizen's private information:

- Images are run through OCR/ICR processes identifying SSN and other identified sensitive information.
- Only the area containing the sensitive information is redacted by utilizing the autoredaction feature of the system or manually redacted by lassoing for handwritten data. Whole pages or portions of pages are never masked.

Financial Administration Module

CountyFusion provides the ability to capture financial information for all system transactions.

During the implementation process, CountyFusion tracks all monies that are accepted in the by the County Office and how these monies are distributed. The fee calculations are set-up by document type to allow the system to automatically calculate fees and taxes. There is a one click 'Accept Payment' option that allows the County to accept the fees for the processed document(s). The system allows the County to accept whatever payment method(s) that they want. The system has validation points and checks to ensure the correct amount of money is entered for collection – must match payment due or can tell you what change is due or allows you to enter 'change' into an overage account. The receipt is automatically generated. The details displayed on the receipts are defined by the County.

The amounts of all monies accepted are stored in the system and posted to County defined General Ledger accounts if desired. Detailed reports are available for cash-out summary and/or receipt registers to ensure you have the correct information for balancing money, close-outs and/or auditors.

County Search Portal

The CountyFusion System was designed with input from public users and title searchers from across the country. This feedback was critical to ensure the interface to access indexes, perform searches, view images and print documents are intuitive and easy to use. This proven interface would be available for the County's patrons from public workstations in the County Office.

Kofile's recommended solution includes the ability to provide patrons access to the County records online. The Solution provides County with the following:

- Secure website and County Portal that is intuitive and easy to use that is accessible via the internet or at the County office
- Public search site will mirror the search interface used by the internal County staff
- Option to charge for access (subscription fee) to the County Portal with all reporting and tracking of this information
- Ability to search, view and print from home, office or public workstations
- Ability to have watermark on printed images from the County Portal
- Clerk's website for improved service and communications to public
- Advanced search functionality to improve experience for various levels of users
- County-defined user levels such as:
 - Professional / advanced searches for agents that includes viewing of images
 - Simple searches for general public

FraudSleuth

CountyFusion's FraudSleuth aids in the detection of possible fraudulent activity regarding documents filed in County offices where land records are maintained. Property fraud has become an increasingly common concern in the United States. According to the FBI, it is the fastest growing white-collar crime. Identity theft has been a popular method used for fraudulent activity in which offenders gain benefits but property fraud is even more devastating especially when a portion of required information to commit the crime is on public record. Your office can take steps to protect your constituents' rights to their home(s) by empowering your office and constituents with FraudSleuth's easy to use features. County offices can prevent the loss of time, money and worries associated with correcting mortgage and deed fraud with simple look-up features directing the public to search their own name and property for documents recorded on public record or signing up for email alerts to be notified when a document is recorded on their name and/or property.

Integration with Other County Systems

CountyFusion's solution is designed to be conducive to integration with other systems. Kofile has implemented successful integrations in several counties with the CountyFusion system. Our team will work with your office to determine the integrations desired to increase efficiencies and eliminate redundant processes to save time and money for all involved departments. Integrations will be provided for mutually agreed upon industry data and image formats for systems integration. Kofile requires cooperation from the County's current vendors for integrations to be successful. Basic integrations are included with the Solution at no additional cost to the County. If integrations are more complex and additional costs are involved, a detailed statement of work will be presented to the County for review before proceeding.

eRecording Module

CountyFusion's eRecording Solution has been designed so that it is integral to the system and does not require third parties. Kofile offers our own eRecording portal eSecureFile, which fully integrates with the CountyFusion System. Documents submitted via eRecording are handled the same exact way as if they were submitted in person or by mail. The only change is your office's process has been simplified by eliminating all or most of the indexing requirements and scanning needs. Additionally, the CountyFusion System does and can integrate with third parties such as Simplifile, CSC, ACS, Tyler, Manatron, LPS, New Vision or ePN. The CountyFusion eRecording solution only requires that a submitter has access to the internet and a scanner.

CountyFusion assists with notifications to agents and submitters and provides training and Quick Reference guides on the County Portal. We have employed multiple levels of security including 128-bit encryption and PKI to ensure that all transactions are secure.

CountyFusion's eRecording solution is also seamless for the County. The office will have an additional method of receiving documents and can reduce the handling of paper within the

office. The County sees one process even if the eRecordings are submitted through another Submitter portal.

One of the tasks is called 'e-Processing'. When this task is selected, the recording staff can process documents the same way as any other document that is submitted to the office (with the elimination of the need to scan since this step will have been completed at the submitter's end). This includes the ability to override fees and indexing information depending on user rights, to add disclaimers to images, as well as offer ease in making changes to electronic labels, such as document types and fees.

Once the fees have been accepted, the document and receipt are automatically sent back to the submitter and the official recorded document resides in the County system. If a document does not meet County's recording requirements, it can be rejected in the same method as documents submitted by other methods (mail, walk-in etc...). The County staff would click the "Reject Transaction" button, select reason(s), type in any supporting details and an electronic letter would be generated. The letter and documents would be sent/returned to the submitter electronically via a secure connection.

CountyFusion's eRecording functionality is based on the most recent approved PRIA standards (PRIA DTD and iGuide). State regulations and PRIA standards have been used as guidelines throughout our product development. As an active PRIA member, KOFILE is committed to keeping up to date with the latest PRIA standards.

eSuite Solutions

<u>eCertification</u>: Ability to electronically certify documents and return electronically. In lieu of eCertifications, the County can opt to provide the ability for users to request and pay for Certified Copies on-line. The request is sent to the County Clerk's office with a copy of the document for processing and mailing.

<u>eApplications</u>: Ability to initiate application processes online including marriage applications. <u>Email Integration</u>: Ability to email account holders notifications account statements and escrow account summary bills. Receipts or rejections can also be emailed directly to submitters if desired.

Self-Service Kiosk

CountyFusion supports a self-service recording KIOSK that enables customers to scan documents for recording and remit recording fees using the KIOSK's scanner and intuitive touch-screen monitor. Upon submitting a document for recording with the self-service KIOSK, the original document is immediately returned to the customer, and an electronic image of the scanned document is placed in a queue for entry into the County's official records, eliminating the need for the County staff to handle paper documents.

All documents submitted to the Office, whether via the self-service KIOSK, the mail, the recording counter, or eRecording, are date/time stamped and placed into a central recording queue for entry into the County's official records, which is viewable to the public on a wide screen monitor in the County Clerk's Office, allowing each customer to determine the exact order in which documents are to be officially recorded. Once documents submitted via the self-service KIOSK are accepted for recording, a copy of the document is automatically emailed to the customer, usually within one hour of the initial submission to the KIOSK.

The increased efficiencies provided by the self-service KIOSK benefit both the County Clerk's Office and its customers. While the County staff is still available to interact directly with customers at the counter and to provide assistance with the KIOSK when necessary, the KIOSK's automated workflow allows the staff to spend less time handling paper documents and more time focusing on customer service and ensuring that documents are entered into the County's official records as quickly and accurately as possible.

Configurable Workflows

CountyFusion also understands that every County has their own special nuances, requirements, and proven workflows. For this reason, the decision was made to not sell counties a "cookie-cutter" solution, but rather a flexible and customizable solution, ensuring the County their unique needs and interests are considered and integrated into the final solution.

Designed for county government, CountyFusion software allows the county holder of land and vital records to automate workflows, operate in an efficient and cost effective manner, utilize current resources, and better serve their constituents. CountyFusion can be expanded to incorporate other offices such as tax, assessor, and courts to create a comprehensive county records management solution.

Kofile has designed the proposed system to be configured to a County's workflow. During the implementation process we work with you to map out the optimal workflow for your office based upon your desired operational efficiencies, your environment, volumes and staff. With our experts in workflow design, we provide our recommendations to ensure the workflow(s) will meet your needs and to best serve your constituents.

Reporting Module

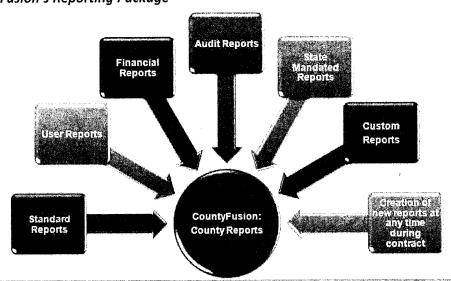

The CountyFusion software solution is packaged with a robust reporting module allowing for various types of reports to suit any county's needs. The system is able to generate but not limited to furnish any type of customized financial, administrative or performance report to either provide a quick summary or detailed listing.

The CountyFusion System is able to generate the following reports requested by County Clerk's Offices:

- Category Doc Numbers Contains the first document and last document numbers for the dates specified with Counts by Category of Documents.
- Category Docs Breakdown Contains a list of all the departments, categories and document types
- Category Fee Breakdown Contains a list of all the departments, categories, document types and fees associated, shows fee amount and configuration and indicates which fees are set as default fees.
- Category Fee Summary Summary of fees by category separated by cash (cash and checks) vs. non-cash with a total count of fees collected. Also displays category totals and a grand total.
- Category Totals Fee Totals broken down by category and references the general ledger Account Numbers associated to each fee. Gives category totals and a grand total.
- Check Log List all checks and Check amounts.
- Check Refund Log Displays all request for check refunds with the transaction#, date, cashier, first doc#, fee total, check number of original, amount of original, the refund amount and the name and address for the refund.
- Client Activity Shows total amount of activity on for each client that has an escrow account, separates the activity by charges and deposits. Also shows beginning and ending balances for each account.
- Client Current Balances Displays the current balance for each client that has an escrow account regardless of the balance.
- Credit Card Log List of all credit card and ACH transactions (e-Recording) totals broken down by card type.
- Daily Revenue Cashier Show break totals for each payment type for each cashier also incorporates beginning balances to show a true ending balance of the drawer.
- Day Book Report of all documents recorded for the date. Displays instrument #, book, page, date, time, instrument type, grantor, grantee and return to address. Gives a total number of documents for the day.
- Day Book by Instrument Number Same as the Day Book report, but ordered by Instrument Number.
- Deleted Report List all document that have been deleted (not expunged)
- Doc Type Fees All Fees Collected and displays total amount of each fee that was waived.
- Documents Checked Out Lists all documents currently checked out by users.
- Employee Production Cash
- Employee Production Index
- Fee Summary Gives a total count for each fee and the amount collected with a grand total.
- General Ledger Summary Give the total amount collected based on the general ledger account codes.
- General Revenue by Category Gives fee totals based on the Category
- Grantee Displays index information sorted alphabetically by Grantee
- Grantor Displays index information sorted alphabetically by Grantor

- Invoice Details Displays all Transactions charged to an account with the document number and instrument type listed, gives Running Balance and total owed or balance on account
- Invoices Displays all Transactions charged to an account with the document number range listed, gives Running Balance and total owed or balance on account
- Mailing Labels Displays all address that is flagged for return address labels.
- Mailing Labels by Doc Displays all address that are flagged for return address labels, sorted by Doc Number
- Missing Document Lists all the missing documents
- Missing Image Lists all the documents that do not have an image
- Missing Index Lists all documents missing indexed information
- Redaction Status Lists all documents that have not been reviewed for redactions
- Rejection Letter Generates a Rejection Letter for mailing to the customer
- Replenish Letter Generates a Replenish Letter for escrow accounts who's funds are low based on configured thresholds
- Scan Mismatch Lists all documents where the image page count does not match the cashiered number of pages
- Security Paper Voids Lists all security paper numbers that have been voided
- Statistical Report Lists the number of documents filed for each document type and the amount of money collected.
- Suspend Letter Generates a Suspend Letter for mailing to the customer when a transaction is Suspended
- Transaction Detail Shows all details of the transaction
- Transaction Summary Summarizes each transaction and displays the totals
- Transaction Void Detail Shows all details of the voided transactions
- Verify Report for User Indexing

Kofile's annual support and maintenance package also includes creation of reports and modification of reports for the duration of the contract. If data is entered/stored in the CountyFusion System a report can be created to suit your office's needs.

CountyFusion's Reporting Package

CountyFusion Comprehensive Reporting Package • If data is captured within the System, a report can be generated based on the data. • New reports and modification to reports are part of the support and maintenance package.

CountyFusion Software Technical Specifications

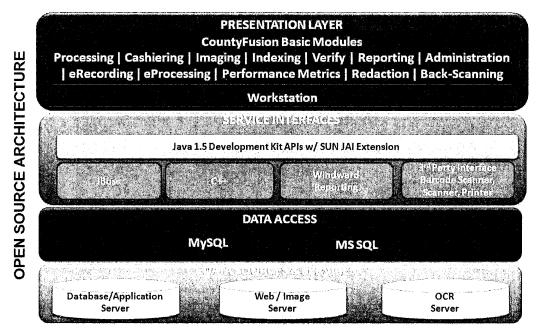

CountyFusion Application Architecture

Kofile's CountyFusion software is designed to be easily tailored to a County's specific requirements. CountyFusion is built on top of the Java 1.5 Development Kit APIs along with the SUN JAI extensions and some third party APIs for interfacing with scanners, printers, and bar code readers. All of the code in CountyFusion is written in the latest version of the Java programming language, with the exception of some interfaces for accessing OCR engines which are written in C++. These interfaces are called from the Java code. The solution that is offered in this proposal will specifically meet your County's requirements and will be of the latest version available.

The CountyFusion application is a Java based application. The application sits on each workstation and communicates with the database, application, OCR, image and web servers to process tasks.

The external county site where users can login to perform searches, order copies of documents, submit online applications and/or maintain account usage is hosted by Kofile in a JBoss environment.

CountyFusion Application Structure Diagram

A departmental license to use the CountyFusion software application is included in the cost of the proposed solution.

The CountyFusion application uses the following 3rd party components:

No.	3 rd Party Software	Purpose	Provider
1.	Windward	Reporting	Included in CountyFusion
2.	ABBYY	OCR/ICR	Included in CountyFusion
3.	Java	Software code base	Included in CountyFusion
4.	DeJa Viewer	Image viewer	Included in CountyFusion
5.	MySQL or MS SQL	Database	Included in CountyFusion
6.	Windows Server	Server OS	Included with hardware equipment
7.	Windows 7 and higher	Workstation Operating System	Included with hardware equipment
8.	Browser (Firefox, IE)	Search interface	Free download
9.	Adobe Reader	View receipts, letters, forms, reports	Free download

Support for all components is provided by Kofile as part of the annual support and maintenance package for software and hardware. Kofile will be responsible for ensuring the CountyFusion system will continue to function on future upgrades to the OS and Java.

Initial Configuration

A combination of client-server and 3-tier architecture allows us to share code among the modules and between the thin and thick client while allowing us to use the processing power of modern workstations and minimize the network traffic within the office. The thick client incorporates the UI for the desktop as well as the code from the thin client's middle tier and they both use the same database on the backend. All business logic and database access are in the shared code so enhancements and fixes to those areas are automatically available for both clients.

Delivery of Updates

Once builds have been tested, customers are advised of the new features that are available. JNLP and web interfaces are used to deploy to a single server to have clients update automatically from the next time that they start the CountyFusion application.

Kofile releases an update of the CountyFusion software system on a quarterly basis. All clients are given the latest version of the software 4 times per year.

KOFILE remedies software bug fixes under no formal release schedule and strives to correct a software bug (flaw or error that prevents a program from working as it was intended) as soon as feasible.

Upgrades and enhancements are driven by customer feedback, regulatory mandates and industry standards. As improvements are identified that will benefit the majority of our clients, they become part of our development strategy. We continually work with our customers to gather feedback on how the application can be enhanced.

Scope of Services

CountyFusion includes the installation, training and project management support to ensure the project is implemented on schedule and to specification. Following contract execution, our team meets with the County implementation team to review the project plan and to mutually define other key personnel for the term of the project. We work closely with the County team to determine how best to work together and limit demands on your time. During this meeting we also establish a weekly call schedule for regular updates and to make sure all information has been received. We will have a sign-off procedure for the agreed upon specifications. If changes are requested following sign-off, they will be reviewed and discussed with the County to determine the impact on the current project plan and timeline. We will manage change orders in coordination with the County with proper sign-offs as well.

Project Management

Kofile will focus on a partnership with County and dedicate the resources to ensure a smooth and seamless transition from your current environment to our proposed solution. The system is designed to be customizable to your specific workflows and environment. This flexibility allows your office to have input to create the desired solution and environment that will maximize resources and operational efficiencies. Kofile's expert team will provide insight and recommendations to continuously improve efficiencies.

As defined in the roll-out phases of the project plan, the first phase of the project will be the Project Initiation Phase and will include the following steps and will take place over a few days.

- Project kick-off
- Introductions of project team and definition of roles
- Detailed review of Technical Requirements to clarify and verify requirements. If any gaps are identified in this analysis, they will be reviewed and discussed with the County team. Additional specifications, details or enhancements will be documented and incorporated into the development and project plan.
- Collection of other details, sample forms, reports, field layouts, etc. for further review and assessment. Subject matter expert(s) should be identified within county that can be contacted on specific questions.
- Detailed assessment of hardware and workflow.
- High-level review of project plan, milestones and dates.

Kofile's project team will analyze the details collected above, build in any additional configuration or development and then finalize the detailed project plan to review with County for sign-off and execution.

Kofile assigns a project manager and project team that will work all involved parties to execute the phased project plan as outlined in this proposal. Our project management approach is very structured and includes regular meetings and status updates. These forums are usually used to identify any issues or concerns but the County can bring any concerns and issues to the project manager's attention at any time. Issues and concerns are reviewed and related impact to project is identified. The project manager will facilitate the resolution of any issues, in coordination with the County as appropriate, and communicate the resolution to the project team.

Kofile also has an escalation process that will be reviewed with the county during project planning phase. It is critical that the resolution and escalation procedures are reviewed and agreed upon during the project planning phase. Kofile will work with the County to follow any standard procedures the County may already have in place. The project manager will ensure the Kofile team adheres to the agreed upon processes and communicate effectively on a regularly scheduled basis with the County throughout the entire project.

- Kofile complies with industry standards that are relevant to our services and solution. Our organization will comply with any State, County and other regulations that would be involved in the contract with the County Office.
- Throughout the detailed project plan, review and approval steps are built for the County. This includes testing phases of the system as well.
- Kofile employs a team of internal quality assurance and review professionals that rigorously test system configurations and development and conduct quality assurance reviews and compliance testing prior to installs or deployments.
- Strict internal quality controls are also adhered to with regard to testing and product environments as well.

During the project planning and implementation phase, there will be various checkpoints and monitoring of the project being performed by the project manager, account manager, lead developer, quality control lead and implementation lead to:

- Confirm interpretation of the project is in line with the County's requirements
- Evaluate effectiveness of CountyFusion features to the County's desired workflow
- Participate in assessing hardware needs for procurement along with proper configuration
- Quality verification of data conversion including structures
- Quality verification and certification of requested integrations
- Responsible for verification of the design, procurement, installation, test and inclusion of appropriate acceptance criteria

Key Elements of Kofile's Implementation Approach

limit demand & time on County Resources

Key team members who will be involved with the County office are:

Role	Assigned Team Member
Executive Contact – Escalation of any matter including customer care, system related matters and contract related matters.	Kyle Chaney
Account Manager – General contact regarding Kofile's services and point of contact for any new projects to scope and quote.	Steven Farr
Senior Manager of Operations – 2^{nd} point of escalation for system and customer care related matters and manages implementations.	Jeff Rothenberg
Development Lead – Heads the release components, schedule and testing of new enhancements, features and integrations for the	William (Bill) Andrews
CountyFusion System.	
Supervisor of Customer Care – 1st point of escalation for system and customer care related matters.	Gwen Sina
Technical Support / Training Specialist – Responsible for assisting in implementation and training prior to and after go-live	Eric Fulton
Customer Care / Support Lead – General point of contact for system related matters.	Geoff Davis

Project Plan Deliverables

A detailed plan for product development, installation, data conversion, hardware acquisition and training was developed with a detailed timeline and clear deliverables. Detailed documentation will be presented upon contract award. Our deliverables include:

- Detailed installation plan and timeline with clear deliverables
- Comprehensive training for all users
- A fully operational application
- Plan for ongoing use and development
- Continued support plan

Below is a high-level overview of our implementation timeline. A detailed project plan is included with the installation of the CountyFusion System. The plan will detail all milestones and tasks to be reviewed and signed-off by Kofile, the Clerk's and the designated Project Champion.

Sample CountyFusion Installation Timeframe with Major Tasks

Index and Image Conversion from Legacy System

The Kofile team has imported and converted land records from numerous types of databases and files. Our approach to data conversion is to receive a sample file from your current system,

evaluate the file layout, determine file mappings and then determine the best way to convert into CountyFusion. Our required file format is quite flexible.

Kofile realizes that a successful data conversion is critical to a successful implementation of our software. Using our advanced technology, we ensure a timely and successful conversion of your current data. This expertise has allowed us to successfully convert numerous databases from multiple formats. We employ strict quality controls to ensure the integrity of your data. Testing and acceptance is done before your go-live date.

Kofile recommends following the PRIA standard XML output format when converting data. Since Kofile is very familiar with the different ways counties save their data from having converted data from over one hundred (100) counties, we are aware that you may have special indexing requirements and methods. For this reason, we analyze your records and do the work in mapping the data properly. Our team will work with your County to properly understand your indexing procedures.

During the migration process, Kofile will also perform an extensive pagination process to crosslink all data to the associated images. During this process, a rigorous Quality Assurance process or standard is adhered to in order to ensure a clean migration to our system. All functions within these processes are followed by detailed reporting of any errors, omissions or anomalies throughout the migration process.

The image file headers utilized within the CountyFusion application are all non-proprietary and standard image file formats. The image processing is designed to utilize a typical TWAIN driven device which will export an image to any typical TIFF Group 4 compression image file format. Our file formats are based on client requirements and all associated documentation will be provided as necessary.

Please note that the data conversion does not include verification of the accuracy of the existing indexed data. Kofile does provide queries that identify suspicious index content for the County's review. We ensure that all current data is converted into the new system correctly and is available for your end users.

Below is a high-level overview of CountyFusion's data conversion process:

- Receive Data & Images from County/Vendor in Agreed Upon Format (timeliness is critical to meet deadline)
- Review & Assess Data
- Confirm All Fields & Clarify Mappings
- Map Fields
- Test Conversion & Provide Quality Report
- County Acceptance of Test Conversion
- Data Cleansing and Additional Testing

- Final Sign-off of Conversion by County
- Complete Changes and Conversion
- Receive Data Gap @ Day End
- Final Conversion (at night)

Training

The CountyFusion Solution includes a thorough training curriculum to ensure all parties using and accessing the system are properly trained. KOFILE's trainers will work with the County's team and public searchers so they may reach an acceptable comfort level to take advantage of the System's benefits. It is Kofile's intention to cross train the County employees (where applicable) in order to provide the County with more opportunities for improved customer service. CountyFusion will allow County employees to continue within their current workflows, but will help them to index more documents and more fields in less time, improving accuracy and allowing them more time to assist customer/constituents. Additionally, CountyFusion can be easily accessible from employees' homes. The CountyFusion System will provide the ability to view previously created reports, as well as easily create new reports, with filtering and sorting tools. All reports will be available on a secure basis, ensuring that only those with approval are capable of creating, running and viewing these reports. For example, Managers will have the ability to run production reports to see employee production levels and error rates.

Training Package Highlights

- The Kofile team will train all users of the CountyFusion records management system at the office.
- Training materials and manuals are provided during the training. Ongoing updates and support materials are provided for the staff.
- Each user has a customized main menu based on their permissions. They will only see menu options which they access. Users click on a task to launch and can click next or previous to move forward. Required fields are highlighted and if any information is missing the System would not allow the user to move forward and list the missing data. Depending on the User's preference they can choose to navigate through the menu text, click on icons, or enter in hotkeys. All navigation instructions will be provided in a document and quick user guides and cheat sheets for users to familiarize themselves with the System.
- The training is conducted on-site and we combine class room training with on-the-job training which has proven to be very successful. Our implementation plan includes a period of time when our Solution is set up in parallel to your current system. This provides the environment to conduct user acceptance and on-the-job training as well. This allows the County to 'test drive' the Solution in your own environment before you 'go live'.
- The training provided for other clients and users of our system has been very successful. The system is designed to be user friendly and intuitive. Even 'non-computer literate' individuals become very excited during training because they are able to understand and use the interface in a short period of time.

Overview of CountyFusion Training Program

Kofile also plans to make annual user group meetings, scheduled in conjunction with County conferences, as a standard part of the organization to help drive product direction, address customer issues, inform customers on product feature/function and direction, provide product training sessions, identify industry trends, and facilitate industry knowledge transfer.

Below is a sample of a recommended outline for training users of the CountyFusion System. Please note, training schedules, number of sessions and duration of sessions can call be modified according to your office's requirements. Kofile is committed to providing the training necessary for your office to fully understand and successfully use the CountyFusion system to the fullest and will provide as much training as necessary to achieve this goal.

CLASSIFICATION	TIMEFRAME	SUBJECT MATTER	HOW CONDUCTED
System Administrator(s)	1 Full Day (classroom style) 3 Days of On-the-Job during implementation	Overview of entire system Setting up users Configuring of system Special edits	On-site; classroom style usually in conference room or such where there are no interruptions Can be conducted off-site if desired
All Internal Users	2 Hours	High level view of overall system to see how flow works and how the roles work together. Provides opportunities for questions Explain how detailed training will be done	On-site; classroom style usually in conference room or such where there are no interruptions Can be conducted off-site if desired
Deputies / Supervisors	2 Hours + Oversight	Details of accepting, recording and validating documents Incorporate office rules and procedures	Classroom style Return to workstations for practice / oversight
Staff	1 Day: Classroom Style On-the-job training / oversight during implementation	Subject matter is geared toward the roles & responsibilities of staff members; usually break- out into Recording/Indexing, etc. Some Counties want all to be crossed trained.	Classroom style Return to workstations for practice / oversight
General Public	Two 1 Hour Sessions (depending if implement cover pages)	How to use online services	On-site / Classroom Style On-line via the Internet
Title Searchers / Agents	Two 1 Hour Sessions	How to use online services Benefits	On-site / Classroom Style On-line via the Internet

Recommended Hardware Equipment

KOFILE recommends the hardware listed below with specifications for optimum results when using the CountyFusion application.

Annual Maintenance & Support Services

Annual Maintenance and Support Package Overview

Kofile will focus on a partnership with your office and dedicate the resources to ensure a smooth and seamless transition from your current environment to our proposed solution. The system is designed to be customizable to your specific workflows and environment. This flexibility allows your office to have input to create the desired solution and environment that will maximize resources and operational efficiencies. Kofile's expert team will provide insight and recommendations to continuously improve efficiencies.

Kofile provides a total and comprehensive solution with all-inclusive pricing. Annual maintenance includes general changes, upgrades, mandatory and regulatory changes, new reports, ongoing training and user groups. Kofile is dedicated to providing a total solution. Kofile also has annual user group meetings, scheduled in conjunction with conferences, as a standard part of the organization to help drive product direction, address customer issues, inform customers on product feature, function and direction, provide product training sessions, identify industry trends, and facilitate industry knowledge transfer.

Kofile is committed to ensuring that your office is satisfied with our installation. We will provide software product updates or upgrades which is part of our annual maintenance and support package. Any correcting upgrades are included in the agreed upon annual software and/or hardware maintenance and support pricing as well as any technical upgrades or enhancements.

Kofile Comprehensive Annual Maintenance & Support Package Summary

Annual Maintenance - Support Service Details for Software & Hardware (if applicable)

- All software maintenance and support is provided by Kofile
- Certain hardware maintenance will be provided by the manufacturer when warranty is applicable.
- Any OEM warranties on hardware will be passed onto County Kofile shall repair or replace a covered hardware component which has been determined to be defective at its option with new or reconditioned equipment. Customer agrees to assist Kofile in determining corrective action necessary to resolve malfunction. This may require an on-site visit by a Kofile representative or a third party representative authorized by Kofile

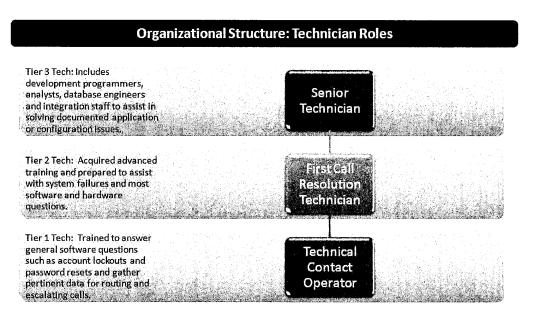

Contact Information

Kofile Customer Care Center provides you several service features:

SERVICE HOURS & SUPPORT OPTIC	ONS
BUSINESS HOURS SUPPORT	Monday – Friday 7:00AM CST – 7:00PM CST
(EXCLUDING KOFILE HOLIDAYS)	(888) 608-1808
	GSSupport@Kofile.com
AFTER HOURS SUPPORT	Emergency Support available 24/7
	(888) 608-1808
	GSSupport@Kofile.com
SELF-SERVICE URGENT MATTERS	Kofile has a knowledgebase available to customers via the self-service center online. The self-service center has been proven to be an efficient method of communication for response and resolution of customer's support needs. The center also allows customers to access a detailed view and status of their matter. Customers always have the option to escalate an issue if they feel the situation is not getting the attention it needs. If there is an urgent matter, please call the Customer Care center at
	(888) 608-1808. Emails are reviewed and routed during normal business hours only. <u>Please note, email should not be used for urgent issues</u> . If you have emailed an issue in and it becomes more urgent, <u>please call the</u> <u>Customer Care Center and have your ticket number available</u> .

Experienced Technicians

Kofile staff consists of three specialized areas for technician support. On average, our technicians have 8+ years industry experience per technician. All members of the team are dedicated to providing clients with timely resolutions coupled with streamlined communication ensuring your office is up to date on any customer care subjects inquired about.

Support Process

It is advisable for clients to always initially report issues to the Customer Care Center. By following this process, we can ensure your questions, issues and requests for enhancement(s) and regulatory changes are always logged and tracked in an easily accessible manner for our organization and your office. Your office will have the ability to look-up your outstanding or closed tickets through the self-service center as well. **Urgent issues should** <u>not</u> be reported via email.

REPORTING OPTIONS	
REPORTED VIA EMAIL	When your issue is received via email, you will receive an email confirmation message with the ticket number for your request. Please reference this ticket number when discussing this issue with us. A TCO Technician will review the information in the ticket and if there is sufficient information, the ticket will be either be resolved or routed to the appropriate queue. Upon being routed to a queue, tickets are handled in the order which they are received with business impact being weighed to determine prioritization.
REPORTED VIA TELEPHONE	When a call is made to the Customer Care center, a TCO technician creates a ticket and gathers important information from you. If the TCO cannot provide a solution for your call, they will verify technician availability for immediate response. If availability is confirmed, you will be transferred to a FCR

Technician. Over the last 6 months, Kofile Customer Care has averaged resolving about 45% of the issues during the initial phone call. If the FCR Technician cannot resolve the issue or one is not available, then your ticket is routed to the queue and you will be called back in the order received taking business impact into consideration. If you do not feel the issue is getting the attention it deserves, please make the TCO aware and they will escalate the ticket accordingly to ensure you are getting the desired response.

Escalation Process

Kofile's escalation path is to call (888) 608-1808 and ask for a manager about the issue referencing the ticket number. The escalation path has been established to better serve our customers.

Please utilize the escalation path by contacting a Support Manager when the following occurs:

- In the event you do not receive a ticket number when emailing <u>GSSupport@Kofile.com</u> or after speaking with a TCO.
- If you experience a work stoppage emergency and are told all support personnel are currently serving other clients. Please have ticket number available.
- Support personnel have not responded to your ticket and TCO are unable to provide you with an update. Please have ticket number available.
- You have a complaint about the service you receive. Please have ticket number available.

Approve the update to Hall County's Financial Planning Policies.

Meetings:

SUBJECT:

Work Session Date:	01/06/25	Voting Meeting Date:	01/09/25
Executive Summary	y :		
Presenter: Recommendation: Approve		TS	
Purpose of Request: Approve the update to Hall Count	ry's Financial Planning Policies.	History: Hall County's financial planning po the County's annual budget guide t consumption, and submitted to the Association (GFOA) for considera	Government Finance Officers
Facts and Issues: Over the course of the last 18 mor working with our financial advisor	nths, Hall County Staff has been s firm PFM Financial Advisors LLC	Options:	

working with our financial advisor's firm PFM Financial Advisors LLC to update our financial planning policies to be better in line with best practices for a local government of our size. This update is revising the language to better explain how Hall County will execute the financial goals and decisions of the County. The heaviest update lies in the area of debt management, and clearly lays out policies of how Hall County will go about issuing debt, and also how Hall County will evaluate it's financial position for debt issuance moving forward. These updates better align Hall County with surrounding municipalities for how financial policies are constructed and evaluated for a local government of Hall County's size when reviewed by a third party credit rating agency.

Funding Requested	\$ 0.00
Are funds within current budget?	No

Financial Planning Policy Update - Draft

Hall County has developed financial policies and procedures to ensure that the County's financial resources are managed in a practical manner and that the best practices are being followed.

Financial Planning Policies are in place to help establish guidelines for developing financial goals and objectives, making financial decisions, reporting the financial status of the County, and managing County funds. The formal budgeting process provides the primary mechanism by which key decisions are made regarding the levels and types of services to be provided, given the anticipated level of available resources. The County maintains the goal of a balanced budget to achieve long-term financial stability for its citizens and the community.

Basis of Budgeting

Governmental funds operate under the modified accrual basis of accounting and budgeting, including encumbrances. Modified accrual basis recognizes revenue as it becomes available and measurable, also recognized expenditures when the related liability has incurred. The County's accounting and budget system is designed to perform encumbrance accounting. Fiduciary and proprietary funds operate under a full accrual basis of accounting and budgeting. Accrual basis records revenues and expenditures as they are earned or incurred, even though they may not yet have been received or paid in cash.

Balanced Budget

The budget must be balanced for each budgeted fund. A balanced operating budget is defined as when total anticipated revenues and appropriated fund balances equals the total estimated expenditures for each fund. Hall County currently presents, adopts, and operates on a balanced budget on an annual basis.

Level of Budget Adoption

All budgets must be adopted at the legal level of budgetary control, which is the department level within each individual fund.

Budgetary Control/Reports

The County maintains a system of budgetary control reports to assure adherence to the budget. Timely monthly financial reports are prepared and distributed to the Board of Commissioners comparing actual revenues and outstanding encumbrances and expenditures with budgeted amounts. All County departments have access to revenue and expenditure comparison reports that can be run on a daily, monthly or annual basis.

Authorization of Budget Adjustments and Amendments

Because a budget is not a fixed revenue and spending plan, they require adjustments from time to The Director of Financial time. Services is authorized to approve any transfers of appropriations in any fund among the various accounts within a department or agency so long as the total budget for each department or agency is not increased. Annually, the Board of Commissioners adopt a Fiscal Year Budget Resolution that articulates additional levels of

authority related to budget adjustments and amendments for the Director of Financial Services, County Administrator, and the Board of Commissioners.

Appropriation Lapses at Year End

All operating budget appropriations, except Capital Project Funds, expire at the end of each fiscal year. Purchases encumbered in the current year but not received until the following year must be charged against the following year's budget, according to Generally Accepted Accounting Principles (GAAP). However, the Board of Commissioners may make a re-appropriation of funds in unusual situations or hardships caused by this policy when necessary.

Legal Authority Overview

Annually, the Chairman must submit a proposed balanced budget governing expenditures of all County funds. The Board of Commissioners before the start of the fiscal year to which it applies shall adopt the budget.

Long-Term Financial Planning

The County recognizes that long-term financial planning is a key process to the County's goal of being fiscally responsible. Primarily, the County uses a vision, mission, and goals/objectives approach to help guide the individual departments on a micro level. On a macro level, the County uses a comprehensive plan, strategic plan and trend analysis along with Pro-Formas to help determine its financial position and plan of action.

Financial Pro Forma Projections

The County prepares financial projections when making budget decisions to forecast future revenues and expenditures and to verify the County can maintain three months of reserves as per recommended best practices for a local government. During the budget process, the County forecasts revenues and expenditures for five (5) years beyond the current budget year. Funds included in the projections shall include all ad valorem tax funds including but not limited to General, Fire Services, Development Services, Emergency Services, Parks and Leisure Services.

actuals, proposed budget, and overall economic and financial conditions of the County. These forecasts help the County better plan where to allocate resources in current and future budgets. Above, you will see a snippet of the pro-forma summary for Hall County's General Fund.

Capital Project Improvement Plan

The County prepares a five-year capital project improvement plan that is updated annually. This cash flow plan assists with the planning, acquisition, and financing of capital projects. A capital project is generally defined by a project that helps maintain or improve a County asset. In order for a project to be included in a capital budget, a project must meet one of the following criteria: new construction, expansion, renovation, or replacement of a facility. Examples of capital projects include building/infrastructure construction, park improvements, streetscapes, land acquisitions, and vehicles.

Major capital projects are budgeted in the SPLOST fund, capital projects fund, impact fee fund, or state roads fund. Budget appropriation shall include the complete project costs with contingency amounts and impact (increase or decrease) to operating costs. All capital projects throughout the year are identified, with assistance from each department, the Board of Commissioners, Administration, and the Department of Financial Services. All identified projects will be added to the capital improvement plan, pending continuous evaluations of projected funding sources. These needed projects help provide a method of tracking and planning for the future needs of the County. The County also maintains a system of budgetary control reports to assure adherence to the budget.

Grants

The Board of Commissioners approves all grants and grant applications, except for grants under \$50,000 and do not include a County funding match. If the County is awarded a grant of less than \$50,000 with no funding match required from the County, the award of the grant shall be contingent upon the acceptance of the grant award by the Hall County Board of Commissioners in a public meeting. All key financial provisions, including required local match, must also be included in the approval process. Accounting and budget information is based on the Federal and State participation as well as the local participation. All anticipated grants are included during the budget process. The Director of Financial Services is authorized to establish budgets according to approved grant contracts and adjust accordingly so that grant budgets are balanced.

Investment Policy

It is the policy of Hall County to invest in public funds in a manner that will ensure the preservation of capital while providing the highest investment return with maximum security,

meeting the daily cash flow requirements of the County, and conforming to all state and local statues governing the investment of public funds. The primary objectives, in priority order, of the Hall County investment activities are:

LEGALITY – All investments shall be in accordance with the federal, state, and other legal requirements.

SAFETY – All investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective is to mitigate credit risk and interest rate risk.

LIQUIDITY – The investment portfolio shall remain sufficiently liquid to meet all operating requirements that can be reasonably anticipated.

YIELD – The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetaryDelegation of Authority

and economic cycles, taking into account the investment risk constraints and the cash flow fluctuations of the portfolio.

BENCHMARKING – The investment portfolio is designed with the objective of regularly meeting or exceeding a performance benchmark. The investment program shall seek to augment returns above thresholds, consistent with risk limitations identified herein and prudent investment principles.

LOCAL CONSIDERATIONS – Where possible, funds may be invested for the betterment of the local economy or that of local entities within the State.

Management responsibility for the investment program is granted to the Director of Financial Services, or designee, who is responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials.

Authorized Investments

Hall County, according to the law of the State of Georgia, is allowed to invest in the following types of securities:

- Certificates of Deposits
- Local Government Investment Pool, including Georgia Fund I
- Bank Deposits in a national banking association, federal savings and loan association, trust company, savings institution or federal savings bank located in Georgia or organized under Georgia law
- Direct and Agency Obligations of the United States

- Municipal Obligations
- Repurchase Agreements
- Prime Bankers' Acceptance

Diversification

It is the policy of the Hall County government to diversify its investment portfolio by maturity, issuer, and class of security to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions, or maturities.

Reporting

Investments are recorded as fair value based on quoted market prices as of the balance sheet

date. Increase or decreases in fair value during the year are recognized as part of investment income.

The Director of Financial Services shall submit quarterly reports to the Investment Committee to determine adherence to investment policy and contract. This report is used to evaluate the rate of return received with other benchmarks to determine the value being provided and to determine if any changes to allocation in the portfolio are necessary.

Revenue Policies

Due to the size of Hall County and the nature of its business, it is imperative that revenue projections be dependable and strategic planning be in place for use of these revenues. During the budget process, the County estimates its annual revenues by an objective, analytical process to project the most accurate reflection of the subsequent year's revenue stream. The County has

a practice of budgeting and monitoring each of its enterprise funds independently in which each enterprise fund is self-sustainable and not reliant on other funds to financially support its operating or capital expenditures.

Diversification

The County strives to maintain a stable and diverse system to shelter programs and services for any short-term fluctuations in any single individual revenue source associated with economic conditions. The County continually seeks to diversify its revenue base in order to reduce dependency on property taxes.

Property Taxes

Property taxes are one of the main sources of revenues for the County to fund state and local programs and services. Property taxes are recognized as revenues in the year for which they are levied. Property taxes are levied on the assessed values of all real and personal property. Real property consists of land, buildings, structures, and improvements associated with land. Personal property includes machinery, equipment, inventory, supplies, furniture, motor homes, motor vehicles, boats, etc.

Revenue Collection

The County follows an aggressive policy of collecting revenues, consistent with state and federal laws. This policy includes the charging of penalties and interests, when necessary.

Conservative Revenue Estimates

As a part of the annual budget process, an objective 3-year historical analysis with significant consideration of future estimated revenue is used to develop a realistic and sensible revenue projection. The County estimates revenues of a volatile nature conservatively.

One-Time and Volatile Revenues

The use of one-time or volatile revenues is allowed as they become available; however, these revenues should be used only for one-time expenditures and not for ongoing expenditures, as they cannot be relied upon in future budget years.

Contributions

Unless authorized by the Board of Commissioners, outside contributions to programs operated by County departments are subject to the County's accounting and budgetary policies. Both restricted and unrestricted contributions are welcomed to the County that are congruent with

its programs and objectives. The Board of Commissioners must approve any budget amendments for material contributions.

Fees and Charges

Hall County imposes certain user fees to fund the provision of goods and services. A fee is imposed because of public need to regulate activities. The County will avoid nuisance taxes, fees, or charges as revenue sources during the fee setting process.

Fees are used to offset the costs of services, including direct and indirect, such as operating and maintenance costs, administrative costs, and charges for the use of capital.

Fees are reviewed and updated on an ongoing basis to ensure the fee schedule maintains pace with inflationary adjustments and service delivery methods. The Department of Financial Services communicates any proposed changes to the Board of Commissioners for approval.

Expenditure Policies

Debt Policy

The goal of the County's debt policy is to maintain a sound financial position. Hall County recognizes the primary purpose of capital facilities is to support provision of services to its residents. Using debt financing to meet the capital needs of the community must be evaluated according to two tests - efficiency and equity. The test of efficiency equates to the highest rate of return for a given investment of resources. The test of equity requires a determination of who should pay for the cost of capital improvements. In meeting the demand for additional capital facilities, the County will strive to balance the load between debt financing and "pay as you go" methods. The County realizes failure to meet the demands of growth may inhibit its continued economic viability, but also realizes that too much debt may have detrimental effects. Through the rigorous testing of the need for additional debt financed facilities and the means by which the debt will be repaid, the County will attain an appropriate balance between service demands and the amount of debt. In addition, it is the County's goal to maintain and improve its credit rating through strong financial administration. For purposes of securing credit ratings and monitoring annual debt service as a percentage of operating expenditures, lease purchase financing is considered a long-term liability of the County and therefore will be issued under the same conditions as long-term debt.

When the County utilizes debt financing, it will ensure that the debt is soundly financed by:

- Conservatively projecting the revenue sources that will be used to pay the debt;
- Financing the improvement over a period not greater than the useful life of the improvements;
- Determining that the benefits of the improvement exceed the costs, including interest costs and staying above savings thresholds for refunding issuances;
- Maintaining a debt service coverage ratio which ensures that debt service requirements will not exceed net revenues pledged for the payment of debt; and
- Taking a prudent and cautious stance toward debt, incurring debt only when necessary, adhering to debt limits for net direct debt.

Purpose of Debt Issuance

Debt financing for capital improvements and equipment is generally issued for one of the following conditions:

- One-time, non-continuous project
- Project is necessary to provide services to the County citizens
- Future users will benefit from the capital improvement
- When total debt does not create an unreasonable burden to the taxpayers
- All other possible revenue sources have been exhausted

Debt Capacity/Limitations

The County's financing should not exceed the economic life of the capital improvement that it finances.

The County's *General Obligation* bonds cannot exceed legal limits established by the State of Georgia. The County further limits its direct net General Obligation Debt (debt secured and paid by the full faith, credit, and taxing power of the County) to the following:

- Net Direct Debt Outstanding as % of Total Assessed Value <3%.
- Debt Service as % of Total Governmental Funds Operating Expenditures <10%.

These metrics will be monitored annually and will not include self-supporting debt, including but not limited to the following:

- Debt issued on behalf of the Northeast Georgia Health System
- Debt paid for by SPLOST revenues; and/or
- Debt issued through other conduit issuers self-supported by revenues outside of the County's General Fund and/or other property tax supported funds.

The County may issue debt secured by enterprise revenues; however, net operating revenues shall produce *at least* a 1:1 debt service coverage unless a higher threshold has been established within governing documents.

The County may secure revenue bonds with a full faith and credit guarantee (General Obligation pledge). However, any revenue bonds secured by such pledge and not issued on behalf of County operated enterprises must have debt service coverage of at least 120% or 1.20:1. If the debt service coverage test is met, the County, in consultation with its legal and financial advisors, must

evaluate if the incurrence of such obligation may impact the County's credit rating and overall debt affordability prior to the incurrent of such obligation.

Based on the situational or project specific reasons, the use of variable rate debt can be utilized in a limited way to the extent that it presents a benefit to the County and does not exceed 20% of all outstanding debt of the County.

As a general rule, refundings will be undertaken if the net present value savings of a particular refunding will exceed 3% of the refunded principal. Refunding issues that a produce a net present value savings of less than targeted amounts may be considered on a case-by-case basis. Refunding issues with negative savings will not be considered unless a compelling public policy objective is served by the refunding.

Debt Structure

County long-term debt will be amortized for the shortest period consistent with a fair allocation of costs to current and future beneficiaries or users or to match the useful life of the project. The County will show a preference for the use of level debt service payments unless specific compelling reasons exist to structure the debt otherwise. The County's General Obligation debt will be structured to amortize at least 50% of the aggregate principal outstanding within 10 years unless when debt payments are associated with a specific revenue stream.

The County may issue short-term debt in the form of fixed or variable rate for the following circumstances: construction period funding, short-term projects, in anticipation of taxes, bonds or revenues.

Legal Compliance

When issuing debt, the County should comply with all local, state, and federal laws and regulatory requirements. In addition, the County follows numerous budgetary and fiscal policies. The County's goal is to protect its financial position while providing the best service to its citizens at the lowest cost. These goals are achieved through effective internal controls, judicious accounting, efficient budgeting, and analytical planning procedures.

The County is committed to transparency to the financial markets including rating agencies, regulatory agencies, underwriting market, investors, and other market participants. After the incurrent of debt, the County should comply with its continuing disclosure obligation in accordance with SEC Rule 15c2-12.

Types of Debt

Hall County can issue any form of debt that does not contradict the existing Constitution and laws of the State of Georgia. These include but are not limited to:

- General Obligation Bonds
- Revenue Bonds
- Contracts Payable

- Capital Leases
- Certificates of Participation
- Loans

Authorities which are registered with the Georgia Department of Community Affairs can incur debt or credit obligations. Similarly, the County has established several authorities which have the authority to issue debt. From time to time, the Board of Commissioners may consider the approval of bond documents from authorities (such as the Gainesville-Hall County Development Authority or the Hospital Authority of Hall County and the City of Gainesville) or other County entities, including future formed entities. The consideration of such bonds does not necessarily represent a financial commitment of the County. In some cases, the bonds may be paid for and/or secured by revenues outside of the County's General Fund and/or other property tax supported funds. In those cases (as stated previously), the debt capacity / limitations ratios are not included in the County's measures of debt affordability. According to Georgia law, bonds, obligations, and other indebtedness incurred by development authorities do not constitute an indebtedness or obligation of the State or County. Unless otherwise specified within a lease or intergovernmental agreement, authority debt is not considered a financial commitment of the County; however, if it is to be paid from the General Fund and/or other property tax supported funds, the County will include it in its policy limitations.

Credit Evaluation

The County, along with external advisors, shall review the County's credit quality and associated credit metrics based on the current audited financials. Such evaluation should consider the County's current financial and economic conditions, County's historical trends, and peer group comparisons. This information is intended to provide the County several key indicators of its financial health.

Reserves/Fund Balance for Account Stabilization

As a measure of the general fund's liquidity, it is useful to compare unassigned fund balance to total fund expenditures. It is Hall County's policy to maintain unassigned fund balance of no less than 15% of total annual expenditures. However, Hall County's goal is to maintain a reserve of

25% (or three months) of operating expenditures. At the end of fiscal year 2023, unassigned fund balance represented 24% of total general fund current operating expenditures, which is consistent when compared to last year. This is within the County's policy.

Utilization of Prior Year's Fund Balance

In the case that projected revenue does not cover projected requirements of the County, the resources classified as unreserved fund balance may be budgeted to cover any revenues shortages in the current fiscal year. The amount of unreserved fund balance should be estimated conservatively, taking into consideration future needs. Unassigned fund balance may be used for operating and capital expenditures.

Every year, Hall County includes a contingency amount in the General Fund's budget. Beginning in FY 2020, a general contingency was added to the Fire Fund to account for unexpected expenses incurred during the year. A contingency is money set aside to cover unexpected costs during the year for costs that cannot be foreseen when the budget is adopted. The contingency amount shall be subject to annual appropriation. For fiscal year 2025, \$625,000 has been appropriated for contingencies.

Operating/Capital Expenditure Monitoring

County Administration and the Department of Financial Services monitor the County's budget throughout the year. Each month, a report is prepared and submitted to the County Administrator and Board of Commissioners comparing actual operating and capital expenditures to the budget. This is reviewed monthly to ensure that current expenditures are following the plan set forth by the current year's adopted budget. Capital expenditures are also reviewed in order to ensure that capital funding is being spent

according to the original plan approved when funds were obtained. If funds are not being spent according to plan, corrective action can be taken to avoid any issues, including expenditure reduction, reallocation of capital funds, and pursuit of additional funds. The Department of Financial Services is responsible for reviewing and processing any budget change requests in accordance with the County's approved budget resolution.

County management is responsible for establishing and maintaining an internal control structure that is designed to ensure the County's assets are protected from loss, theft, or misuse. These internal controls also help provide reasonable assurance that adequate information can be compiled for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP).

Capital Asset Policy

Fixed assets are assets that are purchased for long-term use and are not likely to be converted quickly into cash. The County defines capital assets as assets with an initial, individual cost of \$5,000 or greater and an estimated useful life in excess of two years. Assets can fall into one of the following categories:

- Land and Land Improvements
- Construction in Progress
- Buildings and Improvements
- Intangibles

- Infrastructure
- Machinery and Equipment
- Nonstructural Improvements
- Vehicles

Any asset with an initial, individual cost less than \$5,000 is charged to an expense account other than a capital outlay account.

Reporting

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, culverts, and similar items), are reported in the applicable governmental or business-type activities.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the County has chosen to include all such items regardless of their acquisition date or amount. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the assets constructed. Due to the diversification of the County's assets, the

County is also subject to reporting intangible assets as it relates to GASB 87 and 96 for lease and subscription-based IT arrangements. In reviewing the reporting requirements, the County set a capitalization threshold of these assets at \$100,000. This threshold was set to be in line with our audit materiality thresholds for our normal operating funds.

Annual Inventory

Annually, an asset listing is sent to each department for their review. Each department verifies the existence of their capital assets. If any material assets are identified that are not included on the listing, or if any assets that the department no longer possess are on the listing, they notify the Department of Financial Services of these findings for further action. The Department of Financial Services, with the cooperation of the department, may perform a physical inventory to verify the accuracy of inventory records, including condition of all major assets.

Transfer, Disposal, or Replacement of Assets

All capital assets are the property of the County. Any donated, discarded, or transferred assets must be authorized by the Department of Financial Services. Surplus assets should be sent to the Department of Financial Services for disposition. The Department must submit requisitions for approved capital assets using the County's purchasing policies and procedures for capital assets. If the item is not budgeted, County Commission approval is obtained prior to proceeding. Each

department makes all reasonable estimates for maintenance or replacement of capital equipment during the budget process.

Depreciation

The County records depreciation annually after capital assets are reconciled for footnote disclosure, including acquisitions, transfers, deletions, and disposal at the end of the fiscal year.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

- Buildings 50 years
- Nonstructural Improvements 20 years
- Machinery and Equipment 5 to 20 years
- Vehicles 3 to 10 years
- Water Lines and System 50 years
- Infrastructure 19 to 70 years

Approve the annual sole source contract #031-45 Emergency Medical Pharmaceutical Supplies & Services for Fire Rescue to Northeast Georgia Medical Center, Inc. of Gainesville, GA. The estimated annual cost is \$85,000.00.

Facts and Issues:

Fire Rescue EMS has been buying Pharmaceutical Supplies and Services, including controlled substances and Narcotics, from Northeast Georgia Medical Center for some time. The last Agreement was executed March 26, 2003. This agreement continues to be a very positive and successful relationship with the Medical Center's ability to supply such items, and it desires to contiune its professional, curteous and prompt responsiveness to the County's needs. This agreement is just to update the relationship by written contract. This is year 1 of the contract with 4 options to renew.

Funding Requested Are funds within current budget? Source of Funds

Previous spend: FY 2023 \$101,816.88, FY 2024 \$78,951.85. The estimated amount is based upon prior averaged usage. Actual usage is dependent upon number of accidents in any given year where such supplies are needed which can be difficult to gauge.

Options:

\$ 85,000.00 Yes Emergency Services

Does the action involve a Resolution, Ordinance, Contract, Agreement, etc.?	Yes

NGMC has been the County's sole provider for Emergency Medical Pharmaceutical Supplies & Services, including all controlled substances & Narcotics for years. NGMC is in good standing with the County as a trusted vendor. This is a new contract for existing supplies and services to document a formal agreement. This is the initial year with four (4) one-year renewal options. Annual spend may vary depending on number of EMS trips and usage.

Hall County Government

PURCHASING DIVISION

STATE OF GEORGIA COUNTY OF HALL CONTRACT # 031-45

For the provision of EMERGENCY MEDICAL PHARMACEUTICAL SUPPLIES & SERVICES

ARTICLE #101 – INTRODUCTION

This Contract for EMERGENCY MEDICAL PHARMACEUTICAL SUPPLIES & SERVICES is made and as entered into as of the last date of signature below (execution date), is by and between <u>Hall County, Georgia, (hereinafter "County") principally located at 2875 Browns Bridge</u> Rd, Gainesville, Georgia 30504, and <u>Northeast Georgia Medical Center, Inc. (hereinafter "Hospital")</u>, principally located at 743 Spring Street Gainesville, GA 30501.

WHEREAS Hospital is an entity that is legally registered and qualified and holding any such licenses and certifications as may be required to render Emergency Medical Pharmaceutical Supplies & Services (hereinafter "Services") in the State of Georgia. County and Hospital are known individually as a "Party" and collectively as the "Parties", and

WHEREAS Hall County Fire Rescue EMS located at 470 Cresent Drive, Gainesville, Georgia, 30501 operates ambulance and emergency response services within the County and is duly licensed under the laws of the State of Georgia to do so, and employs personnel who have been certified by the State of Georgia, Department of Human Resources, as Emergency Medical Technicians ("EMTs") and Paramedics, in accordance with Georgia law, and

WHEREAS County desires to purchase Emergency Medical Pharmaceutical Supplies & Services including; Pharmaceuticals, Prescription Narcotics, Certain Intravenous Drugs. Solutions. Medications, and certain Schedule I, II, III, IV or V Controlled Substances (herein "Drugs"), and delivery materials to administer said Drugs, as described on Attachment 1 - List of Medications which have been approved by the State Medical EMS Director that can be administered by currently and duly certified Emergency Medical Technicians, Advanced EMT or Paramedic in accordance with the Georgia Controlled Substances Act (O.C.G.A. 16-13-20 et. seq.), and under Approval by Food and Drug Administration as prerequisite to sale of controlled substances and dangerous drugs for resale; to stock its Fire Rescue EMS Ambulances and other Emergency Response Vehicles, as needed, pursuant to the order of a physician duly licensed by the State of Georgia, and

FINANCIAL SERVICES DIRECTOR Taylor Samples, CPA

ASSISTANT FINANCE DIRECTOR Elizabeth White

> PURCHASING MANAGER Andy Penick

WHEREAS the Hospital represents that it complies with the State of Georgia requirements for corporations and has signified a willingness to provide Medications and Services to the County, and the County has relied on such representation, and,

WHEREAS the Parties mutually desire to enter into this Contract to document the provision of Services by the Hospital to the County in exchange for payment as compensation; and,

WHEREAS this contract will become legally binding upon signature by both Parties, and

WHEREAS Nothing contained in this Contract shall be construed to convert the Hospital or any of its employees, agents, into a partner, employee, or agent of the County, nor shall either Party to this Contract have any authority to bind the other in any respect.

WHEREAS any attached documents, exhibits, attachments, or references are all incorporated herein by reference;

Contract for Services Exhibit A – Mandatory Bid Response Sheet Exhibit B – This Document Exhibit C – N/A Exhibit D – W-9 (N/A – Established Vendor) Exhibit E – Mandatory E-Verify Affidavit Exhibit F – Mandatory Ethics Affidavit Attachment 1 – List of Medications Revised 11-08-2024

NOW, THEREFORE and in consideration of the mutual promises, terms, conditions, covenants, and agreements made as expressed and contained herein, or attached, incorporated, and made a part hereof, and other good and valuable consideration expressed by a valid offer and acceptance, the receipt and sufficiency of which the Parties hereby acknowledge, the Parties hereto agree as follows:

- 1. Representations:
 - a. County represents and warrants that it shall operate in Hall County, Georgia ambulance and emergency response vehicles duly licensed under the laws of the State of Georgia and that upon the execution hereof and the reasonable request of Hospital during the term, hereof, shall provide evidence thereof to Hospital.
 - b. County further represents and warrants that during the term of this contract it shall have in its employ Emergency Medical Technicians (EMT), Advanced Emergency Medical Technicians (AEMT), and Paramedics who are County employees duly certified under the laws of the State of Georgia and that it shall provide to Hospital upon the execution hereof and from time-to-time upon the reasonable request of Hospital during the term hereof the names and evidence of the certification of each such Emergency Medical Technician, Advanced Emergency Medical Technicians, and Paramedic under the laws of the State of Georgia.
 - c. County further represents and warrants that the intravenous solutions medicines have been approved by the State Medical EMS Director as medications which can be administered by a currently duly certified EMT,

AEMT or Paramedic and such medications will be administered solely by such,

- d. Subject to all conditions herein contained, and for use solely in connection with the operation of the duly licensed ambulance and emergency response vehicles service, Hospital agrees to sell to County and County agrees to purchase from Hospital upon the execution hereof and compliance herewith, intravenous solutions and medications sufficient to supply the licensed ambulances and emergency response vehicles of County. County agrees to pay Hospital for the intravenous solutions and medications and medications and delivery supplies at fair-market-value not to exceed 7.5% above cost for medications listed on <u>Attachment 1 List of Medications</u> attached hereto.
- e. Hospital agrees to invoice County monthly for the medications sold hereunder and that County shall pay Net 30 days from receipt of an accurate and correct invoice.
- f. County agrees that all prescription drugs shall be subject to the control and access shall be the responsibility of its duly certified employees in accordance with the Controlled Substances Act of Georgia (O.C.G.A. 16-13-20 et. seq.).
- g. Both Parties agree that this contract may be modified by Amendment to comply should and State or Federal law governing such be changed or modified henceforth.
- h. County agrees that the intravenous solutions and medications shall be administered only in connection with the operation of duly licensed ambulance service and only by currently certified Emergency Medical Technicians, Advanced Emergency Medical Technicians, or certified Paramedics, pursuant to the order of a physician duly licensed by the State of Georgia as the same may now exist or hereafter be amended and the laws, rules, and regulations of the Federal Government as the same may now exist or hereafter be amended.
- i. County and Hospital agree that Hospital shall have no obligation to make the sales referenced herein if any of the representations and warranties herein set forth are not continuing and correct during the term of this contract.
- j. Parties agrees that a copy of this contract must be filed with the Georgia Drugs and Narcotics Agency. County shall be responsible for such filing.

ARTICLE #102 - CONTRACT

Definitions: The terms "Contract", "Memo of Understanding", "Memo of Agreement", Agreement" shall mean one and the same for the purposes of this contract.

Licenses: County warrants that it is duly certified to operate Ambulances and other Emergency Response Vehicles under the Laws of the State of Georgia and will present such authorization to Hospital upon request.

Cost: Given market and supply volatility, County agrees to pay as compensation cost for items listed on <u>Attachment 1 – List of Medications</u> at reasonable fair-market-value not to exceed 7.5% above cost for medications listed on Attachment 1 – List of Medications attached hereto.

ARTICLE #103 - NOTICES

. . .

To the extent that either Party to this Contract is required to provide notice(s) to the other Party in compliance herewith, then the Party shall direct notice(s) to the following persons:

COUNTY PROJECT MANAGER

Division Chief Bobby Ogletree Hall County Fire Rescue EMS Division 470 Cresent Drive Gainesville, GA bogletree@hallcounty.org Ph: (770) 530-5164

Gainesville, GA 30501

Notice shall be deemed given upon (1) the date of delivery in person or (2) three business days after depositing same in the mail using USPS, return receipt requested.

ARTICLE #104 – NON-EXCLUSIVE RIGHTS

The Contract is not exclusive. The County reserves the right to select other Hospitals to provide the Services similar to those described in this Contract during the term of the Contract should the need arise, or the Hospital fail to perform. The Hospital reserves the right to provide the Services similar to those described in this Contract to other parties.

ARTICLE #105 - CONTRACT TERM

The term of the Contract shall be for one (1) initial year from January 10, 2024 (the "Effective Date"). The parties may thereafter mutually elect to renew the agreement in one (1) year increments up to four (4) times by executing a renewal agreement prior to the expiration of the current term

ARTICLE #106 - CONTRACT AMENDMENTS AND MODIFICATION

This Contract may only be modified, amended, or changed in writing and fully executed by both Parties hereto. This Contract constitutes the sole and entire Contract and understanding between the Parties as to the subject matter hereof, and no verbal promises have been made by either Party in relation hereto.

ARTICLE #107 - REMEDIES AND CONTRACT PERFORMANCE

In the event that either Party to this Contract breaches this Contract, including failure to meet the timetables set forth herein, the non-breaching Party shall provide a written Notice-to-Cure to the breaching Party which describes the breach of this Contract. The breaching Party shall have thirty (30) days from the date of receipt of the written Notice-to-Cure the breach or to otherwise negotiate a resolution of the breach. If the breach has not been cured and the Parties hereto have not resolved the issue described in the Notice-to-Cure by thirty (30) days after receipt of the letter, the Party authoring the letter shall be entitled to seek any and all remedies allowed by Georgia law, including but not limited to termination of this Contract. Additional provisions are:

A. Delay or Impossibility of Performance.

Neither Party shall be held liable or responsible to the other Party nor be deemed to have defaulted under or breached this Contract for failure or delay in fulfilling or performing any obligation under this Contract when such failure or delay is caused by or results from causes beyond the reasonable control of the affected Party including, but not limited to, fire, floods, embargoes, acts of war, civil unrest, insurrections, riots, strikes, lockouts or other labor disturbances, or acts of God; provided; however, that the Party so affected shall use reasonable commercial efforts to avoid or remove such causes of nonperformance, and shall continue performance hereunder with reasonable dispatch whenever such causes are removed. Either Party shall provide the other Party with prompt written notice of any delay or failure to perform that occurs by reason of force majeure.

Definition: The term "force majeure" as defined in Black's Law Dictionary is "an event or effect that can be neither anticipated nor controlled. It is a contractual provision allocating the risk of loss if performance becomes impossible or impracticable, especially as a result of an event that the Parties could not have anticipated or controlled."

B. **Obligations Beyond Contract Term.** The Contract shall remain in full force and effect to the end of the specified term or until terminated or canceled pursuant to ARTICLE #108 – TERMINATION PROVISIONS.

C. Transition Cooperation with the County and Cooperation with Other Hospitals. Hospital agrees that upon termination of this Contract for any reason, it shall provide sufficient efforts and reasonable cooperation and assistance to the County to ensure an orderly and efficient transition to the County or an alternative Hospital. Further, Hospital shall not engage in any act that will interfere with the performance of work by any other Hospital(s).

. 1

ARTICLE #108 – TERMINATION PROVISIONS

Either party may terminate this Contract for any reason by providing thirty (30) days written notice to the other Party at any time. Should this Contract terminate prior to the date of automatic termination, Hospital shall provide the County with all deliverables up to the date of termination and the County shall pay the Hospital for all products or medications in compliance with the terms of this Contract up to the date of termination.

A. Hospital and County agree that this contract shall be terminated as follows: Immediately upon the termination of the license of County for the operation of emergency ambulance service in Hall County, Georgia;

B. Subject to (a) above Hospital and County agree that the following shall result in termination hereof if uncured within thirty (30) days from the date of written notice thereof:

1. The violation of any law, rule or regulation now existing or hereafter in force governing the administration of the intravenous solutions or the medication, which are the subject hereof, by County or any of its employees, except that where the continuation hereof during said thirty (30) day period shall amount to a continued violation, in which event performance hereunder may be suspended by either party until final termination or cure.

2. Upon any representation as set forth in this Agreement ceasing to be true; except that performance hereunder may be suspended by either party during said thirty (30) day period until final termination or cure.

3. Upon the uncured default of any material requirements of this Agreement of either party hereto of any of its obligations as contained herein, said termination to be at the written election of the non-defaulting party within thirty (30) days after the discovery of the breach.

4. Upon a Party becoming insolvent, making a general assignment for the benefits of creditors, suffers or permits the appointment of a receiver for its business or assets, or becomes subject to any proceeding under any bankruptcy or insolvency law whether domestic or foreign, or has would up or liquidated, voluntarily or otherwise.

Notice of Default. If either Party defaults of any of its obligations hereunder, then the nonbreaching Party shall issue a written Notice of Default to the breaching Party requesting that the breach or noncompliance be remedied within thirty (30) days or any other reasonable period of time specified in the Notice of Default. If the breach or noncompliance is not remedied within the period of time specified in the written notice, the non-breaching Party may: immediately terminate the Contract for default without additional written notice; and/or seek any and all legal or equitable remedies available to the non-breaching party

C. Termination Due to Non-Availability of Funds. This Contract will terminate immediately and absolutely if the County determines that adequate funds are de-appropriated such that the County cannot fulfill its obligations under the Contract, such determination being at the County's sole discretion and conclusive. County agrees to provide prompt written notice to Hospital in the event of any de-appropriation.

D. Termination due to Failure of Hospital to Act. The County may terminate the Contract for any of the following reasons effective immediately without advance notice:

 If the Hospital must be certified or licensed as a condition precedent to providing the Services, the revocation, suspension, or other loss of such license or certification may result in immediate termination of the Contract effective as of the date on which the license or certification is no longer in effect. E. Event of Termination. Upon termination of this Agreement, neither party shall have any further obligations hereunder except for (1) obligations accruing prior to the date of termination; and (2) obligations, promises, or covenants contained herein which are reasonably intended, by their terms, to extend beyond the term of this Agreement. In the event of termination of the Contract for any reason by County, the County shall pay only those amounts, if any, due and owing to the Hospital for Services actually received and accepted by the County up to and including the date of termination of the Contract and for which the County is obligated to pay pursuant to the Contract.

F. Hospital's Termination Duties. Upon receipt of a Notice of Termination, the Hospital shall:

- 1. Cease work under the Contract and take all necessary or appropriate steps to limit disbursements and minimize costs.
- 2. Immediately cease use and return to the County any personal property or materials, whether tangible or intangible, provided by the County to the Hospital.
- 3. Comply with the County's instructions for the timely transfer of any active files and work product produced by the Hospital under the Contract.
- 4. Cooperate in good faith with the County, its employees, agents, and Hospitals during the transition period between the Notification of Termination and the substitution of any replacement Hospital.
- 5. Hospital is to immediately return any payments made by the County for goods and services that were not delivered by the Hospital.
- G. RESERVED

ARTICLE #109 – RESPONSIBILITY

Each party agrees to be solely responsible for its negligent acts or omissions in the performance of its activities hereunder and the negligent acts or omissions of its employees, officers, or directors, to the extent allowed by law. The parties agree that this section is only a statement setting forth the limited responsibility of each party for its own acts of negligence, and is not and shall not be construed as any contractual or other obligation to defend, indemnify, or hold harmless the other party or any third party.

ARTICLE #110 - ASSIGNMENT AND DELEGATION BY HOSPITAL

Neither Party shall assign or delegate this Contract, or any performance required by it, in whole or in part, without the prior expressed written consent of the other Party.

ARTICLE #111 - USE OF THIRD PARTIES (RESERVED).

ARTICLE #112 - ENTIRE CONTRACT

This Contract, as executed and approved, shall constitute the entire agreement between the Parties and supersedes all other prior and contemporaneous statements, agreements, and understandings between the Parties. No written or oral statements, agreements, or understandings that are not set out, referenced, or specifically incorporated in this Contract shall in any way be binding or of effect between the Parties.

ARTICLE #113 - SEVERABILITY

If any paragraph, sub-paragraph, sentence, clause, phrase, or portion of this Contract is declared invalid or unconstitutional by any Court of competent jurisdiction or if the provisions of any part of

this Contract as applied to any particular situation or set of circumstances shall be declared invalid or unconstitutional, such invalidity shall not be construed to affect the remaining portions of this Contract not so held to be invalid or the application of this Contract to other circumstances not so held to be invalid. However, both Hospital and County covenant and agree that at all times the provisions of this contract are to be in accordance with and subject to all Federal, State and County laws and regulations relating to the subject matter hereof and that any amendment thereto shall constitute an amendment herein.

ARTICLE #114 - RECORDS

- A. Public Records Request. The Georgia Open Records Act, as provided in O.C.G.A. § 50-18-70 et seq, requires procurement records and all other records received by or prepared or maintained on behalf of the County shall be made open to public inspection unless otherwise provided by law.
- B. Record Retention and Access. The Hospital shall maintain books, records, and documents in accordance with generally accepted accounting principles and procedures and which sufficiently and properly document and calculate all charges billed to the County throughout the term of the Contract for a period of at least four (4) years following the date of final payment or completion of any required audit, whichever is later. Records to be maintained include both financial records and service records.

ARTICLE #115 - ADDITIONAL TERMS

The County shall not be bound by any terms and conditions included in any Hospital's salesorders, literature, packaging, invoice, catalog, brochure, technical data sheet, on-line representation, warranties or service level agreement, or other document which attempts to impose any condition in variance with or in addition to the terms and conditions contained herein.

ARTICLE #116 - WAIVER

The failure of any Party hereto to seek a remedy for any alleged breach of this Contract shall not constitute a waiver of any claim, cause of action, or remedy allowed by Georgia law for breach thereof.

ARTICLE #117 -- HOSPITAL AND COUNTY RIGHTS AND OBLIGATIONS

A. The County has the right at any time to require the Hospital to stop delivery of any intravenous solutions and medications considered by the FDA, or reasonably adjudged by the County, to be hazardous or toxic to persons, buildings, or surfaces. The Hospital will utilize acceptable substitutes approved by both Parties as quickly as possible. In the event of such replacement, Hospital shall notify County of any resulting replacement.

ARTICLE #118 – INSURANCE REQUIREMENTS

The Hospital must procure and maintain insurance policies at the Hospital's own expense and must furnish the County with a certificate of insurance (COI) providing evidence of proof of coverage at least in the amounts indicated in this subsection. The policy must protect the Hospital and the County from any claims for bodily injury, property damage, or personal injury covered by the indemnification obligations set forth herein throughout the duration of the Contract. The Hospital must maintain the following insurance coverage during the term of the Contract, in at least the minimum amounts set forth below, to cover all loss and liability for damages or

destruction of property caused by or arising from any and all services carried on and any and all work performed by the Hospital pursuant to this Contract:

Workers Compensation Insurance: Required for all contracts.

- \$500,000 Bodily Injury by Accident Each Accident
- \$500,000 Bodily injury by Disease Each Disease
- \$500,000 Bodily Injury by Disease Each Employee

General Liability Insurance: Required for all contracts.

- \$2,000,000 General Aggregate
- \$2,000,000 Products & Completed Operations Aggregate
- \$1,000,000 Each Occurrence
- \$1,000,000 Personal & Advertising Injury
- \$500,000 Damages to Premises/Fire/Legal
- \$5,000 Medical Payments

<u>Commercial Auto Liability Insurance: Required for all contracts</u>, except for goods and/or services that are remote in nature and/or are delivered by a professional delivery service.

- \$1,000,000 Combined Single Limit Or \$500,000 per Person/\$1,000,000 per Occurrence
- \$100,000 Property Damage
- \$1,000 for Medical Payments (no fault coverage)

Additional Provisions:

- Uninsured motorist's coverage should be equal to the per occurrence limit except for contracts with other governmental entities.
- Coverage shall be included for any owned, leased, hired, or non-owned autos.
- For any contracts involving the transportation of hazardous materials, limited pollution endorsement ISO form CA9948 or its equivalent shall be on the policy.

Umbrella Liability Insurance: Required for all contracts.

\$1,000,000 per Occurrence

Additional Provisions: Required for all contracts.

- Underlying coverage shall be General Liability, Automobile Liability, and Employers Liability (Workers Compensation).
- Minimum limit of \$5,000,000 per occurrence for all contracts over \$1,000,000 or involving any special risks or high hazard activities.
- Minimum limit of \$5,000,000 for automobile coverage for any transportation contracts involving seniors, special education, transit services, students, or youths.
- Concurrent policy dates with primary liability policies except for workers compensation.

<u>Professional Liability Insurance (Errors & Omissions)</u>: Required for all professional service contracts. This shall include any consultants, medical, legal, technical, insurance agents, or other professions that require proper licenses.

- \$1,000,000 Each Claim/Wrongful Act
- \$2,000,000 General Aggregate

 If written on a claim's made policy, the policy must be maintained for at least two (2) years after the completion of the work and/or contract.

