Recommendation:

Approval, with conditions

1. The property shall be developed in accordance with the site plan dated September 12, 2025, and the project narrative dated October 22, 2025, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.
2. Prior to issuance of an agri-entertainment venue business license, a combination plat application shall be submitted to the County for approval.
3. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to the Fire Marshal and Hall County Engineering. Where there may be discrepancies between the proposed standards and County regulations, the County regulations shall overrule unless otherwise approved.
4. All conditions of zoning shall be made a part of any plats or development plans created for the property.

Purpose of Request:

5773 & 5769 Conner Road | Special Use | for an agri-entertainment venue | on a 11.96± acre tract located on the south side of Conner Road approximately 1415 feet from its intersection with Jim Crow Road | Zoned AR-1; Tax Parcels 08110 000151 & 08110 000015 (pt) | **Proposed Use: Agri-entertainment venue |** Commission District 2 | **Dwayne Bradley Walton, applicant**

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant ..... Dwayne Bradley Walton

Request ..... (A) **Special Use** | Agri-entertainment venue
(B) **Variance**| from section 7.7.3

Proposed Use ..... (A) & (B) Agri-Entertainment venue

Size ..... 11.96± acres

Zoning ..... Agricultural Residential 1 (AR-1)

Location ..... **5773 & 5769 Conner Road** | Tax Parcel 08110 000151 & 08110 000015 (pt)

Commission District ..... Two

Commission Date ..... January 22, 2026

Staff Recommendation ..... (A) **Approval, with conditions,** as the proposed special use is compatible with the Agricultural Residential 1 (AR-1) zoning district.
(B) **Denial,** as no hardship exists pursuant to the criteria of 11.1.1.D.11

Record Number(s) ..... (A) HZCU25-0057
(B) HVAR25-0070

(A) Staff recommends <u>APPROVAL</u> of the applicant's request, with the following conditions:

1. The property shall be developed in accordance with the site plan dated September 12, 2025, and the project narrative dated October 22, 2025, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

2. Prior to issuance of an agri-entertainment venue business license, a combination plat application shall be submitted to the County for approval.

3. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to the Fire Marshal and Hall County Engineering. Where there may be discrepancies

between the proposed standards and County regulations, the County regulations shall overrule unless otherwise approved.

4. All conditions of zoning shall be made a part of any plats or development plans created for the property.

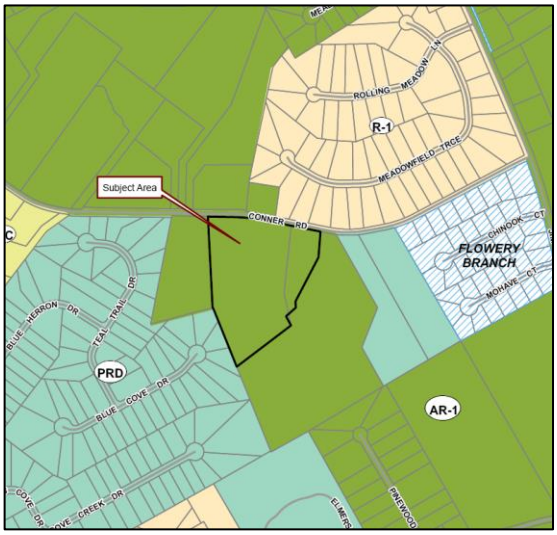
(B) Staff recommends DENIAL of the applicant's request.

The following should be considered as variances to the Official Code of Hall County, and shall warrant further determination by the Board should it choose to approve the submitted narrative and site plan:

1. **7.7.3.B.3 – Agri-entertainment Events –** The agri-entertainment primary event structure must be located at least 300 feet from any property line under separate ownership.
   - The primary event structure is approximately 200 feet from the nearest property line under separate ownership.
2. **7.7.3.B.3 – Agri-entertainment Events –** All parking for agri-entertainment event must be located at least 200 feet from any property line under separate ownership.
   - The parking for the primary event is approximately 32 feet from the nearest property line under separate ownership.

Summary Analysis

The applicant is requesting approval of a special use to allow an agri-entertainment venue on an 11.96± acre tract zoned Agricultural Residential 1 (AR-1). The proposed business will be focused on operating a farm winery and vineyard that hosts a variety of special events. Concurrent to this request, the applicant is also seeking multiple variances from the agri-entertainment use standards to reduce the minimum required setback for the existing primary event structure from 300 feet to 200 feet. Additionally, the applicant is requesting to reduce the minimum required setback for the parking area from 200 feet to 34 feet.



The subject property is currently developed with a single-family residence, one metal building, and three areas designated for grape vineyard.

The surrounding properties are zoned Agricultural Residential 1 (AR-1) and Planned Residential District (PRD) and are developed with single-family residences and agricultural uses.

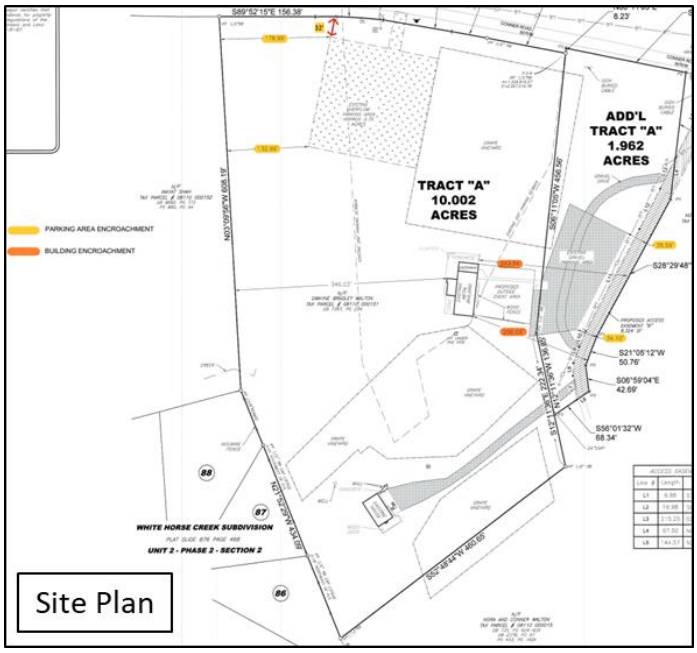
Per the narrative, the applicant is requesting special use approval to establish an agri-entertainment venue centered around the operation of a farm winery and

vineyard. In addition to wine production and vineyard tours, the applicant seeks approval to host a variety of special events to include the following:

- Outdoor Vineyard Weddings: Ceremonies and receptions held in designated vineyard areas or in a tent. Events will conclude no later than 9 p.m., with music and activities conducted in compliance with local sound ordinances and guidelines. Maximum attendance would be capped at 50 cars / 100 guests.
- Themed Sunday 'Festivals' Featuring local small businesses: Community-focused festival / gathering typically hosted every couple of months, lasting approximately four hours on Sunday afternoons. Each 'festival' may showcase local artisans, food vendors, and small businesses, encouraging local commerce and tourism while maintaining a relaxed and family-friendly environment.
- Private Office Parties and Corporate Events: Generally small, professional gatherings for local businesses for team-building or appreciation events.
- Private Receptions and Celebrations: Occasional receptions, anniversary parties, birthday parties, and small community celebrations.
- Other events and organizations: Local organizations that can use the space could use the property as needed for promotional events. For example, a local animal adoption group that wants to host an animal adoption event on the premises.

Per the submitted narrative, all of the above would be limited in scale and duration and managed with attention to noise, parking, and safety.

The submitted site plan identifies the locations of the grape vineyards, the existing metal building, and the parking area. The existing metal building, constructed in 2023, is approximately 200 feet from the eastern property line. The applicant has requested a variance to section 7.7.3.B.3 to allow this structure to be closer than the required distance of 300 feet from any property line under separate ownership and to allow the parking area to be closer than the required 200 feet from the nearest property line under separate ownership in compliance with Section 7.7.3.B.5.



Water service is provided by a private well. Sanitary sewer services are provided by an on-site septic system.

<u>Zoning Analysis</u> – Special Use

When considering a use subject to approval of the County Commission, the Commission must study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry must be considered:

a) Whether the zoning proposal will permit a use that is suitable in view of the use, development and zoning of adjacent and nearby property; **The proposed special use is suitable in view of the use, agricultural zoning, and development of adjacent and nearby properties.**

b) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; **It is not anticipated that the proposed special use of an agri-entertainment venue, operating under the specified parameters, would adversely affect the existing use or usability of adjacent properties.**

c) Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; **The property has reasonable economic use as currently zoned Agricultural Residential 1 (AR-1); however, a special use for an agri-entertainment venue requires Board of Commissioner approval.**

d) Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, schools, police protection, fire protection, public health facilities or emergency medical service; **It is not anticipated that the proposed special use will cause an excessive or burdensome use of the existing streets, transportation facilities, utilities, schools, police protection, fire protection, public facilities, or emergency medical service.**

e) Whether the zoning proposal is in conformity with the policy and intent of the future land use plan for the physical development of the area; **The agri-entertainment venue is consistent with the Agricultural Residential 1 (AR-1) zoning district and does not impact the Suburban Neighborhood Low Density future land use of the area.**

f) The extent to which property values are diminished by the existing zoning restrictions; **Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.**

g) The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; **Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property values including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.**

h) The relative gain to the public as compared to the hardship imposed upon the individual property owner; **Staff has not identified a hardship imposed on the property owner as the property is currently zoned.**

i) The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; **The subject property is zoned Agricultural**

Residential 1 (AR-1). The site is currently developed with a single-family residence, constructed in 2015 and a metal building, constructed in 2023, as reflected in county tax records. The property has had an active business license for the farm winery since March 1, 2022.

j) Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; **There are no known changing conditions affecting the use or development of the property.**

k) Whether the change would create an isolated district unrelated to the surrounding districts; **This question is not applicable as there are no proposed changes to the zoning classification.**

l) Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**

m) Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; **No, the request is not out of scale with the needs of the county as a whole.**

n) Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; **The existing zoning of the subject site supports the proposed use; however, the expansion of the farm winery into an agri-entertainment venue requires approval by the Board of Commissioners.**

o) Whether the need for rezoning could be handled instead by a variance request to the Planning Commission; **The request for a special use could not be handled alternatively as a variance.**

p) Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; **Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.**

q) Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

<u>Zoning Analysis</u> - Variance

The Commission may grant variances in individual cases of unnecessary hardship upon a finding of the board that:

1. There are extraordinary and exceptional conditions pertaining to the lot in question because of its size, shape, or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship); **No, as the existing metal building (constructed in 2023) was built in accordance with setback requirements applicable to general agricultural uses and do not meet the standards specific to agri-entertainment operations.**

2. The application of the requirements of this UDC to this particular piece of property would create an unusual hardship; **No unusual hardship would be created through application of the requirements of Article 11.**

3. Such conditions are particular to the property involved and are not common to other properties in the neighborhood; **The conditions affecting the subject property are not unique and are generally consistent with those of neighboring parcels. However, the placement and development of the existing metal building by the applicant has created limitations in meeting current setback requirements specific to agri-entertainment use.**

4. Such conditions are not the result of any actions of the property owner**; The metal building was constructed by the applicant in 2023 in compliance with standards applicable to general agricultural uses.**

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC; provided, however, that no variance may be granted for a use of land or building or structure that is prohibited by this UDC or for a Conditional Use Permit which has been denied by the Planning Commission; **Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC nor authorize any prohibited or previously denied use.**

11.2.6.E - Submission requirements

1. Any person or persons requesting a change in the official zoning map or use subject to approval of the County Commission must file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in this Sec 11.2. to cover administrative and advertising costs, in the Planning and Zoning Department office. Such person or persons or their authorized agent must appear in person at the public hearing held to consider the district change. **The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at the voting meeting of the Hall County Board of Commissioners.**

2. All applications for a change of zoning classification or use subject to approval of the County Commission must include:

    a. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in this Sec. 11.2. **The proposal provides a narrative outlining the intent of the development; however, the applicant has not prepared a response to each of the criteria listed in 11.2.6.E.2.**

    b. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the Planning Commission and County Commission may evaluate the application based on the most intense possible land use permitted in the proposed district**. The proposal meets the requirement.**

c. For any application for a slow rate land treatment system as defined in 7.6.9.D.1, additional requirements apply. **This standard is not applicable to the applicant's request**

d. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study must be submitted prior to consideration of the application by the County Commission. At the applicant's expense, the traffic impact study must be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The Engineering Department must review the traffic impact study and forward any comments to the County Commission. **This standard is not applicable to the applicant's request.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated, "Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher Hash, P.E., D1 Traffic Operations Supervisor, stated "Off system, no impacts to the state route expected."

Hall County Public Works and Utilities
In a memo dated December 17, 2025, Jason Skarda, Assistant Director of Public Works and Utilities, provided the following comments:

Engineering:
This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.

Traffic:
No comments

Utilities
Flowery Branch Sewer Service area.

Hall County Fire Marshal
In an email dated December 15, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated, "Hall County Fire Comment: existing access to venue does not appear to meet the below fire code requirement, site plan will be required showing road width improvements. International Fire Code SECTION 503 FIRE APPARATUS ACCESS ROADS. 503.2.1 Dimensions. Fire apparatus access roads shall have an unobstructed width of not less than 20 feet, exclusive of shoulders."

Narrative in Support of Special Use Application for Flowery Branch Winery and Vineyard

Submitted to the Hall County Board of Commissioners

Introduction

Flowery Branch Winery and Vineyard respectfully requests approval from the Hall County Board of Commissioners for special use of the property as an Agri-Entertainment property. This change will allow our family-owned winery to responsibly host a limited number of special events—such as outdoor weddings, themed Sunday festivals featuring local businesses, private office parties, and reception gatherings, and other gatherings—in a way that enhances both the community experience and the local economy.

Our goal is to expand opportunities for agritourism and community engagement while maintaining the peace, safety, and rural charm of the surrounding area. Situated on ten scenic acres, Flowery Branch Winery and Vineyard is a family-run farm winery rooted in sustainable agriculture, responsible land stewardship, and helping further Georgia's rapidly growing wine industry.

Background

Flowery Branch Winery and Vineyard officially opened its tasting room in February of 2025 year after having had vines in the ground since approximately 2017. The Walton family has invested years of preparation, cultivation, and investment in the farm. From the beginning, our goal has been to produce high-quality, locally sourced wines while entertaining the community through fun and family friendly activities. We take pride in having created a welcoming, community-centered environment in which to ultimately enjoy our farm.

The large majority of wine we sell is made from grapes grown directly on the property. We make sure to mention the fact most of what is sampled reflects the unique flavor of the Flowery Branch soil, water, and sun. Our customer are generally interested in having a product that is 'local' and honestly representative of wine from the area and we are proud to provide that. Our vineyard operations are supported by a loyal group of volunteers who assist with harvests each year—many returning annually to participate and share in the sense of community the winery fosters. Our harvests are party for all those who participate!

Currently zoned Agricultural (AR-1), our property is limited in what it can offer regarding the quantity and quality of entertainment we can offer to the community without a special use permit. Most vineyards, particularly those with significant vineyards such as ours, in general provide additional forms of entertainment that also help generate revenue and exposure from the enjoyment people experience from the vineyard environment. Granting a special use to the property to allow for event hosting will allow us to diversify responsibly,

offering community-oriented events that align naturally with our mission of promoting local agriculture and fellowship, and entertainment to the community.

Proposed Event Types

Upon approval of the AG-ENT special use, Flowery Branch Winery and Vineyard intends to host a limited number of well-managed events that will highlight Hall County's agricultural character and heritage past and present. These events would possibly include:

- Outdoor Vineyard Weddings: Scenic ceremonies and receptions held in designated vineyard areas or in a tent offering guests a peaceful, natural setting. Events will conclude at reasonable hours (no later than 9 p.m.), with music and activities conducted in compliance with local sound ordinances and guidelines. Maximum attendance would be capped at 50 cars / 100 guests.
- Themed Sunday 'Festivals' Featuring local small businesses: Community-focused festival / gathering typically hosted every couple of months, lasting approximately four hours on Sunday afternoons. Each 'festival' may showcase local artisans, food vendors, and small businesses, encouraging local commerce and tourism while maintaining a relaxed and family-friendly environment.
- Private Office Parties and Corporate Events: Generally small, professional gatherings for local businesses seeking an inviting indoor or outdoor setting for team-building or appreciation events.
- Private Receptions and Celebrations: Occasional receptions, anniversary parties, birthday parties, and small community celebrations.
- Other events and organizations: Local organizations that can use the space could use the property as needed for promotional events. For example, a local animal adoption group that wants to host an animal adoption event on the premises.
- All of the above would be limited in scale and duration and managed with attention to noise, parking, and safety.

Variances Requested

1. Event Venue Setback Variance (Unified Development Code Section 7.7.3.B.3.)
    a. A reduction in the required setback from 300 feet to 243.54 feet from any property line.
2. Parking Area Setback Variance (Unified Development Code Section 7.7.3.B.5.)
    a. A reduction in the required setback from 200 feet to 34.10 feet from any property line.

Responsible Event Management

Flowery Branch Winery and Vineyard places the highest importance on responsible event management and community consideration. We have plans in place to ensure that parking is managed appropriately and noise guidelines are followed. We would ensure that any event is handled safely, responsibly, and professionally.

Parking and Traffic

Our property includes two designated parking lots: a main parking lot used daily for regular winery operations and a separate overflow parking lot to accommodate additional vehicles for special events (if needed). All parking and event-related traffic will be contained entirely within our 10-acre property in existing parking areas. Directional signage will guide guests to designated areas, and staff will be present to manage parking efficiently. Events will be scheduled to avoid local traffic peaks and will not obstruct or inconvenience neighboring properties.

Noise Control

The natural layout of our property—including gentle slopes, vegetation, and tree coverage help provide a good deal of sound buffering but we are committed to maintaining reasonable and permissible sound levels during all events. Music sound levels will be controlled and end at established hours in compliance with Hall County regulations. Our events will be peaceful, family-friendly, and non-obtrusive, preserving the quiet enjoyment of nearby residents.

Economic and Community Benefits

Granting Agri-entertainment special use to the property will generate clear economic and cultural benefits for Hall County. Nationally, wineries permitted to host events experience an average 25% increase in revenue and local economic impact, primarily through tourism, hospitality, and small business collaboration.

The Georgia wine industry contributes billions annually to the state's economy. By expanding our ability to host modest, well-regulated events, Flowery Branch Winery and Vineyard will help draw visitors to Hall County that may be going to other counties for their winery experience, stimulate spending at nearby restaurants, shops, and hotels, and create additional employment opportunities for local residents.

Importantly, these benefits will be realized without altering the rural character of the area. Our events are intentionally small in scale, seasonal, and conducted with the utmost respect for our neighbors and the environment.

Community Engagement

Community engagement has always been the heart of our mission. Our volunteer-supported harvests and public tastings foster connection and pride in local agriculture. Many of our customers have become active participants in our vineyard community, returning year after year to help harvest, taste, and celebrate the fruits of Georgia's soil. Our harvests a genuine celebration a couple times a year where we provide food, music, and a good time to all those participating. We have had people from all over the state come for what is now an annual event for our community. A very large proportion of our weekly business are already multiple repeat visitors and we are quickly becoming a community hub. We have a large and engaged social media following that reflects this!

The proposed special use will allow us to extend these opportunities by hosting inclusive events that bring residents together in a shared appreciation of local food, wine, and culture. Each gathering will be an expression of our core values: sustainability, hospitality, and responsible enjoyment.

Conclusion

Granting Agri-Entertainment special use to the Flowery Branch Winery and Vineyard will:

- Encourage responsible, small-scale agritourism;
- Strengthen Hall County's local economy;
- Support local vendors and small businesses;
- Deepen community engagement and pride; and
- Maintain respect for the land, neighbors, and rural tranquility.

Our family is deeply committed to operating with integrity and ensuring all events are conducted with professionalism, responsibility, and neighborly care. We respectfully ask for the Board's support in approving this special use application so that Flowery Branch Winery and Vineyard can continue to grow as a model of agricultural entrepreneurship and community partnership in Hall County.

Thank you for your consideration,

Brad Walton and family

Subject: Tentative Planning Agenda for the January 22, 2026 Hall County Board of Commissioners meeting

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Please see below for the Tentative Planning Agenda and Maps for the **January 22, 2026** Hall County Board of Commissioners meeting. Please use the links to review the documents and respond with comments to Hall County

Planning and Development. Failure to provide comments in a timely manner may result in the information not being included in the staff report.

When submitting comments, please include the name of the applicant along with the address of the property with the corresponding comment.

Comments are due by **Thursday, December 18, 2025.** Email comments to Katie (kahmed@hallcounty.org) and Kaitlyn (kelliott@hallcounty.org).

- **3610 Mountain View Road | Variance to Section 3.2** | to reduce the minimum yards | on a 0.16± acre tract located on the north side of Mountain View Road approximately 70 feet from its intersection with Whiting Road | Zoned AR-1; Tax Parcel 08031 003013 | **Proposed Use: To bring an existing structure into compliance** | Commission District 4 | **Marcial Mosqueda, applicant**
  Off system, no impacts to the state route expected.

- **2479A Broadway Place | Variance to Section 7.8.3** | ADU standards | on a 0.29± acre tract located on the east side of the extension of Broadway Place approximately 466 feet from Broadway Drive | Zoned R-1; Tax Parcel 00121 005001 | **Proposed Use: Accessory dwelling unit** | Commission District 4 | **Amelia Gray, LLC, applicant**

- **2479B Broadway Place | Variance to Section 7.8.3** | ADU standards | on a 0.51± acre tract located on the east side of the extension of Broadway Place approximately 543 feet from Broadway Drive | Zoned R-1; Tax Parcel 00121 005007 (pt) | **Proposed Use: Accessory dwelling unit** | Commission District 4 | **Amelia Gray, LLC, applicant**
  Off system, no impacts to the state route expected.

- **(A) 1148 Hancock Avenue | Conditional Use |** expansion of a nonconforming use | on a 0.59± acre tract located on the west side of Hancock Avenue at its intersection with Jarrard Drive | Zoned H-B & R-1; Tax Parcels 00031 005009 | **Proposed Use: Accessory dwelling unit** | Commission District 4 | **Santos Cordoba, applicant**

  (B) 1148 Hancock Avenue | Variance to Section 5.3 | to reduce the minimum yards | on a 0.59± acre tract located on the west side of Hancock Avenue at its intersection with Jarrard Drive | Zoned H-B & R-1; Tax Parcels 00031 005009 | **Proposed Use: Accessory dwelling unit & to bring an existing structure into compliance** | Commission District 4 | **Santos Cordoba, applicant**
  Off system, no impacts to the state route expected.

- **5401 Old Winder Highway | Special Use** | to amend conditions of zoning | on an 84.30± acre portion of a tract located on the east side of Old Winder Highway at its intersection with Pleasant Hill Lane | Zoned R-MF; Tax Parcel 15039A000007(pt) | **Proposed use: 700-unit residential development** | Commission District 1 | **K2P Land Partners, LLC, applicant**
  Will need to permit with our office.

- **5401 Old Winder Highway | Special Use** | | to amend conditions of zoning | on a 194.10± acre portion of a tract located on the east side of Old Winder Highway at its intersection with Pleasant Hill Lane | Zoned I-1; Tax Parcel 15039A000007(pt) | **Proposed use: Industrial park** | Commission District 1 | **K2P Land Partners, LLC, applicant**
  Will need to permit with our office.

- **(A) 5773 & 5769 Conner Road | Special Use** | for an agri-entertainment venue | on a 11.96± acre tract located on the south side of Conner Road approximately 1415 feet from its intersection with Jim Crow Road | Zoned AR-1; Tax Parcels 08110 000151 & 08110 000015 (pt) | **Proposed Use: Agri-entertainment venue** | Commission District 2 | **Dwayne Bradley Walton, applicant**

  (B) 5773 & 5769 Conner Road | Variance to section 7.7.3 | to vary the standards for an agri-entertainment venue | on a 11.96± acre tract located on the south side of Conner Road approximately 1415 feet from its intersection with Jim Crow Road | Zoned AR-1; Tax Parcels 08110 000151 & 08110 000015 (pt) | **Proposed Use: Agri-entertainment venue** | Commission District 2 | **Dwayne Bradley Walton, applicant**
  Off system, no impacts to the state route expected.

- **5953 & 5965 Yellow Creek Road | Special Use |** for rural business | on a 2.21± acre tract located on the south side of Yellow Creek Road approximately 340 feet from its intersection with Walden Road | Zoned AR-1; Tax Parcels 11105 000019 & 11105 000002C (pt) | **Proposed Use: Rural Business** | Commission District 2 | **Joshua Stover, applicant**
  Off system, no impacts to the state route expected.

- **3294 & 3290 Athens Highway | Rezone** | from Agricultural Residential (AR-1) & Planned Industrial Development (PID) to Light Industrial (I-1)) | on a 14.11± acre tract located on the south side of Athens Highway approximately 1655 feet from its intersection with Bluffton Drive | Zoned AR-1 & PID; Tax Parcel 15014 000192 | **Proposed Use: Uses permitted in I-1** | Commission District 3 | **Jim Rizqallah, applicant**
  Will need to permit with our office. Driveway will need to align, and a right turn lane will be required. Intersection will need to be studied.

Thank you,

Kaitlyn Elliott

HALL COUNTY

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.

2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.

3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

By my signature, I, Dwayne Bradley Watson **(Please Print Name), hereby acknowledge that I have read and understand the sign posting requirements. I further certify that the required public notice sign was posted on** 12/28/25 **(Date) for** DWAYNE BRADLEY WATSON **(Name application filed as).**

Signature Brad Watson

Hall County Board of Commissioners
P.O. Drawer 1435
Gainesville, GA 30503

Dear Members of the Hall County Board of Commissioners,

I am writing as a resident of Hall County to strongly oppose the special use permit and variance request for the proposed Flowery Branch Winery. While I appreciate efforts to support local businesses, I have serious concerns about the impact this project would have on our community's character, safety, and quality of life.

The proposed permit and variance raises multiple issues, including significantly increased traffic and frankly danger on an exceedingly narrow and frankly hazardous road. To be clear, Conner Road, the road granting access to the Applicant's property is already narrow. Two cars have difficulty passing each other under current conditions. Further, there is a personal care home at the end of the road, and emergency vehicles are frequently seen going to and from that property. Allowing numerous events on the Applicant's property will only exacerbate these problems and create an even more unsafe environment. Indeed, the Applicant has hosted several events on-site in the past, and cars parked on the lawn using a blind hill for access, providing a safety concern for drivers and an eyesore for nearby property owners. Granting the special use permit will only increase the hazards already faced by area residents. The added traffic would endanger pedestrians, cyclists, and children who frequently use Conner Road which is notably without a sidewalk on the bulk of the road.

The Board has ample grounds to deny the project for these reasons alone. It is unclear if the road's width currently meets standard safety requirements imposed by the International Fire Code as adopted by Hall County. At the very least, if the Applicant seeks to increase motor vehicle traffic

along the existing, narrow road, the Applicant should be required to widen it—at the Applicant's cost. Notably, a similar request was made by the Applicant in 2017 and was denied for these same reasons.

In addition to the objective safety risks associated with granting a special use permit, it is important to consider the exacerbation of noise pollution from ongoing events and gatherings. While we acknowledge that the Applicant is currently prohibited from using amplified sound outdoors, our observations suggest otherwise. We have documented instances, including videos of amplified music being played and images of unauthorized festivals that were held without permission. The Applicant has consistently disregarded existing regulations; thus, one must question what would prevent them from hosting events attracting 200 vehicles with loud music extending past midnight if a special use permit is granted.

Allowing this special use permit would significantly impact the quality of life for surrounding neighbors and likely lead to decreased property values. We urge you to consider these implications carefully.

Equally concerning is the change in land use that this permit and variance would enable. An event venue is fundamentally incompatible with the surrounding residential and rural environment. Granting these exceptions would set a troubling precedent that undermines existing zoning protections designed to preserve the tranquility and safety of our neighborhood.

I urge the Board to protect the interests of residents by denying the special use permit and variance request for the Flowery Branch Winery. Our community deserves thoughtful, responsible development that aligns with the area’s zoning, safety, and public welfare standards.

Jennifer Woodside will be testifying on my behalf.

Thank you for your consideration and for your continued service to the residents of Hall County.

Sincerely,
Alden Woodside

To whomever is currently deciding planning and zoning request for Hall County,

This is my response to proposed agri entertainment site at 5769 and 5773 Conner Road.

I am against the approval of this request! This proposed site is in the middle of at least 3 neighborhoods. There are close to 60 homes within 500 feet of the proposed site. I feel it will have a negative impact property values on the quality of life for more than just these 60 homes.

Number 1 is the noise. On 1 or 2 occasions music was played from this site and it was very loud. Loud enough for me to go to the street in front of my house to see if my neighbor across the street was having a party in their backyard. Approval of this request means nights of having windows open or sitting outback in the fresh air will not be possible on days of events involving music. This will include more than just the 60 homes. It will be easily audible to houses two and three times the 500 foot distance.

I do not know what type of music that will be played. But some music such as rap and some rock lyrics contain profanity. I personally do not want to sit listen to "f" , "mf" and other such words from events.

My second reason is the number of people attending events where alchohol is served. We certainly do not need more inebriated drivers on the road. We all ready have the Branch House which is within a mile of our homes. This are is really a residential area. It is no longer an agricultural area. There will be even more houses built in this area. So this will be impacting even more homes in the future. What was approved as a small personal winery now wants to expand into events. What will they be asking for after this?

Robert Lathroum

Dear Commissioners:

We are writing to express our concerns regarding the proposed expansion and rezoning of Flowery Branch Winery to an agri-event space.

My husband and I are currently residing temporarily with my parents on Conner Road. I grew up on this road and have long been familiar with the challenges created by its narrow width and multiple blind spots. Driving on Conner Road requires significant caution due to limited visibility and constrained space.

Since the addition of the winery, traffic on Conner Road has already increased, including drivers who are unfamiliar with the roadway and how to navigate it safely. I recently gave birth to my first child, and during neighborhood walks and routine travel, I have experienced vehicles traveling at excessive speeds. On one occasion, a driver traveling in the middle of the road around a blind curve forced me off the roadway. These incidents raise serious safety concerns for residents and drivers.

The winery has already increased the risk of accidents along Conner Road, and the prospect of expanding the venue—and thereby increasing traffic volume—causes significant concern. Driving on this road has become increasingly stressful, particularly when traveling with a newborn child.

For these reasons, we believe that expanding this space would negatively impact the safety and quality of life of those who live along Conner Road. We respectfully request that you deny the proposed expansion and rezoning of Flowery Branch Winery.

Thank you for your time and thoughtful consideration of our concerns.

Sincerely,

Kaitlyn and Jason Hickman

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Hall County Commissioners,

Although I am a resident of Gwinnett County, I live directly on the Hall County border and conduct much of my daily life in Hall County. I shop, dine, and run errands here because it is more convenient than traveling within Gwinnett. Our daughter plays volleyball for Lanier Volleyball Club, practicing in Hall County (Westminster Presbyterian and Element Church), so during those practice hours I am supporting Hall County businesses. Our family vehicle was purchased here (Jim Shorkey Kia), and we regularly patronize local merchants and restaurants. In many ways, Hall County is where we live our lives and choose to spend our dollars.

We are strong supporters of small business, and that appreciation began when we moved to Georgia eight years ago and discovered downtown Flowery Branch. Over the years, we have become loyal

customers of many local establishments—Moonie's, Prime Pickins, Consign & Design, Lakeside Market, Liberty Candy Company, Whole Being Café, Sample Pleasures Antiques, and Antebellum, where we have celebrated anniversaries. We have watched the downtown evolve and now enjoy Caroline's on Main. We attend the Farmers Market regularly and enjoy live music at Branch House Tavern. As time has passed some of these businesses are no longer there, but the small businesses are the heartbeat of the community, and their success and legacy strengthens the character and economy of Hall County.

It is for this reason that I write in strong support of granting the special event permit for Flowery Branch Winery and Vineyard.

The winery has quickly become a favorite destination precisely because of the atmosphere it provides—peaceful, welcoming, and community-oriented. It is not a bar, nor a venue associated with disruptive behavior. It is a place primarily enjoyed by women, couples, and friends who come to relax, socialize, and enjoy a pleasant evening. I have attended events with live music, and they have been tasteful, not loud, and always respectful of the surrounding community. Events typically conclude by the expected time, no later than 8:30 pm, with limited exceptions on major holidays. Recently, I attended a paint-and-sip event and was home before 9:00 p.m.

The concern that this establishment would be disruptive or harm property values does not reflect reality. In fact, well-run wineries and similar venues tend to enhance the appeal of an area by providing desirable local entertainment and gathering spaces. By contrast, large-scale residential development has had a far greater impact on traffic, infrastructure, schools, and quality of life. I currently live near Spout Springs and Highway 124, where a large apartment complex is under construction. The increased congestion and strain on local resources has already affected our daily lives and property values. I would much rather see thoughtful, low-impact development like a winery than dense residential construction that brings hundreds of vehicles to roads that are already overburdened.

I also ask you to consider the positive economic impact wineries have had in communities such as Dahlonega and Ellijay. When visitors come to these wineries, they also shop in local stores, dine in local restaurants, and explore the surrounding towns. The benefit extends well beyond the winery itself and strengthens the entire local economy. Flowery Branch has the opportunity to enjoy similar benefits.

Change is inevitable in any growing community, and with growth come choices. Granting a special event permit to a responsible, community-minded business is a modest and reasonable accommodation—one that supports small business, local tourism, and quality of life. In balance, an occasional special event is far less disruptive than large-scale residential development that permanently alters traffic patterns and community resources.

For these reasons, I respectfully urge you to approve the special event permit for Flowery Branch Winery and Vineyard. It is an asset to the community, a responsible neighbor, and a positive contributor to the local economy and culture.

Thank you for your time and consideration.

Respectfully,

Philana Nowak

I shop, dine, and run errands here because it is more convenient than traveling within Gwinnett. Our daughter plays volleyball for Lanier Volleyball Club, practicing in Hall County (Westminster Presbyterian and Element Church), so during those practice hours I am supporting Hall County businesses. Our family vehicle was purchased here (Jim Shorkey Kia), and we regularly patronize local merchants and restaurants. In many ways, Hall County is where we live our lives and choose to spend our dollars.

We are strong supporters of small business, and that appreciation began when we moved to Georgia eight years ago and discovered downtown Flowery Branch. Over the years, we have become loyal

customers of many local establishments—Moonie's, Prime Pickins, Consign & Design, Lakeside Market, Liberty Candy Company, Whole Being Café, Sample Pleasures Antiques, and Antebellum, where we have celebrated anniversaries. We have watched the downtown evolve and now enjoy Caroline's on Main. We attend the Farmers Market regularly and enjoy live music at Branch House Tavern. As time has passed some of these businesses are no longer there, but the small businesses are the heartbeat of the community, and their success and legacy strengthens the character and economy of Hall County.

It is for this reason that I write in strong support of granting the special event permit for Flowery Branch Winery and Vineyard.

The winery has quickly become a favorite destination precisely because of the atmosphere it provides—peaceful, welcoming, and community-oriented. It is not a bar, nor a venue associated with disruptive behavior. It is a place primarily enjoyed by women, couples, and friends who come to relax, socialize, and enjoy a pleasant evening. I have attended events with live music, and they have been tasteful, not loud, and always respectful of the surrounding community. Events typically conclude by the expected time, no later than 8:30 pm, with limited exceptions on major holidays. Recently, I attended a paint-and-sip event and was home before 9:00 p.m.

The concern that this establishment would be disruptive or harm property values does not reflect reality. In fact, well-run wineries and similar venues tend to enhance the appeal of an area by providing desirable local entertainment and gathering spaces. By contrast, large-scale residential development has had a far greater impact on traffic, infrastructure, schools, and quality of life. I currently live near Spout Springs and Highway 124, where a large apartment complex is under construction. The increased congestion and strain on local resources has already affected our daily lives and property values. I would much rather see thoughtful, low-impact development like a winery than dense residential construction that brings hundreds of vehicles to roads that are already overburdened.

I also ask you to consider the positive economic impact wineries have had in communities such as Dahlonega and Ellijay. When visitors come to these wineries, they also shop in local stores, dine in local restaurants, and explore the surrounding towns. The benefit extends well beyond the winery itself and strengthens the entire local economy. Flowery Branch has the opportunity to enjoy similar benefits.

Change is inevitable in any growing community, and with growth come choices. Granting a special event permit to a responsible, community-minded business is a modest and reasonable accommodation—one that supports small business, local tourism, and quality of life. In balance, an occasional special event is far less disruptive than large-scale residential development that permanently alters traffic patterns and community resources.

For these reasons, I respectfully urge you to approve the special event permit for Flowery Branch Winery and Vineyard. It is an asset to the community, a responsible neighbor, and a positive contributor to the local economy and culture.

Thank you for your time and consideration.

Respectfully,

Philana Nowak

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant ..... Dwayne Bradley Walton

Request ..... (A) **Special Use** | Agri-entertainment venue
(B) **Variance**| from section 7.7.3

Proposed Use ..... (A) & (B) Agri-Entertainment venue

Size ..... 11.96± acres

Zoning ..... Agricultural Residential 1 (AR-1)

Location ..... **5773 & 5769 Conner Road** | Tax Parcel 08110 000151 & 08110 000015 (pt)

Commission District ..... Two

Commission Date ..... January 22, 2026

Staff Recommendation ..... (A) **Approval, with conditions,** as the proposed special use is compatible with the Agricultural Residential 1 (AR-1) zoning district.
(B) **Denial,** as no hardship exists pursuant to the criteria of 11.1.1.D.11

Record Number(s) ..... (A) HZCU25-0057
(B) HVAR25-0070

(A) Staff recommends <u>APPROVAL</u> of the applicant's request, with the following conditions:

1. The property shall be developed in accordance with the site plan dated September 12, 2025, and the project narrative dated October 22, 2025, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

2. Prior to issuance of an agri-entertainment venue business license, a combination plat application shall be submitted to the County for approval.

3. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to the Fire Marshal and Hall County Engineering. Where there may be discrepancies

between the proposed standards and County regulations, the County regulations shall overrule unless otherwise approved.

4. All conditions of zoning shall be made a part of any plats or development plans created for the property.

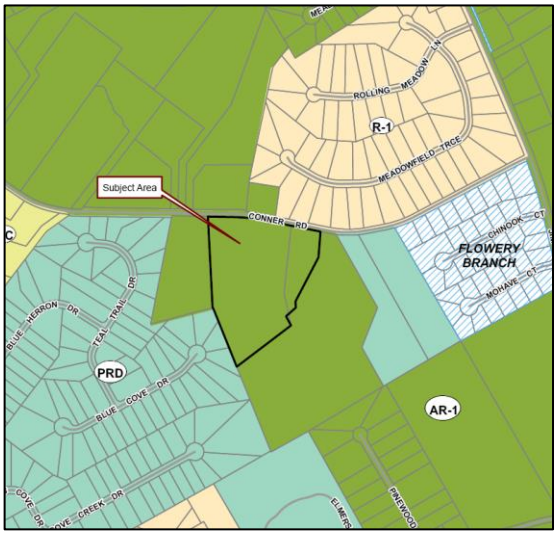
(B) Staff recommends DENIAL of the applicant's request.