Builders Risk (Not Applicable):

At all times during this Agreement, County shall maintain the following: (a) Commercial General Liability insurance and applicable professional liability insurance in the amount of not less than \$1,000,000 per claim/\$3,000,000 aggregate per year (b) Worker's Compensation Insurance for the employees of all of their respective contractors and subcontractors with minimum limits of \$1,000,000.

ARTICLE #122 - COUNTY PAYMENT TO HOSPITAL

A. The County will issue a Notice to Proceed ("NTP") and a Purchase Order(s) ("PO") to the Hospital. The terms of this Contract shall be incorporated by reference into any PO(s) issued prior to the expiration or termination of this Contract. The County will issue the NTP and PO(s) by electronic mail (e-mail) to the Hospital's representative as specified by Hospital. A PO is considered "issued" when the e-mail containing the PO is sent by the County to the Hospital.

The Hospital shall not deliver any Services, equipment, devices, or components thereof until authorized in writing by the County through issuance of a PO, which shall provide a commencement date. Any work including, but not limited to, travel, preliminary meetings, planning, etc. performed outside of the terms and conditions of and before the issuance of a PO will not be considered for payment. Hospitals are not to begin work or ship any product on any verbal communication from the County. The County will not be liable for payment for any work or product with the issuance of a verbal communication.

The Scope of Services shall remain in effect from the NTP date to completion of the project. The Parties agree that the County will not pay or otherwise compensate the Hospital for any Services, materials, equipment, devices, or components thereof outside of the Scope of Work and/or beyond the term of this Contract, unless specifically authorized in writing as evidenced by an amendment pursuant to ARTICLE #106 – CONTRACT AMENDMENTS AND MODIFICATION.

B. Invoice/Payment

1. Hospital shall invoice the County via email each month solely to accountspayable@hallcounty.org Invoice amounts shall not exceed the Hospital's pricing set forth in ATTACHMENT 1 – LIST OF MEDICATIONS REVISED 09-11-2024.

2. Each properly prepared invoice must be sent in accordance with the instructions listed on the PO. Each invoice shall include the Hospital's current "Remit to" address, a description of the Services provided, the invoice amount, the Contract number, and the associated PO number issued. Standard payment terms are net 30 days (N30) in arrears from the date the undisputed invoice is received, following delivery of the Services. The County does not pay for services not yet received but only in arrears.

3. The Hospital shall be solely responsible for paying all costs, expenses, and charges it incurs in connection with its performance under the Contract.

C. Unsatisfactory Performance/Delay of Payment

1. If the County determines that the quality of the Services provided are deficient, unacceptable, or unsatisfactory the County's Project Manager identified in ARTICLE #103 – NOTICES shall issue a written Notice to Cure to Hospital. Hospital agrees that upon receipt of the written Notice to Cure it shall make every effort to correct the deficiency(ies) within the timeframe prescribed therein. If the Hospital fails to timely correct the

deficiency(ies), the County reserves the right to terminate the Contract pursuant to ARTICLE #108 - TERMINATION PROVISIONS.

D. Set-Off Against Sums Owed by the Hospital. If the Hospital owes the County any sum under the terms of this Contract, pursuant to any judgment or pursuant to any law, the County may set off the sum owed by the Hospital against any sum owed to the Hospital, in the County's sole discretion.

E. Final Payment. Hospital shall issue an invoice for final payment to the County no later than thirty (30) days following the expiration or termination date of the Contract.

ARTICLE #123 - PERFORMANCE AND PAYMENT BONDS (Not Applicable)

ARTICLE #124 - RETAINAGE (Not Applicable)

ARTICLE #125 - VENUE AND GOVERNING LAW

The Parties agree that this Contract shall be interpreted, construed, and enforced in accordance with the laws of the State of Georgia. Should either party bring a legal suit to enforce the terms of this Contract, including suit in equity, the Parties agree and consent to file any such suit in the Superior Court of Hall County, Georgia.

ARTICLE #126 - NOTICE OF INTENT TO LITIGATE

Each Party hereby agrees not to file any civil action of disputes or claims relating to the Contract except after first giving thirty (30) days written notice to the other Party of the claim and the intent to initiate a civil action.

ARTICLE #127 - GEORGIA SECURITY AND IMMIGRATION COMPLIANCE ACT (E-Verify)

A. By signing this Contract, the Hospital certifies that prior to and throughout the performance of all applicable work under this Contract it will remain in full compliance with all federal and state immigration laws including, but not limited to, 8 U.S.C. § 1324a and the Georgia Security and Immigration Compliance Act (O.C.G.A. §13-10-90 et seq.), as amended by the Illegal Immigration Reform and Enforcement Act of 2011 regarding the verification of employment eligibility of employees under the Immigration Reform and Control Act of 1986. Hospital will ensure that only persons who are citizens or nationals of the United States or non-citizens authorized under federal immigration laws are employed to perform services under this Contract or sub-subcontract hereunder.

B. Hospital further certifies its compliance with the aforementioned federal and state immigration laws set forth by signing a sworn affidavit, the Georgia Security and Immigration Compliance Act Affidavit (herein known as *Exhibit E – E-Verify Affidavit*), notarized by an Official Notary Public and incorporated herein by reference, and obtaining the same affidavit(s) from any sub-Hospital providing services pursuant to this Contract.

ARTICLE #128 – ORDER OF PRECEDENCE

In the event of any inconsistency, ambiguity, or conflict among the specific provisions of the Contract, the order of precedence shall be as follows:

- 1. Any amendments to the Contract, including all exhibits thereto.
- 2. The Contract itself, including all exhibits thereto.
- 3. Attachments appended to the Contract.

4. All other Contract attachments appended to the Contract.

ARTICLE #129 - CONTRACT EXHIBITS AND ATTACHMENTS

The Parties mutually acknowledge that all exhibits and attachments listed below made a part of this Contract are herein incorporated into this Contract by reference.

ARTICLE #130 - SALES TAX EXEMPTION STATUS

The County is exempt from State of Georgia and Local Sales and Use Tax. The Hospital understands and acknowledges that they are responsible for any sales and use tax they may incur. The Hospital will not charge the County any sales and use tax as a separate line item, as required by law as long as the County provides the required documentation to Hospital. The County will send the Hospital a copy of the County's Georgia Sales and Use Tax Exemption Certificate upon signing the Contract.

ARTICLE #131 - HOLD HARMLESS AGREEMENT

Intentionally Omitted.

ARTICLE #132 - NOT A JOINT VENTURE

Hospital shall be engaged by County as an independent contractor to provide services in accordance with the terms and conditions hereof. Hospital accepts engagement as an independent contractor on the terms and conditions stated herein. Nothing in this Agreement will create any association, partnership, joint venture or employer-employee relationship between the parties. Neither Party will hold itself out as an agent or employee of the other party nor make any statements, representations, or commitments of any kind, or take any action purported to be binding on the other party.

ARTICLE #133 - CONTRACT TERMS AND CONDITIONS

- 1. The County represents that all purchases will comply with the Official Code of Hall County Sections 3.10.010 3.10.190.
- 2. Reserved
- 3. The terms "Hospital", "vendor", "bidder", "offeror", "Hospital", "designer", "distributor", "dealer" or "manufacturer" or otherwise purveyor or source of supply or performance of service shall mean one and the same, herein denoted as "Hospital" for goods and "Hospital" for services.
- 4. The terms "goods", "materials", "commodities", "components", "drawings", "drafts", "renderings", "plans" (physical or digital), software, SaaS, capital asset equipment, vehicles, heavy earth-moving or other equipment (purchased or leased), or other such deliverables are herein denoted as "goods" and shall mean one and the same.
- 5. "Services" shall mean all services, either financial, advisory, consultative, labor, staff augmentation, construction, rehabilitation, restoration, repair, support or maintenance, communication, telephony, internet, TV or streaming, pest control, grounds maintenance, custodial and janitorial, street or paved surfaces cleaning, drain cleaning, or otherwise where services are offered for consideration.
- 6. The Hospital shall transfer and deliver all goods or services described on the respective PO for the consideration set forth herein.
- 7. The Hospital shall only deliver goods and services as described on the respective PO and within the Scope of Work and the Hospital's bid response.
- 8. The County holds no obligation to pay for goods delivered or services rendered unless specified on a written PO or a Change Order of such.

- 9. The Hospital shall not construe any verbal consent to purchase goods or services as valid.
- 10. The County does not accept substitutions of services or goods that do not comply with the Scope of Work or specifications set forth in the PO, Contract, or Agreement, unless mutually agreed in writing by both Parties.
- 11. The County does not accept automatic contract renewals except for monthly subscription services.
- 12. The County does not pay deposits towards goods ordered. Exceptions exist for custom made items such as window treatments, floor coverings, pre-mixed paints and stains, fabrication, decoration, or otherwise custom designed products specifically for the County.
- 13. The County will accept backorders if goods are out of stock and with prior written notice. If the medications are out of stock or low stock, Hospital shall allocation such product among its customers in its absolute discretion.
- 14. The County participates in cooperative purchasing agreements, State of Georgia Statewide Contracts, and other state and local intergovernmental agreements, memoranda of understanding and other such agreements.
- 15. Deliveries go to the ship-to addresses listed on the PO. The Hospital must follow instructions if multiple ship-to addresses exist on the PO.
- 16. The County shall have the right to inspect and reject all goods and services, if they are nonconforming or deficient, at the time and place of delivery.
- 17. Title to the goods shall remain with the Hospital until acceptance by the County.
- 18. The Hospital warrants that goods are merchantable, and the Hospital has a legal right to deliver the goods and services and as described herein.
- 19. The County is exempt from Federal Excise Tax and Georgia Sales and Use Tax.
- 20. The County represents that this issuance of a PO shall not violate the Code of Ethics and Conflicts of Interest for Public Officers and Employees for Government Service set forth in the 2020 Section 45-1020 *et seq.* of the Official Code of Georgia Annotated and the Official Code of Hall County Section 3.10.070 governing Ethics.
- 21. All goods and services supplied pursuant to a PO shall, unless otherwise stated, conform to all the descriptions, specifications, exhibits, and attachments contained in the bid solicitation upon which a PO is based, and all the terms, conditions, and specifications of the bid solicitation are incorporated herein by reference and made a part hereof.
- 22. The Hospital certifies that to the best of its knowledge it and its suppliers have not been debarred, suspended, or declared ineligible by any agency of the County, State of Georgia, or as defined in the Federal Acquisition Regulation (FAR) 48 C.F.R. Ch. 1 Subpart 9.4.
- 23. The Hospital certifies that it is not currently engaged in an active or pending lawsuit or other grievance, injunction, or levy against the County.
- 24. Goods are Free-On-Board (F.O.B.) destination and freight. Shipping and delivery shall be prepaid and added to the invoice as a separate line item. The Hospital shall charge the County the exact amount of freight, delivery, handling, and insurance charges the Hospital incurs.
- 25. In the event there is a discrepancy between the unit price and extended price, the unit price shall govern.

EXHIBIT E MANDATORY E-VERIFY AFFIDAVIT

The undersigned contractor ("Contractor") executes this Affidavit to comply with O.C.G.A § 13-10-91 related to any contract to which Contractor is a party that is subject to O.C.G.A. § 13-10-91 and hereby verifies its compliance with O.C.G.A. § 13-10-91, attesting as follows:

- The Contractor has registered with, is authorized to use and uses the federal work authorization program commonly known as E-Verify, or any subsequent replacement program;
- b) The Contractor will continue to use the federal work authorization program throughout the contract period, including any renewal or extension thereof;
- c) The Contractor will notify the public employer in the event the Contractor ceases to utilize the federal work authorization program during the contract period, including renewals or extensions thereof;
- d) The Contractor understands that ceasing to utilize the federal work authorization program constitutes a material breach of Contract;
- e) The Contractor will contract for the performance of services in satisfaction of such contract only with subcontractors who present an affidavit to the Contractor with the information required by O.C.G.A. § 13-10-91(a), (b), and (c);
- f) The Contractor acknowledges and agrees that this Affidavit shall be incorporated into any contract(s) subject to the provisions of O.C.G.A. § 13-10-91 for the project listed below to which Contractor is a party after the date hereof without further action or consent by Contractor; and
- g) Contractor acknowledges its responsibility to submit copies of any affidavits, drivers' licenses, and identification cards required pursuant to O.C.G.A. § 13-10-91 to the public employer within five business days of receipt.

FINANCIAL SERVICES

EXHIBIT F MANDATORY ETHICS AFFIDAVIT

Contractors, consultants, and vendors of any service or commodity to Hall County, Georgia must read and affirm to adhere to the following ethics requirements for compliance with the Official Code 3.10.070 of Hall County-Ethics.

- A. It is the policy of Hall County to seek the best overall value when procuring goods and services. Toward this end, the county finds and declares that its objectives will best be achieved through an open, competitive process with a broad range of responsible vendors wishing to furnish products and services to the county. Hall County will establish and conduct a procurement program that maximizes service benefit to the community and awards contracts to vendors who offer the best quality and value.
- B. Hall County declares that county employees and officials, along with those wishing to do business with the county, have the shared responsibility for avoiding biased, anticompetitive, or unethical practices.
- C. Hall County employees, officials, and their family members are prohibited from seeking, requesting, or receiving any material payment, gift, job offer, security, promise of future benefit, or any other tangible or intangible thing of value when such receipt has the potential to influence a procurement decision or to gain undue advantage in a procurement competition.
- D. Prospective vendors must compete for county business within the parameters of the solicitation process and are prohibited from seeking to obtain inside information, attempting to skew the writing of specifications, or influencing a procurement decision through any means outside the process established for the particular solicitation. This principle applies to any contractor, subcontractor, representative, employee, or agent that may be associated with a procurement transaction.
- E. Bidders and proposers shall disclose on competitive bid responses any individual(s), firm(s), and/or county official(s) who do business with the county if there is an appearance of a conflict of interest.
- F. Ethical business practices are important, both, during a solicitation, and after the decision to grant an award. The county seeks to establish relationships with business partners whose ongoing ethical standards of business conduct are congruent with those outlined here. The purchasing manager, subject to the approval of the director of financial services, is charged with establishing methods for ongoing monitoring for non-compliance with these principles. The prohibition against the offering of or the acceptance of kickbacks, gratuities, payments or any other instrument of value extends beyond and outside any specific procurement or solicitation:

A vendor's contract compliance history with Hall County and other contractual parties is a valid element in the decision to award, or not, a contract.

POST OFFICE DRAWER 1435 GAINESVILLE, GA 30503

t: 770.535,8270 | f: 770.531.6711

INTERIM DIRECTOR Taylor Samples, CPA

- H. Hall County stipulates that the furtherance of its strategic goals for job creation, stability and growth in the tax base, business retention, and other fiscal and economic development objectives may be considered during the procurement process. The purchasing manager, subject to the approval of the director of financial services, is authorized to establish procurement initiatives consistent with the county's strategic economic development objectives. These procurement practices shall be applied consistently and equitably and shall have a direct relationship to the county's goals.
- Hall County employees, officials, and their family members are generally prohibited from participation in any procurement decision or any gain of undue advantage in a procurement competition as a result of contemporaneous employment with a potential or actual business partner.
- J. It is unethical for any county employee to purchase commodities or services from a county contract for personal use.
- K. With the exception of solicitations for the sale of real property, individuals, firms and businesses seeking an award of a Hall County contract may not initiate or continue any verbal or written communications regarding a solicitation with any county officer, elected official, employee or other county representative other than the purchasing associate named in the solicitation, or the county's financial advisor, between the date of the issuance of the solicitation and the date of the final contract award by the board of commissioners. The purchasing manager will review violations. If determined that such communication has compromised the competitive process, the offer submitted by the individual, firm or business may be disqualified from consideration for award. Solicitations for the sale of real property may allow for verbal or written communications with the appropriate Hall County representative.
- L. All county commissioners, officials, and employees shall adhere to the standards outlined in the Hall County Code of Ethics.
- M. (AMENDED) The purchasing division of the financial services department shall determine and implement methods of educating all prospective contractors, bidders, proposers, and vendors on the requirements and provisions of Code Section 3.10.070, including, but not limited to, requiring each prospective contractor, bidder, proposer, and vendor that expresses an intent to do business with the County to sign an affidavit attesting that they have read this Chapter and have more specifically also read Code Section 3.10.070." (Res. of 11-14-19(1), § 1 (Exh. A))

Chief Deputy Clerk of Courts

THIS AGREEMENT made and entered into this <u>9th</u> day of <u>January</u> 2025 by and between **HALL COUNTY, STATE OF GEORGIA**, hereinafter called "the County", as party of the first part, and **Michelle Meeks**, herein called "Employee", as party of the second part, both of whom agree as follows:

WITNESSETH

WHEREAS the County desires to employ the services of said Michelle Meeks as the Chief Deputy Clerk of Courts of Hall County; and

WHEREAS, it is the desire of the governing board, hereafter called "Commission" to provide certain benefits, to establish certain conditions of employment, and to set working conditions of said Employee; and

WHEREAS, it is the desire of Hall County to secure and retain the services of said Employee and provide inducement for her to remain in such employment, and to make possible full work productivity by assuring said Employee's morale and peace of mind with respect to future security, and to provide a just means of terminating the Employee's services at such a time as desired by the Clerk of Courts, or his or her designee; and

WHEREAS the Employee desires to accept employment as Chief Deputy Clerk of Courts.

NOW THEREFORE, in consideration of the mutual covenants herein contained, the parties agree as follows:

SECTION 1. Duties

The County hereby agrees to employ **Michelle Meeks** as **Chief Deputy Clerk of Courts**, to perform legally permissible functions and duties specified and assigned by the Clerk of Courts or his or her designee.

____ Initials

Chief Deputy Clerk of Courts

SECTION 2. <u>Term</u>

- A. Nothing in this agreement shall prevent, limit, or otherwise interfere with the right of the Clerk of Court to terminate the services of this Employee at any time, subject only to the provisions set forth in SECTION 3 of this agreement. The Employee understands that she serves at the pleasure of the Clerk of Court.
- B. Nothing in the agreement shall prevent, limit, or otherwise interfere with the right of the Employee to resign at any time from her position with the County, subject to the provisions set forth in SECTION 3, Paragraphs B and C of this agreement.
- C. Notwithstanding any other provision of the agreement, this agreement shall terminate automatically at the end of the present term of Mark Pettitt, the present Clerk of Court. At the termination of the Clerk of Court's present term, no severance shall be due the Chief Deputy Clerk of Courts.

SECTION 3. <u>Termination and Severance Pay</u>

A. In the event the Employee is terminated pursuant to Paragraph B hereof and the Employee is willing and able to perform the duties of the position under this agreement, upon execution of a Separation Agreement and General Release, the Employer agrees to pay the Employee a lump sum cash payment equal to three (3) months aggregate annual salary, exclusive of other forms of compensation, less standard withholdings, in addition to the continuation of medical, dental, and vision insurance benefits during the three (3) month period immediately following the date of termination. Severance payment of three (3) months' salary shall not be paid to the Chief Deputy Clerk of Courts, upon the expiration of the term for Mark Pettitt, Clerk of Courts. However, in the event the Employee is terminated because the Employee has been convicted of a misdemeanor or a felony, or if

Chief Deputy Clerk of Courts

the County determines that the Employee has engaged in unprofessional and improper practice, other than negligence, and breach of public trust, including but not limited to illegal acts involving personal gain, or moral turpitude, the County shall be entitled to terminate the Employee immediately without any severance pay, or medical, dental and vision insurance continuation aside from COBRA.

- B. In the event the Employer at any point during the term of this agreement reduces the salary or other financial benefits of the Employee in a greater percentage than reductions to all other employees of Employer, or if Employer refuses, following a written request to comply with any provision benefiting Employee herein; or the Employee resigns following a suggestion, whether formal or informal, by the County Administrator that she resign, then, in that event, Employee may, at his or her option, be deemed to be terminated at the date of such reduction or refusal to comply within the meaning and context of the herein severance pay provision.
- C. In the event the Employee voluntarily resigns her position with the County as Chief Deputy Clerk of Court then the Employee shall give the County **thirty** (**30**) days written notice in advance, unless the parties otherwise agree. The provision for severance pay and continuation of employment benefits detailed in SECTION 3, Paragraph A shall not apply to a voluntary resignation.

SECTION 4. <u>Termination Due to Disability</u>

If the Employee is unable to perform her duties because of sickness, accident, injury, or mental incapacity, and no reasonable accommodations are available, the County shall have the option to terminate employment, subject to the severance pay requirements of SECTION 3, Paragraph A. However, the Employee shall be compensated for any accrued benefits, in accordance with current

Chief Deputy Clerk of Courts

policies.

SECTION 5. Salary

The County agrees to pay the Employee for her services rendered, pursuant hereto, an annual base salary of **\$115,000**, payable in installments at the same time as other employees of the County are paid, except that the county may put in place cost reduction measures at any time and for any duration as required by a lack of financial resources. The base annual salary and benefits may be reviewed annually by the Clerk of Courts (or County Administrator as appropriate) and consideration for increases may be determined based upon the performance of the employee or consideration of providing a Cost of Living Adjustment (COLA).

SECTION 6. <u>Performance Evaluation</u>

The Clerk of Courts, or his or her designee, shall review and evaluate the performance of Employee at least annually on the anniversary day of this agreement. Said review and evaluation shall be in accordance with criteria developed by the Clerk of Courts, or his or her designee, and Employee. Performance criteria may be added to or deleted from, as the Clerk of Courts or his or her designee may from time to time determine. Further, the Clerk of Courts, or his or her designee, shall provide the Employee with a written summary statement of the findings of the evaluation.

SECTION 7. Hours of Work

It is generally recognized that the position of Chief Deputy Clerk of Courts involves the devotion of a great deal of time beyond typically recognized business hours.

SECTION 8. <u>Outside Activities</u>

The Employee shall devote his or her full time to the position described in this agreement. With the approval of the Clerk of Courts, or his or her designee, the Employee may engage in teaching, consulting, or other non-employer related activities as long as she does not interfere with the

Chief Deputy Clerk of Courts

execution of the duties of this position, or present a conflict of interest. Such consent must be obtained by advance approval, in writing, detailing the specifics of such activity.

SECTION 9. <u>Political Activity</u>

If the Employee announces as a candidate for any elective office during the duration of this contract, she will resign from Hall County employment immediately upon declaring candidacy as defined by state law unless she first obtains written approval from the Clerk of Courts or his or her designee. During the term of this contract, the Employee may not:

- A. Be involved in any political activity that would constitute a conflict of interest; including participation in any aspect of any local political campaign on behalf of herself if intending to seek elected office, or other individual or in opposition to any candidate for office within Hall County; including municipal and/or county government office. This restriction includes but is not limited to displaying or distributing information, materials, or paraphernalia in support of any political candidate, party, or organization.
- B. Knowingly solicit, accept, or receive political contributions from any person, to be used in support of or in opposition to any political candidate for election within Hall County, including municipal and/or county government office.
- C. Use, or promise to use, directly or indirectly, any official authority or influence, whether possessed or anticipated, to secure or attempt to secure for any person a job or other advantage for the purpose of influencing the vote or political action of any person.

SECTION 10. Vehicle and Phone

When the Employee's duties require the use of an automobile during his or her term of employment, one will be provided by the Employer. A cellular phone dedicated solely for business usage may be provided by the Employer. In such case, the Employer shall be responsible for paying

Chief Deputy Clerk of Courts

for and maintaining regular monthly service. Should the Employee desire to use their personal cellular phone for business purposes, Employer shall reimburse the Employee the amount of \$50 per month.

SECTION 11. Insurance Benefits

The County agrees to put in force and make premium payments for Medical, Dental, Vision, Short-Term Disability, and Life Insurance policies on behalf of the Employee and if so elected, eligible dependents, at a level of coverage available to other County employees. The Employee may choose not to cover her dependents.

SECTION 12. <u>Retirement Benefits</u>

Provided that contributions are being made by the County, if the Employee elects, Hall County agrees to contribute 8% of annual compensation as defined by the retirement plan in addition to Employer matching contributions made on contributions by the Employee as received by other County employees, into a defined contribution plan, except that the County may reduce or suspend this contribution at any time and for any duration as required due to a lack of financial resources. Retirement contributions shall not be made on any severance pay provided by the Employer, paid in accordance with Section 3.

SECTION 13. Paid Time Off (PTO) or Vacation and Sick Leave

As applicable, the County will provide for Paid Time Off (PTO) or vacation and sick leave in the same manner as the accruals currently received by other County Employees. In the event that the County changes or adopts a new program for all employees, such changes shall also apply to the Chief Deputy Clerk of Courts. Accrued PTO or vacation leave, whichever is applicable, shall be paid to Employee upon termination of employment.

Chief Deputy Clerk of Courts

SECTION 14. Dues, Subscriptions and Professional Development

- A. The Clerk of Court agrees to pay the Employee's annual membership dues, subscriptions, and conference expenses incurred by the Employee in conjunction with the Employee's duties, not to exceed the budget and subject to prior approval by the Clerk of Courts or his or her designee.
- B. The Clerk of Court agrees to pay the travel and subsistence expenses of the Employee for expenses related to maintenance of professional certifications, professional and official travel, meetings and occasions adequate to continue the professional development of the Employee and to adequately pursue necessary official and other functions for the department, not to exceed the budget and subject to prior approval by the Clerk of Courts or his or her designee.

SECTION 15. Indemnification

Subject to the provisions of the County's defense and indemnification policy, and based on the adherence with the terms of said policy by the Employee, the County shall defend, save harmless, and indemnify the Employee against any claim, demand, or legal action, whether groundless or otherwise, arising out of an alleged act or omission occurring in the performance of the Employee's duties as Chief Deputy Clerk of Courts. According to the terms of said policy, the County or its insurance carrier will pay the amount of any settlement or judgment agreed to or rendered against the Employee and the County may agree to such settlement or the payment of a judgment with or without the express consent of the Employee.

SECTION 16. <u>General Provisions</u>

A. The text herein shall constitute the entire agreement between the parties. Any amendment hereto shall be in writing and be executed by both parties.

Chief Deputy Clerk of Courts

- B. This agreement shall be binding upon and inure to the benefit of the heirs at law and executors of the Employee.
- C. If any provision, or any portion thereof, contained in this agreement is held unconstitutional, invalid, or unenforceable, the remainder of this agreement, or portion thereof, shall be deemed severable, shall not be affected, and shall remain in full force and effect.
- D. This agreement will become effective on the 1^{st} day of <u>January</u>, 2025 and shall continue thereafter unless or until the agreement is terminated by either party set forth herein.
- E. This agreement shall be executed in duplicate, each of which shall be deemed to be complete of itself and may be introduced into evidence or used for any purpose without the production of the other copy.

IN WITNESS WHEREOF, THE PARTIES HERETO HAVE SET THEIR HANDS AND SEALS THIS _____ DAY OF _____, 2025.

Billing Information

This is not an invoice. Prices shown do not include any taxes that may apply. Any such taxes are the responsibility of the Customer.

For customers based in the United States or Canada, any applicable taxes will be determined based on the laws and regulations of the taxing authority(ies) governing the Ship To location provided by the Customer on the Renewal Order Form.

Please note that the Total Price shown above has been rounded to the nearest two decimal places for display purposes only. The actual price may include as many as five decimal places. For example, an actual price of \$21.37656 will be shown as a Total Price of \$21.38. The Total for this quote has been calculated using the actual prices for the product and/or service, rather than the Total Price displayed above.

referred to as "Surety"), are held and bound unto Hall County, Georgia in the sum of \$_187,250.00 *
(hereinafter referred to as "bonded amount") for payment of which we bind ourselves, our heirs, executors,
administrators and assigns.
WHEREAS, PHD Developments LLC (principal) is owner of the
Subdivision known as Mount Vernon Manor
Subdivision, which subdivision is shown on a plat prepared by,
Georgia Registered Surveyor Number, and
WHEREAS, PHD Developments LLC (principal) wishes to
induce the Board of Commissioners of Hall County, Georgia to approve the street system shown on the Final Plat
of Mount Vernon Manor Subdivision
for recording purposes, and
WHEREAS, PHD Developments LLC (principal) wishes
to induce the Board of Commissioners of Hall County, Georgia to accept the streets shown on the Final Plat of
Mount Vernon Manor Subdivision
for public maintenance (not applicable to private developments);
PHD Developments LLC (principal) and
Jet Insurance Company (surety) agree in consideration of the foregoing,
NOW, THEREFORE BE IT RESOLVED, PHD Developments LLC (principal)
agrees that all construction of the street system of Mount Vernon Manor

Subdivision will be completed and maintained for fifteen (15) months according to the terms and requirements as shown on the recorded Final Plat and of the Subdivision Regulations in force in Hall County, Georgia. PHD Developments LLC (principal), and Jet Insurance Company (surety) agree to the following: Sidewalks will be completed throughout entire subdivision as shown on recorded final plat within one (1) year of signing of said final plat. One inch of "F" mix asphalt may be placed anytime prior to final platting or up to one (1) year after final plat approval. In addition, Principal and Surety agree that if either the sidewalks, cuts, fills, sub-grades, shoulders, pavement, grassing, storm water management facilities, or traffic signs in Mount Vernon Manor Subdivision are improperly maintained or are found to be defective from faults in design, materials or workmanship as shown on the recorded Final Plat, or as set out in the Subdivision Regulations in force in Hall County, Georgia, then upon demand from Hall County. Jet Insurance Company (surety) shall pay the bond amount to Hall County. Terms of Guaranty: PHD Developments LLC (principal) and Jet Insurance Company (surety) shall be bound by the provisions of this agreement until a properly authorized letter is received by Jet Insurance Company (surety) from Hall County authorizing release of PHD Developments LLC (principal) and Jet Insurance Company (surety) from this Guaranty Agreement.

NOTWITHSTANDING the above provisions, this Guaranty Performance/Maintenance Agreement is hereby issued on January 25, 2023 (Date) and expires on January 25, 2025

(Date, minimum 24 months from date of issuance), and the Issuer will have no more liability after that date. When

the indicated expiration date falls on Sunday or a legal holiday, or for any reason the Issuer is not open for business, the expiration date shall be extended to the next succeeding business day. Jurisdiction for any civil litigation necessary for collection of bond claims hereunder shall be in the Superior Court of Hall County, Georgia.

IN WITNESS WHEREOF, the undersigned have hereunto signed their names and affixed their seals, this

Public Hearing to amend Hall County's Zoning Map as follows:

REPORT TO:	Work Session (01/06/25)	
REPORT TO:	Voting Meeting (01/09/25)	
ITEM NO:	688/2024	
SUBJECT:	5991 Swansey Road Amend Conditions of Zoning on a 38.45 ± acre tract located on the south side of Swansey Road approximately 476 feet from its intersection with Circle Four Ranch Zoned PRD, Tax Parcel 15048 000034 Proposed Use: 100-lot subdivision Commission District 1 Abernathy Engineering Group, applicant NOTE: Tabled at the September 10, 2024 Voting Meeting until the October 24, 2024 Voting Meeting. NOTE: Tabled at the October 24, 2024 Voting Meeting until the December 12, 2024 Voting Meeting. NOTE: Tabled at the December 12, 2024 Voting Meeting until the January 9, 2025 Voting Meeting.	

Work Session Date: 01/06/25

Voting Meeting Date: 01/09/25

Executive Summary:

Presenter: Recommendation: BG

Approval, with conditions:

- 1. The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at time of site plan approval.
- 2. Development shall not exceed 100 residential units or a density of 2.7 units per acre.
- 3. Developer will improve and pave Swansey Road commencing from the southernmost point of its property where the property intersects with the Swansey Road right-of-way (otherwise identified as the development's point along the Swansey Road right-of-way nearest to Friendship Road). The paving of Swansey Road by the developer will continue north from said initial commencement point to a point just north of the northernmost aspect of the front entrance of its development as shown on the zoning plan approved on January 21, 2021, or farther north along Swansey Road if desired by the Developer. All such paving of Swansey Road will be completed prior to the approval of the final plat, shall be consistent with County standards (see Hall County Detail TE-12 attached hereto), and shall include a right turn deceleration lane on Swansey Road into the development.
- 4. Subdivision lots must access internal roadways only and direct lot access to Swansey Road shall be prohibited.
- 5. All conditions of zoning shall be made a part of any plat of the property.
- 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded for the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 7. The following statement regarding the potential impacts of industrial operations in the area shall be made part of any plat recorded for the property: "Owners and users of this property are informed of industrial uses nearby and should expect noise, odors, and other effects associated with such industrial properties."
- 8. The final plat shall not be approved prior to the property having access to Hall County sewer.
- 9. A vegetative buffer on Swansey roadway which would include the backs of lots 64, 65, 66, 67 and lots 1, 2, 3 and 4 will be provided.
- 10. Developer will post a bond or letter of credit in the amount of \$300,000.00 in favor of the County from a creditor doing business and with an office in Hall County, Georgia for the design, realignment, and construction of the section of Swansey Road from the point where the asphalt paving currently ends beyond the intersection with Friendship Road (GDOT) to the proposed development's southern-most property corner along Swansey Road. The bond or letter of credit may be cashed in by the County once the County awards a contract for the design or construction of the road project to pave the above-referenced section of Swansey Road as described herein. The design and/or construction of the road project shall be initiated no later than seven years from the date of the posting/issuance of the bond or letter of credit, and if design/construction has not been initiated within seven years, the bond or letter of credit shall be released and rendered null. The County shall be responsible for all eminent domain needed to acquire right-of-way and/or easements to adhere to the County's TE-12 specifications as to paving Swansey Road between the paved section nearest to Friendship Road and the southernmost point of the development along Swansey Road.

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

To:Richard Higgins, Chairman
Kathy Cooper, District 1 Commissioner
Billy Powell, District 2 Commissioner
Gregg Poole, District 3 Commissioner
Jeff Stowe, District 4 CommissionerFrom:Beth Garmon, Director of Planning & ZoningDate:October 21, 2024Subject:**5991 Swansey Road | Amend Conditions of Zoning |**
on a 38.45 ± acre tract | Proposed Use: 100-lot
subdivision | Abernathy Engineering Group, applicant

The request before you is the request of Abernathy Engineering Group to amend conditions of zoning related to the improvement of Swansey Road for a 100-lot single-family residential subdivision. This item is located within Commission District 1.

At their August 5, 2024 meeting, the Hall County Planning Commission voted to recommend approval with ten (10) conditions (3-1, Hunt opposed and Varner absent).

Staff recommendation: **Approval, with conditions,** the proposed changes are consistent with previous approvals.

There were **no comments submitted** in advance of the Planning Commission meeting and **two (2) people spoke in opposition during the public hearing.**

Planning Commission Conditions:

- 1. The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at time of site plan approval.
- 2. Development shall not exceed 100 residential units or a density of 2.7 units per acre.
- 3. Developer will improve and pave Swansey Road commencing from the southernmost point of its property where the property intersects with the Swansey Road right-of-way (otherwise identified as the development's point along the Swansey Road right-of-way nearest to Friendship Road). The paving of Swansey Road by the developer will continue north from said initial commencement point to a point just north of the northernmost aspect of the front entrance of its development as shown on the zoning plan approved on January 21, 2021, or farther north along Swansey Road if

desired by the Developer. All such paving of Swansey Road will be completed prior to the approval of the final plat, shall be consistent with County standards (see Hall County Detail TE-12 attached hereto), and shall include a right turn deceleration lane on Swansey Road into the development.

- 4. Subdivision lots must access internal roadways only and direct lot access to Swansey Road shall be prohibited.
- 5. All conditions of zoning shall be made a part of any plat of the property.
- 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded for the property:

"Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."

7. The following statement regarding the potential impacts of industrial operations in the area shall be made part of any plat recorded for the property:

"Owners and users of this property are informed of industrial uses nearby and should expect noise, odors, and other effects associated with such industrial properties."

- 8. The final plat shall not be approved prior to the property having access to Hall County sewer.
- 9. A vegetative buffer on Swansey roadway which would include the backs of lots 64, 65, 66, 67 and lots 1, 2, 3 and 4 will be provided.
- 10. Developer will post a bond or letter of credit in the amount of \$300,000.00 in favor of the County from a creditor doing business and with an office in Hall County, Georgia for the design, realignment, and construction of the section of Swansey Road from the point where the asphalt paving currently ends beyond the intersection with Friendship Road (GDOT) to the proposed development's southern-most property corner along Swansey Road. The bond or letter of credit may be cashed in by the County once the County awards a contract for the design or construction of the road project to pave the above-referenced section of Swansey Road as described herein. The design and/or construction of the road project shall be initiated no later than seven years from the date of the posting/issuance of the bond or letter of credit, and if design/construction has not been initiated within seven years, the bond or letter of credit shall be released and rendered null. The County shall be responsible for all eminent domain needed to acquire rightof-way and/or easements to adhere to the County's TE-12 specifications as to paving Swansey Road between the paved section nearest to Friendship Road and the southernmost point of the development along Swansey Road.

Vote: 3-1 (Hunt opposed and Varner absent)

Planning Commission Conditions:

- 1. The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at time of site plan approval.
- 2. Development shall not exceed 100 residential units or a density of 2.7 units per acre.
- 3. Developer will improve and pave Swansey Road commencing from the southernmost point of its property where the property intersects with the Swansey Road right-of-way (otherwise identified as the development's point along the Swansey Road right-of-way nearest to Friendship Road). The paving of Swansey Road by the developer will continue north from said initial commencement point to a point just north of the northernmost aspect of the front entrance of its development as shown on the zoning plan approved on January 21, 2021, or farther north along Swansey Road if desired by the Developer. All such paving of Swansey Road will be completed prior to the approval of the final plat, shall be consistent with County

standards (see Hall County Detail TE-12 attached hereto), and shall include a right turn deceleration lane on Swansey Road into the development.

- 4. Subdivision lots must access internal roadways only and direct lot access to Swansey Road shall be prohibited.
- 5. All conditions of zoning shall be made a part of any plat of the property.
- 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded for the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- The following statement regarding the potential impacts of industrial operations in the area shall be made part of any plat recorded for the property:
 "Owners and users of this property are informed of industrial uses nearby and should expect noise, odors, and other effects associated with such industrial properties."
- 8. The final plat shall not be approved prior to the property having access to Hall County sewer.
- 9. A vegetative buffer on Swansey roadway which would include the backs of lots 64, 65, 66, 67 and lots 1, 2, 3 and 4 will be provided.
- 10. Developer will post a bond or letter of credit in the amount of \$300,000.00 in favor of the County from a creditor doing business and with an office in Hall County, Georgia for the design, realignment, and construction of the section of Swansey Road from the point where the asphalt paving currently ends beyond the intersection with Friendship Road (GDOT) to the proposed development's southern-most property corner along Swansey Road. The bond or letter of credit may be cashed in by the County once the County awards a contract for the design or construction of the road project to pave the above-referenced section of Swansey Road as described herein. The design and/or construction of the road project shall be initiated no later than seven years from the date of the posting/issuance of the bond or letter of credit, and if design/construction has not been initiated within seven years, the bond or letter of credit shall be released and rendered null. The County shall be responsible for all eminent domain needed to acquire right-of-way and/or easements to adhere to the County's TE-12 specifications as to paving Swansey Road between the paved section nearest to Friendship Road and the southernmost point of the development along Swansey Road.

Excerpts from the minutes of the August 5, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Guy Abernathy, 2130 Misty Oaks Drive, Buford, presented the request. The applicant stated that the previously approved conditions from 2021 were vague and have caused difficulties with the developer and Hall County Engineering to determine what part of the road the developer is responsible for improving.

Public Forum:

Michael Shastel, 5961 Swansey Road, Flowery Branch, spoke in opposition. Concerns were cost of the road improvement to taxpayers, traffic, safety, and the dust created by the existing road.

James Basile, 3639 Buttercup Court, Flowery Branch, spoke in opposition. Concerns were density, traffic, and rental homes.

Rebuttal

The applicant explained the road improvement plans per the amended conditions, and stated that they were originally going to build on top of the existing roadbed but this was not approved by Hall County Engineering. Because of this, the construction costs went up and led to negotiations for the proposed \$300,000 bond.

Planning Commission Comments:

Mr. Hunt questioned what the County Engineer wanted the applicant to pave the road with. The applicant stated that they were told to realign the road not just repave with asphalt where the roadbed was already located. Mr. Hunt questioned if the homes will be for sale before the County completes their portion of the road. The applicant stated that was correct.

<u>Motion:</u> A motion to approve, with conditions was made by Mr. Sosebee and seconded by Ms. Pilcher. Vote: 3-1 (Hunt opposed and Varner absent)

Conditions:

- 1. The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at time of site plan approval.
- 2. Development shall not exceed 100 residential units or a density of 2.7 units per acre.
- 3. Developer will improve and pave Swansey Road commencing from the southernmost point of its property where the property intersects with the Swansey Road right-of-way (otherwise identified as the development's point along the Swansey Road right-of-way nearest to Friendship Road). The paving of Swansey Road by the developer will continue north from said initial commencement point to a point just north of the northernmost aspect of the front entrance of its development as shown on the zoning plan approved on January 21, 2021, or farther north along Swansey Road if desired by the Developer. All such paving of Swansey Road will be completed prior to the approval of the final plat, shall be consistent with County standards (see Hall County Detail TE-12 attached hereto), and shall include a right turn deceleration lane on Swansey Road into the development.

- 4. Subdivision lots must access internal roadways only and direct lot access to Swansey Road shall be prohibited.
- 5. All conditions of zoning shall be made a part of any plat of the property.
- 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded for the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- The following statement regarding the potential impacts of industrial operations in the area shall be made part of any plat recorded for the property:
 "Owners and users of this property are informed of industrial uses nearby and should expect noise, odors, and other effects associated with such industrial properties."
- 8. The final plat shall not be approved prior to the property having access to Hall County sewer.
- 9. A vegetative buffer on Swansey roadway which would include the backs of lots 64, 65, 66, 67 and lots 1, 2, 3 and 4 will be provided.
- 10. Developer will post a bond or letter of credit in the amount of \$300,000.00 in favor of the County from a creditor doing business and with an office in Hall County, Georgia for the design, realignment, and construction of the section of Swansey Road from the point where the asphalt paving currently ends beyond the intersection with Friendship Road (GDOT) to the proposed development's southern-most property corner along Swansey Road. The bond or letter of credit may be cashed in by the County once the County awards a contract for the design or construction of the road project to pave the above-referenced section of Swansey Road as described herein. The design and/or construction of the road project shall be initiated no later than seven years from the date of the posting/issuance of the bond or letter of credit, and if design/construction has not been initiated within seven years, the bond or letter of credit shall be released and rendered null. The County shall be responsible for all eminent domain needed to acquire right-of-way and/or easements to adhere to the County's TE-12 specifications as to paving Swansey Road between the paved section nearest to Friendship Road and the southernmost point of the development along Swansey Road.

Staff Recommended Conditions:

- 1. The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at time of site plan approval-
- 2. Development shall not exceed 100 residential units or a density of 2.7 units per acre.

- 3. Developer will improve and pave Swansey Road commencing from the southernmost point of its property where the property intersects with the Swansey Road right-of-way (otherwise identified as the development's point along the Swansey Road right-of-way nearest to Friendship Road). The paving of Swansey Road by the developer will continue north from said initial commencement point to a point just north of the northernmost aspect of the front entrance of its development as shown on the zoning plan approved on January 21, 2021, or farther north along Swansey Road if desired by the Developer. All such paving of Swansey Road will be completed prior to the approval of the final plat, shall be consistent with County standards (see Hall County Detail TE-12 attached hereto), and shall include a right turn deceleration lane on Swansey Road into the development.
- 4. Subdivision lots must access internal roadways only and direct lot access to Swansey Road shall be prohibited.
- 5. All conditions of zoning shall be made a part of any plat of the property.
- 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded for the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 7. The following statement regarding the potential impacts of industrial operations in the area shall be made part of any plat recorded for the property:

"Owners and users of this property are informed of industrial uses nearby and should expect noise, odors, and other effects associated with such industrial properties."

- 8. The final plat shall not be approved prior to the property having access to Hall County sewer.
- 9. A vegetative buffer on Swansey roadway which would include the backs of lots 64, 65, 66, 67 and lots 1, 2, 3 and 4 will be provided.
- 10. Developer will post a bond or letter of credit in the amount of \$300,000.00 in favor of the County from a creditor doing business and with an office in Hall County, Georgia for the design, realignment, and construction of the section of Swansey Road from the point where the asphalt paving currently ends beyond the intersection with Friendship Road (GDOT) to the proposed development's southern-most property corner along Swansey Road. The bond or letter of credit may be cashed in by the County once the County awards a contract for the design or construction of the road project to pave the above-referenced section of Swansey Road as described herein. The design and/or construction of the road project shall be initiated no later than seven years from the date of the posting/issuance of the bond or letter of credit, and if design/construction has not been initiated within seven years, the bond or letter of credit shall be released and rendered null. The County shall be responsible for all eminent domain needed to acquire right-of-way and/or easements to adhere to the County's TE-12 specifications as to paving Swansey Road

between the paved section nearest to Friendship Road and the southernmost point of the development along Swansey Road.

Summary Analysis

The applicant is requesting to amend the zoning conditions of a Planned Residential Development (PRD, 17.180.060). The request includes modifying two conditions related to the improvement of Swansey Road and addressed in Conditions #3 and #10 of the January 27, 2021 BOC approval.

The subject property was approved for rezoning from Agricultural Residential-III (AR-III, 17.110) to Planned Residential Development (PRD, 17.180.060) by the Hall County Board of Commissioners on January 27, 2021, for a 100-unit single-family residential development with an overall density of 2.7 dwelling units per acre subject to the following 10 conditions:

- The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at time of site plan approval. No variances from §17.180 are granted as part of this request and any deviation found within the narrative or site plan is not approved.
- 2. Development shall not exceed 100 residential units or a density 2.7 units per acre.
- 3. Swansey Road shall be improved at the developer's expense to match the existing conditions of that improved area near the intersection of Friendship Road to the entrance of the subdivision.
- 4. Subdivision lots must access internal roadways only and direct lot access to Swansey Road shall be prohibited.
- 5. All conditions of zoning shall be made a part of any plat of the property.
- 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded for the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- The following statement regarding the potential impacts of industrial operations in the area shall be made part of any plat recorded for the property: "Owners and users of this property are informed of industrial uses nearby and should expect noise, odors, and other effects associated with such industrial properties."
- 8. The final plat shall not be approved prior to the property having access to Hall County sewer.
- 9. A vegetative buffer on Swansey roadway which would include the backs of lots 64, 65, 66, 67 and lots 1, 2,3 and 4 will be provided.
- 10. The applicant shall work with reasonable diligence to obtain the necessary right-of-way from the adjoining property owners. The applicant shall construct the road within the existing right-of-way.

The applicant and county representatives have discussed modifications of Conditions #3 and #10. Proposed conditions between the developer, Aspen Holdings Atlanta, LLC and county legal counsel are as follows:

Proposed Condition # 3.

Developer will improve and pave Swansey Road commencing from the southernmost point of its property where the property intersects with the Swansey Road right-of-way (otherwise identified as the development's point along the Swansey Road right-of-way nearest to Friendship Road). The paving of Swansey Road by the developer will continue north from said initial commencement point to a point just north of the northernmost aspect of the front entrance of its development as shown on the zoning plan approved on January 21, 2021, or farther north along Swansey Road if desired by the Developer. All such paving of Swansey Road will be completed prior to the approval of the final plat, shall be consistent with County standards (see Hall County Detail TE-12 attached hereto), and shall include a right turn deceleration lane on Swansey Road into the development.

Proposed Condition # 10.

Developer will post a bond or letter of credit in the amount of \$300,000.00 in favor of the County from a creditor doing business and with an office in Hall County, Georgia for the design, realignment, and construction of the section of Swansey Road from the point where the asphalt paving currently ends beyond the intersection with Friendship Road (GDOT) to the proposed development's southern-most property corner along Swansey Road. The bond or letter of credit may be cashed in by the County once the County awards a contract for the design or construction of the road project to pave the above-referenced section of Swansey Road as described herein. The design and/or construction of the road project shall be initiated no later than seven years from the date of the posting/issuance of the bond or letter of credit, and if design/construction has not been initiated within seven years, the bond or letter of credit shall be released and rendered null. The County shall be responsible for all eminent domain needed to acquire right-of-way and/or easements to adhere to the County's TE-12 specifications as to paving Swansey Road between the paved section nearest to Friendship Road and the southernmost point of the development along Swansey Road.

Per "Attachment 2" of the submitted narrative, dated June 17, 2024, the applicant is requesting additional language to Condition 10 as follows:

Applicant proposed language to be added to Condition # 10:

Developer shall have the discretion to pave the existing roadbed with a tar/gravel treatment mix from the end of existing pavement near Friendship Road up to the tie-in to the required TE-12 pavement section which will begin at the southernmost portion of the subject Aspen Holding project. This portion of the road (and all of Swansey Road) will be maintained by Hall County. The County will assist the developer in acquiring right-of-way should legitimate attempts by the developer to negotiate the purchase of right-of-way and/or slope easements bog down, as this road improvement benefits the overall traveling public.

County staff **DOES NOT** support the applicant's proposed additional language for Condition #10.

Zoning Analysis

Per Planning Commission and Hall County Commission consideration and decision (17.380.060), the Board shall study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry shall be considered, to wit:

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property; The requested amendment to Condition #3 is consistent with the previous approval for the Planned Residential Development (PRD, 17.180.060) on January 27, 2021 by the county commission. However, Planning staff does not recommend the additional language to the amendment as proposed by the applicant, and only supports the amendment as stated in the recommended conditions.
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; The recommended amendments to the zoning conditions will not adversely affect the existing use or usability of adjacent and nearby property.
- 3. Whether the property to be affected by the zoning proposal has reasonable economic use as currently zoned. The property has reasonable economic use as currently zoned, Planned Residential Development (PRD, 17.180.060).
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; If approved, the recommended amendments to the zoning conditions are not anticipated to cause an excessive or burdensome use of the existing streets, transportation facilities, etc.
- 5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan; The zoning designation has been established by previous board action with the original approval of the development. The recommended amendments to the zoning conditions do not significantly affect the designated future land use of the area.
- 6. The extent to which property values are diminished by the existing zoning restrictions; Absent a market study, staff is unable to determine whether property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.
- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- 9. The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The subject parcel was rezoned from Agricultural Residential-III (AR-III, 17.110) to Planned Residential Development (PRD, 17.180) on January 27, 2021, for the purpose of developing a 100-lot single-family development.

- 10. Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; Staff is not aware of any changing conditions affecting the use or development of the property.
- Whether the change would create an isolated district unrelated to the surrounding districts; The request is to amend zoning conditions of an existing Planned Residential Development (PRD, 17.180.060). Per the Official Code of Hall County, the Planned Development District (PRD, 17.180.060) is to be utilized as a "floating zone" which shall mean that areas will not be predesignated as planned development districts but rather each such designation shall result from a specific and separate application for amendment.
- **12.** Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; No, the recommended amendments to the conditions would not be out of scale with the needs of the County as a whole.
- **14.** Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; **The current zoning of the subject site supports the proposed use.**
- **15.** Whether the need for rezoning could be handled instead by a variance request to the Planning Commission; **No, the request could not be handled instead by a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.
- 17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; There is no indication that a mistake was made in the original zoning.

17.380.050. - Submission requirements

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in chapter 17.30 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement, and the applicant understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - 1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 17.380.060.C of this section [chapter].

The proposal does provide a narrative outlining the intent of the request; however, the applicant has not prepared a response to each of the criteria listed in 17.380.060.C.

- 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. **The proposal meets this requirement.**
- C. For any application for a slow rate land treatment system (see chapter 17.20), the following additional requirements apply. **This standard is not applicable to the applicant's request.**
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. The proposed development will contain no more than 100 residential dwelling units; this is the threshold which requires a traffic study. The development met submission requirements at time of previous approval. The proposed amendments to the zoning conditions do not warrant a new traffic study as the number of units is not changing.

Development Support and Constraints / Departmental Comments

Hall County Environmental Health

In an email dated June 28, 2024, Emily McGahee stated "No comment. Public Sewer."

Hall County Fire Marshal

In an email dated July 3, 2024, John Hornick, NPQ Fire Service Plans Examiner 1, provided the following comments:

- 1. Water service provider not identified in the project narrative.
- 2. How will water be distributed to the development? Currently there is no water on Swansey Road.
- 3. Will the installation of public water occur during the Swansey Road improvements?
- 4. Development will require fire hydrants as required by Fire Code.
- 5. The Hall County Fire Marshal's Office considers the plan conceptual in nature, and if approved may require modifications during the development review process.
- 6. According to GIS property currently has a parcel warning tag.

Hall County Public Works and Utilities

In a memo dated July 5, 2024, Bill Nash, Director of Public Works and Utilities, provided the following comments:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.

Show stream buffer and impervious setback from wrested vegetation not centerline of stream. Show FEMA and Hall County studied Flood plains that are present on site.

Traffic:

Needs to be reviewed by legal.

Utilities

No comment.

Georgia Department of Transportation

In an email dated July 3, 2024, Veronica Chavers, D1TO Civil Engineer III, stated that GDOT coordination is not required.

LETTER OF INTENT FORCHANGE IN CONDITIONS

Original Zoning Case Hearing Jan 11, 2021

Called Special Meeting Jan 27, 2021

Applicant/Owner:	Aspen Holdings Atlanta, LLC 2430 Flint Creek Drive
	Cumming, GA 30041
Project Location:	5991 Swansey Road
	Flowery Branch GA
Description:	Modification of Conditions 3 and 10 of the original Rezoning Letter dated February 4, 2021
Description: Tax Parcel #:	Ç Ç
-	February 4, 2021

This Letter of Intent and Narrative is being submitted, as referenced above, for the proposes of modifying conditions 3 and 10 (see attached 2.4.21 letter from Hall County Board of Commissioners listing the approval of the rezoning with 10 enumerated conditions). The request before the Board of Commissioners is to approve the modifications to these two conditions, the matter which has been negotiated between developer's counsel and counsel representing Hall County. (Attachment 2 enumerates the new conditions, as approved by both parties).

There are no other modifications to the intended development. As noted above, the attached document between Aspen Holding and Hall County will bear out the agreement between the two, subject of course, to Board of Commissioners approval.

Abernathy Engineering Group, the applicant, on behalf of the owner (Leslie Ann Scales), and the contract purchaser/developer (Aspen Holdings Atlanta, LLC) respectfully requests the approval of the modifications requested to conditions 3 and 10 only.

S. Guy Abernathy, PE Abernathy Engineering Group, LLC

Interpretation of Rezoning Conditions - (County Attorney Agreement Text) "Attachment 2" to the Letter of Intent for Change in Conditions

5991 Swansey Rd., Flowery Branch, GA

June 17, 2024

Proposed Agreed Upon Conditions

1. The Developer would apply to the County's Planning and Development Department for a change in zoning as to conditions 3 and 10 from the County's February 4, 2021 zoning letter with the understanding that no conditions other than 3 and 10 will be amended.

2. Condition 3 will read: "Developer will improve and pave Swansey Road commencing from the southernmost point of its property where the property intersects with the Swansey Road right of way (otherwise identified as the development's point along the Swansey Road right of way nearest to Friendship Road). The paving of Swansey Road by the developer will continue north from said initial commencement point to a point just north of the northernmost aspect of the front entrance of its development as shown on the zoning plan approved on January 21, 2021, or farther north along Swansey Road if desired by the Developer. All such paving of Swansey Road will be completed prior to the approval of the final plat, shall be consistent with County standards (see Hall County Detail TE-12 attached hereto), and shall include a right turn deceleration lane on Swansey Road into the development."

3. Condition 10 will read: "Developer will post a bond or letter of credit in the amount of \$300,000.00 in favor of the County from a creditor doing business and with an office in Hall County, Georgia for the design, realignment, and construction of the section of Swansey Road from the point where the asphalt paving currently ends beyond the intersection with Friendship Road (GDOT) to the proposed development's southern-most property corner along Swansey Road. The bond or letter of credit may be cashed in by the County once the County awards a contract for the design or construction of the road project to pave the above-referenced section of Swansey Road as described herein. The design

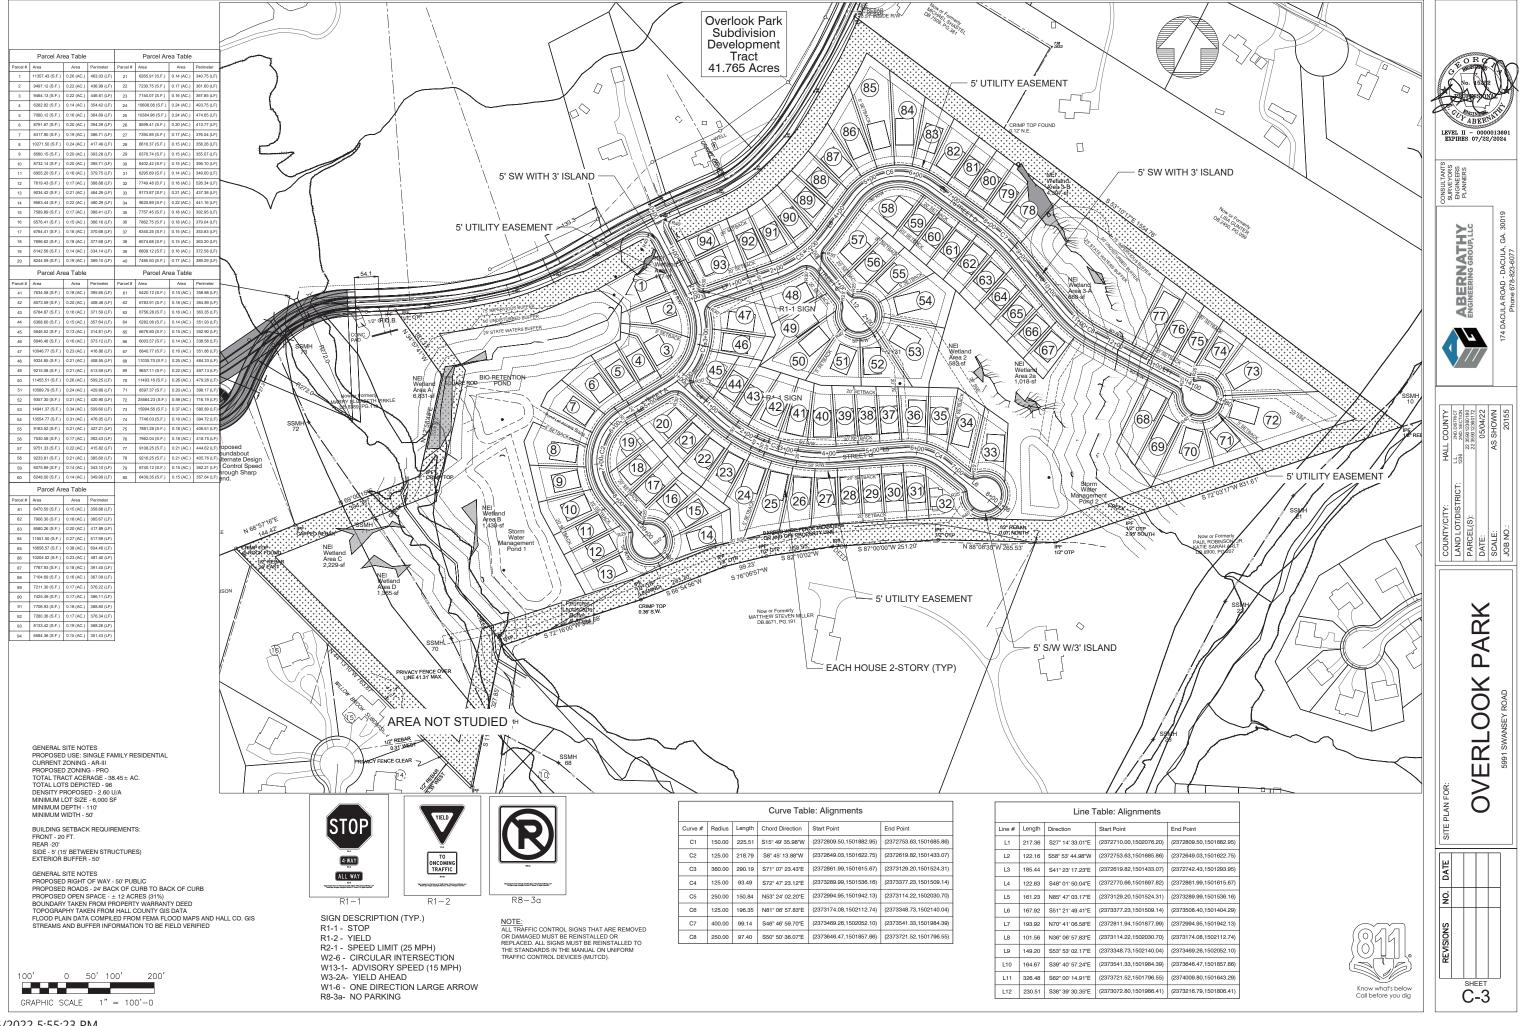

and/or construction of the road project shall be initiated no later than seven years from the date of the posting/issuance of the bond or letter of credit, and if design/construction has not been initiated within seven years, the bond or letter of credit shall be released and rendered null. The County shall be responsible for all eminent domain needed to acquire right of way and/or easements to adhere to the County's TE-12 specifications as to paving Swansey Road between the paved section nearest to Friendship Road and the southernmost point of the development along Swansey Road.

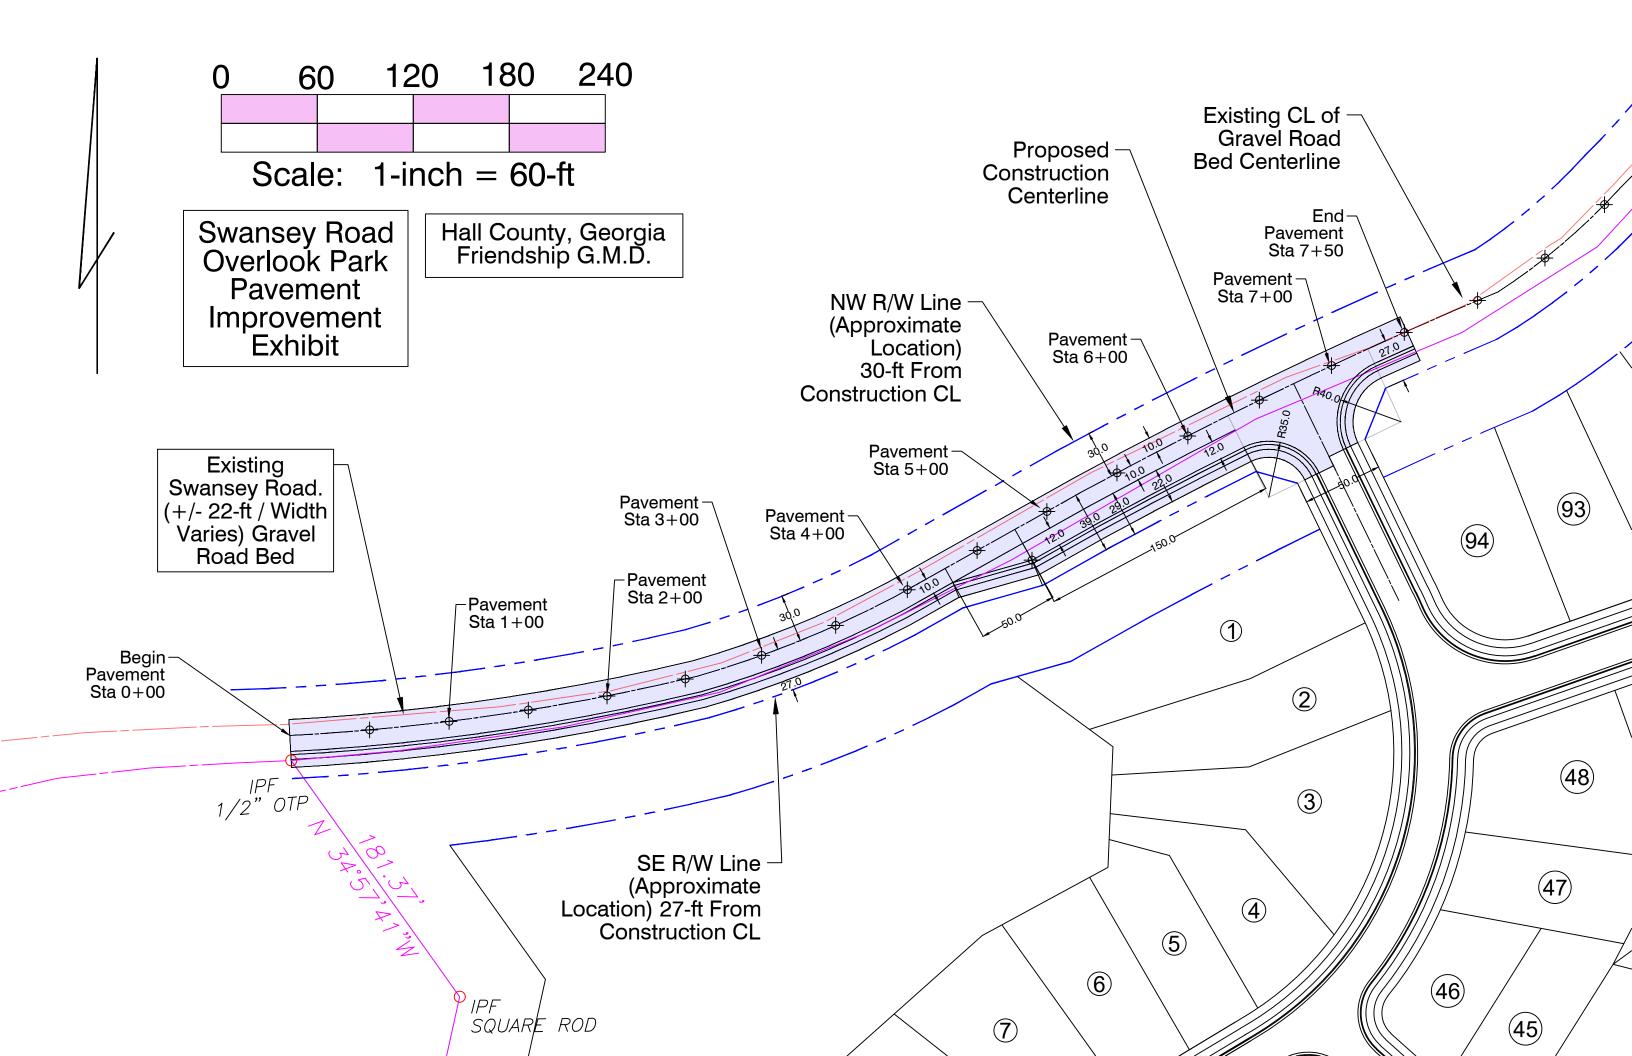

Additional Clarifications/Additions to Conditions Sought by Applicant

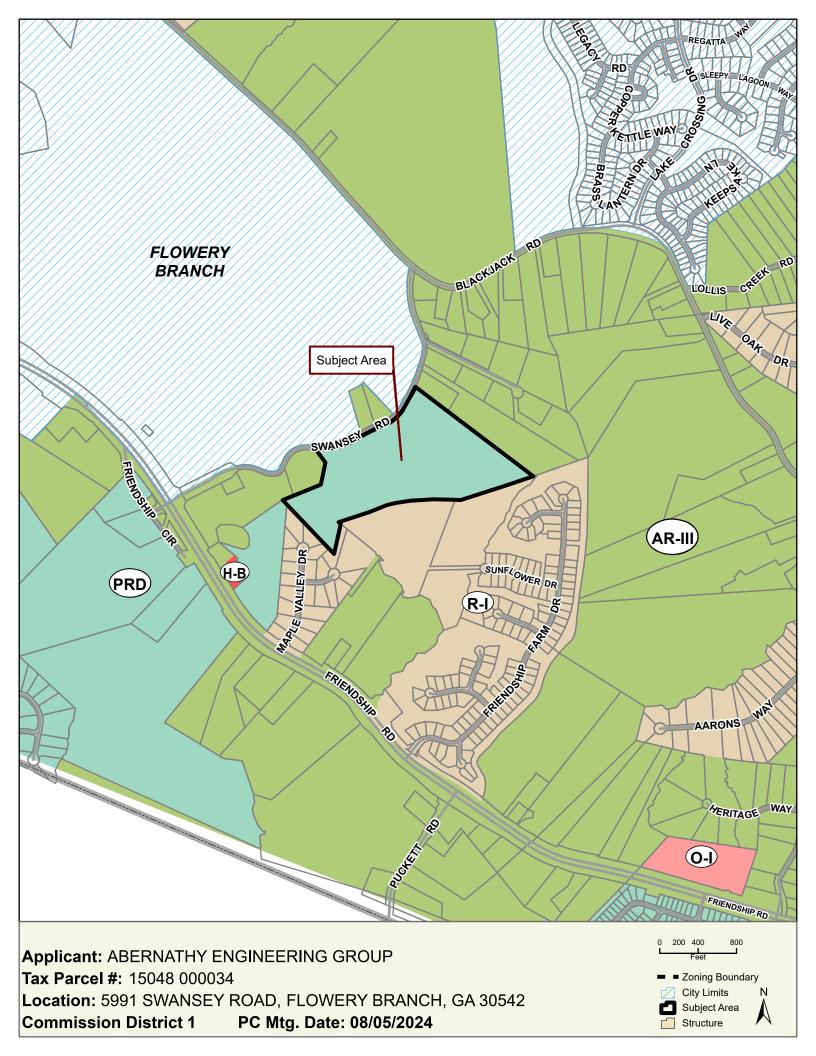

Condition #10:

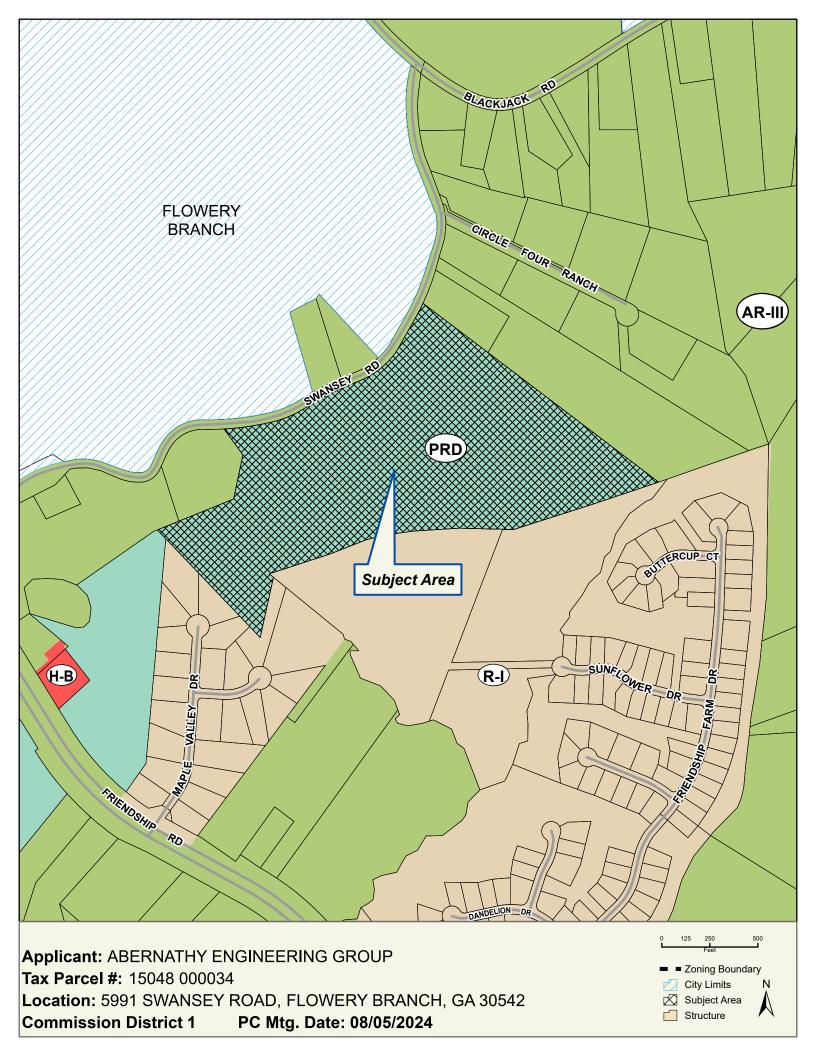

Add the following to the end of the first paragraph: Developer shall have the discretion to pave the existing road bed with a tar /gravel treatment mix from the end of existing pavement near Friendship road up to the tie-in to the required Te-12 pavement section which will begin at the southern most portion of the subject Aspen Holding project. This portion of the road (and all of Swansey Road) will be maintained by Hall County.

Add the following to the end of the second paragraph: The County will assist the developer in acquiring right-of-way should legitimate attempts by the developer to negotiate the purchase of right of way and /or slope easements bog down, as this road improvement benefits the overall traveling public.

Hall County Government

BOARD OF COMMISSIONERS

February 4, 2021

Aspen Holdings Atlanta, LLC 2430 Flint Creek Drive Cumming, GA 30041

Re: Application to Rezone

To Whom It May Concern:

Please be advised that in a Special Called Meeting on January 27, 2021, the Hall County Board of Commissioners voted to approve the following item with the listed conditions:

 Application of Aspen Holdings Atlanta, LLC to rezone from Agricultural Residential (AR-III) to Planned Residential Development (PRD) on a 40.85± acre tract located on the south side of Swansey Road approximately 479 feet from its intersection with Circle Four Ranch; a.k.a. 5991 Swansey Road; Zoned AR-III; Tax Parcel 15048 000034. Proposed Use: 100 lot subdivision. Commission District 1.

Conditions:

- 1. The development shall conform substantially with the proposed site plan and narrative, modified as necessary for compliance with current development standards at time of site plan approval. No variances from §17.180 are granted as part of this request and any deviation found within the narrative or site plan is not approved.
- 2. Development shall not exceed 100 residential units or a density 2.7 units per acre.
- 3. Swansey Road shall be improved at the developer's expense to match the existing conditions of that improved area near the intersection of Friendship Road to the entrance of the subdivision.
- 4. Subdivision lots must access internal roadways only and direct lot access to Swansey Road shall be prohibited.
- 5. All conditions of zoning shall be made a part of any plat of the property.

Hall County Government

BOARD OF COMMISSIONERS

- 6. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded for the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of suchpractices."
- 7. The following statement regarding the potential impacts of industrial operations in the area shall be made part of any plat recorded for the property: "Owners and users of this property are informed of industrial uses nearby and should expect noise, odors, and other effects associated with such industrial properties."
- 8. The final plat shall not be approved prior to the property having access to Hall Countysewer.
- 9. A vegetative buffer on Swansey roadway which would include the backs of lots 64, 65, 66, 67, and lots 1, 2, 3 and 4 will be provided
- 10. The applicant shall work with reasonable diligence to obtain the necessary right-of-way from the adjoining property owners. The applicant shall construct the road within the existing right-of-way.

Please contact me if you have questions or if you require any additional information concerning this action of the Board.

Sincerely. h.l A. Ritchie

Hall County Commission Clerk

Subject:	HCPC Tentative Agenda 8.5.24

Please find Environmental Health comments below:

Item 1, 0/3454 Gillsville Hwy, Chowdhury: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 2A,B,C, 1954 Mountain View Road, Matheny: Must meet all residential permitting requirements.

Item 3A,B, 3193 Wallace Road, Del Toro: Must meet all residential permitting requirements.

Item 4A,B,C, 5248 Byers Road, Villeda: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system.

Item 5, 3117 Athens Hwy, Agile Cold Storage: No comment.

Item 6, 5820 McEver Road, Nabeel: If public sewer not available, development must meet all Environmental Health commercial septic system permitting requirements if able to be permitted by Environmental Health. Wastewater treatment and disposal may be required to be permitted through EPD. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Tourist Accommodation permit/plan review and/or Food Service permit/plan review may be required after review of business plan.

Item 7, 2052 Spring Road, Ruelas: No comment. Public sewer.

Item 8A,B, 5181 Dudley Hill Road, Campbell: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 9, 4518/4520 Cagle Road, Rochester: If public sewer not available, development must meet all Environmental Health commercial septic system permitting requirements if able to be permitted by Environmental Health. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review.

Item 10, 5991 Swansey Road, Abernathy: No comment. Public sewer

Monday, August 5, 2024 Hall County Planning Commission Meeting.

<u>5991 Swansey Road | Amend Conditions of Zoning | on a 38.45 ± acre tract located on the south side of Swansey Road approximately 476 feet from its intersection with Circle Four Ranch | Zoned PRD, Tax Parcel 15048 000034 | Proposed Use: 100-lot subdivision | ** Commission District 1 | Abernathy Engineering Group, applicant</u>

Hall County Fire Comments:

- 1) Water service provider not identified in the project narrative.
- 2) How will water be distributed to the development ? Currently there is no water on Swansey Road.
- 3) Will the installation of public water occur during the Swansey road improvements ?
- 4) Development will require fire hydrants as required by Fire Code.
- 5) The Hall County Fire Marshal's Office considers the plan conceptual in nature, and if approved may require modifications during the development review process.
- 6) According to GIS property currently has a parcel warning tag.

Regards,

John Hornick, NPQ Fire Service Plans Examiner 1 Lieutenant, Hall County Fire Rescue Hall County Government Main: 770-531-6838 | Cell: 404-597-0083 Website: www.Hallcounty.org

Flowery Branch	GA	30542	

Your Comments*

why on earth are you allowing a subdivision above county standards? This road can NOT handle this kind of traffic on a gravel road. Building 100 homes on a small piece of land makes this area more congested. Why not build 20 or 30 homes? Most travelers coming through here are speeding 50mph as if this is a racetrack. Please add speed bumps to this road, so I don't have to worry about my kids getting hit by random cars speeding with no limits.

Please write your comments in the box above.

AGENDA ITEM

Public Hearing to amend Hall County's Zoning Map as follows:

REPORT TO:	Work Session	(01/06/25)
-------------------	--------------	------------

REPORT TO: Voting Meeting (01/09/25)

ITEM NO: 706/2024

0 & 4435 Ridge Road | Rezone | from Planned Residential Development
(PRD) and Suburban Shopping (S-S) to Planned Commercial Development
(PCD) | on a combined 74.38± acre tract located on the east side of Ridge
Road at its intersection with Friendship Road | Zoned PRD & S-S, Tax
parcels 08154 000022 & 000017 | Proposed Use: Mixed-use development
| Commission District 1 | Scott Puckett, Inc., applicant

Meetings:

Work Session Date: 01/06/25

Voting Meeting Date: 01/09/25

Executive Summary:

Presenter: Recommendation:

Approval, with conditions

1. The property shall be developed in accordance with the site plan dated December 6, 2024, and as described in the project narrative dated August 23, 2024 and additional comments provided on November 1, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

BG

- 2. The development shall be limited to:
 - a. Commercial structures totaling no more than 16,000 square feet
 - b. One hotel with a total of no more than 110 rooms
 - c. Maximum of 274 multi-family residential units
 - d. Maximum of 209 townhome residential units
 - e. Maximum of 65 detached single-family residences
- 3. The development shall meet the following standards:
 - a. The commercial buildings shall be no more than 3 stories in height.
 - b. The hotel shall be no more than 5 stories in height.
 - c. The multi-family residential buildings shall be no more than 4 total stories in height with no more than 3 stories visible from Friendship Road.
 - d. Townhomes shall be no more than 4 total stories in height.
 - e. Minimum lot size for detached single-family residences shall be 8,000 square feet with minimum heated floor area (HFA) of 1,800 square feet and not to exceed a height of 35 feet.
 - f. Front-loaded townhome driveways shall be 20 feet from back of sidewalk to garage doors.
- 4. Final review and approval of building elevations is subject to the Director of Planning and Zoning, or their designee.
- 5. All single-family homes shall provide two car garages and driveways to accommodate two cars for parking. Driveways shall measure no less than 20 feet from back of sidewalk to the garage door.

- 6. Amenities including one pool for the multi-family section, one pool for the single-family section, tennis courts, pickleball courts, parks, mulched trails, and a clubhouse shall be completed prior to fifty percent (50%) of the certificates of occupancy issued for the residential development. Additional amenities may be constructed by the developer at the discretion and approval of the Director of Planning and Zoning, or their designee.
- 7. Access to the development shall be approved by Hall County Engineering Department and/or the Georgia Department of Transportation, as applicable. The recommendations of the traffic study, subject to final review and approval by both Hall County Engineering and the Georgia Department of Transportation, shall be implemented. Any costs associated with these improvements shall be the responsibility of the developer
- 8. The restrictive covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review. These documents shall include a provision that assures maintenance of the amenity package through adequate assessment of the subdivision property and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.
- 9. All designated open space within the development shall be commonly held and maintained and shall not be the responsibility of any individual homeowner(s). This common open space ownership shall be included in the deeds created for each lot.
- 10. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 11. The location of property lines, structures or any other portion of the development in relation to the sewer line and associated easements shall be approved by the Hall County Engineering Department.
- 12. Prior to issuance of sign permits, other than general signs permitted pursuant to 17.270.050, the owner/developer shall submit a master sign package for street, wall, internal directional, temporary and other signs to be reviewed and approved by the Director of Planning and Zoning or their designee.
- 13. The development shall be limited to a maximum of four model homes prior to approval and recording of the final plat. All life safety regulations shall be satisfied prior to the issuance of a permit for a model home.
- 14. Two construction trailers shall be permitted, provided the conditions of Chapter 17.210 of the Official Code of Hall County are met.
- 15. All development, excluding single-family and townhomes, shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances to Gateway Corridor Overlay Districts standards are granted other than those approved herein (GCOD, 17.420).
- 16. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 17. The following statement regarding the potential impacts of agricultural operation in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 18. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 19. The internal road within the single-family section of the development must be a minimum of 26 feet in width or include secondary fire access into neighboring future residential development (tax parcels 15048 000016 and 15048 000154), and must be approved by the Hall County Fire Marshal and Hall County Engineering.
- 20. Prior to issuance of any building permits, the developer shall submit an Architectural Design Guidebook which lists a palette of acceptable building materials which will also designate required minimums and acceptable design alternatives to be reviewed and approved by the Planning and Zoning Director or their designee. The architectural renderings submitted with the application will not be considered representative of the approved building materials. The architectural standards outlined in the guidebook must meet those listed within the Gateway Corridor Overlay District code.
- 21. All exterior buffers surrounding the residential portion of the development shall be a minimum of 50 feet except for the section adjacent to parcel 15048 000065 as noted on site plan where the buffer may be a minimum of 40 feet.
- 22. There may be no more than 6 attached townhome units per building.
- 23. Buildings containing more than three attached units must be designed so that facades and roofs are staggered or offset by at least 3 feet for every grouping of three units.
- 24. Townhome garage door widths may be up to 67% of the front façade.
- 25. The development may include hammerhead turnarounds with a minimum 28 foot radius in lieu of cul-de-sacs and two curves in the townhome section shall be allowed to have 20 foot inside radii and 30 foot centerline radii as shown on the submitted site plan dated December 6, 2024.
- 26. The development may include a private easement to rear private alleyways for ingress and egress to the rear-loaded townhomes and associated access, with no sidewalks along the alleyway.

PLANNING AND ZONING

DIRECTOR

Beth Garmon

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

To: **Richard Higgins, Chairman** Kathy Cooper, District 1 Commissioner Billy Powell, District 2 Commissioner Gregg Poole, District 3 Commissioner Jeff Stowe, District 4 Commissioner From: Beth Garmon, Director of Planning & Zoning Date: December 23, 2024 Subject: 0 & 4435 Ridge Road | Rezone | from Planned Residential Development (PRD) and Suburban Shopping (S-S) to Planned Commercial Development (PCD) | on a combined 74.38± acre tract | Zoned PRD & S-S, Tax Parcels 08154 000022 & 000017 | Proposed Use: Mixed-use development | Scott Puckett, Inc., applicant

The request before you is from Scott Puckett, Inc. to rezone from Planned Residential Development (PRD) and Suburban Shopping (S-S) to Planned Commercial Development (PCD) for a mixed-use development. This item is located within Commission District 1.

At their December 16, 2024 meeting, the Hall County Planning Commission voted to recommend approval with twenty-six (26) conditions (3-0, Hunt and Sosebee absent).

Staff recommendation: **Denial**, as the proposed use is inconsistent with the future land use classification of Mixed Use Corridor in the Comprehensive Plan.

Public Comment:

- October 21, 2024 HCPC: No comments were submitted in advance of the meeting.
- November 18, 2024 HCPC: No comments were submitted in advance of the meeting and one (1) person spoke in support during the public hearing.
- December 16, 2024 HCPC: The public comment portion was closed.

Planning Commission Conditions:

1. The property shall be developed in accordance with the site plan dated December 6, 2024, and as described in the project narrative dated August 23, 2024 and additional comments provided on November 1, 2024, modified

as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

- 2. The development shall be limited to:
 - a. Commercial structures totaling no more than 16,000 square feet
 - b. One hotel with a total of no more than 110 rooms
 - c. Maximum of 274 multi-family residential units
 - d. Maximum of 209 townhome residential units
 - e. Maximum of 65 detached single-family residences
- 3. The development shall meet the following standards:
 - a. The commercial buildings shall be no more than 3 stories in height.
 - b. The hotel shall be no more than 5 stories in height.
 - c. The multi-family residential buildings shall be no more than 4 total stories in height with no more than 3 stories visible from Friendship Road.
 - d. Townhomes shall be no more than 4 total stories in height.
 - e. Minimum lot size for detached single-family residences shall be 8,000 square feet with minimum heated floor area (HFA) of 1,800 square feet and not to exceed a height of 35 feet.
 - f. Front-loaded townhome driveways shall be 20 feet from back of sidewalk to garage doors.
- 4. Final review and approval of building elevations is subject to the Director of Planning and Zoning, or their designee.
- 5. All single-family homes shall provide two car garages and driveways to accommodate two cars for parking. Driveways shall measure no less than 20 feet from back of sidewalk to the garage door.
- 6. Amenities including one pool for the multi-family section, one pool for the single-family section, tennis courts, pickleball courts, parks, mulched trails, and a clubhouse shall be completed prior to fifty percent (50%) of the certificates of occupancy issued for the residential development. Additional amenities may be constructed by the developer at the discretion and approval of the Director of Planning and Zoning, or their designee.
- 7. Access to the development shall be approved by Hall County Engineering Department and/or the Georgia Department of Transportation, as applicable. The recommendations of the traffic study, subject to final review and approval by both Hall County Engineering and the Georgia Department of Transportation, shall be implemented. Any costs associated with these improvements shall be the responsibility of the developer
- 8. The restrictive covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review. These documents shall include a provision that assures maintenance of the amenity package through adequate assessment of the subdivision property

and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.

- 9. All designated open space within the development shall be commonly held and maintained and shall not be the responsibility of any individual homeowner(s). This common open space ownership shall be included in the deeds created for each lot.
- 10. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 11. The location of property lines, structures or any other portion of the development in relation to the sewer line and associated easements shall be approved by the Hall County Engineering Department.
- 12. Prior to issuance of sign permits, other than general signs permitted pursuant to 17.270.050, the owner/developer shall submit a master sign package for street, wall, internal directional, temporary and other signs to be reviewed and approved by the Director of Planning and Zoning or their designee.
- 13. The development shall be limited to a maximum of four model homes prior to approval and recording of the final plat. All life safety regulations shall be satisfied prior to the issuance of a permit for a model home.
- 14. Two construction trailers shall be permitted, provided the conditions of Chapter 17.210 of the Official Code of Hall County are met.
- 15. All development, excluding single-family and townhomes, shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances to Gateway Corridor Overlay Districts standards are granted other than those approved herein (GCOD, 17.420).
- 16. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 17. The following statement regarding the potential impacts of agricultural operation in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the

property shown on this plat should be prepared to expect the effects of such practices."

- 18. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 19. The internal road within the single-family section of the development must be a minimum of 26 feet in width or include secondary fire access into neighboring future residential development (tax parcels 15048 000016 and 15048 000154), and must be approved by the Hall County Fire Marshal and Hall County Engineering.
- 20. Prior to issuance of any building permits, the developer shall submit an Architectural Design Guidebook which lists a palette of acceptable building materials which will also designate required minimums and acceptable design alternatives to be reviewed and approved by the Planning and Zoning Director or their designee. The architectural renderings submitted with the application will not be considered representative of the approved building materials. The architectural standards outlined in the guidebook must meet those listed within the Gateway Corridor Overlay District code.
- All exterior buffers surrounding the residential portion of the development shall be a minimum of 50 feet except for the section adjacent to parcel 15048 000065 as noted on site plan where the buffer may be a minimum of 40 feet.
- 22. There may be no more than 6 attached townhome units per building.
- 23. Buildings containing more than three attached units must be designed so that facades and roofs are staggered or offset by at least 3 feet for every grouping of three units.
- 24. Townhome garage door widths may be up to 67% of the front façade.
- 25. The development may include hammerhead turnarounds with a minimum 28 foot radius in lieu of cul-de-sacs and two curves in the townhome section shall be allowed to have 20 foot inside radii and 30 foot centerline radii as shown on the submitted site plan dated December 6, 2024.
- 26. The development may include a private easement to rear private alleyways for ingress and egress to the rear-loaded townhomes and associated access, with no sidewalks along the alleyway.

- 18. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 19. The internal road within the single-family section of the development must be a minimum of 26 feet in width or include secondary fire access into neighboring future residential development (tax parcels 15048 000016 and 15048 000154), and must be approved by the Hall County Fire Marshal and Hall County Engineering.
- 20. Prior to issuance of any building permits, the developer shall submit an Architectural Design Guidebook which lists a palette of acceptable building materials which will also designate required minimums and acceptable design alternatives to be reviewed and approved by the Planning and Zoning Director or their designee. The architectural renderings submitted with the application will not be considered representative of the approved building materials. The architectural standards outlined in the guidebook must meet those listed within the Gateway Corridor Overlay District code.

- 21. All exterior buffers surrounding the residential portion of the development shall be a minimum of 50 feet except for the section adjacent to parcel 15048 000065 as noted on site plan where the buffer may be a minimum of 40 feet.
- 22. There may be no more than 6 attached townhome units per building.
- 23. Buildings containing more than three attached units must be designed so that facades and roofs are staggered or offset by at least 3 feet for every grouping of three units.
- 24. Townhome garage door widths may be up to 67% of the front façade.
- 25. The development may include hammerhead turnarounds with a minimum 28 foot radius in lieu of cul-de-sacs and two curves in the townhome section shall be allowed to have 20 foot inside radii and 30 foot centerline radii as shown on the submitted site plan dated December 6, 2024.
- 26. The development may include a private easement to rear private alleyways for ingress and egress to the rear-loaded townhomes and associated access, with no sidewalks along the alleyway.

Excerpts from the minutes of the December 12, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Tyler Smith, 340 Jesse Jewel Parkway, Suite 300, Gainesville, presented the request. The applicant is requesting to rezone a combined 74.38± acres zoned Planned Residential Development (PRD, 17.180.060) and Suburban Shopping (S-S, 17.140) within the Gateway Corridors Overlay District (GCOD, 17.420) to Planned Commercial Development (PCD, 17.180.080) for a mixed-use development. The proposed development includes: 4 buildings for commercial, retail, and restaurant uses; 1 hotel with 110 rooms; 274 multi-family residential units; 209 townhomes; and 65 single-family detached residences; along with various amenity features. The overall proposed density for the development is 7.46 dwelling units per acre; the calculated density does not include the hotel or commercial uses within the development.

Planning Commission Comments:

Mr. Braswell recalled from the previous meeting that a condition for 26 foot wide roads were required but now the applicant is requesting to do either 26 foot wide roads or have an additional fire access point connecting this property to the adjacent tax parcels 15048 000016 and 15048 000154 where future development for single-family homes has previously been approved. The applicant confirmed this was the request. Mr. Braswell asked about the variance request for the front setback on front loaded townhomes. The applicant explained that the right-of-way is proposed 16 feet from the garage door; however, the back of sidewalk will be set a total of 20 feet from the garage door providing for a 20-foot driveway.

<u>Motion:</u> A motion to approve, with conditions was made by Johnny Varner and seconded by Gina Pilcher. Vote: 3-0 (Hunt and Sosebee absent)

Conditions:

- 1. The property shall be developed in accordance with the site plan dated December 6, 2024, and as described in the project narrative dated August 23, 2024 and additional comments provided on November 1, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The development shall be limited to:
 - a. Commercial structures totaling no more than 16,000 square feet
 - b. One hotel with a total of no more than 110 rooms
 - c. Maximum of 274 multi-family residential units
 - d. Maximum of 209 townhome residential units
 - e. Maximum of 65 detached single-family residences
- 3. The development shall meet the following standards:
 - a. The commercial buildings shall be no more than 3 stories in height.
 - b. The hotel shall be no more than 5 stories in height.
 - c. The multi-family residential buildings shall be no more than 4 total stories in height with no more than 3 stories visible from Friendship Road.
 - d. Townhomes shall be no more than 4 total stories in height.
 - e. Minimum lot size for detached single-family residences shall be 8,000 square feet with minimum heated floor area (HFA) of 1,800 square feet and not to exceed a height of 35 feet.
 - f. Front-loaded townhome driveways shall be 20 feet from back of sidewalk to garage doors.
- 4. Final review and approval of building elevations is subject to the Director of Planning and Zoning, or their designee.
- 5. All single-family homes shall provide two car garages and driveways to accommodate two cars for parking. Driveways shall measure no less than 20 feet from back of sidewalk to the garage door.
- 6. Amenities including one pool for the multi-family section, one pool for the single-family section, tennis courts, pickleball courts, parks, mulched trails, and a clubhouse shall be completed prior to fifty percent (50%) of the certificates of occupancy issued for the residential development. Additional amenities may be constructed by the developer at the discretion and approval of the Director of Planning and Zoning, or their designee.
- 7. Access to the development shall be approved by Hall County Engineering Department and/or the Georgia Department of Transportation, as applicable. The recommendations of the traffic study, subject to final review and approval by both Hall County Engineering and the Georgia Department of Transportation, shall be implemented. Any costs associated with these improvements shall be the responsibility of the developer
- 8. The restrictive covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review. These documents shall include a provision

that assures maintenance of the amenity package through adequate assessment of the subdivision property and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.

- 9. All designated open space within the development shall be commonly held and maintained and shall not be the responsibility of any individual homeowner(s). This common open space ownership shall be included in the deeds created for each lot.
- 10. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 11. The location of property lines, structures or any other portion of the development in relation to the sewer line and associated easements shall be approved by the Hall County Engineering Department.
- 12. Prior to issuance of sign permits, other than general signs permitted pursuant to 17.270.050, the owner/developer shall submit a master sign package for street, wall, internal directional, temporary and other signs to be reviewed and approved by the Director of Planning and Zoning or their designee.
- 13. The development shall be limited to a maximum of four model homes prior to approval and recording of the final plat. All life safety regulations shall be satisfied prior to the issuance of a permit for a model home.
- 14. Two construction trailers shall be permitted, provided the conditions of Chapter 17.210 of the Official Code of Hall County are met.
- 15. All development, excluding single-family and townhomes, shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances to Gateway Corridor Overlay Districts standards are granted other than those approved herein (GCOD, 17.420).
- 16. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 17. The following statement regarding the potential impacts of agricultural operation in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 18. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.

- 19. The internal road within the single-family section of the development must be a minimum of 26 feet in width or include secondary fire access into neighboring future residential development (tax parcels 15048 000016 and 15048 000154), and must be approved by the Hall County Fire Marshal and Hall County Engineering.
- 20. Prior to issuance of any building permits, the developer shall submit an Architectural Design Guidebook which lists a palette of acceptable building materials which will also designate required minimums and acceptable design alternatives to be reviewed and approved by the Planning and Zoning Director or their designee. The architectural renderings submitted with the application will not be considered representative of the approved building materials. The architectural standards outlined in the guidebook must meet those listed within the Gateway Corridor Overlay District code.
- 21. All exterior buffers surrounding the residential portion of the development shall be a minimum of 50 feet except for the section adjacent to parcel 15048 000065 as noted on site plan where the buffer may be a minimum of 40 feet.
- 22. There may be no more than 6 attached townhome units per building.
- 23. Buildings containing more than three attached units must be designed so that facades and roofs are staggered or offset by at least 3 feet for every grouping of three units.
- 24. Townhome garage door widths may be up to 67% of the front façade.
- 25. The development may include hammerhead turnarounds with a minimum 28 foot radius in lieu of cul-de-sacs and two curves in the townhome section shall be allowed to have 20 foot inside radii and 30 foot centerline radii as shown on the submitted site plan dated December 6, 2024.
- 26. The development may include a private easement to rear private alleyways for ingress and egress to the rear-loaded townhomes and associated access, with no sidewalks along the alleyway.

Summary of Revisions for December 16, 2024 Planning Commission meeting

On Friday, December 6, 2024 an updated site plan was provided to Planning staff for the application of Scott Puckett, LLC to rezone 0 & 4435 Ridge Road from PRD and S-S to PCD for a mixed-use development. The applicant has identified the following changes to the site plan that differ from the previous concept:

- 1. Modified site layout to include 26 foot wide internal streets in order to meet emergency access requirements
- 2. Modification of buffers to allow for 50 foot buffers along all external boundaries within the single-family section of the development.
- 3. A variance request to allow for a reduction from 50 feet to 40 feet for the transitional buffer where adjacent to parcel 15048 000065.

- 4. Proposed secondary fire safety access from adjacent community, shown as future development
- 5. A variance request to allow front loaded townhomes a front setback of 16 feet.

Updated development summary as shown below:

	Previous	Updated
Townhomes Total	224	209
Front Loaded	118	115
Rear Loaded	106	94
Single Family Detached	65	65
Residential Density	7.60 DUA	7.37 DUA
Non-Impacted Stream Buffer	24%	23.5.0%
Southern Transitional Buffer	25 ft	50 ft

Summary of Revisions for November 18, 2024 Planning Commission meeting

Dear Board of Commissioners,

On Friday, November 1, 2024 an updated site plan was provided to Planning staff for the application of Scott Puckett, LLC to rezone 0 & 4435 Ridge Road from PRD and S-S to PCD for a mixed-use development. The applicant has identified the following changes to the site plan that differ from the previous concept:

- 1. Addition of a 50-foot buffer along the southern boundary of the development.
- 2. Modified site layout to show front-loaded townhomes with varied setbacks from street on the southern portion of the development, rather than single-family detached lots.
- 3. Variation of front setbacks of townhomes on the north side of the development. The site plan does not indicate the proposed setbacks for these units.
- 4. Modified entrance to a boulevard/median design at the single-family section of the development.
- 5. Increased width to 26 feet where street connects multi-family to single-family sections.
- 6. Updated development summary as shown below:

	Previous	Updated
Townhomes Total	207	224
Front Loaded	99	118
Rear Loaded	108	106
Single Family Detached	74	65
Residential Density	7.46 DUA	7.60 DUA
Non-Impacted Stream	24.2%	24.0%
Buffer		
Southern Transitional	25 ft	50 ft
Buffer		

Staff recommends <u>DENIAL</u> of the applicant's request. However, if the Planning Commission chooses to approve this request, Staff recommends the following conditions:

- 1. The property shall be developed in accordance with the site plan dated August 22, 2024, and as described in the project narrative dated August 23, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The development shall be limited to:
 - a. Commercial structures totaling no more than 16,000 square feet
 - b. One hotel with a total of no more than 110 rooms
 - c. Maximum of 274 multi-family residential units
 - d. Maximum of 207 townhome residential units
 - e. Maximum of 74 detached single-family residences
- 3. The development shall meet the following standards:
 - a. The commercial buildings shall be no more than 3 stories in height.
 - b. The hotel shall be no more than 3 stories in height
 - c. The multi-family residential buildings shall be no more than 3 total stories in height
 - d. Townhomes shall be no more than 4 total stories in height.
 - e. Minimum lot size for detached single-family residences shall be 8,000 square feet with minimum heated floor area (HFA) of 1,800 square feet and not to exceed a height of 35 feet.
- 4. Final review and approval of building elevations is subject to the Director of Planning and Zoning, or their designee.
- 5. All single-family homes and townhomes shall provide two car garages and driveways to accommodate two cars for parking. Driveways shall measure no less than 20 feet from back of sidewalk to the garage door.
- 6. Amenities including one pool for the multi-family section, one pool for the single-family section, tennis courts, pickleball courts, parks, mulched trails, and a clubhouse shall be completed prior to fifty percent (50%) of the certificates of occupancy issued for the residential development. Additional amenities may be constructed by the developer at the discretion and approval of the Director of Planning and Zoning, or their designee.
- 7. Access to the development shall be approved by Hall County Engineering Department and/or the Georgia Department of Transportation, as applicable. The recommendations of the traffic study, subject to final review and approval by both Hall County Engineering and the Georgia Department of Transportation, shall be implemented. Any costs associated with these improvements shall be the responsibility of the developer
- 8. The restrictive covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review. These documents shall include a provision that assures maintenance of the amenity package through adequate assessment of the

subdivision property and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.

- 9. All designated open space within the development shall be commonly held and maintained and shall not be the responsibility of any individual homeowner(s). This common open space ownership shall be included in the deeds created for each lot.
- 10. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 11. The location of property lines, structures or any other portion of the development in relation to the sewer line and associated easements shall be approved by the Hall County Engineering Department.
- 12. Prior to issuance of sign permits, other than general signs permitted pursuant to 17.270.050, the owner/developer shall submit a master sign package for street, wall, internal directional, temporary and other signs to be reviewed and approved by the Director of Planning and Zoning or their designee.
- 13. The development shall be limited to a maximum of four model homes prior to approval and recording of the final plat. All life safety regulations shall be satisfied prior to the issuance of a permit for a model home.
- 14. Two construction trailers shall be permitted, provided the conditions of Chapter 17.210 of the Official Code of Hall County are met.
- 15. All development, excluding single-family and townhomes, shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420) standards. No variances to Gateway Corridor Overlay Districts standards are granted other than those approved herein (GCOD, 17.420).
- 16. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 17. The following statement regarding the potential impacts of agricultural operation in the area shall be made a part of any plat recorded on the property:

"Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."

18. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.

The following should be considered as exceptions to the Official Code of Hall County, and shall warrant further determination by the Board should it choose to approve the submitted narrative and site plan:

1. 17.180.060.B.5. – <u>Buffers</u>

A minimum 50 foot planted buffer shall be established along the perimeter of all property boundaries adjacent to residential and/or non-residential zoning districts to ensure that the planned residential development is appropriately screened. The planted buffers shall conform to the requirements as described in section 17.260.020 titled vegetation buffers and vision clearance. In conditions where required stream buffers exist along a perimeter property boundary, the planning director may grant exemptions from the 50 foot planted buffer if a stream buffer meets or exceeds the 50 foot planted buffer width.

• The applicant has proposed a 25 foot transitional buffer.

2. 17.180.060.B.9. – Architectural Standards

C) Townhouse garages. Townhouses fronting an arterial or collector street shall be rear-loaded. Townhouses fronting a minor street may be rear-loaded or front-loaded.
ii) Front-loaded. Garage doors shall constitute no more than 50 percent of the width of the individual townhouse unit.

• For the townhomes, the submitted narrative propose a maximum garage door width of 67 percent of the front façade.

3. 17.420.050.H.1.b. – GCOD Architectural standards for non-residential buildings

Building height. Any non-residential building located within 250 feet of a residential or agricultural use street shall be limited to no more than three stories in height.

- The applicant has proposed no more than 5 stories in height for the hotel.
- The applicant has proposed a 3-4 story split for multi-family units

4. 16.60.160. <u>– Width of right-of-way.</u>

C. Standard cul-de-sac. The right-of-way shall extend to a minimum 60-foot radius measured from the center of the cul-de-sac, and the total width shall be evenly divisible by ten feet.

- The applicant is proposing a reduction of the minimum radius by:
 - 1. Proposing hammerhead with 28 foot radius in lieu of cul-de-sac in Townhome portion of the development
 - 2. Proposing two of the curves in the townhome section of the development have a 20 foot inside radius and 30 foot centerline radius
- 5. Title 16 <u>Subdivision</u>
 - General design requirements for subdivision road regulations are outlined within Chapter 16. Variances must be specified and justified for consideration.
 - The applicant requests a variance to allow a private easement to rear private alleyways for ingress and egress to the rear-loaded townhomes and associated access, with no sidewalks along the alleyway.

Summary Analysis

The applicant is requesting to rezone a combined 74.38± acres zoned Planned Residential Development (PRD, 17.180.060) and Suburban Shopping (S-S, 17.140) within the Gateway Corridors Overlay District (GCOD, 17.420) to Planned Commercial Development (PCD, 17.180.080) for a mixed-use development. The proposed development includes: 4 buildings for commercial, retail, and restaurant uses; 1 hotel with 110 rooms; 274 multi-family residential units; 207 townhomes; and 74 single-family detached residences; along with various amenity features. The overall proposed density for the development is 7.46 dwelling units per acre; the calculated density does not include the hotel or commercial uses within the development.

The property is currently undeveloped and wooded, is impacted by both the County Studied and FEMA flood zones, and includes a stream, which runs through the southern portion of the assemblage. According to both the narrative and the site plan, the applicant proposes that some residential lots will include portions of all associated stream buffers. This proposal references Section 8.170.070, which permits properties between 10 and 49.9 acres to reduce the 75 foot impervious setback area, provided that the combined total of the undisturbed buffer and impervious setback does not exceed 12 percent of the total property area affected by the development.

The subject property was rezoned from Agricultural Residential (AR-III, 17.100) and Suburban Shopping (S-S, 17.140) to Suburban Shopping (S-S, 17.140) and Planned Residential Development (PRD, 17.180.060) on September 12, 2019, for a 116-lot residential subdivision and shopping center with seven conditions. No permits were applied for under the previous zoning, and no development has occurred.

Per the narrative and site plan, the commercial portion of the proposed development will consist of a hotel with 110 rooms, and four commercial buildings totaling approximately 16,000 square feet to include retail and/or restaurants. The four commercial buildings are located at the northwest corner of the subject property and will have rooftop space, outdoor seating, and a central plaza. These four buildings will not exceed three stories in height. The proposed hotel will also be located at the northwest conter of the subject property, near the food and beverage structures, and is proposed to not exceed five stories in height.

Furthermore, the site plan and narrative indicted that the residential portion of the proposed development will consist of three to four story multi-family residential buildings, three to four story townhomes, and one to two story detached single-family homes with a maximum height of 35 feet. The detached single-family homes will have a minimum of 1,800 square feet of heated floor space. The townhomes and detached single family will have two-car garages with the townhomes featuring both front-loaded and rear-loaded garage styles.

Per the site plan, four access points are proposed that will serve the development. One entrance is located on Friendship Road and three entrances are located on Ridge Road with one of the entrances on the Ridge Road proposed to be a gated emergency access only. Furthermore, the site plan illustrates that the residential internal roads are proposed to be public and will have a 50 foot wide right-of-way with a three foot landscape strip and five foot wide sidewalks on both sides of the internal streets for pedestrian connectivity. The narrative proposes driveways to be a minimum of 20 feet long measured

from back of the sidewalk to garage door and states that 217 parking spaces are provided for commercial uses, 55 spaces for the hotel, 410 spaces for multi-family, 414 for townhome, and 148 spaces for single-family detached homes.

The development also designates 27.8 acres as open space with an amenity area included, constituting 37.3% of the total site area. The open space is proposed to include stream buffers, planted and undisturbed exterior buffers, stormwater management facilities, and multiple open areas for passive recreational use and walking trails. The proposed amenity areas will consist of two swimming pools, tennis courts, pickleball courts, parks, as well as mulched walking trails connecting the neighborhood to the shared greenspaces and amenity areas. The site plan shows two clustered mail kiosk areas with required parking.

The developer proposes to include one monument sign on Friendship Road and one monument sign on Ridge Road, and the applicant intends to submit a master sign package for various other signs throughout the development for review prior to construction.

Water service will be provided by the City of Gainesville Department of Water Resources, as confirmed in an email dated April 25, 2024 and sanitary sewer services will be provided by Hall County Sewer, as confirmed in a letter dated September 13, 2024.

The traffic impact study for the proposed development indicates that "Hall County Access Regulations" require northbound right-turn lanes at access C and D (along Ridge Road) for subdivisions with more than 24 lots. However, the analysis shows that right-turn volumes at access D are below the required threshold, and a waiver is recommended for the right-turn lane at this location. Southbound left-turn lanes are required at both access C and access D. The recommended improvements include constructing an eastbound right-turn lane at access A (on Friendship Road/SR 347), a southbound left-turn lane and northbound right-turn lane at access C, and a southbound left-turn lane at access D, along with seeking a waiver for the northbound right-turn lane. Coordination and approval from Hall County Engineering and Georgia Department of Transportation will be required for these recommendations.

The project was submitted to the Georgia Mountains Regional Commission for Development of Regional Impact review, and a report was provided by Adam Hazell on October 8, 2024 that states that the proposed action does not present any potential adverse inter-jurisdictional impacts.

Several variances have been identified as part of this request. Any deficiencies identified as part of the plan will be required to comply with the requirements of the PCD and PRD code sections unless specially granted by the board in the conditions of approval.

Per section 17.180.080B.8: "If residential uses are proposed in conjunction with the planned commercial development, then the applicable requirements of the planned residential development shall be provided."

The proposed development standards for the residential portion of this project are described in the table below and are compared with the PRD requirements, (17.180.060):

Standard	PRD Requirement (17.180.060)	Proposed Development
Site Area	5 acre minimum	74.38± acres

	Single-family: 74 lots
	Townhomes: 207 units
	Multi-family: 274 units
	Total: 555
2 units per acre maximum	7.46 units per acre*
	8,000 sq. ft. (single-family detached)
8,000 sq. π.	Townhomes: Min. 22 feet width
	Single-family: Max. 35 feet
	Townhomes: 4 stories
	Multi-family: 4 stories
20%	37.3% (Includes conservation, stormwater, and passive and active
30%	areas)
50 feet	25-foot transitional buffer*
	Single-family: 25 feet
25 feet	Townhomes: 20 feet for front-loaded* & 6 feet for rear-loaded*
	Multi-family: Not applicable
	Single-family: 25 feet
5 feet	Townhomes: 5 feet
	Multi-family: Not applicable
	Single-family: 20 feet
20 feet	Townhomes: 20 feet
	Multi-family: Not applicable

Note: Items marked with an asterisk (*) do not conform to 17.420.050 or are unspecified in the application.

Based on the future land-use plan, staff finds the requested zoning designation <u>is inconsistent</u> with the Hall County Comprehensive Plan future land use designation as Mixed Use Corridor. The intent of the Mixed Use corridor is to support retail activities, office-based employment, civic uses, and singlefamily residential with low-impact industrial or higher density residential only where the same is found on adjacent properties. The proposed mixed use development has a residential density of 7.46 units per acre.

Zoning Analysis

When considering a zoning amendment to the zoning maps, the following items must be considered:

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property; The zoning proposal does not appear to be suitable given the context of the surrounding area. The surrounding area consists of a variety of land uses, which include residential, agricultural, industrial, and commercial uses.
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; The proposed development may adversely affect the existing use or usability of adjacent or nearby properties as the proposed density of 7.46 dwelling units per acre is higher than those of nearby residential parcels.
- 3. Whether the property to be affected by the zoning proposal has reasonable economic use as currently zoned. The property appears to have reasonable economic use as it is currently zoned Suburban Shopping (S-S, 17.140) and Planned Residential Development (PRD, 17.180.060).
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; Per the submitted traffic study, the analysis shows that right-turn volumes at Access D on Ridge Road are below the required threshold, and a waiver is recommended for the right-turn lane at this location. Southbound left-turn lanes are required at both Access C and Access D on Ridge Road. The recommended improvements include constructing an eastbound right-turn lane at Access A on Friendship Road (SR 347), a southbound left-turn lane and northbound right-turn lane at Access C, and a southbound left-turn lane at Access D, along with seeking a waiver for the northbound right-turn lane.
- 5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan; The proposed use is inconsistent with the Comprehensive Plan Mixed Use Corridor. This corridor supports higher density residential where the same is found on adjacent properties. The proposed development is a mixed-use development proposing a density of 7.46 dwelling units per acre.
- 6. The extent to which property values are diminished by the existing zoning restrictions; Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.
- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- 9. The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The subject properties are currently undeveloped. However, the properties were previously approved in 2019 to allow for a mixed-use

development that included 116 single-family residential lots as well as a shopping center. No construction permits have been issued for the previously approved development.

- Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal;
 Staff is not aware of any changing conditions that affect the use and development of the property.
- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The proposed zoning is a Planned Commercial Development (PCD, 17.180.080). Per the Official Code of Hall County, Planned Development Districts (17.180) are to be utilized as a "floating zone" which shall mean that areas will not be pre-designated as planned development districts but rather each such designation shall result from a specific and separate application for amendment. The proposed density is higher than that found on surrounding properties.
- Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; There is no evidence that the present zoning district boundaries are illogically drawn.
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; The proposed density is higher than that found on immediately surrounding properties but in general the use does not appear to be out of scale with the needs of the County as a whole, as there is a need for additional and a variety of housing types as well as restaurants.
- 14. Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; There are other properties within the County that support a moderate-density single-family residential uses based on the Future Land Use Map, although the development as proposed cannot be developed in any of the existing residential or multi-family districts without being rezoned to Planned Commercial Development (PCD, 17.180.080).
- **15.** Whether the need for rezoning could be handled instead by a variance request to the [Planning Commission]; **The request could not be handled alternatively as a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process and as a result are subject to local, state, and federal regulations. As a result, there should not be an ecological or pollution impact resulting from any modification to the land if the request is granted.
- 17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; There is no indication that a mistake was made in the original zoning.

A Planned Commercial Development (PCD, 17.180.080) provides for the maximum attainable commercial usage of a property while employing the best aspects of prior site planning and development controls to ensure the protection of surrounding residential uses, safe access by motorists, minimum traffic congestion; and a development which is consistent with long-range plans

of the county. A limited number of carefully planned residential uses may also be included in a planned commercial development.

17.380.050. - Submission requirements for a rezoning request

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in chapter 17.30 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 17.380.060.C of this section [chapter].
 The proposal provides a narrative outlining the intent of the development; however, the applicant has not prepared a response to each of the criteria listed in 17.380.060.C.
 - 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal meets the requirement.
- C. For any application for a slow rate land treatment system (see chapter 17.20), the following additional requirements apply. **This standard is not applicable to the applicant's request.**
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. The applicant submitted a traffic study conducted by Traffic Impact Group LLC. The analysis shows that right-turn volumes at Access D are below the required threshold, and a waiver is recommended for the right-turn lane at this location. Southbound left-turn lanes are required at both Access C and Access D. The recommended improvements include constructing an eastbound right-turn lane at Access A on Friendship Road (SR 347), a southbound left-turn lane and northbound

right-turn lane at Access C, and a southbound left-turn lane at Access D, along with seeking a waiver for the northbound right-turn lane.

Development Support and Constraints

Hall County Environmental Health

In an email dated September 16, 2024, Emily McGahee stated "Public Sewer. A Food Service permit/plan review may be required depending on businesses proposed. Any abandoned well shall be properly closed as per Water Well Standards Act. Any abandoned septic tank shall be pumped by a State certified pumper/hauler and crushed/filled."

Hall County Fire Marshal

In an email dated September 19, 2024, John Hornick, NPQ Fire Service Plans Examiner 1, provided the following comments:

- 1) The residential portion of the development has only one entrance off Ridge Rd. The residential development calls for 207 townhomes and 74 single family dwellings. The Rules and Regulations of the State of Georgia 120-3-3 states that developments of one and two family dwellings where the number of dwelling units exceeds 120 shall be provided with two separate and approved fire access roads. If approved a second access will have to be installed.
- 2) The town home rear alley or street is considered a fire apparatus access and will have to meet the minimum 20' width requirement of the International Fire Code Chapter 5, Section 503.2.1, if approved the town home rear alley or street shall not be less than 20' wide.
- 3) If approved all commercial buildings greater than 12,000 SF or 2 stories or greater in height will be required to have an emergency responder radio frequency test completed to determine the radio signal strength inside the building, any building failing the test will be required to have a bidirectional antenna system designed, installed, and certified.

Hall County Public Works and Utilities

In a memo dated September 19, 2024, Bill Nash, Director of Public Works and Utilities, provided the following comments:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffer and impervious setback from wrested vegetation not centerline of stream

Traffic:

Hall County commercial standards will apply. This will include but not limited to left and right (decel) lanes. GDOT coordination/comments will also be required due to the proximity to a state controlled intersection.

Utilities:

Friendship Road Sewer. Property lies in the top of the system and will served by that project by Hall County.

Georgia Department of Transportation

In an email dated September 16, 2024, Veronica Chavers, stated that GDOT coordination is required.

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

- (b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating \$250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:
- (3) The name and official position of the local government official to whom the campaign contribution was made; and
- (4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.
 - (b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

Project Narrative

Rezoning Application of Scott Puckett, Inc.

August 23, 2024

Scott Puckett, Inc. presents this narrative regarding its application to rezone two tracts of property to PCD for a Planned Commercial Development. The subject parcels are:

Tax Parcel	Size
08154 000017	24.21 acres
08154 000022	50.165 acres

Provided with the application is a proposed site plan dated August 22, 2024. The PCD includes one hotel with approximately 110 rooms; four buildings for commercial, retail, and/or restaurant use, surrounding a central plaza; 274 multi-family residential units; 207 Townhomes; 74 single-family detached residential lots; and amenities including swimming pools, tennis courts, pickleball courts, parks, and walking trails.

A. Characteristics

The proposed design allows for flexible placement, arrangement, and orientation of commercial and residential structures given the property's characteristics, including streams located on the property. The subdivision will be a mixed-use development consisting of hotel, commercial (to include commercial, retail, and/or restaurant uses), multi-family housing, townhomes, and single-family homes. The community will have four entrances, one on Friendship Road and three on Ridge Road. One of the entrances on Ridge Road will be gated emergency access only. Submitted with the rezoning application is the Traffic Impact Analysis for the development prepared by Traffic Impact Group, LLC. The proposed design will maximize natural features through creative site planning. Grading will be in accordance with site characteristics, topography, and the presence of streams.

B.1: Commercial Structures

The proposed commercial portion of the development abuts Friendship Road. The hotel, located at the corner of Friendship Road and Ridge Road, will include approximately 110 guest rooms. The applicant anticipates the hotel will not exceed 5 stories. Gateway Corridor standards limit the height of non-residential buildings located within 250 feet of a residential or agricultural use street to three stories. Accordingly, the applicant requests a variance from Gateway Corridor standards to allow for a five-story hotel. The applicant is in discussion with a nationally-recognized hotel line to operate the hotel, which (a) will not have exterior entry to units, and (b) will have a hotel lobby and indoor entrance to units. Although the hotel will be located on the commercial portion of the development, the applicant requests flexibility on the final location of the hotel to factor in parking, traffic flow, and aesthetics from the surrounding roads.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Two

The commercial portion of the development will include four buildings totaling approximately 16,000 square feet. The applicant anticipates the commercial buildings will not exceed 3 stories. The commercial portion of the development will include patios and outdoor seating and will surround a Central Plaza.

The facades of the commercial buildings will be in accordance with Gateway Corridor standards.

B.2 Entrances, Exits, and Parking

The site plan depicts the entrances, exits, and parking for the development. Access to the commercial development is by two entrances, one on Friendship Road and one on Ridge Road. (There are two additional access points to the development, also on Ridge Road, which will primarily serve the residential portion of the development.) Parking is depicted on the site plan and will include 217 parking spaces for the commercial component (13.5 spaces per 1,000 square feet of commercial building space) and 55 spaces for the hotel (1 space per 2 rooms).

B.3 <u>Buffers</u>

The site plan calls for a 10-foot landscape strip along Friendship Road and along Ridge Road. The eastern portion of the commercial development will include a 25-foot transitional border, which runs throughout the single-family residential portion of the development. The materials utilized in the landscape strip and transitional border will be in accordance with Gateway Corridor Standards.

Hall County Ordinance 17.180.060.B.5 provides for a minimum 50-foot planted buffer along the perimeter of all property boundaries adjacent to residential and/or non-residential zoning districts to ensure that the planned residential development is appropriately screened. The southeastern property line abuts another residential development, the PRD zoning of which requires a 50-foot undisturbed buffer, and the entirety of that buffer is outside the residential lots in that development. Approximately two-thirds of the southwestern property line abuts a residential development, the PRD zoning of which too requires a 50-foot undisturbed buffer on its perimeter, but as to that parcel the buffer is included as part of the residential lots. In those areas, combined with the 25-foot buffer proposed by the applicant for the subject development, there will be 75 feet of buffer. The applicant requests the 25-foot buffer to make the development viable given the extensive stream buffers that run throughout the property. For this development, portions of the 25-foot transitional buffer will be included as part of some of the single-family residential lots.

The site plan includes existing stream buffers and calls for creek buffers with mulch trails to connect neighborhoods to shared green spaces and amenities.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Three

B.4 <u>Lighting</u>

All outdoor lighting will be the semi-cutoff type and in accordance with applicable Hall County and Gateway Corridor standards.

B.5 Signage

The development anticipates one monument sign for the development on Friendship Road and one monument sign at the entrance of the single-family residential development on Ridge Road, all in accordance with County standards.

The applicant proposes that prior to issuance of sign permits, other than general signs permitted pursuant to Hall County Ordinance 17.270.050, the owner/developer shall submit a master sign package for street, wall, internal directional, temporary and other signs to be reviewed and approved by the Hall County Director of Planning and Development, or her designee.

B.6 Type and Number of Uses Proposed for the Commercial Development

As noted above, the commercial portion of the development will include one hotel and four commercial buildings. The applicant anticipates the hotel will have 110 guest rooms. The sizes of the commercial buildings as shown on the site plan are:

One building consisting of 4,000 square feet, One building consisting of 2,000 square feet, and Two buildings, each 5,000 square feet.

The applicant anticipates that one or more of the commercial buildings will be for food and beverage, to feature patios and outdoor seating. The commercial portion of the development surrounds a Central Plaza.

B.7 Development Controls

The hotel will not exceed 5 stories in height. The commercial buildings will not exceed 3 stories in height. Facades shall be in compliance with Gateway Corridor Standards and will be depicted on elevations to be presented.

The applicant proposes that prior to issuance of a building permit for the commercial structures, the owner/developer shall submit architectural design guidelines listing a palette of acceptable building materials which shall designate required minimums and acceptable design alternatives to be reviewed and approved by the Director of Community Development and Infrastructure, or its designee.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Four

B.8 Residential Uses

a. <u>Characteristics</u>

The site plan for the subject tract provides for 274 multi-family residential units, 207 townhomes, and 74 single-family detached residential lots. The multi-family buildings will include 3-story and 4-story buildings. (The plan calls for some 4-story structures to accommodate 3/4 splits based upon topography.) Townhomes will be no more than 4 stories, 99 of which are front-loaded and 108 of which are rear loaded. Each single-family detached residence will be a one-story or two-story home and will not exceed a height of 35 feet.

Multi-family units will have 1 to 3 bedrooms (approximately 45% 1 bedroom, 35% 2 bedroom, and 20% 3 bedroom). The Townhomes will have 3-4 bedrooms. The single-family detached residences will include a minimum of 1,800 square feet of conditioned area. The single-family detached homes will have 3-5 bedrooms.

b. <u>Streets and Common Open Spaces</u>

The project will include an open space / amenity areas of approximately 27.8 acres total, approximately 37% of the total site area. Of the total 27.8 acres, 23.6 acres is conservation area, 1.6 acres is Passive Area, and 2.6 acres is Active Area. The common areas are to include amenity areas including two swimming pools, tennis courts, pickleball courts, parks, and mulched trails connecting the neighborhoods to the shared green spaces and amenity areas. The development will include sidewalks as well as walking trails for connectivity. The subdivision streets will be public, and the applicant requests variances to the minimum radius requirements to accommodate the street system as shown on the site plan as more particularly set forth below.

c. Parking and Mailboxes

Parking for the residential development is in accordance with Hall County Code requirements. There are 410 Multi-Family parking spaces (1.5 spaces per unit). There are 414 parking spaces for the Townhomes (2 per home) and 148 parking spaces for the Single-Family Detached portion of the development (2 per home). The project includes two Cluster Mailbox Units, one with 103 mailboxes and 5 parking spaces, and the other with 183 mailboxes and 8 parking spaces.

d. Architectural Style and Proposed Siding

The architectural style of the Single Family and townhome residence community will be a traditional 1-story to 2-story single-family detached home with 2-car garages. Architectural renderings will be provided for both single-family residences and town homes. The homes will have brick and stone accents on the front of the homes. The remaining front facade will be Board and Batten, shake, or fiber cement lap siding. The sides and rear of the home will be fiber cement Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Five

lap siding. The facades of all residences will comply with § 17.180.060.B.9.a of the Hall County Code.

e. <u>Development Controls</u>

Each Single-Family detached residential lot will have a minimum width of 50 feet and a minimum size of 8,000 square feet. There will be a minimum of 10 feet between Single-Family detached structures. The Townhomes will have a minimum width of 22 feet. All grass areas and all front and side yards will be sodded.

The setbacks for the Townhomes (for which applicant seeks a variance) are:

- (a) 20' front setback for Front Loaded Townhomes,
- (b) 6' front setback for Rear Loaded Townhomes,
- (c) 5' side setback, and
- (d) 20' rear setback.

The setbacks for the Single-Family Detached homes are:

- (a) 25' front setback,
- (b) 5' side setback, and
- (c) 20' rear setback.

There will be a 50-foot undisturbed stream buffer, from the top of the stream bank (point of rested vegetation), in accordance with Hall County Ordinance 8.170.070.A. Section 8.170.070.B provides for an additional impervious surface setback of 25 feet or a variation thereof for a variable distance. Section 8.170.070.D provides:

On properties of 50 acres or larger, the impervious setback area may be reduced such that the sum of the undisturbed buffer area and the impervious setback area do not exceed eight percent of the total property area of the development activity. However, in no case shall the 50-foot undisturbed buffer be reduced or altered to achieve this percentage.

The applicant requests reduction of the impervious setback area accordingly as shown on the site plan. The walking trails within the stream buffer will be mulch. Some of the stream buffer area will be included as a part of the individual lots (subject to the buffer requirements). If a variance is allowed for inclusion of those stream buffer areas within the lots, Scott Puckett, Inc. requests that the variance be allowed. Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Six

The sewer easement runs through the development, including some of the single-family residential lots. However no structures will be placed within the sewer easement, and construction will be in a manner to maintain the structural integrity of the sewer line. The development will not violate the terms of the sewer line easement.

f. <u>Development Schedule</u>

Depending upon permitting and approvals, the applicant anticipates a 24- to 36-month development period.

g. Model Homes and Construction Trailers

The applicant requests approval of up to 2 construction trailers and 2 to 4 model homes.

C. <u>Variance Requests</u>

The applicant requests the following variances:

1. Gateway Corridor standards limit the height of non-residential buildings located within 250 feet of a residential or agricultural use street to three stories. Accordingly, the applicant requests a variance from Gateway Corridor standards to allow for a five-story hotel.

2. The applicant requests, if required, a variance to allow the stream buffer to be included within and as part of some single-family residential lots, subject to buffer requirements.

3. The Hall County Code does not address townhome developments. The applicant requests a variance from subdivision setback provisions to allow the setbacks for the townhomes as depicted on the site plan: (a) 20' front setback for Front Loaded Townhomes, (b) 6' front setback for Rear Loaded Townhomes (c) 5' side setback, and (d) 20' rear setback.

4. The applicant requests a variance to allow hammerheads (28' radius) in lieu of cul-desacs in the Townhome portion of the development where indicated on the site plan.

5. The Hall County subdivision street design standards (Ordinance 16.60.200) provide for a minimum curve radius of 125 feet. The applicant requests a variance to allow a reduction in the turning radius on the subdivision road depicted on the site plan. For example, two of the curves in the Townhome section of the development have a 20' inside radius and 30' centerline radius.

6. The applicant requests a reduction of the impervious surface buffer provided for by Hall County Ordinance Section 8.170.070.B, as allowed by Hall County Ordinance 8.170.070.D, as set forth above and on the site plan.

7. The applicant requests a variance to allow a private easement for rear private alleyways for ingress and egress to the rear-loaded townhomes and associated access, with no sidewalks along the alleyway.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Seven

8. The applicant requests a variance from the Front-Loaded Townhome garage widty limitations set forth in Hall County Ordinance minimums to allow the garages as depicted on the site plans and elevations. 17.180.060(9)(c)(ii), which limits garage doors to 50 percent of the width of the townhouse unit, to allow garage doors to occupy up to 67 percent of the width of the townhouse unit.

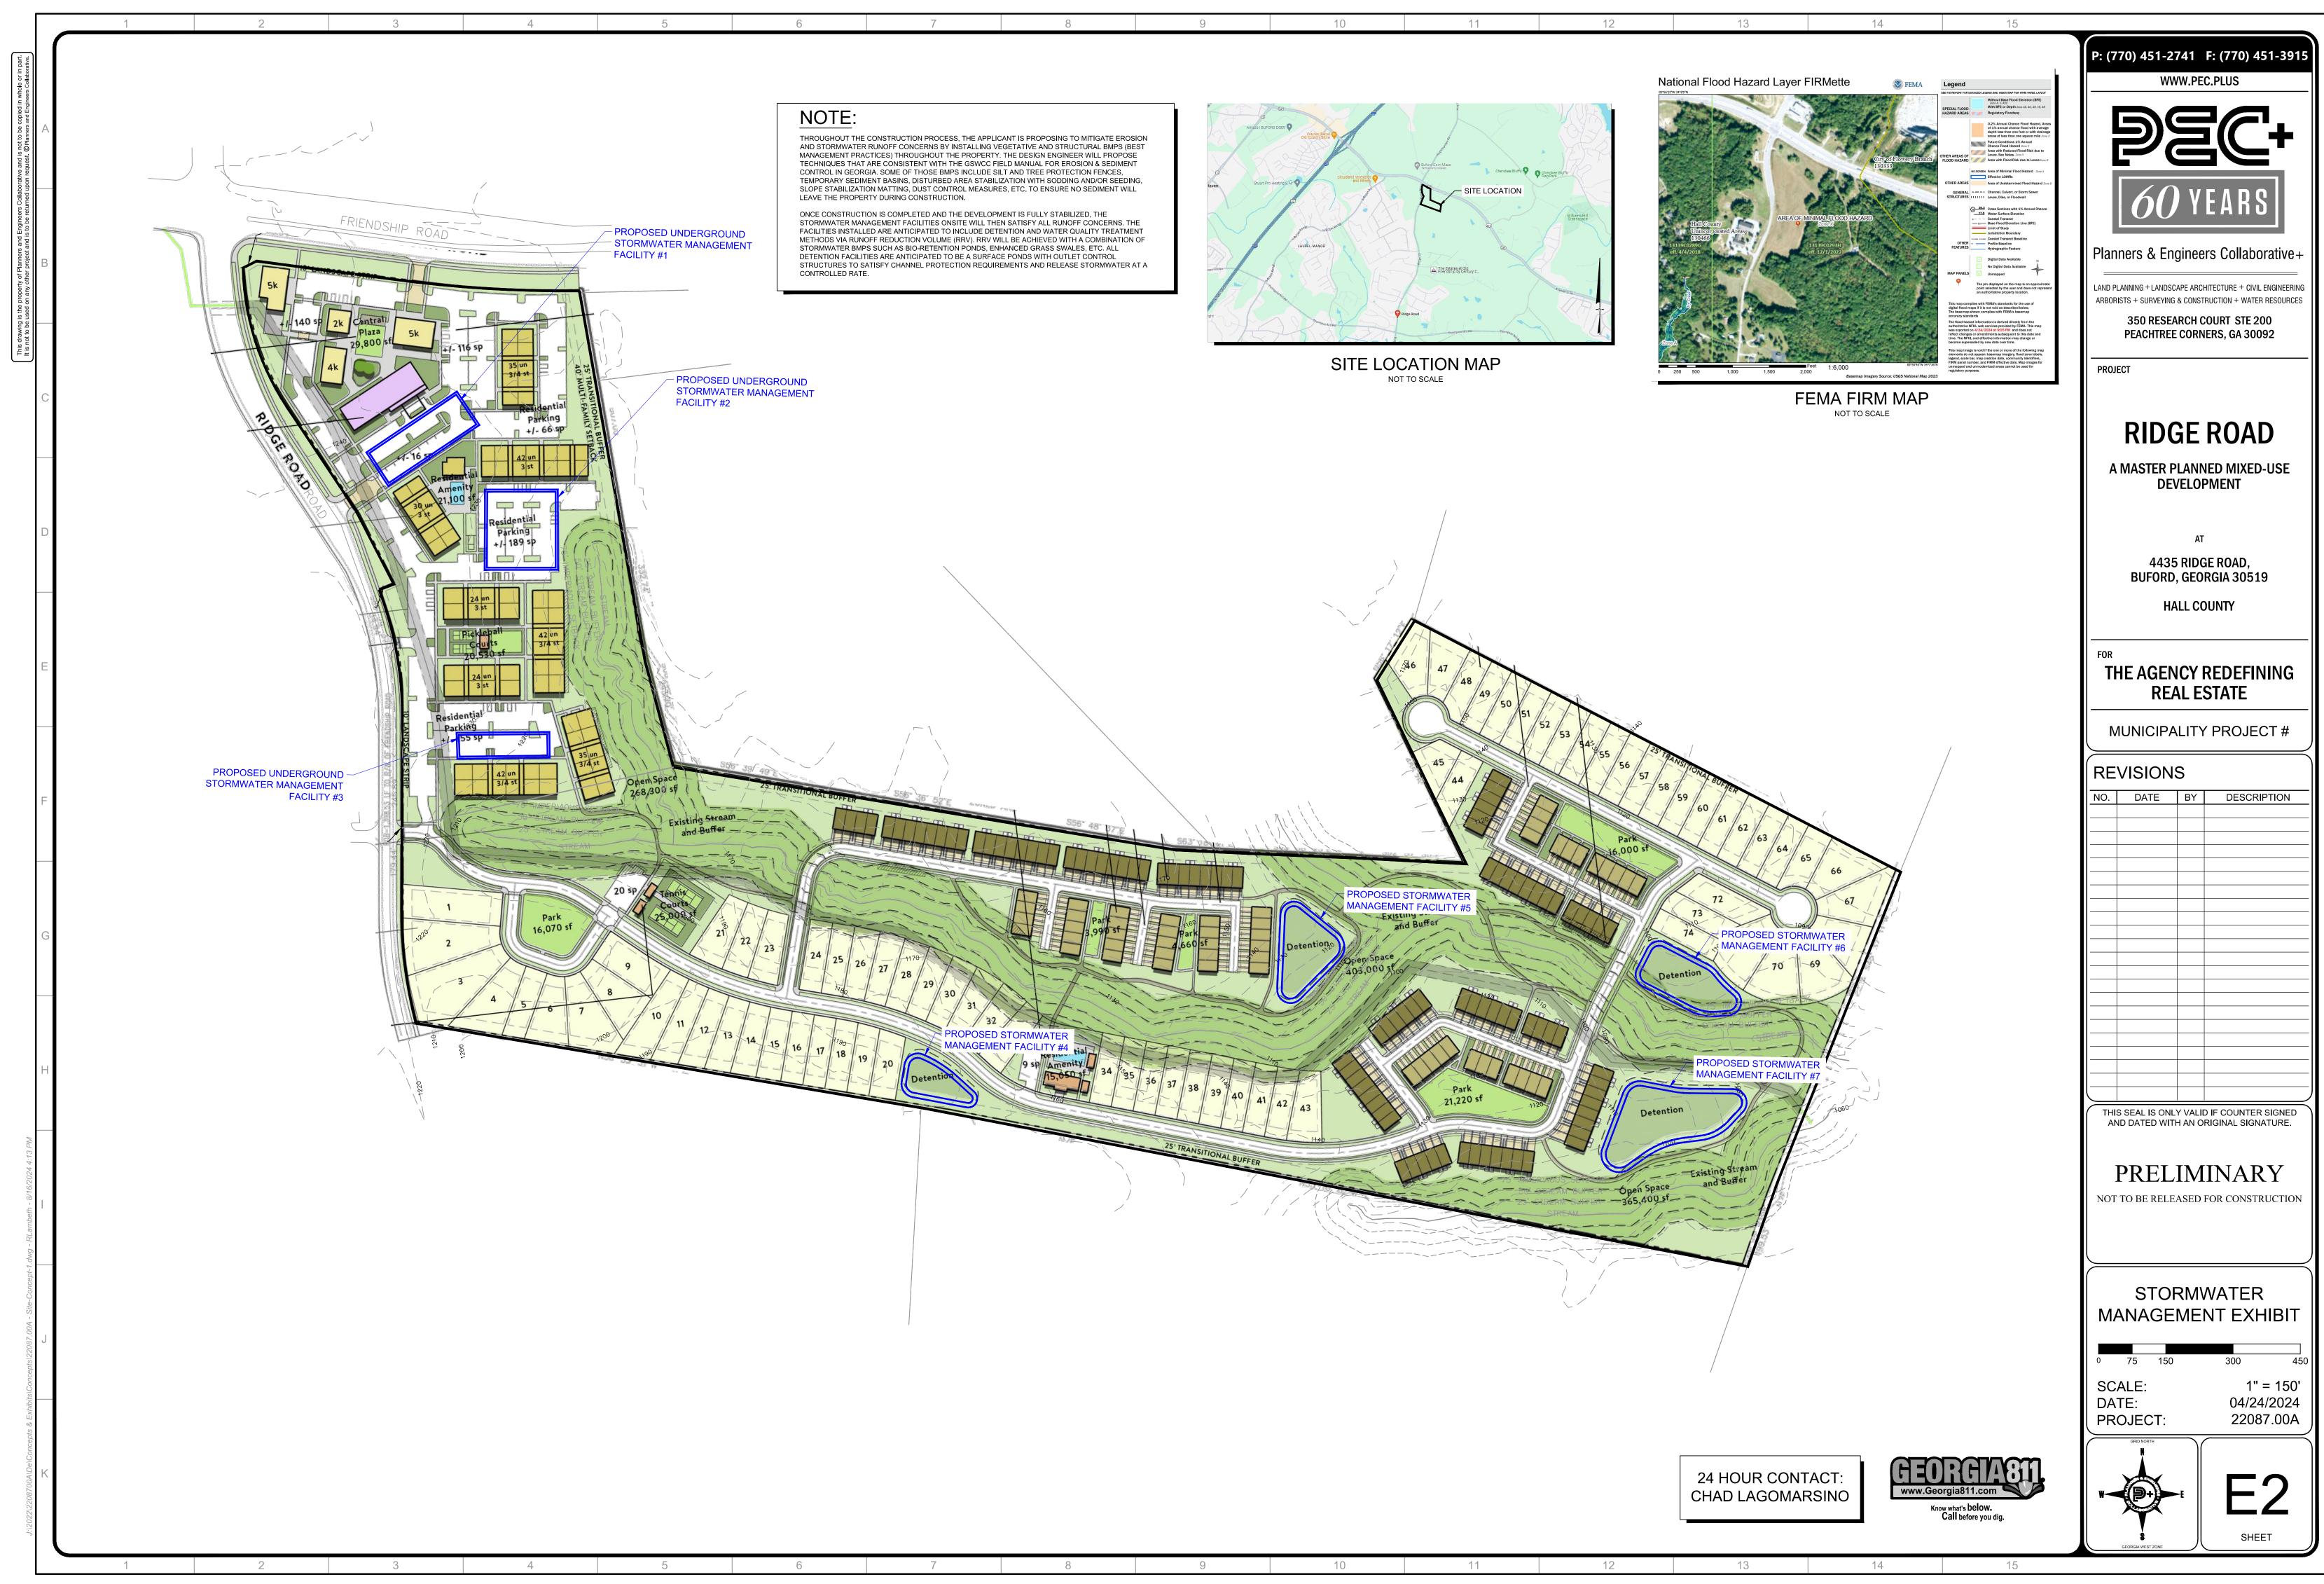

10. The applicant requests a variance to allow the height of Multi-Family units to accommodate 3-4 splits.

11. The applicant requests a variance from the 50-foot transitional buffer provided for by Hall County Ordinance 17.180.060.B to allow a 25-foot transitional buffer. If required, the applicant also requests a variance to allow portions of the 25-foot transitional buffer to be included as part of some of the single-family residential lots as depicted on the site plan.

Traffic Impact Analysis - REVISED

Ridgeview Hall County, Georgia

16 August 2024

TRAFFIC MPACT

Ridgeview - Hall County -

I hereby certify that this report was prepared by me or under my direct supervision, and that I am a duly Licensed Professional Engineer under the laws of the State of Georgia.

REV 08/16/2024

Scott P. Israelson, P.E., PTOE License No. 39784

Executive Summary

Project Description

Ridgeview Estates is a proposed development in Hall County, Georgia. The site is on the southeast corner of Friendship Road (SR 347) & Ridge Road.

The new site plan shows 16,000 SF of retail space, a 110-room hotel, 481 units of multi-family and townhome units, and 74 single-family homes. Hall County requires a TIA for developments generating 1,000 daily trips or more. This REVISED analysis is needed due to site plan changes.

The proposed development is expected to generate 101 new entering trips and 206 new exiting trips in the AM peak hour, and 257 new entering and 172 new exiting trips in the PM peak hour. This site will also experience internal capture trips, which have been included in the driveway analysis.

Traffic Impacts

Ridge Road & Project Accesses

Hall County Access Regulations require deceleration for subdivisions with more than 24 lots. By County standards, this would require northbound right-turn lanes at Accesses C and D.

The County allows a waiver of turn lanes based on traffic operations and safety. Analysis shows that the south access (Access D) is expected to see right turns that would fall below thresholds for a right-turn lane. It is **recommended** to seek a waiver of a right-turn lane at Access D.

County Regulations would also require southbound left-turn lanes at both accesses.

Recommended Improvements

Friendship Road (SR 347) & Access A

• The site plan shows eastbound right-turn lane as part of the development.

Ridge Road & Access C

• Construct a southbound left-turn lane and northbound right-turn lane.

Ridge Road & Access D

- Construct a southbound left-turn lane.
- Seek a waiver to avoid a northbound right-turn lane.

Appendix	19

I. Introduction

Ridgeview Estates is a proposed development in Hall County, Georgia. The site is located on the southeast corner of Friendship Road (SR 347) & Ridge Road.

The new site plan shows 16,000 SF of retail space, a 110-room hotel, 481 units of multi-family and townhome units, and 74 single-family homes. The property will have two full-access driveways to Ridge Road and one right-in/right-out driveway to Friendship Road (SR 347).

Hall County requires a TIA for developments generating 1,000 daily trips or more. This REVISED analysis includes site plan changes.

The study area included the following intersections:

- Friendship Road (SR 347) & Ridge Road
- Friendship Road (SR 347) & project access
- Ridge Road & project accesses

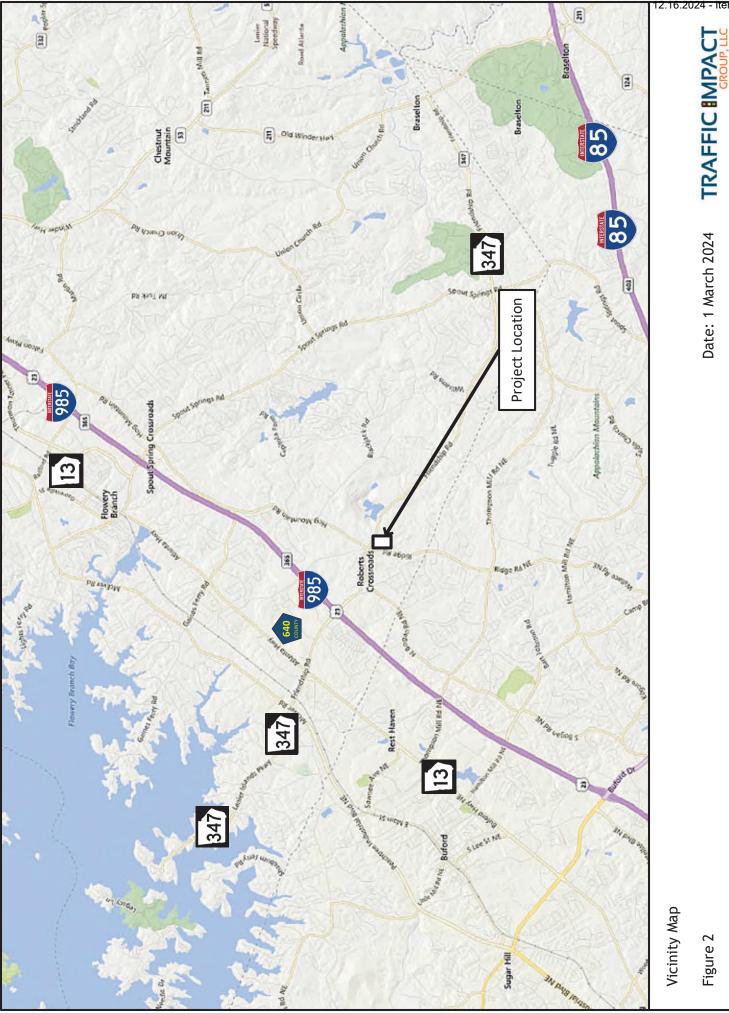

The study analyzed the following scenarios:

- Existing Conditions
- Full Build Conditions

The AM peak hour and PM peak hour were analyzed.

Figure 1 shows the most recent site plan. Figure 2 shows the project vicinity map.

Ridgeview Estates - Hall County

II. Existing Conditions

A. EXISTING ROADWAY CONDITIONS

Table 2.1 presents a summary of the existing roadway conditions in the study area. Figure 3 shows the roadways in the study area.

Table 2.1 - Existing Roadways							
Street Name Functional Class Typical Section Posted Speed AADT							
Friendship Road (SR 347)	Minor Arterial	Six-lane divided	45 mph	26,300			
Ridge Road	Major Collector	Two-lane undivided	45 mph	5,690			

B. EXISTING INTERSECTION GEOMETRY

Friendship Road (SR 347) & Ridge Road is signalized with protected-permitted phasing for all left turns. The eastbound and westbound approaches consist of a left-turn lane, three through lanes, and a right-turn lane. The northbound and southbound approaches have a left-turn lane, one through lane, and a right-turn lane.

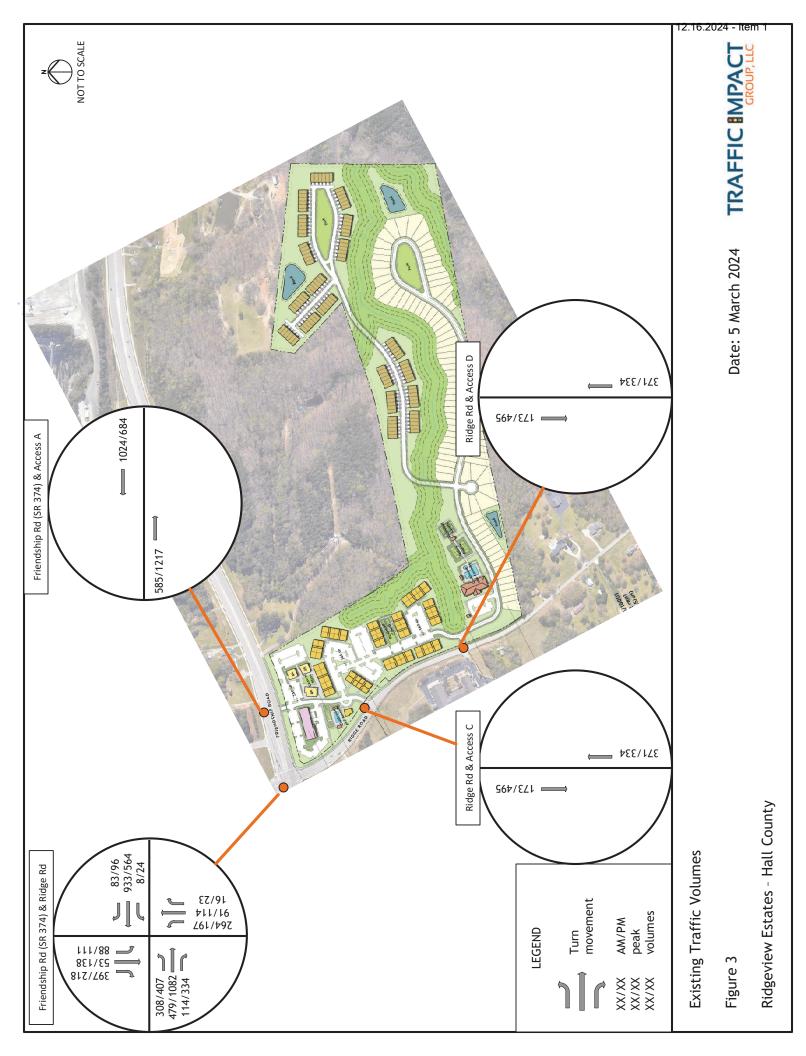

Access A is a proposed right-in/right-out driveway to Friendship Road (SR 347) and will provide access for the commercial part of development. Right-turn lane is proposed as part of development.