The following should be considered as variances to the Official Code of Hall County, and shall warrant further determination by the Board should it choose to approve the submitted narrative and site plan:

1. **7.7.3.B.3 – Agri-entertainment Events –** The agri-entertainment primary event structure must be located at least 300 feet from any property line under separate ownership.
   - The primary event structure is approximately 200 feet from the nearest property line under separate ownership.
2. **7.7.3.B.3 – Agri-entertainment Events –** All parking for agri-entertainment event must be located at least 200 feet from any property line under separate ownership.
   - The parking for the primary event is approximately 32 feet from the nearest property line under separate ownership.

Summary Analysis

The applicant is requesting approval of a special use to allow an agri-entertainment venue on an 11.96± acre tract zoned Agricultural Residential 1 (AR-1). The proposed business will be focused on operating a farm winery and vineyard that hosts a variety of special events. Concurrent to this request, the applicant is also seeking multiple variances from the agri-entertainment use standards to reduce the minimum required setback for the existing primary event structure from 300 feet to 200 feet. Additionally, the applicant is requesting to reduce the minimum required setback for the parking area from 200 feet to 34 feet.



The subject property is currently developed with a single-family residence, one metal building, and three areas designated for grape vineyard.

The surrounding properties are zoned Agricultural Residential 1 (AR-1) and Planned Residential District (PRD) and are developed with single-family residences and agricultural uses.

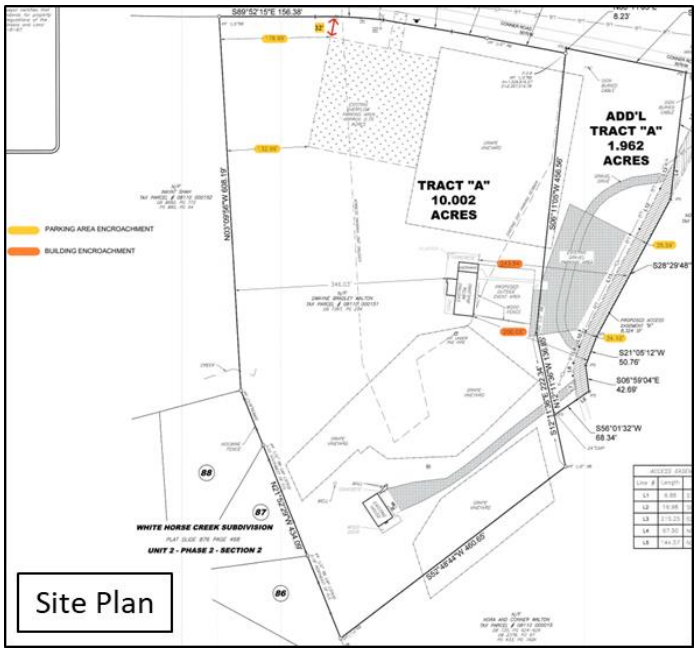
Per the narrative, the applicant is requesting special use approval to establish an agri-entertainment venue centered around the operation of a farm winery and

vineyard. In addition to wine production and vineyard tours, the applicant seeks approval to host a variety of special events to include the following:

- Outdoor Vineyard Weddings: Ceremonies and receptions held in designated vineyard areas or in a tent. Events will conclude no later than 9 p.m., with music and activities conducted in compliance with local sound ordinances and guidelines. Maximum attendance would be capped at 50 cars / 100 guests.
- Themed Sunday 'Festivals' Featuring local small businesses: Community-focused festival / gathering typically hosted every couple of months, lasting approximately four hours on Sunday afternoons. Each 'festival' may showcase local artisans, food vendors, and small businesses, encouraging local commerce and tourism while maintaining a relaxed and family-friendly environment.
- Private Office Parties and Corporate Events: Generally small, professional gatherings for local businesses for team-building or appreciation events.
- Private Receptions and Celebrations: Occasional receptions, anniversary parties, birthday parties, and small community celebrations.
- Other events and organizations: Local organizations that can use the space could use the property as needed for promotional events. For example, a local animal adoption group that wants to host an animal adoption event on the premises.

Per the submitted narrative, all of the above would be limited in scale and duration and managed with attention to noise, parking, and safety.

The submitted site plan identifies the locations of the grape vineyards, the existing metal building, and the parking area. The existing metal building, constructed in 2023, is approximately 200 feet from the eastern property line. The applicant has requested a variance to section 7.7.3.B.3 to allow this structure to be closer than the required distance of 300 feet from any property line under separate ownership and to allow the parking area to be closer than the required 200 feet from the nearest property line under separate ownership in compliance with Section 7.7.3.B.5.



Water service is provided by a private well. Sanitary sewer services are provided by an on-site septic system.

<u>Zoning Analysis</u> – Special Use

When considering a use subject to approval of the County Commission, the Commission must study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry must be considered:

a) Whether the zoning proposal will permit a use that is suitable in view of the use, development and zoning of adjacent and nearby property; **The proposed special use is suitable in view of the use, agricultural zoning, and development of adjacent and nearby properties.**

b) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; **It is not anticipated that the proposed special use of an agri-entertainment venue, operating under the specified parameters, would adversely affect the existing use or usability of adjacent properties.**

c) Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; **The property has reasonable economic use as currently zoned Agricultural Residential 1 (AR-1); however, a special use for an agri-entertainment venue requires Board of Commissioner approval.**

d) Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, schools, police protection, fire protection, public health facilities or emergency medical service; **It is not anticipated that the proposed special use will cause an excessive or burdensome use of the existing streets, transportation facilities, utilities, schools, police protection, fire protection, public facilities, or emergency medical service.**

e) Whether the zoning proposal is in conformity with the policy and intent of the future land use plan for the physical development of the area; **The agri-entertainment venue is consistent with the Agricultural Residential 1 (AR-1) zoning district and does not impact the Suburban Neighborhood Low Density future land use of the area.**

f) The extent to which property values are diminished by the existing zoning restrictions; **Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.**

g) The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; **Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property values including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.**

h) The relative gain to the public as compared to the hardship imposed upon the individual property owner; **Staff has not identified a hardship imposed on the property owner as the property is currently zoned.**

i) The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; **The subject property is zoned Agricultural**

Residential 1 (AR-1). The site is currently developed with a single-family residence, constructed in 2015 and a metal building, constructed in 2023, as reflected in county tax records. The property has had an active business license for the farm winery since March 1, 2022.

j) Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; **There are no known changing conditions affecting the use or development of the property.**

k) Whether the change would create an isolated district unrelated to the surrounding districts; **This question is not applicable as there are no proposed changes to the zoning classification.**

l) Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**

m) Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; **No, the request is not out of scale with the needs of the county as a whole.**

n) Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; **The existing zoning of the subject site supports the proposed use; however, the expansion of the farm winery into an agri-entertainment venue requires approval by the Board of Commissioners.**

o) Whether the need for rezoning could be handled instead by a variance request to the Planning Commission; **The request for a special use could not be handled alternatively as a variance.**

p) Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; **Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.**

q) Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

<u>Zoning Analysis</u> - Variance

The Commission may grant variances in individual cases of unnecessary hardship upon a finding of the board that:

1. There are extraordinary and exceptional conditions pertaining to the lot in question because of its size, shape, or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship); **No, as the existing metal building (constructed in 2023) was built in accordance with setback requirements applicable to general agricultural uses and do not meet the standards specific to agri-entertainment operations.**

2. The application of the requirements of this UDC to this particular piece of property would create an unusual hardship; **No unusual hardship would be created through application of the requirements of Article 11.**

3. Such conditions are particular to the property involved and are not common to other properties in the neighborhood; **The conditions affecting the subject property are not unique and are generally consistent with those of neighboring parcels. However, the placement and development of the existing metal building by the applicant has created limitations in meeting current setback requirements specific to agri-entertainment use.**

4. Such conditions are not the result of any actions of the property owner**; The metal building was constructed by the applicant in 2023 in compliance with standards applicable to general agricultural uses.**

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC; provided, however, that no variance may be granted for a use of land or building or structure that is prohibited by this UDC or for a Conditional Use Permit which has been denied by the Planning Commission; **Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC nor authorize any prohibited or previously denied use.**

11.2.6.E - Submission requirements

1. Any person or persons requesting a change in the official zoning map or use subject to approval of the County Commission must file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in this Sec 11.2. to cover administrative and advertising costs, in the Planning and Zoning Department office. Such person or persons or their authorized agent must appear in person at the public hearing held to consider the district change. **The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at the voting meeting of the Hall County Board of Commissioners.**

2. All applications for a change of zoning classification or use subject to approval of the County Commission must include:

    a. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in this Sec. 11.2. **The proposal provides a narrative outlining the intent of the development; however, the applicant has not prepared a response to each of the criteria listed in 11.2.6.E.2.**

    b. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the Planning Commission and County Commission may evaluate the application based on the most intense possible land use permitted in the proposed district**. The proposal meets the requirement.**

c. For any application for a slow rate land treatment system as defined in 7.6.9.D.1, additional requirements apply. **This standard is not applicable to the applicant's request**

d. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study must be submitted prior to consideration of the application by the County Commission. At the applicant's expense, the traffic impact study must be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The Engineering Department must review the traffic impact study and forward any comments to the County Commission. **This standard is not applicable to the applicant's request.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated, "Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher Hash, P.E., D1 Traffic Operations Supervisor, stated "Off system, no impacts to the state route expected."

Hall County Public Works and Utilities
In a memo dated December 17, 2025, Jason Skarda, Assistant Director of Public Works and Utilities, provided the following comments:

Engineering:
This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.

Traffic:
No comments

Utilities
Flowery Branch Sewer Service area.

Hall County Fire Marshal
In an email dated December 15, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated, "Hall County Fire Comment: existing access to venue does not appear to meet the below fire code requirement, site plan will be required showing road width improvements. International Fire Code SECTION 503 FIRE APPARATUS ACCESS ROADS. 503.2.1 Dimensions. Fire apparatus access roads shall have an unobstructed width of not less than 20 feet, exclusive of shoulders."

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

(b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating $250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:

(3) The name and official position of the local government official to whom the campaign contribution was made; and

(4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.

(b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

I hereby certify that I have read the above and that:

I have**____ I have not ✓

within the two years immediately preceding this date, made any contribution(s) aggregating $250.00 or more to any local government official involved in the review or consideration of this application.

**If you have made such contributions, you must provide the data required below within ten (10) days of filing this application.

STATEMENT OF HARDSHIP

The Hall County Planning Commission has the authority, in specific cases, to grant variances from the terms of the Zoning Regulations when the variance will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the Zoning Regulations will, in specific cases, result in unnecessary hardship and so that the resolution shall be observed, public safety and welfare secured, and substantial justice done. The authority to grant such variances shall be limited to those instances where a hardship is clearly established as required by the Zoning Regulations.

In all cases involving requests for residential variances from the terms of the Zoning Regulations, a plat or survey of the property prepared by a registered surveyor, architect, or engineer shall be required. In all cases involving variances for commercial or industrial uses of land, a site plan of the property prepared by a registered surveyor, architect, or engineer shall be required. Variances may be granted only upon a finding by the board that:

Describe how each situation listed below relates to your application:

1. There are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship).
No exceptional hardships.

2. The application of the requirements of this resolution to this particular property would create an unusual hardship.
CAN, NOT because it would Require Removal of existing tasting Room to meet setback Requirements

3. Such conditions are peculiar to the particular piece of property involved and not common to other properties in the neighborhood. That is, the application of the regulation would deprive the applicant of the rights commonly enjoyed by others in the neighborhood.
No such conditions

4. Such conditions are not the result of any actions of the property owner.
Conditions of the property ARE DUE to having existing wine business AND AM NOW Retrofitting to AGRI-enterTainment.

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this resolution provided; however, that no variance may be granted for a use of land or building or structure that is prohibited by this resolution. For example, granting the variance would not confer any special privilege that is denied by this regulation to other property in the same zoning district.
-See ATTACHED NARRATIVE Regarding STATEMENTS pertaining to the Public good.

I hereby certify that the above information and all attached information is true and correct.

Subject: Tentative Planning Agenda for the January 22, 2026 Hall County Board of Commissioners meeting

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Please see below for the Tentative Planning Agenda and Maps for the **January 22, 2026** Hall County Board of Commissioners meeting. Please use the links to review the documents and respond with comments to Hall County

Planning and Development. Failure to provide comments in a timely manner may result in the information not being included in the staff report.

When submitting comments, please include the name of the applicant along with the address of the property with the corresponding comment.

Comments are due by **Thursday, December 18, 2025.** Email comments to Katie (kahmed@hallcounty.org) and Kaitlyn (kelliott@hallcounty.org).

- **3610 Mountain View Road | Variance to Section 3.2** | to reduce the minimum yards | on a 0.16± acre tract located on the north side of Mountain View Road approximately 70 feet from its intersection with Whiting Road | Zoned AR-1; Tax Parcel 08031 003013 | **Proposed Use: To bring an existing structure into compliance** | Commission District 4 | **Marcial Mosqueda, applicant**
  Off system, no impacts to the state route expected.

- **2479A Broadway Place | Variance to Section 7.8.3** | ADU standards | on a 0.29± acre tract located on the east side of the extension of Broadway Place approximately 466 feet from Broadway Drive | Zoned R-1; Tax Parcel 00121 005001 | **Proposed Use: Accessory dwelling unit** | Commission District 4 | **Amelia Gray, LLC, applicant**

- **2479B Broadway Place | Variance to Section 7.8.3** | ADU standards | on a 0.51± acre tract located on the east side of the extension of Broadway Place approximately 543 feet from Broadway Drive | Zoned R-1; Tax Parcel 00121 005007 (pt) | **Proposed Use: Accessory dwelling unit** | Commission District 4 | **Amelia Gray, LLC, applicant**
  Off system, no impacts to the state route expected.

- **(A) 1148 Hancock Avenue | Conditional Use |** expansion of a nonconforming use | on a 0.59± acre tract located on the west side of Hancock Avenue at its intersection with Jarrard Drive | Zoned H-B & R-1; Tax Parcels 00031 005009 | **Proposed Use: Accessory dwelling unit** | Commission District 4 | **Santos Cordoba, applicant**

  (B) 1148 Hancock Avenue | Variance to Section 5.3 | to reduce the minimum yards | on a 0.59± acre tract located on the west side of Hancock Avenue at its intersection with Jarrard Drive | Zoned H-B & R-1; Tax Parcels 00031 005009 | **Proposed Use: Accessory dwelling unit & to bring an existing structure into compliance** | Commission District 4 | **Santos Cordoba, applicant**
  Off system, no impacts to the state route expected.

- **5401 Old Winder Highway | Special Use** | to amend conditions of zoning | on an 84.30± acre portion of a tract located on the east side of Old Winder Highway at its intersection with Pleasant Hill Lane | Zoned R-MF; Tax Parcel 15039A000007(pt) | **Proposed use: 700-unit residential development** | Commission District 1 | **K2P Land Partners, LLC, applicant**
  Will need to permit with our office.

- **5401 Old Winder Highway | Special Use** | | to amend conditions of zoning | on a 194.10± acre portion of a tract located on the east side of Old Winder Highway at its intersection with Pleasant Hill Lane | Zoned I-1; Tax Parcel 15039A000007(pt) | **Proposed use: Industrial park** | Commission District 1 | **K2P Land Partners, LLC, applicant**
  Will need to permit with our office.

- **(A) 5773 & 5769 Conner Road | Special Use** | for an agri-entertainment venue | on a 11.96± acre tract located on the south side of Conner Road approximately 1415 feet from its intersection with Jim Crow Road | Zoned AR-1; Tax Parcels 08110 000151 & 08110 000015 (pt) | **Proposed Use: Agri-entertainment venue** | Commission District 2 | **Dwayne Bradley Walton, applicant**

  (B) 5773 & 5769 Conner Road | Variance to section 7.7.3 | to vary the standards for an agri-entertainment venue | on a 11.96± acre tract located on the south side of Conner Road approximately 1415 feet from its intersection with Jim Crow Road | Zoned AR-1; Tax Parcels 08110 000151 & 08110 000015 (pt) | **Proposed Use: Agri-entertainment venue** | Commission District 2 | **Dwayne Bradley Walton, applicant**
  Off system, no impacts to the state route expected.

- **5953 & 5965 Yellow Creek Road | Special Use |** for rural business | on a 2.21± acre tract located on the south side of Yellow Creek Road approximately 340 feet from its intersection with Walden Road | Zoned AR-1; Tax Parcels 11105 000019 & 11105 000002C (pt) | **Proposed Use: Rural Business** | Commission District 2 | **Joshua Stover, applicant**
  Off system, no impacts to the state route expected.

- **3294 & 3290 Athens Highway | Rezone** | from Agricultural Residential (AR-1) & Planned Industrial Development (PID) to Light Industrial (I-1)) | on a 14.11± acre tract located on the south side of Athens Highway approximately 1655 feet from its intersection with Bluffton Drive | Zoned AR-1 & PID; Tax Parcel 15014 000192 | **Proposed Use: Uses permitted in I-1** | Commission District 3 | **Jim Rizqallah, applicant**
  Will need to permit with our office. Driveway will need to align, and a right turn lane will be required. Intersection will need to be studied.

Thank you,

Kaitlyn Elliott

HALL COUNTY

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.

2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.

3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

By my signature, I, Dwayne Bradley Watson **(Please Print Name), hereby acknowledge that I have read and understand the sign posting requirements. I further certify that the required public notice sign was posted on** 12/28/25 **(Date) for** DWAYNE BRADLEY WATSON **(Name application filed as).**

Signature Brad Watson

FOR MORE INFORMATION CALL: (770) 531-6809

To whomever is currently deciding planning and zoning request for Hall County,

This is my response to proposed agri entertainment site at 5769 and 5773 Conner Road.

I am against the approval of this request! This proposed site is in the middle of at least 3 neighborhoods. There are close to 60 homes within 500 feet of the proposed site. I feel it will have a negative impact property values on the quality of life for more than just these 60 homes.

Number 1 is the noise. On 1 or 2 occasions music was played from this site and it was very loud. Loud enough for me to go to the street in front of my house to see if my neighbor across the street was having a party in their backyard. Approval of this request means nights of having windows open or sitting outback in the fresh air will not be possible on days of events involving music. This will include more than just the 60 homes. It will be easily audible to houses two and three times the 500 foot distance.

I do not know what type of music that will be played. But some music such as rap and some rock lyrics contain profanity. I personally do not want to sit listen to "f" , "mf" and other such words from events.

My second reason is the number of people attending events where alchohol is served. We certainly do not need more inebriated drivers on the road. We all ready have the Branch House which is within a mile of our homes. This are is really a residential area. It is no longer an agricultural area. There will be even more houses built in this area. So this will be impacting even more homes in the future. What was approved as a small personal winery now wants to expand into events. What will they be asking for after this?

Robert Lathroum

Hall County Board of Commissioners
P.O. Drawer 1435
Gainesville, GA 30503

Dear Members of the Hall County Board of Commissioners,

I am writing as a resident of Hall County to strongly oppose the special use permit and variance request for the proposed Flowery Branch Winery. While I appreciate efforts to support local businesses, I have serious concerns about the impact this project would have on our community's character, safety, and quality of life.

The proposed permit and variance raises multiple issues, including significantly increased traffic and frankly danger on an exceedingly narrow and frankly hazardous road. To be clear, Conner Road, the road granting access to the Applicant's property is already narrow. Two cars have difficulty passing each other under current conditions. Further, there is a personal care home at the end of the road, and emergency vehicles are frequently seen going to and from that property. Allowing numerous events on the Applicant's property will only exacerbate these problems and create an even more unsafe environment. Indeed, the Applicant has hosted several events on-site in the past, and cars parked on the lawn using a blind hill for access, providing a safety concern for drivers and an eyesore for nearby property owners. Granting the special use permit will only increase the hazards already faced by area residents. The added traffic would endanger pedestrians, cyclists, and children who frequently use Conner Road which is notably without a sidewalk on the bulk of the road.