Access C is proposed to be a full-access driveway to Ridge Road and will provide access for the commercial and the northern multifamily portion of the development. It will be located approximately 600 feet south of Friendship Road (SR 347).

Access D is proposed to be a full-access driveway to Ridge Road and will provide access for the residential part of development. It will align with the St Mary and St Martha Church driveway.

C. TRAFFIC VOLUMES

Traffic data collection for study area intersections was performed on February 15, 2024. Figure 3 displays existing traffic volumes. These volumes can be found in the Appendix. Current Average Annual Daily Traffic (AADT) volumes were retrieved from the GDOT Traffic Data website.

III. Methodology

A. BASE ASSUMPTIONS

Intersection capacity analysis was conducted using Synchro v11.0. Trip generation was calculated using the 11th edition of the Institute of Transportation Engineers (ITE) *Trip Generation Manual*. Right-turn and left-turn lanes were examined using Hall County Access Regulations on Ridge Road.

B. BACKGROUND GROWTH

The average annual background growth rate is calculated using historical AADT volumes. Calculations show that the background growth in the study area is 9.12% per year. These calculations can be found in the Appendix. Existing volumes were increased by 9% to estimate background growth for Full Build 2025 conditions.

C. TRIP GENERATION

The new site plan shows 16,000 SF of retail space, a 110-room hotel, 481 units of multi-family and townhome units, and 74 single-family homes. The *ITE Trip Generation Manual*, 11th *Edition* was used to estimate the projected trips by this development. Table 3.1 contains the summary of the land uses and sizes used for trip generation estimates.

Table 3.1 - ITE Trip Generation								
Average Weekday Driveway Volumes						Peak ur	PM Peak Hour	
Land Use	ITE Code		Size Daily Trips			Exit	Enter	Exit
Single-Family Detached Housing	210	74	74 Dwelling Units 76		14	43	47	28
Multifamily Housing (Low-Rise)	220	481 Dwelling Units		3242	41	131	154	91
Hotel	310	110	110 Rooms		27	21	28	26
Strip Retail Plaza (<40k)	822	16	16 Th.Sq.Ft. GFA 871		23	15	55	54
Unadjust	ed Peak	Hour T	rips	5757	105	210	284	199
Ir	nternal (Capture	e Reduction - from	NCHRP	No 684			
Retail						-1	-7	-17
Internal Capture Reduction Residential					-1	-2	-14	-9
Hotel 0 -1 -6 -1							-1	
Total New Peak	Total New Peak Hour Trips to Adjacent Network101206257172							

This retail/service development generates "internal capture" trips summarized in the table above. Internal capture trip reduction is a method to estimate interaction between different uses within the same development. While each land use in a development generates vehicle trips, some people will visit more than one land use within the development. This phenomenon of multiple land uses adjacent to each other ultimately results in fewer vehicle trips to the external road network, and less impact, than free-standing retail, office, or residential areas.

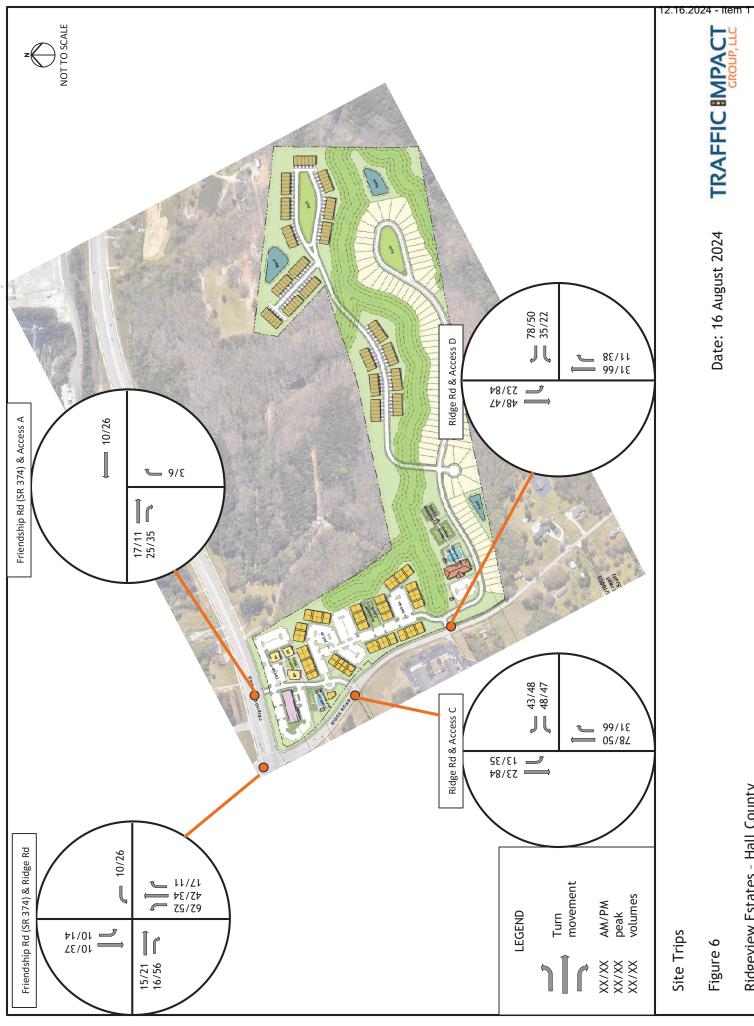

This reduction was calculated in accordance with NCHRP Report No. 684, Enhancing Internal Trip Capture for Mixed-use Development.

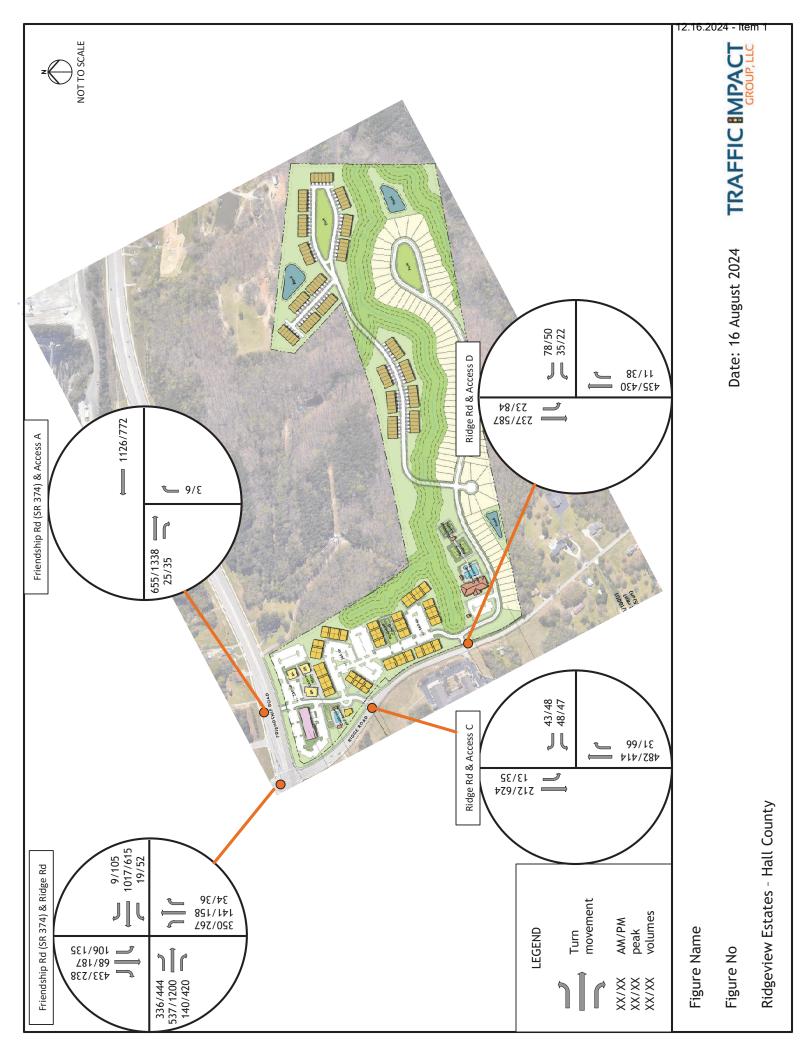

D. TRIP DISTRIBUTION

Trips for this proposed development were assigned to the surrounding roadway network based on existing traffic patterns and engineering judgment for the residential and commercial land uses. The proposed trip distribution for this project can be found in **Figure 5**, and the projected site trips are shown in **Figure 6**. Full Build 2025 volumes are shown in **Figure 7**.

Ridgeview Estates - Hall County

IV. Turn Lanes

A. Right-Turn Lanes

The site plan shows right-turn lane at Access A as part of development.

Hall County Access Regulations require deceleration for subdivisions with more than 24 lots. By County standards, this would require northbound right-turn lanes at Accesses C and D.

The County allows a waiver of turn lanes based on traffic operations and safety.

The National Cooperative Highway Research Program (NCHRP) Report 279 Intersection Channelization Design Guide was used to determine right-turn lane and left-turn lane thresholds for this study.

For public officials that do not have formal thresholds for determining when new access requires turn lane treatments, the NCHRP Report 279 is a useful tool in assisting the impacts from development. Specifically, this report allows the traffic engineering professional to input roadway type, posted speed, advancing volume (and opposing volume for left turns), and number of turning vehicles. The result is a plot on a graph defined by the above inputs as either recommending turn lanes or not.

Table 4.2 - Right-Turn Lane Analysis										
Driveway	AM/ PM	Approach	Posted Speed	Advancing Vol	RT Vol	Turn Lane needed?				
Ridge Rd &	AM	NB	45	466	39	No				
Access C	PM		45	400	65	Yes				
Ridge Rd &	AM	ND		ND	NB	ND	45	443	9	No
Access D	PM	IND	40	426	32	No				

Table 4.1 shows the volumes for right-turn analysis to determine turn lane thresholds.

Based on Full Build volumes, a right-turn lane is recommended for Access C but not Access D. it is **recommended** to seek a waiver of a northbound right-turn lane at Access D.

B. Left-Turn Lanes

For left-turn deceleration lanes, County regulations provide tabular thresholds based on daily traffic volumes and number of lots. The table below shows County standards:

Average Daily Traffic (ADT)	Number of Lots (equal to or greater than the following)
>6000	100
4001 - 6000	125
2001 - 4000	150
1000 - 2000	175
< 1000	200

Ridge Road has a daily traffic volume of 5,690 vehicles per day.

The development will have 236 apartment units, 113 townhomes, and 92 single-family units spread over two accesses to Ridge Road. By County standards, southbound left-turn lanes would be required. The County allows a waiver of turn lanes based on traffic operations and safety.

Table 4.2 shows the volumes used in the analysis.

	Table 4.2 - Left-Turn Lane Analysis											
Driveway	AM/ PM	Approach	Posted Speed	Advancing Vol	Opposing Vol	LT Vol	Turn Lane needed?					
Ridge Rd &	AM	CD	45	210	466	14	No					
Access C	PM	SB	45	608	400	41	Yes					
Ridge Rd &	AM	SB	45	244	443	21	No					
Access D	PM	20	40	579	426	72	Yes					

Based on Full Build volumes, southbound left-turn lanes are appropriate for both driveways.

V. Capacity Analysis

The Transportation Research Board's Highway Capacity Manual (HCM) utilizes a term "level of service" (LOS) to measure how traffic operates in intersections. There are currently six levels of service ranging from A to F. Level of Service "A" represents the best conditions and Level of Service "F" represents the worst. Synchro software was used to determine the level of service for intersections in the study area. All worksheet reports from the analyses can be found in the Appendix.

Table 5.1 shows the control delay per vehicle associated with LOS A through F for signalized and unsignalized intersections.

Table5.1	Table5.1 - Highway Capacity Manual Levels of Service and Control Delay										
Signaliz	ed Intersection	Unsignalized Intersection									
Level of Service	Control Delay per Vehicle (sec)	Level of Service	Control Delay per Vehicle (sec)								
Α	≤ 10	А	≤ 10								
В	$>$ 10 and \leq 20	В	$>$ 10 and \leq 15								
C	$>$ 20 and \leq 35	С	$>$ 15 and \leq 25								
D	$>$ 35 and \leq 55	D	$>$ 25 and \leq 35								
E	$>$ 55 and \leq 80	E	$>$ 35 and \leq 50								
F	> 80	F	> 50								

A. FRIENDSHIP ROAD (SR 347) & RIDGE ROAD/HOG MOUNTAIN ROAD

Friendship Road (SR 347) & Ridge Road is signalized with protected-permitted phasing for the westbound left-turn movement, and permitted phasing for all other left turns. The eastbound and westbound approaches consist of a left-turn lane, three through lanes, and a right-turn lane. The northbound and southbound approaches have a left-turn lane, one through lane, and a right-turn lane.

Table 5.2 shows the current LOS, control delay, and 95th percentile queue length for existing conditions.

B. FRIENDSHIP ROAD (SR 347) & ACCESS A

Access A is proposed to be a right-in/right-out driveway to Friendship Road (SR 347). A right-turn lane is proposed as part of development.

Table 5.4 shows the expected LOS, control delay, and 95th percentile queue length for Full Build conditions.

VI. Summary and Conclusion

This study serves as an analysis of the traffic impacts from the proposed Ridgeview Estates development in Hall County, Georgia.

This analysis was necessary due to Hall County guidelines that require a TIA for developments that generate 1000 or more daily trips.

Trip Generation

The proposed development is expected to generate 120 new entering trips and 206 new exiting trips in the AM peak hour, and 217 new entering and 122 new exiting trips in the PM peak hour. This site will also experience internal capture and pass-by/diverted link trips, which have been included in the driveway analysis.

Traffic Impacts

Ridge Road & Project Accesses

Hall County Access Regulations require deceleration for subdivisions with more than 24 lots. By County standards, this would require northbound right-turn lanes at Accesses C and D.

The County allows a waiver of turn lanes based on traffic operations and safety. Analysis shows that the south access (Access D) is expected to see right turns that would fall below thresholds for a right-turn lane. It is **recommended** to seek a waiver of a right-turn lane at Access D.

County Regulations would also require southbound left-turn lanes at both accesses.

Recommended Improvements

The following summarizes recommended improvements:

Friendship Road (SR 347) & Access A

• The site plan shows eastbound right-turn lane as part of the development.

Ridge Road & Access C

• Construct a southbound left-turn lane and northbound right-turn lane.

Ridge Road & Access D

- Construct a southbound left-turn lane.
- Seek a waiver to avoid a northbound right-turn lane.

¹Vehicle-trips computed using the mode split and vehicle occupancy values provided in Table 2-P

²Person-Trips

³Total estimate for all other land uses at mixed-use development site-not subject to internal trip capture computations in this estimator *Indicates computation that has been rounded to the nearest whole number.

DRI Review Findings

TO: Kristie Turner, Principal Planner Hall County Planning and Development Other Interested Parties

FROM: Adam Hazell, AICP, Planning Director

DATE: October 8, 2024

SUBJECT: DRI Project Review, Hall County

PROJECT: DRI-4280, Ridgeview (2nd application)

The Georgia Mountains Regional Commission (GMRC) has completed the review of the project identified above. Based on comments received and staff analysis of this project, conducted in accordance with the Georgia Department of Community Affair's <u>Procedures for the Review of Developments of Regional Impact</u>, the GMRC finds that the proposed action does not present any potential adverse inter-jurisdictional impacts. Please note that this finding is advisory only and assumes the project will proceed as presented to the GMRC and will comply with all applicable local, State and federal rules and regulations.

Copies of the staff review, any comments from interested stakeholders and any recommendations have been included with this memo. They should be considered and addressed by the local government in its final determination and review/permitting procedures for the finding to remain as stated.

DRI # 4280, Ridgeview STATEMENT OF FINDING

Based on the information provided, comments received, a review of the local comprehensive plan and prevailing DRI review criteria, the GMRC staff analysis finds that this project does not present any potential adverse interjurisdictional impacts. The finding assumes the project will proceed as presented to the GMRC and only if the project complies with all applicable local, State and federal rules and regulations and if the following advisory comments and recommendations are considered and addressed.

Summary of Staff Review

- This is a project that was previously reviewed as a DRI (#4183) under the same name. The developer subsequently amended their project scope, sufficiently enough to warrant a re-review.
- The updated Ridgeview is a 74 acre mixed-use development in Hall County on the southeast corner of Friendship Road (SR 347) & Ridge Road. The updated breakdown of uses is as follows:

	DRI report numbers June 10, 2024 DRI 4183 Ridgeview	New proposal	Difference
Food & Bev	12,000 SQFT	16,000 SQFT	+ 4,000 SQFT
Single-family	92 Lots	74 Lots	-18 Lots
Townhome	113 Units	207 Units	+ 94 Units
Multi-Family	236 Units	274 Units	+ 38 Units
Total Residential	441 Units	555 Units	+ 114 Units

• *(Same as before.)* The site is located in southern Hall County, near the City of Buford and just a mile from Exit 4 on I-985. The area is evolving from rural/suburban development to more suburban residential, commercial, and industrial uses. This part of Hall County is a rapidly suburbanizing area, which has seen multiple DRIs reviewed in the past several years. The proximity to the Mall of Georgia, Margaritaville at Lake Lanier Islands, and multiple employment centers has made it a growing destination for new residential and warehousing development. Immediately across the interchange is a large amount of commercial development catering to area residents and employees. As a result

of the area's growth, ample water and sewer is available to the property. *No regional concerns regarding utilities.*

• The site is located at the intersection of Friendship Road, the primary east/west arterial serving south Hall County, and Ridge Road a primary north/south collector in the area. The intersection is the first with a stoplight when traveling from the I-985 interchange.

The revised site plan retains two full-access driveways to Ridge Road and one rightin/right-out driveway to Friendship Road (SR 347). The Friendship Road access and northern Ridge Road access would be connected via a small internal road. According to the updated traffic assessment provided, the development "*is expected to generate 101 new entering trips and 206 new exiting trips in the AM peak hour, and 257 new entering and 172 new exiting trips in the PM peak hour.*" Proposed improvements still include an eastbound right-turn lane on Friendship Road, southbound left-turn lanes for both Ridge Road access points plus a northbound right-turn lane for the northern Ridge Road access (where less entry traffic is anticipated).

Sidewalks are proposed for internal pedestrian circulation, and there are now public destinations immediately adjacent to the site necessitating external pedestrian connections. However, the County may consider additional pedestrian network options for possible future expansions in the event future development invites new connections. *No regional concerns regarding transportation infrastructure.*

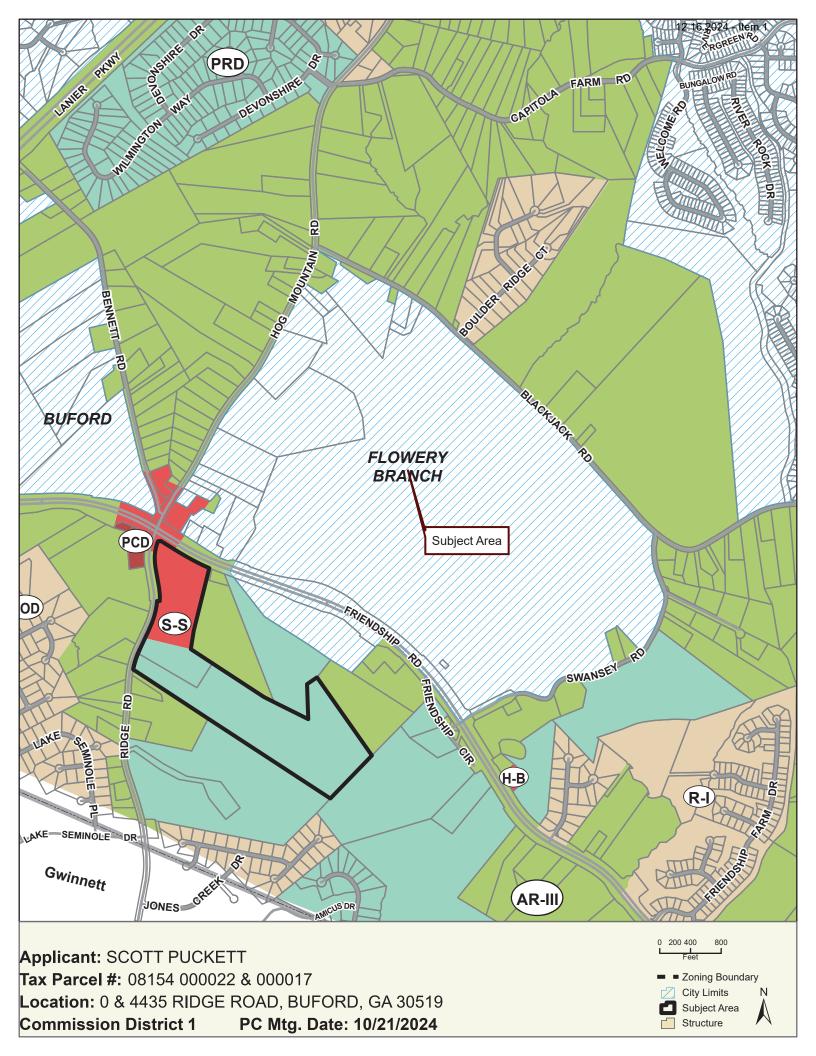

• (Same as before.) There are no critical environmental features on the site, though intermittent stream channels are present. Roughly 30% of the property is be built out with impervious surfaces, while "channel protection, water quality and detention ponds (will be employed) throughout the site." The property all drains into Mitchell Creek, a primary tributary for the upper portions of the Middle Oconee River, and is not part of a critical water supply watershed. Assuming compliance with State and local regulations, no regional concerns regarding environmental protection. However, best environmental practices are encouraged regarding stormwater management.

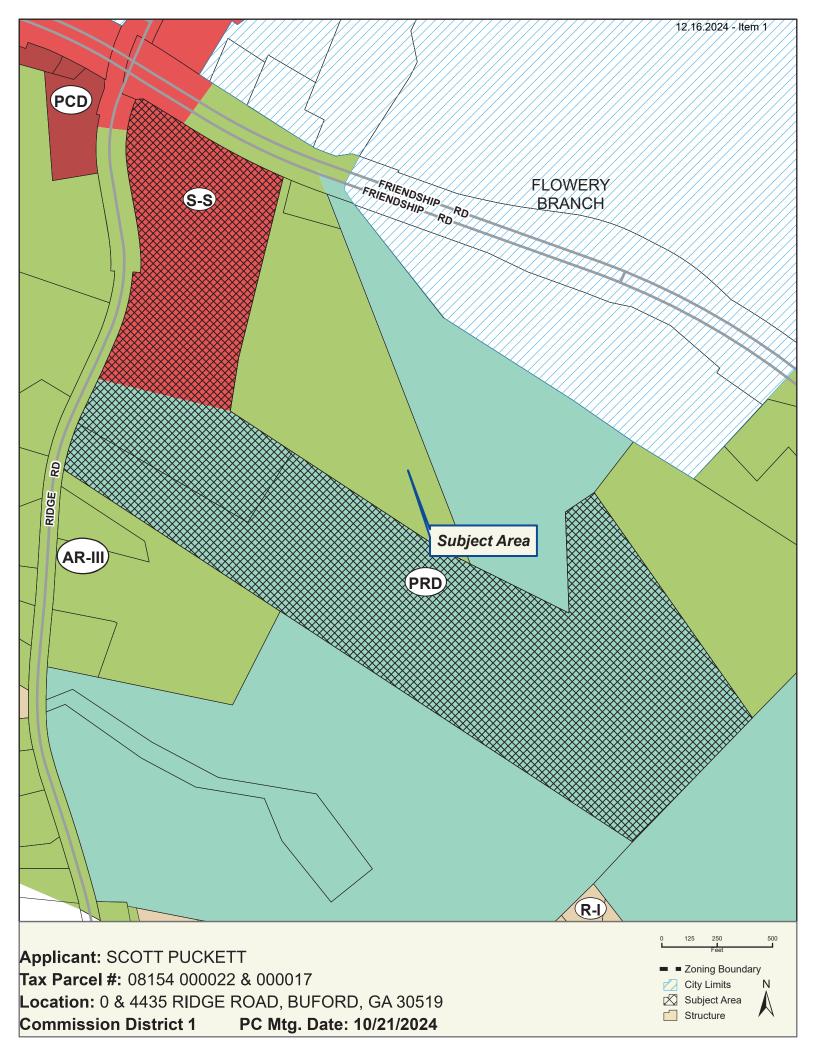

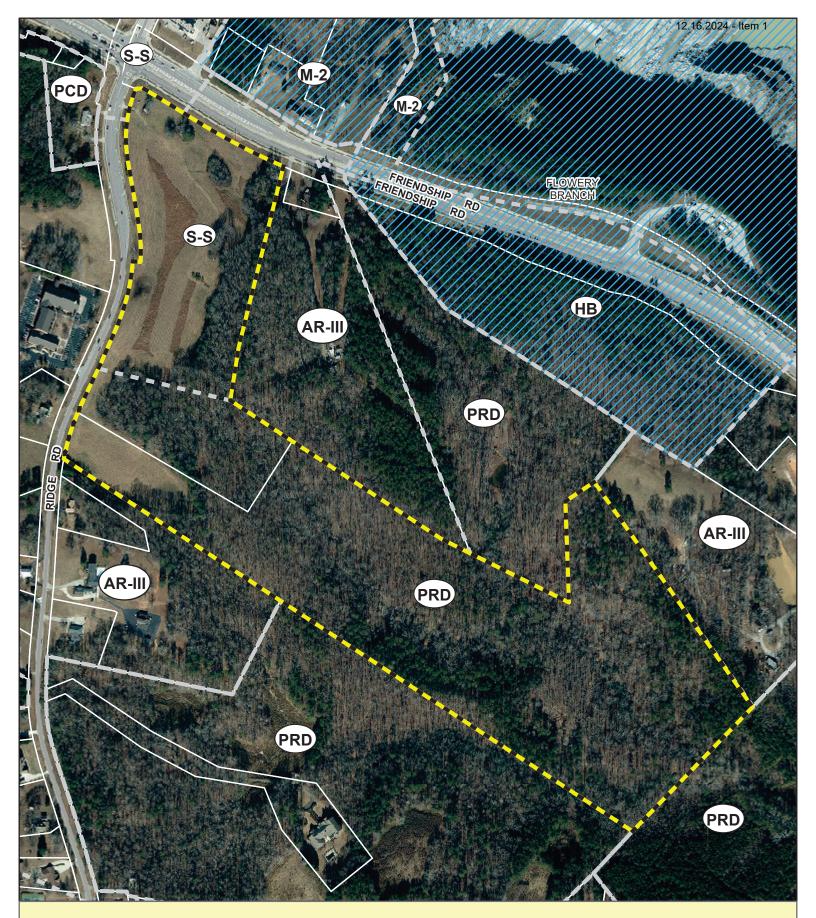

CONSISTENCY REVIEW			
Is the proposed DRI compliant with	Comment		
The GMRC Regional Plan?	Yes.		
Other State or regional plans for the area?	Yes		
<i>Applicable Service Delivery Agreements and/or land use management measures?</i>	Yes		
Projected capacity for utilities and services?	Yes		
<i>Are there any potential inter-jurisdictional conflicts identified by the GMRC?</i>	No significant or standing conflict was raised or identified by staff.		

<u>Outside Comments Received</u> (Copies of any comments received can be found as submitted attached to this report.)

LIMITED WARRANTY DEED

STATE OF GEORGIA

COUNTY OF GWINNETT

THIS INDENTURE, Made the 21st day of September, 2018, by and between,

SHERRY L. PIRKLE and SUSAN L. PIRKLE

as party or parties of the first part, hereinafter called Grantor, and

WE-FLIP, LLC, a Georgia limited liability company

as party or parties of the second part, hereinafter called Grantee (the words "Grantor" and "Grantee" to include their respective heirs, successors and assigns where the context requires or permits).

WITNESSETH that: Grantor, for and in consideration of the sum of TEN DOLLARS AND OTHER GOOD AND VALUABLE CONSIDERATIONS (\$10.00) in hand paid at and before the sealing and delivery of these presents, the receipt whereof is hereby acknowledged, has granted, bargained, sold, aliened, conveyed and confirmed, and by these presents does grant, bargain, sell, alien, convey and confirm unto the said Grantee,

All that tract or parcel of land lying and being in the 1419th G.M.D. of Hall County, Georgia, as shown on that certain Boundary Survey for Susan & Sherry Pirkle, dated December 5, 2017, containing 24.210 acres (being a portion of tax parcel 08154-000017), prepared by ABE Consulting, Inc., certified by Stacy C. Carroll, GRLS No. 2729, and being more particularly described on Exhibit "A" attached hereto and incorporated herein by reference made thereto.

Said property is conveyed subject to all permitted easements and restrictions of record.

TO HAVE AND TO HOLD the said tract or parcel of land, with all and singular the rights, members and appurtenances thereof, to the same being, belonging, or in anywise appertaining, to the only proper use, benefit and behoof of the said Grantee forever in FEE SIMPLE.

AND THE SAID Grantor will warrant and forever defend the right and title to the above described property unto the said Grantee against the claims of Grantor and all others claiming by, through or under Grantor.

IN WITNESS WHEREOF, the Grantor has signed and sealed this deed, the day and year above written.

GRANTOR(S):

Signed, sealed and delivered

EXHIBIT "A"

LEGAL DESCRIPTION

All that tract or parcel of land lying and being in the 1419th G.M.D. of Hall County, Georgia, as shown on that certain Boundary Survey for Susan & Sherry Pirkle, dated December 5, 2017, containing 24.210 acres (being a portion of tax parcel 08154-000017), prepared by ABE Consulting, Inc., certified by Stacy C. Carroll, GRLS No. 2729, and being more particularly described according to said survey as follows:

TO LOCATE THE TRUE PLACE OR POINT OF BEGINNING, commence at a 6"x6" concrete monument found at the mitered intersection of the northeasterly right of way line of Ridge Road a/k/a Hog Mountain Road (right of way varies) (pavement varies) with the southeasterly right of way line of Friendship Road (right of way varies) (pavement varies); run thence along said mitered intersection North 87 degrees 25 minutes 44 seconds East a distance of 33.64 feet to a 6"x6" concrete monument found at the southeasterly right of way line of Friendship Road (right of way varies) (pavement waries) (pavement varies) (pavement varies), said concrete monument marks the TRUE PLACE OR POINT OF BEGINNING;

FROM THE TRUE PLACE OR POINT OF BEGINNING AS THUS ESTABLISHED and continuing along the aforesaid right of way line of Friendship Road South 58 degrees 27 minutes 24 seconds East a distance of 306.79 feet to a point; continuing thence along said right of way line in a southeasterly direction along the arc of a curve for a distance of 417.17 feet to an iron pin set (said arc having a radius of 2,965.66 feet and a chord bearing and distance of South 62 degrees 28 minutes 25 seconds East, 416.82 feet); thence leaving said right of way line of Friendship Road run South 13 degrees 55 minutes 23 seconds West a distance of 507.00 feet to a 1-inch open top pipe found; run thence South 13 degrees 50 minutes 04 seconds West a distance of 332.70 feet to a 4"x4" concrete monument found; run thence South 08 degrees 55 minutes 37 seconds West a distance of 243.70 feet to a 4"x4" concrete monument found; run thence South 56 degrees 39 minutes 49 seconds East a distance of 348.34 feet to an iron pin set; run thence South 33 degrees 20 minutes 11 seconds West a distance of 408.88 feet to an iron pin set; run thence North 60 degrees 24 minutes 11 seconds West a distance of 886.14 feet to an iron pin set on the northeasterly right of way line of Ridge Road a/k/a Hog Mountain Road (right of way varies) (pavement varies); run thence along said right of way line of Ridge Road a/k/a Hog Mountain Road in a generally northeasterly direction along the arc of a curve for a distance of 58.19 feet to a point (said arc having a radius of 1,014.10 feet and a chord bearing and distance of North 22 degrees 31 minutes 15 seconds East, 58.18 feet); continuing along said right of way line North 24 degrees 09 minutes 53 seconds East a distance of 425.33 feet to a point; continuing along said right of way line in a generally northeasterly direction along the arc of a curve for a distance of 291.44 feet to a 6"x6" concrete monument found (said arc having a radius of 793.16

feet and a chord bearing and distance of North 13 degrees 38 minutes 18 seconds East, 289.81 feet to a concrete monument found); continuing along said right of way line South 86 degrees 29 minutes 37 seconds East a distance of 34.94 feet to a 6"x6" concrete monument found; continuing along said right of way line in a generally northwesterly direction along the arc of a curve for a distance of 184.66 feet to a point (said arc having a radius of 827.97 feet and a chord bearing and distance of North 03 degrees 18 minutes 03 seconds West, 184.28 feet; continuing along said right of way line North 09 degrees 38 minutes 57 seconds West a distance of 278.80 feet to a point; continuing along said right of way line in a generally northeasterly direction along the arc of a curve for a distance of 329.15 feet to a 6"x6" concrete monument found at the mitered intersection of the aforesaid right of way line of Ridge Road a/k/a Hog Mountain Road (right of way varies) (pavement varies) with the southeasterly right of way line of Friendship Road (right of way varies) (pavement varies) (said arc having a radius of 585.00 feet and a chord bearing and distance of North 06 degrees 28 minutes 10 seconds East, 324.82 feet); run thence along the aforesaid mitered intersection North 87 degrees 25 minutes 44 seconds East a distance of 33.64 feet to a 6"x6" concrete monument found at the southeasterly right of way line of Friendship Road, said concrete monument marks the TRUE PLACE OR POINT OF BEGINNING.

Said Boundary Survey is recorded at Plat Book 875, Page 205, Hall County, Georgia Records.

Good afternoon,

I hope that you are doing well. Attorney Tyler Smith has a rezoning application to be filed today in Hall County for Scott Puckett, Inc. I am attaching our previous correspondence regarding the water availability as well as the Site Plan. Hall County Planning has asked that we verify that your approval is still valid. Please let me know if you need any further information from us.

Thank you, Amanda Graham

Good morning,

I am a legal assistant at Smith, Gilliam, Williams and Miles. Attorney Tyler Smith has a rezoning

application that has been filed in Hall County. The application is for Scott Puckett, Inc., and I have attached the application that was filed here. Mr. Smith and the applicant need to have a Water Availability Letter to file along with the application. Is this something that you will be able to provide?

Please let me know if you need anything further from us.

Thank you,

Amanda Graham

Subject: Sanitary Sewer Letter of Availability 4435 Ridge Road Parcel Id No.: 08154 000017, 08154 000022 Flowery Branch, GA 30519

t: 770.531.6800 | f: 770.531.3945

BILL NASH, P.E.

Director

William (Bill) H. King III, P.E.

Assistant Director

POST OFFICE DRAWER 1435

GAINESVILLE, GA 30503

Dear Scott Puckett,

In response to your request, this letter will serve as confirmation that Hall County has sufficient volume to serve 4435 Ridge Road for a proposed 16,000 sq. ft. food and beverage uses, 110 hotel units, 274 apartments, 207 townhomes, 74 detached single family (estimated average daily flow of 127,925 GPD) at this time. The nearest sanitary sewer main to this address is located on Friendship Road.

The availability of sewer is contingent on the proposed Friendship Road Sewer Extension being built per along the route currently proposed. The recipient of this letter agrees to Indemnify and Hold Harmless Hall County for any and all damages due to Friendship Road Sewer Extension Project delays or revisions.

Sanitary sewer capacity allocation is available on a first come, first serve basis by purchasing the sewer taps. As such, this "availability" letter does not guarantee capacity. Additionally, this letter is non-transferable. If the project design changes, this letter is void and a new "availability" letter must be obtained.

If you have any questions or need more information, please call the Hall County Public Works and Utilities Department at 770-531-6800.

Sincerely,

Buchar

Bill Nash

Project Narrative

Rezoning Application of Scott Puckett, Inc.

August 23, 2024

Scott Puckett, Inc. presents this narrative regarding its application to rezone two tracts of property to PCD for a Planned Commercial Development. The subject parcels are:

Tax Parcel	Size
08154 000017	24.21 acres
08154 000022	50.165 acres

Provided with the application is a proposed site plan dated August 22, 2024. The PCD includes one hotel with approximately 110 rooms; four buildings for commercial, retail, and/or restaurant use, surrounding a central plaza; 274 multi-family residential units; 207 Townhomes; 74 single-family detached residential lots; and amenities including swimming pools, tennis courts, pickleball courts, parks, and walking trails.

A. Characteristics

The proposed design allows for flexible placement, arrangement, and orientation of commercial and residential structures given the property's characteristics, including streams located on the property. The subdivision will be a mixed-use development consisting of hotel, commercial (to include commercial, retail, and/or restaurant uses), multi-family housing, townhomes, and single-family homes. The community will have four entrances, one on Friendship Road and three on Ridge Road. One of the entrances on Ridge Road will be gated emergency access only. Submitted with the rezoning application is the Traffic Impact Analysis for the development prepared by Traffic Impact Group, LLC. The proposed design will maximize natural features through creative site planning. Grading will be in accordance with site characteristics, topography, and the presence of streams.

B.1: Commercial Structures

The proposed commercial portion of the development abuts Friendship Road. The hotel, located at the corner of Friendship Road and Ridge Road, will include approximately 110 guest rooms. The applicant anticipates the hotel will not exceed 5 stories. Gateway Corridor standards limit the height of non-residential buildings located within 250 feet of a residential or agricultural use street to three stories. Accordingly, the applicant requests a variance from Gateway Corridor standards to allow for a five-story hotel. The applicant is in discussion with a nationally-recognized hotel line to operate the hotel, which (a) will not have exterior entry to units, and (b) will have a hotel lobby and indoor entrance to units. Although the hotel will be located on the commercial portion of the development, the applicant requests flexibility on the final location of the hotel to factor in parking, traffic flow, and aesthetics from the surrounding roads.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Two

The commercial portion of the development will include four buildings totaling approximately 16,000 square feet. The applicant anticipates the commercial buildings will not exceed 3 stories. The commercial portion of the development will include patios and outdoor seating and will surround a Central Plaza.

The facades of the commercial buildings will be in accordance with Gateway Corridor standards.

B.2 Entrances, Exits, and Parking

The site plan depicts the entrances, exits, and parking for the development. Access to the commercial development is by two entrances, one on Friendship Road and one on Ridge Road. (There are two additional access points to the development, also on Ridge Road, which will primarily serve the residential portion of the development.) Parking is depicted on the site plan and will include 217 parking spaces for the commercial component (13.5 spaces per 1,000 square feet of commercial building space) and 55 spaces for the hotel (1 space per 2 rooms).

B.3 Buffers

The site plan calls for a 10-foot landscape strip along Friendship Road and along Ridge Road. The eastern portion of the commercial development will include a 25-foot transitional border, which runs throughout the single-family residential portion of the development. The materials utilized in the landscape strip and transitional border will be in accordance with Gateway Corridor Standards.

Hall County Ordinance 17.180.060.B.5 provides for a minimum 50-foot planted buffer along the perimeter of all property boundaries adjacent to residential and/or non-residential zoning districts to ensure that the planned residential development is appropriately screened. The southeastern property line abuts another residential development, the PRD zoning of which requires a 50-foot undisturbed buffer, and the entirety of that buffer is outside the residential lots in that development. Approximately two-thirds of the southwestern property line abuts a residential development, the PRD zoning of which too requires a 50-foot undisturbed buffer on its perimeter, but as to that parcel the buffer is included as part of the residential lots. In those areas, combined with the 25-foot buffer proposed by the applicant for the subject development, there will be 75 feet of buffer. The applicant requests the 25-foot buffer to make the development viable given the extensive stream buffers that run throughout the property. For this development, portions of the 25-foot transitional buffer will be included as part of some of the single-family residential lots.

The site plan includes existing stream buffers and calls for creek buffers with mulch trails to connect neighborhoods to shared green spaces and amenities.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Three

B.4 Lighting

All outdoor lighting will be the semi-cutoff type and in accordance with applicable Hall County and Gateway Corridor standards.

B.5 Signage

The development anticipates one monument sign for the development on Friendship Road and one monument sign at the entrance of the single-family residential development on Ridge Road, all in accordance with County standards.

The applicant proposes that prior to issuance of sign permits, other than general signs permitted pursuant to Hall County Ordinance 17.270.050, the owner/developer shall submit a master sign package for street, wall, internal directional, temporary and other signs to be reviewed and approved by the Hall County Director of Planning and Development, or her designee.

B.6 Type and Number of Uses Proposed for the Commercial Development

As noted above, the commercial portion of the development will include one hotel and four commercial buildings. The applicant anticipates the hotel will have 110 guest rooms. The sizes of the commercial buildings as shown on the site plan are:

One building consisting of 4,000 square feet, One building consisting of 2,000 square feet, and Two buildings, each 5,000 square feet.

The applicant anticipates that one or more of the commercial buildings will be for food and beverage, to feature patios and outdoor seating. The commercial portion of the development surrounds a Central Plaza.

B.7 Development Controls

The hotel will not exceed 5 stories in height. The commercial buildings will not exceed 3 stories in height. Facades shall be in compliance with Gateway Corridor Standards and will be depicted on elevations to be presented.

The applicant proposes that prior to issuance of a building permit for the commercial structures, the owner/developer shall submit architectural design guidelines listing a palette of acceptable building materials which shall designate required minimums and acceptable design alternatives to be reviewed and approved by the Director of Community Development and Infrastructure, or its designee.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Four

B.8 Residential Uses

a. <u>Characteristics</u>

The site plan for the subject tract provides for 274 multi-family residential units, 207 townhomes, and 74 single-family detached residential lots. The multi-family buildings will include 3-story and 4-story buildings. (The plan calls for some 4-story structures to accommodate 3/4 splits based upon topography.) Townhomes will be no more than 4 stories, 99 of which are front-loaded and 108 of which are rear loaded. Each single-family detached residence will be a one-story or two-story home and will not exceed a height of 35 feet.

Multi-family units will have 1 to 3 bedrooms (approximately 45% 1 bedroom, 35% 2 bedroom, and 20% 3 bedroom). The Townhomes will have 3-4 bedrooms. The single-family detached residences will include a minimum of 1,800 square feet of conditioned area. The single-family detached homes will have 3-5 bedrooms.

b. Streets and Common Open Spaces

The project will include an open space / amenity areas of approximately 27.8 acres total, approximately 37% of the total site area. Of the total 27.8 acres, 23.6 acres is conservation area, 1.6 acres is Passive Area, and 2.6 acres is Active Area. The common areas are to include amenity areas including two swimming pools, tennis courts, pickleball courts, parks, and mulched trails connecting the neighborhoods to the shared green spaces and amenity areas. The development will include sidewalks as well as walking trails for connectivity. The subdivision streets will be public, and the applicant requests variances to the minimum radius requirements to accommodate the street system as shown on the site plan as more particularly set forth below.

c. Parking and Mailboxes

Parking for the residential development is in accordance with Hall County Code requirements. There are 410 Multi-Family parking spaces (1.5 spaces per unit). There are 414 parking spaces for the Townhomes (2 per home) and 148 parking spaces for the Single-Family Detached portion of the development (2 per home). The project includes two Cluster Mailbox Units, one with 103 mailboxes and 5 parking spaces, and the other with 183 mailboxes and 8 parking spaces.

d. Architectural Style and Proposed Siding

The architectural style of the Single Family and townhome residence community will be a traditional 1-story to 2-story single-family detached home with 2-car garages. Architectural renderings will be provided for both single-family residences and town homes. The homes will have brick and stone accents on the front of the homes. The remaining front facade will be Board and Batten, shake, or fiber cement lap siding. The sides and rear of the home will be fiber cement Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Five

lap siding. The facades of all residences will comply with § 17.180.060.B.9.a of the Hall County Code.

e. <u>Development Controls</u>

Each Single-Family detached residential lot will have a minimum width of 50 feet and a minimum size of 8,000 square feet. There will be a minimum of 10 feet between Single-Family detached structures. The Townhomes will have a minimum width of 22 feet. All grass areas and all front and side yards will be sodded.

The setbacks for the Townhomes (for which applicant seeks a variance) are:

- (a) 20' front setback for Front Loaded Townhomes,
- (b) 6' front setback for Rear Loaded Townhomes,
- (c) 5' side setback, and
- (d) 20' rear setback.

The setbacks for the Single-Family Detached homes are:

- (a) 25' front setback,
- (b) 5' side setback, and
- (c) 20' rear setback.

There will be a 50-foot undisturbed stream buffer, from the top of the stream bank (point of rested vegetation), in accordance with Hall County Ordinance 8.170.070.A. Section 8.170.070.B provides for an additional impervious surface setback of 25 feet or a variation thereof for a variable distance. Section 8.170.070.D provides:

On properties of 50 acres or larger, the impervious setback area may be reduced such that the sum of the undisturbed buffer area and the impervious setback area do not exceed eight percent of the total property area of the development activity. However, in no case shall the 50-foot undisturbed buffer be reduced or altered to achieve this percentage.

The applicant requests reduction of the impervious setback area accordingly as shown on the site plan. The walking trails within the stream buffer will be mulch. Some of the stream buffer area will be included as a part of the individual lots (subject to the buffer requirements). If a variance is allowed for inclusion of those stream buffer areas within the lots, Scott Puckett, Inc. requests that the variance be allowed. Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Six

The sewer easement runs through the development, including some of the single-family residential lots. However no structures will be placed within the sewer easement, and construction will be in a manner to maintain the structural integrity of the sewer line. The development will not violate the terms of the sewer line easement.

f. Development Schedule

Depending upon permitting and approvals, the applicant anticipates a 24- to 36-month development period.

g. Model Homes and Construction Trailers

The applicant requests approval of up to 2 construction trailers and 2 to 4 model homes.

C. Variance Requests

The applicant requests the following variances:

1. Gateway Corridor standards limit the height of non-residential buildings located within 250 feet of a residential or agricultural use street to three stories. Accordingly, the applicant requests a variance from Gateway Corridor standards to allow for a five-story hotel.

2. The applicant requests, if required, a variance to allow the stream buffer to be included within and as part of some single-family residential lots, subject to buffer requirements.

3. The Hall County Code does not address townhome developments. The applicant requests a variance from subdivision setback provisions to allow the setbacks for the townhomes as depicted on the site plan: (a) 20' front setback for Front Loaded Townhomes, (b) 6' front setback for Rear Loaded Townhomes (c) 5' side setback, and (d) 20' rear setback.

4. The applicant requests a variance to allow hammerheads (28' radius) in lieu of cul-desacs in the Townhome portion of the development where indicated on the site plan.

5. The Hall County subdivision street design standards (Ordinance 16.60.200) provide for a minimum curve radius of 125 feet. The applicant requests a variance to allow a reduction in the turning radius on the subdivision road depicted on the site plan. For example, two of the curves in the Townhome section of the development have a 20' inside radius and 30' centerline radius.

6. The applicant requests a reduction of the impervious surface buffer provided for by Hall County Ordinance Section 8.170.070.B, as allowed by Hall County Ordinance 8.170.070.D, as set forth above and on the site plan.

7. The applicant requests a variance to allow a private easement for rear private alleyways for ingress and egress to the rear-loaded townhomes and associated access, with no sidewalks along the alleyway.

Project Narrative Rezoning Applications of Scott Puckett, Inc. August 23, 2024 Page Seven

8. The applicant requests a variance from the Front-Loaded Townhome garage widty limitations set forth in Hall County Ordinance minimums to allow the garages as depicted on the site plans and elevations. 17.180.060(9)(c)(ii), which limits garage doors to 50 percent of the width of the townhouse unit, to allow garage doors to occupy up to 67 percent of the width of the townhouse unit.

10. The applicant requests a variance to allow the height of Multi-Family units to accommodate 3-4 splits.

11. The applicant requests a variance from the 50-foot transitional buffer provided for by Hall County Ordinance 17.180.060.B to allow a 25-foot transitional buffer. If required, the applicant also requests a variance to allow portions of the 25-foot transitional buffer to be included as part of some of the single-family residential lots as depicted on the site plan.

Cc: Subject:	Planning) Chad Harper (Environmental Health); Kelly Hairston (Environmental Health) HCPC Tentative Agenda 10.21.24

Please find Environmental Health comments below:

Item 1, 6178 Grant Ford Road, Caswell: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system. An existing system evaluation/site visit will be required for Environmental Health to process the building permit application.

Item 2A/B, 5563 Waterwood Drive, Brumbelow: Environmental Health performed an existing system evaluation in regards to the proposed mobile home on August 15, 2024 and has no issues with the current 2 bdrm mobile home replacement location.

Item 3, 0/3902 Belmont Hwy, Simpson: No comment.

Item 4, 1780 Hancock Ave Ext, Jones Tree Service: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan.

Item 5, 6619 Lanier Island Pkwy, UHC: The existing onsite sewage management system is sized/approved for 5 employees only.

Item 6A/B, 2811 Athens Hwy, Dunagan: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation may be required after review of business plan.

Item 7, 0/2010 Candler Road, Dunagan: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 8, 0/4435 Ridge Road, Puckett: Public sewer. A Food Service permit/plan review may be required depending on businesses proposed. Any abandoned well shall be properly closed as per Water Well Standards Act. Any abandoned septic tank shall be pumped by a State certified pumper/hauler and crushed/filled.

Item 9, 5859/5871 Brookton Lula Road, Helton: No comment.

Tuesday, October 21st, 2024 Hall County Planning Commission Meeting.

5. <u>0 & 4435 Ridge Road | Rezone | from Planned Residential Development (PRD) and Suburban Shopping (S-S) to Planned</u> Commercial Development (PCD) | on a combined 74.38± acre tract located on the east side of Ridge Road at its intersection with Friendship Road | Zoned PRD & S-S, Tax Parcels 08154 000022 & 000017 | Proposed Use: Mixed-use development | ** Commission District 1 | Scott Puckett, Inc., applicant

Hall County Fire Marshal's Comments:

 The residential portion of the development has only one entrance off Ridge Rd. The residential development calls for 207 townhomes and 74 single family dwellings. The Rules and Regulations of the State of Georgia 120-3-3 states that developments of one and two family dwellings where the number of dwelling units exceeds 120 shall be provided with two separate and approved fire access roads. If approved a second access will have to be installed.

- 2) The town home rear alley or street is considered a fire apparatus access and will have to meet the minimum 20' width requirement of the International Fire Code Chapter 5, Section 503.2.1, if approved the town home rear alley or street shall not be less than 20' wide.
- 3) If approved all commercial buildings greater than 12,000 SF or 2 stories or greater in height will be required to have an emergency responder radio frequency test completed to determine the radio signal strength inside the building, any building failing the test will be required to have a bi-directional antenna system designed, installed, and certified.

Regards,

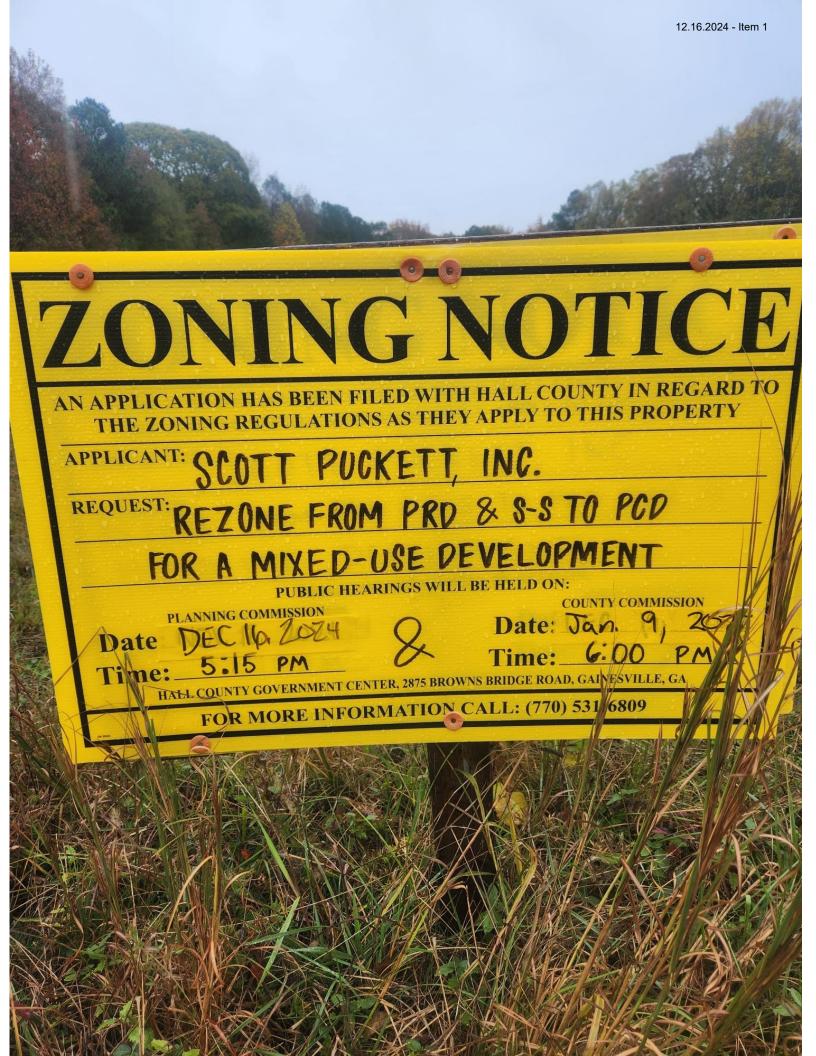

John Hornick, NPQ Fire Service Plans Examiner 1 Lieutenant, Hall County Fire Rescue Hall County Government Main: 770-531-6838 | Cell: 404-597-0083 Website: <u>www.Hallcounty.org</u>

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

SEPT 09, 2024 THE ZONING SIGN MUST BE POSTED NO EARLIER THAN____ AND NO LATER THAN SEPT 22, 2024

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT SEPT 22, 2024 __ ALONG WITH A MINIMUM OF ONE PHOTO NO LATER THAN SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT				
By my signature, I, <u>Scott Puckett</u> , hereby acknowledge that I have Please Print Name read and understand the sign posting requirements. I further certify that the required				
public notice sign was posted on	9/16/2024 Date	for	<u>Scott Puckett, Inc</u> . (Name application filed as)

AGENDA ITEM

Public Hearing to amend Hall County's Zoning Map as follows:

REPORT TO:	Work Session	(01/06/25)
-------------------	--------------	------------

REPORT TO: Voting Meeting (01/09/25)

ITEM NO: 700/2024

4163 Cleveland Highway | Use Subject to County Commission Approval | on a 4.41± acre tract located on the west side of Cleveland Highway (GA-SUBJECT: 129) approximately 540 feet from its intersection with Hunter Road | Zoned H-B (GCOD); Tax Parcel 12026 000009 (pt.) | Proposed Use: Used auto sales and repair | Commission District 3 | Ramon Carrillo Jr., applicant

Meetings:

Work Session Date: 01/06/25 Voting Meeting Date: 01/09/25

Executive Summary:

Presenter: Recommendation: ΒG

Approval, with conditions:

- 1. The property shall be developed in accordance with the site plan dated November 14, 2024, and as described in the updated project narrative dated November 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval. The maximum square footage of the show room shall not exceed five thousand (5,000) square feet in size and the shop shall not exceed eight thousand (8,000) square feet in size.
- 2. Subdivision of the property shall be subject to the plat review process.
- 3. Access to the development shall be approved by the Georgia Department of Transportation. The developer shall be responsible for all costs associated with improvements necessary for access to the development.
- 4. The new office and shop buildings shall comply with the architectural standards of the Gateway Corridors Overlay District and are subject to approval by the Director of Planning and Zoning or their designee.
- 5. All maintenance and repair of vehicles shall be conducted within the shop building. No outside storage of any equipment or materials is allowed. Additionally, no storage of vehicles, boats, or recreational vehicles for rental purposes shall be allowed on the property.
- 6. There shall be a 25 foot wide transitional buffer adjacent to the northern and western property lines.
- 7. Signage shall comply with Gateway Corridors Overlay District standards and is subject to the approval of the Director of Planning and Zoning or their designee.
- 8. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 9. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 10. The 10 foot front landscape strip shall be exempt from the shade tree requirement with final review and approval subject to the Director of Planning and Zoning or their designee.
- 11. Roll-up doors must not be installed on the front of any building or any building facing US Highway 129.
- 12. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 13. Gravel shall not be permitted as a paving surface material within the Gateway Corridors Overlay District. All parking areas and driveways within the development shall be paved with asphalt or concrete including other pervious paving materials subject to the final review and approval by the Director of Planning and Zoning or their designee.
- 14. Although fencing is not required, if the applicant chooses to install a fence, the fencing along Cleveland Highway must contain brick or stone columns every 50 feet as well as ornamental or wrought iron fencing. All other fencing along the side and rear property lines must be vinyl-coated chain link fencing, 6 feet in height.
- 15. The hours of operation shall be Monday through Friday 9:00 am to 6:00 pm and Saturday 10:00 am to 6:00 pm.

Purpose of Request: 4163 Cleveland Highway Use Subject to County Commission Approval on a 4.41± acre tract located on the west side of Cleveland Highway (GA-129) approximately 540 feet from its intersection with Hunter Road Zoned H-B (GCOD); Tax Parcel 12026 000009 (pt.) PLANNING AND ZONING

DIRECTOR

Beth Garmon

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

To: **Richard Higgins, Chairman** Kathy Cooper, District 1 Commissioner Billy Powell, District 2 Commissioner Gregg Poole, District 3 Commissioner Jeff Stowe, District 4 Commissioner From: Beth Garmon, Director of Planning & Zoning Date: December 23, 2024 Subject: 4163 Cleveland Highway | Use Subject to County Commission Approval | on a 4.41± acre tract | Zoned H-B (GCOD); Tax Parcel 12026 000009 (pt.) | Proposed Use: Used auto sales and repair | Ramon Carrillo Jr., applicant

The request before you is from Ramon Carrillo Jr. for a use subject to county commission approval for a used auto sales and repair business within the Gateway Corridors Overlay District. This item is located within Commission District 3.

At their December 2, 2024 meeting, the Hall County Planning Commission voted to recommend approval, with fifteen (15) conditions (4-0, Johnny Varner absent).

Staff recommendation: **Approval, with conditions,** as the proposed use is consistent with the Comprehensive Plan and adjacent land use.

There was **one (1) comment submitted** in advance of the Planning Commission meeting and **one (1) person spoke in opposition during the public hearing**.

Planning Commission Conditions:

- 1. The property shall be developed in accordance with the site plan dated November 14, 2024, and as described in the updated project narrative dated November 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval. The maximum square footage of the show room shall not exceed five thousand (5,000) square feet in size and the shop shall not exceed eight thousand (8,000) square feet in size.
- 2. Subdivision of the property shall be subject to the plat review process.

- 3. Access to the development shall be approved by the Georgia Department of Transportation. The developer shall be responsible for all costs associated with improvements necessary for access to the development.
- 4. The new office and shop buildings shall comply with the architectural standards of the Gateway Corridors Overlay District and are subject to approval by the Director of Planning and Zoning or their designee.
- All maintenance and repair of vehicles shall be conducted within the shop building. No outside storage of any equipment or materials is allowed. Additionally, no storage of vehicles, boats, or recreational vehicles for rental purposes shall be allowed on the property.
- 6. There shall be a 25 foot wide transitional buffer adjacent to the northern and western property lines.
- 7. Signage shall comply with Gateway Corridors Overlay District standards and is subject to the approval of the Director of Planning and Zoning or their designee.
- 8. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 9. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 10. The 10 foot front landscape strip shall be exempt from the shade tree requirement with final review and approval subject to the Director of Planning and Zoning or their designee.
- 11. Roll-up doors must not be installed on the front of any building or any building facing US Highway 129.
- 12. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 13. Gravel shall not be permitted as a paving surface material within the Gateway Corridors Overlay District. All parking areas and driveways within the development shall be paved with asphalt or concrete including other pervious paving materials subject to the final review and approval by the Director of Planning and Zoning or their designee.

- 14. Although fencing is not required, if the applicant chooses to install a fence, the fencing along Cleveland Highway must contain brick or stone columns every 50 feet as well as ornamental or wrought iron fencing. All other fencing along the side and rear property lines must be vinyl-coated chain link fencing, 6 feet in height.
- 15. The hours of operation shall be Monday through Friday 9:00 am to 6:00 pm and Saturday 10:00 am to 6:00 pm.

- 8. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 9. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 10. The 10 foot front landscape strip shall be exempt from the shade tree requirement with final review and approval subject to the Director of Planning and Zoning or their designee.
- 11. Roll-up doors must not be installed on the front of any building or any building facing US Highway 129.
- 12. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 13. Gravel shall not be permitted as a paving surface material within the Gateway Corridors Overlay District. All parking areas and driveways within the development shall be paved with asphalt or concrete including other pervious paving materials subject to the final review and approval by the Director of Planning and Zoning or their designee.
- 14. Although fencing is not required, if the applicant chooses to install a fence, the fencing along Cleveland Highway must contain brick or stone columns every 50 feet as well as ornamental or wrought iron fencing. All other fencing along the side and rear property lines must be vinyl-coated chain link fencing, 6 feet in height.
- 15. The hours of operation shall be Monday through Friday 9:00 am to 6:00 pm and Saturday 10:00 am to 6:00 pm.

Excerpts from the minutes of the December 2, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Ramon Carrillo Jr, 6180 Dahlonega Highway, Clermont, presented the request. The applicant is requesting approval for a use subject to the county commission to establish a used automobile sales and an automobile repair business on a 4.41± acre tract, zoned Highway Business (H-B) and within the

Gateway Corridors Overlay District (GCOD). On August 8, 1983, the subject property was approved by the Board of Commissioners for rezoning from Agricultural Residential IV (AR-IV) to Highway Business (H-B) to allow for a bake shop and catering business located at the front of the property and a grading company located at the rear of the property. The zoning district of H-B allows for automobile sales, however, GCOD standards require the use to be approved by the county commission.

Public Forum:

Matthew Truelove, 4185 Cleveland Highway, Gainesville, spoke in opposition. Concerns raised were the site of this business from his property that his family has owned for over 100 years, the traffic this business would create, as well as the additional traffic from the U-turn on Cleveland Highway.

Planning Commission Comments:

Mr. Braswell asked the applicant what his plan was for the existing structure. The applicant explained it was going to be demolished, the areas graded and then a forty foot by eighty foot show room and one hundred foot by eighty foot shop would be constructed. Mr. Hunt asked which sides of the building would have bay entrances. The applicant stated the front and the back. Mr. Hunt asked if the applicant would be willing to just have bay doors in the back and the applicant agreed. Mr. Hunt asked the applicant if he intends to add fencing to his property. The applicant stated he will have fencing along the right side with the 25 foot buffer. Ms. Pilcher expressed concerns about the U-turn traffic and disturbance it would create to adjacent residential properties. Mr. Braswell brought up elevation differences in the residential area and the applicants property. Mr. Braswell questioned the proposed business hours of Monday through Friday being 9:00 am - 6:00 pm and Saturday being 10:00 am - 6:00 pm. The applicant confirmed the hours.

<u>Motion:</u> A motion to approve, with conditions was made by Stan Hunt and seconded by Frank Sosebee. Vote: (4-0, Johnny Varner Absent)

Conditions:

- The property shall be developed in accordance with the site plan dated November 14, 2024, and as described in the updated project narrative dated November 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval. The maximum square footage of the show room shall not exceed five thousand (5,000) square feet in size and the shop shall not exceed eight thousand (8,000) square feet in size.
- 2. Subdivision of the property shall be subject to the plat review process.
- 3. Access to the development shall be approved by the Georgia Department of Transportation. The developer shall be responsible for all costs associated with improvements necessary for access to the development.
- 4. The new office and shop buildings shall comply with the architectural standards of the Gateway Corridors Overlay District and are subject to approval by the Director of Planning and Zoning or their designee.

- 5. All maintenance and repair of vehicles shall be conducted within the shop building. No outside storage of any equipment or materials is allowed. Additionally, no storage of vehicles, boats, or recreational vehicles for rental purposes shall be allowed on the property.
- 6. There shall be a 25 foot wide transitional buffer adjacent to the northern and western property lines.
- 7. Signage shall comply with Gateway Corridors Overlay District standards and is subject to the approval of the Director of Planning and Zoning or their designee.
- 8. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 9. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.
- 10. The 10 foot front landscape strip shall be exempt from the shade tree requirement with final review and approval subject to the Director of Planning and Zoning or their designee.
- 11. Roll-up doors must not be installed on the front of any building or any building facing US Highway 129.
- 12. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 13. Gravel shall not be permitted as a paving surface material within the Gateway Corridors Overlay District. All parking areas and driveways within the development shall be paved with asphalt or concrete including other pervious paving materials subject to the final review and approval by the Director of Planning and Zoning or their designee.
- 14. Although fencing is not required, if the applicant chooses to install a fence, the fencing along Cleveland Highway must contain brick or stone columns every 50 feet as well as ornamental or wrought iron fencing. All other fencing along the side and rear property lines must be vinyl-coated chain link fencing, 6 feet in height.
- 15. The hours of operation shall be Monday through Friday 9:00 am to 6:00 pm and Saturday 10:00 am to 6:00 pm.

Staff recommends <u>APPROVAL</u> of the applicant's request with the following conditions:

- 1. The property shall be developed in accordance with the site plan dated November 14, 2024, and as described in the updated project narrative dated November 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. Subdivision of the property shall be subject to the plat review process.
- 3. Access to the development shall be approved by the Georgia Department of Transportation. The developer shall be responsible for all costs associated with improvements necessary for access to the development.
- 4. The new office and shop buildings shall comply with the architectural standards of the Gateway Corridors Overlay District and are subject to approval by the Director of Planning and Zoning or their designee.
- 5. All maintenance and repair of vehicles shall be conducted within the shop building. No outside storage of any equipment or materials is allowed. Additionally, no storage of vehicles, boats, or recreational vehicles for rental purposes shall be allowed on the property.
- 6. There shall be a 25 foot wide undisturbed buffer adjacent to the northern and western property lines.
- 7. Signage shall comply with Gateway Corridors Overlay District standards and is subject to the approval of the Director of Planning and Zoning or their designee.
- 8. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.
- 9. All conditions of zoning shall be made a part of any plats or construction plans created for the subdivision.

The following should be considered as exceptions to the Official Code of Hall County, and shall warrant further determination by the Board, should it choose to approve the submitted narrative and site plan:

- 1. <u>17.420.050.D.2 Other landscape and screening standards Street frontage</u>
 - Along each street frontage there shall be a ten-foot-wide landscape strip, continuous along the frontage except for perpendicular crossings for driveways and utilities. The landscape strip shall be planted with shade trees (six feet tall, two inches caliper, dbh, at time of planting, and

not less than 35 feet tall at maturity) planted not less than 40 feet on center, and shrubbery forming an intermittent hedge not less than three feet in height designed to provide an adequate screen.

- The applicant proposes a 10 foot wide landscape strip along the frontage; however, the applicant is asking for a variance from planting trees in order to maintain visibility of the car lot from the road.
- 2. <u>17.420.050.E.3 Paving materials for parking lots.</u>
 - All parking areas shall be paved with asphalt, concrete (or pervious materials approved by the director.)
 - The applicant proposes to pave the driveway with asphalt and requests a variance from the paving requirement for parking areas to allow gravel surface.

Summary Analysis

The applicant is requesting approval for a use subject to the county commission to establish a used automobile sales and an automobile repair business on a 4.41± acre tract, zoned Highway Business (H-B) and within the Gateway Corridors Overlay District (GCOD).

On August 8, 1983, the subject property was approved by the Board of Commissioners for rezoning from Agricultural Residential IV (AR-IV) to Highway Business (H-B) to allow for a bake shop and catering business located at the front of the property and a grading company located at the rear of the property.

Per the submitted narrative, the applicant is proposing to establish a used auto sales and repair business on 4.41± acres of the existing 5.16± acre parcel. The property is currently developed with a 2,664 square foot residence constructed in 1960; the remaining acreage is undeveloped.

Per the narrative, the existing residence will be removed, and a new 3,500 square foot office building will be constructed with the building perimeter being landscaped per GCOD standards. The narrative further states that an 8,000 square foot shop building is proposed to be constructed behind the office and will also meet GCOD architectural standards.

The applicant is requesting an exception from parking lot standards to allow the parking areas to be surfaced with gravel, while the main driveway and drive aisles are to be paved with asphalt. The applicant is proposing a landscape island with shade trees located between the lower and upper parking sections. Per the narrative, the applicant is proposing a 10 foot wide landscape strip along Cleveland Highway; however, the applicant is requesting a variance from shade trees in the landscape strip to avoid obstructing the visibility of the car lot from the road. The applicant states that they intend to preserve as much of the natural vegetation as possible in the transitional buffers and rear of the property.

Per the narrative, the hours of operation are proposed to be Monday through Friday from 9:00 am - 6:00 pm and Saturday from 10:00 am-6:00 pm. Per the applicant, all vehicle repair and maintenance work will be conducted inside the proposed building and all vehicles awaiting repair will be parked behind the shop building.

application.			

Based on the future land use plan, staff finds the conditional use request *is consistent* with the Comprehensive Plan's future land use classification of Business Nodes & Corridors. Business Nodes & Corridors are anticipated to include higher-intensity commercial uses, low-intensity, consumer-facing industrial uses that house businesses that serve nearby communities, and with some higher density residential, where appropriate. Site designs should use the Quality Development Principals discussed within the plan, particularly natural resource protections and high quality landscape installations, to the fullest extent possible. Retail activities, office-based employment, and civic uses are appropriate. Low impact industrial or higher-density residential only should exist where the same is found on adjacent properties.

The adjacent property to the south is developed with a shopping center. Additionally, there is a commercial development south of the property at the intersection of Cleveland Highway and Jim Hood Road and Nopone Road.

Zoning Analysis

Per Planning Commission and Hall County Commission consideration and decision (11.2.6.F), the commission shall study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry shall be considered, to wit:

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use, development and zoning of adjacent and nearby property; The requested use is consistent with the Highway Business zoning district and adjacent commercial development.
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; **No, it is not anticipated that the proposal will adversely affect adjacent properties.**
- 3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; The property has reasonable economic use as currently zoned; however, vehicle sales and repair cannot occur as described within the Gateway Corridors Overlay District (GCOD) without approval by the Board of Commissioners.
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; **It is not anticipated that the proposed conditional use will result in an excessive or burdensome use of existing infrastructure.**
- 5. Whether the zoning proposal is in conformity with the policy and intent of the future land use plan for the physical development of the area; The use is consistent with the Comprehensive Plan's future land use classification of Business Nodes & Corridors.
- 6. The extent to which property values are diminished by the existing zoning restrictions; **Staff is unable** to determine the extent to which property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; **Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.**
- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- 9. The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The property was rezoned from Agricultural Residential IV (AR-IV) to Highway Business (H-B) in 1983 and is currently developed with a residence constructed in 1960.
- 10. Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; Staff is not aware of any changing conditions affecting the use or development of the property.

- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The current request for a use subject to county commission approval to establish an automobile sale and repair business within the existing Highway Business (H-B) zoning district and Gateway Corridor Overlay District (GCOD) will not create an isolated district.
- 12. Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; The request does not appear to be out of scale with the needs of the immediate neighborhood or the county as a whole.
- 14. Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; The proposed use of used automobile sales and repair requires approval by the Board of Commissioners for any parcel located in the Gateway Corridor Overlay District (GCOD).
- 15. Whether the need for rezoning could be handled instead by a variance request to the zoning board of adjustment; **The request could not be handled alternatively as a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.
- 17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

11.2.6.E - Submission requirements

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in Table 11.2.1 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - 1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 11.2.6.E. **Proposal does provide a narrative outlining the request.**

- 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal does meet the requirement. The applicant has provided a site plan and included much of the necessary information to properly assess the development. However, information about adjacent parcels is limited.
- C. For any application for a slow rate land treatment system (see section 11.2.6.E.2.c), the following additional requirements apply. **This standard is not applicable to the applicant's request.**
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. This standard is not applicable to the applicant's request.

Development Support and Constraints

Hall County Environmental Health

In an email dated October 3, 2024, Emily McGahee stated the following: "Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan."

Hall County Fire Marshal

In an email dated October 3, 2024, John Hornick, NPQ Fire Service Plans Examiner 1, stated the following: "The Hall County Fire Marshal's Office has no comments as proposed."

Hall County Public Works and Utilities

In a memorandum from Public Works and Utilities dated October 3, 2024, Bill Nash, Director of Public Works, stated the following:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.

Traffic:

GDOT permit required.

Utilities:

Hall County Sewer Service Area.

Georgia Department of Transportation

In an email dated October 1, 2024, Veronica Chavers, D1TO Civil Engineer 3, stated that GDOT coordination is required.

Narrative 4167 Cleveland Hwy

Updated 11/18/24

Our business, La Esperanza Auto Sales Inc., would like to turn the property located at 4167 Cleveland Hwy into a car dealership. This property is already zoned for highway business and we are requesting a conditional use. We would like to demolish the existing structure which will allow us to grade the area leaving a slight slope leading towards the back of the property to assist with waterflow, pending the engineer's final reports. The building closest to the road will be for office space and a showroom. The dimensions are 70x50 and the shop building located behind the office space will be 80x100. Our business model is to purchase used cars that are primarily salvaged and repair them to meet all state requirements to be converted to rebuilt. This shop will allow us to complete all repairs in house and only minimally outsource labor. Our goal is to be able to offer repair and maintenance services to the community as well as for our own inventory. All work will be conducted inside the building.

We are prepared to meet the building requirements that the gateway district requires. The office building will have landscaping along the perimeter. The 4 parking spaces indicated at the right side of the office building will be reserved for customer use. The 5 parking spaces located on the rear of the building will be for cars that are awaiting maintenance/repairs. Thanks to the office building these cars will not be visible from the road. We would like to request a 10 foot buffer with a fence on the side of the property that abuts the residential area. A 10 foot buffer will allow us to maximize our property while privacy to the surrounding neighbors as well.

The site plan shows the driveway asphalted/concreted and the parking areas gravel. We are requesting to utilize gravel to help allow water runoff. On the site plan there is a retention pond indicated on the front of the property, this is inaccurate and we are collaborating with our engineer to finalize the most beneficial area for the actual location.

The parking areas located on the left, right and front will hold ready to sell inventory and can hold up to 107 cars. The parking area located on the rear of the site plan and behind the shop will hold 32 cars designated for our cars awaiting repair as well as employee parking. We would like to request a variance on the landscape strip along Cleveland highway since any plant life will obstruct the view of our inventory. Allowing the cars to be completely visible from the road is imperative to our business and only the bestlooking inventory will be showcased roadside. There is plenty of natural vegetation on the property and we would like to utilize as much as possible to be able to leave the land undisturbed in that area. When viewing the current parcel there is a portion of the property that is not being purchased by us, which we have designated on the site plan. This part of the property will be retained by the current owners, as they currently have an office there.

We have operated a successful business in Hall County for 8 years and are excited to expand and offer our services to the northern part of the county. Our business hours will be Monday- Friday 9am – 6pm then Saturday 10am-6pm. We believe our business will fit in seamlessly in the area and boost the local economy as well.

NOV 15, 2024 Planning & Zoning Department

12.2.2024 - Item 4 **RECEIVED**

CHAPTER 17.420. GATEWAY CORRIDORS OVERLAY DISTRICT (GCOD)

Responses in BLUE

Property Address: 4167 Cleveland Hwy, Gainesville, GA 30506

Architectural Site Plan:

Hall County, Georgia, Code of Ordinances (Supp. No. 74)

Created: 2023-05-08 07:59:36 [EST]

17.420.010. Purpose.

The purpose of the GCOD is:

- A. To promote the general health, safety and welfare of the community.
- B. To improve the efficient operation of traffic around the county.
- C. To promote safe and efficient movement within the Overlay District for persons using all modes of travel motorized vehicles, bicycles and walking.
- D. To create a sense of place that is aesthetically appealing and environmentally responsible.
- E. To encourage innovative development projects that set standards for landscaping, community design and aesthetics.
- F. To establish consistent and harmonious design standards for public improvements and private property development within the Overlay District so as to unify the distinctive visual quality of the Gateway Corridors.

(Res. of 3-22-07, § 1; Res. of 8-9-07, § 1)

17.420.020. Design guidelines.

The GCOD Design Guidelines are hereby adopted and made part of this chapter and shall apply to property in the GCOD. Within the GCOD, building design and construction that is not in substantial conformity with the GCOD Design Guidelines is prohibited. In cases of a conflict between the design guidelines and the text of this chapter, the text of this chapter shall govern.

(Res. of 3-22-07, § 1; Res. of 8-9-07, § 1)

17.420.030. Boundaries.

- A. The provisions of this chapter apply to land parcels of record within the unincorporated portion of Hall County having frontage on the following road segments as of the date this ordinance is adopted. Hereafter, these road segments shall be referred to as the "Gateway Corridors."
- 1. S.R. 211 from S.R. 53 (Winder Highway), south to Thompson Mill Road.
- 2. U.S. 129 (Athens Highway) from the Gainesville City limits, south to Gillsville Highway.
- 3. S.R. 53 (Winder Highway) from S.R. 13 (Falcon Parkway), east to the Jackson County line.
- 4. S.R. 13 (Atlanta Highway and Falcon Parkway) from the Flowery Branch City limits, north to S.R. 53 (Winder Highway).
- 5. McEver Road from the Buford City limits, north to the northernmost intersection with Radford Road.
- 6. Spout Springs Road from the Flowery Branch City limits, south to Friendship Road.
- 7. Friendship Road from Bogan Road, east to Thompson Mill Road.
- 8. Realigned Thompson Mill Road from Spout Springs Road east to S.R. 211 (Old Winder Highway), pursuant to final alignment approved by GDOT.
- 9. All state roadways within the jurisdiction of Hall County.
- B. This chapter shall also apply to any land parcel of record within the unincorporated portion of Hall County when a portion of said parcel falls within 300 feet of the centerline of the Gateway Corridors as of the date

(Supp. No. 74)

this ordinance is adopted. Any parcel subject to the ordinance on the date of adoption shall continue to be subject to the provisions of this chapter, even if the parcel is subdivided in the future.

- C. Upon written application, the director may grant exemptions from the requirements of this chapter for parcels or portions of a parcel that would otherwise be included in the GCOD, based on one or more of the following findings:
- 1. Portions of the subject property to be exempted lie more than 300 feet from the centerline of a Gateway Corridor.
- 2. The property to be exempted does not have access to a Gateway Corridor and will not require access to Gateway Corridor when developed.
- 3. Due to site topography development of the property to be exempted will not be visible from a Gateway Corridor.
- 4. Due to the location, size and shape of the property, development of the parcel under its current zoning and in conformity with the requirements of the GCOD would present a severe and unique hardship.

If the director does not render a written decision regarding such exemption within 15 working days of receipt of the application required in this paragraph, then the exemption shall be deemed to be approved.

(Res. of 3-22-07, § 1; Res. of 8-9-07, § 1; Ord. of 8-24-17)

17.420.040. Effect of GCOD provisions.

- A. *Application.* This Overlay District is supplemental to the underlying zoning district classifications established in the Hall County Zoning Regulations governing all properties and approvals within this Overlay District. The provisions of this chapter shall be overlaid upon and shall be imposed in addition to said underlying zoning regulations and other Hall County ordinances.
- B. *Relationship to standards of the underlying zoning district and subdivision regulations.* In any case where the standards and requirements of the GCOD conflict with those of the underlying zoning district or subdivision regulations, the standards and requirements of the GCOD shall govern.
- C. *Exceptions*. The provisions of this chapter shall not apply to the following:
- 1. Completion of work subject to preliminary plats, site development plans, construction plans, building permits, or interior finish permits approved prior to the effective date of this chapter.
- 2. Reconstruction, rehabilitation, restoration, repair or addition of an existing non-residential structure, interior renovations or interior finishes within an existing structure, or addition to an existing non-residential structure that was permitted prior to the enactment of this chapter shall not be subject to the provisions of the GCOD, provided that such construction is on a lot of record and does not result in addition or change to more than 75 percent of the floor area of the existing permitted structure.
- 3. Rezonings and planned developments that were approved by the board of commissioners prior to the date of this ordinance with the exception of those approvals with specific reference to the GCOD.
- D. The following requirements apply to reconstruction, replacement or addition to a legally permitted and existing nonresidential structure when such change consists of more than 75 percent of the floor area of the existing structure:
- 1. The portion of the project that is reconstructed, replaced or added shall meet the Architectural Standards of 17.420.050.H.

- If the reconstruction, replacement or addition includes the addition of 50 parking spaces or more, the newly constructed parking spaces shall meet the parking lot design requirements of section 17.420.050.E.
- 3. If the reconstruction, replacement or addition decreases the distance between the subject building and abutting property that is zoned or used for single-family residential purposes, the property line where the distance abutting residential property has been decreased shall provide a transitional buffer as required in section 17.420.050.C.
- 4. If the reconstruction, replacement or addition includes the reconstruction or addition of loading and service areas adjacent to property that is zoned or used for single-family residential purposes, such loading and service areas shall be screened as required by section 14.420.050.D.3.
- 5. Any new signs shall meet the requirements of section 17.420.070.
- E. Building plan application.
- 1. All building plans submitted pursuant to an application for a building permit should clearly indicate compliance with all of the proposed landscaping, architectural design, building materials, access management, and signage requirements of this chapter.
- 2. The plans should clearly show the location and calculate the amount/percentages of all building materials per building face as indicated in section 17.420.050.H.2.
- 3. Groups of buildings on the same parcel of land may be reviewed and permitted as a single project rather than individual buildings.

(Res. of 3-22-07, § 1; Res. of 8-9-07, § 1)

17.420.050. Non-residential property development standards.

- A. Prohibited uses.
- 1. Adult establishments.
- 2. Junk yards.
- 3. Billboard signs.
- B. *Conditional uses.* The following uses are allowed in the GCOD only if such use is permitted in the underlying zoning district and the board of commissioners grants a conditional use for such use pursuant to the procedures of the Hall County Zoning Ordinance:
- 1. Self-storage warehouse.
- 2. Vehicle sales lots, new or used.
- 3. Automobile repair and maintenance.
- 4. Commercial outdoor recreation.
- 5. Car wash.
- 6. Outdoor storage (as per the requirements of section 17.420.050.D.4.d.
- C. Transitional buffers.
- 1. Applicability.
- a. Transitional buffers required in this section shall provide an effective visual screen between dissimilar uses or activities.

- b. A transitional buffer shall be required along and inside the property line of a non-residential property abutting a residentially zoned property.
- c. Transitional buffers are required along and inside the property line at the perimeter of a planned development district that abuts single-family residential zoning or uses, in accordance with the requirements of this subsection, but no transitional buffers are required between dissimilar uses within the planned development district.
- 2. Width of transitional buffer.
- a. Where a commercial zoning district abuts property zoned for single-family residential or agricultural use, the minimum width shall be 25 feet.
- b. Where a commercial zoning district abuts property zoned for multi-family residential use the minimum width shall be 25 feet.
- c. Where an industrial zoning district abuts property zoned for residential or agricultural use, the minimum width shall be 50 feet.
- d. Where an industrial zoning district abuts property zoned for multi-family residential or agricultural use, the minimum width shall be 25 feet.
- e. Public and institutional uses shall comply with the standards in this section that apply to commercial zoning districts.
- 3. *Materials for transitional buffer*. Transitional buffers that are 25 feet in width or greater shall meet at least two of the three following criteria: be planted with a staggered double row of evergreen trees at least six feet in height, a single row of deciduous shade trees at least two inches caliper dbh, (minimum 30 feet height at maturity) and two staggered rows of evergreen shrubs at least three feet in height, planted a maximum of four feet on center, or other arrangement approved by the director that provides a dense visual screen.
- 4. Adjustments to buffer width.
- a. If a six-foot high solid wood fence or masonry wall is incorporated into the design of a transitional buffer, the width of the buffer may be reduced by ten feet. The fence or wall shall be located on the inside of the vegetation required in paragraph 3., above, with finished side facing the abutting property.
- b. Walls or fences required to screen loading and service areas, outdoor storage, and accessory equipment required in section 17.420.D.3. and 4. shall not be used to reduce the width of a transitional buffer required in section 17.420.050.C.2.
- 5. Maintenance of buffer.
- a. A transitional buffer required in this section shall be maintained in a healthy condition so as to provide an effective visual screen from the ground to a height of eight feet at maturity. Should vegetation die or be removed such that the buffer no longer functions as required in this section, that vegetation shall be replaced by the property owner.
- b. A fence that is provided pursuant to paragraph 4., above, shall be maintained by the property owner so that it is structurally stable and provides a solid visual screen.

25' Transitional buffer applied through natural plantations. See attached site diagram. Proper maintenance will be applied by the property owner.

Adjacent Properties Use Analysis:

Existing trees on the North Side of the property, creating a buffer between the two properties. – Photo Taken on 07/08/2024

Existing trees on the West Side of the property, creating a buffer between the two properties. – Photo Taken on 07/08/2024

- D. Other landscape and screening standards.
- 1. Building perimeter walls. Shrubs shall be planted within ten feet of the foundation of the primary structure along each building facade at the rate of at least 20 shrubs per 100 lineal feet of building facade except for sides or rear of building used for loading or service areas. Foundation plantings may be clustered to provide visual interest.

Shrubs will be planted around the building perimeter wall. See architectural site plan.

2. Street frontage.

a.

Along each street frontage there shall be a ten-foot wide landscape strip, continuous along the frontage except for perpendicular crossings for driveways and utilities. The landscape strip shall be planted with shade trees (six feet tall, two inches caliper, dbh, at time of planting, and not less than 35 feet tall at maturity) planted not less than 40 feet on center, and shrubbery forming an intermittent hedge not less than three feet in height designed to provide an adequate screen.

Street frontage landscape buffer of 35 feet will be provided between the edge of the road and the asphalt driveway. However, we will need to avoid planting shade trees along the street.

The display of cars is essential to the operation of the dealership. The cars that are parked on the side of the road will be in great aesthetic conditions and will only add to the visual quality of the neighborhood.

Existing 35' street frontage landscape buffer – Photo Taken on 07/08/2024

Created: 2023-05-08 07:59:36 [EST]

- b. The planning director shall have authority to approve alternative methods for landscaping and screening parking lots that include at least the same amount of landscape material or screening effect when viewed from the street.
- 3. Loading and service areas. In addition to general perimeter landscaping and required buffers, if a loading or service area is located within 50 feet of a side or rear lot line abutting property that is residentially zoned or used for residential purposes, or public or institutional use, then the loading or service areas shall be surrounded by either a six feet high masonry screening wall, or a six feet high solid wooden fence, placed on the inside of the landscaped buffer required in section 17.420.050.C.

No loading areas required or dedicated for the proposed use.

4. Screening of storage and accessory equipment.

- a. *Waste receptacles.* Waste receptacles, including dumpsters, garbage cans, or grease containers shall be located in the rear or side yard and placed at least 20 feet from any street, public sidewalk, or property line that abuts residential zoning or residential use. Such waste receptacles shall be screened from view from all property lines and public areas of the site by a minimum six feet high wall constructed of masonry or solid wood with an opaque gate.
- b. *Rooftop mechanical equipment.* Rooftop mechanical equipment, including HVAC and utility equipment shall be screened from adjacent streets, sidewalks, residential, public and institutional uses. Screening shall consist of parapet walls or an opaque enclosure around the equipment that is constructed of one of the materials used on the primary facade of the principal structure.

The waste receptacles location will be compliant to the "17.420.050.D.4. – Screening of storage and accessory equipment.".

c. Ground or wall-mounted mechanical equipment. Ground-mounted or wall-mounted equipment such as HVAC equipment, transformers, and gangs of multiple utility meters shall be screened from adjacent streets, sidewalks, residential, public and institutional uses. Screening shall consist of a solid masonry wall or wooden fence or other opaque enclosure around the equipment that is constructed of one of the permanent and durable materials used on the primary facade of the building. The height of the fence or wall shall be sufficient to effectively screen the equipment from view.

The proposed location of HVAC equipment is not visible from the street or the front entrance.

- d. Outdoor storage. Outdoor storage or sales displays shall be prohibited from front yards except when permitted in the underlying zoning district and further authorized by a conditional use permit pursuant to the procedures of the Hall County Zoning Ordinance. Outdoor storage or sales displays shall be screened from view from public streets and adjacent property by a permanent opaque enclosure consisting of a minimum eight-foot high solid fence or wall, except as follows:
- e. Temporary sale of seasonal goods may be permitted on properties other than residentially zoned property, if such temporary sales are authorized by the director for a period not to exceed 60 days, with up to a 30-day extension, to be approved no more than two times in a given calendar year. Such temporary sales shall be limited to sites that:
- a. Provide adequate off-street parking on approved surfaces;
- b. Provide safe and adequate vehicular access; and

Are not adjacent to residentially zoned property.

Outdoor display and sale of goods shall be prohibited in existing designated parking areas.

No storage dedicated for the proposed use.

5. Visual blending of slopes. Cuts and fills shall be terraced to blend into the natural terrain. Cut or fill slopes more than ten feet in height shall be landscaped with evergreen shrubbery planted at the rate of ten shrubs per 100 lineal feet.

No cut or fill slopes more than ten feet dedicated for the proposed use.

E. Parking lot design.

c.

- 1. *Parking requirements.* Off-street parking shall be required as in Chapter 17.250 of the Hall County Zoning Regulations, except as provided in this subsection:
- a. Shared parking. The director may approve a reduction of up to 25 percent in the number of parking spaces required for a specific use where inter-parcel access is provided and a shared parking analysis approved by the director demonstrates that adequate parking will be provided with the approved reduction.
- b. *Maximum number of parking spaces.* The maximum number of parking spaces that may be constructed on impervious surfaces shall be no more than 125 percent of the minimum number of required parking spaces required in Chapter 17.250 of the Hall County Zoning Regulations.

Minimum and maximum parking requirements met.

- 2. *Pedestrian circulation.* Parking areas shall be designed to facilitate safe and convenient use by pedestrians. Commercial and multi-family developments shall provide designated pedestrian pathways or sidewalks connecting parking aisles to the front entrance of the principal building.
- 3. Paving materials for parking lots. All parking areas shall be paved with asphalt, concrete (or pervious materials approved by the director.)

Driveway paved with asphalt.

All parking spaces paved with gravel.

- 4. Parking lot landscaping.
- a. Each parking area of over 50 spaces shall include landscaped islands within the parking area equivalent to not less than five to ten percent with planning director discretion of the total paved area of the parking lot, not including pervious paving surfaces.
- b. Landscaping in parking lots shall contain at least one shade tree (minimum of six feet tall and two inches caliper dbh at time of planting and 35 feet tall at maturity) for each 200 square feet of landscaping. Shade trees shall be planted in a bed of ground cover, sod and/or low shrubbery.

Landscaped island and shade tree indicated in architectural site plan.

- 5. *Perimeter landscaping.*
- a. Where parking lots abut adjacent residentially zoned or residentially used property, a transitional buffer is required as provided in section 17.420.050.C.2.

Created: 2023-05-08 07:59:36 [EST]

b.	Where parking lots abut public streets, a landscape strip is required, as provided in section 17.420.050.D.2.
	Transitional buffer and street frontage landscape strip indicated in architectural site plan.
с.	Appropriate shade tree species for landscaping parking lots include the following:
i.	Nuttall Oak.
ii.	Shumard Oak.
iii.	Willow Oak.
iv.	Gingko (Variety: President, Autumn Gold, male gender).
v.	Princeton Elm.
vi.	Chinese Elm (varieties Allee, Athena, Drake, Bosque).
vii.	Bald Cypress (variety: Shawnee Brave).
viii.	Zelkova (variety Green Vase or Village Green).
ix.	Northern Red Oak.
х.	Autumn Maple
xi.	Other indigenous species approved by the director.

All proposed trees will be chosen from species above to be planted.

- F. Outdoor lighting.
- 1. Streetlights.
- a. Streetlights shall be provided on all public streets.
- b. The spacing of street lights shall be staggered, 300 feet on-center, along both sides of the roadway.
- c. All street lighting shall be subject to review and approval of the Hall County Public Works Department.
- d. All outdoor lighting, shall be the semi-cutoff type.
- 2. Parking lot, sidewalk, and building illumination.
- a. Lighting shall be designed to avoid intrusion on adjacent properties and away from adjacent thoroughfares. All lighting shall be semi-cutoff luminary fixtures mounted in such a manner that the cone of light is directed downward.
- b. Only incandescent, florescent, metal halide, low-pressure sodium, or color corrected, highpressure sodium may be used. The same type of lighting must be used for the same or similar types of lighting on any one site.
- c. Parking light fixtures shall be the box head type, shall have a maximum height of 35 feet.

The property is dominantly used for day-time operations and outdoor lighting will be minimal.

All lights to be installed in accordance with 17.420.050 lighting standards and no fixtures over 35' in height.

- 3. *Security lighting.* Semi-cutoff luminaries shall be used for all security lighting.
- 4. Sign illumination.
- a. Internally illuminated signs, automatic changeable copy signs, and externally mounted neon signs are prohibited.
- Signs may be illuminated with external lighting fixtures provided that fixtures are directed downward and away from streets and adjacent property and public streets. All lighting shall have recessed luminaries, or be semi-cutoff luminary fixtures.
- G. Interparcel access.
- 1. Interparcel access, joint driveways, cross access drives and access easements shall be strongly encouraged for adjacent non-residential development along an arterial or collector street, except where the director determines that they are unfeasible because of topographic or other site-specific constraints.
- 2. Joint driveways and cross access easements shall be strongly encouraged for non- residential development that abuts other non-residential development, whether existing or planned. The building site shall incorporate the following:
- a. Continuous cross-access drive located in a cross-access easement, where necessary to connect adjacent parcels along the thoroughfare.
- A design speed of 15 mph and a two-way travel aisle with a minimum paved width of 22 feet (back of curb to back of curb). Paving, base and curb specifications shall meet Hall County's standards for public streets.
- c. Driveway aprons, stub-outs and other design features to indicate that abutting properties may be connected to provide cross access via a service drive.
- d. A five-foot wide sidewalk on one side of the cross-access drive.
- e. New commercial developments that abut residential property are strongly encouraged to provide a five-foot wide sidewalk connecting the two uses.

No inter-parcel access or joint driveways proposed.

- H. *Architectural standards for non-residential buildings.* The following design guidelines and standards apply to all newly constructed buildings used for office, commercial, industrial, institutional, and public purposes.
- 1. *General architectural requirements.*
- a. *Street orientation.* Principal building entrances shall be oriented to public streets with the exception of internal buildings not directly fronting on the street.
- b. *Building height.* Any non-residential building located within 250 feet of a residential or agricultural use street shall be limited to no more than three stories in height.
- c. Non-residential buildings shall have at least 1,000 square feet of heated floor space.
- 2. Building materials.
- The use of a common palette of building materials should be maintained for all four sides of principal buildings to create a consistent and traditional architectural identity. For large commercial/retail buildings and multifamily buildings, variation in building materials, texture, and depth should be employed to provide design variation.

- b. Buildings that are located on outparcels and all accessory buildings shall be constructed of materials complementing the principal building with which they are associated.
- c. Building materials used for all four sides of new or reconstructed buildings are restricted to the following:
- i. Brick.
- ii. Stone. Natural stone such as, but not limited to, granite, limestone, and marble are allowed building materials. Terra cotta and/or cast stone, which simulate natural stone, are also acceptable. Painted stone is prohibited.
- iii. Split-face block/concrete masonry unit (CMU) is restricted to 50 percent of the surface area of each side of a principal building.
- iv. Stucco is restricted to 50 percent of the surface area of each side of a building.
- v. Glass and glass block.
- vi. Exposed concrete block, painted concrete block, metal, tilt/up and pre-cast concrete are prohibited materials for any exterior wall.
- d. Restrictions on the use of metal building materials shall not apply to entry doors and/or roll-up doors.
- e. Calculation of ratios of building materials.

The amount of permitted material shall be calculated using the gross square footage of wall area for each elevation (side) of the building. See example below.

For example, a building has a side elevation with a gross wall surface area of 1,200 square feet with 400 square feet consisting of windows and doors. Begin with 1,200 square feet for required building material calculations. A wall area of 1,200 square feet shall have no more than 600 square feet of stucco on the front façade [e.g. (1,200 X 50% = 600)]. The balance shall be brick or other allowed material.

3. *Roof materials.* Materials for pitched roofs shall be limited to architectural grade composition shingles, natural slate, natural terra cotta, natural wood shake, or factory finished metal with standing seams.

(Res. of 3-22-07, § 1; Res. of 8-9-07, § 1; Res. of 5-26-22(1), § 2)

The construction materials will be compliant to the "17.420.050.H.2. - Building Materials".

17.420.060. Signs.

The following signs shall be permitted for office, institutional, commercial, industrial and non-residential use, in addition to other signs permitted for these uses in Chapter 17.270 of the Zoning Regulations.

- 1. Monument signs.
- a. One ground mounted, monument sign shall be permitted on each lot, except that in the case of a corner lot, the provisions of this section shall apply separately to each street frontage.

(Supp. No. 74)

However, no sign on a corner lot shall be closer than 50 feet from the lot corner, defined by the lot lines extended.

i.

The sign structure shall be constructed of the same materials that are used in the facade of the principal building.

ii.

Dimensional standards for monument signs are set forth in the table below:

Maximum Monument Sign Dimensions for Non-Residential Uses

Gross floor area of buildings	Maximum sign area	Maximum sign height
0—10,000 sq. ft.	32 sq. ft. (each side)	8 ft. above street grade
10,001—50,000 sq. ft.	48 sq. ft. (each side)	8 ft. above street grade
50,001—100,000 sq. ft.	64 sq. ft. (each side)	10 ft. above street grade
Over 100,000 sq. ft.	96 sq. ft. (each side)	12 ft. above street grade

The proposed sign will be compliant to the "17.420.060. – Signs".

2. Pole signs. Pole signs are prohibited.

The proposed sign will be compliant to the "17.420.060. – Signs".

- 3. Wall signs and marquee signs. One wall sign or marquee sign shall be permitted for each building or for each tenant in a multi-tenant building. The maximum sign area shall be 64 square feet per building, or one square foot per linear foot of storefront, whichever is greater. Wall signs and marquee signs are only permitted on the side of a building that includes the primary public entrance. A tenant that has less than 16 lineal feet of storefront shall be a permitted a wall sign or marquee sign with a maximum area of 16 square feet.
- 4. *Master plan for signs in multi-tenant developments.* For all multi-tenant buildings or developments, a coordinated program of wall signs shall be developed and approved by the county at the time of site plan approval. The signage master plan shall specific the sign type, design, height, colors, illumination, and other specifications to give a coordinated appearance to the building or development. The county's review and approval of the signage master plan shall be based on the compatibility of the proposed signage with the siting and architecture of the subject building or development and the compatibility of the signage with surrounding land uses. (Res. of 3-22-07, § 1; Res. of 8-9-07, § 1)

17.420.070. Appeals and modifications.

- A. Procedures for appeals.
- 1. It is the intent of the board of commissioners that all development shall conform to the standards and procedures set forth in this chapter. In the event that the intent of this chapter can be achieved with

minor deviations that do not substantially impair the purpose or intent of this chapter, the Hall County Planning Director has the authority to modify the specific provisions to allow for such minor deviations.

- If substantial modifications or changes are necessary, any person, firm, group or organization may apply for relief from the requirements set forth in this chapter to the Hall County Planning Commission, unless otherwise specified in this chapter.
- 3. Appeals from requirements set forth in this chapter can be heard by the planning commission as provided in Chapter 17.360 of the Hall County Zoning Regulations.

(Res. of 3-22-07, § 1; Res. of 8-9-07, § 1)

17.420.080. Definitions.

[The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:]

Cross-access drive: A drive created for the purpose of providing vehicular or pedestrian access between properties.

Cross-access easement: A private covenant or easement between owners of abutting properties that allows driveways for public access by vehicles and pedestrians connecting two or more properties having different owners.

Diameter at breast height (DBH): A standard measure of the diameter of a tree trunk measured in inches at a height of four and one-half feet above the ground. If a tree splits into multiple trunks below four and one-half feet, then the trunk is measured at its most narrow point beneath the split. Externally mounted neon signs.

Drive-through window: An opening in the outside wall of a commercial building or structure intended to be used to provide for sales and/or service to patrons who remain in their vehicles.

Facade: The exterior side of a building that faces, and is most nearly parallel to, a public street. The facade includes the entire area of a building, extending from the roof or parapet to the ground, and from one corner of the building to another. Buildings generally have one facade for each street frontage.

Joint access driveway: A driveway that provides direct vehicular access to two or more abutting properties from a public street.

Modulation: The rhythmic variation in the massing and architectural treatments of a building that divides its roofline and facade into small harmonious components that create visual interest, as distinct from the appearance of a large building with a featureless facade built on a single plane with a single roof line. Modulations of a facade should break the vertical plane with variations that are at least two feet in depth, measured from the forward plane of the facade.

Sign area: That portion of the surface of a sign structure where words, letters, figures, symbols, logos, fixtures, colors, or other design elements are or may be located in order to convey the message, idea, or intent for which the sign has been erected or placed. The sign face may be composed of two or more modules on the same surface that are separated or surrounded by open space or by portions of a sign structure not intended to contain any advertising message or idea and are purely structural or decorative in nature.

Sign, automatic changeable copy: A sign on which the copy changes automatically on a lamp bank or through mechanical means, e.g., electrical or electronic time and temperature units. Copy shall mean words and numbers.

Sign, internally illuminated: Any sign that is illuminated by an artificial light source from within the sign structure over any or all of its sign face.

Sign, pole: A sign that is mounted on a freestanding pole, columns, or similar support such that the bottom of the sign face or lowest sign module is not in contact with the ground.

Storefront: That elevation of a commercial building having a single tenant (or that portion of the elevation of a multi-tenant building that is occupied by a single establishment) and that contains the principal public entry to the establishment.

Transitional buffer: An area of natural vegetation or manmade construction, which is intended to provide a visual and dimensional separation between dissimilar land uses.

Vehicle sales lot: An open premises arranged, designed, or used for outdoor storage and display for sale or lease of automobiles, vans, trucks, motorcycles, lawnmowers, sports utility vehicles, recreational vehicles, all terrain vehicles, trailers, boats, manufactured homes, mobile homes, outdoor storage structures, tractors, fork lifts, construction equipment, or other similar vehicles or structures, but not including plant nurseries, building materials or lawn and garden supplies.

EXHIBIT "A"

LEGAL DESCRIPTION

4159 Cleveland Highway

All that tract or parcel of land lying and heing in Land Lot 26 of the 12th Land District of Hall County, Georgia and being all of Lots 8 and 9 of the J.N. Rogers Subdivision as shown by plat recorded in Plat Book 90, Page 88 of the Hall County, Georgia Plat Records and more fully described on a plat by Dwight Kilby, Georgia Registered Land Surveyor, dated October 28, 2004 entitled "Survey for Stan C Bennett and Charlie Lathem".

BEGINNING at an iron pin located on the Western right-o- way of U.S. Highway 129 which iron pin is located at the Northeast corner of Lot 9 of said subdivision and also located 521.26 feet South of the intersection of U.S. Highway 129 and the centerline of Humer Road as measured along the Western right-of-way of U.S. Highway 129; thence in a Southerly direction along the Western right-of-way of U.S. Highway 129 the following courses and distances.

South 18º 42' 09" East 78.42 feet;

South 73° 14' 32" West 13.14 feet;

South 18" 43' 39" East 105.17 feet;

North 70° 44' 02" East 12.97 teel; South 18° 49' 25" East 226 74 feet to a concrete right-of-way monument;

thence leaving the Western right-of-way of U.S. Highway 129 South 71° 20' 28"

West 537.00 feet to an iron pin;

thence North 23" 53' 02" West 407.30 feet to an iron pin; thence North 70° 58' 37" East 573.45 feet to an non pin on the Western right-ofway of U.S. Highway 129 which is the POINT OF BEGINNING

Please find Environmental Health comments below:

Item 1, 5342 Robin Trail, Zhen: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system. An existing system evaluation/site visit will be required for Environmental Health to process the building permit application.

Item 2A/B, 3416 Gaines Mill Road, Perez: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 3, 4163 Cleveland Hwy, Carrillo: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan.

Item 4, 6539 Ransom Free Road, Cash: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation may be required after review of business plan. A Food Service permit/plan review may be required after review of business plan.

Item 5, 0 Dorsey Drive, Phillips: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 6, 2522 Lee Land Road, Bell: No comment. Public sewer.

Item 7, 5111 Old Winder Hwy, Gilliam: No comment. Public sewer.

Item 8, 5079 Old Winder Hwy, Gilliam: No comment. Public sewer.

Items 9 and 10: No comment.

Zoning Item for Comment*

4163 Cleveland Highway | Use Subject to County Commission Approval Select from the list below which zoning item you would like to register a comment on. Items are listed in the order in which they appear on the agenda.

Your Comments*

I oppose car dealership and service center.

It will join my property which has been small farm in my family for a hundred years. The location is not designed to handle the commercial properties with only one access point on Hwy 129. The U-turn in front of my driveway is very dangerous with all the traffic doing U-turns. There has to be another property with better access to put the car lot.

PLANNING AND DEVELOPMENT DEPARTMENT 2875 BROWNS BRIDGE ROAD, GAINESVILLE, GA, 30504 MAILING ADDRESS: PO BOX 1435, GAINESVILLE. GA 30503 t: 770-531-6809 I f: 770-531-3902

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN <u>OCT 06, 2024</u> ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

Executive Summary:

Presenter: Recommendation:

Approve, with conditions

1. The property shall be developed in accordance with the site plan revision dated May 14, 2024, and amended as described in the projective narrative dated September 20, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

ΒG

- 2. The previously approved conditions dated June 21, 2023, as amended shall apply:
 - a. The non-residential development shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances are granted from these standards.
 - b. All outdoor lighting on the premises shall be full cut-off downlight.
 - c. All parking and storage areas shall be paved with either asphalt or concrete.
 - d. Plans for any further improvements or development of the property shall be submitted for review and appropriate permits obtained.
 - e. All conditions of zoning shall be made part of any plats created for the property.
 - f. The development shall have a minimum 6 foot high decorative steel fencing with stone or brick columns spaced no less than every 50 feet along all right-of-ways of New Bethany Road and Old Lanier Island Drive. All other fencing shall be a minimum 6 foot high black vinyl link fence and shall be installed along all other property lines.
 - g. Hours of operation shall be from 5 am to 10 pm for boat storage and repair.
 - h. The applicant shall install a 4 to 5 foot high landscaped berm with decorative fencing.
- 3. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.
- 4. The submitted typical building elevation dated March 30, 2023, shall be allowed as depicted with final review and approval subject to the Planning and Zoning Director, or their designee.

Excerpts from the minutes of the November 18, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Eric Johansen, 3938 Oak Crossing Drive, Suwanee, presented the request. The applicant is requesting to amend conditions of approval on a 1.86± acre tract, currently zoned Planned Industrial Development (PID, 17.180.090) to allow for the expansion of boat and camper storage areas. The subject property was originally rezoned from Highway Business (H-B, 17.150) to Planned Industrial Development (PID, 17.180.090) on June 21, 2023, for a boat and RV storage facility including boat sales and repairs, with 10 conditions. The property falls within the Gateway Corridors Overlay District (GCOD).

Public Forum:

Johnny Brogdon, 6510 New Bethany Road, Buford spoke in opposition due to the concern of visibility to neighboring properties. Mr. Braswell explained the conditions of zoning include decorative fencing and landscaping, and pointed out the existing boat storage facility adjacent to the subject property which is located closer to Mr. Brogdon's residence.

<u>Motion:</u> A motion to approve with conditions was made by Gina Pilcher and seconded by Stan Hunt. Vote: 5-0

Conditions:

- 1. The property shall be developed in accordance with the site plan revision dated May 14, 2024, and amended as described in the projective narrative dated September 20, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated June 21, 2023, as amended shall apply:

- a. The non-residential development shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances are granted from these standards.
- b. All outdoor lighting on the premises shall be full cut-off downlight.
- c. All parking and storage areas shall be paved with either asphalt or concrete.
- d. Plans for any further improvements or development of the property shall be submitted for review and appropriate permits obtained.
- e. All conditions of zoning shall be made part of any plats created for the property.
- f. The development shall have a minimum 6 foot high decorative steel fencing with stone or brick columns spaced no less than every 50 feet along all right-ofways of New Bethany Road and Old Lanier Island Drive. All other fencing shall be a minimum 6 foot high black vinyl link fence and shall be installed along all other property lines.
- g. Hours of operation shall be from 5 am to 10 pm for boat storage and repair.
- h. The applicant shall install a 4 to 5 foot high landscaped berm with decorative fencing.
- 3. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.
- 4. The submitted typical building elevation dated March 30, 2023, shall be allowed as depicted with final review and approval subject to the Planning and Zoning Director, or their designee.

Staff recommends <u>APPROVAL</u> of the applicant's request, with the following conditions:

- 1. The property shall be developed in accordance with the site plan revision dated May 14, 2024, and amended as described in the projective narrative dated September 20, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated June 21, 2023, as amended shall apply:
 - a. The non-residential development shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances are granted from these standards.
 - b. All outdoor lighting on the premises shall be full cut-off downlight.
 - c. All parking and storage areas shall be paved with either asphalt or concrete.
 - d. Plans for any further improvements or development of the property shall be submitted for review and appropriate permits obtained.
 - e. All conditions of zoning shall be made part of any plats created for the property.
 - f. The development shall have a minimum 6 foot high decorative steel fencing with stone or brick columns spaced no less than every 50 feet along all right-of-ways of New Bethany Road and Old Lanier Island Drive. All other fencing shall be a minimum 6 foot high black vinyl link fence and shall be installed along all other property lines.

- g. Hours of operation shall be from 5 am to 10 pm for boat storage and repair.
- h. The applicant shall install a 4 to 5 foot high landscaped berm with decorative fencing.
- 3. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.

Summary Analysis

The applicant is requesting to amend conditions of approval on a 1.86± acre tract, currently zoned Planned Industrial Development (PID, 17.180.090) to allow for the expansion of boat and camper storage areas.

The subject property was originally rezoned from Highway Business (H-B, 17.150) to Planned Industrial Development (PID, 17.180.090) on June 21, 2023, for a boat and RV storage facility, including boat sales and repairs, with the following 10 conditions:

- 1. The request to rezone the property to Light Industrial (I-I, 17.160) is denied and shall be rezoned to Planned Industrial Development (PIC, 17.180.090) instead.
- 2. The development shall generally occur as depicted on the site plans dated May 11, 2023 and described in the narrative, modified for compliance with zoning conditions and Hall County regulations. No variances are granted as part of this request.
- 3. The non-residential development shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances are granted from these standards.
- 4. All outdoor lighting on the premises shall be full cut-off downlight.
- 5. All parking and storage areas shall be paved with either asphalt or concrete.
- 6. Plans for any further improvements or development of the property shall be submitted for review and appropriate permits obtained.
- 7. All conditions of zoning shall be made part of any plats created for the property.
- 8. The development shall have a minimum 6 foot high decorative steel fencing with stone or brick columns spaced no less than every 50 feet along all right-of-ways of New Bethany Road and Old Lanier Island Drive. All other fencing shall be a minimum 6 foot high black vinyl link fence and shall be installed along all other property lines.
- 9. Hours of operation shall be from 5 am to 10 pm for boat storage and repair.
- 10. The applicant shall install a 4 to 5 foot high landscaped berm with decorative fencing.

The property is currently undeveloped. A land disturbance permit application is currently under review, however, approval of the LDP is dependent on the decision by the county commission of this zoning request (HDEV23-0073).

Per the submitted narrative, the applicant is requesting to amend the previously approved site plan to eliminate one building designated for boat repair and office space and include two additional buildings that would be used for boat and camper storage. The submitted site plan shows a total of 4 buildings, with a combined total of 15,610 square feet and a combined total of 43 storage units and 6 designated customer parking spaces.

Water will be provided by the City of Gainesville. Septic services are not included in the development at this time.

The table below compares the current site plan with the original site plan approved in 2023:

Structure	Original Approval - 2023	Amendment Request - 2024
Storage Buildings	2 storage buildings with a combined total of 11 storage units	4 storage buildings with a combined total of 43 storage units
Office Space	3 office spaces	0
Boat Repair Space	3 boat repair spaces	0
Parking	29 parking spaces with 2 designated handicap parking spaces	6 parking spaces with 0 designated handicap parking spaces

Zoning Analysis

Per Planning Commission and Hall County Commission consideration and decision (17.380.060), the board shall study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry shall be considered:

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use, development and zoning of adjacent and nearby property; The requested use is consistent with the previous approval for the Planned Industrial Development on June 21, 2023.
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; No, it is not anticipated that the proposed amendment will adversely affect adjacent properties.
- 3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; **Yes, the property has reasonable economic use as currently zoned.**
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; **If approved, the amendment of conditions is not anticipated to cause an excessive or burdensome use of existing infrastructure.**
- 5. Whether the zoning proposal is in conformity with the policy and intent of the future land use plan for the physical development of the area; The zoning designation has been established by previous board action with the original approval of the development. The requested modification does not significantly impact the designated future land use of the area.
- 6. The extent to which property values are diminished by the existing zoning restrictions; **Staff is** unable to determine the extent to which property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; **Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact**

property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.

- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- 9. The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The subject property is currently undeveloped; however, a Land Disturbance Permit is under review (HDEV23-0073) and approval is dependent on this request to amend the conditions of zoning.
- 10. Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; Staff is not aware of any changing conditions affecting the use or development of the property.
- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The request is to amend conditions of an existing PID. Per the Official Code of Hall County, the Planned Development District (17.180) is to be utilized as a "floating zone" which shall mean that areas will not be pre-designated as planned development districts but rather each such designation shall result from a specific and separate application for amendment.
- 12. Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; There is no evidence that the present zoning district boundaries are illogically drawn.
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; **The request is not out of scale with the needs of the county as a whole.**
- 14. Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; The existing zoning of the subject site supports the proposed use; however, the proposal to amend the conditions requires approval by the Board of Commissioners.
- 15. Whether the need for rezoning could be handled instead by a variance request to the zoning board of adjustment; **The request could not be handled alternatively as a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.

17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

17.380.050. - Submission requirements

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in chapter 17.30 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirements, and the applicant understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 17.380.060.C of this section [chapter]. The proposal does provide a narrative outlining the intent of the request; however, the applicant has not prepared a response to each of the criteria listed in 17.380.060.C.
 - 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal meets this requirement.
- C. For any application for a slow rate land treatment system (see chapter 17.20), the following additional requirements apply. **This standard is not applicable to the applicant's request.**
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. **This standard is not applicable to the applicant's request.**

Development Support and Constraints

Hall County Environmental Health

In an email dated October 15, 2024, Emily McGahee stated, "Must meet all Environmental Health commercial septic system permitting requirements. Please be advised that Proposed Building 3 is shown over the septic system as shown in HDEV23-0073. An additional plan review fee will be assessed prior to review of proposed changes to the previously approved plan."

Hall County Fire Marshal

In an email dated October 16, 2024, John Hornick, NPQ Fire Service Plans Examiner 1, provided the following comment:

"The Hall County Fire Marshal's Office has no comments as proposed."

Hall County Public Works and Utilities

In a memorandum from Public Works and Utilities dated October 17, 2024, Bill Nash, Director of Public Works, provided the following comments:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Must follow all development requirements.

Traffic:

Driveway to meet traffic engineering requirements.

Utilities:

Hall County has no sanitary sewer in the area.

Georgia Department of Transportation

In an email dated October 17, 2024, Veronica Chavers, stated GDOT coordination is not required.

Re: Change in Zoning Conditions Hall Co. Parcel #: 07330 001006B 6515 New Bethany Road

To Hall County Board of Commissioners,

Please find attached an application for a Change in Zoning Conditions for Hall County Parcel #: 07330 001006B located at 6515 New Bethany Road. The subject parcel was rezoned to Planned Industrial Development (PID) in June of 2023 with a proposed use of Boat Repair and Sale and Boat and Camper Storage. Later in 2023 land development plans for the project were approved by Hall County. The purpose of this Application is to accommodate a proposed revision to the Site Plan referenced in Condition #2 of said Rezoning approval. The proposed revision would eliminate one building designated for Boat Repair and Office Space and would include two additional buildings designated for Boat and Camper Storage. Revised land development plans have already been submitted to Hall County for review. It was during the plan submittal process that we were informed that a Change in Zoning Conditions would be required to accommodate the proposed change.

This development is compatible with the surrounding development in the area as evidenced by the fact that there are five other boat storage facilities within one mile of the proposed development. The attached Site Plan depicts four Boat and Camper Storage Canopy structures together covering 22,540 sf of the site along with associated drive aisles and limited parking.

The existing development along this section of Lanier Islands Parkway consists of many businesses oriented toward boating and related activities due to the immediate proximity of the lake and numerous marinas. We feel that boat and camper storage facilities serve the broader outdoor recreation offerings along this corridor and are a natural component of the market that this highway corridor is currently serving as a gateway to Hall County's most prominent natural resource, Lake Sidney Lanier.

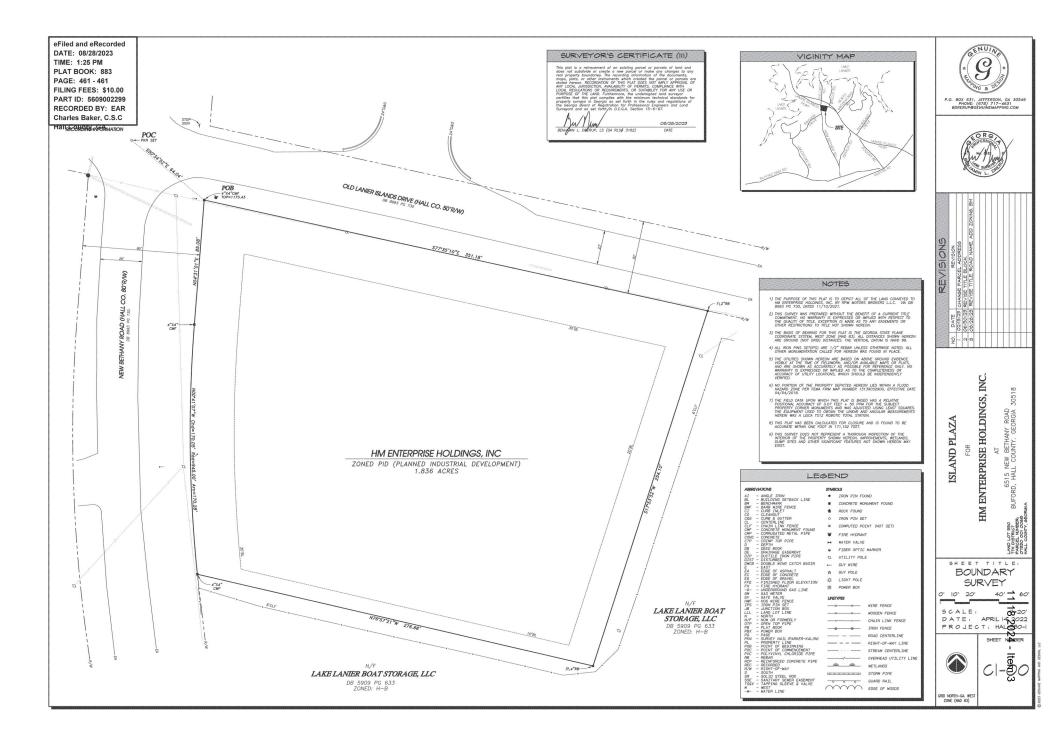

Attached to this application is a Site Plan detailing the proposed development outlined above along with a completed application and supplemental documentation. Please contact me with any questions or if you find anything missing from this submittal that would be helpful in your review of the application.

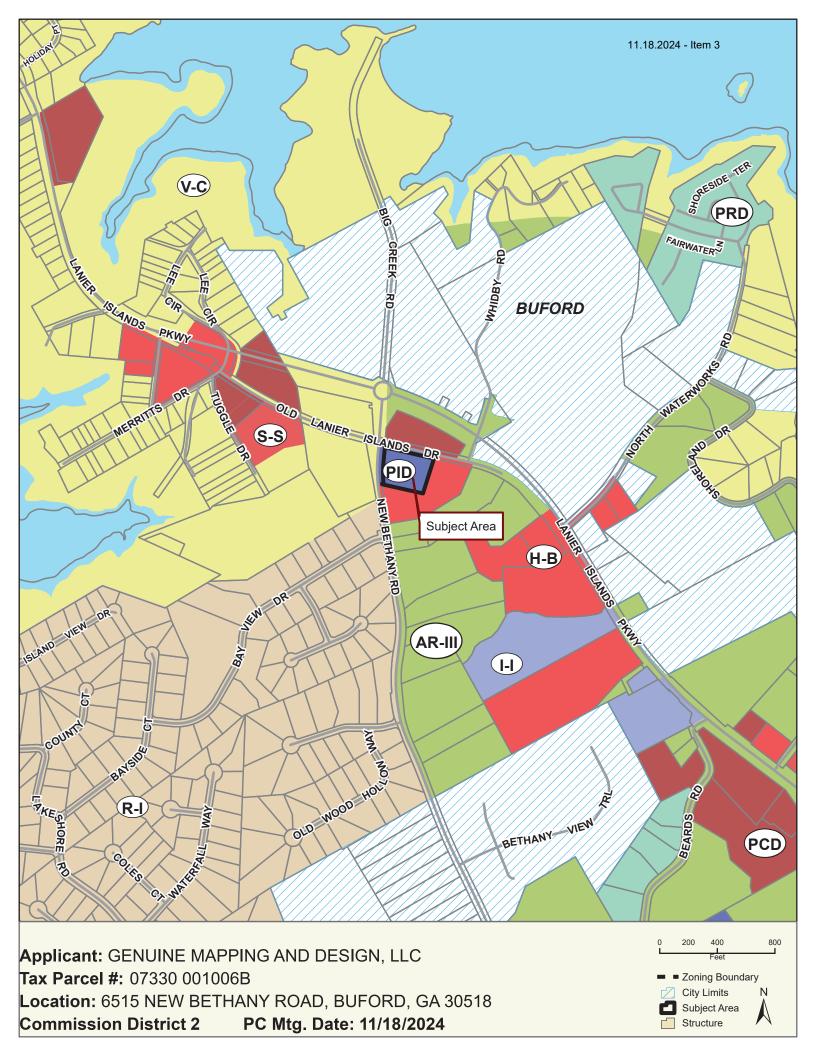

Sincerely.

CITY OF GAINESVILLE

WATER RESOURCES

March 7, 2023

Genuine Mapping & Design, LLC Attn: David Johnson 66 Washington St. Jefferson, GA 30549

Re: Water Availability Retail and Boat Storage Facility 6250 Lanier Islands Pkwy PIN: 07330 001006B

Mr. Johnson,

The purpose of this letter is to confirm the availability of water service to the above referenced property. The City of Gainesville owns and operates an existing 8-inch DIP water main in the right-of-way of Lanier Islands Parkway and New Bethany Church Road along the frontages of the subject property.

Currently, the City has adequate domestic water capacity to serve your proposed retail and boat storage facility.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford

Nick Swafford Permitting Services Manager

Genuine Mapping and Design Attn: David Johnson PO Box 631 Jefferson, GA 30549

RE: Application to Rezone - CORRECTED (see highlighted section)

Dear David Johnson,

Please be advised that in its Meeting on June 21, 2023, the Hall County Board of Commissioners voted to approve the following application with conditions.

6515 New Bethany Road | Rezone | from Highway-Business (H-B) to Light-Industrial (I-I) on a 1.86± acre tract located on the east side of New Bethany at its intersection with Old Lanier Islands Drive | Zoned H-B; Tax Parcel 07330 001006B | **Proposed use: Light Industrial |** Commission District 2 | **Genuine Mapping & Design, LLC, applicant.**

Conditions:

- The request to rezone the property to Light Industrial (I-I, 17.160) is denied and shall be rezoned to Planned Industrial Development (PID, 17.180.090) instead.
- The development shall generally occur as depicted on the site plans dated May 11, 2023 and described in the project narrative, modified for compliance with zoning conditions and Hall County regulations. No variances are granted as part of this request.
- 3. The non-residential development shall be subject to the standards of the Gateway Corridors Overlay District (GCOD, 17.420). No variances are granted from these standards.
- 4. Any outdoor lighting on the premises shall be full cut-off downlight.
- 5. All parking and storage areas shall be paved with either asphalt or concrete.
- 6. Plans for any further improvements or development of the property shall be submitted for review and appropriate permits obtained.
- 7. All conditions of zoning shall be made part of any plats created for the property.
- 8. The development shall have a minimum 6 foot high decorative steel fencing with stone or brick columns spaced no less than every 50 feet along all right-of-ways of New Bethany Road and Old Lanier Island Drive. All other fencing shall be a minimum 6 foot high black vinyl link fence and shall be installed along all other property lines.
- 9. Hours of operation shall be from 5 am to 10 pm for boat storage and repair.

Cc:	Kelly Hairston (Environmental Health); Chad Harper (Environmental Health)
Subject:	HCPC Tentative Agenda 11.18.24

Please find Environmental Health comments below:

Item 1, 4031 Brock Drive, Mandujano: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system.

Item 2, 6515 New Bethany Rd, Genuine Mapping: Must meet all Environmental Health commercial septic system permitting requirements. Please be advised that Proposed Building 3 is shown over the septic system as shown in HDEV23-0073. An additional plan review fee will be assessed prior to review of proposed changes to the previously approved plan.

Item 3, 4212 Roy Parks Rd, Clean Eagle RNG: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation may be required after review of business plan.

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THANOCT 07, 2024ANDNO LATER THANOCT 20, 2024

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN OCT 20, 2024 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

Excerpts from the minutes of the December 2, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Myles Montgomery, 7185 Shady Grove Road, Cumming, presented the request. The applicant is requesting to amend conditions on a 3.88± acre tract, currently zoned Office and Institutional District (O-I) to allow for uses permitted in O-I. The property is currently in the under construction for a surveyor's office, with an active land disturbance permit (LDP). The subject property was rezoned on May 11, 2006, from Agricultural Residential-IV (AR-IV) to Office and Institutional District (O-I) for the development of a physician's office with five conditions.

Public Forum:

There were no comments in support or opposition.

Planning Commission Comments:

Mr. Hunt asked for clarification on the dimensions of each level of the building. The applicant confirmed that it is a total of 15,000 square feet.

<u>Motion:</u> A motion to approve, with conditions was made by Frank Sosebee and seconded by Stan Hunt. Vote: (4-0, Johnny Varner Absent)

Conditions:

- 1. The property shall be developed in accordance with the site plan dated June 5, 2023, and narrative dated September 23, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated May 11, 2006, as amended shall apply:
 - a. Driveway design and placement are subject to approval by the Hall County
 - Engineering Department and the Georgia Department of Transportation.b. Any outdoor lighting on the premises shall be of non-spill type.
 - c. The vehicle parking areas shall be paved with either asphalt or concrete.
 - d. All conditions of zoning shall be made a part of any plat created for the property.
- 3. The following uses are to be prohibited:
 - a. Funeral homes
 - b. Mobile food establishments

Staff recommends <u>APPROVAL</u> of the applicant's request with the following conditions:

- 1. The property shall be developed in accordance with the site plan dated June 5, 2023, and narrative dated September 23, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated May 11, 2006, as amended shall apply:
 - a. Driveway design and placement are subject to approval by the Hall County Engineering Department and the Georgia Department of Transportation.
 - b. Any outdoor lighting on the premises shall be of non-spill type.
 - c. The vehicle parking areas shall be paved with either asphalt or concrete.
 - d. All conditions of zoning shall be made a part of any plat created for the property.

Summary Analysis

The applicant is requesting to amend conditions on a 3.88± acre tract, currently zoned Office and Institutional District (O-I) to allow for uses permitted in O-I. The property is currently in the process of being developed for a surveyor's office.

The subject property was rezoned on May 11, 2006, from Agricultural Residential-IV (AR-IV) to Office and Institutional District (O-I) for the development of a physician's office with the following 5 conditions:

- 1. The development of the site shall occur as generally described in the project narrative, modified as necessary for compliance with development standards in force at the time of site plan approval.
- 2. Driveway design and placement are subject to approval by the Hall County Engineering Department and the Georgia Department of Transportation.
- 3. Any outdoor lighting on the premises shall be of a non-spill type.
- 4. The vehicle parking areas shall be paved with either asphalt or concrete.
- 5. All conditions of zoning shall be made part of any plat created for the property.

A land disturbance permit (HDEV23-0063) was issued on March 21, 2023, and initial grading work has been conducted under this permit. Additionally, applications were submitted for the construction of a 15,000 square foot building (HCNEW24-0091, HCNEW24-0186 and HCNEW24-0187). During review of these applications, staff determined that the change of use from a physician's office and increased building square footage would require an amendment to the previously approved conditions.

Per the submitted narrative and site plan, the applicant is requesting to construct a two-story, 15,000 square foot building for professional office use. The 10,000 square foot main floor is to be used for professional office space. The 5,000 square foot lower level is intended to be used for document or office storage.

The submitted site plan shows 55 parking spaces with 3 designated for ADA parking, as well as a 10 foot landscape strip along the frontage on Thompsons Mill Road. Submitted elevations show a variety of brick on the front, side and rear facades of the building.

Zoning Analysis

Per Planning Commission and Hall County Commission consideration and decision (11.2.6.F), the board shall study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry shall be considered:

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property; The requested use is to expand permitted uses to include uses within the Office and Institutional District (O-I).
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property No, it is not anticipated that the proposed amendment will adversely affect adjacent properties.
- 3. Whether the property to be affected by the zoning proposal has reasonable economic use as currently zoned. Yes, the property has reasonable economic use as currently zoned Office and Institutional District (O-I).
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; **If approved, the amendment of conditions is not anticipated to cause an excessive or burdensome use of the existing infrastructure.**
- 5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan; The zoning designation has been established by previous board action with the original approval of the development. The requested modification does not affect the designated future land use of the area.
- 6. The extent to which property values are diminished by the existing zoning restrictions; **Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.**
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.
- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The property is currently in the process of being developed. A land disturbance permit (HDEV23-0063) was issued on March 21, 2023 and initial grading has begun under this permit.

- 10. Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; Staff is not aware of any changing conditions affecting the use or development of the property.
- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The request is to amend zoning conditions of an existing Office and Institutional District (O-I). No changes to the zoning are proposed.
- 12. Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; **The request is not out of scale with the needs of the county as a whole.**
- 14. Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; The existing zoning of the subject site supports the proposed use; however, the proposal to amend the conditions requires approval by the Board of Commissioners.
- 15. Whether the need for rezoning could; be handled instead by a variance request to the Planning Commission; **The request could not be handled as a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.
- 17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

Based on the future land use plan, staff finds the requested zoning designation *is consistent* with the Hall County Comprehensive Plan future land use designation of Business Nodes and Corridors. Business Nodes & Corridors are anticipated to include higher-intensity commercial uses, low-intensity, consumer-facing industrial uses that house businesses that serve nearby communities, and with some higher density residential, where appropriate. Site designs should use the Quality Development Principals discussed within the comprehensive plan, particularly natural resource protections and high quality landscape installations, to the fullest extent possible. Retail activities, office-based employment, and civic uses. Low impact industrial or higher-density residential only should exist where the same is found on adjacent properties.

11.2.6.E - Submission requirements

A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in Table 11.21.1 to cover administrative and advertising costs, in the planning department office. Such person or

persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement. The applicant has paid the appropriate fees understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.

- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - 1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 11.2.6.E. The proposal does provide a narrative outlining amendment of conditions requested.
 - 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal meets this requirement. The applicant has provided a site plan and included much of the necessary information to properly assess the development. However, information about adjacent parcels is limited.
- C. For any application for a slow rate land treatment system (see section 11.2.E.2.c), the following additional requirements apply. **This standard is not applicable to the applicant's request.**
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. This standard is not applicable to the applicant's request.

Development Support and Constraints

Hall County Environmental Health

In an email dated October 24, 2024, Emily McGahee stated "No comment. Public sewer."

Hall County Fire Marshal

In an email dated October 30, 2024, John Hornick, NPQ Fire Inspector 1, Plans Review Lieutenant stated, "The Hall County Fire Marshal's Office has no comments as proposed."

Hall County Public Works and Utilities

In a memo dated November 1, 2024, Bill Nash, Director of Public Works and Utilities, provided the following comments:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffer and impervious setback from wrested vegetation not centerline of stream.

Traffic:

No comment

Utilities – (Updated Email November 8, 2024)

Site is located in the Braselton Sewer Service Territory. However, there is no sewer infrastructure available to the site and this site already has an approved permit for development with an onsite treatment system

Georgia Department of Transportation

In an email dated October 29, 2024, Veronica Chavers, D1TO Civil Engineer III, stated that GDOT coordination is not required.

Ms. Kristie Turner Principal Planner Hall County Community Development and Infrastructure

> Re: Amendment to Conditional Use for project MSF Partners, LLC (HCNEW24-0187) 2323 Thompson Mill Rd Land Lot 41, 15th District Hall County, Georgia

Dear Ms. Turner:

We are requesting an amendment in the previously approved conditional uses:

- Allow for Professional Office Use
- Allow for 10,000 sf main level building footprint with an additional 5,000 sf basement. Total square footage of 15,000 sf.

Type/Reasons for Amendment Requested:

This tract was originally zoned for medical office use and a 5,000 sf building. The new proposed professional office use (Surveyors Office) and total building square footage will not require the need for any other variances or etc. Professional office is an allowable use under the O-I zoning. Any business signage will be permitted separately. No spill lighting proposed. Site will be served by public water and on-site septic. All buffers required under original rezoning will remain in place.

Sincerely,

Myles Montgomery Civilscapes, Inc.

MSF PARTNERS, LLC

LIMITED LIABILITY COMPANY OPERATING AGREEMENT --MEMBER-MANAGED

OPERATING AGREEMENT OF MSF PARTNERS, LLC

THIS OPERATING AGREEMENT (this "Agreement") of MSF Partners, LLC (the "Company"), effective as of May 20, 2021, is made by Michael Martin, Byron Freeman and Jeff Simmons, as the only members of the Company (the "Members").

BACKGROUND

The Company was initially formed as a limited liability company under the Georgia Limited Liability Company Act (the "Georgia Act") by filing Articles of Organization dated May 20, 2021. The Members desire to enter into this Agreement to govern the operations of the Company.

THE AGREEMENT

NOW, THEREFORE, the Members and the Company agree as follows:

1. FORMATION.

Effective with the filing of the Articles of Organization and issuance of the Certificate of Organization ("Certificate"), the Company constituted a limited liability company formed pursuant to the Georgia Act and other applicable laws of the State of Georgia. The Members shall, when required, file such amendments to or restatements of the Certificate, in such public offices in the State of Georgia or elsewhere as the Members deem advisable to give effect to the provisions of this Agreement and the Certificate, and to preserve the character of the Company as a limited liability company.

2. <u>NAME; PLACE OF BUSINESS; REGISTERED OFFICE AND AGENT.</u>

The Company shall be conducted under the name of "MSF Partners, LLC" or such other name as the Members shall hereafter designate. The principal office and place of business shall be located at 5039 B U Bowman Drive, Suite 400, Buford, GA 30518-5870. The initial registered office of the Company is located at 4430 Elvie Way, Hoschton, GA 30548. The registered agent for service of process at the registered office of the Company shall be Michael Martin.

3. <u>PURPOSE</u>.

The purpose of the Company is to engage in any lawful activity; to exercise all powers necessary to or reasonably connected with the Company's business which may be legally exercised by limited liability companies under the Act; and to engage in all activities necessary, customary, convenient, or incident to such purpose.

4. <u>TITLE TO COMPANY PROPERTY</u>.

All property shall be owned by the Company and, insofar as permitted by applicable law, the Members shall have no ownership interest in the property. An ownership interest in the Company shall be personal property for all purposes.

5. <u>MANAGEMENT OF THE COMPANY</u>.

5.1 <u>Management</u>. The business and affairs of the Company shall be managed by its Members. Except as provided by applicable law and this Agreement, Members shall have full and complete authority, power and discretion to manage and control the business, affairs and properties of the Company, to make all decisions regarding those matters and to perform any and all other acts or activities customary or incident to the management of the Company's business.

5.2 <u>Duties of Members</u>. The Members shall devote to the Company such time as may be necessary for the proper performance of all duties of such Members under this Agreement, but no Member shall be required to devote full time to the performance of such duties and may have other business interests or engage in other business activities. Neither the Company nor any Member shall have any right, by virtue of this Agreement, to share or participate in other investments or activities of any other Member. No Member shall incur liability to the Company or to the other Member as a result of engaging in any other business or venture whether or not competitive with that of the Company. The provisions of Section 14-11-302 (Conflicting Interest Transactions) shall not apply to the actions of the Members of the Company so long as any such Member is otherwise acting in compliance with this Agreement.

5.3 <u>Manner of Acting</u>. Generally, each Member shall be an agent of the Company for the carrying out of its business and purposes. Each Member is authorized by the Company and by the other Member to act individually at his own discretion on behalf of the Company except with respect to those matters set forth below in this Section 5.3 (the "Major Decisions"). No failure of the Members to observe company formalities in the management of the Company's affairs, other than a failure to obtain the necessary approvals in connection with Major Decisions, shall invalidate any act of any Member, acting individually or collectively, that is otherwise in accordance with this Agreement. Notwithstanding anything to the contrary herein, the following matters will require the approval of the Members (such matters being collectively referred to as the "Major Decisions") as indicated:

(a) Admission of an additional Member (requires a unanimous approval of the Members);

(b) Calls for capital contributions in excess of those required by Section 8.1 (requires a unanimous approval of the Members);

(c) Voluntary dissolution of the Company (requires a unanimous approval of the Members);

(d) Distributions to the Members (requires a unanimous approval of the Members);

(e) Tax elections by the Company or changing the tax classification of the Company (requires a unanimous approval of the Members);

(f) Amendments to this Operating Agreement (requires a unanimous approval of the Members);

(g) Borrowing money from banks, other lending institutions, any Member, or any affiliate of any Member, or loaning to another person or entity any funds of the Company, or the hypothecating, encumbering and granting of security interests in and conveyance of security title to the assets of the Company to secure repayment of the borrowed sums. (requires a unanimous approval of the Members);

(h) Acquisition or disposition of any interest in real property by the Company (requires a unanimous approval of the Members);

(i) Any sale, lease, mortgaging, pledge or other disposition of substantially all the assets of the Company in a single transaction or series of related transactions (requires a unanimous approval of the Members);

(j) Any merger, conversion, or reorganization involving the Company (including any transaction comparable to a spin off, split-up or split-off)(requires a unanimous approval of the Members);

(k) Any capital expenditure of the Company in excess of \$1,000 (requires a majority of the Members approve the expenditure), or any capital expenditure in excess of \$10,000 (requires a unanimous approval of the Members);

5.4 <u>Liability of the Members</u>. As long as a Member shall act in good faith with respect to the conduct of the business and affairs of the Company, no such Member shall be liable to the Company or to any other Member, in damages or otherwise, for any error of judgment, for any mistake of fact or of law, or for any other act or thing which such Member may do or refrain from doing in connection with the business and affairs of the Company, except in the case of gross negligence, willful misconduct, fraud or bad faith.

6. **<u>INDEMNIFICATION OF MEMBERS</u>**.

6.1 <u>Generally</u>.

(a) The Company, its receiver or its trustee shall indemnify, save harmless, and pay all judgments and claims against the Members relating to any liability or damage incurred by reason of any act performed or omitted to be performed by such Members in connection with the business of the Company, including attorneys' fees incurred by such Members in connection with the defense of any action based on any such act or omission, which attorneys' fees may be paid as incurred, including all such liabilities under federal and state securities laws (including the Securities Act of 1933, as amended), as permitted by law.

(b) The Company shall indemnify, save harmless, and pay all expenses, costs, or liabilities of any Members who for the benefit of the Company make any deposit, acquire any option, or make any other similar payment or assume any obligation in connection with any property proposed to be acquired by the Company and who suffer any financial loss as the result of such action.

(c) A Member shall not be entitled to indemnification under this Section 6.1 if the conduct of such Member constitutes bad faith, gross negligence or willful or wanton misconduct. For purposes of this Agreement, any act or omission, if done or omitted to be done in reliance, in whole or in part, upon the advice of independent legal counsel or independent certified public accountants selected with reasonable care, will be presumed to have been done or omitted to be done in good faith and not to constitute gross negligence or willful or wanton misconduct.

6.2 <u>Insurance</u>. The Company may purchase and maintain insurance on behalf of any one or more indemnitees under Section 6.1 and such other persons as the Members shall determine against any liability which may be asserted against or expense which may be incurred by such person in connection with the Company's activities, whether or not the Company would have the power to indemnify such person against such liability or expense under the provisions of this Agreement. The Members and the Company may enter into indemnity contracts with indemnitees and adopt written procedures pursuant to which arrangements are made for the advancement of expenses and the funding of obligations under this Section 6.2 and containing such other procedures regarding indemnification as are appropriate.

7. <u>LIMITATION ON MEMBERS' LIABILITIES.</u>

The Members' liability shall be limited as set forth in this Agreement, the Georgia Act and other applicable law. The Members shall not be bound by, or be personally liable for, the expenses, liabilities or obligations of the Company, except as provided by the Georgia Act.

8. <u>CAPITAL CONTRIBUTIONS; LOANS</u>.

8.1 <u>Members' Capital Contributions</u>. Each Member' capital contribution as of the date of this Agreement is set forth on <u>Exhibit A</u>. No Member shall be required to make additional Capital Contributions.

8.2 <u>Priority and Return of Capital</u>.

(a) Except as otherwise specifically set forth in this Agreement, no Member shall have the right to demand or receive property other than cash in return for a Capital Contribution or as a distribution pursuant to Section 10, nor shall such Member have priority over any other Member, either as to the return of Capital Contributions or as to any distributions pursuant to Section 10, except as otherwise specifically set forth in Section 10.1 hereof.

(b) The Members have no personal liability for the repayment of any Capital Contribution of any other Member.

8.3 <u>Negative Capital Accounts</u>. No Member is obligated to restore a negative balance in such Member's Capital Account.

8.4 Loans. The Members may lend money to the Company as approved by the Members. If a Member lends money to the Company pursuant to this Section, the amount of any such loan is not an increase in the Member's Capital Contribution or Membership Interest, nor does it entitle the Member to any increase in the share of distributions of the Company, nor subject the Member to any greater proportion of the Losses that the Company may sustain. The amount of any such loan shall be a debt due from the Company to the Member, at such rates and on such terms as determined reasonable by the Members.

9. <u>ALLOCATIONS OF PROFIT AND LOSS</u>.

Except as otherwise provided in the Code, any Profits or Losses recognized by the Company in any fiscal year or other period must be allocated among Members in proportion to their Membership Interests and in accordance with the Regulations.

10. <u>DISTRIBUTIONS</u>.

10.1 <u>Net Income</u>. Subject to the discretion of and approval by the Members (see Section 5.3(d)) and except as provided in Section 12.2 relating to the liquidation of the Company, any Net Income (as reduced by Reserves) of the Company generated during any year may be distributed annually, or at such other times as determined by the Members, to the Members in proportion to their Membership Interests.

10.2 <u>Distribution Among Members</u>. If any Membership Interest is sold, assigned or transferred during any accounting period, all distributions on or before the date of such transfer will be made to the transferor, and all distributions after such date will be made to the transferee.

10.3 <u>Amounts Withheld</u>. All amounts withheld pursuant to the Code or any provision of any state or local tax law with respect to any payment or distribution to Members will be treated as amounts distributed to Members pursuant to this Section 10 for all purposes of this Agreement.

10.4 <u>Proceeds Available Upon Dissolution</u>. Upon the dissolution and winding up of the Company, subject to (a) the requirements of Section 12.2, (b) the payment of all liabilities of the Company, including any debts owed to a Member, and (c) the establishment of such Reserves as the Members reasonably deem necessary for any contingent or unforeseen liabilities or obligations, the proceeds from such liquidation will be distributed, as expeditiously as possible, to Members in proportion to the positive balances in their Capital Accounts.

10.5 <u>In Kind Distributions</u>. If any assets of the Company are distributed in kind, such assets will be distributed to Members entitled to such distribution as tenants-incommon in the same proportions as such Members would have been entitled to cash distributions. 10.6 <u>Limitation Upon Distributions</u>. No distribution shall be made to Members if prohibited by the Georgia Act.

11. <u>BOOKS AND RECORDS</u>.

11.1 <u>Availability</u>. At all times during the existence of the Company, the Members shall keep or cause to be kept complete and accurate books and records appropriate and adequate for the Company's business. Such books and records, whether financial, operational or otherwise and including a copy of this Agreement and any amendments, shall at all times be maintained at the principal place of business of the Company. Any Member or such Member's duly authorized representative shall have the right at any time, for any purpose reasonably related to such Member's ownership interest, to inspect and copy from such books and documents during normal business hours.

11.2 <u>Tax Returns</u>. The Members shall cause an accountant to prepare all tax returns which the Company is required to file, if any, and shall file with the appropriate taxing authorities all such returns in a manner required for the Company to be in compliance with any law governing the timely filing of such returns.

11.3 <u>Depositories</u>. The Members shall maintain or cause to be maintained one or more accounts for the Company in such depositories as the Members shall select. All receipts of the Company from whatever source received (but no funds not belonging to the Company) shall be deposited to such accounts, and all expenses of the Company shall be paid from such accounts.

12. <u>DISSOLUTION</u>.

12.1 <u>Events Causing Dissolution</u>. The Company shall be dissolved and its affairs wound up upon the earlier of the following to occur:

- (a) The written agreement of all of the Members to dissolve the Company; or
- (b) A decree of judicial dissolution.

Notwithstanding the provisions of O.C.G.A. § 14-11-602(b)(4), the Company shall not dissolve upon an event of disassociation with respect to the last remaining Member, but instead the legal successor to such Member shall automatically become a Member of the Company with all the rights appurtenant thereto in accordance with O.C.G.A. § 14-11-506.

12.2 <u>Liquidation of Property and Application of Proceeds</u>. Upon the dissolution of the Company, the Members (or, if none, a liquidator appointed by the Personal Representatives of the deceased Members) will wind up the Company's affairs in accordance with the Georgia Act, and will be authorized to take any and all actions contemplated by the Georgia Act as permissible, including, without limitation:

(a) prosecuting and defending suits, whether civil, criminal, or administrative;

(b) settling and closing the Company's business, causing the Company's accountants to prepare a final financial statement, and making adjustments among Members with respect to distributions under Article 10 based upon such financial statement;

(c) liquidating and reducing to cash the Property as promptly as is consistent with obtaining its fair value;

- and
- (d) discharging or making reasonable provision for the Company's liabilities;

(e) distributing the proceeds of liquidation and any undisposed Property to the Members in accordance with Section 10.4.

13. <u>BUY-SELL OPTION</u>.

13.1 <u>Manner of Offer</u>. Any Member (the "Offeror") at any time may offer to any other Member (the "Offeree") both to sell his Membership Interest or to buy all of the Offeree's Membership Interest. Such offer must be in writing and must contain the following:

(a) A statement of intention to make an offer under this Section 13;

(b) A statement of the Offeror's determination of the value of each percentage of Membership Interest subject to the offer, which must be identical for each Membership Interest;

(c) A statement that a condition to any purchase pursuant to the offer shall be the absolute and unconditional indemnity by the purchaser of the seller against any loss, claim or damage that the seller may suffer arising out of any guarantee by the seller of any debt of the Company for borrowed money;

(d) A statement that the purchase price for the Membership Interest subject to the offer shall be payable in cash at closing; and

(e) A statement that such offer is both an offer to sell all the Membership Interests owned by the Offeror and an offer to purchase all the Membership Interests owned by the Offeree.

13.2 <u>Term of Offer</u>. The Offeror's offer shall be irrevocable for forty-five (45) days (the "Option Period"), and the Offeree may, on or before the expiration of the Option Period, accept either the offer to sell or the offer to buy.

13.3 <u>Manner of Acceptance</u>.

(a) <u>The Offeree Elects to Accept the Offer to Buy</u>. If, during the Option Period, the Offeree elects to accept the Offeror's offer to buy, the Offeror must buy, and the Offeree must sell to the Offeror, all of the Membership Interest owned by such selling Offeree.

(b) <u>The Offeree Elects to Accept the Offer to Sell</u>. If, during the Option Period, the Offeree elects to accept the Offeror's offer to sell, the Offeror must sell all of his Membership Interest, and the Offeree must buy from the Offeror the Offeror's Membership Interest.

(c) <u>The Offeree Fails To Accept Either Offer</u>. If, during the Option Period, the Offeree does not accept either of the Offeror's offers to sell or to buy, the Offeror shall have the right, exercisable on or before the tenth (10th) day after the expiration of the Option Period, to buy all of the Membership Interests of the non-responding Offeree (but not less than all of such interests), and if the Offeror exercises such right, the non-responding Offeree shall be required to sell its Membership Interest to the Offeror, in accordance with the terms of the offer and the provisions of this Section 13.