The Board has ample grounds to deny the project for these reasons alone. It is unclear if the road's width currently meets standard safety requirements imposed by the International Fire Code as adopted by Hall County. At the very least, if the Applicant seeks to increase motor vehicle traffic

along the existing, narrow road, the Applicant should be required to widen it—at the Applicant's cost. Notably, a similar request was made by the Applicant in 2017 and was denied for these same reasons.

In addition to the objective safety risks associated with granting a special use permit, it is important to consider the exacerbation of noise pollution from ongoing events and gatherings. While we acknowledge that the Applicant is currently prohibited from using amplified sound outdoors, our observations suggest otherwise. We have documented instances, including videos of amplified music being played and images of unauthorized festivals that were held without permission. The Applicant has consistently disregarded existing regulations; thus, one must question what would prevent them from hosting events attracting 200 vehicles with loud music extending past midnight if a special use permit is granted.

Allowing this special use permit would significantly impact the quality of life for surrounding neighbors and likely lead to decreased property values. We urge you to consider these implications carefully.

Equally concerning is the change in land use that this permit and variance would enable. An event venue is fundamentally incompatible with the surrounding residential and rural environment. Granting these exceptions would set a troubling precedent that undermines existing zoning protections designed to preserve the tranquility and safety of our neighborhood.

I urge the Board to protect the interests of residents by denying the special use permit and variance request for the Flowery Branch Winery. Our community deserves thoughtful, responsible development that aligns with the area’s zoning, safety, and public welfare standards.

Jennifer Woodside will be testifying on my behalf.

Thank you for your consideration and for your continued service to the residents of Hall County.

Sincerely,
Alden Woodside

Hall County Board of Commissioners
P.O. Drawer 1435
Gainesville, GA 30503

Dear Commissioners:

We are writing to express our concerns regarding the proposed expansion and rezoning of Flowery Branch Winery to an agri-event space.

My husband and I are currently residing temporarily with my parents on Conner Road. I grew up on this road and have long been familiar with the challenges created by its narrow width and multiple blind spots. Driving on Conner Road requires significant caution due to limited visibility and constrained space.

Since the addition of the winery, traffic on Conner Road has already increased, including drivers who are unfamiliar with the roadway and how to navigate it safely. I recently gave birth to my first child, and during neighborhood walks and routine travel, I have experienced vehicles traveling at excessive speeds. On one occasion, a driver traveling in the middle of the road around a blind curve forced me off the roadway. These incidents raise serious safety concerns for residents and drivers.

The winery has already increased the risk of accidents along Conner Road, and the prospect of expanding the venue—and thereby increasing traffic volume—causes significant concern. Driving on this road has become increasingly stressful, particularly when traveling with a newborn child.

For these reasons, we believe that expanding this space would negatively impact the safety and quality of life of those who live along Conner Road. We respectfully request that you deny the proposed expansion and rezoning of Flowery Branch Winery.

Thank you for your time and thoughtful consideration of our concerns.

Sincerely,

Kaitlyn and Jason Hickman

Dear Ms. Rivera,

My wife, Sonya, and I are writing to express our support for the special use permit request for the Flowery Branch winery.

We live just down the road from the winery and have been regular patrons. We are aware that a nearby resident has been distributing flyers urging opposition to the permit, and we wanted to share our firsthand experience as neighbors.

Over the summer months, we have enjoyed many weekend evenings at the winery listening to local musicians. The music has always concluded by 9:00 p.m., and the atmosphere has consistently been

family-oriented. It is common to see children playing in the grass—throwing a ball or a frisbee—while families and friends enjoy the space together. We have never experienced excessive noise or disruptive behavior.

Concerns about traffic do not align with what we observe. In our experience, there are typically no more than 8–12 cars in the parking lot at any given time. Likewise, we question the assertion that proximity to a small, well-managed, community-focused venue would negatively impact property values. On the contrary, having a nearby place where neighbors can safely gather after dark with friends and family feels like an asset to the community. It seems comparable to living near other local amenities, such as Alberta Banks Park, which many consider a benefit rather than a drawback.

We sincerely hope the permit is approved. Denying a small local business the opportunity to grow would feel like an injustice, particularly when it has demonstrated responsible operation and positive community engagement. We would also be disappointed if we were forced to take our business farther from home and potentially another county due to the winery being unable to continue or expand its offerings.

Thank you for your time and for considering our perspective.

Sincerely,
Brad Tino

AGENDA ITEM

Planning & Zoning

REPORT TO: **Work Session (01/20/26)**

REPORT TO: **Voting Meeting (01/22/26)**

ITEM NO: 4/2026

SUBJECT: **1148 Hancock Avenue | Conditional Use |** expansion of a nonconforming use | on a 0.59± acre tract located on the west side of Hancock Avenue at its intersection with Jarrard Drive | Zoned H-B & R-1; Tax Parcels 00031 005009 **| Proposed Use: Accessory dwelling unit |** Commission District 4 **| Santos Cordoba, applicant**

Meetings:

Work Session Date: 01/20/26 **Voting Meeting Date:** 01/22/26

Executive Summary:

Presenter: KA

Recommendation:

Staff recommends APPROVAL of the applicant's requests with the following condition:

1. The proposed expansion of the non-conforming use is approved as generally shown on the site plan dated October 28, 2025 and described in the project narrative dated October 15, 2025 modified as necessary for compliance with development standards enforced at the time of site plan approval.

Purpose of Request:

1148 Hancock Avenue | Conditional Use | expansion of a nonconforming use | on a 0.59± acre tract located on the west side of Hancock Avenue at its intersection with Jarrard Drive | Zoned H-B & R-1; Tax Parcels 00031 005009 **| Proposed Use: Accessory dwelling unit |** Commission District 4 **| Santos Cordoba, applicant**

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant	Santos Cordoba
Request	(A) **Conditional Use** | expansion of a non-conforming use (B) **Variance** | to Section 5.3 | to reduce the minimum yards
Proposed Use	Accessory dwelling unit & to bring an existing structure into compliance.
Size	0.59± acres
Zoning	Highway Business (H-B) & Residential 1 (R-1)
Location	**1148 Hancock Avenue** | Tax Parcel 00031 005009
Commission District	Four
Commission Date	January 22, 2026
Staff Recommendation	(A) **Approval,** as hardship exists pursuant to criteria of 11.3.3; and (B) **Approval,** as hardship exists pursuant to the criteria of 11.1.1.D.11
Record Number(s)	(A) HZCU25-0058 (B) HVAR25-0062

(A) and (B) Staff recommends <u>APPROVAL</u> of the applicant's requests with the following condition:

1. The proposed expansion of the non-conforming use is approved as generally shown on the site plan dated October 28, 2025 and described in the project narrative dated October 15, 2025 modified as necessary for compliance with development standards enforced at the time of site plan approval.

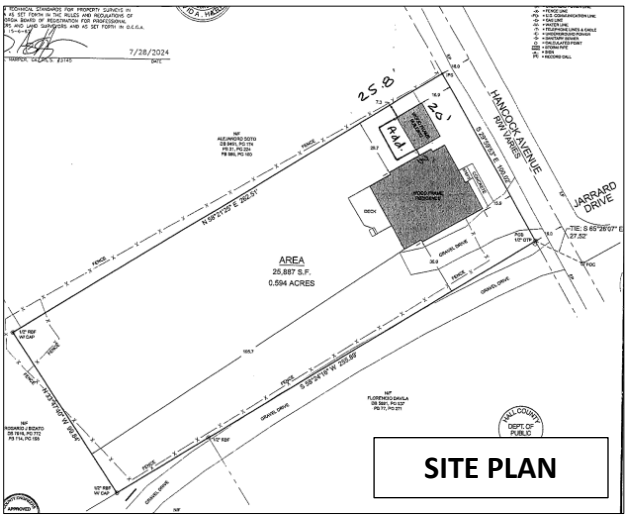
<u>Summary Analysis</u>

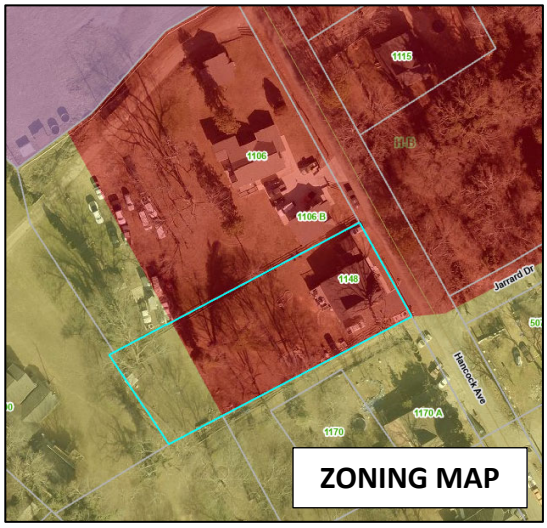
The applicant is requesting approval to expand an existing non-conforming residential use on a tract measuring approximately 0.69± acres with dual zoning classifications of Highway Business (H-B) and Residential 1 (R-1). The proposed expansion of the non-conforming use includes converting an existing accessory structure into an Accessory Dwelling Unit (ADU). A concurrent variance request from Section

5.3 is being requested to recognize the setbacks of the existing single family residence and existing accessory structure proposed to be converted into the ADU.
The surrounding properties are zoned and developed as outlined below:

North: Highway Business (H-B) & Residential 1 (R-1) – Developed with single-family residences built in 1890 & 1940.
East: Highway Business (H-B) – Developed with a warehouse complex constructed between 1945 and 1982.
Residential 1 (R-1) – Developed with single-family residences.
South: Residential 1 (R-1) – Developed with single-family residences.
West: Residential 1 (R-1) – Developed with single-family residences.

The majority of the subject property is zoned Highway Business which is the original zoning from the establishment of the County's zoning map in 1978. According to Hall County Tax Assessor records, the existing single-family dwelling was constructed in 1890 and an accessory structure added in 1980. A building permit was obtained in 2021 by the current property owner for the interior remodel of the single-family residence (RES2021-00621). Both structures appear to have been utilized for residential use since their construction.





The submitted site plan shows the existing residence situated 15.9 feet from the front property line where 30 feet is required. The residence meets all other setback requirements. The existing accessory structure, measuring 20 feet wide by 10 feet deep according to the recorded plat, is located 16.9 feet from the front property line and 7.3 feet from the side property line where 30 feet and 20 feet are required, respectively. An addition is proposed to the rear of the accessory structure.

The narrative states that the ADU is intended for occupancy by a family member.

Three (3) **variances** related to the front yard setback and north side yard setback will be required if the site plan, as presented, is approved.

- Front yard setback requirement of 30 feet from the property line as found in Table 5.3.1 for the Highway Business (H-B) zoning district.

  - A front yard setback of 15 feet from the front property line for the existing single family residence.
- Front yard setback requirement of 30 feet from the property line as found in Table 5.3.1 for the Highway Business (H-B) zoning district.
  - A front yard setback of 16 feet from the front property line for the accessory structure/proposed ADU.
- Side yard setback requirement of 20 feet from the side yard property line as found in Table 5.3.1 for the Highway Business (H-B) zoning district.
  - A side yard setback of 7 feet from the north side property line for the existing accessory structure and expansion of the structure for conversion to an ADU.

(A) <u>Zoning Analysis</u> – 11.3.3. Continuation of Nonconforming Use or Structure Due to Hardship

The Commission may grant the change, re-establishment or enlargement of a nonconforming use or the enlargement, rebuilding, alteration, repair or replacement of a nonconforming structure upon the following findings:

1. The change, re-establishment, enlargement, rebuilding, alteration, repair or replacement would be no more detrimental to the surrounding area than the existing or previous use. **The proposed enlargement of the existing accessory structure to accommodate an Accessory Dwelling Unit (ADU) is not anticipated to create impacts greater than those associated with the existing residential use. The expansion remains residential in nature and is unlikely to generate adverse effects on the surrounding area.**

2. The structure cannot economically be modified to be suitable for uses permitted in the district. **The applicant has not indicated any feasible means of converting the existing residential improvements to a use permitted within the Highway Business (H-B) district. Instead, the request seeks to continue and modestly expand the long-standing residential use, which reflects the historical development pattern of the property.**

3. The structure would have to be removed to permit development of the property for conforming uses. **Staff cannot determine that the existing structures could be reasonably adapted to support a conforming commercial use under the current zoning. It is likely that redevelopment for a permitted H-B use would necessitate significant work to the structures or removal of the existing residential improvements.**

4. The structure has such value that removal to permit development of conforming uses would cause economic hardship to the owner. **The owner purchased the property in 2018 for residential purposes. Requiring demolition of the existing structures to allow commercial redevelopment would impose a significant economic hardship, given the owner's investment and the intended residential use of the property.**

5. The proposed change, re-establishment, enlargement, rebuilding, alteration, repair or replacement would not cause substantial detriment to the public good or impair the purposes and intent of this UDC. **Although the residential use does not conform to the H-B zoning district, the proposed ADU expansion is not expected to negatively affect the public good or undermine the intent of the Unified Development Code. The use remains low-intensity and compatible with the established character of the immediate area.**

6. The requirements of this UDC for rezoning would prevent the current zoning from being changed to a classification that would allow the proposed change, re-establishment, enlargement, rebuilding, alteration, repair or replacement. **The property's current Highway Business (H-B) zoning does not permit residential uses by right. Based on the Comprehensive Plan future land use designation of Business Nodes and Corridor, rezoning to a residential district would not align with the planned commercial character of the corridor. As such, the UDC's rezoning requirements effectively prevent the property from being reclassified in a manner that would allow the proposed residential expansion.**

(B) Zoning Analysis – 11.1.1.11 Variances

The Commission may grant variances in individual cases of unnecessary hardship upon a finding of the board that:

1. There are extraordinary and exceptional conditions pertaining to the lot in question because of its size, shape, or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship); **Extraordinary and exceptional conditions exist as a result of the property's development history. The primary residence was constructed in 1890, predating modern land-use regulations, and the accessory structure was built in 1980 with a front setback consistent with the existing residence. These conditions create a unique physical context not shared by properties developed under current standards.**

2. The application of the requirements of this UDC to this particular piece of property would create an unusual hardship; **Because the residence predates zoning and the accessory structure was constructed with a setback matching the established pattern along Hancock Avenue, strict application of current setback requirements would impose an unusual hardship. The structures were legally established under earlier development conditions and cannot reasonably be brought into compliance without disproportionate impact.**

3. Such conditions are peculiar to the particular piece of property involved and are not common to other properties in the neighborhood; **While several nearby homes along Hancock Avenue share similar setbacks, the combination of the property's age, development pattern, and the placement of both structures creates a condition that is uniquely tied to this parcel and not representative of properties developed under contemporary zoning standards.**

4. Such conditions are not the result of any actions of the property owner**; The primary residence was constructed in 1890 and the accessory structure in 1980, both long before the current owner acquired the property in January 2021. The existing setbacks and structural placements are therefore not attributable to any action taken by the current owner.**

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC; provided, however, that no variance may be granted for a use of land or building or structure that is prohibited by this UDC or for a Conditional Use Permit which has been denied by the Planning Commission; **Approval of the requested variance would not negatively affect the public good, nor would it compromise the intent of the UDC. The request simply recognizes long-standing, historically established conditions and does not authorize any prohibited or previously denied use. The character of the area would remain unchanged.**

11.2.6.E. - Submission requirements

A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in chapter 11.2 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. **The proposal meets the requirement, and the applicant understands that someone must be present at the Hall County Board of Commissioners' public hearing.**

B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:

   1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 11.2. **The applicant has submitted a narrative; however, the applicant has not prepared a response to each of the criteria listed in 11.2.6.E.2.**

   2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district**. The applicant submitted a scaled site plan.**

C. For any application for a slow rate land treatment system (see chapter 7.6.9.D.1), the following additional requirements apply. **This standard is not applicable as the site will be served by an onsite septic system.**

D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. **As there are not 100 or more residential dwelling units proposed, this criterion is not applicable.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated "Must meet all residential permitting requirements. Original copy of Level 3 soil evaluation and copy of recorded plat will be required at time of septic permit application."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher Hash, P.E., D1 Traffic Operations Supervisor, stated "Off-system, no impacts to the state route expected. "

Hall County Public Works and Utilities

In a memorandum from Public Works and Utilities dated December 17, 2025, Jason Skarda, Assistant Director of Public Works and Utilities provided the following comments:

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

(b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating $250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:

(3) The name and official position of the local government official to whom the campaign contribution was made; and

(4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.

(b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

I hereby certify that I have read the above and that:

I have**____ I have not ✓

within the two years immediately preceding this date, made any contribution(s) aggregating $250.00 or more to any local government official involved in the review or consideration of this application.

**If you have made such contributions, you must provide the data required below within ten (10) days of filing this application.

Subject: Request for Variance – Expansion of Existing Storage Shed

Dear Members of the Planning Commission,

I am writing to formally request a variance to allow the expansion of an existing storage shed on my property, which I intend to convert into a small living space for my son. The request arises due to unique physical characteristics of my property that make strict compliance with the current zoning requirements an undue hardship.

The shed is permanently fixed in its current location and cannot be relocated elsewhere on the lot. Because of the property's layout and existing structures, the only feasible direction for expansion is toward the rear of the lot. This condition is unique to my parcel and not typical of neighboring properties.

Strict enforcement of the zoning setback requirements would prevent us from using the existing structure safely and efficiently. The proposed expansion is modest and will allow for a livable, code-compliant space without altering the residential character of the property or the surrounding neighborhood.

This hardship is not self-created. The position of the shed and the physical limitations of the lot existed prior to my ownership. Granting this variance will not cause any public detriment or impair the intent of the zoning regulations. The improvement will remain consistent with residential use, enhance the property's appearance, and provide a safe, independent space for a family member in need.

Thank you for your consideration of this request. I respectfully ask for your approval of this variance so that we may proceed with the planned improvements while maintaining the integrity of the community and compliance with all applicable safety codes.

Sincerely,

Santos Cordoba

LIMITED WARRANTY DEED

STATE OF GEORGIA
COUNTY OF FULTON

FILE #: 20-12052

THIS INDENTURE made this January 18, 2021 between **Deborah Dewitt as the Executrix of the Estate of Randolph M. Eccles a/k/a Randolph Marvin Eccles, deceased,** of the State of Georgia, as party or parties of the first part, hereinunder called Grantor, and **Santos Cordoba and Martha Madrigal, husband and wife, as joint tenants,** as party or parties of the second part, hereinafter called Grantee (the words "Grantor" and "Grantee" to include their respective heirs, successors and assigns where the context requires or permits).

WITNESSETH that: Grantor, for and in consideration of the sum of TEN AND NO/100 DOLLARS ($10.00) and other good and valuable considerations in hand paid, at and before the sealing and delivery of these presents, the receipt whereof is hereby acknowledged, has granted, bargained, sold, aliened, conveyed and confirmed, and by these presents does grant, bargain, sell, alien, convey and confirm unto the said Grantee.

All that tract or parcel of land lying, being and situate in GMD 411, Hall County, Georgia, and being part of Tract 5 on the west side of Hancock Avenue as shown by a plat prepared by Henw Grady Jarrard, Registered Surveyor, on May 18, 1961, and being more particularly described as follows:

BEGINNING at an iron pin stake on the west right of way of Hancock Avenue; thence South 59° 00' West 260.36 feet to a point; thence in a southerly direction 104 feet to a point; thence North 58° 57' East 256.85 feet to a point on the west side of Hancock Avenue; thence in a northerly direction 100 feet along the west right of way of Hancock Avenue to the BEGINNING POINT. This being all of Tract5 except a small portion previously deeded to Ralph Mitchel.