13.4 <u>Closing</u>. The Closing of any purchase or sale pursuant to this Section 13 shall be held at the time and place and on the date specified by written notice by the buyer(s) to the seller(s) (the "Buy-Sell Closing Date"), which date shall be within sixty (60) days after the end of the Option Period. In the discretion of the Members, all undistributed Net Income as of the Buy-Sell Closing Date, if any, shall be distributed to the Members in accordance with the applicable provisions of Article 10 within thirty (30) days after the Buy-Sell Closing Date. The specified purchase price shall be paid by the buyer(s) in immediately available funds at the Buy-Sell Closing Date, and the seller(s) shall execute, seal, and deliver for and on their behalf, all documents that may be necessary or appropriate, in the reasonable opinion of counsel to the buyer(s), to effect such sale free and clear of all liens and encumbrances.

13.5 <u>Specific Performance</u>. The Members acknowledge and agree that monetary damages to compensate a Member for any breach of this Section 13 would be inadequate. Accordingly, this Section 13 shall be enforceable by action of specific performance and other appropriate equitable relief.

14. **<u>RESTRICTION ON TRANSFER.</u>**

No Member may transfer, sell, pledge or otherwise dispose of all or any portion of his Membership Interest without the prior written consent of the other Members, or pursuant to Section 13.

15. <u>AMENDMENT</u>.

This Agreement may only be amended by the Members in writing.

16. <u>DEFINITIONS</u>.

As used in this Agreement, the following terms shall have the following meanings:

"Capital Account" means with respect to any Member, the Capital Account maintained for such Member in accordance with the Code. The maintenance of Capital Accounts hereunder is intended to comply with Regulations Section 1.704-1(b), and shall be interpreted and applied in a manner consistent with such Regulations. The Members are empowered to make modifications to the manner in which Capital Accounts are computed if it is determined that such

adjustments are necessary in order to comply with such Regulations, provided that such adjustments are not likely to have a material effect on the amounts distributable to a Member hereunder upon the dissolution of the Company in accordance with Section 13.

"Capital Contributions" means with respect to any Member, the amount of money and the initial gross asset value of any property (other than money) contributed to the Company with respect to the Membership Interest held by such Member.

"Code" means the United States Internal Revenue Code of 1986, as amended.

"Gross Revenues" means, with respect to the Company, for any period, all revenues, income, earnings, or cash flow of any kind or description received during such period by or on behalf of the Company.

"**Members**" means collectively, each of the parties who signs a counterpart of this Agreement as a Member, and each of the parties who may hereafter become Members. "Member" means any of the Members.

"Membership Interest" means a Member's entire interest in the Company, including such Member's share of the Company's Profits, Losses and distributions pursuant to this Agreement and the Georgia Act, the right to participate in the management of the business and affairs of the Company, and the right to vote on, consent to, or otherwise participate in any decision or action of or by the Members granted pursuant to this Agreement or the Georgia Act. Each Member's membership interest in the Company is expressed on <u>Exhibit A</u> to this Agreement as a percentage of the aggregate of 100% of Membership Interests. To the extent the Members' Membership Interests changes and Members are added or withdraw, such changes will be reflected in the Company's books and records without the requirement of amending this Agreement.

"Net Income" means, for any period, Gross Revenues for such period minus Operating Expenses for such period.

"**Operating Expenses**" means, with respect to the Company for any period, all costs and expenses paid or incurred during such period by the Company in the ordinary course of its business, together with amounts used to replenish and fund the Reserves.

"**Personal Representative**" means the Person acting in a representative capacity as the executor or administrator of a Member's estate or the duly appointed guardian of the property of a Member.

"**Profits**" and "Losses" means, for each fiscal year or other period, an amount equal to the Company's taxable income or loss for such year or period, determined in accordance with Code Section 703(a) (for this purpose, all items of income, gain, loss or deduction required to be stated separately pursuant to Code Section 703(a)(1) shall be included in taxable income or loss), with the following adjustments:

(a) Any income of the Company that is exempt from federal income tax and not otherwise taken into account in computing Profits or Losses pursuant to this definition shall be added to such taxable income or loss;

(b) Any expenditures of the Company described in Code Section 705(a)(2)(B) or treated as Code Section 705(a)(2)(B) expenditures pursuant to Regulations Section 1.704-1(b)(2)(iv)(i), and not otherwise taken into account in computing Profits or Losses pursuant to this definition, shall be subtracted from such taxable income or loss;

(c) In the event the gross asset value of any Company asset is adjusted, the amount of such adjustment shall be taken into account as gain or loss from the disposition of such asset for purposes of computing Profits or Losses;

(d) Gain or loss resulting from any disposition of Company property with respect to which gain or loss is recognized for federal income tax purposes shall be computed by reference to the gross asset value of the Company property disposed of, notwithstanding that the adjusted tax basis of such property differs from its gross asset value;

(e) In lieu of the depreciation, amortization, and other cost recovery deductions taken into account in computing such taxable income or loss, there shall be taken into account depreciation for such fiscal year or other period; and

(f) Notwithstanding any other provision of this definition, any items which are specially allocated pursuant to the Code shall not be taken into account in computing Profits or Losses.

"**Regulations**" means the Income Tax Regulations, including Temporary Regulations, promulgated under the Code, as such Regulations may be amended (including corresponding provisions of succeeding regulations).

"Reserves" means, with respect to any period, the amount of funds set aside, or amounts allocated during such period, for (a) funding reserves for contingent liabilities, working capital, repairs, replacements, renewals, (b) paying taxes, insurance, debt service, or other costs or expenses incident to the ownership or operation of the Company, and (c) any other purposes deemed by the Members necessary or appropriate to meet the current or anticipated future needs of the Company.

MISCELLANEOUS.

16.2 <u>Notices</u>. All notices, demands, requests, consents or other communications required or permitted to be given or made under this Agreement must be in writing and signed by the party giving the same and are deemed given or made (a) two (2) days after being mailed by certified or registered mail, postage prepaid, (b) when transmitted via facsimile, graphic scanning or other telegraphic communication, (c) when hand delivered, or (d) one (1) day after being sent by overnight delivery service, in each case to the intended recipient as indicated on <u>Exhibit A</u> to this Agreement or to any other address of which prior written notice has been given.

16.3 <u>Severability</u>. In the event of the invalidity of any provision of this Agreement, such provision is deemed stricken from this Agreement, which will continue in full force and effect as if the offending provision were never a part of this Agreement.

16.4 <u>Captions</u>. Captions contained in this Agreement are inserted only as a matter of convenience and for reference and in no way define, limit, extend or prescribe the scope of this Agreement or the intent of any provision.

16.5 <u>Person and Gender</u>. The masculine gender includes the feminine and neuter genders and the singular includes the plural.

16.6 <u>Applicable Law</u>. Notwithstanding the place where this Agreement may be executed by any of the parties, the parties expressly agree that all the terms and provisions of this Agreement are construed under and governed by the laws of the State of Georgia.

16.7 <u>Entire Agreement</u>. This Agreement, together with its Exhibit, constitutes the entire agreement of the parties with respect to matters set forth in this Agreement and supersedes any prior understanding or agreement, oral or written, with respect to such matters.

16.8 <u>Agreement in Counterparts</u>. This Agreement may be executed in several counterparts and all so executed constitute one Agreement, binding on all the parties, notwithstanding that all the parties are not signatories to the original or the same counterpart. A facsimile or PDF of any originally executed document shall have the same force and effect as the orginally executed document.

[Signatures continued on following pages]

IN WITNESS WHEREOF, the Members hereby execute this Agreement as of the date first above written.

DEED TO SECURE DEBT

DATE AND PARTIES. The date of this Deed To Secure Debt (GA) (Security Instrument) is January 18, 2022. The parties and their addresses are:

GRANTOR:

MSF PARTNERS LLC A Georgia Limited Liability Company 5039 B U BOWMAN DRIVE SUITE 400 BUFORD, GA 30518-0000

GRANTEE (Lender): PEACH STATE BANK & TRUST Organized and existing under the laws of Georgia P.O. BOX 290 GAINESVILLE, GA 30503

1. DEFINITIONS. For the purposes of this document, the following term has the following meaning.

A. Loan. "Loan" refers to this transaction generally, including obligations and duties arising from the terms of all documents prepared or submitted for this transaction.

2. CONVEYANCE. For good and valuable consideration, the receipt and sufficiency of which is acknowledged, and to secure the Secured Debts and Grantor's performance under this Security Instrument, Grantor does hereby irrevocably grant, bargain, transfer, convey and sell to Lender, with power of sale, the following described property:

AS DESCRIBED IN EXHIBIT 'A' ATTACHED HERETO, AND BY REFERENCE MADE APART HEREOF.

The property is located in HALL County at 2323 THOMPSON MILL RD, BUFORD, Georgia 30519.

MSF PARTNERS LLC Georgia Deed To Secure Debt (GA) GA/4XXXXXXXX0000000002577039N

Wolters Kluwer Financial Services [©]1996, 2022 Bankers Systems™

Together with all rights, easements, appurtenances, royalties, mineral rights, oil and gas rights, crops, timber including timber to be cut now or at any time in the future, all diversion payments or third party payments made to crop producers, all water and riparian rights, wells, ditches, reservoirs and water stock and all existing and future improvements, structures, fixtures, and replacements that may now, or at any time in the future, be part of the real estate described (all referred to as Property). This Security Instrument will remain in effect until the Secured Debts and all underlying agreements have been terminated in writing by Lender.

3. MAXIMUM OBLIGATION LIMIT. The total principal amount secured by this Security Instrument is unlimited. Any limitation of amount does not include interest and other fees and charges validly made pursuant to this Security Instrument. Also, this limitation does not apply to advances made under the terms of this Security Instrument to protect Lender's security and to perform any of the covenants contained in this Security Instrument.

4. SECURED DEBTS. The term "Secured Debts" includes and this Security Instrument will secure each of the following:

A. Specific Debts. The following debts and all extensions, renewals, refinancings, modifications and replacements. A promissory note or other agreement, No. 1001109900, dated January 18, 2022, from Grantor to Lender, with a loan amount of three hundred and eighty thousand dollars and zero cents (\$380,000.00) and maturing on January 20, 2023. Grantor and Lender agree, by this affirmative statement pursuant to O.C.G.A. § 44-14-80, to establish a perpetual or indefinite security interest in the Property conveyed to secure the Secured Debts.

B. All Debts. All present and future debts from Grantor to Lender, even if this Security Instrument is not specifically referenced, or if the future debt is unrelated to or of a different type than this debt. If more than one person signs this Security Instrument, each agrees that it will secure debts incurred either individually or with others who may not sign this Security Instrument. Nothing in this Security Instrument constitutes a commitment to make additional or future loans or advances. Any such commitment must be in writing. This Security Instrument will not secure any debt for which a non-possessory, non-purchase money security interest is created in "household goods" in connection with a "consumer loan," as those terms are defined by federal law governing unfair and deceptive credit practices. This Security Instrument will not secure any debt for which a security interest is created in "margin stock" and Lender does not obtain a "statement of purpose," as defined and required by federal law governing securities. This Security Instrument will not secure any other debt if Lender, with respect to that other debt, fails to fulfill any necessary requirements or fails to conform to any limitations of the Truth in Lending Act (Regulation Z) or the Real Estate Settlement Procedures Act (Regulation X) that are required for loans secured by the Property.

C. Sums Advanced. All sums advanced and expenses incurred by Lender under the terms of this Security Instrument.

5. **PAYMENTS.** Grantor agrees that all payments under the Secured Debts will be paid when due and in accordance with the terms of the Secured Debts and this Security Instrument.

6. WARRANTY OF TITLE. Grantor warrants that Grantor is or will be lawfully seized of the estate conveyed by this Security Instrument and has the right to irrevocably grant, bargain, transfer, convey and sell the Property to Lender, with power of sale. Grantor also warrants that the Property is unencumbered, except for encumbrances of record.

7. PRIOR SECURITY INTERESTS. With regard to any other mortgage, deed of trust, deed to secure debt, security agreement or other lien document that created a prior security interest or encumbrance on the Property, Grantor agrees:

- A. To make all payments when due and to perform or comply with all covenants.
- **B.** To promptly deliver to Lender any notices that Grantor receives from the holder.

MSF PARTNERS LLC Georgia Deed To Secure Debt (GA) GA/4XXXXXXXX0000000002577039N

Wolters Kluwer Financial Services [©]1996, 2022 Bankers Systems™

Property that become worn or obsolete, provided that such personal property is replaced with other personal property at least equal in value to the replaced personal property, free from any title retention device, security agreement or other encumbrance. Such replacement of personal property will be deemed subject to the security interest created by this Security Instrument. Grantor will not partition or subdivide the Property without Lender's prior written consent.

Lender or Lender's agents may, at Lender's option, enter the Property at any reasonable time and frequency for the purpose of inspecting, valuating, or appraising the Property. Lender will give Grantor notice at the time of or before an on-site inspection, valuation, or appraisal for on-going due diligence or otherwise specifying a reasonable purpose. Any inspection, valuation or appraisal of the Property will be entirely for Lender's benefit and Grantor will in no way rely on Lender's inspection, valuation or appraisal for its own purpose, except as otherwise provided by law.

13. AUTHORITY TO PERFORM. If Grantor fails to perform any duty or any of the covenants contained in this Security Instrument, Lender may, without notice, perform or cause them to be performed. Grantor appoints Lender as attorney in fact to sign Grantor's name or pay any amount necessary for performance. Lender's right to perform for Grantor will not create an obligation to perform, and Lender's failure to perform will not preclude Lender from exercising any of Lender's other rights under the law or this Security Instrument. If any construction on the Property is discontinued or not carried on in a reasonable manner, Lender may take all steps necessary to protect Lender's security interest in the Property, including completion of the construction.

14. ASSIGNMENT OF LEASES AND RENTS. Grantor irrevocably assigns, grants, bargains, transfers, conveys to Lender as additional security all the right, title and interest in the following (Property).

A. Existing or future leases, subleases, licenses, guaranties and any other written or verbal agreements for the use and occupancy of the Property, including but not limited to any extensions, renewals, modifications or replacements (Leases).

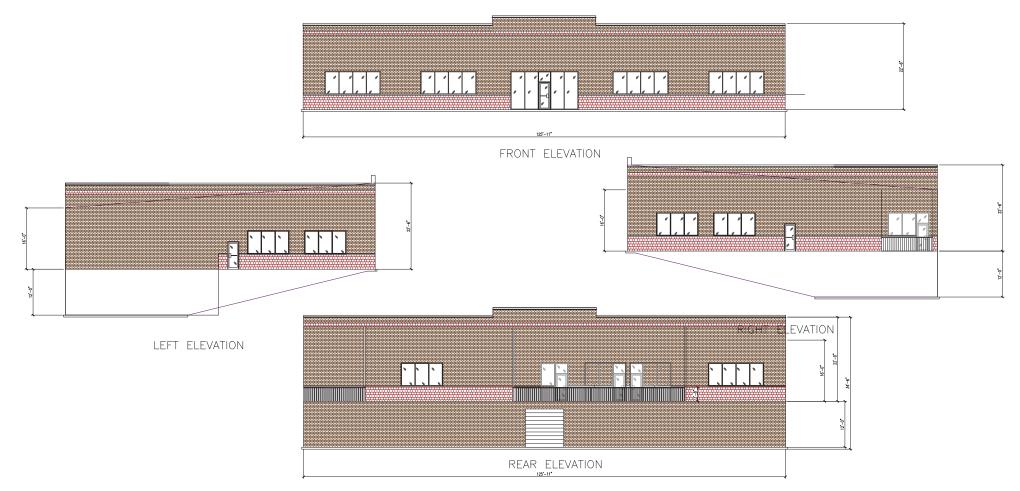

B. Rents, issues and profits, including but not limited to security deposits, minimum rents, percentage rents, additional rents, common area maintenance charges, parking charges, real estate taxes, other applicable taxes, insurance premium contributions, liquidated damages following default, cancellation premiums, "loss of rents" insurance, guest receipts, revenues, royalties, proceeds, bonuses, accounts, contract rights, general intangibles, and all rights and claims which Grantor may have that in any way pertain to or are on account of the use or occupancy of the whole or any part of the Property (Rents).

In the event any item listed as Leases or Rents is determined to be personal property, this Assignment will also be regarded as a security agreement. Grantor will promptly provide Lender with copies of the Leases and will certify these Leases are true and correct copies. The existing Leases will be provided on execution of the Assignment, and all future Leases and any other information with respect to these Leases will be provided immediately after they are executed. Grantor may collect, receive, enjoy and use the Rents so long as Grantor is not in default. Grantor will not collect in advance any Rents due in future lease periods, unless Grantor first obtains Lender's written consent. Upon default, Grantor will receive any Rents in trust for Lender and Grantor will not commingle the Rents with any other funds. When Lender so directs, Grantor will endorse and deliver any payments of Rents from the Property to Lender. Amounts collected will be applied at Lender's discretion to the Secured Debts, the costs of managing, protecting, valuating, appraising and preserving the Property, and other necessary expenses. Grantor agrees that this Security Instrument is immediately effective between Grantor and Lender and effective as to third parties on the recording of this Assignment. As long as this Assignment is in effect, Grantor warrants and represents that no default exists under the Leases, and the parties subject to the Leases have not violated any applicable law on leases, licenses and landlords and tenants. Grantor, at its sole cost and expense, will keep, observe and perform, and require all other parties to the Leases to comply with the Leases and any applicable law. If Grantor or any party to the Lease defaults or fails to observe any applicable law, Grantor will promptly notify Lender. If Grantor neglects or refuses to enforce compliance with the terms of the Leases, then Lender may, at Lender's option, enforce compliance. Grantor will not sublet, modify, extend, cancel, or otherwise alter the Leases, or accept the surrender of the Property covered by the Leases (unless the Leases so require) without

12.2.2024 - Item 7

HALL COUNTY GOVERNMENT BOARD OF COMMISSIONERS

May 16, 2006

Dr. Norvin Ona Mrs. Leslie Ona 2529 Ivy Plantation Drive Buford, GA 30519

Dear Dr. & Mrs. Ona:

Please be advised that in its meeting of May 11, 2006, the Hall County Board of Commissioners voted to approve with conditions, your application to rezone from AR-IV to O-I, a $3.67\pm$ acre tract located on the northwest side of Thompsons Mill Road $300\pm$ ft. northeast of its intersection with White Rock Dr.; a.k.a. 2323 Thompsons Mill Road; Tax Parcel 15041 000003C. Proposed Use: Physicians office, Commission District 1.

The following conditions apply:

- 1. The development of the site shall occur as generally described in the project narrative, modified as necessary for compliance with development standards in force at the time of site plan approval.
- 2. Driveway design and placement are subject to approval by the Hall County Engineering Department and the Georgia Department of Transportation.
- 3. Any outdoor lighting on the premises shall be of a non-spill type.
- 4. The vehicle parking areas shall be paved with either asphalt or concrete.
- 5. All conditions of zoning shall be made a part of any plat created for the property.

If you have any questions or concerns regarding the above, please contact me. Best regards.

Sincerely,

Suallwood

Michelle/Smallwood Commission Clerk

Items1A/B, 2017 Athens Hwy, Fast Lube Solutions: Please be advised that proposed truck parking is over the proposed septic system included in approved civil plan HDV2021-0094.

Item 2, 6000 Wellspring Trail, Barnes: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan. A Food Service permit/plan review may be required after review of business plan.

Item 3, 5552 Bogus Road, Barnes: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 4, 2323 Thompsons Mill Road, Civilscapes: No comment. Public sewer.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good Afternoon,

Here is the Tentative Agenda and Maps for the **Monday**, **December 2**, **2024** Hall County Planning Commission Meeting. Please use the links to review the documents and respond with comments to Hall County Planning and Development. Failure to provide comments in a timely manner may result in the information not being included in the staff report.

When submitting comments, please include the name of the applicant along with the address of the property with the corresponding comment.

Comments are due by <u>Thursday, October 31rd</u>. Email comments to Beth (<u>bgarmon@hallcounty.org</u>) and Kaitlyn (kelliott@hallcounty.org).

****PLEASE NOTE**:** All items listed under Old Business were tabled from previous agendas and have had no changes to their applications. Please let me know if you have any questions.

CALL TO ORDER

AGENDA REVIEW

APPROVAL OF MINUTES - November 18, 2024

OLD BUSINESS

 (A) 2017 Athens Highway | Rezone | from Agricultural Residential IV (AR-IV), Highway Business (H-B), and Residential II (R-II) to Highway Business (H-B) | on a 18.06± acre tract located on the north side of Athens Highway at its intersection with Athens Street | Zoned AR-IV, H-B & R-II; Tax Parcel 15032E002012A | Proposed Use: Truck terminal | ** Commission District 4 | Fast Lube Solutions, LLC c/o Kevin Herbert, applicant

(B) 2017 Athens Highway | Use Subject to Planning Commission Approval | 17.150.020 | on a 18.06± acre tract located on the north side of Athens Highway at its intersection with Athens Street | Zoned AR-IV, H-B & R-II; Tax

Parcel 15032E002012A | **Proposed Use: Truck terminal** | * Commission District 4 | **Fast Lube Solutions, LLC c/o Kevin Herbert, applicant**

- 2. 6000 Wellspring Trail | Amend Conditions of Zoning | on a 20.29± acre tract located at the terminus of Wellspring Trail | Zoned POD; Tax Parcel 12046 000001| Proposed Use: Expansion of services | ** Commission District 3 | Seth Barnes, applicant
- 3. 5552 Bogus Road | Rezone | from Planned Residential Development (PRD) & Agricultural Residential IV (AR-IV) to Planned Residential Development (PRD) | on a 13.81± acre tract located on the west side of Bogus Road approximately 420 feet from its intersection with Claude Peck Road | Zoned PRD & AR-IV; Tax Parcel 12051 000015 | Proposed Use: 15-lot residential development | ** Commission District 3 | Seth Barnes, applicant

NEW BUSINESS

4. 2323 Thompsons Mill Road | Amend Conditions of Zoning | on a 3.88± acre tract located on the west side of Thompson Mill Road approximately 351 feet from its intersection with White Rock Road | Zoned O-I; Tax Parcel 15041 000003C | Proposed Use: Uses permitted in O-I | ** Commission District 1 | Civilscapes Inc c/o Myles Montgomery, applicant No GDOT coordination required

Seems appropriate to change our comments.

I would now say "Site is in the Braselton Sewer service area. However, there is no sewer infrastructure available to the site and this site already has an approved permit for development with an onsite treatment system."

Thanks!

William (Bill) H. King III, P.E. **Assistant Public Works & Utility Director Hall County Community Development and Infrastructure** (office)770-531-6800 ext. 6799 (cell)770-329-0863

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN____OCT 24, 2024 ____AND NO LATER THAN____NOV 03, 2024 _____.

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN <u>NOV 03, 2024</u> ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT			
By my signature, I, Myles Montgomerg	, hereby acknowledge that I have		
read and understand the sign posting requirements. I further certify that the required			
public notice sign was posted on 10 29 24	for MSF Partners, LLC (Name application filed as)

AGENDA ITEM

Public Hearing to amend Hall County's Zoning Map as follows:

REPORT TO:	Work Session (01/06/25)
REPORT TO:	Voting Meeting (01/09/25)
ITEM NO:	701/2024
SUBJECT:	5111 Old Winder Highway Rezone from Agricultural Residential (AR- IV) to Planned Residential Development (PRD) on a 10± acre tract located on the east side of Old Winder Highway, approximately 2,051 feet from its intersection with Daylily Drive Zoned AR-IV, Tax Parcel 15038 000076 (pt.) Proposed Use: Addition of 38 townhomes to a PRD Commission District 1 Steven P. Gilliam, applicant

Meetings:

Work Session Date:	01/06/25	Voting Meeting Date:	01/09/25	
Executive Summary:				
Presenter: Recommendation:		BG		

- 1. Approval of the amended conditions is contingent upon the approval of the Special Use request of 5079 Old Winder Highway (HZCU24-0039).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 7. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 8. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- 9. There shall be a mandatory Homeowners' Association (HOA).
- 10. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 11. All roadways within the development shall be designated as private and shall be privately maintained by a Homeowners' Association (HOA). All roads shall be designed and constructed to Hall County standards.
- 12. The developer shall be responsible for all obtaining the necessary permits as well as all costs associated with the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway) per the traffic impact study recommendations.
- 13. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 14. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 15. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 16. All conditions of zoning shall be made a part of any plats or construction plans created for the property.
- 17. Buildings shall have no more than 6 units per building. Each building shall be staggered a minimum of 4 feet from the front setback of adjacent buildings.
- 18. The development shall be limited to 120 total townhome units.
- 19. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 20. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 21. The cluster mailbox unit shall have no less than 6 parking spaces.
- 22. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 23. One construction trailer is permitted, provided the conditions of the Hall County Unified Development Code are met.
- 24. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.
- 25. A 50 foot undisturbed buffer shall be maintained along the property line of tax parcel 15038 000010.
- 26. The developer shall install and maintain a 6 foot high privacy fence or a 6 foot high vinyl coated chain link fence adjacent to the required 50 foot undisturbed buffer. The fence shall be located along the interior edge of the undisturbed buffer.
- 27. The detention pond at the rear of the property shall be designed to avoid directing stormwater runoff towards tax parcel 15038 000010.

Purpose of Request:

5111 Old Winder Highway | Rezone | from Agricultural Residential (AR-IV) to Planned Residential Development (PRD) | on a 10± acre tract located on the east side of Old Winder Highway, approximately 2,051 feet from its intersection with Daylily Drive | Zoned AR-IV, Tax Parcel 15038 000076 (pt.) | Proposed Use: Addition of 38 townhomes to a PRD | Commission District 1 | Steven P. PLANNING AND ZONING

DIRECTOR

Beth Garmon

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

To: **Richard Higgins, Chairman** Kathy Cooper, District 1 Commissioner Billy Powell, District 2 Commissioner Gregg Poole, District 3 Commissioner Jeff Stowe, District 4 Commissioner From: Beth Garmon, Director of Planning & Zoning Date: December 23, 2024 Subject: 5111 Old Winder Highway | Rezone | from Agricultural Residential (AR-IV) to Planned Residential Development (PRD) | on a 10± acre tract | Zoned AR-IV, Tax Parcel 15038 000076 (pt.) | Proposed Use: Addition of 38 townhomes to a PRD | Steven P. Gilliam, applicant

The request before you is from Steven P. Gilliam to rezone from Agricultural Residential IV (AR-IV) to Planned Residential Development (PRD) for the addition of 38 townhomes to a previously-approved development. This item is located within Commission District 1.

At their December 2, 2024 meeting, the Hall County Planning Commission voted to recommend approval, with twenty-seven (27) conditions (4-0, Johnny Varner absent).

Staff recommendation: Approval, with conditions, as the proposed rezoning is consistent with the expansion of the adjacent Planned Residential Development (PRD) requirements.

There were **no comments submitted** in advance of the Planning Commission meeting and one (1) person spoke in opposition during the public hearing.

Planning Commission Conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the Special Use request of 5079 Old Winder Highway (HZCU24-0039).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.

- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 7. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 8. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- 9. There shall be a mandatory Homeowners' Association (HOA).
- 10. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 11. All roadways within the development shall be designated as private and shall be privately maintained by a Homeowners' Association (HOA). All roads shall be designed and constructed to Hall County standards.
- 12. The developer shall be responsible for all obtaining the necessary permits as well as all costs associated with the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway) per the traffic impact study recommendations.
- 13. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 14. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 15. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property:

"Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."

- 16. All conditions of zoning shall be made a part of any plats or construction plans created for the property.
- 17. Buildings shall have no more than 6 units per building. Each building shall be staggered a minimum of 4 feet from the front setback of adjacent buildings.
- 18. The development shall be limited to 120 total townhome units.
- 19. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 20. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 21. The cluster mailbox unit shall have no less than 6 parking spaces.
- 22. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 23. One construction trailer is permitted, provided the conditions of the Hall County Unified Development Code are met.
- 24. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.
- 25. A 50 foot undisturbed buffer shall be maintained along the property line of tax parcel 15038 000010.
- 26. The developer shall install and maintain a 6 foot high privacy fence or a 6 foot high vinyl coated chain link fence adjacent to the required 50 foot undisturbed buffer. The fence shall be located along the interior edge of the undisturbed buffer.
- 27. The detention pond at the rear of the property shall be designed to avoid directing stormwater runoff towards tax parcel 15038 000010.

HALL COUNTY PLANNING COMMISSION RECOMMENDATION REPORT

Applicant	Steven P. Gilliam
Request	Rezone from Agricultural Residential 1 (AR-1) – Previously AR-IV to Planned Residential Development (PRD)
Proposed Use	Addition of 38 townhomes to a PRD
Size	10.00± acres
Zoning	 Current Agricultural Residential -1 (AR-1) – Previously AR-IV Proposed Planned Residential Development (PRD)
Location	5111 Old Winder Highway Tax Parcels 15038 000076 (pt.)
Commission District	One
Planning Commission Date	December 2, 2024
Staff Recommendation	Approval, with conditions, as the proposed zoning district is consistent with the expansion of the adjacent Planned Residential Development (PRD, 17.180.060) requirements.
Record Number	HZON24-0030
Planning Commission Recommendations	Approval, with conditions

Vote: 4-0 (Johnny Varner absent)

Planning Commission Conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the Special Use request of 5079 Old Winder Highway (HZCU24-0039).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding

is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.

- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 7. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 8. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- 9. There shall be a mandatory Homeowners' Association (HOA).
- 10. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 11. All roadways within the development shall be designated as private and shall be privately maintained by a Homeowners' Association (HOA). All roads shall be designed and constructed to Hall County standards.
- 12. The developer shall be responsible for all obtaining the necessary permits as well as all costs associated with the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway) per the traffic impact study recommendations.
- 13. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 14. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 15. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 16. All conditions of zoning shall be made a part of any plats or construction plans created for the property.
- 17. Buildings shall have no more than 6 units per building. Each building shall be staggered a minimum of 4 feet from the front setback of adjacent buildings.
- 18. The development shall be limited to 120 total townhome units.
- 19. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 20. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 21. The cluster mailbox unit shall have no less than 6 parking spaces.
- 22. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.

- 23. One construction trailer is permitted, provided the conditions of the Hall County Unified Development Code are met.
- **24.** The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.
- **25.** A 50 foot undisturbed buffer shall be maintained along the property line of tax parcel 15038 000010.
- **26.** The developer shall install and maintain a 6 foot high privacy fence or a 6 foot high vinyl coated chain link fence adjacent to the required 50 foot undisturbed buffer. The fence shall be located along the interior edge of the undisturbed buffer.
- **27.** The detention pond at the rear of the property shall be designed to avoid directing stormwater runoff towards tax parcel 15038 000010.

Excerpts from the minutes of the December 2, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Steve Gilliam, 340 Jesse Jewell Parkway, Suite 300, Gainesville, presented the request. The applicant is requesting to rezone 10.00± acres of property zoned Agricultural Residential-1 (AR-1)/Previously AR-IV to Planned Residential Development (PRD) in order to add 38 townhomes to an existing Planned Residential Development (PRD) with a gross density of 4.00± units per acre. The development site consists of two parcels with a combined total of 30.02± acres. On July 11, 2024, the adjacent parcel (15038 000059) was approved for rezoning from Residential I (R-I) to Planned Residential Development (PRD) by the Hall County Commission on July 11, 2024, for an 82-unit townhome development (HZON24-0002) with an overall density of 4.10 dwelling units per acre subject to twenty-one conditions.

Public Forum:

Jill Cooper, 5125 Old Winder Highway, Braselton, spoke in opposition. Concerns raised were traffic, privacy, and the development's detention pond water runoff.

<u>Rebuttal</u>

The applicant addressed they would follow any improvements required after the traffic impact study.

Cameron Henderson, 4641 Quailwood Drive, Flowery Branch, explained that the topography will direct the water from the development's detention pond into the creek which is located on the property behind the subject development.

Planning Commission Comments:

Mr. Braswell questioned whether a 50 foot undisturbed buffer would be better suited between the development and Ms. Cooper's property. The applicant agreed. Mr. Sosebee asked if the applicant would be okay with installing a fence along Ms. Cooper's property line. The applicant said they would prefer farm fencing for the aesthetics but was open to the board's direction. The Planning Commission discussed with Mr. Henderson how the development's topography would impact stormwater runoff from the detention pond to the creek. Mr. Hunt asked if the sewer system would be gravity flow. The

applicant stated it will. Mr. Sosebee asked Ms. Cooper for her preference of fence style for the separation of the two properties. Ms. Cooper stated either chain-link or a solid privacy fence would be acceptable.

<u>Motion:</u> A motion to approve, with conditions was made by Frank Sosebee and seconded by Gina Pilcher. Vote: (4-0, Johnny Varner Absent)

Conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the Special Use request of 5079 Old Winder Highway (HZCU24-0039).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 7. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 8. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- 9. There shall be a mandatory Homeowners' Association (HOA).
- 10. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).

- 11. All roadways within the development shall be designated as private and shall be privately maintained by a Homeowners' Association (HOA). All roads shall be designed and constructed to Hall County standards.
- 12. The developer shall be responsible for all obtaining the necessary permits as well as all costs associated with the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway) per the traffic impact study recommendations.
- 13. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 14. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 15. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 16. All conditions of zoning shall be made a part of any plats or construction plans created for the property.
- 17. Buildings shall have no more than 6 units per building. Each building shall be staggered a minimum of 4 feet from the front setback of adjacent buildings.
- 18. The development shall be limited to 120 total townhome units.
- 19. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 20. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 21. The cluster mailbox unit shall have no less than 6 parking spaces.
- 22. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 23. One construction trailer is permitted, provided the conditions of the Hall County Unified Development Code are met.
- 24. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.

- 25. A 50 foot undisturbed buffer shall be maintained along the property line of tax parcel 15038 000010.
- 26. The developer shall install and maintain a 6 foot high privacy fence or a 6 foot high vinyl coated chain link fence adjacent to the required 50 foot undisturbed buffer. The fence shall be located along the interior edge of the undisturbed buffer.
- 27. The detention pond at the rear of the property shall be designed to avoid directing stormwater runoff towards tax parcel 15038 000010.

Staff recommends <u>APPROVAL</u> of the applicant's request with the following conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the Special Use request of 5079 Old Winder Highway (HZCU24-0039).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 7. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 8. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- 9. There shall be a mandatory Homeowners' Association (HOA).
- 10. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).

- 11. All roadways within the development shall be designated as private and shall be privately maintained by a Homeowners' Association (HOA). All roads shall be designed and constructed to Hall County standards.
- 12. The developer shall be responsible for all obtaining the necessary permits as well as all costs associated with the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway) per the traffic impact study recommendations.
- 13. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 14. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 15. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 16. All conditions of zoning shall be made a part of any plats or construction plans created for the property.
- 17. Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.
- 18. The development shall be limited to 120 total townhome units.
- 19. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 20. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 21. The cluster mailbox unit shall have no less than 6 parking spaces.
- 22. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 23. One construction trailer is permitted, provided the conditions of chapter 17.210 of the Zoning Code are met.

Summary Analysis

The applicant is requesting to rezone 10.00± acres of property zoned Agricultural Residential-1 (AR-1)/Previously AR-IV to Planned Residential Development (PRD) in order to add 38 townhomes to an existing Planned Residential Development (PRD) with a gross density of 4.00± units per acre. The development site consists of two parcels with a combined total of 30.02± acres. The applicant has a concurrent request for the adjacent parcel (15038 000059) to amend conditions of zoning to allow for the expansion of the PRD and the addition of 38 townhomes to a Planned Residential Development (HZCU24-0039).

On July 11, 2024, the adjacent parcel (15038 000059) was approved for rezoning from Residential I (R-I) to Planned Residential Development (PRD) by the Hall County Commission on July 11, 2024, for an 82unit townhome development (HZON24-0002) with an overall density of 4.10 dwelling units per acre subject to the following 21 conditions:

- 1. The property shall be developed in accordance with the site plan dated July 10, 2024, and described in the project narrative submitted on July 10, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of the site plan approval.
- 2. The development shall be limited to 82 townhome units.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Assistant Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. All residential driveways shall measure no less than 22 feet from the edge of right of way.
- 7. Garage door width shall not exceed 70% of the width of the front façade of the residence.
- 8. The development shall feature internal sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 9. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 10. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to Final Plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to Final Plat recording.
- 11. There shall be a mandatory Homeowner's Association (HOA).
- 12. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 13. All roadways within the development shall be designated and constructed to the Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.
- 14. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic study impact study, such as but not limited to the construction of a left and right turn lane on state route 211 (aka Old Winder Highway).

- 15. All stream buffers must be fully within the Homeowner's Association (HOA) common space and shall not be included on individual residential building lot.
- 16. There shall be 43 guest parking spaces provided as shown on the site plan dated July 10, 2024.
- 17. The cluster mailbox unit shall have no less than 5 parking spaces.
- 18. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 19. The following statement regarding potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 20. All conditions of zoning shall be made part of any plats or construction plans created for the property.
- 21. Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings

Per the submitted site plan and narrative, the dimensions of each townhome will be 24 feet wide and 50 feet in depth, with a minimum of 1,800 square feet of heated floor area per unit. Each townhome will include a front-entry two-car garage and a rear patio. The narrative indicates that the front entry garages will not exceed 70 percent of the townhome front façade. Two-car driveways will front each residence, measuring 16 feet wide and set back a minimum of 22 feet from the sidewalk.

The site plan provided by the applicant shows a single access point to serve the development from Old Winder Highway. Sidewalks measuring 5 feet in width are provided on both sides of the streets throughout the development to provide internal pedestrian connection. The site plan depicts open space to be 52% of the total site area.

Development	Original	Proposed Addition	Overall	
Standard	Approval	to the Development	Development	PRD Requirement
Site Area	20.02± acres	10.00± acres	30.02± acres	Complies
Number of	82 attached	38 attached	120 townhome	
Units	townhouse units	townhouse units	units	N/A
Density	4.10 U/A	3.80 U/A	4.00 U/A	N/A
Open Space	11.20 acres	4.40 acres	15.60 acres	Complies
Amenities	2 parks	2 parks	4 parks	Complies
Mail Kiosk	1 with 4 parking	2 additional parking	1 with 6 parking	
(CBU)	spaces	spaces	spaces	Complies
Guest Parking				
(Not including	43 parking	2 additional parking		
CBU parking)	spaces	spaces	45 parking spaces	Complies

The development standards for the project are described in the table below and are compared with the Planned Residential Development (PRD) requirements:

Stormwater	1 stormwater		2 stormwater	
Management	pond	1 stormwater pond	ponds	N/A
Minimum Lot				
Depth	100 feet	87 feet	87 feet	N/A
Temporary				
Sales Office	0	1	1	N/A
Construction				
Trailer	0	1	1	N/A

The applicant has proposed four separate park areas as amenities within the development. A cluster mailbox unit (CBU) will be installed in the center of the development with 6 parking spaces proposed. Parking standards require at least five short-term parking spaces designated for CBU users (6.1.6.10.d).

Per the submitted narrative, water service will be provided by City of Gainesville Department of Water Resources, and sanitary sewer services will be provided by Hall County Sewer. The availability of the water service was confirmed in a letter dated September 20, 2024. The availability of the sanitary sewer services was confirmed in a letter dated September 17, 2024. The letter also mentions the connection to the sewer tie-in is required to be performed by the developer at their cost. Hall County Public Works Department has provided comments stating that a stormwater management report may be required.

Based on the future land-use plan, staff finds the requested zoning designation <u>is consistent</u> with the Hall County Comprehensive Plan future land use designation of Regional Activity Nodes & Corridors. The intent of this character area is to include a combination of retail, office, civic, and residential uses that can contribute to a live-work-play environment. This range of development types may not always be at the same intensity across the county; new development needs to be scaled in the context of the area's infrastructure capacity. New development should also emphasize high-quality building and site design, including dedicated open/civic space, walkability, and a sense of place. Where there is residential development, a maximum density of up to 16 dwellings per acre may be permitted at the discretion of the BOC.

Zoning Analysis

When considering a zoning amendment to the zoning maps, the following items must be considered:

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property; The zoning proposal is consistent with the previous approval for the adjacent Planned Residential Development on July 11, 2024.
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; No, it is not anticipated that the proposed residential use will adversely affect adjacent properties.
- 3. Whether the property to be affected by the zoning proposal has reasonable economic use as currently zoned. The property has reasonable economic use as currently zoned, Agricultural Residential-1(AR-1) and is currently undeveloped.
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; **It is not anticipated that**

the proposed zoning use will result in an excessive or burdensome use of existing infrastructure. The proposal has received availability letters for both water and sewer to service this development.

- 5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan; The proposed use is not consistent with the Comprehensive Plan and the "Regional Activity Nodes & Corridors" land use designation, which envisions a maximum density of up to 16 dwelling unit per acre at the discretion of the Board of Commissioners. The proposed development has an overall density of 4.00± units per acre.
- 6. The extent to which property values are diminished by the existing zoning restrictions; Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.
- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- **9.** The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; **The property is currently undeveloped.**
- Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal;
 The adjacent parcel (Tax Parcel 15038 000059) was rezoned to Planned Residential Development (PRD) on July 11, 2024.
- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The proposed zoning is a Planned Residential Development (PRD). Per the Official Code of Hall County, Planned Development Districts the Planned Development District is to be utilized as a "floating zone" which shall mean that areas will not be pre-designated as planned development districts but rather each such designation shall result from a specific and separate application for amendment.
- Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; There is no evidence that the present zoning district boundaries are illogically drawn.
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; The use does not appear to be out of scale with the needs of the County as a whole, as there is a need for additional and varied housing.

- 14. Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; There are other properties within the County that support an attached, single-family residential use based on the Future Land Use Map. However, the development as proposed cannot be developed without rezoning.
- **15.** Whether the need for rezoning could be handled instead by a variance request to the [Planning Commission]; **The request could not be handled alternatively as a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result, are subject to local, state, and federal regulations. There should not be an ecological or pollution impact resulting from any modification to the land if the request is granted.
- 17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; There is no indication that a mistake was made in the original zoning.

A Planned Residential Development (PRD) allows for more flexibility in the design and development of the property. This provides for a mixture of housing types and encourages maximum use of natural features through proper site planning measures. The development should conform to the existing character and development pattern of the surrounding area.

11.2.6.E. - Submission requirements

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in Table 11.2.1 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - 1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 11.2.6.E.]. The proposal provides a narrative outlining the intent of the development.
 - 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the

planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal meets the requirement.

- C. For any application for a slow rate land treatment system (see section 11.2.6.E.2.c), the following additional requirements apply. The proposed development will utilize public water and sewer; as such, this is not applicable.
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. The applicant submitted a traffic study conducted by Southeastern Engineering, Inc. which recommended that both a left and right-turn lane be constructed on State Route 211 (aka Old Winder Highway).

Development Support and Constraints

Hall County Environmental Health

In an email dated October 3, 2024, Emily McGahee stated "No comment. Public sewer."

Hall County Fire Marshal

In an email dated October 4, 2024, John Hornick, NPQ Fire Inspector 1, Plans Review Lieutenant stated, "The Hall County Fire Marshal's Office has no comments as proposed."

Hall County Public Works and Utilities

In a memorandum from Public Works and Utilities dated October 3, 2024, Bill Nash, Director, stated the following:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffers and impervious setbacks from wrested vegetation not centerline of stream.

Traffic:

GDOT permit is required, on street parking is prohibited without a variance, and mail kiosk site does not meet Hall County Standards.

Utilities:

Off site easement required, system extension at developments expense.

Georgia Department of Transportation

In an email dated October 1, 2024, Veronica Chavers, D1TO Civil Engineer III, stated that GDOT coordination is required.

PLANNING AND DEVELOPMENT DEPARTMENT 2875 BROWNS BRIDGE ROAD, GAINESVILLE, GA, 30504 MAILING ADDRESS: PO BOX 1435, GAINESVILLE. GA 30503 t: 770-531-6809 I f: 770-531-3902

Date: August 26, 2024

To: Hall County Community Development & Infrastructure 2875 Browns Bridge Road Gainesville, Georgia 30504

Subject: Legal Capacity to Sign for Rezoning of Property

To whom this may concern:

My name is Seth Michael, the fulltime pulpit minister at the Chestnut Mountain Church of Christ located at 5111 Old Winder Highway, Braselton, GA 30517. Bart Jackson who signed the rezoning request is a member at this congregation and has the legal capacity to sign said document. If you have any questions, please do not hesitate to reach out to me as soon as possible as I do not want this matter to slow down the progress of selling the property to the buyer.

Project Narrative for

5111 Old Winder Highway – 10.00 Acres

LOCATION – 5111 Old Winder Highway (Hwy 211)

Braselton, GA 30517

APPLICANT - Steven P. Gilliam, Attorney

CURRENT ZONING - AR-IV

PROPOSED ZONING - PRD

ACRES – 10.0 Acres

SUMMARY

The accompanying Application seeks a Rezoning from AR-IV to PRD for 10.00 acres of undeveloped property located at 5111 Old Winder Highway in Braselton, Hall County. The intent is to develop 38 townhome units of quality, 24'wide traditional single-family fee simple townhomes with an amenity area and 52% open space, exclusive of storm water ponds. The proposed use is consistent with the Hall County Comprehensive Plan for residential use and appropriate for Hall County's Planned Residential Development (PRD) District for this location, which is residential and mixed-use corridor.

SITE DESCRIPTION

The overall tract is 10 acres adjoining to 5079 Old Winder Highway and located behind Chestnut Mountain Church of Christ. The water is provided by the City of Gainesville, and Hall County will provide sewer. There are no known impediments to its successful development for the purposes intended. All roadways within the development shall be designed and constructed to Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.

ADJACENCIES & ACCESS

The property is surrounded by a PRD to the north, and residential zoning (AR-IV) to the east and to the south. Access to the property is from Old Winder Highway (SR 211), a two lane, paved and state-maintained roadway that connects to Winder Highway (SR 53).

PROJECT DIMENSIONAL STANDARDS

Parcel Size	10.00 acres	
Proposed Number of Lots	38	
Proposed Density	3.8 units/acre	
Proposed Open Space	15.6 Acres (52%)	
Streets	Public	
Water and Sewer Provider	Gainesville City Water and Hall County Sewer	
Minimum Lot Size	2,088 sq ft	
Amenities	1 Park	
Storm Water Management Areas	1	
Minimum Lot Width	24 ft	
Minimum Setback from Sidewalk	22 ft from garage door to back of sidewalk	
Internal Side Setback	0 ft	
Minimum Rear Yard Setback from Property Line	0 ft	
Sidewalks – Both Sides of the Street	5 ft	
Garage % of Front Façade	70%	
Minimum Lot Depth	87 ft	
PRD Buffer	50 ft	
Impervious Stream Buffer	50 ft	
Stream Setbacks	75 ft	
Mail Kiosk (CBU)	1 with 6 additional parking spaces on the adjoining 20-acre tract	
Minimum Heated Floor Area	1,800 sq ft	
Front Setback from Right of Way 17 ft, 10 ft on corner streets		
Side Separation from Foundation to Foundation	20 ft between buildings	

ARCHITECTURAL MATERIALS & SITE IMPROVEMENTS

All facades of all residences shall be finished with masonry (brick or stone), wood, or fiber cement/Hardi-plank type siding. The garage doors shall not exceed 70% of the front façade. The builder intends to build:

- Single Family Fee Simple attached dwellings with two-car garages (garage width not to exceed 70% of front building width)
- Front facades with a combination of masonry and fiber cement siding materials

- Side and rear facades with masonry, fiber cement siding, or shake siding
- Sodded yards (4 sides)
- Speed tables in coordination with Hall County Engineering
- Each building will be offset 4-5 feet from the neighboring buildings.
- All buildings contain no more than six units.

INTERNAL SIGNAGE

The Developer and/or builder shall be allowed to post permanent directional signs and monuments within the Community to direct traffic to sales and recreation centers and to identify differing residential areas. All permanent signage must be outside of any Right of Way or Utility Easement with a Landscape and Signage easement recorded on the Final Plat.

AMENITIES

- 1 Park
- Guest Parking Spaces in 10-acre Tract: 6
- Total Guest Parking Included in Both Tracts: 49

CONCEPTUAL MASTER PLAN

The development of the community shall be controlled by the Conceptual Master Plan (the "Plan") attached as exhibit "A". The plan is considered conceptual in nature, and as such, may require minor modifications during the engineering and development process. Modifications to the locations and arrangement of lots, roads, amenities, and other improvements that do not conflict with specific standards and requirements of these conditions may be made by the Developer so long as such modifications do not change the land use, increase the overall density of the project or reduce any established exterior buffers or setbacks.

REQUIRED CONSTITUTIONAL AND ANTE LITEM NOTICE

Georgia law and the procedures of Hall County requires the Applicant to raise Federal and State constitutional objections during the PRD master plan application process. While the Applicant anticipates a smooth application process, failure to raise constitutional objections at this stage may mean that the Applicant will be barred from raising important legal claims later in the process. Accordingly, the following constitutional objections are stated:

The portions of the Hall County Development Code, facially and as applied to the Property, which restrict the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than that proposed by the Applicant are unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States. The application of the Hall County Development Code, facially and as applied to the Property, which restricts the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than in accordance with the application as proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States; Article I, Section I, Paragraph I, and Section III, Paragraph I of the Constitution of the State of Georgia of 1983; and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use 7 of its land while not substantially advancing legitimate state interests.

A denial of this Application would be unconstitutional under the Takings Clause of the Fifth Amendment to the Constitution of the United States and the Just Compensation Clause of Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983. A refusal by the Hall County Board of Commissioners to approve the zoning conditions as requested would constitute a taking of the Applicant's property.

A denial of this Application would constitute an arbitrary and capricious act by the Hall County Board of Commissioners without any rational basis therefore constituting an abuse of discretion in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States. A refusal to grant the PRD zoning request would lack objective justification and would result only from neighborhood opposition, which would constitute an unlawful delegation of the zoning power to non-legislative bodies in violation of the Georgia Constitution, Article IX, Section II, Paragraph 4.

A refusal by the Hall County Board of Commissioners to approve this Application for the Property in accordance with the criteria as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of the similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the Property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Property to a unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth 8 hereinabove.

Conclusion

For the foregoing reasons, the Applicant respectfully requests that this requested Rezoning to PRD to the existing AR-IV zoning be granted as requested by the Applicant. If there are any questions about this request, you may contact:

Re: 5079 Old Winder Highway Conditional Use and 5111 Old Winder Highway Rezoning

Dear Kristie,

Cameron Henderson, Amanda Graham, and I appreciate you, Katie, and Beth meeting with us on Wednesday, October 16, 2024, to discuss our open applications. As discussed, this letter is to request that the 5079 Old Winder Highway Conditional Use Application and the 5111 Rezoning Application, currently scheduled for the November 04, 2024, Planning Commission Public Hearing date, be tabled to the Planning Commission Hearing scheduled for December 02, 2024, with the coinciding Hall County Board of Commissioners Hearing on January 09, 2024.

Please let me know if you need anything further to allow for the rescheduling. Thank you for your consideration.

With cordial regards, I remain

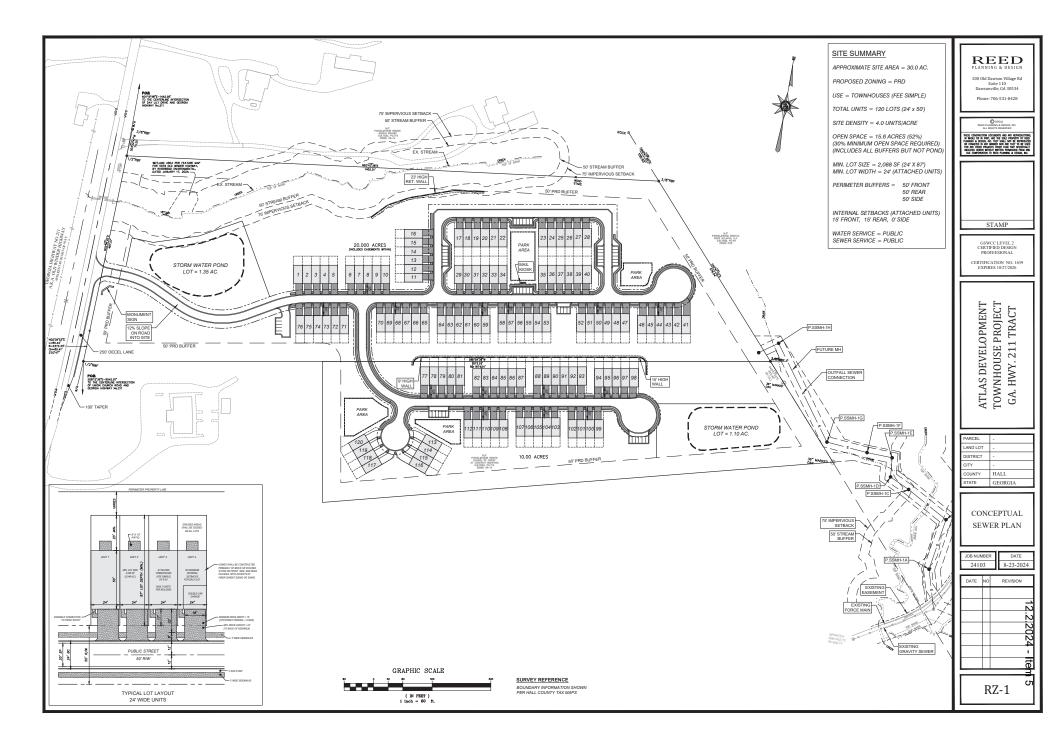

Sincerely Steven P. Gilliam

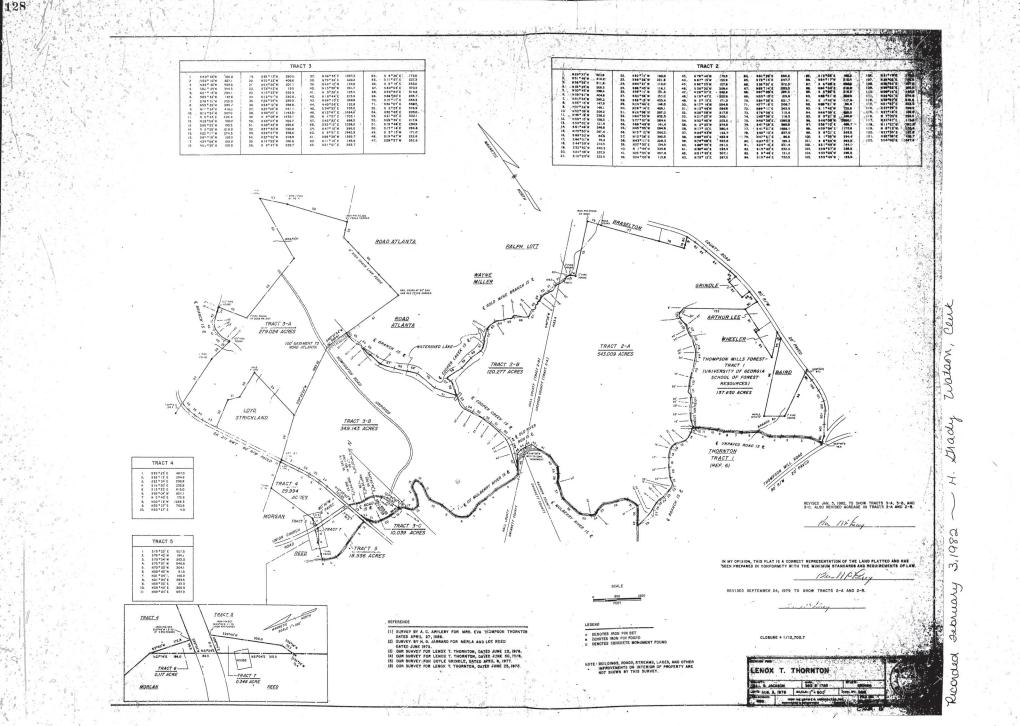

Cc: Cameron Henderson, Contact

Katie Greenway, Planning and Zoning Administrator

Beth Garmon, Director of Planning and Zoning

- Appendix F: ICE Tool Report

EXECUTIVE SUMMARY

Atlas Development Townhouse Project is a proposed residential development located along SR 211 in Hall County, GA. The site is approximately 20 acres and is located along the east side of SR 211, south of SR 53. The development will include 120 townhomes is expected to be constructed by 2027. The site will be accessed by one new driveway on SR 211. This study analyzed existing and future traffic operations and capacity analysis for the study intersections to determine if recommendations to the existing roadway network should be made to accommodate the new traffic and determine how the new driveway should be controlled.

This study analyzed the impacts the development's generated trips are expected to have on the surrounding roadway network and study intersections. The study intersections are listed below:

- 1. SR 53 at SR 211
- 2. SR 211 at Atlas Drive

The ITE Trip Generation Manual, was referenced to estimate the trips generated by the residential development. The expected trips were added to the future projected traffic volumes to analyze delay and level of service at the study intersections in build condition and compare with the existing conditions. The geometry and method of control for the access driveway intersection on the State Route was determined utilizing GDOT's auxiliary lane requirements and ICE tool.

The existing intersection is operating at an overall acceptable level of service in the existing year (2024) and no-build year (2027). The development traffic has a nominal effect on the existing intersection's delay and operation. The development driveway is expected to operate acceptably upon full build-out of the development. Based on the auxiliary lane analysis per GDOT guidelines, both a left-turn and a right-turn lane are recommended at the driveway intersection.

The following is the recommended configuration at the development driveway:

SR 211 at Atlas Drive

- Atlas Drive should be full-access, stop-sign controlled.
- Atlas Drive should be two lanes, one entry and one exit lane.
- Install a northbound right-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.
- Install a southbound left-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.

No other roadway improvements are recommended for this development.

INTRODUCTION

A traffic impact study was conducted by Southeastern Engineering, Inc. for the proposed townhome development along SR 211/Old Winder Hwy south of SR 53/Winder Hwy in Hall County, GA. The development proposes adding a total of 120 townhomes and is expected to be completed in 2027. The site will be accessed by a single new driveway on SR 211. An overall location map of the site area is shown in **Figure 1**.

Figure 1 Location Map

This study will identify the potential impacts of the proposed development's traffic on the surrounding roadway network. The study includes the existing and future peak hour traffic operations and capacity analysis for the study intersections. As necessary, operational improvements will be identified and analyzed to mitigate the traffic impacts caused by the development. Based on the results of the analysis for the study intersections, recommendations will be made for intersection geometry and control methods.

September 9, 2024

PROJECT DESCRIPTION

The townhouse development will have 120 townhomes, built on approximately 20 acres of land in Hall County, GA. The site will have one new driveway on SR 211 proposed as a full-access, stop-sign controlled approach. This study analyzes traffic impact upon the full built-out of the development, which is planned for 2027. The site plan is attached in **Appendix A**.

Study Network

The traffic study analyzes traffic operations for the intersections in the vicinity of the development. Capacity analysis and level of service evaluations of the study intersections were conducted for the existing, no-build and build scenarios. An aerial of the study area is shown in **Figure 2**. The study intersections are listed below:

- 1. SR 53/Winder Hwy at SR 211/Old Winder Hwy– Traffic Signal
- 2. SR 211/Old Winder Hwy at Atlas Drive (New Intersection) Minor-Street Stop-Control

Figure 2 Aerial of Study Area

Roadway Conditions

The roadway network adjacent to the development was examined to review the roadway characteristics in the study area.

SR 211/Old Winder Highway

SR 211/Old Winder Highway is an undivided two-lane roadway that is classified as a minor arterial. It has a posted speed limit of 45 mph north of Daylily Drive and 55 mph south of Daylily Drive. There is curb and gutter present as well as some sidewalk near its intersection with SR 53.

SR 53/Winder Highway

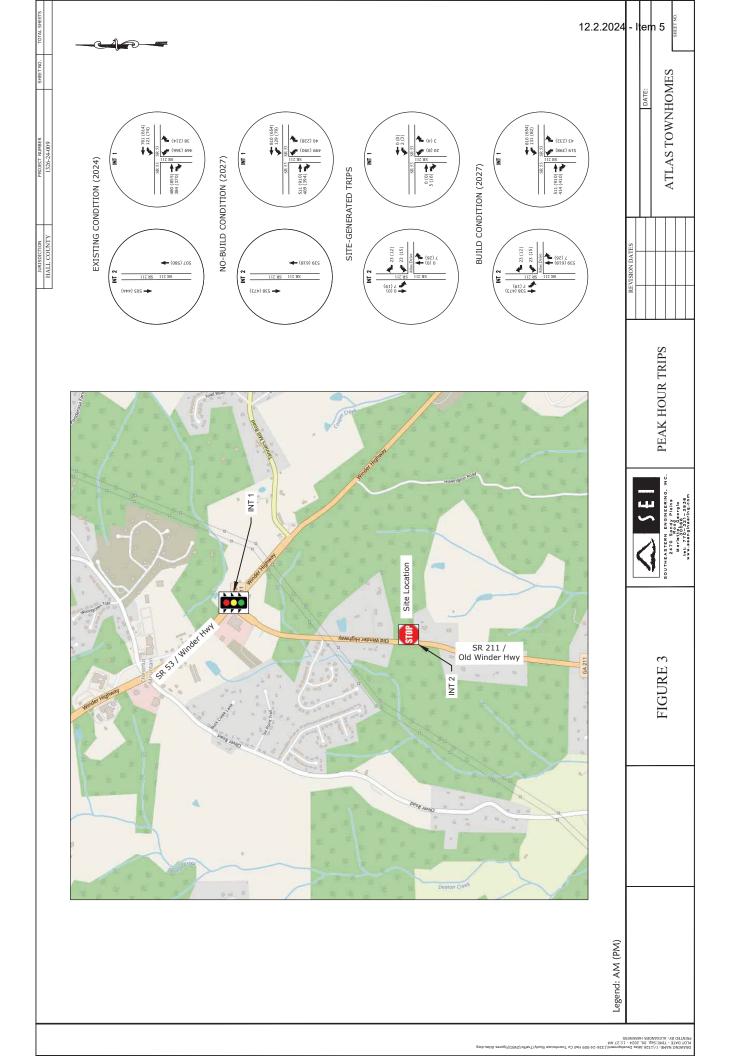

SR 53/Winder Highway is a four-lane median-divided roadway west of Tanners Mill Road and an undivided two-lane roadway east of Tanners Mill Road. It is classified as a minor arterial southeast of Old Winder Hwy and a principal arterial northeast of Old Winder Hwy. It has a posted speed limit of 45 mph. There is curb and gutter present along the roadway, as well as sidewalk in the study area.

EXISTING TRAFFIC CONDITIONS

Existing traffic volumes at the study intersections were collected on Tuesday, January 30th, 2024. Peak hour turning movement counts were collected at the existing study intersections, and daily traffic volumes were collected on primary roadways near the development. Existing daily traffic volumes collected in the study area are summarized in **Table 1**, and detailed traffic counts are attached in **Appendix B**. The existing AM and PM peak hour traffic volumes for the study area are shown in **Figure 3**.

Table 1: Existing Traffic Volumes			
Location	Volume		Total
Location	Northbound	Southbound	TOLAI
SR 211 / Old Winder Hwy south of Daylily Dr	6,211	5,986	12,197

Level of Service Methodology

Intersection capacity analyses were performed using the methodology outlined in the <u>Highway</u> <u>Capacity Manual, 6th Edition</u> (HCM). This methodology is the industry standard for the evaluation of intersection capacity and delay. To facilitate the analysis, computer software Synchro was used. This software conforms to the methodology of the HCM.

An analysis of peak hour traffic conditions was performed to determine the level of service (LOS) at the study intersections. LOS for an intersection is based on vehicular delay at the intersection and is a typical measure of effectiveness used to evaluate intersection operations. The HCM provides ranges of delay for each LOS definition, spanning from very minimal delays (LOS A) to high delays (LOS F). LOS F is considered unacceptable for most drivers.

For unsignalized intersections, where a stop sign controls side streets or minor streets, the criterion for evaluating traffic operations is the LOS for the controlled turning movements at the intersection. Methodology from the HCM to determine the delay and LOS for these turning movements is based on the following input data including intersection geometry, lane configuration, and turning movement volumes.

For the signalized intersections, LOS is based on the following input data: intersection geometry, lane configuration, turning movement volumes, traffic signal timing.

Table 2 below indicates the relationship between delay and LOS for unsignalized and signalized
intersections, respectively.
Table 2: Loyal of Service for Unsignalized and Signalized Interceptions

Table 2: Level of Service for Unsignalized and Signalized Intersections						
Level of Service	Control Delay Per Vehicle (sec)					
Level of Service	Unsignalized Intersection	Signalized Intersection				
A	≤10	≤10				
В	>10 and ≤15	>10 and ≤20				
С	>15 and ≤25	>20 and ≤35				
D	>25 and ≤35	>35 and ≤55				
E	>35 and ≤50	>55 and ≤80				
F	>50	>80				

Existing Conditions Level of Service

The level of service for the existing condition was determined using Synchro 11. The existing intersection geometry, lane configuration, signal timings, and turning volumes were utilized for the analysis of the intersection. The results of the intersection capacity analysis are summarized in **Table 3**, and detailed Synchro reports are attached in **Appendix D**. The levels of service for all approaches at the existing intersection are acceptable in the existing conditions.

Table 3: Level of Service and Delay for Existing Condition (2024)								
Intersection	Control Type	Approach	Delay (LOS)					
Intersection	control Type	Арргоаст	AM	PM				
	Signalized Intersection	EB	7 (A)	7 (A)				
SD 52 at SD 211		WB	8 (A)	7 (A)				
SR 53 at SR 211		NB	17 (B)	18 (B)				
		Overall	9 (A)	9 (A)				

FUTURE CONDITIONS – WITHOUT THE PROPOSED DEVELOPMENT (NO-BUILD)

The impact of the proposed development on the roadway network was analyzed and evaluated in the future year (2027) without the proposed development (No-Build) to compare the future conditions with the proposed fully constructed development (Build).

Growth Rate

Growth rate for the study area was calculated using annual volume statistics from GDOT's Traffic Analysis & Data Application (TADA). The growth rate calculated using the GDOT's historical traffic data is summarized in **Table 4**. Historical counts and calculations from all sources are attached in **Appendix C**.

Table 4: GDOT Historical Growth Rate							
Station ID	Location	5-Year Growth Rate	10-Year Growth Rate				
139-0441	Spout Springs Rd n/o Iris Dr	3.4%	5.3%				
135-0476	Thompson Mill Rd w/o Puckett Rd	2.3%	1.0%				
139-8206	Union Circle e/o Spout Springs	9.7%	4.1%				
139-7382	Ridge Rd s/o SR 347	8.3%	6.3%				
139-0437	Spout Springs Rd n/o SR 347	2.6%	3.2%				
1	5 - Year and 10 - Year Average	5.2%	4.0%				
	Average Growth Rate	4.6	5%				

Hall County census data obtained from the U.S. Census Bureau and the Georgia Governor's Office of Planning and Budget was used to calculate a growth rate for the study area. County census data and estimated growth rate is shown in **Table 5**.

Table 5: Georgia Governor's Office of Planning and Budget Annual Population Estimates								
Geographic Area	Average 5-Year Growth Rate from 2020 to 2050							
	2020-2025	2025-2030	2030-2035	2035-2040	2040-2045	2045-2050	Average	
Hall County	1.6%	1.4%	1.3%	1.1%	1.0%	1.0%	1.2%	
Geographic Area		Average 10-Year Growth Rate from 2020 to 2050						
	2020-2030		2030-2040		2040-2050		Average	
Hall County	1.3	3%	1.3	3%	1.1%		1.3%	

Census data from the U.S. Census Bureau was used to calculate a growth rate for Hall County. Growth rate estimated using the U.S. Census Bureau data is shown in **Table 6**.

Table 6: U.S. Census Bureau Annual Estimates of the Resident Population					
Geographic Area 2010 Census 2020 Census 2010 to 2020 Growth Rate					
Hall County	179,684	203,136	1.23%		

The overall project growth rate for this project was determined reviewing the different sources, and an average growth rate of 2.1% was utilized for the study to project future year traffic volumes.

Future No-Build Traffic Volumes

The projected future 2027 background traffic volumes were calculated by applying the annual exponential growth rate over three years to the existing 2024 background traffic volumes. Future 2027 background traffic volume is shown in **Figure 3**.

Future No-Build Conditions Level of Service

The methodology discussed previously was used to determine the level of service for the study intersections using the future 2027 background traffic volumes to determine operations at the study intersections. The intersection capacity analysis results for future no-build year (2027) are summarized in **Table 7** and detailed Synchro reports are attached in **Appendix D**. The existing intersection and all its approaches are expected to continue to operate similarly and at acceptable levels of service as they do in the existing year (2024) conditions.

Table 7: Level of Service and Delay for No-Build Condition (2027)							
Interection	Control Type	Approach	Delay (LOS)				
Intersection	Control Type	Approach	AM	PM			
	Signalized Intersection	EB	7 (A)	8 (A)			
SD 52 at SD 211		WB	8 (A)	8 (A)			
SR 53 at SR 211		NB	19 (B)	21 (C)			
		Overall	10 (B)	11 (B)			

PROPOSED DEVELOPMENT

The townhouse development will have 120 townhomes located along SR 211 in Hall County, GA. One new driveway on SR 211 is proposed as a full access, stop-controlled approach. This study analyzes traffic impact upon the full built-out of the development, which is planned for 2027.

Trip Generation

The number of trips expected to be generated from the development were estimated based on the method defined in the Institute of Transportation Engineers (ITE) Trip Generation Manual, 11th Edition. The trip generation for the proposed development is summarized in **Table 8**. The trip generation report is attached in **Appendix E**.

Table 8: Proposed Site Trip Generation										
Land Use	Unit of Daily Traffic AM Peak Hour PM Pea					Peak H	our			
(ITE Code)	Measure	Enter	Exit	Total	Enter	Exit	Total	Enter	Exit	Total
Multi-Family Housing (Low-Rise) (220)	120 Units	422	423	845	14	46	60	45	27	72

Trip Distribution and Assignment

The trips expected to be generated from the proposed development were distributed on the roadway network in the study area. The proposed distribution is based on historical counts and observed traffic patterns in the study area. **Figure 3** shows the development-generated trips in the network.

Auxiliary Lane Analysis

The need for auxiliary lanes on SR 211 was evaluated at the driveway intersection based on the guidelines from GDOT's *Regulations for Driveway and Encroachment Control*. Auxiliary lanes are used on approaches to intersections when the projected daily turning traffic volumes exceed minimum levels. Based on the GDOT manual a left-turn lane is recommended at an intersection if the threshold values as shown in **Table 9** are met.

Table 9: Left-Turn Lane Requirements							
Posted Speed	2 Lane Routes		ne Routes More than 2 Lanes on M				
	ADT < 6,000	ADT ≥ 6,000	ADT < 10,000	ADT ≥ 10,000			
35 MPH or Less	300 LTV a day	200 LTV a day	400 LTV a day	300 LTV a day			
40 to 50 MPH	250 LTV a day	175 LTV a day	325 LTV a day	250 LTV a day			
≥ 55 MPH	200 LTV a day	150 LTV a day	250 LTV a day	200 LTV a day			

Based on the GDOT manual a right-turn lane is recommended at an intersection if the threshold values as shown in **Table 10** are met.

Table 10: Right-Turn Lane Requirements							
Posted Speed	2 Lane	Routes	More than 2 Lanes on Main Road				
	ADT < 6,000	ADT ≥ 6,000	ADT < 10,000	ADT ≥ 10,000			
35 MPH or Less	200 RTV a day	100 RTV a day	200 RTV a day	100 RTV a day			
40 to 50 MPH	150 RTV a day	75 RTV a day	150 RTV a day	75 RTV a day			
55 to 60 MPH	100 RTV a day	50 RTV a day	100 RTV a day	50 RTV a day			
≥65 MPH	Always	Always	Always	Always			

SR 211 is a two-lane route, with an existing average daily traffic volume of approximately 12,195 vehicles per day (vpd) and has a posted speed limit of 55 miles per hour. Based on these characteristics, the threshold for a left-turn lane is 150 LTV per day, and a right-turn lane is set at 50 RTV per day. Based on the expected trip distribution, approximately 190 vpd will make a left-turn and approximately 230 vpd will make a right-turn onto Atlas Drive (new driveway). Therefore, both a right-turn and left-turn lane are recommended on SR 211 at the new driveway intersection, and will be included in the analysis.

FUTURE CONDITIONS - WITH THE PROPOSED DEVELOPMENT (BUILD)

To assess the impact of the proposed development, the site-generated trips were added to the future no-build background traffic, and the combined volumes were analyzed.

Build Traffic Volumes

The trips expected to be generated from the development were distributed on the roadway network in the study area. The proposed distribution is based on historical counts and traffic patterns in the area from the collected data. The total site generated trip distribution for peak hours is shown in **Figure 3**.

Delay Analysis for Build Condition

The level of service criteria discussed in the prior sections was applied to the study intersections to determine the impacts of 2027 background traffic volumes plus total site-generated volumes. All intersections were analyzed with existing controls and geometric configurations. The driveway was modeled with the auxiliary lanes on SR 211.

The results of the intersection capacity analysis for the future year with the development are summarized in **Table 11** and detailed Synchro reports are attached in **Appendix D**. The proposed development is expected to have a nominal impact on the existing signalized intersection of SR 53 at SR 211. The site driveway is expected to operate acceptably upon full build-out of the development.

Table 11: Level of Service and Delay for Build Condition (2027)								
Intersection	Control Type			Delay (LOS)				
intersection	Control Type	Approach	AM	PM				
		EB	8 (A)	8 (A)				
SR 53 at SR 211	Signalized Intersection	WB	8 (A)	8 (A)				
51(55 at 51(211		NB	20 (B)	21 (C)				
		Overall	11 (B)	11 (B)				
SR 211 at Atlas Drive	Minor-Street Stop-Control	WB	21 (C)	21 (C)				

Intersection Control Evaluation (ICE)

GDOT policy 4A-5 states an intersection control evaluation (ICE) is required for a proposed driveway intersection on State Routes. Accordingly, ICE was performed on the new driveway intersection. The ICE process compares and scores the feasible intersection controls based on project cost, safety analysis, traffic operations, environmental impacts, and stakeholder posture. The higher the ICE score, the preferable the intersection control per the GDOT ICE tool.