Tax ID#: 00031 005009

This Deed is given subject to all easements and restrictions of record, if any.

TO HAVE AND TO HOLD the said tract or parcel of land, together with all and singular the rights, members and appurtenances thereof, to the same being, belonging or in anywise appertaining, to the only proper use, benefit and behoof of the said Grantee, forever in **FEE SIMPLE**, subject, however, to all liens, exceptions, easements, rights-of-way, covenants, conditions, restrictions, reservations, encroachments, protrusions, shortages in area, boundary disputes and discrepancies, matters which could be discovered or would be revealed by, respectively, an inspection or current survey of the Property, encumbrances, impositions (monetary and otherwise), access limitations, licenses, leases, prescriptive rights, rights of parties in possession, rights of tenants, co-tenants, or other co-owners, and any and all other matters or conditions affecting the Subject Property, as well as standby fees, real estate taxes, and assessments on the Property for the current year and prior and subsequent years, and subsequent taxes and assessments for prior years due to change in land usage or ownership, and any and all zoning laws, regulations, and ordinances of municipal and other governmental authorities affecting the Property (all of the foregoing being collectively referred to as the "Permitted Encumbrances").

AND THE SAID Grantor will warrant and forever defend the right and title to the above described property unto the said Grantee against the claims of all persons by, through and under the above named grantor, but not otherwise provided, however, that Grantor's conveyance of the Property and Grantor's warranties of title contained in this Deed are and shall be subject to the Permitted Encumbrances.

IN WITNESS WHEREOF, Grantor has hereunto set grantor's hand and seal this day and year first above written.

Signed, sealed and delivered in the presence of:

Danielle N. Colston-Couch
Witness

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.
3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant	Santos Cordoba
Request	(A) **Conditional Use** | expansion of a non-conforming use (B) **Variance** | to Section 5.3 | to reduce the minimum yards
Proposed Use	Accessory dwelling unit & to bring an existing structure into compliance.
Size	0.59± acres
Zoning	Highway Business (H-B) & Residential 1 (R-1)
Location	**1148 Hancock Avenue** | Tax Parcel 00031 005009
Commission District	Four
Commission Date	January 22, 2026
Staff Recommendation	(A) **Approval,** as hardship exists pursuant to criteria of 11.3.3; and (B) **Approval,** as hardship exists pursuant to the criteria of 11.1.1.D.11
Record Number(s)	(A) HZCU25-0058 (B) HVAR25-0062

(A) and (B) Staff recommends <u>APPROVAL</u> of the applicant's requests with the following condition:

1. The proposed expansion of the non-conforming use is approved as generally shown on the site plan dated October 28, 2025 and described in the project narrative dated October 15, 2025 modified as necessary for compliance with development standards enforced at the time of site plan approval.

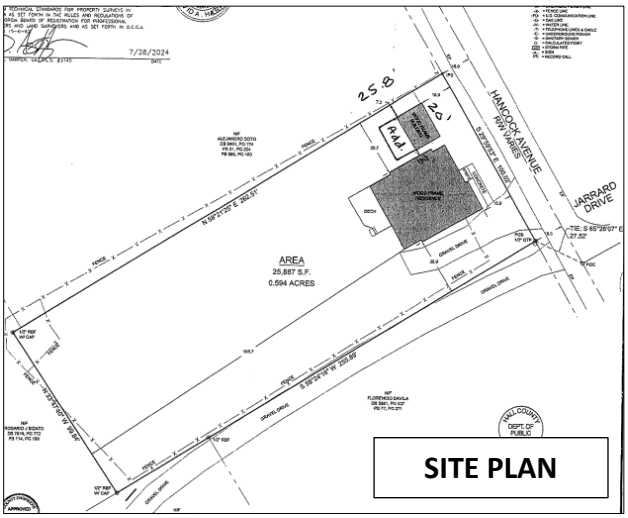
<u>Summary Analysis</u>

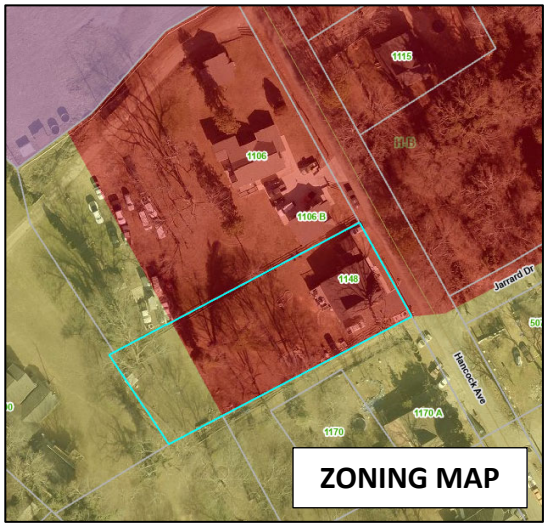
The applicant is requesting approval to expand an existing non-conforming residential use on a tract measuring approximately 0.69± acres with dual zoning classifications of Highway Business (H-B) and Residential 1 (R-1). The proposed expansion of the non-conforming use includes converting an existing accessory structure into an Accessory Dwelling Unit (ADU). A concurrent variance request from Section

5.3 is being requested to recognize the setbacks of the existing single family residence and existing accessory structure proposed to be converted into the ADU.
The surrounding properties are zoned and developed as outlined below:

North: Highway Business (H-B) & Residential 1 (R-1) – Developed with single-family residences built in 1890 & 1940.
East: Highway Business (H-B) – Developed with a warehouse complex constructed between 1945 and 1982.
Residential 1 (R-1) – Developed with single-family residences.
South: Residential 1 (R-1) – Developed with single-family residences.
West: Residential 1 (R-1) – Developed with single-family residences.

The majority of the subject property is zoned Highway Business which is the original zoning from the establishment of the County's zoning map in 1978. According to Hall County Tax Assessor records, the existing single-family dwelling was constructed in 1890 and an accessory structure added in 1980. A building permit was obtained in 2021 by the current property owner for the interior remodel of the single-family residence (RES2021-00621). Both structures appear to have been utilized for residential use since their construction.





The submitted site plan shows the existing residence situated 15.9 feet from the front property line where 30 feet is required. The residence meets all other setback requirements. The existing accessory structure, measuring 20 feet wide by 10 feet deep according to the recorded plat, is located 16.9 feet from the front property line and 7.3 feet from the side property line where 30 feet and 20 feet are required, respectively. An addition is proposed to the rear of the accessory structure.

The narrative states that the ADU is intended for occupancy by a family member.

Three (3) **variances** related to the front yard setback and north side yard setback will be required if the site plan, as presented, is approved.

- Front yard setback requirement of 30 feet from the property line as found in Table 5.3.1 for the Highway Business (H-B) zoning district.

  - A front yard setback of 15 feet from the front property line for the existing single family residence.
- Front yard setback requirement of 30 feet from the property line as found in Table 5.3.1 for the Highway Business (H-B) zoning district.
  - A front yard setback of 16 feet from the front property line for the accessory structure/proposed ADU.
- Side yard setback requirement of 20 feet from the side yard property line as found in Table 5.3.1 for the Highway Business (H-B) zoning district.
  - A side yard setback of 7 feet from the north side property line for the existing accessory structure and expansion of the structure for conversion to an ADU.

(A) <u>Zoning Analysis</u> – 11.3.3. Continuation of Nonconforming Use or Structure Due to Hardship

The Commission may grant the change, re-establishment or enlargement of a nonconforming use or the enlargement, rebuilding, alteration, repair or replacement of a nonconforming structure upon the following findings:

1. The change, re-establishment, enlargement, rebuilding, alteration, repair or replacement would be no more detrimental to the surrounding area than the existing or previous use. **The proposed enlargement of the existing accessory structure to accommodate an Accessory Dwelling Unit (ADU) is not anticipated to create impacts greater than those associated with the existing residential use. The expansion remains residential in nature and is unlikely to generate adverse effects on the surrounding area.**

2. The structure cannot economically be modified to be suitable for uses permitted in the district. **The applicant has not indicated any feasible means of converting the existing residential improvements to a use permitted within the Highway Business (H-B) district. Instead, the request seeks to continue and modestly expand the long-standing residential use, which reflects the historical development pattern of the property.**

3. The structure would have to be removed to permit development of the property for conforming uses. **Staff cannot determine that the existing structures could be reasonably adapted to support a conforming commercial use under the current zoning. It is likely that redevelopment for a permitted H-B use would necessitate significant work to the structures or removal of the existing residential improvements.**

4. The structure has such value that removal to permit development of conforming uses would cause economic hardship to the owner. **The owner purchased the property in 2018 for residential purposes. Requiring demolition of the existing structures to allow commercial redevelopment would impose a significant economic hardship, given the owner's investment and the intended residential use of the property.**

5. The proposed change, re-establishment, enlargement, rebuilding, alteration, repair or replacement would not cause substantial detriment to the public good or impair the purposes and intent of this UDC. **Although the residential use does not conform to the H-B zoning district, the proposed ADU expansion is not expected to negatively affect the public good or undermine the intent of the Unified Development Code. The use remains low-intensity and compatible with the established character of the immediate area.**

6. The requirements of this UDC for rezoning would prevent the current zoning from being changed to a classification that would allow the proposed change, re-establishment, enlargement, rebuilding, alteration, repair or replacement. **The property's current Highway Business (H-B) zoning does not permit residential uses by right. Based on the Comprehensive Plan future land use designation of Business Nodes and Corridor, rezoning to a residential district would not align with the planned commercial character of the corridor. As such, the UDC's rezoning requirements effectively prevent the property from being reclassified in a manner that would allow the proposed residential expansion.**

(B) Zoning Analysis – 11.1.1.11 Variances

The Commission may grant variances in individual cases of unnecessary hardship upon a finding of the board that:

1. There are extraordinary and exceptional conditions pertaining to the lot in question because of its size, shape, or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship); **Extraordinary and exceptional conditions exist as a result of the property's development history. The primary residence was constructed in 1890, predating modern land-use regulations, and the accessory structure was built in 1980 with a front setback consistent with the existing residence. These conditions create a unique physical context not shared by properties developed under current standards.**

2. The application of the requirements of this UDC to this particular piece of property would create an unusual hardship; **Because the residence predates zoning and the accessory structure was constructed with a setback matching the established pattern along Hancock Avenue, strict application of current setback requirements would impose an unusual hardship. The structures were legally established under earlier development conditions and cannot reasonably be brought into compliance without disproportionate impact.**

3. Such conditions are peculiar to the particular piece of property involved and are not common to other properties in the neighborhood; **While several nearby homes along Hancock Avenue share similar setbacks, the combination of the property's age, development pattern, and the placement of both structures creates a condition that is uniquely tied to this parcel and not representative of properties developed under contemporary zoning standards.**

4. Such conditions are not the result of any actions of the property owner**; The primary residence was constructed in 1890 and the accessory structure in 1980, both long before the current owner acquired the property in January 2021. The existing setbacks and structural placements are therefore not attributable to any action taken by the current owner.**

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC; provided, however, that no variance may be granted for a use of land or building or structure that is prohibited by this UDC or for a Conditional Use Permit which has been denied by the Planning Commission; **Approval of the requested variance would not negatively affect the public good, nor would it compromise the intent of the UDC. The request simply recognizes long-standing, historically established conditions and does not authorize any prohibited or previously denied use. The character of the area would remain unchanged.**

11.2.6.E. - Submission requirements

A. Any person or persons requesting a change in the official zoning map or use subject to approval of the county commission shall file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in chapter 11.2 to cover administrative and advertising costs, in the planning department office. Such person or persons or their authorized agent shall appear in person at the public hearing held to consider the district change. **The proposal meets the requirement, and the applicant understands that someone must be present at the Hall County Board of Commissioners' public hearing.**

B. All applications for a change of zoning classification or use subject to approval of the county commission shall include:

   1. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in section 11.2. **The applicant has submitted a narrative; however, the applicant has not prepared a response to each of the criteria listed in 11.2.6.E.2.**

   2. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the planning commission and county commission shall evaluate the application based on the most intense possible land use permitted in the proposed district**. The applicant submitted a scaled site plan.**

C. For any application for a slow rate land treatment system (see chapter 7.6.9.D.1), the following additional requirements apply. **This standard is not applicable as the site will be served by an onsite septic system.**

D. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study shall be submitted prior to consideration of the application by the planning commission. At the applicant's expense, the traffic impact study shall be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The engineering department shall review the traffic impact study and forward any comments to the Hall County Planning Commission. **As there are not 100 or more residential dwelling units proposed, this criterion is not applicable.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated "Must meet all residential permitting requirements. Original copy of Level 3 soil evaluation and copy of recorded plat will be required at time of septic permit application."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher Hash, P.E., D1 Traffic Operations Supervisor, stated "Off-system, no impacts to the state route expected. "

Hall County Public Works and Utilities

In a memorandum from Public Works and Utilities dated December 17, 2025, Jason Skarda, Assistant Director of Public Works and Utilities provided the following comments:

Engineering:
No comment

Traffic:
No comment

Utilities:
Gainesville Sewer – Infrastructure on Marler Street.

Hall County Fire Marshal
In an email dated December 15, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated, "The Hall County Fire Marshal's Office has no comments as proposed."

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

(b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating $250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:

(3) The name and official position of the local government official to whom the campaign contribution was made; and

(4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.

(b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

I hereby certify that I have read the above and that:

I have**____ I have not ✓

within the two years immediately preceding this date, made any contribution(s) aggregating $250.00 or more to any local government official involved in the review or consideration of this application.

**If you have made such contributions, you must provide the data required below within ten (10) days of filing this application.

STATEMENT OF HARDSHIP

The Hall County Planning Commission has the authority, in specific cases, to grant variances from the terms of the Zoning Regulations when the variance will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the Zoning Regulations will, in specific cases, result in unnecessary hardship and so that the resolution shall be observed, public safety and welfare secured, and substantial justice done. The authority to grant such variances shall be limited to those instances where a hardship is clearly established as required by the Zoning Regulations.

In all cases involving requests for residential variances from the terms of the Zoning Regulations, a plat or survey of the property prepared by a registered surveyor, architect, or engineer shall be required. In all cases involving variances for commercial or industrial uses of land, a site plan of the property prepared by a registered surveyor, architect, or engineer shall be required. Variances may be granted only upon a finding by the board that:

Describe how each situation listed below relates to your application:

1. There are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship).

The shed is fixed in place and cannot be relocated. Due to the lot's layout, it can only be extended toward the rear which makes expansion limited and unique to this property.

2. The application of the requirements of this resolution to this particular property would create an unusual hardship.

Without a variance, we cannot extended the shed in the only feasible direction to create a safe living space for my son. This restriction creates an unnecessary hardship.

3. Such conditions are peculiar to the particular piece of property involved and not common to other properties in the neighborhood. That is, the application of the regulation would deprive the applicant of the rights commonly enjoyed by others in the neighborhood.

Unlike neighboring lots, mine does not allow flexibility in structure placement. The shed's fixed location and lot shape mean expansion is only possible at the rear.

4. Such conditions are not the result of any actions of the property owner.

The shed's location and the lot's constraints existed prior to my ownership. The hardship results from these conditions, not any actions of mine.

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this resolution provided; however, that no variance may be granted for a use of land or building or structure that is prohibited by this resolution. For example, granting the variance would not confer any special privilege that is denied by this regulation to other property in the same zoning district.

Extending the shed to the rear will remain consistent with residential use, meet safety codes, and not harm neighbors or the public. It grants no special privilege.

I hereby certify that the above information and all attached information is true and correct.

SURVEY CERTIFICATION:

THIS PLAT IS A RETRACEMENT OF AN EXISTING PARCEL OR PARCELS OF LAND AND DOES NOT SUBDIVIDE OR CREATE A NEW PARCEL OR MAKE ANY CHANGES TO ANY REAL PROPERTY BOUNDARIES. THE RECORDING INFORMATION OF THE DOCUMENTS, MAPS, PLATS, OR OTHER INSTRUMENTS WHICH CREATED THE PARCEL OR PARCELS ARE STATED HEREON. RECORDATION OF THIS PLAT DOES NOT IMPLY APPROVAL OF ANY LOCAL JURISDICTION, AVAILABILITY OF PERMITS, COMPLIANCE WITH LOCAL REGULATIONS OR REQUIREMENTS, OR SUITABILITY FOR ANY USE OR PURPOSE OF THE LAND. FURTHERMORE, THE UNDERSIGNED LAND SURVEYOR CERTIFIES THAT THIS PLAT COMPLIES WITH THE MINIMUM TECHNICAL STANDARDS FOR PROPERTY SURVEYS IN GEORGIA AS SET FORTH IN THE RULES AND REGULATIONS OF THE GEORGIA BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS AND AS SET FORTH IN O.C.G.A. SECTION 15-6-67.

GEORGIA REGISTERED No. 3145 LAND SURVEYOR DAVID A. HARPER

7/28/2024

DAVID A. HARPER, GA. R.L.S. #3145 — DATE

SURVEY NOTES:

1.) Field Data: Closure Precision-1'/24,932
Angular Error = 1"/STA.
2.) Measurements were taken July 2024, with a Topcon 9003A and Trimble R12 and adjustments were made using compass rule method.
3.) Plat Precision: 1'/100,000' +
4.) The north meridian shown hereon are Grid North Georgia West Zone 1002 & obtained using Trimble R12 and network vrs RTK solution.

UTILITY NOTES & INFORMATION:

Utilities shown are based on above ground and visible evidence. Surveyor does not warrant the exact size, type, or location of utilities shown and furthermore no guarantee is made that other utilities may exist on site that are not shown.

GENERAL NOTES

1. FIELD WORK PERFORMED IN JULY 2024
2. THIS PROPERTY IS SUBJECT TO ADDITIONAL EASEMENTS OR RESTRICTIONS OF RECORD.
3. SURVEYOR DOES NOT WARRANT THE ACCURACY OF EASEMENTS AND BUFFERS THAT ARE ILLUSTRATED ON THE PLAT, THESE SHOULD BE VERIFIED PRIOR TO ANY CONSTRUCTION.
4. UTILITY EASEMENTS HAVE NOT BEEN FIELD VERIFIED BY SURVEYOR. CONTACT UTILITY CONTRACTOR FOR LOCATION PRIOR TO CONSTRUCTION. (IF APPLICABLE)
5. THIS DRAWING IS FOR EXCLUSIVE USE BY CLIENT. USE BY THIRD PARTIES IS AT THEIR OWN RISK.
6. BUFFERS AND SETBACKS ARE NOT SHOWN AND SHOULD BE VERIFIED WITH THE LOCAL JURISDICTION.

LIMITED WARRANTY DEED

STATE OF GEORGIA
COUNTY OF FULTON

FILE #: 20-12052

THIS INDENTURE made this January 18, 2021 between **Deborah Dewitt as the Executrix of the Estate of Randolph M. Eccles a/k/a Randolph Marvin Eccles, deceased,** of the State of Georgia, as party or parties of the first part, hereinunder called Grantor, and **Santos Cordoba and Martha Madrigal, husband and wife, as joint tenants,** as party or parties of the second part, hereinafter called Grantee (the words "Grantor" and "Grantee" to include their respective heirs, successors and assigns where the context requires or permits).

WITNESSETH that: Grantor, for and in consideration of the sum of TEN AND NO/100 DOLLARS ($10.00) and other good and valuable considerations in hand paid, at and before the sealing and delivery of these presents, the receipt whereof is hereby acknowledged, has granted, bargained, sold, aliened, conveyed and confirmed, and by these presents does grant, bargain, sell, alien, convey and confirm unto the said Grantee.

All that tract or parcel of land lying, being and situate in GMD 411, Hall County, Georgia, and being part of Tract 5 on the west side of Hancock Avenue as shown by a plat prepared by Henw Grady Jarrard, Registered Surveyor, on May 18, 1961, and being more particularly described as follows:

BEGINNING at an iron pin stake on the west right of way of Hancock Avenue; thence South 59° 00' West 260.36 feet to a point; thence in a southerly direction 104 feet to a point; thence North 58° 57' East 256.85 feet to a point on the west side of Hancock Avenue; thence in a northerly direction 100 feet along the west right of way of Hancock Avenue to the BEGINNING POINT. This being all of Tract5 except a small portion previously deeded to Ralph Mitchel.

Tax ID#: 00031 005009

This Deed is given subject to all easements and restrictions of record, if any.

TO HAVE AND TO HOLD the said tract or parcel of land, together with all and singular the rights, members and appurtenances thereof, to the same being, belonging or in anywise appertaining, to the only proper use, benefit and behoof of the said Grantee, forever in **FEE SIMPLE**, subject, however, to all liens, exceptions, easements, rights-of-way, covenants, conditions, restrictions, reservations, encroachments, protrusions, shortages in area, boundary disputes and discrepancies, matters which could be discovered or would be revealed by, respectively, an inspection or current survey of the Property, encumbrances, impositions (monetary and otherwise), access limitations, licenses, leases, prescriptive rights, rights of parties in possession, rights of tenants, co-tenants, or other co-owners, and any and all other matters or conditions affecting the Subject Property, as well as standby fees, real estate taxes, and assessments on the Property for the current year and prior and subsequent years, and subsequent taxes and assessments for prior years due to change in land usage or ownership, and any and all zoning laws, regulations, and ordinances of municipal and other governmental authorities affecting the Property (all of the foregoing being collectively referred to as the "Permitted Encumbrances").

AND THE SAID Grantor will warrant and forever defend the right and title to the above described property unto the said Grantee against the claims of all persons by, through and under the above named grantor, but not otherwise provided, however, that Grantor's conveyance of the Property and Grantor's warranties of title contained in this Deed are and shall be subject to the Permitted Encumbrances.

IN WITNESS WHEREOF, Grantor has hereunto set grantor's hand and seal this day and year first above written.

Signed, sealed and delivered in the presence of:

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.
2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.
3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant ..... Amelia Gray, LLC

Request ..... **Variance** | to Section 7.8.3 ADU Standards

Proposed Use ..... Accessory dwelling unit

Size ..... .0.29± acres

Zoning ..... Residential 1 (R-1)

Location ..... **2479A Broadway Place** | Tax Parcel 00121 005001

Commission District ..... Four

Commission Date ..... January 22, 2026

Staff Recommendation ..... **Approval,** as hardship exists pursuant to the criteria of 11.1.1.D.11

Record Number HVAR25-0068

Staff recommends <u>APPROVAL</u> of the applicant's request.

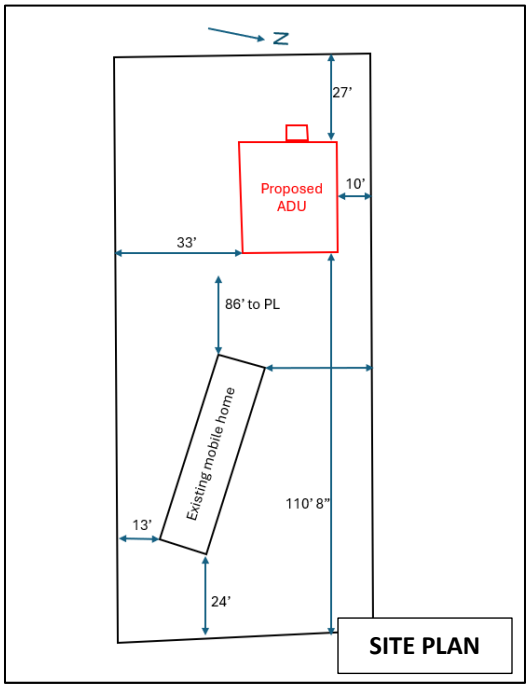
<u>Summary Analysis</u>

The applicant is requesting a variance from Section 7.8.3 regarding the location of an accessory dwelling unit (ADU) in relation to the primary residence. The subject property is approximately 0.29± acres in size and is zoned Residential 1 (R-1).

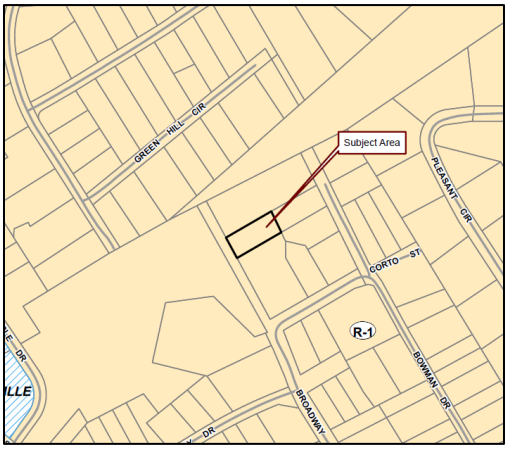
The property at 2288 Bowman Drive (identified with a pink star) is currently developed with a 784-square-foot single-wide mobile home, established in 1998 according to Hall County records. This lot is considered unconventional because access is provided via an easement from Bowman Drive (highlighted in yellow), while the designated front yard abuts an undeveloped right-of-way (highlighted in blue). This unique layout

results in the "front" property line functioning as the rear lot line, as the primary residence faces the rear property line. Practical access to Bowman Drive is achieved through an easement across the adjoining parcel at 2266 Bowman Drive.

A building permit (HRNEW25-1401) was issued in October 2025 to allow construction of an accessory dwelling unit (ADU) on the subject property, located "behind" the existing mobile home. When the property owner of the subject property applied for a building permit for an ADU on the adjacent property at 2479B Broadway Place/2299 Bowman Drive, it was discovered that the building permit for 2479A Broadway Place was issued in error as the "front" of the property is technically Broadway Place. Section 7.8.3.B.5. states that "If not attached to the principal dwelling, the building containing the ADU must be located in the rear or side yard. "



The property owner is constructing an access driveway within the undeveloped right-of-way fronting the subject parcel, known as Broadway Place extension, extending from the paved portion of Broadway Place. This driveway is proposed to serve both the subject property and the adjacent parcel to the north, allowing each to accommodate access to an ADU (the northern parcel being the subject of a separate ADU variance request). Access from Bowman Drive is not feasible without disturbing the existing septic system serving the mobile home. The Broadway Place "extension" right-of-way terminates at the end of the parcel immediately north of the subject property.



One (1) **variance** related to the location of the ADU will be required if the site plan, as presented, is approved.

- A detached ADU must be located in the rear or side yard.
    - The ADU is located 27 feet from the front property line whereas the primary residence is located approximately 70 feet from the front property line.

Zoning Analysis

The Commission may grant variances in individual cases of unnecessary hardship upon a finding of the board that:

1. There are extraordinary and exceptional conditions pertaining to the lot in question because of its size, shape, or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship); **Extraordinary and exceptional conditions exist due to the property's unique development history. When placement of the primary residence was originally approved, access from the fronting right-of-way was not available. As a result, the primary residence was oriented toward the rear property line, with its functional access point and address located on Bowman Drive. This atypical orientation stems directly from the physical and access-related characteristics of the lot rather than any personal or economic hardship.**

2. The application of the requirements of this UDC to this particular piece of property would create an unusual hardship; **Because the County historically permitted access to the property through a private easement across the neighboring parcel, including a Bowman Drive address, effectively establishing an alternative "front" yard, strict application of Article 11 would impose an unusual hardship.**

3. Such conditions are particular to the property involved and are not common to other properties in the neighborhood; **The property's original access orientation and reliance on a rear easement are unique within the surrounding area. Only the subject parcel and the adjacent property at 2479B Broadway Place / 2299 Bowman Road share this unusual configuration, making the condition distinctly uncommon in the neighborhood.**

4. Such conditions are not the result of any actions of the property owner**; The placement and access orientation of the primary residence was permitted by the County. Although the construction of an ADU is a voluntary improvement, the unconventional development pattern of the parcel, created by historical access constraints, limits feasible placement options for the ADU.**

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC; provided, however, that no variance may be granted for a use of land or building or structure that is prohibited by this UDC or for a Conditional Use Permit which has been denied by the Planning Commission; **Granting the requested variance would not create any substantial detriment to the public good, nor would it undermine the purposes or intent of The UDC. The relief sought pertains solely to accommodating the property's unique physical and historical access conditions and does not authorize any prohibited or previously denied use.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated "Septic permit OSC-10379 was issued for a 1 bdrm ADU on August 25, 2025."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher M Hash, D1 Traffic Operations Supervisor stated "Off system, no impacts to the state route expected."

Hall County Public Works and Utilities
In a memorandum from Public Works and Utilities dated December 17, 2025, Assistant Director Jason Skarda stated the following:

Engineering:
No comment

Traffic:
No comment

Utilities:
Gainesville Sewer - No infrastructure in vicinity.

Hall County Fire Marshal
In an email dated December 15, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated, "The Hall County Fire Marshal's Office has no comments as proposed."

OPERATING AGREEMENT
OF
AMELIA GRAY, LLC

ANY SECURITIES CREATED BY THIS OPERATING AGREEMENT HAVE NOT BEEN REGISTERED UNDER THE GEORGIA SECURITIES ACT OF 1973, AS AMENDED, IN RELIANCE UPON THE EXEMPTION FROM REGISTRATION SET FORTH IN SECTION 10-5-9(13) OF SUCH ACT. IN ADDITION, ANY SECURITIES CREATED BY THIS OPERATING AGREEMENT, IF ANY, HAVE NOT BEEN REGISTERED WITH THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION IN RELIANCE UPON AN EXEMPTION FROM SUCH REGISTRATION SET FORTH IN THE SECURITIES ACT OF 1933 PROVIDED BY SECTION 4(2) THEREOF, NOR HAVE THEY BEEN REGISTERED UNDER THE SECURITIES OR BLUE SKY LAWS OF ANY OTHER JURISDICTION. THE INTERESTS CREATED HEREBY HAVE BEEN ACQUIRED FOR INVESTMENT PURPOSES ONLY AND MAY NOT BE OFFERED FOR SALE, PLEDGED, HYPOTHECATED, SOLD OR TRANSFERRED EXCEPT IN COMPLIANCE WITH THE TERMS AND CONDITIONS OF THIS OPERATING AGREEMENT AND IN A TRANSACTION WHICH IS EITHER EXEMPT FROM REGISTRATION UNDER SUCH ACTS OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER SUCH ACTS.

THIS OPERATING AGREEMENT is made and entered into effective the 12th day of October, 200 5, by the parties who have executed counterparts of this Operating Agreement as indicated on the signature pages attached.

ARTICLE I.
DEFINITIONS

The following terms used in this Operating Agreement shall have the following meanings (unless otherwise expressly provided herein);

1.1 "Affiliate." With respect to any Person, (i) in the case of an individual, any relative of such Person, (ii) any officer, director, trustee, partner, member, manager, employee or holder of ten percent (10%) or more of any class of the voting securities of or equity interest in such Person; (iii) any corporation, partnership, limited liability company, trust or other entity controlling, controlled by or under common control with such Person; or (iv) any officer, director, trustee, partner, member, manager, employee or holder of ten percent (10%) or more of the outstanding voting securities of any corporation, partnership, limited liability company, trust or other entity controlling, controlled by or under common control with such Person.

1.2 "Articles of Organization." The Articles of Organization of AMELIA GRAY, LLC, as filed with the Secretary of State of Georgia, as the same may be amended from time to time.

15.21 Time. TIME IS OF THE ESSENCE OF THIS OPERATING AGREEMENT, AND TO ANY PAYMENTS, ALLOCATIONS AND DISTRIBUTIONS PROVIDED FOR UNDER THIS OPERATING AGREEMENT.

15.22 Initial Execution By a Single Member. The within Operating Agreement may be initially executed by a single member, in contemplation of subsequently admitting additional members. In such event this Operating Agreement shall constitute an Operating Declaration, but shall constitute an Operating Agreement within the meaning of O.C.G.A.§ 14-11-101(18). At such time as additional members are admitted, this Operating Agreement shall cease to be an Operating Declaration and shall then constitute the Operating Agreement between the members.

15.23 Single Member. At any such time as the number of members of the Company shall have been reduced to one (1) member, the Company shall continue to exist as a single member limited liability company with the remaining member as the sole member. During such time this Operating Agreement shall constitute an Operating Declaration, but shall continue to constitute an Operating Agreement within the meaning of O.C.G.A.§ 14-11-101(18).

IN WITNESS WHEREOF, the undersigned have set their hands and seals as of the date first above written.

STATEMENT OF HARDSHIP

The Hall County Planning Commission has the authority, in specific cases, to grant variances from the terms of the Zoning Regulations when the variance will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the Zoning Regulations will, in specific cases, result in unnecessary hardship and so that the resolution shall be observed, public safety and welfare secured, and substantial justice done. The authority to grant such variances shall be limited to those instances where a hardship is clearly established as required by the Zoning Regulations.

In all cases involving requests for residential variances from the terms of the Zoning Regulations, a plat or survey of the property prepared by a registered surveyor, architect, or engineer shall be required. In all cases involving variances for commercial or industrial uses of land, a site plan of the property prepared by a registered surveyor, architect, or engineer shall be required. Variances may be granted only upon a finding by the board that:

Describe how each situation listed below relates to your application:

1. There are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship).

When main dewelling was built, Bowman DR. was the only road open and developed. The main dwelling fronts Bowman DR. To add ADU behind the house is the most suitable option, including access.

2. The application of the requirements of this resolution to this particular property would create an unusual hardship.

Due to the home facing Bowman Drive and home move closer to Bowman DR. and ability to install sewer properly with recovery and maintain.

3. Such conditions are peculiar to the particular piece of property involved and not common to other properties in the neighborhood. That is, the application of the regulation would deprive the applicant of the rights commonly enjoyed by others in the neighborhood.

Due to lots being created over many years and lot layouts changed the land was developed to face the only open road at time of construction, with limited access to the property. To develop the ADU home, it is best to use and undeveloped road beside property to better access it.

4. Such conditions are not the result of any actions of the property owner.

Bowman Dr. it was the only available developed road at time of construction with limited access to the property. Therefore the home was placed to face Bowman Dr. and address was assigned as such. The unopen road will be used as a driveway access.

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this resolution provided; however, that no variance may be granted for a use of land or building or structure that is prohibited by this resolution. For example, granting the variance would not confer any special privilege that is denied by this regulation to other property in the same zoning district.

I feel this would not be a negative impact on the area but an improvement.

I hereby certify that the above information and all attached information is true and correct.

WARRANTY DEED

GEORGIA, COUNTY OF Hall

194

THIS INDENTURE, made this 11th day of June in the Year of Our Lord One Thousand Nine Hundred and Ninety-Seven between

Mitchell E. Hulsey, Jr.

of the State of Georgia and County of Hall (hereinafter called "GRANTOR"), and

Scott Wright

of the State of Georgia and County of Hall (hereinafter called "GRANTEE"),

WITNESSETH: That the said GRANTOR, for and in consideration of the sum of Ten Dollars and other valuable considerations ($10.00)---------- DOLLARS, in hand paid at and before the sealing and delivery of these presents, the receipt of which is hereby acknowledged, has granted, bargained, sold and conveyed, and by these presents does grant, bargain, sell and convey unto the said GRANTEE the following described property, to-wit:

All that tract or parcel of land lying and being about one-half mile west of the City limits of Gainesville, Hall County, Georgia, and being all of lots 4, 5 and 6 of the S. C. Moon and Fred Stringer Subdivision, as shown by a plat recorded in Plat Book 57, page 89, Hall County, Georgia Plat Records. Reference to said plat and the record thereof is hereby made for a more complete description of said property.

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.

2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.

3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

By my signature, I, Timothy Scott Wright **, hereby acknowledge that I have read and understand the sign posting requirements. I further certify that the required public notice sign was posted on** 12/31/2025 **for** Amelia Gray LLC.

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant ..... Amelia Gray, LLC

Request ..... **Variance** | to Section 7.8.3 ADU Standards

Proposed Use ..... Accessory dwelling unit

Size ..... .0.51± acres

Zoning ..... Residential 1 (R-1)

Location ..... **2479B Broadway Place** | Tax Parcel 00121 005007 (pt)

Commission District ..... Four

Commission Date ..... January 22, 2026

Staff Recommendation ..... **Approval,** as hardship exists pursuant to the criteria of 11.1.1.D.11

Record Number HVAR25-0071

Staff recommends <u>APPROVAL</u> of the applicant's request.

<u>Summary Analysis</u>

The applicant is requesting a variance from Section 7.8.3 regarding the location of an accessory dwelling unit (ADU) in relation to the primary residence. The subject property is approximately 0.51± acres in size and is zoned Residential 1 (R-1).

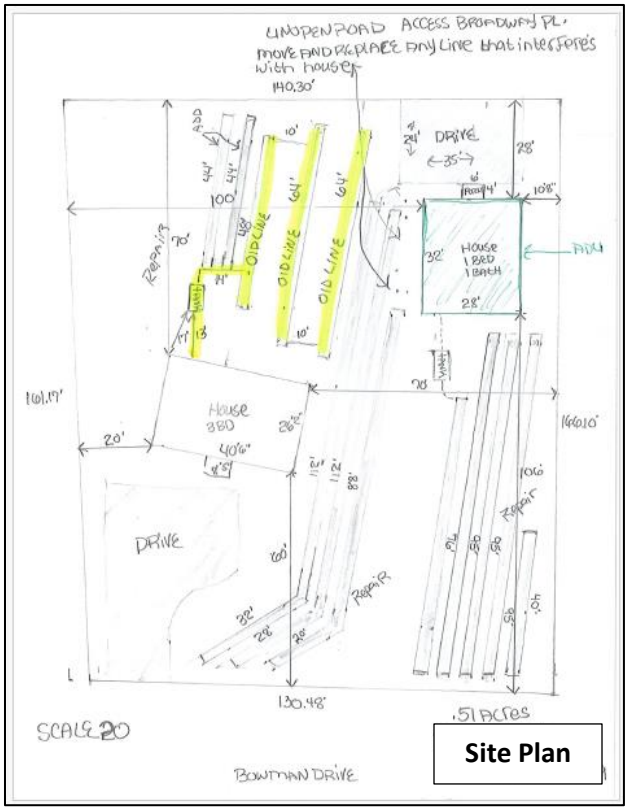
The property is currently developed with a 1,135 square foot single family residence constructed in 2022 with an address of 2299 Bowman Drive and identified with a pink star (RES2021-02435/HRNEW25-1402). This lot is considered unconventional because

ACCESS EXHIBIT

the access is provided via an easement from Bowman Drive (highlighted in yellow), while the designated front yard abuts an undeveloped right-of-way (highlighted in blue). This unique layout results in the "front" property line functioning as the rear lot line, as the primary residence faces the rear property line. Practical access to Bowman Drive is achieved through an easement across the adjoining parcel at 2266 Bowman Drive.