An ICE waiver was provided for the new driveway on SR 211 because only one feasible alternative, the minor-street stop control with both right-turn and left-turn storage lanes on SR 211, was identified in Stage 1. The ICE tool and associated operational analysis reports are attached in **Appendix F**.

Level of Service Comparison

The results of the intersection capacity analysis for the no-build (2027) and build with the development are summarized in **Table 12** below for the study intersections. The site driveway is expected to operate acceptably upon full build out of the development. The impact of the development traffic on the existing intersection of SR 53 at SR 211 is nominal.

Table 12: Level of Service Comparison							
Intersection	Control Turno	Annroach		Build itions	Build Conditions		
	Control Type	Approach	Delay	(LOS)	Delay (LOS)		
			AM	PM	AM	PM

SR 211 at Atlas Drive	Minor-Street Stop-Control	WB			21 (C)	21 (C)	

September 9, 2024

CONCLUSION

Atlas Development Townhouse Project is a proposed residential development located along SR 211 in Hall County, GA. The site is approximately 20 acres and is located along the east side of SR 211, south of SR 53. The development will include 120 townhomes is expected to be constructed by 2027. The site will be accessed by a single driveway on SR 211. This study analyzed existing and future traffic operations and capacity analysis for the study intersections to determine if recommendations to the existing roadway network should be made to accommodate the new traffic and determine how the new driveway should be controlled.

Based on the analysis, the development driveway and the existing adjacent intersection are expected to operate acceptably in the future no-build and build scenarios. The proposed development will have a nominal impact on the existing intersection.

Based on the auxiliary lane analysis, both a left-turn lane and a right-turn lane are recommended on SR 211 at the driveway intersection.

The following is the recommended configuration at the development driveway:

SR 211 at Atlas Drive

- Atlas Drive should be full-access, stop-sign controlled.
- Atlas Drive should be two lanes, one entry and one exit lane.
- Install a northbound right-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.
- Install a southbound left-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.

No other roadway improvements are recommended for this development.

GDOT INTERSECTION CONTROL EVALUATION (ICE) WAIVER FORM

ICE Version 2.3| Revised 11/13/2023

Waiver Request - Level 2 / 3

In certain circumstances where an ICE would otherwise be required, an ICE <u>may</u> be waived based on appropriate evidence presented with a written request. Scenarios in which an ICE waiver request may be considered include:

- 1. Proposed improvements do not substantially alter the character of the intersection, and are considered minor in nature, such as extending existing turn lane(s) or modifying signal phasing at an existing traffic signal
- 2. The intersection consists of a public roadway intersecting a divided, multilane roadway where the access will be limited to a closed median with only right-in/right-out access that will operate acceptably; or
- 3 The intersection is along an undivided, two-lane roadway that will not be widened and meets the following criteria:
 - · Low risk in terms of exposure (total intersection entering volume less than 1,000 vehicles /day)
 - Latest 5 years of crash history is not indicative of a crash problem (no discernible crash patterns coupled with low crash frequency and severity)
 - · Layout has no unusual or undesirable geometric features (such as restricted sight distance)
 - · The proposed changes are not expected to adversely affect safety

If only one alternative is determined to be feasible from the ICE Stage 1, then a waiver may be submitted in lieu of completing ICE Stage 2. The waiver must clearly explain why there is no other feasible alternative. A Waiver Form should also be submitted to document an agreed upon decision to select a preferred alternative other than the highest scoring alternative in Stage 2.

ICE waiver forms with supporting documentation should be submitted for approval to the Office of Traffic Operations or District Engineer (depending on Waiver level). Questions regarding the waiver process should be routed to the State Traffic Engineer.

Project Information:	Location:	SR 211 @ Atlas Drive

CITY OF GAINESVILLE

WATER RESOURCES

September 20, 2024

Atlas Development, LLC Attn: Cameron Henderson 554 W Main St, Suite 700 Buford, GA 30518

Re: Water Availability Proposed 157-Unit Residential Development 5079 Winder Highway Parcel 15038 000059

To whom it may concern:

The purpose of this letter is to confirm the availability of water service to the above referenced property.

The City of Gainesville owns and operates an existing 12-inch ductile iron water main in the right-ofway of Old Winder Highway adjacent to the subject property.

Currently, the City has adequate domestic water capacity to serve your proposed 119-unit residential development.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford

Nick Swafford Permitting Services and GIS Manager

POST OFFICE DRAWER 1435	Cameron Henderson 554 West Main Street Suite 700 Buford, GA 30518	
GAINESVILLE, GA 30503	Subject:	Sanitary Sewer Letter of Availability 5079 Old Winder HWY Parcel Id No.: 15038 000059 & 15038 000076
t: 770.531.6800 f: 770.531.3945		Braselton, GA 30517
BILL NASH, P.E.	Dear Cameron Henderson,	
Director	In response to your request, this letter will serve as confirmation that Hall County has sufficient volume to serve 5079 Old Winder HWY Braselton, Ga 30517 for a proposed 120 lot/unit (estimated average daily flow of 24,000 GPD for single-family residence) at this time. The nearest sanitary sewer main to this address is located on Howington Road.	
William (Bill) H. King III, P.E. Assistant Director	The nearest existing sewer line is located along Mulberry River. An outfall sewer line is to be constructed and dedicated to Hall County by developer at owners cost.	
	by purchasing guarantee cap	r capacity allocation is available on a first come, first serve basis the sewer taps. As such, this "availability" letter does not pacity. Additionally, this letter is non-transferable. If the project es, this letter is void and a new "availability" letter must be

If you have any questions or need more information, please call the Hall County Public Works and Utilities Department at 770-531-6800.

Sincerely,

 $\underset{G=T}{\mathsf{HALL}} \underset{O=R=G=T-A}{\mathsf{COUNTY}}$

Cc:	Kelly Hairston (Environmental Health); Chad Harper (Environmental Health)
Subject:	HCPC Tentative Agenda 11.4.24

Please find Environmental Health comments below:

Item 1, 5342 Robin Trail, Zhen: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system. An existing system evaluation/site visit will be required for Environmental Health to process the building permit application.

Item 2A/B, 3416 Gaines Mill Road, Perez: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 3, 4163 Cleveland Hwy, Carrillo: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan.

Item 4, 6539 Ransom Free Road, Cash: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation may be required after review of business plan. A Food Service permit/plan review may be required after review of business plan.

Item 5, 0 Dorsey Drive, Phillips: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 6, 2522 Lee Land Road, Bell: No comment. Public sewer.

Item 7, 5111 Old Winder Hwy, Gilliam: No comment. Public sewer.

Item 8, 5079 Old Winder Hwy, Gilliam: No comment. Public sewer.

Items 9 and 10: No comment.

NEW BUSINESS

1. <u>5342 Robin Trail | Appeal of administrative official | on a 2.15± acre</u> tract located on the east side of Robin Trail approximately 740 feet from its intersection with Forest Way | Zoned AR-IV, Tax Parcel 15039D000018 | <u>Proposed Use: Single-family residence | * Commission District 1 |</u> <u>Yuemian Zhen, applicant</u>

- a. Engineering: No Comment
- **b.** Traffic: No Comment
- **c.** Utilities: Hall County Sewer Service Area

2. <u>3416 Gaines Mill Road | Variance | 16.50.040 to reduce the required</u> road frontage of 6 proposed lots | on a 17.68± acre tract located on the south side of Gaines Mill Road approximately 2,078 feet from its intersection with Eberhart Cemetery Road | Zoned AR-IV, Tax Parcel 15016 000039A | Proposed Use: 6-lot subdivision | * Commission District 4 | Jose Perez, applicant

(B) 3416 Gaines Mill Road | Variance | 12.40.170 to allow for a gravel common access driveway for 5 proposed lots | on a 17.68± acre tract located on the south side of Gaines Mill Road approximately 2,078 feet from its intersection with Eberhart Cemetery Road | Zoned AR-IV, Tax Parcel 15016 000039A | Proposed Use: 6-lot subdivision | * Commission District 4 | Jose Perez, applicant

- a. Engineering: (a & b) This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Also, Show stream buffer and impervious setback from wrested vegetation not centerline of stream
- b. **Traffic:** (a & b) Entrance apron for proposed common access driveway will need to be pavement per Hall County Standards.
- c. Utilities: (a & b) Hall County Sewer Service Area

- 3. <u>4163 Cleveland Highway | Use Subject to County Commission Approval</u> | on a 4.41± acre tract located on the west side of Cleveland Highway (GA-129) approximately 540 feet from its intersection with Hunter Road | Zoned H-B (GCOD); Tax Parcel 12026 000009 (pt.) | **Proposed Use: Used auto** sales and repair | ** Commission District 3 | Ramon Carrillo Jr., applicant
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.
 - b. Traffic: GDOT permit required
 - c. Utilities: Hall County Sewer Service Area
- 4. <u>6539 Ransom Free Road | Use Subject to County Commission</u> <u>Approval | on a 19.78± acre tract located on the southwest side of Ransom</u> <u>Free Road at its intersection with Thompson Road | Zoned AR-IV, Tax</u> <u>Parcel 12014 000023 | Proposed Use: Agri-entertainment venue | **</u> <u>Commission District 3 | Patrick & Lorraine Cash, applicant</u>
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show FEMA and Hall County studied Flood plains that are present on site. Also, show stream buffer and impervious setback from wrested vegetation not centerline of stream
 - b. **Traffic:** Minimum 20 foot wide access required, other requirements may be necessary per civil plans.
 - c. Utilities: Hall County Sewer Service Area
- 5. <u>0 Dorsey Drive | Use Subject to County Commission Approval | on a</u> <u>6.42± acre tract located on the west side of Dorsey Drive approximately 1,025</u> feet from its intersection with Dorsey Circle | Zoned AR-III & V-C, Tax Parcel <u>08034 004037 | Proposed Use: 2-lot subdivision | ** Commission District 2 |</u> <u>Larry Phillips, applicant</u>
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.
 - b. Traffic: No Comments
 - c. Utilities: Hall County Sewer Service Area
- 6. 2522 Lee Land Road | Amend Conditions of Zoning | on a 42.458± acre tract located on the north side of Lee Land Road at its intersection with Webb Girth Road | Zoned PRD, Tax Parcel 15030 000027A | Proposed Use: Model homes within a townhome development | ** Commission District 4 | Trey Bell, applicant
 - Engineering: This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffer and impervious setback from wrested vegetation not centerline of stream.
 - b. Traffic: No Comments
 - c. Utilities: City of Gainesville Sewer Service Area

- 7. 5111 Old Winder Highway | Rezone | from Agricultural Residential (AR-IV) to Planned Residential Development (PRD) | on a 10± acre tract located on the east side of Old Winder Highway, approximately 2,051 feet from its intersection with Daylily Drive | Zoned AR-IV, Tax Parcel 15038 000076 (pt.) | Proposed Use: Addition of 38 townhomes to a PRD | ** Commission District 1 | Steven P. Gilliam, applicant
 - Engineering: This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffer and impervious setback from wrested vegetation not centerline of stream
 - **b. Traffic:** GDOT permit is required, on street parking is prohibited without a variance, and mail kiosk site does not meet Hall County Standards.
 - c. Utilities: Hall County Sewer Service Area, existing sewer is available approximately 530' east of East Place.
- 8. 5079 Old Winder Highway | Amend Conditions of Zoning | on a 20.02± acre tract located on the east side of Old Winder Highway, approximately 1,496 feet from its intersection with Daylily Drive | Zoned PRD, Tax Parcel 15038 000059 | Proposed Use: Addition of 38 townhomes to a PRD | ** Commission District 1 | Steven P. Gilliam, applicant
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.
 - b. **Traffic:** GDOT permit is required, on street parking is prohibited without a variance, and mail kiosk site does not meet Hall County Standards.
 - c. Utilities: Offsite easement required, system extension at developments expense.

PLANNING AND DEVELOPMENT DEPARTMENT 2875 BROWNS BRIDGE ROAD, GAINESVILLE, GA, 30504 MAILING ADDRESS: PO BOX 1435, GAINESVILLE. GA 30503 t: 770-531-6809 I f: 770-531-3902

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN ______ AND NO LATER THAN ______ AND

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN ______ ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT	
By my signature, I, David Loftus Please Print Name	_, hereby acknowledge that I have
read and understand the sign posting requirements. I further certify that the required	
public notice sign was posted on	for 5079 + 5111 Old Winder HWY (Name application filed as)

Cameron -

As requested, I have reviewed the drainage possibilities for the offsite pond located approximately 150'-200' downstream of the property boundary. You had asked if there was a possibility of releasing runoff from our site from the pond directly to the rear of the site (to the Raceway property) and not to the existing pond. I do not believe this is a realistic or wise option for several reasons as listed below –

1. Standard engineering practice is to collect runoff from a newly developed site in a stormwater pond and then releasing at a safe location (preferably at the same location as pre-develop flow exits the property).

This standard typically provides the best solution to maintain downstream flows (but not increase them) and to follow the natural drainage patterns. Hall County requires storm water ponds to be designed in accordance with the Georgia Stormwater Management Manual such the pond will provide water quality measures through TSS reductions, channel protection measures through slower release rates for smaller storms, and then stormwater detention measures to ensure post-developed peak flow runoff rates are not increased above pre-developed peak flow runoff rates. It is important to try and maintain the natural drainage flows and basins as much as possible. Furthermore, the proposed pond is typically

located in the low area of a property so as to outlet the pond at the best possible location. In our case, the proposed pond would outlet to a natural drainage channel which is ideal to accept such concentrated flows as generally produced by a required stormwater pond.

- 2. The offsite pond has an estimated basin size of 21.7 acres. If the pond is not fed by a springhead or a well, then the runoff from the 21.7 acres is the primary source of flow to the pond. Our design would aim to maintain this source of inflow to be able to maintain the water surface elevations in the pond. Approximately 14.8 acres of the pond basin lies on the new townhouse property. If the new pond for the development is not routed to the pond, the pond would lose more than 2/3 of its water source which may significantly impact the ability to maintain the water surface levels of the pond (unless pond is fed by a spring or well).
- 3. It appears to be physically impractical to release runoff from the pond to the rear onto the Raceway property. The natural drainage channel elevation for the pond outlet is approximately 976 at the property line. There is a natural ridge line running along the rear of the subject property which at its lowest point near the rear property corner has an approximate elevation of 1014. This is a minimum of 42 feet above the where the pond outlet would be making it impractical construct a ditch or pipe through this ridge line. Geotech borings indicate solid rock along this ridge line at about 15'-16' deep.
- 4. If it the pond were able to be released to the rear onto the Raceway property (which is not a wise option due to manipulation of the natural drainage patterns and other items listed above), it presents more issues. Primarily, Hall County and the Georgia Stormwater Management Manual both require the post-developed are not increased beyond pre-developed flows. Due to the ridge running along the rear of the property, pre-developed flows from our site are 0 toward the Raceway property. Release flows from the pond cannot be 0, so there will be an increase in runoff to the raceway property. You would need easements, studies, and agreements from the adjacent property owner to allow increased flows across their property all the way to an established flood plain that could accept such flows without impact. However, such increased flows could also cause serious erosion control issues on the raceway property particularly since there is a 50'+ high slope on the other side of the ridge line mentioned above.

Again, it seems to be substantially impractical both physically, regulatory, environmentally, and financially to release pond flows in this direction.

As a last note, it will be imperative to maintain excellent erosion control BMPs, monitoring, and repairs to prevent sediment from leaving the property boundary. This can help prevent silt from entering the downstream pond area.

Thanks. Please let me know if you would like to discuss this further.

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

December 6, 2024

Steven Gilliam P.O. BOX 1098 Gainesville, GA 30503

Dear Applicant:

GAINESVILLE, GA 30503 t: 770.531.6809 | f: 770.531.3902

POST OFFICE DRAWER 1435

PLANNING AND ZONING DIRECTOR Beth Garmon On December 2, 2024 the Hall County Planning Commission voted to recommend approval, with conditions the application of:

5111 Old Winder Highway | Rezone | from Agricultural Residential (AR-IV) to Planned Residential Development (PRD) | on a 10± acre tract located on the east side of Old Winder Highway, approximately 2,051 feet from its intersection with Daylily Drive | Zoned AR-IV, Tax Parcel 15038 000076 (pt.) | Proposed Use: Addition of 38 townhomes to a PRD | ** Commission District 1 | Steven P. Gilliam, applicant

Conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the Special Use request of 5079 Old Winder Highway (HZCU24-0039).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 7. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.

- 8. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- 9. There shall be a mandatory Homeowners' Association (HOA).
- 10. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 11. All roadways within the development shall be designated as private and shall be privately maintained by a Homeowners' Association (HOA). All roads shall be designed and constructed to Hall County standards.
- 12. The developer shall be responsible for all obtaining the necessary permits as well as all costs associated with the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway) per the traffic impact study recommendations.
- 13. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 14. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 15. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 16. All conditions of zoning shall be made a part of any plats or construction plans created for the property.
- 17. Buildings shall have no more than 6 units per building. Each building shall be staggered a minimum of 4 feet from the front setback of adjacent buildings.
- 18. The development shall be limited to 120 total townhome units.
- 19. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 20. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 21. The cluster mailbox unit shall have no less than 6 parking spaces.
- 22. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.

- 23. One construction trailer is permitted, provided the conditions of the Hall County Unified Development Code are met.
- 24. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.
- 25. A 50 foot undisturbed buffer shall be maintained along the property line of tax parcel 15038 000010.
- 26. The developer shall install and maintain a 6 foot high privacy fence or a 6 foot high vinyl coated chain link fence adjacent to the required 50 foot undisturbed buffer. The fence shall be located along the interior edge of the undisturbed buffer.
- 27. The detention pond at the rear of the property shall be designed to avoid directing stormwater runoff towards tax parcel 15038 000010.

The Board of Commissioners will hold a public hearing for final determination of this request at their meeting scheduled for **Thursday, January 9, 2025 at 6:00 p.m.** at the Hall County Government Center, 2nd Floor Meeting Room, 2875 Browns Bridge Road, Gainesville, Georgia.

Please remember that removal of all Public Notice signs posted on the property is your responsibility and should be removed within five (5) working days following the Board of Commissioners' final decision.

It is necessary that either you or your representative attend this meeting.

If you have any questions, please call this office.

Sincerely,

Beth Garmon, Director of Planning and Zoning

/ke

AGENDA ITEM

Public Hearing to amend Hall County's Zoning Map as follows:

REPORT TO: Voting Meeting (01/09/25)

ITEM NO: 702/2024

SUBJECT:5079 Old Winder Highway | Amend Conditions of Zoning | on a 20.02±
acre tract located on the east side of Old Winder Highway, approximately
1,496 feet from its intersection with Daylily Drive | Zoned PRD, Tax Parcel
15038 000059 | Proposed Use: Addition of 38 townhomes to a PRD |
Commission District 1 | Steven P. Gilliam, applicant

Meetings:

Work Session Date: 01/06/25

Voting Meeting Date: 01/09/25

Executive Summary:

Presenter: Recommendation: ΒG

- 1. Approval of the amended conditions is contingent upon the approval of the rezoning of 5111 Old Winder Highway (HZON24-0030).
- The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. All previous conditions of zoning included herein shall apply as listed below, with the exception of those modified for the current application.
 - a. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
 - b. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
 - c. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
 - d. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
 - e. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
 - f. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
 - g. There shall be a mandatory Homeowner's Association (HOA).
 - h. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
 - i. All roadways within the development shall be designated and constructed to the Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.
 - j. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic impact study, such as but not limited to the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway).
 - k. All stream buffers must be fully within the Homeowner's Association (HOA) common space and shall not be included on any individual residential building lot.
 - 1. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
 - m The following statement regarding potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
 - n. All conditions of zoning shall be made part of any plats or construction plans created for the property.
 - Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.
- 4. The overall development shall be limited to 120 total townhome units.
- 5. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 6. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 7. The cluster mailbox unit shall have no less than 6 parking spaces.
- 8. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 9. One construction trailer is permitted, provided the conditions of section 7.9.4.B of the Hall County Unified Development Code are met.
- 10. Detention pond design shall incorporate a bioswale style or similar aesthetic and function if located adjacent to the Old Winder Highway right-of-way. Final review and approval is subject to the Director of Planning and Zoning, or their designee.
- 11. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.

Purpose of Request:

5079 Old Winder Highway | Amend Conditions of Zoning | on a 20.02± acre tract located on the east side of Old Winder Highway, approximately 1,496 feet from its intersection with Daylily Drive | Zoned PRD, Tax Parcel 15038 000059 | **Proposed Use: Addition of 38 townhomes to a PRD** | Commission District 1 | **Steven P. PLANNING AND ZONING

DIRECTOR

Beth Garmon

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

To: **Richard Higgins, Chairman** Kathy Cooper, District 1 Commissioner Billy Powell, District 2 Commissioner Gregg Poole, District 3 Commissioner Jeff Stowe, District 4 Commissioner From: Beth Garmon, Director of Planning & Zoning Date: December 23, 2024 Subject: 5079 Old Winder Highway | Amend Conditions of **Zoning** | on a 20.02± acre tract | Zoned PRD, Tax Parcel 15038 000059 | Proposed Use: Addition of 38 townhomes to a PRD | Steven P. Gilliam, applicant

The request before you is from Steven P. Gilliam to amend zoning conditions for the addition of 38 townhomes to a previously-approved Planned Residential Development (PRD). This item is located within Commission District 1.

At their December 2, 2024 meeting, the Hall County Planning Commission voted to recommend approval, with eleven (11) conditions (4-0, Johnny Varner absent).

Staff recommendation: Approval, with conditions, as the proposed amendment does not represent a substantial deviation from the Planned Residential Development (PRD) requirements.

There were **no comments submitted** in advance of the Planning Commission meeting and one (1) person spoke in opposition during the public hearing.

Planning Commission Conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the rezoning of 5111 Old Winder Highway (HZON24-0030).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. All previous conditions of zoning included herein shall apply as listed below, with the exception of those modified for the current application.

- a. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- b. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
- c. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- d. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- e. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- f. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- g. There shall be a mandatory Homeowner's Association (HOA).
- h. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- i. All roadways within the development shall be designated and constructed to the Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.
- j. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic impact study, such as but not limited to the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway).
- All stream buffers must be fully within the Homeowner's Association (HOA) common space and shall not be included on any individual residential building lot.
- I. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The

development shall be compliant with the Official Code of Hall County.

m. The following statement regarding potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property:

"Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."

- n. All conditions of zoning shall be made part of any plats or construction plans created for the property.
- Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.
- 4. The overall development shall be limited to 120 total townhome units.
- All residential driveways shall measure no less than 20 feet from back of rightof-way.
- 6. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 7. The cluster mailbox unit shall have no less than 6 parking spaces.
- 8. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 9. One construction trailer is permitted, provided the conditions of section 7.9.4.8 of the Hall County Unified Development Code are met.
- 10. Detention pond design shall incorporate a bioswale style or similar aesthetic and function if located adjacent to the Old Winder Highway right-of-way. Final review and approval is subject to the Director of Planning and Zoning, or their designee.
- 11. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.

HALL COUNTY PLANNING COMMISSION RECOMMENDATION REPORT

Applicant	Steven P. Gilliam
Request	Amend Conditions of Zoning Amend Conditions of Planned Residential Development (PRD)
Proposed Use	Addition of 38 townhomes to a PRD
Size	
Zoning	Planned Residential Development (PRD)
Location	
Commission District	One
Planning Commission Date	December 2, 2024
Staff Recommendation	Approval, with conditions, as the proposed amendment does not represent a substantial deviation from the Planned Residential Development (PRD) requirements.
Record Number	HZCU24-0039
Planning Commission Recommendations	Approve, with conditions
Vote: 4-0 (Johnny Varner absent)	

Planning Commission Conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the rezoning of 5111 Old Winder Highway (HZON24-0030).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. All previous conditions of zoning included herein shall apply as listed below, with the exception of those modified for the current application.
 - a. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.

- b. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
- c. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- d. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- e. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- f. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
- g. There shall be a mandatory Homeowner's Association (HOA).
- h. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- All roadways within the development shall be designated and constructed to the Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.
- j. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic impact study, such as but not limited to the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway).
- k. All stream buffers must be fully within the Homeowner's Association (HOA) common space and shall not be included on any individual residential building lot.
- I. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- m. The following statement regarding potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property:
 "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- n. All conditions of zoning shall be made part of any plats or construction plans created for the property.
- o. Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.

- 4. The overall development shall be limited to 120 total townhome units.
- 5. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 6. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 7. The cluster mailbox unit shall have no less than 6 parking spaces.
- 8. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 9. One construction trailer is permitted, provided the conditions of section 7.9.4.B of the Hall County Unified Development Code are met.
- 10. Detention pond design shall incorporate a bioswale style or similar aesthetic and function if located adjacent to the Old Winder Highway right-of-way. Final review and approval is subject to the Director of Planning and Zoning, or their designee.
- 11. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.

Excerpts from the minutes of the December 2, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Steve Gilliam, 340 Jesse Jewell Parkway, Suite 300, Gainesville, presented the request. The applicant is requesting to amend conditions of a Planned Residential Development (PRD) to allow for the addition of 38 townhomes and 10.00 acres with the incorporation of the adjacent parcel at 5111 Old Winder Highway (part of 15038 000076). The subject property was approved for rezoning from Residential I (R-I) to Planned Residential Development (PRD) by the Hall County Commission on July 11, 2024, for an 82-unit townhome development (HZON24-0002) with an overall density of 4.10 dwelling units per acre subject to twenty-one conditions.

Public Forum:

Jill Cooper, 5125 Old Winder Highway, Braselton, spoke in opposition. Concerns raised were traffic, privacy, and the development's detention pond water runoff.

<u>Rebuttal</u>

The applicant addressed they would follow any improvements required after the traffic impact study.

Cameron Henderson, 4641 Quailwood Drive, Flowery Branch, explained that the topography will direct the water from the development's detention pond into the creek which is located on the property behind the subject development.

Planning Commission Comments:

Mr. Braswell questioned whether a 50 foot undisturbed buffer would be better suited between the development and Ms. Cooper's property. The applicant agreed. Mr. Sosebee asked if the applicant would be okay with installing a fence along Ms. Cooper's property line. The applicant said they would prefer farm fencing for the aesthetics but was open to the board's direction. The Planning Commission discussed with Mr. Henderson how the development's topography would impact stormwater runoff from the detention pond to the creek. Mr. Hunt asked if the sewer system would be gravity flow. The applicant stated it will. Mr. Sosebee asked Ms. Cooper for her preference of fence style for the separation of the two properties. Ms. Cooper stated either chain-link or a solid privacy fence would be acceptable.

<u>Motion:</u> A motion to approve with conditions was made by Frank Sosebee and seconded by Stan Hunt. Vote: (4-0, Johnny Varner absent)

Conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the rezoning of 5111 Old Winder Highway (HZON24-0030).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. All previous conditions of zoning included herein shall apply as listed below, with the exception of those modified for the current application.
 - a. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
 - b. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
 - c. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
 - d. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
 - e. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
 - f. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of

any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.

- g. There shall be a mandatory Homeowner's Association (HOA).
- h. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- All roadways within the development shall be designated and constructed to the Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.
- j. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic impact study, such as but not limited to the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway).
- k. All stream buffers must be fully within the Homeowner's Association (HOA) common space and shall not be included on any individual residential building lot.
- I. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- m. The following statement regarding potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property:
 "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- n. All conditions of zoning shall be made part of any plats or construction plans created for the property.
- o. Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.
- 4. The overall development shall be limited to 120 total townhome units.
- 5. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 6. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 7. The cluster mailbox unit shall have no less than 6 parking spaces.
- 8. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 9. One construction trailer is permitted, provided the conditions of section 7.9.4.B of the Hall County Unified Development Code are met.

- 10. Detention pond design shall incorporate a bioswale style or similar aesthetic and function if located adjacent to the Old Winder Highway right-of-way. Final review and approval is subject to the Director of Planning and Zoning, or their designee.
- 11. The development shall be subject to all townhome standards as listed in section 7.3.1.F. of the Hall County Unified Development Code.

Staff recommends <u>APPROVAL</u> of the applicant's request with the following conditions:

- 1. Approval of the amended conditions is contingent upon the approval of the rezoning of 5111 Old Winder Highway (HZON24-0030).
- 2. The property shall be developed in accordance with the site plan dated August 23, 2024, and as described in the project narrative submitted on October 18, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 3. All previous conditions of zoning included herein shall apply as listed below, with the exception of those modified for the current application.
 - a. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
 - b. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Director of Planning and Development, or their designee.
 - c. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
 - d. The development shall feature sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
 - e. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
 - f. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to final plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to final plat recording.
 - g. There shall be a mandatory Homeowner's Association (HOA).

- h. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- i. All roadways within the development shall be designated and constructed to the Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.
- j. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic study impact study, such as but not limited to the construction of a left and right turn lane on State Route 211 (aka Old Winder Highway).
- k. All stream buffers must be fully within the Homeowner's Association (HOA) common space and shall not be included on any individual residential building lot.
- I. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- m. The following statement regarding potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- n. All conditions of zoning shall be made part of any plats or construction plans created for the property.
- o. Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.
- 4. The overall development shall be limited to 120 total townhome units.
- 5. All residential driveways shall measure no less than 20 feet from back of right-of-way.
- 6. There shall be a total of 51 guest parking spaces provided as shown on the site plan dated August 23, 2024.
- 7. The cluster mailbox unit shall have no less than 6 parking spaces.
- 8. Developer is allowed a maximum of one sales office. Office shall be removed at time of sale of last unit.
- 9. One construction trailer is permitted, provided the conditions of section 7.9.4.B of the Unified Development Code are met.

Summary Analysis

The applicant is requesting to amend conditions of a Planned Residential Development (PRD) to allow for the addition of 38 townhomes and 10.00 acres with the incorporation of the adjacent parcel at 5111 Old Winder Highway (15038 000076 (pt)). The applicant has a concurrent request for this adjacent parcel to rezone from Agricultural Residential-1 (AR-1)/previously AR-IV to Planned Residential Development (PRD) for the addition of 38 townhomes.

The subject property was approved for rezoning from Residential I (R-I) to Planned Residential Development (PRD) by the Hall County Commission on July 11, 2024, for an 82-unit townhome development (HZON24-0002) with an overall density of 4.10 dwelling units per acre subject to the following 21 conditions:

- 1. The property shall be developed in accordance with the site plan dated July 10, 2024, and described in the project narrative submitted on July 10, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of the site plan approval.
- 2. The development shall be limited to 82 townhome units.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Assistant Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. All residential driveways shall measure no less than 22 feet from the edge of right of way.
- 7. Garage door width shall not exceed 70% of the width of the front façade of the residence.
- 8. The development shall feature internal sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.
- 9. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 10. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to Final Plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to Final Plat recording.
- 11. There shall be a mandatory Homeowner's Association (HOA).
- 12. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 13. All roadways within the development shall be designated and constructed to the Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.

- 14. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic study impact study, such as but not limited to the construction of a left and right turn lane on state route 211 (aka Old Winder Highway).
- 15. All stream buffers must be fully within the Homeowner's Association (HOA) common space and shall not be included on individual residential building lot.
- 16. There shall be 43 guest parking spaces provided as shown on the site plan dated July 10, 2024.
- 17. The cluster mailbox unit shall have no less than 5 parking spaces.
- 18. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 19. The following statement regarding potential impacts of agricultural operations in the area shall be made part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 20. All conditions of zoning shall be made part of any plats or construction plans created for the property.
- 21. Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.

Per the submitted site plan and narrative, the applicant is requesting to amend the current conditions of zoning to allow for the addition of 10 acres and 38 townhome units to the development.

With the approval of the concurrent rezone for the adjacent parcel, the total acreage for the Planned Residential Development will expand to 30.02± acres. As a result, the development's density will decrease from 4.10 units per acre to 4.00 units per acre. Open space will increase from 40% to 52%. Two additional parks will be added to the two already proposed, and the development will incorporate an additional stormwater pond as well.

The applicant also requests approval for one building to be used as model homes. It is not specified which building will be used for this purpose. The applicant also plans to utilize one temporary sales trailer and one temporary construction trailer.

The table below compares the originally approved design for the current 20.02± acre Planned Residential Development (PRD) to the proposed design for the additional 10 acre± expansion with a summary of changes to overall development parameters for the 30.02± acres:

Development	Original	Proposed		PRD
Standard	Approval	Amendment	Overall Development	Requirement
Site Area	20.02± acres	10.00 <u>+</u> acres	30.02± acres	Complies
	82 attached			
	townhome	38 attached		
Number of Units	units	townhome units	120 units	N/A
Density	4.10 U/A	3.80 U/A	4.00 U/A	N/A

Proposed Open				
Space	11.20 acres	4.40 acres	15.60 acres	Complies
Amenities	2 parks	2 parks	4 parks	Complies
	1 with 4	2 additional		
Mail Kiosk (CBU)	parking spaces	parking spaces	1 with 6 parking spaces	Complies
Guest Parking				
(Not including	43 parking	2 additional		
CBU parking)	spaces	parking spaces	45 parking spaces	Complies
Stormwater	1 stormwater	1 stormwater		
Management	pond	pond	2 stormwater ponds	N/A
Minimum Lot				
Depth	100 ft	87 feet	87 feet	N/A
Temporary Sales				
Office	0	1	1	N/A
Construction				
Trailer	0	1	1	N/A

Based on the future land use plan, staff finds the requested zoning designation *is consistent* with the Hall County Comprehensive Plan future land use designation of Regional Activity Nodes & Corridors. The intent of this character area is to include a combination of retail, office, civic, and residential uses that can contribute to a live-work-play environment. This range of development types may not always be at the same intensity across the county; new development needs to be scaled in the context of the area's infrastructure capacity. New development should also emphasize high-quality building and site design, including dedicated open/civic space, walkability, and a sense of place. Where there is residential development, a maximum density of up to 16 dwellings per acre may be permitted at the discretion of the BOC.

Zoning Analysis

Per Planning Commission and Hall County Commission consideration and decision (11.2.6.F), the board shall study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry shall be considered, to wit:

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property; The requested use is consistent with the previous approval for the Planned Residential Development on July 11, 2024.
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; No, it is not anticipated that the proposed residential use will adversely affect adjacent properties.
- 3. Whether the property to be affected by the zoning proposal has reasonable economic use as currently zoned. The property has reasonable economic use as currently zoned Planned Residential Development (PRD).
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; It is not anticipated that the proposed zoning use will result in an excessive or burdensome use of existing infrastructure.

The proposal has received availability letters for both water and sewer to service this development.

- 5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan; The proposed use is consistent with the Comprehensive Plan and the Regional Activity Nodes & Corridors land use designation, which envisions a maximum density of up to 16 dwelling units per acre at the discretion of the Board of Commissioners.
- 6. The extent to which property values are diminished by the existing zoning restrictions; Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.
- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The property is currently undeveloped. However, it was approved with conditions on July 11, 2024 for rezoning to Planned Residential Development for an 82 unit townhome development.
- 10. Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; There are no other known existing or changing conditions affecting the use or development of the property giving supporting ground for approval or denial.
- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The request is to amend conditions of an existing Planned Residential Development (PRD). Per the Official Code of Hall County, the Planned Development District is to be utilized as a "floating zone" which shall mean that areas will not be pre-designated as planned development districts but rather each such designation shall result from a specific and separate application for amendment.
- **12.** Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; The use does not appear to be out of scale with the needs of the county as a whole, as there is a need for additional and varied housing.
- **14.** Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; **The existing zoning of the subject site supports the proposed use.**

However, the rezoning of the adjacent parcel for the expansion of the PRD and the increase in the number of proposed townhomes requires an amendment to the existing zoning conditions.

- **15.** Whether the need for rezoning could be handled instead by a variance request to the Planning Commission; **No, the request could not be handled instead by a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.
- 17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; There is no indication that a mistake was made in the original zoning.

11.2.6.E. - Submission requirements

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in Table 11.2.1 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement, and the applicant understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - 1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 11.2.6.E of this section [chapter]. The proposal does provide a narrative outlining the intent of the request.
 - 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal meets this requirement.
- C. For any application for a slow rate land treatment system (see section 11.2.6.E.2.c), the following additional requirements apply. The proposed development will utilize public water and sewer; as such, this is not applicable
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the

planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. The applicant submitted a traffic study conducted by Southeastern Engineering, Inc. which recommended that both a left and right-turn lane be constructed on State Route 211 (aka Old Winder Highway).

Development Support and Constraints

Hall County Environmental Health

In an email dated October 3, 2024, Emily McGahee stated "No comment. Public sewer."

Hall County Fire Marshal

In an email dated October 4, 2024, John Hornick, NPQ Fire Inspector 1, Plans Review Lieutenant stated, "The Hall County Fire Marshal's Office has no comments as proposed."

Hall County Public Works and Utilities

In a memo dated October 3, 2024, Bill Nash, Director of Public Works and Utilities, provided the following comments:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.

Traffic:

GDOT permit is required, on street parking is prohibited without a variance, and mail kiosk site does not meet Hall County Standards.

Utilities

Offsite easement required, system extension at developments expense.

Georgia Department of Transportation

In an email dated October 1, 2024, Veronica Chavers, D1TO Civil Engineer III, stated that GDOT coordination is required.

Re: 5079 Old Winder Highway Conditional Use and 5111 Old Winder Highway Rezoning

Dear Kristie,

Cameron Henderson, Amanda Graham, and I appreciate you, Katie, and Beth meeting with us on Wednesday, October 16, 2024, to discuss our open applications. As discussed, this letter is to request that the 5079 Old Winder Highway Conditional Use Application and the 5111 Rezoning Application, currently scheduled for the November 04, 2024, Planning Commission Public Hearing date, be tabled to the Planning Commission Hearing scheduled for December 02, 2024, with the coinciding Hall County Board of Commissioners Hearing on January 09, 2024.

Please let me know if you need anything further to allow for the rescheduling. Thank you for your consideration.

With cordial regards, I remain

Sincerely Steven P. Gilliam

<u>Conditional Use Project Narrative for</u> 5079 Old Winder Highway – 20.00 Acres

Second Revised 10/18/2024

LOCATION - 5079 Old Winder Highway (Hwy 211)

Braselton, GA 30517

APPLICANT – Steven P. Gilliam, Attorney

CURRENT ZONING - PRD

PROPOSED ZONING - PRD with Condition

SUMMARY

The accompanying Application seeks a Conditional Use to PRD for 20.00 acres of undeveloped property located at 5079 Old Winder Highway in Braselton, Hall County, to add the adjoining 10-acre tract that is located at 5111 Old Winder Highway. The intent is to develop 120 townhome units (82 on the existing 20.0-acre approved PRD and 38 on the adjoining 10.0-acre tract where applicant seeks a PRD rezoning) of quality, 24'wide traditional single-family fee simple townhomes with amenity areas and above the required minimum of 30% open space. The proposed use is consistent with the Hall County Comprehensive Plan for residential use and appropriate for Hall County's Planned Residential Development (PRD) District for this location, which is residential and mixed-use corridor.

SITE DESCRIPTION

The overall tract has approximately 80 ft of frontage along GA Highway 211. The water is provided by the City of Gainesville, and Hall County will provide sewer. There are no known impediments to its successful development for the purposes intended. All roadways within the development shall be designed and constructed to Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.

ADJACENCIES & ACCESS

The property is surrounded by residential zonings (AR-IV) to the north, to the east, and to the south. Access to the property is from Old Winder Highway (SR 211), a two lane, paved and state-maintained roadway that connects to Winder Highway (SR 53).

Street Address:

Smith Gilliam Williams & Miles, P.A. 340 Jesse Jewell Parkway, Suite 300 Gainesville, GA 30501 Your Corner

CURRENT ZONING

The current zoning is a PRD with Conditions (See attached Approval Letter listing the conditions dated July 22, 2024).

Sidewalks – Both Sides of the Road	5 ft	5 ft

Garage % of Front Façade	70%	70%
Minimum Lot Depth	100 ft	87 ft
PRD Buffer	50 ft	50 ft
Impervious Stream Buffer	50 ft	50 ft
Stream Setbacks	75 ft	75 ft
Mail Kiosk (CBU)	1 with 4 additional parking spaces	1 with 6 additional parking spaces
Minimum Heated Floor Area	1,800 sq ft	1,800 sq ft
Front Setback from Right of Way	15 ft, 10 ft on corner streets	15 ft, 10 ft on corner streets
Side Separation from Foundation to Foundation	20 ft between buildings	20 ft between buildings
Guest Parking	<mark>49</mark>	1 Parking Space per every 4 Town Home Unit

ARCHITECTURAL MATERIALS & SITE IMPROVEMENTS

All facades of all residences shall be finished with masonry (brick or stone), wood, or fiber cement/Hardi-plank type siding. The garage doors shall not exceed 70% of the front façade. The builder intends to build:

- Single Family Fee Simple attached dwellings with two-car garages (garage width not to exceed 70% of front building width)
- Front facades with a combination of masonry and fiber cement siding materials
- Side and rear facades with masonry, fiber cement siding, or shake siding
- Sodded yards (4 sides)
- Speed tables in coordination with Hall County Engineering
- Each building will be offset 4-5 feet from the neighboring buildings.
- No building contains more than six units.

INTERNAL SIGNAGE

The Developer and/or builder shall be allowed to post permanent directional signs and monuments within the Community to direct traffic to sales and recreation centers and to identify differing residential areas. All permanent signage must be outside of any Right of Way or Utility Easement with a Landscape and Signage easement recorded on the Final Plat.

AMENITIES

- 2 Parks
- Picnic area
- Mail Kiosk (CBU) with 6 additional parking spaces
- Guest Parking Spaces: 1 per every 4-townhome unit
 - The 24' townhome product has a 2-car garage and the same driveway as a single-family zoned home.

MODEL HOME PERMITS

The development shall be limited to a maximum of one (1) building obtaining multiple units prior to approval and recording of the final plat. Model home permits may be issued prior to Final Plat recording provided that hard surface (crusher run) access is provided, and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permit shall be issued prior to Final Plat recording.

ENTRY MONUMENT SINAGE

Applicant is requesting permission for an entry monument type of sign with a natural stone base with a sign size (monument base and signage) totaling approximately 42 SF.

The entrance may include the following structural items:

- Masonry walls
- Wood or PVC fencing
- Illuminated Signage in accordance with the Hall County Sign Ordinance
- Ornamental Sculpture
- Landscaping and Irrigation

SALES AND CONSTRUCTION TRAILERS

Applicant is requesting the ability to install one sales trailer and one construction trailer with associated parking areas in locations to be determined at the time of final plat approval.

CONCEPTUAL MASTER PLAN

The development of the community shall be controlled by the Conceptual Master Plan (the "Plan") attached as exhibit "A". The plan is considered conceptual in nature, and as such, may require minor modifications during the engineering and development process. Modifications to the locations and arrangement of lots, roads, amenities, and other improvements that do not conflict with specific standards and requirements of these conditions may be made by the Developer so long as such modifications do not change the land use, increase the overall density of the project or reduce any established exterior buffers or setbacks.

TRAFFIC IMPACT SUDY

The following recommendation is from Southeastern Engineers dated February 22, 2024:

SR 211 Atlas Drive

- Atlas Drive should be full-access, stop-sign controlled.
- Atlas Drive should be two lanes, one entry and one exit lane.
- Install a northbound right-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.
- Install a southbound left-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.

No other roadway improvements are recommended for this development.

REQUIRED CONSTITUTIONAL AND ANTE LITEM NOTICE

Georgia law and the procedures of Hall County requires the Applicant to raise Federal and State constitutional objections during the PRD master plan application process. While the Applicant anticipates a smooth application process, failure to raise constitutional objections at this stage may mean that the Applicant will be barred from raising important legal claims later in the process. Accordingly, the following constitutional objections are stated:

The portions of the Hall County Development Code, facially and as applied to the Property, which restrict the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than that proposed by the Applicant are unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States.

The application of the Hall County Development Code, facially and as applied to the Property, which restricts the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than in accordance with the application as proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States; Article I, Section I, Paragraph I, and Section III, Paragraph I of the Constitution of the State of Georgia of 1983; and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use 7 of its land while not substantially advancing legitimate state interests. A denial of this Application would be unconstitutional under the Takings Clause of the Fifth Amendment to the Constitution of the United States and the Just Compensation Clause of Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983. A refusal by the Hall County Board of Commissioners to approve the zoning conditions as requested would constitute a taking of the Applicant's property.

A denial of this Application would constitute an arbitrary and capricious act by the Hall County Board of Commissioners without any rational basis therefore constituting an abuse of discretion in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States. A refusal to grant the PRD zoning request would lack objective justification and would result only from neighborhood opposition, which would constitute an unlawful delegation of the zoning power to non-legislative bodies in violation of the Georgia Constitution, Article IX, Section II, Paragraph 4.

A refusal by the Hall County Board of Commissioners to approve this Application for the Property in accordance with the criteria as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of the similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the Property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Property to a unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth 8 hereinabove.

Applicant / Owner reserves all due process rights granted to them under O.C.G.A. 36-66-5.1. et. seq, to petition the courts for review of a local government's exercise of zoning, administrative, or quasi-judicial powers, as set forth in those code sections and statutes.

Conclusion

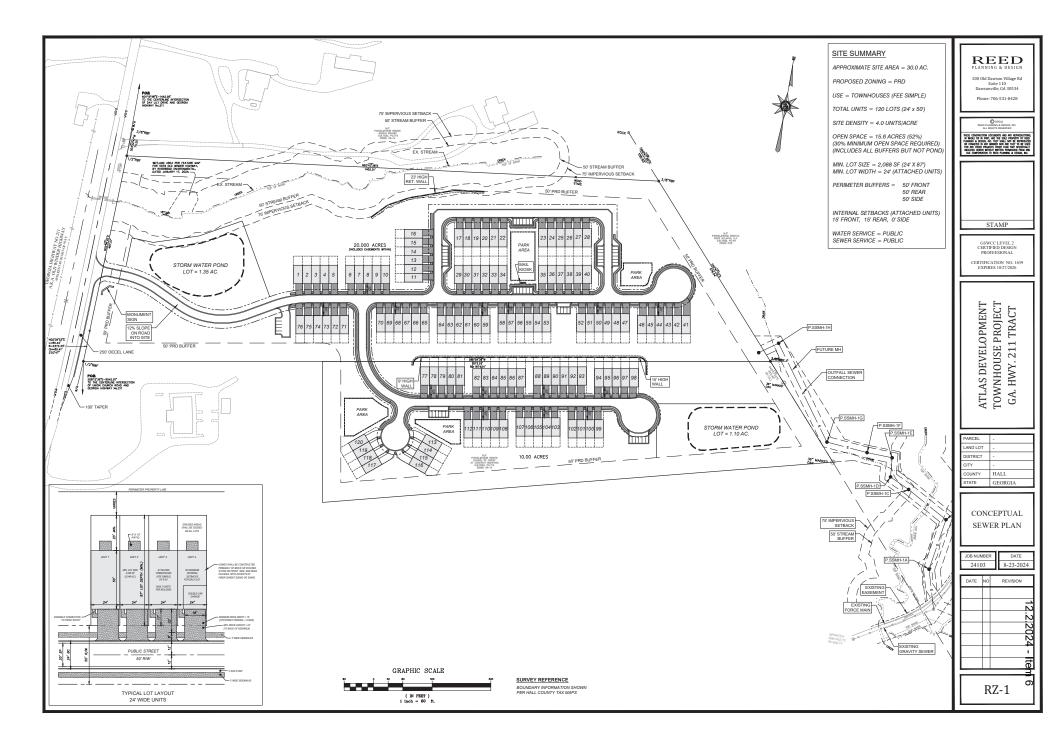

For the foregoing reasons, the Applicant respectfully requests that this requested Conditional Use to the existing PRD zoning be granted as requested by the Applicant. If there are any questions about this request, you may contact:

EXECUTIVE SUMMARY

Atlas Development Townhouse Project is a proposed residential development located along SR 211 in Hall County, GA. The site is approximately 20 acres and is located along the east side of SR 211, south of SR 53. The development will include 120 townhomes is expected to be constructed by 2027. The site will be accessed by one new driveway on SR 211. This study analyzed existing and future traffic operations and capacity analysis for the study intersections to determine if recommendations to the existing roadway network should be made to accommodate the new traffic and determine how the new driveway should be controlled.

This study analyzed the impacts the development's generated trips are expected to have on the surrounding roadway network and study intersections. The study intersections are listed below:

- 1. SR 53 at SR 211
- 2. SR 211 at Atlas Drive

The ITE Trip Generation Manual, was referenced to estimate the trips generated by the residential development. The expected trips were added to the future projected traffic volumes to analyze delay and level of service at the study intersections in build condition and compare with the existing conditions. The geometry and method of control for the access driveway intersection on the State Route was determined utilizing GDOT's auxiliary lane requirements and ICE tool.

The existing intersection is operating at an overall acceptable level of service in the existing year (2024) and no-build year (2027). The development traffic has a nominal effect on the existing intersection's delay and operation. The development driveway is expected to operate acceptably upon full build-out of the development. Based on the auxiliary lane analysis per GDOT guidelines, both a left-turn and a right-turn lane are recommended at the driveway intersection.

The following is the recommended configuration at the development driveway:

SR 211 at Atlas Drive

- Atlas Drive should be full-access, stop-sign controlled.
- Atlas Drive should be two lanes, one entry and one exit lane.
- Install a northbound right-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.
- Install a southbound left-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.

No other roadway improvements are recommended for this development.

INTRODUCTION

A traffic impact study was conducted by Southeastern Engineering, Inc. for the proposed townhome development along SR 211/Old Winder Hwy south of SR 53/Winder Hwy in Hall County, GA. The development proposes adding a total of 120 townhomes and is expected to be completed in 2027. The site will be accessed by a single new driveway on SR 211. An overall location map of the site area is shown in **Figure 1**.

Figure 1 Location Map

This study will identify the potential impacts of the proposed development's traffic on the surrounding roadway network. The study includes the existing and future peak hour traffic operations and capacity analysis for the study intersections. As necessary, operational improvements will be identified and analyzed to mitigate the traffic impacts caused by the development. Based on the results of the analysis for the study intersections, recommendations will be made for intersection geometry and control methods.

September 9, 2024

PROJECT DESCRIPTION

The townhouse development will have 120 townhomes, built on approximately 20 acres of land in Hall County, GA. The site will have one new driveway on SR 211 proposed as a full-access, stop-sign controlled approach. This study analyzes traffic impact upon the full built-out of the development, which is planned for 2027. The site plan is attached in **Appendix A**.

Study Network

The traffic study analyzes traffic operations for the intersections in the vicinity of the development. Capacity analysis and level of service evaluations of the study intersections were conducted for the existing, no-build and build scenarios. An aerial of the study area is shown in **Figure 2**. The study intersections are listed below:

- 1. SR 53/Winder Hwy at SR 211/Old Winder Hwy– Traffic Signal
- 2. SR 211/Old Winder Hwy at Atlas Drive (New Intersection) Minor-Street Stop-Control

Figure 2 Aerial of Study Area

Roadway Conditions

The roadway network adjacent to the development was examined to review the roadway characteristics in the study area.

SR 211/Old Winder Highway

SR 211/Old Winder Highway is an undivided two-lane roadway that is classified as a minor arterial. It has a posted speed limit of 45 mph north of Daylily Drive and 55 mph south of Daylily Drive. There is curb and gutter present as well as some sidewalk near its intersection with SR 53.

SR 53/Winder Highway

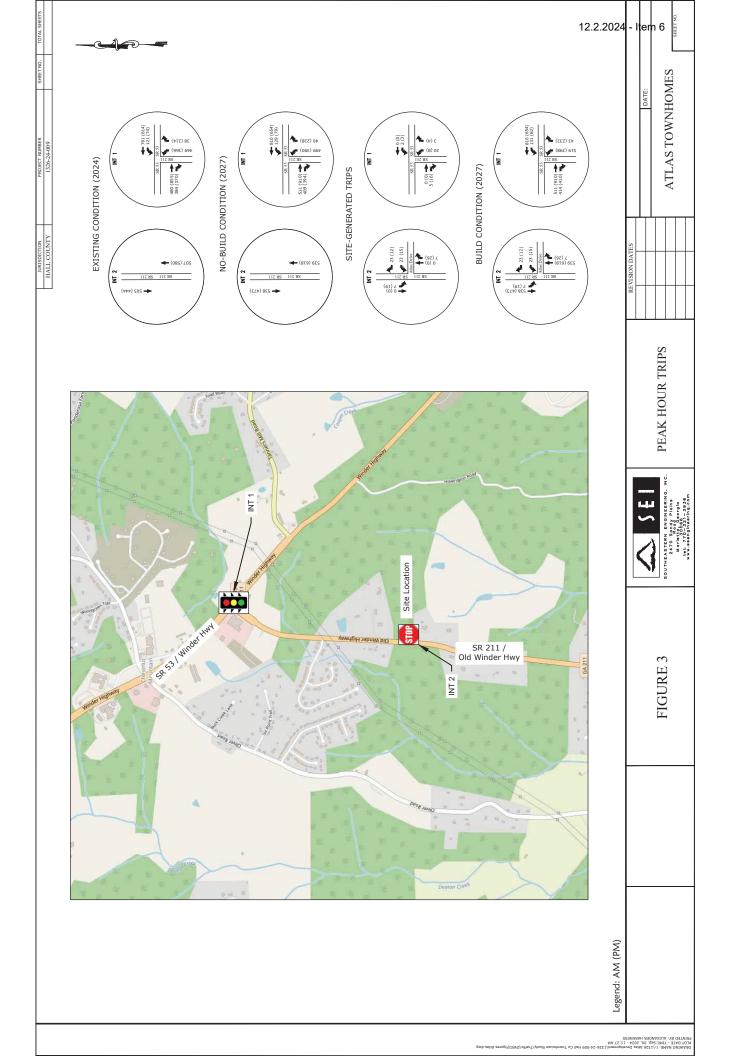

SR 53/Winder Highway is a four-lane median-divided roadway west of Tanners Mill Road and an undivided two-lane roadway east of Tanners Mill Road. It is classified as a minor arterial southeast of Old Winder Hwy and a principal arterial northeast of Old Winder Hwy. It has a posted speed limit of 45 mph. There is curb and gutter present along the roadway, as well as sidewalk in the study area.

EXISTING TRAFFIC CONDITIONS

Existing traffic volumes at the study intersections were collected on Tuesday, January 30th, 2024. Peak hour turning movement counts were collected at the existing study intersections, and daily traffic volumes were collected on primary roadways near the development. Existing daily traffic volumes collected in the study area are summarized in **Table 1**, and detailed traffic counts are attached in **Appendix B**. The existing AM and PM peak hour traffic volumes for the study area are shown in **Figure 3**.

Table 1: Existing Traffic Volumes						
Location	Vol	Total				
Location	Northbound	Southbound	TOLAI			
SR 211 / Old Winder Hwy south of Daylily Dr	6,211	5,986	12,197			

Level of Service Methodology

Intersection capacity analyses were performed using the methodology outlined in the <u>Highway</u> <u>Capacity Manual, 6th Edition</u> (HCM). This methodology is the industry standard for the evaluation of intersection capacity and delay. To facilitate the analysis, computer software Synchro was used. This software conforms to the methodology of the HCM.

An analysis of peak hour traffic conditions was performed to determine the level of service (LOS) at the study intersections. LOS for an intersection is based on vehicular delay at the intersection and is a typical measure of effectiveness used to evaluate intersection operations. The HCM provides ranges of delay for each LOS definition, spanning from very minimal delays (LOS A) to high delays (LOS F). LOS F is considered unacceptable for most drivers.

For unsignalized intersections, where a stop sign controls side streets or minor streets, the criterion for evaluating traffic operations is the LOS for the controlled turning movements at the intersection. Methodology from the HCM to determine the delay and LOS for these turning movements is based on the following input data including intersection geometry, lane configuration, and turning movement volumes.

For the signalized intersections, LOS is based on the following input data: intersection geometry, lane configuration, turning movement volumes, traffic signal timing.

Table 2 below indicates the	relationship between	ı delay and	LOS for	unsignalized	and signalized
intersections, respectively.					

Table 2: Level of Service for Unsignalized and Signalized Intersections						
Level of Service	Control Delay Per Vehicle (sec)					
Level of Service	Unsignalized Intersection	Signalized Intersection				
A	≤10	≤10				
В	>10 and ≤15	>10 and ≤20				
С	>15 and ≤25	>20 and ≤35				
D	>25 and ≤35	>35 and ≤55				
E	>35 and ≤50	>55 and ≤80				
F	>50	>80				

Existing Conditions Level of Service

The level of service for the existing condition was determined using Synchro 11. The existing intersection geometry, lane configuration, signal timings, and turning volumes were utilized for the analysis of the intersection. The results of the intersection capacity analysis are summarized in **Table 3**, and detailed Synchro reports are attached in **Appendix D**. The levels of service for all approaches at the existing intersection are acceptable in the existing conditions.

Table 3: Level of Service and Delay for Existing Condition (2024)								
Intersection	Control Type			(LOS)				
Intersection	control Type	Approach	AM	PM				
	Signalized Intersection	EB	7 (A)	7 (A)				
SD 52 at SD 211		WB	8 (A)	7 (A)				
SR 53 at SR 211		NB	17 (B)	18 (B)				
		Overall	9 (A)	9 (A)				

FUTURE CONDITIONS – WITHOUT THE PROPOSED DEVELOPMENT (NO-BUILD)

The impact of the proposed development on the roadway network was analyzed and evaluated in the future year (2027) without the proposed development (No-Build) to compare the future conditions with the proposed fully constructed development (Build).

Growth Rate

Growth rate for the study area was calculated using annual volume statistics from GDOT's Traffic Analysis & Data Application (TADA). The growth rate calculated using the GDOT's historical traffic data is summarized in **Table 4**. Historical counts and calculations from all sources are attached in **Appendix C**.

Table 4: GDOT Historical Growth Rate							
Station ID	۱ Location		10-Year Growth Rate				
139-0441	Spout Springs Rd n/o Iris Dr	3.4%	5.3%				
135-0476	Thompson Mill Rd w/o Puckett Rd	2.3%	1.0%				
139-8206	Union Circle e/o Spout Springs	9.7%	4.1%				
139-7382	Ridge Rd s/o SR 347	8.3%	6.3%				
139-0437	Spout Springs Rd n/o SR 347	2.6%	3.2%				
1	5 - Year and 10 - Year Average	5.2%	4.0%				
	4.6	5%					

Hall County census data obtained from the U.S. Census Bureau and the Georgia Governor's Office of Planning and Budget was used to calculate a growth rate for the study area. County census data and estimated growth rate is shown in **Table 5**.

Table 5: Georgia Governor's Office of Planning and Budget Annual Population Estimates								
Geographic Area	Average 5-Year Growth Rate from 2020 to 2050							
	2020-2025	2025-2030	2030-2035	2035-2040	2040-2045	2045-2050	Average	
Hall County	1.6%	1.4%	1.3%	1.1%	1.0%	1.0%	1.2%	
Geographic Area		Average 10-Year Growth Rate from 2020 to 2050						
	2020-	2020-2030		2030-2040		2040-2050		
Hall County	1.3	3%	1.3	3%	1	.1%	1.3%	

Census data from the U.S. Census Bureau was used to calculate a growth rate for Hall County. Growth rate estimated using the U.S. Census Bureau data is shown in **Table 6**.

Table 6: U.S. Census Bureau Annual Estimates of the Resident Population					
Geographic Area	2010 Census	2020 Census	2010 to 2020 Growth Rate		
Hall County	179,684	203,136	1.23%		

The overall project growth rate for this project was determined reviewing the different sources, and an average growth rate of 2.1% was utilized for the study to project future year traffic volumes.

Future No-Build Traffic Volumes

The projected future 2027 background traffic volumes were calculated by applying the annual exponential growth rate over three years to the existing 2024 background traffic volumes. Future 2027 background traffic volume is shown in **Figure 3**.

Future No-Build Conditions Level of Service

The methodology discussed previously was used to determine the level of service for the study intersections using the future 2027 background traffic volumes to determine operations at the study intersections. The intersection capacity analysis results for future no-build year (2027) are summarized in **Table 7** and detailed Synchro reports are attached in **Appendix D**. The existing intersection and all its approaches are expected to continue to operate similarly and at acceptable levels of service as they do in the existing year (2024) conditions.

Table 7: Level of Service and Delay for No-Build Condition (2027)								
	Control Type	Approach	Delay	(LOS)				
Intersection	Control Type	Approach	AM	РМ				
		EB	7 (A)	8 (A)				
SD 52 at SD 211		WB	8 (A)	8 (A)				
SR 53 at SR 211	Signalized Intersection	NB	19 (B)	21 (C)				
		Overall	10 (B)	11 (B)				

PROPOSED DEVELOPMENT

The townhouse development will have 120 townhomes located along SR 211 in Hall County, GA. One new driveway on SR 211 is proposed as a full access, stop-controlled approach. This study analyzes traffic impact upon the full built-out of the development, which is planned for 2027.

Trip Generation

The number of trips expected to be generated from the development were estimated based on the method defined in the Institute of Transportation Engineers (ITE) Trip Generation Manual, 11th Edition. The trip generation for the proposed development is summarized in **Table 8**. The trip generation report is attached in **Appendix E**.

Table 8: Proposed Site Trip Generation										
Land Use	Land Use Unit of Daily Traffic AM Peak Hour		Daily Traffic			lour	PM Peak Hour			
(ITE Code)	Measure	Enter	Exit	Total	Enter	Exit	Total	Enter	Exit	Total
Multi-Family Housing (Low-Rise) (220)	120 Units	422	423	845	14	46	60	45	27	72

Trip Distribution and Assignment

The trips expected to be generated from the proposed development were distributed on the roadway network in the study area. The proposed distribution is based on historical counts and observed traffic patterns in the study area. **Figure 3** shows the development-generated trips in the network.

Auxiliary Lane Analysis

The need for auxiliary lanes on SR 211 was evaluated at the driveway intersection based on the guidelines from GDOT's *Regulations for Driveway and Encroachment Control*. Auxiliary lanes are used on approaches to intersections when the projected daily turning traffic volumes exceed minimum levels. Based on the GDOT manual a left-turn lane is recommended at an intersection if the threshold values as shown in **Table 9** are met.

Table 9: Left-Turn Lane Requirements						
Posted Speed	2 Lane Routes		2 Lane Routes		More than 2 Lane	es on Main Road
	ADT < 6,000	ADT ≥ 6,000	ADT < 10,000	ADT ≥ 10,000		
35 MPH or Less	300 LTV a day	200 LTV a day	400 LTV a day	300 LTV a day		
40 to 50 MPH	250 LTV a day	175 LTV a day	325 LTV a day	250 LTV a day		
≥ 55 MPH	200 LTV a day	150 LTV a day	250 LTV a day	200 LTV a day		

Based on the GDOT manual a right-turn lane is recommended at an intersection if the threshold values as shown in **Table 10** are met.

Table 10: Right-Turn Lane Requirements							
Posted Speed	2 Lane	2 Lane Routes More than 2 Lanes or					
	ADT < 6,000	ADT ≥ 6,000	ADT < 10,000	ADT ≥ 10,000			
35 MPH or Less	200 RTV a day	100 RTV a day	200 RTV a day	100 RTV a day			
40 to 50 MPH	150 RTV a day	75 RTV a day	150 RTV a day	75 RTV a day			
55 to 60 MPH	100 RTV a day	50 RTV a day	100 RTV a day	50 RTV a day			
≥65 MPH	Always	Always	Always	Always			

SR 211 is a two-lane route, with an existing average daily traffic volume of approximately 12,195 vehicles per day (vpd) and has a posted speed limit of 55 miles per hour. Based on these characteristics, the threshold for a left-turn lane is 150 LTV per day, and a right-turn lane is set at 50 RTV per day. Based on the expected trip distribution, approximately 190 vpd will make a left-turn and approximately 230 vpd will make a right-turn onto Atlas Drive (new driveway). Therefore, both a right-turn and left-turn lane are recommended on SR 211 at the new driveway intersection, and will be included in the analysis.

FUTURE CONDITIONS - WITH THE PROPOSED DEVELOPMENT (BUILD)

To assess the impact of the proposed development, the site-generated trips were added to the future no-build background traffic, and the combined volumes were analyzed.

Build Traffic Volumes

The trips expected to be generated from the development were distributed on the roadway network in the study area. The proposed distribution is based on historical counts and traffic patterns in the area from the collected data. The total site generated trip distribution for peak hours is shown in **Figure 3**.

Delay Analysis for Build Condition

The level of service criteria discussed in the prior sections was applied to the study intersections to determine the impacts of 2027 background traffic volumes plus total site-generated volumes. All intersections were analyzed with existing controls and geometric configurations. The driveway was modeled with the auxiliary lanes on SR 211.

The results of the intersection capacity analysis for the future year with the development are summarized in **Table 11** and detailed Synchro reports are attached in **Appendix D**. The proposed development is expected to have a nominal impact on the existing signalized intersection of SR 53 at SR 211. The site driveway is expected to operate acceptably upon full build-out of the development.

Table 11: Level of Service and Delay for Build Condition (2027)									
Intersection	Control Type	Approach	Delay (LOS)						
intersection	Control Type	Approach	AM	PM					
	Signalized Intersection	EB	8 (A)	8 (A)					
SR 53 at SR 211		WB	8 (A)	8 (A)					
51(55 at 51(211		NB	20 (B)	21 (C)					
		Overall	11 (B)	11 (B)					
SR 211 at Atlas Drive	Minor-Street Stop-Control	WB	21 (C)	21 (C)					

Intersection Control Evaluation (ICE)

GDOT policy 4A-5 states an intersection control evaluation (ICE) is required for a proposed driveway intersection on State Routes. Accordingly, ICE was performed on the new driveway intersection. The ICE process compares and scores the feasible intersection controls based on project cost, safety analysis, traffic operations, environmental impacts, and stakeholder posture. The higher the ICE score, the preferable the intersection control per the GDOT ICE tool.

An ICE waiver was provided for the new driveway on SR 211 because only one feasible alternative, the minor-street stop control with both right-turn and left-turn storage lanes on SR 211, was identified in Stage 1. The ICE tool and associated operational analysis reports are attached in **Appendix F**.

Level of Service Comparison

The results of the intersection capacity analysis for the no-build (2027) and build with the development are summarized in **Table 12** below for the study intersections. The site driveway is expected to operate acceptably upon full build out of the development. The impact of the development traffic on the existing intersection of SR 53 at SR 211 is nominal.

	Table 12: Level of Service Comparison

September 9, 2024

CONCLUSION

Atlas Development Townhouse Project is a proposed residential development located along SR 211 in Hall County, GA. The site is approximately 20 acres and is located along the east side of SR 211, south of SR 53. The development will include 120 townhomes is expected to be constructed by 2027. The site will be accessed by a single driveway on SR 211. This study analyzed existing and future traffic operations and capacity analysis for the study intersections to determine if recommendations to the existing roadway network should be made to accommodate the new traffic and determine how the new driveway should be controlled.

Based on the analysis, the development driveway and the existing adjacent intersection are expected to operate acceptably in the future no-build and build scenarios. The proposed development will have a nominal impact on the existing intersection.

Based on the auxiliary lane analysis, both a left-turn lane and a right-turn lane are recommended on SR 211 at the driveway intersection.

The following is the recommended configuration at the development driveway:

SR 211 at Atlas Drive

- Atlas Drive should be full-access, stop-sign controlled.
- Atlas Drive should be two lanes, one entry and one exit lane.
- Install a northbound right-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.
- Install a southbound left-turn storage lane on SR 211. Lane dimensions should meet GDOT minimum requirements.

No other roadway improvements are recommended for this development.

Tool Goal:		ection	control i	improve	ement be	nefits.	The tool	suppor	ts the IC	E poli	cy and pr	rocedur	es to p	provide	tracea	bility, t	ransparer	cy, con	sistency	and acc	countabil	ity when		
Requirements:	quantify intersection control improvement benefits. The tool supports the ICE policy and procedures to provide traceability, transparency, consistency and accountability when identifying and selecting an intersection control solution that both meets project purpose and reflects overall best value in terms of specific performance-based criteria. ements: An ICE is required for any intersection improvement (e.g. new or modified intersection, widening/reconstruction or corridor project, or work accomplished through a driveway or encroachment permit that affects an intersection) where: 1) the intersection includes at least one roadway designated as a State Route (State Highway System) or as part of the National Highway System; or 2) the intersection will be designed or constructed using State or Federal funding. In certain circumstances where an ICE would otherwise be required, the requirement may be waived based on appropriate evidence presented with a written request. (See the "Waiver" tab to review criteria that may make a project waiver eligible and for instructions to submit a waiver request to the Department). An ICE is not required when the proposed work does not include any changes to the intersection edition and intersection or driveway permits where the driveway is not a new leg to an already existing intersection or either 1) a divided, multi-lane highway with a closed median and only right-in/right-out access or 2) an undivided roadway where the development is not required to construct left and/or right turn lanes (as per the Driveway Manual and District Traffic Engineer).

GDOT INTERSECTION CONTROL EVALUATION (ICE) WAIVER FORM

ICE Version 2.3| Revised 11/13/2023

Waiver Request - Level 2 / 3

In certain circumstances where an ICE would otherwise be required, an ICE <u>may</u> be waived based on appropriate evidence presented with a written request. Scenarios in which an ICE waiver request may be considered include:

- 1. Proposed improvements do not substantially alter the character of the intersection, and are considered minor in nature, such as extending existing turn lane(s) or modifying signal phasing at an existing traffic signal
- 2. The intersection consists of a public roadway intersecting a divided, multilane roadway where the access will be limited to a closed median with only right-in/right-out access that will operate acceptably; or
- 3 The intersection is along an undivided, two-lane roadway that will not be widened and meets the following criteria:
 - · Low risk in terms of exposure (total intersection entering volume less than 1,000 vehicles /day)
 - Latest 5 years of crash history is not indicative of a crash problem (no discernible crash patterns coupled with low crash frequency and severity)
 - · Layout has no unusual or undesirable geometric features (such as restricted sight distance)
 - · The proposed changes are not expected to adversely affect safety

If only one alternative is determined to be feasible from the ICE Stage 1, then a waiver may be submitted in lieu of completing ICE Stage 2. The waiver must clearly explain why there is no other feasible alternative. A Waiver Form should also be submitted to document an agreed upon decision to select a preferred alternative other than the highest scoring alternative in Stage 2.

ICE waiver forms with supporting documentation should be submitted for approval to the Office of Traffic Operations or District Engineer (depending on Waiver level). Questions regarding the waiver process should be routed to the State Traffic Engineer.

Project Information:	Location:	SR 211 @ Atlas Drive

Description of Work / Only one feasible alternative was identified in Stage 1. The minor-street stop control operates acceptably in both Justification for Waiver peak hours. Atlas Drive will be two lanes, one entry and one exit. The intersection meets the threshold for both a (Required): left-turn and right-turn auxiliary lane on SR 211, and they are included in the analysis.

all that tract of land in Clinchem District of Hall County, Georgia, containing twenty acres described as follows: beginning at a point on the east side of the right of way of State Route 211 located 3459 feet as measured along the east side of said right of way south of the center line of highway 53; thence N 83° 04' 07" E 1452.55 feet thence S 41° 27' 16" E 578.09 feet; thence S 80° 20' 11" W. 1874.01 feet; thence northerly along the east side of right of way of State Route 211 following the curve thereof 48.2 feet; thence N 02° 16' 45" E along the east side of said State Route 211 a distance of 524.8 feet to the beginning corner.

Said property is part of the property conveyed to Donald E. Almand and Mary Ellen Almond by deed recorded in Book 1187 at page 111, Hall County deed records and is conveyed subject to the following restriction in said deed:

> No mobile home shall be located on any part of said property during a period of twenty years from this date.

CITY OF GAINESVILLE

WATER RESOURCES

September 20, 2024

Atlas Development, LLC Attn: Cameron Henderson 554 W Main St, Suite 700 Buford, GA 30518

Re: Water Availability Proposed 157-Unit Residential Development 5079 Winder Highway Parcel 15038 000059

To whom it may concern:

The purpose of this letter is to confirm the availability of water service to the above referenced property.

The City of Gainesville owns and operates an existing 12-inch ductile iron water main in the right-ofway of Old Winder Highway adjacent to the subject property.

Currently, the City has adequate domestic water capacity to serve your proposed 119-unit residential development.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford

Nick Swafford Permitting Services and GIS Manager

Hall County Government BOARD OF COMMISSIONERS

July 22, 2024

Steven P. Gilliam PO Box 1098 Gainesville, GA 30503

RE: Rezone Application

t: 770.535.8288

CHAIRMAN Richard P. Higgins

POST OFFICE DRAWER 1435

GAINESVILLE, GA 30503

Kathy L. Cooper, District 1 Billy Powell, District 2 Gregg Poole, District 3 Jeff Stowe, District 4

COUNTY ADMINISTRATOR Zachary T. Propes

ASSISTANT COUNTY ADMINISTRATOR Katie Crumley

ASSISTANT COUNTY ADMINISTRATOR Casey Ramsey

> COUNTY CLERK Jennifer Rivera

Dear Steven P. Gilliam:

Please be advised that in its Voting Meeting on July 11, 2024, the Hall County Board of Commissioners voted to approve the following application with conditions.

5079 Old Winder Highway | Rezone | from Residential I (R-I) to Planned Residential Development (PRD) | on a 20.02± acre tract located on the east side of Old Winder Highway, approximately 1,496 feet from its intersection with Daylily Drive | Zoned R-I; Tax Parcel 15038 000059 | Proposed Use: 105-unit townhome development | Commission District 1 | Steven P. Gilliam, applicant

Conditions:

Conditions:

- The property shall be developed in accordance with the site plan dated July 10, 2024, and as described in the project narrative submitted on July 10, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The development shall be limited to 82 townhome units.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,800 square feet.
- 4. Building elevations shall be composed of a mixture of cement siding, stone, and/or brick façade, with a minimum of brick or stone accents on the front of the homes. The balance of the home may be the same material or of fiber-cement material. Vinyl siding is prohibited. Final review and approval of building elevations is subject to the Assistant Director of Planning and Development, or their designee.
- 5. All units shall be designed with a two-car garage. Garage doors shall constitute no more than 70 percent of the width of the individual townhouse unit.
- 6. All residential driveways shall measure no less than 22 feet from the edge of right of way.
- 7. Garage door width shall not exceed 70% of the width of the front façade of the residence.
- 8. The development shall feature internal sidewalks no less than five (5) feet in width constructed on both sides of all internal streets.