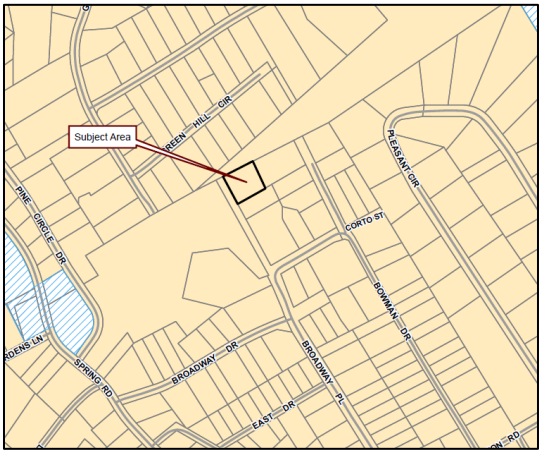
A property condition was placed on this parcel and the adjacent parcel at 2295 Bowman Drive in connection with building permits for single-family residences on each lot (RES2021-02434 / HRNEW25-1403 and RES2021-02435 / HRNEW25-1402, respectively). The condition states:

"Hall County Planning Tag – Zoning verification for the building permit applications for 2295 and 2299 Bowman Drive was approved based on a recorded plat dated October 22, 2021. The plat indicates that each lot has frontage on a public way, although 2299 fronts an unopened road. The current property owner also owns 2286 and 2288 Bowman Drive, which share a driveway from Bowman Drive. Hall County Planning has confirmed with the County Traffic Engineer that the existing driveway may also serve as access for 2295 and 2299. However, if ownership of any of these lots changes, an easement must be recorded to provide access, or the new owner may be responsible for making improvements necessary to establish access to their property."



Site Plan

The applicant proposes to add an ADU to the rear of the existing residence which is technically the front of the parcel. Section 7.8.3.B.5. states that "If not attached to the principal dwelling, the building containing the ADU must be located in the rear or side yard. "



The property owner is constructing an access driveway within the undeveloped right-of-way fronting the subject parcel, known as Broadway Place extension, extending from the paved portion of Broadway Place. This driveway is proposed to serve both the subject property and the adjacent parcel to the south, allowing each to accommodate access to an ADU (the southern parcel being the subject of a separate ADU variance request). Access from Bowman Drive is not feasible without disturbing the existing septic system serving the existing residence. The Broadway Place "extension" right-of-way terminates at the north end of this parcel.

One (1) **variance** related to the location of the ADU will be required if the site plan, as presented, is approved.

- A detached ADU must be located in the rear or side yard.
    - The ADU is located 27 feet from the front property line whereas the primary residence is located approximately 70 feet from the front property line.

Zoning Analysis

The Commission may grant variances in individual cases of unnecessary hardship upon a finding of the board that:

1. There are extraordinary and exceptional conditions pertaining to the lot in question because of its size, shape, or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship); **Extraordinary and exceptional conditions exist due to the property's unique development history. When placement of the primary residence was originally approved, access from the fronting right-of-way was not available. As a result, the primary residence was oriented toward the rear property line, with its functional access point and address located on Bowman Drive. This atypical orientation stems directly from the physical and access-related characteristics of the lot rather than any personal or economic hardship.**

2. The application of the requirements of this UDC to this particular piece of property would create an unusual hardship; **Because the County permitted access to the property through a private easement across the neighboring parcel, including a Bowman Drive address, effectively establishing an alternative "front" yard, strict application of Article 11 would impose an unusual hardship.**

3. Such conditions are particular to the property involved and are not common to other properties in the neighborhood; **The property's original access orientation and reliance on a rear easement are unique within the surrounding area. Only the subject parcel and the adjacent property at 2479A Broadway Place / 2288 Bowman Road share this unusual configuration, making the condition distinctly uncommon in the neighborhood.**

4. Such conditions are not the result of any actions of the property owner**; The placement and access orientation of the primary residence was permitted by the County. Although the construction of an ADU is a voluntary improvement, the unconventional development pattern of the parcel, created by historical access constraints, limits feasible placement options for the ADU.**

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC; provided, however, that no variance may be granted for a use of land or building or structure that is prohibited or for a Conditional Use Permit which has been denied by the Planning Commission; **Granting the requested variance would not create any substantial detriment to the public good, nor would it undermine the purposes or intent of this UDC. The relief sought pertains solely to accommodating the property's unique physical and historical access conditions and does not authorize any prohibited or previously denied use.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated "Septic permit OSC-10616 was issued for a 1 bdrm ADU on December 9, 2025."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher M Hash, D1 Traffic Operations Supervisor, stated "Off system, no impacts to the state route expected."

Hall County Public Works and Utilities
In a memorandum from Public Works and Utilities dated December 17, 2025, Assistant Director Jason Skarda stated the following:

Engineering:
No comment

Traffic:
No comment

Utilities:
Gainesville Sewer - No infrastructure in vicinity.

Hall County Fire Marshal
In an email dated December 15, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated, "The Hall County Fire Marshal's Office has no comments as proposed."

OPERATING AGREEMENT
OF
AMELIA GRAY, LLC

ANY SECURITIES CREATED BY THIS OPERATING AGREEMENT HAVE NOT BEEN REGISTERED UNDER THE GEORGIA SECURITIES ACT OF 1973, AS AMENDED, IN RELIANCE UPON THE EXEMPTION FROM REGISTRATION SET FORTH IN SECTION 10-5-9(13) OF SUCH ACT. IN ADDITION, ANY SECURITIES CREATED BY THIS OPERATING AGREEMENT, IF ANY, HAVE NOT BEEN REGISTERED WITH THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION IN RELIANCE UPON AN EXEMPTION FROM SUCH REGISTRATION SET FORTH IN THE SECURITIES ACT OF 1933 PROVIDED BY SECTION 4(2) THEREOF, NOR HAVE THEY BEEN REGISTERED UNDER THE SECURITIES OR BLUE SKY LAWS OF ANY OTHER JURISDICTION. THE INTERESTS CREATED HEREBY HAVE BEEN ACQUIRED FOR INVESTMENT PURPOSES ONLY AND MAY NOT BE OFFERED FOR SALE, PLEDGED, HYPOTHECATED, SOLD OR TRANSFERRED EXCEPT IN COMPLIANCE WITH THE TERMS AND CONDITIONS OF THIS OPERATING AGREEMENT AND IN A TRANSACTION WHICH IS EITHER EXEMPT FROM REGISTRATION UNDER SUCH ACTS OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER SUCH ACTS.

THIS OPERATING AGREEMENT is made and entered into effective the 12th day of October, 200 5, by the parties who have executed counterparts of this Operating Agreement as indicated on the signature pages attached.

ARTICLE I.
DEFINITIONS

The following terms used in this Operating Agreement shall have the following meanings (unless otherwise expressly provided herein);

1.1 "Affiliate." With respect to any Person, (i) in the case of an individual, any relative of such Person, (ii) any officer, director, trustee, partner, member, manager, employee or holder of ten percent (10%) or more of any class of the voting securities of or equity interest in such Person; (iii) any corporation, partnership, limited liability company, trust or other entity controlling, controlled by or under common control with such Person; or (iv) any officer, director, trustee, partner, member, manager, employee or holder of ten percent (10%) or more of the outstanding voting securities of any corporation, partnership, limited liability company, trust or other entity controlling, controlled by or under common control with such Person.

1.2 "Articles of Organization." The Articles of Organization of AMELIA GRAY, LLC, as filed with the Secretary of State of Georgia, as the same may be amended from time to time.

15.21 Time. TIME IS OF THE ESSENCE OF THIS OPERATING AGREEMENT, AND TO ANY PAYMENTS, ALLOCATIONS AND DISTRIBUTIONS PROVIDED FOR UNDER THIS OPERATING AGREEMENT.

15.22 Initial Execution By a Single Member. The within Operating Agreement may be initially executed by a single member, in contemplation of subsequently admitting additional members. In such event this Operating Agreement shall constitute an Operating Declaration, but shall constitute an Operating Agreement within the meaning of O.C.G.A.§ 14-11-101(18). At such time as additional members are admitted, this Operating Agreement shall cease to be an Operating Declaration and shall then constitute the Operating Agreement between the members.

15.23 Single Member. At any such time as the number of members of the Company shall have been reduced to one (1) member, the Company shall continue to exist as a single member limited liability company with the remaining member as the sole member. During such time this Operating Agreement shall constitute an Operating Declaration, but shall continue to constitute an Operating Agreement within the meaning of O.C.G.A.§ 14-11-101(18).

IN WITNESS WHEREOF, the undersigned have set their hands and seals as of the date first above written.

STATEMENT OF HARDSHIP

The Hall County Planning Commission has the authority, in specific cases, to grant variances from the terms of the Zoning Regulations when the variance will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the Zoning Regulations will, in specific cases, result in unnecessary hardship and so that the resolution shall be observed, public safety and welfare secured, and substantial justice done. The authority to grant such variances shall be limited to those instances where a hardship is clearly established as required by the Zoning Regulations.

In all cases involving requests for residential variances from the terms of the Zoning Regulations, a plat or survey of the property prepared by a registered surveyor, architect, or engineer shall be required. In all cases involving variances for commercial or industrial uses of land, a site plan of the property prepared by a registered surveyor, architect, or engineer shall be required. Variances may be granted only upon a finding by the board that:

Describe how each situation listed below relates to your application:

1. There are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship).
When main dwelling was built, Bowman DR. was the only road open and developed. The main dwelling faces Bowman DR. To add ADU behind the house is the most suitable location, including access & layout of land.

2. The application of the requirements of this resolution to this particular property would create an unusual hardship.
Due to the house facing Bowman Drive, the lay of the land and ability to install sewer properly with accessory and maintain

3. Such conditions are peculiar to the particular piece of property involved and not common to other properties in the neighborhood. That is, the application of the regulation would deprive the applicant of the rights commonly enjoyed by others in the neighborhood.
The land was developed to face the only open road at time of construction, with limited access to the property. To develop the ADU home it is best to use an undeveloped road beside property to better access it.

4. Such conditions are not the result of any actions of the property owner.
Bowman Drive was the only available developed road at time of construction so home was built to face Bowman DR. and address was assigned as such.

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this resolution provided; however, that no variance may be granted for a use of land or building or structure that is prohibited by this resolution. For example, granting the variance would not confer any special privilege that is denied by this regulation to other property in the same zoning district.
I feel this would not be a negative impact on the area but an improvement

I hereby certify that the above information and all attached information is true and correct.

Warranty Deed

STATE OF GEORGIA

COUNTY OF HALL

THIS INDENTURE, Made the 29th day of October in the year two thousand twenty-five, between SQUIRREL KEY, LLC

of the County of Hall, and State of Georgia, as party or parties of the first part, hereinafter called Grantor, and

SCOTT WRIGHT

as party or parties of the second part, hereinafter called Grantee (the words "Grantor" and "Grantee" to include their respective heirs, successors and assigns where the context requires or permits).

WITNESSETH that: Grantor, for and in consideration of the sum of TEN DOLLARS ($10.00) AND OTHER VALUABLE CONSIDERATION in hand paid at and before the sealing and delivery of these presents, the receipt whereof is hereby acknowledged, has granted, bargained, sold, aliened, conveyed and confirmed, and by these presents does grant, bargain, sell, alien, convey and confirm unto the said Grantee, the following described property:

See Exhibit "A" which is attached hereto and by reference made a part hereof for a complete description of the subject property.

Subject to all easements, covenants and restrictions of record, if any.

TO HAVE AND TO HOLD the said tract or parcel of land, with all and singular the rights, members and appurtenances thereof, to the same being, belonging, or in anywise appertaining, to the only property use, benefit and behoof of the said Grantee forever in FEE SIMPLE AND THE SAID Grantor will warranty and

forever defend the right and title to the above described property unto the said Grantee against the claims of all persons whomsoever.

IN WITNESS WHEREOF, the Grantor has signed and sealed this deed, the day and year above written.

Signed, sealed and delivered in the presence of:

SQUIRREL KEY, LLC

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.

2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.

3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

By my signature, I, Timothy Scott Wright **, hereby acknowledge that I have read and understand the sign posting requirements. I further certify that the required public notice sign was posted on** 12/31/2025 **for** Amelia Gray LLC.

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant ..... Marcial Mosqueda

Request ..... **Variance to section 3.2** | to reduce the minimum yards

Proposed Use ..... To bring an existing structure into compliance

Size ..... 0.16± acres

Zoning ..... Agricultural Residential 1 (AR-1)

Location ..... **3610 Mountain View Road** | Tax Parcel 08031 003013

Commission District ..... Four

Commission Date ..... January 22, 2026

Staff Recommendation ..... **Approval,** as hardship exists pursuant to the criteria of 11.1.1.D.11

Record Number HVAR25-0065

Staff recommends <u>APPROVAL</u> of the applicant's request.

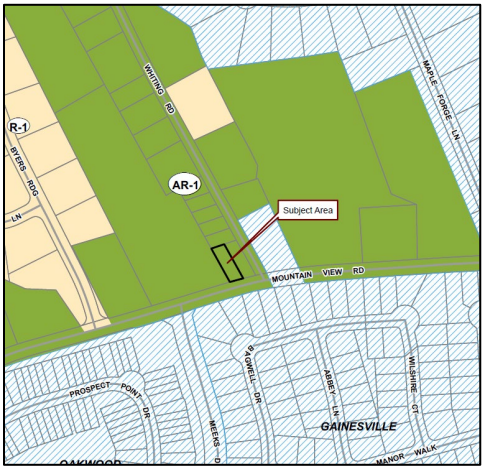
<u>Summary Analysis</u>

The applicant is requesting a variance to section 3.2 to reduce the side yard setbacks from 15 feet to 11 feet for 4 covered porches on a tract measuring approximately 0.16± acres zoned Agricultural Residential 1 (AR-1). The property is currently developed with a single-family residence and an attached accessory dwelling unit.

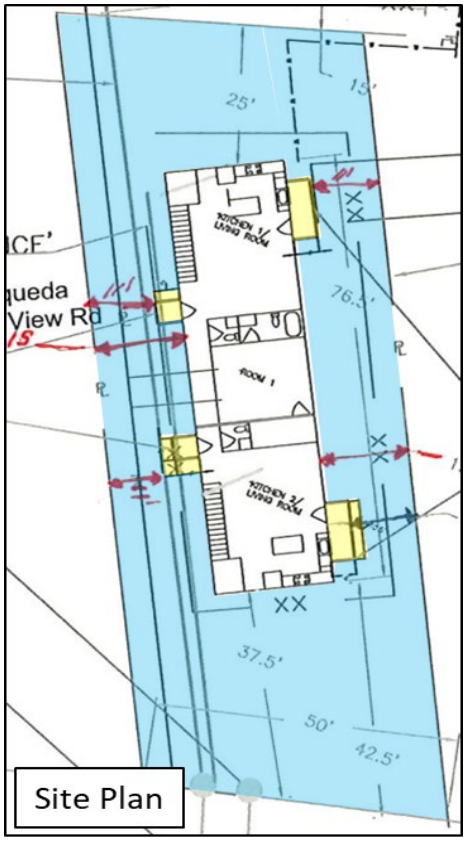
The surrounding properties are zoned and developed as outlined below:

North: Agricultural Residential 1 (R-1) – Developed with single-family residences.
East: Agricultural Residential 1 (R-1) – Vacant.
South: City of Gainesville Planned Unit Development (PUD) – Developed single-family residential subdivision.

West: Agricultural Residential 1 (R-1) – Developed with single-family residence.



On September 4, 2025, the applicant was approved for a building permit consisting of a 2 story single-family residence with an attached accessory dwelling unit, not including covered porches (HRNEW25-1111). The front entrance for both the single-family residence and the attached accessory dwelling unit is oriented toward the eastern side property line and the rear entrance is oriented toward the western side property line. During a site inspection, it was observed that 4 covered porches (shown in yellow) were constructed and encroach into the side yard setbacks. The applicant was promptly informed of the encroachment and has subsequently submitted a variance request to address the encroachment. The elevations submitted by the applicant reflect the current appearance of the single-family dwelling, the attached accessory dwelling unit, and the covered porches.



The subject property was created in October 1956, prior to the establishment of zoning regulations in 1978, and its original zoning designation is Agricultural Residential 1 (AR-1). The minimum lot size within the AR-1 district is 1 acre when serviced by public water. The AR-1 district has greater setback requirements than what is permitted in the smaller lot zoning district of Residential 1 (R-1) or Vacation Cottage (V-C). AR-1 requires 15 foot side yard setbacks compared to 10 foot in R-1 or V-C. At 0.16± acres, and served by both public water and sewer, the subject property, is much smaller in size than the allowed minimum R-1 lot size of 0.5 acres when serviced by public sewer. The requested 11-foot side yard setbacks are consistent with development standards typically applied to smaller residential lots.

Per the Statement of Hardship, the original subdivision plat established narrow lot sizes which have made it challenging to accommodate a standard-sized house.

Two (2) **variances** related to both side yard setbacks will be required if the site plan, as presented, is approved.

- Side yard setback requirement of 15 feet from the property line as found in Table 3.2 for Agricultural Residential 1 (AR-1) zoning district.
    - A side yard setback of 11 feet from the western and eastern property line is proposed for the covered porches.

<u>Zoning Analysis</u>

The Commission may grant variances in individual cases of unnecessary hardship upon a finding of the board that:

1. There are extraordinary and exceptional conditions pertaining to the lot in question because of its size, shape, or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship); **The subject property exhibits extraordinary and exceptional conditions due to its unusually small lot size relative to its historical AR-1 zoning designation and the development standards of comparable residential districts. Created in 1956, prior to the adoption of zoning regulations, the lot is approximately 0.16 acres—significantly smaller than the 1-acre minimum lot size required in the AR-1 district and even below the 0.5-acre minimum required in the R-1 district on sewer. These dimensional constraints are inherent to the physical character of the lot and not the result of personal or economic circumstances.**

2. The application of the requirements of this UDC to this particular piece of property would create an unusual hardship; **Strict application of the setback requirements would create an unusual hardship for this property due to its significantly substandard lot size. Because the lot was created prior to the establishment of zoning regulations, it cannot reasonably be brought into compliance with current dimensional standards. As a result, meeting the required AR-1 setbacks limits the buildable area of the property.**

3. Such conditions are peculiar to the particular piece of property involved and are not common to other properties in the neighborhood; **While several adjacent properties along Whiting Road have the same zoning and similar size limitations, the conditions present on the subject property are not common to AR-1 zoned properties overall. The lot was created in 1956, prior to the establishment of zoning regulations, resulting in a parcel that is approximately 0.16 acres—substantially smaller than the minimum lot sizes required in both the AR-1 and R-1 zoning districts. The subject property's unusually small size, combined with its original AR-1 zoning designation, creates a unique physical condition that is not common to other lots within the AR-1 zoning district.**

4. Such conditions are not the result of any actions of the property owner**; The location of the existing single-family residence and the covered porches are a direct action of the property owner. However, the conditions affecting the subject property are not the result of any actions taken by the current property owner. The lot was created in 1956, before zoning regulations were established in 1978, and the strict application of the setback requirements of the AR-1 zoning district, which zoning district is not intended for parcels of this size, significantly limits reasonable buildable area.**

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this UDC; provided, however, that no variance may be granted for a use of land or building or structure that is prohibited by this UDC or for a Conditional Use Permit which has been denied by the Planning Commission; **Approval of the requested variance would not negatively affect the public good, nor would it compromise the intent of the UDC. The applicant requests setbacks consistent with development patterns typically associated with smaller residential lots and does not authorize any prohibited or previously denied use.**

Development Support and Constraints

Hall County Environmental Health

In an email dated December 16, 2025, Emily McGahee stated "No comment. Public sewer."

Georgia Department of Transportation

In an email dated December 11, 2025, Christopher Hash, D1 Traffic Operations Supervisor, stated "Off system, no impacts to the state route expected."

Hall County Public Works and Utilities

In a memorandum from Public Works and Utilities dated December 17, 2025, Assistant Director Jason Skarda stated the following:

Engineering:
No comment

Traffic:
No comment

Utilities:
Gainesville Sewer on the south side of Mt. View Road.

Hall County Fire Marshal
In an email dated December 11, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated, "The Hall County Fire Marshal's Office has no comments as proposed."

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

(b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating $250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:

(3) The name and official position of the local government official to whom the campaign contribution was made; and

(4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.

(b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

I hereby certify that I have read the above and that:

I have**____ I have not ✓

within the two years immediately preceding this date, made any contribution(s) aggregating $250.00 or more to any local government official involved in the review or consideration of this application.