- 9. The development shall be served by public sewer, with the obtainment of all required easements and other construction costs such as a lift station and force main to be the responsibility of the developer.
- 10. The development shall be limited to a maximum of two (2) model homes prior to approval and recording of the final plat. Model home permits may be issued prior to Final Plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. No certificate of occupancy permits shall be issued prior to Final Plat recording.
- 11. There shall be a mandatory Homeowners' Association (HOA).
- 12. All designated open space within the development shall be commonly held, and not held by any individual homeowner(s).
- 13. All roadways within the development shall be designed and constructed to Hall County standards and dedicated to the county for public use. Thereafter, Hall County will maintain the roads.
- 14. The developer shall be responsible for obtaining all of the necessary permits as well as all costs associated with the improvements recommended by the traffic impact study, such as but not limited to the construction of a left and right turn lane on state route 211 (aka Old Winder Highway).
- 15. All stream buffers must be fully within the Homeowners' Association (HOA) common space and shall not be included on any individual residential building lot.
- 16. There shall be 43 guest parking spaces provided as shown on the site plan dated July 10, 2024.
- 17. The cluster mailbox unit shall have no less than 5 parking spaces.
- 18. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County.
- 19. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."
- 20. All conditions of zoning shall be made a part of any plats or construction plans created for the property.
- 21. Buildings shall have no more than 6 units per building. Each building shall be staggered back 4-5 feet from the front setback of adjacent buildings.

Please contact me if you have questions or if you require any additional information concerning this action of the Board.

Sincerely,

Ruiera Jennifer Rivera

Hall County Commission Clerk

Subject:	HCPC Tentative Agenda 11.4.24

Please find Environmental Health comments below:

Item 1, 5342 Robin Trail, Zhen: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system. An existing system evaluation/site visit will be required for Environmental Health to process the building permit application.

Item 2A/B, 3416 Gaines Mill Road, Perez: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 3, 4163 Cleveland Hwy, Carrillo: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan.

Item 4, 6539 Ransom Free Road, Cash: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation may be required after review of business plan. A Food Service permit/plan review may be required after review of business plan.

Item 5, 0 Dorsey Drive, Phillips: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 6, 2522 Lee Land Road, Bell: No comment. Public sewer.

Item 7, 5111 Old Winder Hwy, Gilliam: No comment. Public sewer.

Item 8, 5079 Old Winder Hwy, Gilliam: No comment. Public sewer.

Items 9 and 10: No comment.

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN ______ AND NO LATER THAN ______ AND

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN ______ ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

 Executive Summary:
 BG

 Presenter:
 BG

Approval, with conditions:

- 1. The property shall be developed in accordance with the site plan dated November 19, 2024, and as described in the project narrative dated on August 7, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The development shall be limited to 15 residential lots.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,000 square feet.
- 4. Building materials: All facades of all residences, including single-family, two-family, and/or multi-family, and any non-residential buildings shall be finished with brick, stone, stucco, wood siding, wood shakes, or fiber cement type siding. Vinyl siding on all residential and nonresidential buildings shall be prohibited. Final review and approval is subject to the Director of Planning and Zoning or their designee.
- 5. Sidewalks shall be provided on both sides of the newly constructed road within the development and shall be five (5) feet wide. The access apron at Bogus Road and the newly constructed road shall be paved. Apron design shall be approved by the Hall County Engineering Department.
- 6. The covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review and approval by the Director of Planning. These documents shall include a provision that would assure maintenance of the newly constructed road through adequate assessment of the subdivision property and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.
- 7. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.
- 8. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plats should be prepared to expect the effects of such practices."
- 9. All conditions of zoning shall be made a part of any plats or construction plans created for the property.

PLANNING AND ZONING

DIRECTOR

Beth Garmon

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

To: **Richard Higgins, Chairman** Kathy Cooper, District 1 Commissioner Billy Powell, District 2 Commissioner Gregg Poole, District 3 Commissioner Jeff Stowe, District 4 Commissioner From: Beth Garmon, Director of Planning & Zoning Date: December 23, 2024 Subject: 5552 Bogus Road | Rezone | from Planned Residential Development (PRD) & Agricultural Residential IV (AR-IV) to Planned Residential Development (PRD) | on a 13.81± acre tract | Zoned PRD & AR-IV; Tax Parcel 12051 000015 | Proposed Use: 15-lot residential development | Seth Barnes, applicant

The request before you is from Seth Barnes to rezone from Planned Residential Development (PRD) and Agriculture Residential IV (AR-IV) to PRD for a 15-lot residential development. This item is located within Commission District 3.

At their December 2, 2024 meeting, the Hall County Planning Commission voted to recommend approval, with nine (9) conditions (3-1, Pilcher opposed and Johnny Varner absent).

Staff recommendation: **Approval, with conditions,** as the proposed use is consistent with the surrounding zoning districts and the Rural Residential future land use classification in the Comprehensive Plan.

Public Comments:

- October 7, 2024 HCPC: There was one comment submitted in advance of the Planning Commission meeting and seven spoke during the public hearing.
- December 2, 2024 HCPC: There were no comments submitted in advance of the Planning Commission meeting and no one spoke during the public hearing.

Planning Commission Conditions:

1. The property shall be developed in accordance with the site plan dated November 19, 2024, and as described in the project narrative dated on August 7, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

- 2. The development shall be limited to 15 residential lots.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,000 square feet.
- 4. Building materials: All facades of all residences, including single-family, two-family, and/or multi-family, and any non-residential buildings shall be finished with brick, stone, stucco, wood siding, wood shakes, or fiber cement type siding. Vinyl siding on all residential and nonresidential buildings shall be prohibited. Final review and approval is subject to the Director of Planning and Zoning or their designee.
- 5. Sidewalks shall be provided on both sides of the newly constructed road within the development and shall be five (5) feet wide. The access apron at Bogus Road and the newly constructed road shall be paved. Apron design shall be approved by the Hall County Engineering Department.
- 6. The covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review and approval by the Director of Planning. These documents shall include a provision that would assure maintenance of the newly constructed road through adequate assessment of the subdivision property and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.
- 7. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.
- 8. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property:

"Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plats should be prepared to expect the effects of such practices."

9. All conditions of zoning shall be made a part of any plats or construction plans created for the property.

Therefore, owners, occupants, and users of the property shown on this plats should be prepared to expect the effects of such practices."
- 9. All conditions of zoning shall be made a part of any plats or construction plans created for the property.

Excerpts from the minutes of the December 2, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request.

Seth Barnes, 597 Stillwood Drive, Gainesville, presented the request. The applicant is requesting to rezone 13.81± acres of property zoned Planned Residential Development (PRD, 17.180.060) to Planned Residential Development (PRD, 17.180.060) for the purpose of developing a 15-lot residential subdivision. The total density of the development would be 1.08 units per acre. Per tax records, the property is developed with a 1,174 square foot single-family residence constructed in 2008. Concurrent with this application is a conditional use application (HZCU24-0035) to amend the zoning conditions of the adjacent Planned Office Development (POD, 17.180.070), which is operated by the applicant to provide services to the residents of this proposed development. The subject property was rezoned from Agricultural Residential-IV (AR-IV) on October 25, 2018, for an Assisted Living Community with four

multi-family residential buildings that would each accommodate up to 12 residents. The applicant has decided not to pursue that project.

<u>Motion:</u> A motion to approve, with conditions was made by Stan Hunt and seconded by Frank Sosebee. Vote: (3-1, Gina Pilcher opposed, Johnny Varner absent)

Conditions:

- 1. The property shall be developed in accordance with the site plan dated November 19, 2024, and as described in the project narrative dated on August 7, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The development shall be limited to 15 residential lots.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,000 square feet.
- 4. Building materials: All facades of all residences, including single-family, two-family, and/or multi-family, and any non-residential buildings shall be finished with brick, stone, stucco, wood siding, wood shakes, or fiber cement type siding. Vinyl siding on all residential and nonresidential buildings shall be prohibited. Final review and approval is subject to the Director of Planning and Zoning or their designee.
- 5. Sidewalks shall be provided on both sides of the newly constructed road within the development and shall be five (5) feet wide. The access apron at Bogus Road and the newly constructed road shall be paved. Apron design shall be approved by the Hall County Engineering Department.
- 6. The covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review and approval by the Director of Planning. These documents shall include a provision that would assure maintenance of the newly constructed road through adequate assessment of the subdivision property and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.
- 7. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.
- 8. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property: "Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of

machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plats should be prepared to expect the effects of such practices."

9. All conditions of zoning shall be made a part of any plats or construction plans created for the property.

Excerpts from the minutes of the October 7, 2024 meeting

Applicant's Presentation:

Kristie Turner, Principal Planner, presented a summary of the request.

Seth Barnes, 576 Stillwood Drive, Gainesville, presented the request. The applicant presented a plan that was approved 5 years ago and discussed the motivation for the change and redesign that they feel would better integrate into the community.

Payton Anderson, 24 Dawson Village Way South, Dawsonville, also presented the request. He stated that the development is being produced in an environmental friendly way with reduced development impacts. The development has proposed a gravel road and it would be difficult to create sidewalks along the gravel road but walking paths will be provided from homes to the main facility.

Public Forum:

Megan Smith, 1367 Sydneys Pass, Watkinsville, spoke in support. Ms. Smith stated that she supports a development that could help those with special needs when their families could no longer care for them.

Kevin Meyer, 5345 Bogus Road, Gainesville, spoke in support. Mr. Meyer was originally opposed to the original design but can support the new design with a more residential look that matches the current residential area.

Michael Brown, 3678 Elinburg Cove Trail, Buford, spoke in support for providing a development and community for those with special needs whose families could no longer be with them.

Johnnie Brooke, 4572 Old Claude Peck Road, Gainesville, spoke in opposition. Concerns raised were density and need to protect agriculturally-zoned land. Ms. Brooke stated that Hall County had areas better suited for this development.

Dan Marsh, 5592 Bogus Road, Gainesville, spoke in opposition. Concerns raised were increased density, the safety of the special needs residents who might potentially wander off property, and events on the adjacent property that have encroached onto his property in the past.

Leonard Coleman, 5346 Bogus Road, Gainesville, spoke in opposition. Concerns raised were the existing condition of Bogus Road, the impact of increased traffic and accidents, and the residents of the development having proper mobility if the roads are primarily gravel.

Charles Coleman, 5346 Bogus Road, Gainesville, spoke in opposition. Concerns raised were land conservation, increased traffic and safety concerns on Bogus Road.

<u>Rebuttal</u>

The applicant clarified that along the property lines they have put up signs and have created maps to educate employees during the onboarding process. In response to traffic complaints, the applicant has put up signs along Bogus Road as a reminder to drive slower.

Planning Commission Comments:

Mr. Varner asked for clarification on the signs posted along the neighboring property lines with the concern of them being an eyesore. The applicant explained that the signs were on their property. Mr. Hunt asked if they were similar to no trespassing signs but in reverse and the applicant stated yes. The Planning Commission and the applicants discussed the application and amount of variances needed. The Planning Commission suggested that the applicant table the application and revise their request to more closely align with the county code.

<u>Motion:</u> A motion to table to the meeting on December 2, 2024 by Mr. Hunt and seconded by Ms. Pilcher. Vote: 5-0

A memo to the Planning Commission dated November 22, 2024 contained the following:

Dear Planning Commission,

On November 19, 2024, an updated site plan was provided to Planning staff for the application of Seth Barnes to rezone **5552 Bogus Road** from PRD and AR-IV to PRD for a 15-lot residential development. The changes to the original site plan are outlined below:

- 1. Inclusion of a 50 foot buffer along the north and west property lines
- 2. Inclusion of 4.25 acres of open space, totaling 31% of the total site area
- 3. Modification of Flourish Drive (proposed) to a 50 foot right of way with 20 feet road width paved with asphalt and including curb and gutter as well as sidewalks. The original site plan proposed this road to be a 50 foot right-of-way with 20 feet road width paved with gravel. The modified standards now align with the county's code, where the previous proposal did not.
- 4. Proposed improvements to Wellspring Trail to allow it to serve as access and road frontage for 4 of the 15 proposed lots. Improvements include adding 10 feet of gravel along the northern edge of the existing Wellspring Trail roadbed to create a 60 foot non-county

maintained public road consisting of 10 feet of gravel and 10 feet of asphalt. Improvements are intended to meet county Engineering and Fire Marshall standards.

- 5. Inclusion of a 10 foot landscape strip with fencing along the property frontage on Bogus Road.
- 6. Reduction in minimum lot size from 35,000 square feet to 21,780 square feet. The minimum lot size aligns with Environmental Health lot size requirements, although soil evaluations will be necessary to confirm lot configurations before approval of a final plat.

Staff recommends <u>APPROVAL</u> of the applicant's request with the following conditions:

- 1. The property shall be developed in accordance with the site plan dated August 28, 2024, and as described in the project narrative dated on August 7, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The development shall be limited to 15 residential lots.
- 3. The minimum heated floor area (HFA) of each residential unit shall be 1,000 square feet.
- 4. Building materials: All facades of all residences, including single-family, two-family, and/or multi-family, and any non-residential buildings shall be finished with brick, stone, stucco, wood siding, wood shakes, or fiber cement type siding. The front facades shall incorporate changes in building material, texture, and/or color. Vinyl siding on all residential and non-residential buildings shall be prohibited. (17.180.060)
- 5. Sidewalks shall be provided on both sides of the newly constructed road within the development and shall be five (5) feet wide.
- 6. The access apron at Bogus Road and the newly constructed road shall be paved. Apron designs shall be approved by the Hall County Engineering Department.
- 7. The covenants for the subdivision and the documents establishing the property owner's association shall be submitted for review and approval by the Director of Planning. These documents shall include a provision that would assure maintenance of the newly constructed road through adequate assessment of the subdivision property and would provide for establishing a lien against any property failing to pay said assessment. These documents shall be recorded simultaneously with the final plat and/or prior to the sale of any lots within the subdivision.
- 8. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.

9. The following statement regarding the potential impacts of agricultural operations in the area shall be made a part of any plat recorded on the property:

"Owners, occupants, and users of property shown on this plat are hereby informed of the impacts associated with normal farming practices which may take place on adjacent and nearby property including, but not limited to, noise, odors, dust, the operation of machinery of any kind, the storage and disposal of manure, and the application of fertilizers, herbicides, and pesticides. Therefore, owners, occupants, and users of the property shown on this plat should be prepared to expect the effects of such practices."

10. All conditions of zoning shall be made a part of any plats or construction plans created for the property.

The following should be considered as exceptions to the Official Code of Hall County, and shall warrant further determination by the Board should it choose to approve the submitted narrative and site plan:

<u> 17.180.060.B.5. – Buffers</u>

- A minimum 50-foot planted buffer shall be established along the perimeter of all property boundaries adjacent to residential and/or non-residential zoning districts to ensure that the planned residential development is appropriately screened. The planted buffers shall conform to the requirements as described in section <u>17.260.020</u> titled vegetation buffers and vision clearance. In conditions where required stream buffers exist along a perimeter property boundary, the planning director may grant exemptions from the 50 foot planted buffer if a stream buffer meets or exceeds the 50 foot planted buffer width.
 - The applicant has proposed a 20-foot buffer on the north property line adjacent to AR-IV zoned property. **This does not meet the standard.**

17.180.060.B.7.b Sidewalks

- In addition to the sidewalk requirements that shall be met per chapter 16.70, street construction requirements, all planned residential developments shall construct sidewalks on both sides of the streets that are a minimum of five feet wide.
 - Applicant has not proposed sidewalks on the internal street. This does not meet the standard.

17.180.060.B.9.a Building materials.

- All facades of all residences, including single-family, two-family, and/or multi-family, and any non-residential buildings shall be finished with brick, stone, stucco, wood siding, wood shakes, or fiber cement type siding. The front facades shall incorporate changes in building material, texture, and/or color. Vinyl siding on all residential and non-residential buildings shall be prohibited.
 - The renderings provided by the applicant do not reflect these standards. This does not meet the standard.

17.430.100 - Open Space

• The development shall conform to all open space requirements of sections 17.430.100 through 17.430.150, as shown under the conservation subdivision design option chapter. The only open

space requirement that may differ from those standards set forth in section 17.430.110 is the open space shall comprise at least 30 percent of the gross tract area.

• The applicant is not proposing any open space. This does not meet the standard.

Title 16 - Subdivision

- General design requirements for subdivision road regulations are outlined within Chapter 16. Variances must be specified and justified for consideration.
- Roads without curb and gutter require 60 feet of right-of-way and must incorporate a ditch section roadway design if dedicated for county maintenance.
- Roads proposed with gravel surfaces require a variance to the standards.
 - The applicant is proposing an approximately 611-foot drive with 50 feet of right-of-way which terminates in a cul-de-sac. The cul-de-sac as proposed has a right-of way radius of 50 feet and a 40-foot pavement radius. The proposed road has a gravel surface and does not include curbs, gutters, or sidewalks. The proposed design does not meet the county standard.

Summary Analysis

The applicant is requesting to rezone 13.81± acres of property zoned Planned Residential Development (PRD, 17.180.060) to Planned Residential Development (PRD, 17.180.060) for the purpose of developing a 15-lot residential subdivision. The total density of the development would be 1.08 units per acre. Per tax records, the property is developed with a 1,174 square foot single-family residence constructed in 2008. Concurrent with this application is a conditional use application (HZCU24-0035) to amend the zoning conditions of the adjacent Planned Office Development (POD, 17.180.070), which is operated by the applicant to provide services to the residents of this proposed development.

The subject property was rezoned from Agricultural Residential-IV (AR-IV) on October 25, 2018, for an Assisted Living Community with four multi-family residential buildings that would each accommodate up to 12 residents. The applicant has decided not to pursue that project.

Per the narrative, the applicant is seeking to modify the Planned Residential Development (PRD, 17.180.060) with the intent to create a 15 residential lot subdivision to house adults with intellectual and developmental disabilities. Per the narrative, these lots will be fee simple and sold to participants in Adventures in Mission Ministry. The applicant states that these homes will be 1 to 4-bedrooms ranging between 1,000 and 3,000 square feet.

According to the submitted site plan, the development will create an internal road with a 50-foot rightof-way. The applicant is seeking a variance to allow a gravel surface on the internal road. The site plan does not reflect sidewalks to provide internal pedestrian connection. The applicant has not provided additional open space. A cluster mailbox unit (CBU) will be installed at the front of the development with three parking spaces proposed.

The applicant has proposed a walking path which will connect the residential development to the community center operated by Adventures in Mission Ministry at 6000 Wellspring Trail. The community center intends to offer day programs, training, employment, recreational activities, and meals for these

residents. The concurrent conditional use application (HZCU24-0035) is a request to expand the services at 6000 Wellspring Trail to service this property development.

The applicant has provided elevations for the single-family homes; however, the elevations do not incorporate changes in building material, texture, and/or color, which does not meet the architectural standards within a Planned Residential Development (17.180.060.B.9)

Per the submitted narrative, water services will be provided by City of Gainesville Department of Water Resources with service confirmed in a letter dated July 12, 2024. Sanitary sewer services will be provided by on-site septic systems.

The development standards for the project are described in the table below and are compared with the PRD requirements, (<u>17.180.060</u>):

Standard	PRD Requirement (<u>17.180.060</u>)	Proposed Development
Site Area	5 acre minimum	13.81± acres
Number of Units	-	15 residential lots
Density	2 units per acre maximum	1.08 units per acre
Min. Lot Area	8000 sq. ft.	35,000 sq. ft.
Max. Building Height	_	one story
Min. Open Space	30%	None*
Exterior Buffer	50 feet	20-foot buffer on the north property line adjacent to AR-IV residential property*
Front Setback (internal)	25 feet	30 feet
Side Setback	5 feet	10 feet
Rear Setback (Internal)	20 feet	10 feet*
Parking	2 spaces for each dwelling unit (17.250.020)	2 spaces for each dwelling unit
Min. Heated Floor Space	_	1,000 sq. ft.
Garage – % of front façade	40% of the width of the residence (semi-flush design)	Not specified*
Minimum Sidewalk Width	5 feet	No sidewalk is included on site plan along Flourish Drive*
Cluster Mailbox Unit (CBU)	CBU with 3 short-term parking spaces	CBU with 3 short-term parking spaces
Note: Items marked with a	n asterisk (*) do not conform to	PRD standards (17.180.080).

Based on the future land-use plan, staff finds the requested zoning designation *is consistent* with the Hall County Comprehensive Plan future land use designation of Rural Residential. The intent of this character area is to preserve the established residential/rural character and create a transition between Rural Areas and development in Residential Areas. This land use designation envisions low density at 1 dwelling unit per 1-1.5 acres depending on public water availability. The development has a proposed density of 1.08 units per acre.

Zoning Analysis

Per Planning Commission and Hall County Commission consideration and decision (17.380.060), the commission shall study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry shall be considered, to wit:

- Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property; The zoning proposal is suitable given the context of the surrounding area and the housing needs of the county. The proposed development has an overall density of 1.08 dwelling units per acre. The surrounding area consists of low-density residential and agricultural uses.
- Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; No, it is not anticipated that the proposed Planned Residential Development (PRD, 17.180.060) will adversely affect adjacent properties.
- 3. Whether the property to be affected by the zoning proposal has reasonable economic use as currently zoned. The property has reasonable economic use as currently zoned, Planned Residential Development (PRD, 17.180.060)
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; It is not anticipated that the proposed rezoning will result in an excessive or burdensome use of existing infrastructure. The proposal has received an availability letter for water and will utilize private on-site septic systems.
- 5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan; The proposed use is consistent with the Comprehensive Plan and the Rural Residential land use designation, which envisions a maximum density of 2 dwelling unit per acre. The proposed development has an overall density of 1.08 units per acre.
- 6. The extent to which property values are diminished by the existing zoning restrictions; Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.
- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; Staff has not identified a hardship imposed on the property owner as the property is currently zoned.
- The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The property is currently developed with a 1,174 square foot single-family residence constructed in 2008.

- Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal;
 Staff is not aware of any changing conditions that affect the use and development of the property.
- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The proposed zoning is a Planned Residential Development (PRD, 17.180.060). Per the Official Code of Hall County, Planned Development Districts (17.180) are to be utilized as a "floating zone" which shall mean that areas will not be pre-designated as planned development districts but rather each such designation shall result from a specific and separate application for amendment.
- Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; There is no evidence that the present zoning district boundaries are illogically drawn.
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; No, the use does not appear to be out of scale with the needs of the County as a whole, as there is a need for additional and varied housing.
- 14. Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; There are other properties within the County that support an attached, single-family residential use based on the Future Land Use Map. However, the intention of this property is to connect housing with services provided by Adventures in Missions Ministries, which is adjacent to the subject parcel; therefore, the development as proposed cannot be developed in any of the existing residential or multi-family districts without Board of Commissioner approval.
- **15.** Whether the need for rezoning could be handled instead by a variance request to the [Planning Commission]; **The request could not be handled alternatively as a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result, are subject to local, state, and federal regulations. There should not be an ecological or pollution impact resulting from any modification to the land if the request is granted.
- 17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; There is no indication that a mistake was made in the original zoning.

A Planned Residential Development (PRD, 17.180.060) allows for more flexibility in the design and development of the property. This provides for a mixture of housing types and encourages maximum use of natural features through proper site planning measures. The development should conform to the existing character and development pattern of the surrounding area.

17.380.050. - Submission requirements

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in chapter 17.30 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 17.380.060.C of this section [chapter].
 The proposal provides a narrative outlining the intent of the development; however, the applicant has not prepared a response to each of the criteria listed in 17.380.060.C.
 - 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal meets the requirement.
- C. For any application for a slow rate land treatment system (see chapter 17.20), the following additional requirements apply **This standard is not applicable to the applicant's request.**
- D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. This standard is not applicable to the applicant's request.

Development Support and Constraints – Departmental / Agency Comments

Hall County Environmental Health

In an email dated September 5, 2024, Emily McGahee stated, "All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process."

Hall County Fire Marshal

In an email dated August 30, 2024, John Hornick, NPQ Fire Service Plans Examiner 1, provided the following comments:

- Additional fire hydrants may be required to be installed off the existing water line along Wellspring Trail to meet the hose lay distance requirements to the proposed residential structures.
- 2) The Hall County Fire Marshal's Office considers the plan conceptual in nature, and if approved may require modifications during the development review process.

Hall County Public Works and Utilities

In a memo dated September 6, 2024, Bill Nash, Director of Public Works and Utilities, provided the following comments:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.

Traffic:

- 1. Access apron at Bogus Rd. must be paved to county standards regardless if gravel road is permitted. If variances are not approved, the new roadway will need to meet Hall County Subdivision regulations.
- 2. Unclear, is new roadway proposed to be County maintained? If so, the County does not typically accept gravel roadways into maintenance.

Utilities:

No comment

Georgia Department of Transportation

In an email dated September 3, 2024, Veronica Chavers, stated GDOT coordination is not required.

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

- (b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating \$250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:
- (3) The name and official position of the local government official to whom the campaign contribution was made; and
- (4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.
 - (b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

Project Narrative for: Hall County Tax Parcel #: 12051 000015 5552 Bogus Road Gainesville, GA 30506

<u>Summary</u>

The accompanying application seeks to modify existing PRD Zoning for ±13.9 acres of partially undeveloped property on Bogus Road in north Hall County approximately 4,200' from the intersection with Nopone Road. The intent is to create a 15-lot residential subdivision for adults with Intellectual and Developmental Disabilities (IDD) and will be fee simple lots to be sold to participants with Adventures in Missions Ministry. The homes will range from 1 to 4 bedrooms, with sizes of the homes varying between 1,000 and 3,000 SF. Some units will include garages, while others will not.

Site Description

The parcel is located midway between SR 129 and SR 284 and has approximately 700' of frontage along the western right-of-way of Bogus Road (50' R/W). Parcel 12051 000015 is rectangular in shape (700'x650') and currently contains a single family dwelling only. Existing utilities, including water, electricity and communications are in place to serve the property. All future lots will be served by individual on-site septic systems.

The property is adjoined on its north and west by property zoned AR-IV and to the south by POD (planned Office Development currently owned by the applicant. To the east is Bogus Road with AR-IV zoning on opposite side.

Access to the lots will be from a newly constructed gravel road (Flourish Drive). Access to Lot 11 will be via Bogus Road. Residents intended means of travel, to and from the homes and the community center, will either drive by vehicle or walk via walking path (shown on plan).

Proximity to Other Uses

- Nearest distance to developed commercial property at SR 129 and Nopone Road 10,050'
- Nearest distance to undeveloped commercial property at SR 129 and Claude Peck Road 5,150'
- Nearest distance to a single-family residence at 5553 Bogus Road 100'
- Nearest distance to a subdivision Whitetail Path Cove in Highlands Gate S/D 2,400'

Comprehensive Plan Consistency

The project is consistent with the residential designation of the Future Land Use Map. The expansion of the development with this use should not be in conflict with the nearby property owner's use and enjoyment of their properties.

Project Parameters

- Density 0.92 ac/lot density. Minimum lot size = 35,000 SF (0.80 ac.)
- Phasing N/A
- Parking Each home to have individual driveways and parking areas
- Max building height 2-story
- Building setbacks 30' front, 10' side, 10' rear
- Hours of Operation 24/7 full-time residential dwellings
- Lighting non-spill lighting along roadway for resident safety
- Signage None proposed at this time
- Building Materials Hardi-Board with rock and/or brick accents

Variance Request Items

Road Standards:

- Gravel Surface (Paving Required)
- 50' Right-of-Way (60' Required)
- No Sidewalks
- No Curb & Gutter

Dimensional Requirement:

- 20' Buffer (Same as current buffer/ 50' Required)
- Flag Lot Width 20' (50' Required)

Flourish Community Primer

The Problem

A Georgia report in 2007 showed that roughly 25% of households had family members with IDD, 14.3% of Georgia's total population. Yet there are few communities designed to provide their physical, social, emotional and vocational needs. Most families stay in the school system as long as possible (a three year extension in Georgia) and then bring their child back home.

- 85% of young adults with IDD say they feel lonely most days.
- 1/3 of people with IDD are living below the poverty line.
- 87% of autistic adults live with their parents, but only 22% want to.
- 1,600 students with IDD are aging out of high school every year in Georgia.
- 11 million families across the country are looking for a residential option for their loved one with IDD.

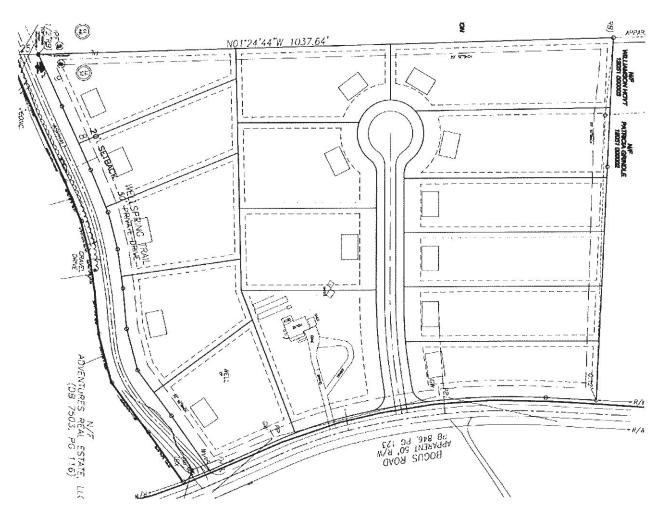

This data reveals issues of isolation, a lack of residential solutions and a lack of care options for this demographic.

See the report at the end of this primer for more information about Georgia's standing relative to other states

The Solution

Flourish Community seeks to provide an inclusive place of belonging and purpose for people with IDD.

In partnership with Adventures in Missions and The PIER Center, our objective is to build 14 homes (in addition to the one already there) in North Hall.

The Community & Residents

Built on the basis of inclusivity, belonging and purpose, this community is designed to promote and protect the interests of people with IDD. We believe our missionaries in training will help create an element of care and connection that is truly unique.

Hutch and Cindy Matteson

They have 4 kids and 1 grandchild. Three of their kids are married. Josh, who was born with Down's Syndrome still lives with them.

<u>Day Program:</u> Started The PIER Center in 2011 and started looking for housing solutions at that same time. Since then they have served 70 adults with disabilities

Hutch has held a variety of roles in the church for 25 years, including lead pastor. Their heart's desire is to be a part of a community where Josh can live safely and have the care he needs as they grow older.

Leah: 34 years old

<u>Disability:</u> Has a chromosomal deletion that has caused her a variety of impairments, including speech and learning.

Leah has a sweet temperament and loves to bake, sit on the porch and play with her nieces and nephews.

<u>Living situation</u>: She has always lived with her parents, who are now approaching retirement and wondering what her future looks like without them.

Josh: 34 years old

Disability: Down Syndrome/Congenital heart defect

<u>Favorite Sports Team</u>: The Braves, Falcons and Georgia Bulldogs

<u>Favorite Pastime</u>: Josh loves to ride his trike, watch movies and listen to music. He also loves going to the beach with his family.

Josh really enjoys being with friends who are similar to him as any "typical" adult enjoys. He's interested in living more independently and having the opportunity to live away from family like his siblings enjoy.

Sometimes Josh is lonely, not having age appropriate peers around like he did when his siblings were at home.

Kevin: 54 years old

Is the youngest of 8 children. Both his parents have passed. He currently lives with his sister and brother in law, who also have 2 children and 4 grandkids.

Favorite sports team: Georgia Bulldogs

<u>Favorite pastime</u>: listening to country music and going out to eat.

Kevin has been going to PIER for six years. He and Josh hope to be housemates at Flourish.

Homes

Houses will be built by America's Home Place and residents will have three models to choose from. Homes will be consistent in quality and appeal with the surrounding area.

Here are a few of the models being considered:

The Cherokee: 2 Bedrooms, 1 Bath

The Oxford: 3 Bedroom, 2 Bath

The Brookwood: 4 Bedroom, 3.5 Bath

Inclusivity: Missionaries and people with IDD in community together.

In collaboration with Adventures in Missions, Flourish seeks to establish a community of like-minded individuals to live interdependently together. Adventures runs a discipleship and training program for missionaries, who will live in some of the homes. Others will be occupied by families who care about these demographics and want to get involved.

Belonging: A group of people that care about and support one another.

Flourish Community will be governed by a set of community guidelines and a governance board designed to promote and protect the interests and health of these demographics (people with IDD and missionaries).

Purpose: Each person was created by God to add value to this world.

A day program called The PIER Center has been running at the Adventures offices for the past five years. They provide training and create employment opportunities for people with IDD. Additionally, the interdependent nature of the community provides a context for learning and valuing each other.

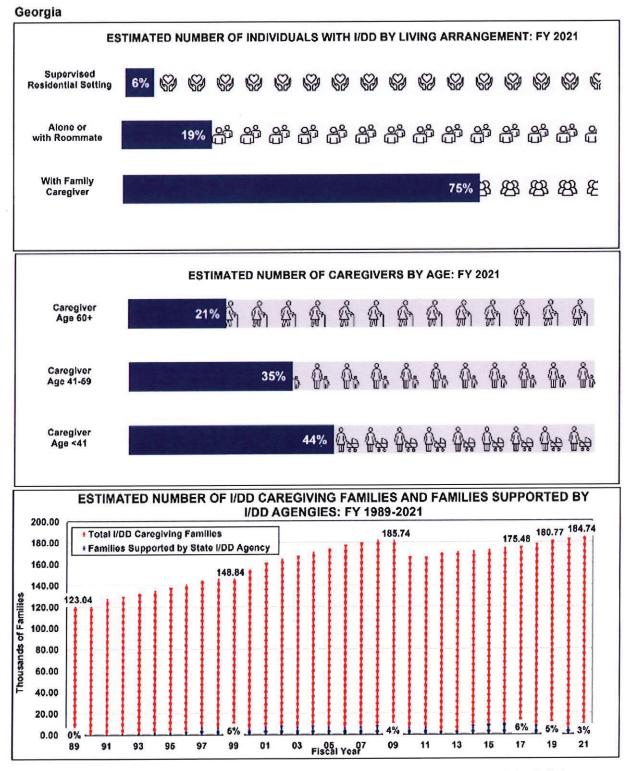

Each resident at the community will have a customized engagement that utilizes Flourish's many options.

- Residence: Homes for sale, homes for rent and rooms for rent. Residents come to
 Flourish to live in community with others like them in a supportive environment.
- Community Support: A non-profit will be established to help look after the residents and drive social engagement.
- Employment: Flourish will work together with local businesses and nonprofits to provide employment opportunities for its residents. The PIER Center (day program) is also starting small businesses designed to employ people with IDD. Currently they make dog treats and sell them locally and all across the country.
- Day Program: Run and managed by a partner organization called The PIER Center, residents have the option to attend classes, vocational training and engage in other activities during the day. People from around the local area are welcome to join as well.
- Community Activities: Evening and weekend activities are organized for the community

 group trips, games, culinary classes, art classes and other fun activities.

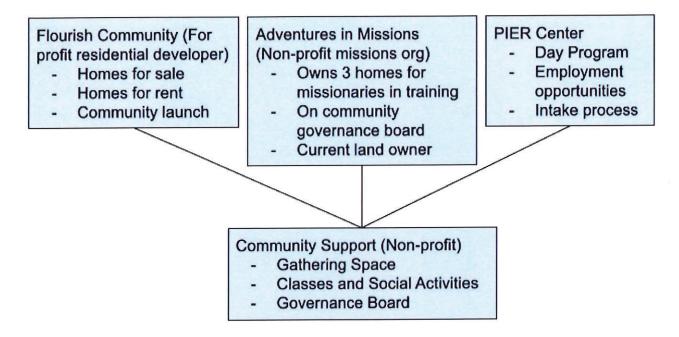

Flourish Community, Adventures in Missions and The PIER Center are partnering together to execute this vision. Additionally, a non-profit organization will be established to oversee the functioning and health of the community.

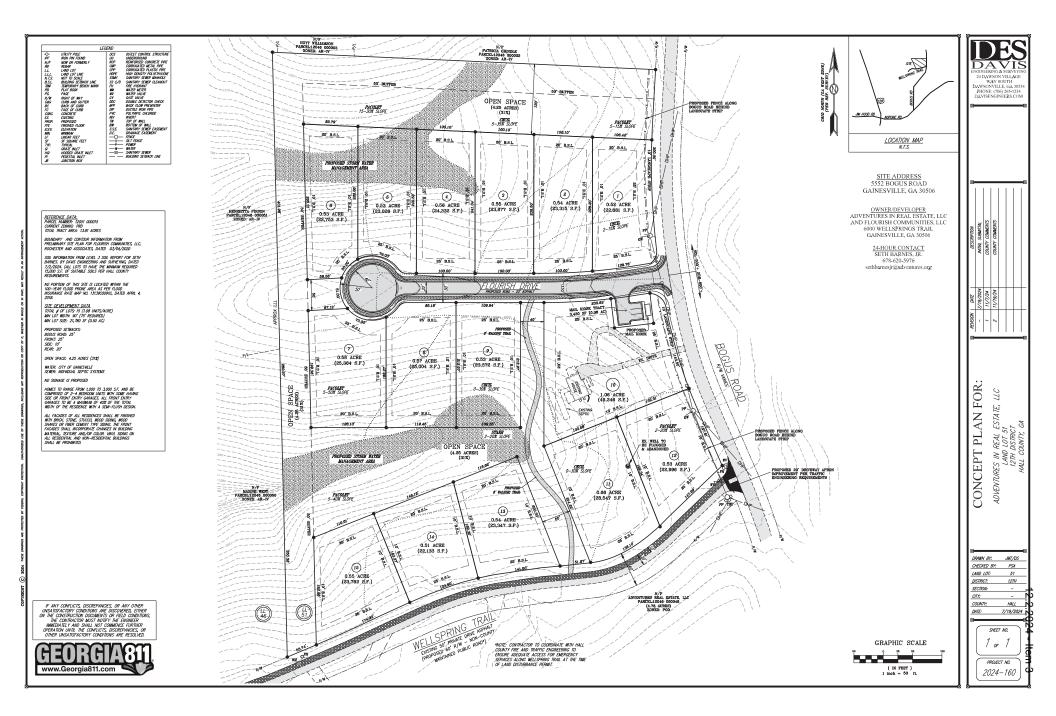

Out of an estimated 240,000 people living with IDD in Georgia (according to Georgia Recorder), only about 14,500 are living in a supervised residential setting.

Hall County Government BOARD OF COMMISSIONERS

November 6, 2018

Adventures in Missions 6000 Wellspring Trail Gainesville, GA 30501

RE: Application to Rezone

To Whom it May Concern:

Please be advised that in its meeting of October 25, 2018, the Hall County Board of Commissioners voted to approve the following application with the conditions listed.

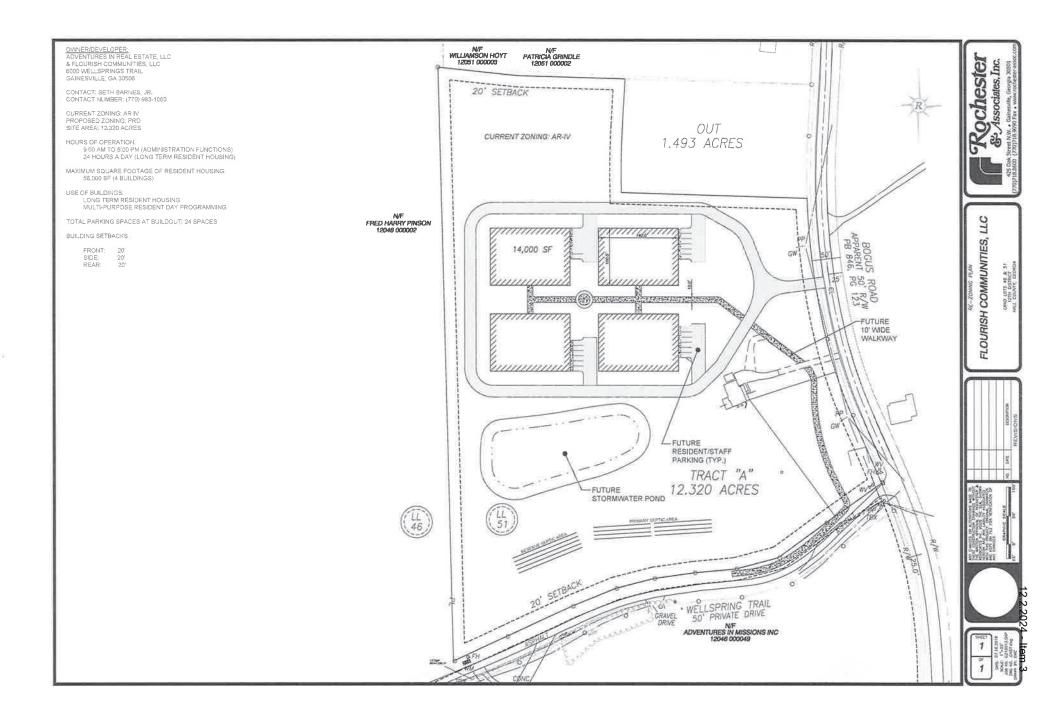

- Application of Adventures in Missions to rezone from Agricultural Residential-IV (AR-IV) to Planned Residential Development (PRD) on 12.32± acres located on the west side of Bogus Road, 425±feet from its intersection with Claude Peck Road; a.k.a. 5552 Bogus Road; Zoned AR-IV; Tax Parcel 12051 000015(pt). Proposed Use: Assisted Living Community. Commission District 3. CONDITIONS:
 - 1) Development is approved as generally shown on the concept plan and described int he project narrative modified as necessary for compliance with development standards at the time of development review. aAny deviation from the site plan or narrative shall require approval from the Hall County Planning Director.
 - 2) The proposed buildings shall be residential in character and building materials shall contain a mixture of masonry materials and require approval of the Hall County Planning Director prior to permitting. Vinyl siding is prohibited.
 - A 20 foot planted buffer is required between properties of a different owner. The buffer shall meet the requirements of §12.260 of the Official Code of Hall County.
 - 4) All conditions of zoning shall be made part of any plat created for the property.
 - 5) All development shall be permitted through the Hall County Development Review process, including grading and improvements such as buildings, parking lots, and stormwater management facilities.

Please contact me if you have questions or if you require any additional information concerning this action of the Board.

a A. Ritchie

Hall County Commission Clerk

CITY OF GAINESVILLE

WATER RESOURCES

July 12, 2024

Davis Engineering and Surveying Attn: Payton Anderson 24 Dawson Village Way South Dawsonville, GA 30534

Re: Water Availability Proposed 15-Lot Residential Development PINs: 12051 000015

Dear Payton,

The purpose of this letter is to confirm the availability of water service to the above referenced property.

The City of Gainesville owns and operates an existing 8-inch DIP water main in the right-of-way of Bogus Road that currently terminates at the intersection with Wellspring Trail. A developer-constructed water main extension to and inside the proposed development would be required in order to connect to the City's public water system. The City also owns and operates an existing 8-inch DIP water main along Wellspring Trail which could serve the proposed lots fronting that road.

Currently, the City has adequate domestic water capacity to serve your proposed 15-lot residential development.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford

Nick Swafford Permitting Services and GIS Manager

Follow Up Flag:	Follow up
Flag Status:	Completed

Please find Environmental Health comments below:

Items 1A,B,C, 6111 Oak Hill Drive, Hoffmann: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system. An existing system evaluation/site visit will be required for Environmental Health to process the building permit application.

Item 2, 3654 Thompson Bridge Road, Benson: No comment. Public sewer.

Item 3, 1600C Athens Hwy, Vargas: No floor drains or process wastewater to be discharged to the existing septic system. Domestic waste only.

Item 4, 6147 Dahlonega Hwy, Rich: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan.

Item 5, 4137 Short Rd, Allen: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. This plat is currently under review by the Hall County Plat Review Team, which is waiting for revisions to be submitted for review under case number HPLT24-0090.

Item 6, 6000 Wellspring Trail, Barnes: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan. A Food Service permit/plan review may be required after review of business plan

Item 7, 5552 Bogus Road, Barnes: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 8, 7011/7051 Pony Lake Road, Roys: Septic Permit OSC-9259 was issued on May 30, 2024 for the proposed structure.

Item 9, 7051 Pony Lake Road, Roys: Septic Permit OSC-9259 was issued on May 30, 2024 for the proposed structure.

Item 10, 2002 Memorial Park, Sancen: Must meet all Environmental Health commercial septic system permitting requirements. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan. An onsite sewage management system (and bathroom structure) will be required on the property if it is to be occupied for two hours or more.

Gainesville	GA	30506	

Your Comments*

While we have empathy for the project Mr. Barnes is proposing, we have concerns about the potential impact to our area. We moved to this part of the county to avoid subdivisions, busy roads, and to take advantage of less congested schools for our young children. We fear the increased traffic and influx of families will negatively impact those qualities that drove us to purchase property and build our home in North Hall County. We are also concerned that the building of multiple new homes will significantly increase our tax burden, on top of the steep hike we have already seen over the last two years. I respectfully urge you to listen to the concerns of tax paying citizens in your district and vote no for the proposed project at 5552 Bogus Rd.

Please write your comments in the box above.

Follow-up Communication

Would you like a Hall County staff member to follow up with you? If so, please leave your email address or phone number in the box above. Otherwise, leave this box blank.

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

 THE ZONING SIGN MUST BE POSTED NO EARLIER THAN
 July 20th, 2024
 AND

 NO LATER THAN
 August 19th, 2024

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN ______ ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AGENDA ITEM

Public Hearing to amend Hall County's Zoning Map as follows:

REPORT TO:	Work Session (01/06/25)
REPORT TO:	Voting Meeting (01/09/25)
ITEM NO:	698/2024
SUBJECT:	6000 Wellspring Trail Amend Conditions of Zoning on a 20.29± acre tract located at the terminus of Wellspring Trail Zoned POD; Tax Parcel 12046 000001 Proposed Use: Expansion of services Commission District 3 Seth Barnes, applicant

Meetings:

Work Session Date:	01/06/25	Voting Meeting Date:	01/09/25

Executive Summary:

Presenter: Recommendation: Approval, with conditions: ΒG

- 1. The property shall be developed in accordance with the site plan approved July 14, 2016, and amended as described in the projective narrative dated August 19, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated July 14, 2016, as amended shall apply:
 - a. Development shall generally occur as outlined in the project narrative and on the proposed site plan.
 - b. The proposed camping areas shall meet count and state stream buffer requirements. Any impervious surfaces need to fall outside of the 75 ft. county buffer. Grading and/or clearing for the camping areas may require a land disturbance permit from Hall County Engineering, and they should be consulted prior to any work beginning.
 - c. The development will be held on Section 8.2.3 regarding vegetative buffers adjacent to residential properties.
 - d. Buffering will be required around the parking areas visible from Bogus Road as to preserve the residential nature of the area.
 - e. Outdoor training will be limited to 10:00 pm. The conditions of zoning shall be made a record of any new plat of the property.
- 3. The Planned Office Development (POD) shall be permitted to expand services to provide day programs, training, employment, recreational activities, and meals to the residents of the adjacent 15-lot residential subdivision.
- 4. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.

Purpose of Request:

PLANNING AND ZONING

DIRECTOR

Beth Garmon

Hall County Government

COMMUNITY DEVELOPMENT & INFRASTRUCTURE PLANNING AND ZONING

Richard Higgins, Chairman Kathy Cooper, District 1 Commissioner Billy Powell, District 2 Commissioner Gregg Poole, District 3 Commissioner Jeff Stowe, District 4 Commissioner From: Beth Garmon, Director of Planning & Zoning Date: December 23, 2024 Subject: 6000 Wellspring Trail | Amend conditions of zoning | on a 20.29± acre tract | Zoned POD; Tax Parcel 12046 000001 | Proposed Use: Expansion of services | Seth Barnes, applicant

The request before you is from Seth Barnes to amend the conditions of zoning to allow the expansion of services for a non-profit organization. This item is located within Commission District 3.

At their December 2, 2024 meeting, the Hall County Planning Commission voted to recommend approval, with four (4) conditions (4-0, Johnny Varner absent).

Staff recommendation: Approval, with conditions, as the proposed changes are consistent with previous approvals.

Public Comments:

To:

- October 7, 2024 HCPC: There were no comments submitted in advance of the Planning Commission meeting and no one spoke during the public hearing.
- December 2, 2024 HCPC: There were no comments submitted in advance of the Planning Commission meeting and five (5) people spoke during the public hearing (1 in favor and 4 in opposition).

Planning Commission Conditions:

- 1. The property shall be developed in accordance with the site plan approved July 14, 2016, and amended as described in the projective narrative dated August 19, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated July 14, 2016, as amended shall apply:

- a. Development shall generally occur as outlined in the project narrative and on the proposed site plan.
- b. The proposed camping areas shall meet count and state stream buffer requirements. Any impervious surfaces need to fall outside of the 75 ft. county buffer. Grading and/or clearing for the camping areas may require a land disturbance permit from Hall County Engineering, and they should be consulted prior to any work beginning.
- c. The development will be held on Section 8.2.3 regarding vegetative buffers adjacent to residential properties.
- d. Buffering will be required around the parking areas visible from Bogus Road as to preserve the residential nature of the area.
- e. Outdoor training will be limited to 10:00 pm. The conditions of zoning shall be made a record of any new plat of the property.
- 3. The Planned Office Development (POD) shall be permitted to expand services to provide day programs, training, employment, recreational activities, and meals to the residents of the adjacent 15-lot residential subdivision.
- 4. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.

Excerpts from the minutes of the December 2, 2024 meeting

Applicant's Presentation:

Katie Greenway, Planning and Zoning Administrator, presented a summary of the request, noting that the this item and the request for rezoning of 5552 Bogus Road could be heard and discussed concurrently, but should be voted on separately.

Seth Barnes, 597 Stillwood Drive, Gainesville, presented the request. The applicant is requesting to amend conditions of a Planned Office Development (POD) to allow for the expansion of services which will enable the ministry to offer day programs, training, employment, recreational activities, and meals for the residents of the adjacent proposed subdivision located at 5552 Bogus Road. The subject property was originally rezoned from Agricultural Residential-IV (AR-IV) to Planned Office Development (POD) on July 14, 2016, for office facilities and a team training campus with 6 conditions.

Public Forum:

Mark Almond, 497 Piedmont Court, Gainesville, spoke in favor. Mr. Almond believes this community will help foster the community growth Hall County is trying to achieve.

Johnnie Brooke, 47 Belle Springs Road, Athens, spoke in opposition. Ms. Brooke stated she was concerned about the safety of the new residents of this development.

Dan Marsh, 5592 Bogus Road, Gainesville, spoke in opposition. Concerns raised were the safety of residents who are able to wonder off property, the increase to traffic the development would bring, and the density.

Whitney Mote, 5553 Bogus Road, Gainesville, spoke in opposition. Concerns raised were the possibly of the intended use not working and concern over what would happen to the development in that case, density, tax increases, and if the homes would stay maintained.

Jim Hinshaw, 4568 Old Claude Peck Road, Gainesville, spoke in opposition. Mr. Hinshaw raised concern about the safety of the residents of the new development and inquired about fencing of the property.

<u>Rebuttal</u>

The applicant stated the previously approved PRD was found not to be inclusive for their intended client base. The new site plan was developed after speaking with the Department of Behavioral Health and Department of Disabilities with the goal of inclusivity. The applicant explained the residents would go through a thorough application process which includes interviews, references and attending a day program. The applicant explains that they would like to develop in phases as lots are sold. Additionally, the applicant stated that they will be building a fence along the front of the property that faces Bogus Road which will include landscaping. Regarding safety concerns, the applicant explained they have not had any persons with disabilities on their neighboring property be endangered by the surrounding bodies of water. Also the applicant stated they will have a monitoring system where residents wear watches with navigation capabilities so the residents' locations are always known in case someone does wander away from the property.

Planning Commission Comments:

Mr. Hunt asked Ms. Garmon to confirm that the applicant had already been approved to build four 14,000 square foot multifamily buildings. Ms. Garmon confirmed yes this had been approved, and the applicant is here to amend this approval. Mr. Hunt asked what size houses the applicants intending to build.

Payton Anderson, 24 Dawson Village Way South, Dawsonville, and Mr. Barnes stated that the minimum lot size would be 1,000 square feet but no maximum was stated in their narrative. Mr. Anderson also brought up that a level three soil study has been done and they have been found to meet county requirements for septic systems.

<u>Motion:</u> A motion to approve, with conditions was made by Stan Hunt and seconded by Frank Sosebee. Vote: (4-0, Johnny Varner absent)

Conditions:

- 1. The property shall be developed in accordance with the site plan approved July 14, 2016, and amended as described in the projective narrative dated August 19, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated July 14, 2016, as amended shall apply:
 - a. Development shall generally occur as outlined in the project narrative and on the proposed site plan.
 - b. The proposed camping areas shall meet count and state stream buffer requirements. Any impervious surfaces need to fall outside of the 75 ft. county buffer. Grading and/or clearing for the camping areas may require a land

disturbance permit from Hall County Engineering, and they should be consulted prior to any work beginning.

- c. The development will be held on Section 8.2.3 regarding vegetative buffers adjacent to residential properties.
- d. Buffering will be required around the parking areas visible from Bogus Road as to preserve the residential nature of the area.
- e. Outdoor training will be limited to 10:00 pm. The conditions of zoning shall be made a record of any new plat of the property.
- 3. The Planned Office Development (POD) shall be permitted to expand services to provide day programs, training, employment, recreational activities, and meals to the residents of the adjacent 15-lot residential subdivision.
- 4. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.

Excerpts from the minutes of the October 7, 2024 meeting

Applicant's Presentation:

Kristie Turner, Principal Planner, presented a summary of the request.

Seth Barnes, 576 Stillwood Drive, Gainesville, presented the request. The applicant is requesting to amend conditions of a Planned Office Development (POD, 17.180.070) to allow for the expansion of services which will enable the ministry to offer day programs, training, employment, recreational activities, and meals for the residents of the adjacent proposed subdivision located at 5552 Bogus Road. This property has a concurrent request to rezone the parcel to create a 15-lot residential subdivision (HZON24-0023) to house adults with intellectual and developmental disabilities.

<u>Motion:</u> A motion to table to the meeting on December 2, 2024 was made by Mr. Hunt and seconded by Mr. Varner. Vote: 5-0

Staff recommends <u>APPROVAL</u> of the applicant's request, with the following conditions:

- 1. The property shall be developed in accordance with the site plan approved July 14, 2016, and amended as described in the projective narrative dated August 19, 2024, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
- 2. The previously approved conditions dated July 14, 2016, as amended shall apply:

- a. Development shall generally occur as outlined in the project narrative and on the proposed site plan.
- b. The proposed camping areas shall meet count and state stream buffer requirements. Any impervious surfaces need to fall outside of the 75 ft. county buffer. Grading and/or clearing for the camping areas may require a land disturbance permit from Hall County Engineering, and they should be consulted prior to any work beginning.
- c. The development will be held on Section 8.2.3 regarding vegetation buffers adjacent to residential properties.
- d. Buffering will be required around the parking areas visible from Bogus Road as to preserve the residential nature of the area.
- e. Outdoor training will be limited to 10:pm
- f. The conditions of zoning shall be made a record of any new plat of the property.
- 3. The Planned Office Development (POD) shall be permitted to expand services to provide day programs, training, employment, recreational activities, and meals to the residents of the adjacent 15-lot residential subdivision.
- 4. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Official Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to Environmental Health, Fire Marshal, and Hall County Engineering.

This staff report has been updated to reflect the newly adopted UDC.

Summary Analysis

The applicant is requesting to amend conditions of a Planned Office Development (POD) to allow for the expansion of services which will enable the ministry to offer day programs, training, employment, recreational activities, and meals for the residents of the adjacent proposed subdivision located at 5552 Bogus Road. This property has a concurrent request to rezone the parcel to create a 15-lot residential subdivision (HZON24-0023) to house adults with intellectual and developmental disabilities.

The subject property was originally rezoned from Agricultural Residential-IV (AR-IV) to Planned Office Development (POD) on July 14, 2016, for office facilities and team training campus with the following 6 conditions:

- 1. Development shall generally occur as outlined in the project narrative and on the proposed site plan.
- 2. The proposed camping areas shall meet count and state stream buffer requirements. Any impervious surfaces need to fall outside of the 75 ft. county buffer. Grading and/or clearing for the camping areas may require a land disturbance permit from Hall County Engineering, and they should be consulted prior to any work beginning.
- 3. The development will be held on Section 17.260 regarding vegetation buffers adjacent to residential properties.
- 4. Buffering will be required around the parking areas visible from Bogus Road as to preserve the residential nature of the area.
- 5. Outdoor training will be limited to 10:pm

6. The conditions of zoning shall be made a record of any new plat of the property.

The applicant's proposal is to provide service to the residents of the adjacent 15 lot residential subdivision, which requires an amendment to the conditions of zoning to allow for the expansion of services.

Zoning Analysis

Per Planning Commission and Hall County Commission consideration and decision, the commission shall study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry shall be considered, to wit:

- Whether the zoning proposal will permit a use that is suitable in view of the use, development and zoning of adjacent and nearby property; The requested amendment to the development is consistent with the previous approval for the Planned Office Development on July 14, 2016.
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; No, it is not anticipated that the proposed residential use will adversely affect adjacent properties.
- Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; Yes, the property has reasonable economic use as currently zoned Planned Office Development (POD).
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, or utilities; **The project was** approved July 14, 2016, and the expansion of services will not result in an excessive or burdensome use of existing infrastructure.
- 5. Whether the zoning proposal is in conformity with the policy and intent of the future land use plan for the physical development of the area; The zoning designation has been established by previous board action with the original approval of the development. The requested modification does not significantly impact the designated future land use of the area.
- 6. The extent to which property values are diminished by the existing zoning restrictions; **Staff** is unable to determine the extent to which property values are diminished by the existing zoning restrictions.
- 7. The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.

- 8. The relative gain to the public as compared to the hardship imposed upon the individual property owner; **Staff has not identified a hardship imposed on the property owner as the property is currently zoned.**
- 9. The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; The subject property is currently developed with two church structures built in 1996 and 2005, a pavilion built in 2015, and a current project to add a bath house (HDEV24-0098).
- 10. Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; **Staff is not aware of any changing conditions affecting the use or development of the property.**
- 11. Whether the change would create an isolated district unrelated to the surrounding districts; The current request is to amend conditions of an existing POD. Per the Official Code of Hall County, the Planned Development District is to be utilized as a "floating zone" which shall mean that areas will not be pre-designated as planned development districts but rather each such designation shall result from a specific and separate application for amendment.
- 12. Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**
- 13. Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; No, the recommended amendments to the conditions would not be out of scale with the needs of the County as a whole.
- 14. Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; **The existing zoning of the subject site supports the proposed use.**
- 15. Whether the need for rezoning could be handled instead by a variance request to the zoning board of adjustment; **The request could not be handled alternatively as a variance.**
- 16. Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.

17. Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

A Planned Office Development (POD) allows orderly, well-designed office and institutional uses upon a site that results in minimum impact upon the surrounding area. The site plans and building designs should produce a development that can be constructed to achieve maximum utilization of space while maintaining a low-intensity office character protected from more intensive commercial and industrial development and protecting any nearby residential uses. Such a development may also include a limited number of residential and commercial uses.

Submission requirements

- A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in Table 11.2.1 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. The proposal meets the requirement, and the applicant understands that someone must be present at both the Hall County Planning Commission meeting and the voting meeting of the Hall County Board of Commissioners.
- B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:
 - 1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 11.2.6.E. The proposal does provide a narrative outlining the intent of the request; however, the applicant has not prepared a response to each of the criteria listed in 11.2.6.E.
 - 2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district. The proposal meets this requirement.
- C. For any application for a slow rate land treatment system (see section 11.2.6.E.2.c), the following additional requirements apply. **This standard is not applicable to the applicant's request.**

D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. **This standard is not applicable to the applicant's request.**

Development Support and Constraints

Hall County Environmental Health

In an email dated September 5, 2024, Emily McGahee stated, "Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan. A Food Service permit/plan review may be required after review of business plan."

Hall County Fire Marshal

In an email dated August 30, 2024, John Hornick, NPQ Fire Service Plans Examiner 1, provided the following comments:

- Additional fire hydrants may be required to be installed off the existing water line along Wellspring Trail to meet the hose lay distance requirements to the proposed residential structures.
- 2. The Hall County Fire Marshal's Office considers the plan conceptual in nature, and if approved may require modifications during the development review process.

Hall County Public Works and Utilities

In a memorandum from Public Works and Utilities dated September 6, 2024, Bill Nash, Director of Public Works, provided the following comments:

Engineering:

This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffer and impervious setback from wrested vegetation not centerline of stream Show FEMA and Hall County studied Flood plains that are present on site.

Traffic: No comment

<u>Utilities:</u> No comment

Georgia Department of Transportation:

In an email dated September 3, 2024, Veronica Chavers, stated GDOT coordination is not required.

COUNTY ADMINISTRATOR Randy D. Knighton

ASSISTANT COUNTY ADMINISTRATOR Marty Nix

COMMISSION CLERK Lisa A. Ritchie

conditions listed below: Application of Adventures in Missions. Inc to rezone from AR-IV to POD, a 24.97± acre tract located on the south side of Wellspring Trail at its

Board of Commissioners voted to approve the following application with the

Please be advised that in its meeting of July 14, 2016, the Hall County

intersection with Bogus Road; a.k.a. 6000 Wellspring Trail; Tax Parcels 12046 000001 and 048. Proposed Use: Office facilities and team training campus. Commission District 3.

CONDITIONS

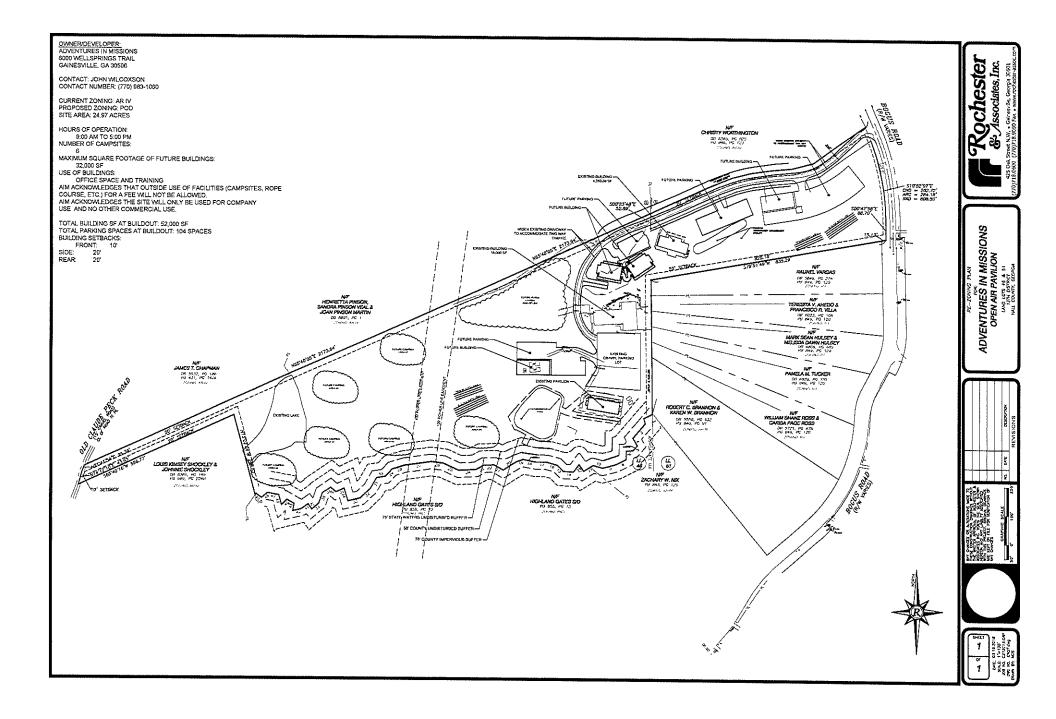

- 1) Development shall generally occur as outlined in the project narrative and on the proposed site plan.
- 2) The proposed camping areas shall meet county and state stream buffer requirements. Any impervious surfaces need to fall outside of the 75 ft. county buffer. Grading and/or clearing for the camping areas may require a land disturbance permit from Hall County Engineering and they should be consulted prior to any work beginning.
- 3) The development will be held on Section 17.260 regarding vegetation buffers adjacent to residential properties.
- 4) Buffering will be required around the parking areas visible from Bogus Road as to preserve the residential nature of the area.
- 5) Outdoor training exercises will be limited to 10:00 p.m.
- 6) The conditions of zoning shall be made a record of any new plat of the property

Please contact me if you have questions or if you require any additional information concerning this action of the Board.

incerely Lisa A. Ritchie

Subject:	HCPC Tentative Agenda 10.7.2024
Follow Up Flag:	Follow up
Flag Status:	Completed

Please find Environmental Health comments below:

Items 1A,B,C, 6111 Oak Hill Drive, Hoffmann: All proposed structures must meet all residential permitting requirements and/or required setbacks to existing septic system. An existing system evaluation/site visit will be required for Environmental Health to process the building permit application.

Item 2, 3654 Thompson Bridge Road, Benson: No comment. Public sewer.

Item 3, 1600C Athens Hwy, Vargas: No floor drains or process wastewater to be discharged to the existing septic system. Domestic waste only.

Item 4, 6147 Dahlonega Hwy, Rich: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan.

Item 5, 4137 Short Rd, Allen: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. This plat is currently under review by the Hall County Plat Review Team, which is waiting for revisions to be submitted for review under case number HPLT24-0090.

Item 6, 6000 Wellspring Trail, Barnes: Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan. A Food Service permit/plan review may be required after review of business plan

Item 7, 5552 Bogus Road, Barnes: All proposed lots must meet Hall County Board of Health Lot Size Resolution requirements. Please note that Zoning approval does not imply approval from other county departments. Further determination will be made during the plat review process.

Item 8, 7011/7051 Pony Lake Road, Roys: Septic Permit OSC-9259 was issued on May 30, 2024 for the proposed structure.

Item 9, 7051 Pony Lake Road, Roys: Septic Permit OSC-9259 was issued on May 30, 2024 for the proposed structure.

Item 10, 2002 Memorial Park, Sancen: Must meet all Environmental Health commercial septic system permitting requirements. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan. An onsite sewage management system (and bathroom structure) will be required on the property if it is to be occupied for two hours or more.

UTILITIES DIRECTOR Bill Nash, P.E.

Hall County Government COMMUNITY DEVELOPMENT AND INFRASTRUCTURE PUBLIC WORKS AND UTILITIES

MEMORANDUM

	To:	Beth Garmon, Director of Planning and Zoning
POST OFFICE DRAWER 1435	From:	Bill Nash, Director of Public Works and Utilities
GAINESVILLE, GA 30503	Date:	September 6, 2024
t: 770.531.6800 f: 770.531.3945	Subject:	October 7, 2024 - Hall County Planning Commission Agenda

Please be advised that our office has reviewed the Hall County Planning Commission agenda for the October 7, 2024 meeting. Upon review, we provide the following comments.

NEW BUSINESS

1. (A) 6111 Oak Hill Drive | Variance | 17.240.010 to reduce the front yard setback along Oak Hill Road | on a 0.39± acre tract located on the west side of Oak Hill Drive approximately 190 feet from its intersection with White Oak Drive | Zoned R-I; Tax Parcel 08102A000030 | Proposed Use: Residential addition | * Commission District 2 | Terri Hoffmann, applicant (B) 6111 Oak Hill Drive | Variance | 17.240.010 to reduce the left side yard setback | on a 0.39± acre tract located on the west side of Oak Hill Drive approximately 190 feet from its intersection with White Oak Drive | Zoned R-I; Tax Parcel 08102A000030 | Proposed Use: Residential addition | * Commission District 2 | Terri Hoffmann, applicant

(C) 6111 Oak Hill Drive | Variance | 17.240.010 to reduce the left side yard setback | on a 0.39± acre tract located on the west side of Oak Hill Drive approximately 190 feet from its intersection with White Oak Drive | Zoned R-I; Tax Parcel 08102A000030 | Proposed Use: Detached carport | * Commission District 2 | Terri Hoffmann, applicant

- **a.** Engineering: Show FEMA and Hall County studied Flood plains that are present on site
- **b.** Traffic: No Comment
- **c.** Utilities: No Comment

- 3658 Thompson Bridge Road | Variance | 17.420. to vary the sign standards within GCOD | on a 4.33± acre tract located on the east side of Thompson Bridge Road approximately 650 feet from its intersection with Southers Road | Zoned PCD; Tax Parcel 10104 000004 | Proposed Use: Wall sign | * Commission District 2 | Davis Sign & Awning c/o Matthew Benson, applicant
 - a. Engineering: No Comment
 - b. Traffic: No comment
 - c. Utilities: No comment
- <u>1600 Athens Highway, Building C | Amend Conditions of Zoning | on a 0.64± acre tract located</u> on the south side of Athens Highway approximately 596 feet from its intersection with Athens Street | Zoned I-I (GCOD); Tax Parcel 15032 000050 | Proposed Use: Automobile repair garage | ** Commission District 3 | Gerado Vargas, applicant
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.
 - b. Traffic: No comment
 - c. Utilities: No comment
- 6147 Dahlonega Highway | Use Subject to County Commission Approval | on a 19.34± acre tract located on the southwest side of Dahlonega Highway approximately 703 feet from its intersection with Kenimer Road | Zoned AR-IV; Tax Parcel 11003 000002A | Proposed Use: Commercial kennel | ** Commission District 3 | Rachel Christensen Rich, applicant
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffer and impervious setback from wrested vegetation not centerline of stream Show FEMA and Hall County studied Flood plains that are present on site.
 - b. Traffic: No comment
 - c. Utilities: No comment
- 5. <u>4137 Short Road | Use Subject to County Commission Approval | on a 4.02± acre tract located on the south side of Short Road approximately 160 feet from its intersection with Sardis Road | Zoned R-I; Tax Parcel 10080 000010 | Proposed Use: 2-lot subdivision | ** Commission District 2 | Connie Allen, applicant</u>
 - a. **Engineering:** If this subdivision is greater than 6 lots on an existing road, a stormwater management report prepared by a professional engineer will be required.
 - b. Traffic: No comment
 - c. Utilities: No comment

- 6. <u>6000 Wellspring Trail | Amend Conditions of Zoning | on a 20.29± acre tract located at the</u> terminus of Wellspring Trail | Zoned POD: Tax Parcel 12046 000001| Proposed Use: Expansion of services | ** Commission District 3 | Seth Barnes, applicant
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. Show stream buffer and impervious setback from wrested vegetation not centerline of stream Show FEMA and Hall County studied Flood plains that are present on site.
 - b. Traffic: No comment
 - c. Utilities: No comment
- 7. <u>5552 Bogus Road | Rezone | from Planned Residential Development (PRD) & Agricultural Residential IV (AR-IV) to Planned Residential Development (PRD) | on a 13.81± acre tract located on the west side of Bogus Road approximately 420 feet from its intersection with Claude Peck Road | Zoned PRD & AR-IV: Tax Parcel 12051 000015 | Proposed Use: 15-lot residential development | ** Commission District 3 | Seth Barnes, applicant</u>
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage. **Traffic:** Access apron at Bogus Rd. must be paved to county standards regardless if gravel road is permitted.

If variances are not approved, the new roadway will need to meet Hall County Subdivision regulations.

Unclear, is new roadway proposed to be County maintained? If so, the County does not typically accept gravel roadways into maintenance.

- b. Utilities: No comment
- 7011 & 7051 Pony Lake Road | Amend Conditions of Zoning | on a 101.74± acre tract located on the west side of Pony Lake Road approximately 498 feet from its intersection with Old Whelchel Road | Zoned PRD & AR-IV; Tax Parcels 11101 000003A & 000008 | Proposed Use: Staff residence | ** Commission District 3 | Steve Roys, applicant
 - a. Engineering: No comment
 - b. Traffic: No comment
 - c. Utilities: No comment
- 9. 7051 Pony Lake Road | Rezone | from Agricultural Residential IV (AR-IV) to Planned Residential Development (PRD) | on a 1.74± acre tract located on the west side of Pony Lake Road at its intersection with Old Whelchel Road | Zoned AR-IV; Tax Parcel 11101 000008 | Proposed Use: Staff residence | ** Commission District 3 | Steve Roys, applicant
 - a. Engineering: No comment

- b. Traffic: No comment
- c. Utilities: No comment

- 10. 2002 Memorial Park Drive | Rezone | from Residential (R-I) to Highway Business (H-B) on a 0.89± tract on the west side of Memorial Park Drive at its intersection with Browns Bridge Road | Zoned R-I: Tax Parcel 08014 005011 | Proposed Use: Retail sales | ** Commission District 4 | Salomon Sancen, applicant
 - a. **Engineering:** This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.
 - b. Traffic: Driveway would need to meet Hall County and GDOT requirements.
 - c. Utilities: No comment

Monday, October 7, 2024 Hall County Planning Commission Meeting.

 <u>6000 Wellspring Trail | Amend Conditions of Zoning | on a 20.29± acre tract located at the terminus of</u> Wellspring Trail | Zoned POD: Tax Parcel 12046 000001 | <u>Proposed Use: Expansion of services | **</u> Commission District 3 | <u>Seth Barnes, applicant</u>

Hall County Fire Marshal's Comments:

- 1) Additional fire hydrants may be required to be installed off the existing water line along Wellspring Trail to meet the hose lay distance requirements to the proposed residential structures.
- 2) The Hall County Fire Marshal's Office considers the plan conceptual in nature, and if approved may require modifications during the development review process.
- 2. <u>5552 Bogus Road | Rezone | from Planned Residential Development (PRD) & Agricultural Residential IV (AR-IV) to Planned Residential Development (PRD) | on a 13.81± acre tract located on the west side of Bogus Road approximately 420 feet from its intersection with Claude Peck Road | Zoned PRD & AR-IV: Tax Parcel 12051 000015 | Proposed Use: 15-lot residential development | ** Commission District 3 | Seth Barnes, applicant</u>

Hall County Fire Marshal's Comments:

- 1) Fire hydrants will be required to be installed along Flourish Drive to meet the hose lay distance requirements to the proposed residential structures.
- 2) The Hall County Fire Marshal's Office considers the plan conceptual in nature, and if approved may require modifications during the development review process.

John Hornick, NPQ Fire Service Plans Examiner 1 Lieutenant, Hall County Fire Rescue Hall County Government Main: 770-531-6838 | Cell: 404-597-0083 Website: www.Hallcounty.org

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

- 1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
- 2. The Planning Department shall send notification by letter of all other property owners within a 500foot radius of the applicant's property is standard administrative policy of the Planning Department.
- 3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN AUGUST 27, 2024 AND NO LATER THAN SEPT 08, 2024

THE ORGINAL SIGNED AFFIDAVIT MUST BE AND RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN <u>SEPT 08, 2024</u> ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.