**If you have made such contributions, you must provide the data required below within ten (10) days of filing this application.

Name of Official(s): _____ Office: _____

Dollar Amount: _____ Date of Contribution: _____

HALL COUNTY
GEORGIA
We have it all in Hall

STATEMENT OF HARDSHIP

The Hall County Planning Commission has the authority, in specific cases, to grant variances from the terms of the Zoning Regulations when the variance will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the Zoning Regulations will, in specific cases, result in unnecessary hardship and so that the resolution shall be observed, public safety and welfare secured, and substantial justice done. The authority to grant such variances shall be limited to those instances where a hardship is clearly established as required by the Zoning Regulations.

In all cases involving requests for residential variances from the terms of the Zoning Regulations, a plat or survey of the property prepared by a registered surveyor, architect, or engineer shall be required. In all cases involving variances for commercial or industrial uses of land, a site plan of the property prepared by a registered surveyor, architect, or engineer shall be required. Variances may be granted only upon a finding by the board that:

Describe how each situation listed below relates to your application:

1. There are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography (the hardship must relate to the physical character of the lot and not to a personal or economic hardship).

Lots are old and very small, I believe the design the structures the most properly way to fit in the lot

2. The application of the requirements of this resolution to this particular property would create an unusual hardship.

The size of these lots creates a hardship in that their narrowness makes it difficult to build a house of standard dimensions and meet setbacks

3. Such conditions are peculiar to the particular piece of property involved and not common to other properties in the neighborhood. That is, the application of the regulation would deprive the applicant of the rights commonly enjoyed by others in the neighborhood.

There are other lots of record in the area of similar size

4. Such conditions are not the result of any actions of the property owner.

Property had been subdivided this way a long time ago

5. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of this resolution provided; however, that no variance may be granted for a use of land or building or structure that is prohibited by this resolution. For example, granting the variance would not confer any special privilege that is denied by this regulation to other property in the same zoning district.

The property is zoned for residential use/setback variances have been given for others lots of similar size which were created before the zoning ordinance

I hereby certify that the above information and all attached information is true and correct.

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.

2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.

3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

By my signature, I, Pascual Santamaria (Please Print Name), **hereby acknowledge that I have read and understand the sign posting requirements. I further certify that the required public notice sign was posted on** 12/19/25 (Date) **for** Marcial Mosqueda (Name application filed as).

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant ..... Joshua Stover

Request ..... **Conditional Use**

Proposed Use ..... Rural Business

Size ..... 2.21± acres

Zoning ..... Agricultural Residential 1 (AR-1)

Location ..... **5953 & 5965 Yellow Creek Road** |Tax Parcel 11105 000019 & 11105 000002C (pt)

Commission District ..... Two

County Commission Date ..... January 22, 2026

Staff Recommendation ..... **Approval, with conditions,** as the proposed use is consistent with the residential nature of the surrounding properties.

Record Number..... HZCU25-0056

Staff recommends <u>APPROVAL</u> of the applicant's request with the following conditions:

1. The property shall be developed in accordance with the site plan dated October 22, 2025, and the project narrative dated November 18, 2025, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

2. No variances or development exceptions are granted as part of this request that are not explicitly granted by Board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments, including, but not limited to the Fire Marshal and Hall County Engineering. Where there may be discrepancies between the proposed standards and County regulations, the County regulations shall overrule unless otherwise approved.

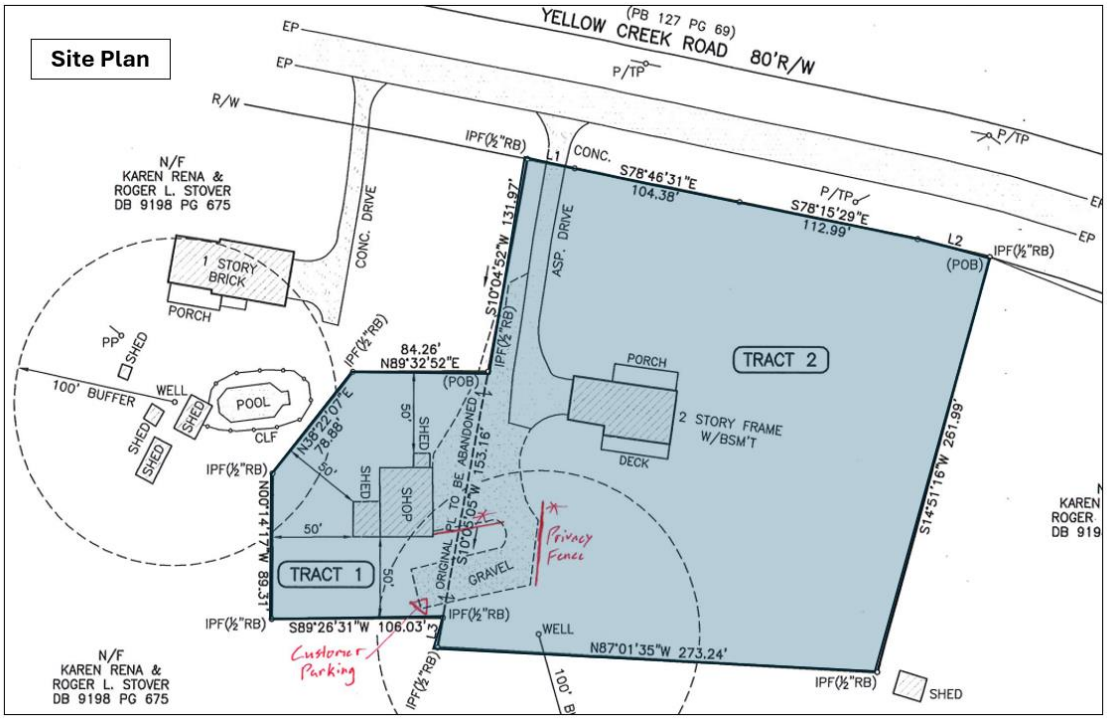
3. All conditions of zoning shall be made a part of any plats or construction plans created for the property.

Summary Analysis

The applicant is requesting approval of a Conditional Use for a rural business on a 2.21± acre tract zoned Agricultural Residential 1 (AR-1).

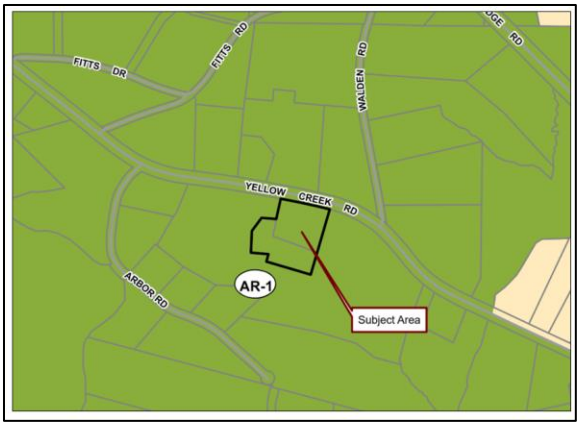
The subject property is currently developed with a single-family residence constructed in 1987. Since 1995, the applicant's father has operated a small repair shop within a 1,200-square-foot building located on an adjacent parcel he owns at 5965 Yellow Creek Road; however, this use has not historically been associated with an active business license.

On March 5, 2025, the applicant obtained a business license for mobile vehicle and farm equipment repair. Subsequently, on April 10, 2025, a code enforcement case (HENF25-0323) was initiated due to the complaint of the presence of a junkyard and inoperable vehicles on the property, resulting in a violation. To address these issues, the applicant submitted a reconfiguration plat (HPLT25-0153) to incorporate the 1,200-square-foot shop onto the same parcel as the residence at 5953 Yellow Creek Road. The applicant is now requesting approval of a Conditional Use Permit to bring the property into compliance and to continue operating the automotive repair shop.



The surrounding properties are zoned and developed as outlined below:

North: Agricultural Residential (AR-1): Developed with a single-family residence.
South: Agricultural Residential (AR-1): Developed with a single-family residence.
East: Agricultural Residential (AR-1): Developed with a single-family residence.
West: Agricultural Residential (AR-1): Developed with a single-family residence



Per the narrative, the applicant is requesting a Conditional Use approval for a rural business for an automotive repair shop to include tire sales and installation, brake suspension and steering system repairs, oil changes, engine diagnostics, electrical system repairs, battery replacement, fluid services and fleet maintenance for local commercial vehicles. The applicant indicates that the small repair shop business will be conducted entirely within the existing shop located behind the principal residence, approximately 50 feet from the side and rear property lines. The submitted narrative states that hours of operation will be Monday through Friday from 9:00 a.m. until 5:00 p.m. and closed on Saturdays and Sundays.

The submitted site plan and narrative shows that screened parking will be provided for customers and vehicles.

UDC Section 7.8.9.E.2 - Rural Business Use Standards Comparison Table

STANDARD	PROPOSED	COMPLIANCE
a. Minimum lot size 1 acre	2.21 acres	Complies
b. Dwelling must be the primary use of the principal practitioner and the rural business may be valid only as long as the principal practitioner resides in the dwelling, is conducting the business and has a current business license.	Principal practitioner of the business resides in the residences.	Complies
c. Rural businesses may not exceed 1,000 square feet if in a structure or 1,000 square feet of land if outside a structure. Should the use require both inside and outside areas, the total area used may not exceed 1,200 square feet. When a rural business is conducted in the residence, it may not exceed 35 percent of the heated floor space or 1,200 square feet, whichever is less. The proposed size of the business must be specified at the time of application for a rural business.	Per the narrative: All repair activity will occur within the existing shop building. No more than 1,000sf of the shop building will be used for the automotive repair building.	Complies
d. Any buildings or structures for the rural business must be located at least 50 feet from any property line.	Shop building is 50 feet from nearest property line.	Complies

e. Any additions or alterations to the residence which will be used for the rural business must be of an architectural style in keeping with the primary structure. Any structure built to house the business must be located to the side or rear of the residence, or, if the structure is in front of the residence, must be at least 100 feet from the front property line. The structure must be readily and easily usable for customary agricultural and residential uses.	The existing shop building is to the side and rear of the residence.	Complies
f. Any outside area other than accessory on-site parking must be completely enclosed or screened in such a manner that the business or outside storage is not visible from the surrounding property as set forth in Sec. 8.2.	Fence proposed to screen parking area.	Complies
g. Only one employee outside of family members residing on the premises may be permitted.	Information not provided.	Unknown
h. Property on which the rural business is proposed must have frontage on a public road.	Parcel fronts a public road.	Complies
i. Parking for customers or clients must be provided on-site as provided in Table 8.1 of Sec. 8.1.	2 spaces/300sf = 7 parking spaces required	Complies
j. Days and hours of operation requiring access by the public, customers or clients are limited to Monday to Saturday, 8:00 a.m. through 6:00 p.m.	Narrative hours of operation: Monday-Friday 9am-5pm	Complies
k. No more than one home occupation, residential business or rural business is allowed on a lot at one time.	No other home occupation, residential business or rural business identified	Complies
l. See Sec. 8.6.14. and 8.6.15. for sign standards.	No signage proposed. Signage allowed with Planning Commission approval is a monument sign with a maximum sign area of 16 square feet ad maximum height of 5 feet.	Complies

Based on the future land-use plan, staff finds the request *is consistent* with the Comprehensive Plan and future land use designation of Rural Neighborhood. These areas should consist of active farms and agricultural enterprises and low-density, large-lot single-family residential up to 0.75 dwellings per acre. The proposed rural business is consistent with the residential use and development of the existing, nearby and adjacent properties.

Zoning Analysis

When considering an application for a conditional use, the Commission must study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry must be considered:

a) Whether the zoning proposal will permit a use that is suitable in view of the use, development and zoning of adjacent and nearby property; **The proposed conditional use for a rural business is suitable in view of the use and development of adjacent and nearby properties.**

b) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; **It is not anticipated that a rural business would adversely affect adjacent or nearby property.**

c) Whether the property to be affected by the zoning proposal has reasonable economic use as currently zoned; **Yes, the property has reasonable economic use as currently zoned, Agricultural Residential 1 (AR-1); however, a conditional use for a rural business requires Commission approval.**

d) Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, schools, police protection, fire protection, public health facilities or emergency medical service; **The proposed conditional use will not cause an excessive or burdensome use of the existing streets, transportation facilities, utilities, schools, police protection, fire protection, public facilities, or emergency medical service.**

e) Whether the zoning proposal is in conformity with the policy and intent of the future land use plan for the physical development of the area; **The proposed use is consistent with the Comprehensive Plan and the Rural Neighborhood future land use designation as the proposed rural business is consistent with the residential use and development of the existing, nearby and adjacent properties.**

f) The extent to which property values are diminished by the existing zoning restrictions; **Staff is unable to determine the extent to which property values are diminished by the existing zoning restrictions.**

g) The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; **Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property value including construction types, proposed uses, and maintenance. Often it is difficult to determine the effect of a development on adjacent properties until the development is completed.**

h) The relative gain to the public as compared to the hardship imposed upon the individual property owner; **Staff has not identified a hardship imposed on the property owner as the property is currently zoned.**

i) The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property; **The subject property is zoned Agricultural Residential 1 (AR-1). The site is currently developed with a single-family residence constructed in 1987, and an accessory structure.**

j) Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; **There are no known changing conditions affecting the use or development of the property.**

k) Whether the change would create an isolated district unrelated to the surrounding districts; **This question is not applicable as there are no proposed changes to the zoning classification.**

l) Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**

m) Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; **No, the request is not out of scale with the needs of the county as a whole.**

n) Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; **Rural businesses requires County Commission approval in AR-1.**

o) Whether the need for rezoning could be handled instead by a variance request to the Planning Commission; **The request could not be handled alternatively as a variance.**

p) Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; **Any land disturbance activities on the property shall be required to adhere to the land development permitting process, and as a result, are subject to local, state, and federal regulations. There should not be an ecological or pollution impact resulting from any modification to the land if the request is granted.**

q) Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

11.2.6.E - Submission requirements

1. Any person or persons requesting a change in the official zoning map or use subject to approval of the County Commission must file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in this Sec 11.2. to cover administrative and advertising costs, in the Planning and Zoning Department office. Such person or persons or their authorized agent must appear in person at the public hearing held to consider the district change. **The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at the Hall County Planning Commission meeting.**

2. All applications for a change of zoning classification or use subject to approval of the Planning Commission must include:

    a. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in this Sec. 11.2. **The proposal provides a**

narrative outlining the intent of the development; however, the applicant has not prepared a response to each of the criteria listed in 11.2.6.E.2.

b. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the Planning Commission and County Commission may evaluate the application based on the most intense possible land use permitted in the proposed district. **The proposal meets the requirement.**

c. For any application for a slow rate land treatment system as defined in 7.6.9.D.1, additional requirements apply. **This standard is not applicable to the applicant's request.**

d. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study must be submitted prior to consideration of the application by the County Commission. At the applicant's expense, the traffic impact study must be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The Engineering Department must review the traffic impact study and forward any comments to the County Commission. **This standard is not applicable to the applicant's request.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated "Must meet all Environmental Health commercial septic system permitting requirements. Further determination will be made during the civil plan review process. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher Hash, D1 Traffic Operations Supervisor, stated "Off system, no impacts to the state route expected."

Hall County Public Works and Utilities
In a memo dated December 17, 2025, Jason Skarda, Assistant Director of Public Works and Utilities, provided the following comments:

Engineering:
This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.

Traffic:

No comments..

Utilities:
Hall County Sewer Service area- No infrastructure in vicinity.

Hall County Fire Marshal
In an email dated December 16, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated that "The Hall County Fire Marshal's Office has no comments regarding the rural business special use request."

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

(b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating $250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:

(3) The name and official position of the local government official to whom the campaign contribution was made; and

(4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.

(b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

I hereby certify that I have read the above and that:

I have**____ I have not ✓

within the two years immediately preceding this date, made any contribution(s) aggregating $250.00 or more to any local government official involved in the review or consideration of this application.

**If you have made such contributions, you must provide the data required below within ten (10) days of filing this application.

Name of Official(s): _____ Office: _____

Dollar Amount: _____ Date of Contribution: _____

Applicant's/Owner's Signature: _____ **Date:** 10-20-25

Applicant's/Owner's Name (Printed): Josh Stover

NARRATIVE
5953 Yellow Creek Road, Gainesville, GA
Stover's Certified Auto and Tire
November 18, 2025

Business Description: Stover's Certified Auto and Tire is a locally owned automotive repair and tire service center seeking Conditional Use approval to operate as a rural business from the residential property located at 5953 Yellow Creek Road. This business is currently licensed as a home occupation for mobile repair at this location. The facility will provide essential vehicle maintenance and repair services to residents and businesses in the area, contributing to the local economy and enhancing transportation reliability.

Proposed Location: The rural business will be located at 5953 Yellow Creek Road, Gainesville, GA, a 2.21 acre parcel zoned Agricultural Residential 1 (AR-1) There is a single-family residence on the property, occupied by the owner of the business, and a 1,200 square foot shop building. No more than 1,000 square feet of the shop building will be used for the automotive repair business, per County requirements. No automotive repair activity will occur outside. Screened parking for both customers and vehicles for drop off & appointments will be provided as shown on the site plan. The parking area includes 5 parking spots for customer vehicles for drop off and pick up located below the shop concealed by two 8 foot tall wooden privacy fences.

Services Provided:

- Tire sales, installation, balancing, and alignment
- Brake, suspension, and steering system repairs
- Oil changes and routine maintenance
- Engine diagnostics and electrical system repairs
- Battery replacement and fluid services
- Fleet maintenance for local commercial vehicles

Hours of Operation:

- Monday through Friday: 9:00 AM – 5:00 PM
- Closed on Saturday and Sundays

Community Impact: Stover's Certified Auto and Tire will operate in compliance with all Hall County ordinances and environmental regulations. All repair work will be conducted indoors to minimize noise and visual impact. Waste disposal, including used oil and tires, will be handled by licensed vendors in accordance with EPA and Georgia EPD guidelines.

Zoning Justification: The proposed use aligns with Hall County's Unified Development Code definition and standards for a "Rural Business" (Section 7.8.9.E) and supports local infrastructure by providing accessible vehicle services. The business will not adversely affect surrounding properties and will maintain a clean, professional appearance. No significant traffic increase or environmental disruption is anticipated.

Commitment to Compliance: We are committed to working closely with Hall County Planning and Development to ensure full compliance with zoning, building, and licensing requirements. We will obtain all necessary permits, including signage, fire safety, and occupancy approvals, prior to opening. We propose to have one non illuminated sign no larger than 16 square feet in area and will be located 15 feet from all property lines.

JOINT TENANCY WITH SURVIVORSHIP LIMITED WARRANTY DEED

STATE OF GEORGIA,
COUNTY OF HALL

This Indenture made this **30th** day of **October, 2015** between **ROGER L. STOVER and RENA R. STOVER** , of the County of Hall, State of Georgia, as party or parties of the first part, hereinafter called Grantor, and **JOSHUA WILLIAM STOVER and ERIN INGRAM STOVER , as joint tenants with survivorship and not as tenants in common** as parties of the second part, hereinafter called Grantees (the words "Grantor" and "Grantees" to include their respective heirs, successors and assigns where the context requires or permits)

W I T N E S S E T H that: Grantor, for and in consideration of the sum of **TEN AND 00/100'S ($10.00) Dollars** and other good and valuable considerations in hand paid at and before the sealing and delivery of these presents, the receipts whereof is hereby acknowledged, has granted, bargained, sold, aliened, conveyed and confirmed, and by these presents does grant, bargain, sell, alien, convey and confirm unto the said Grantees, as joint tenants and not as tenants in common, for and during their joint lives, and upon the death of either of them, then to the survivor of them, in fee simple, together with every contingent remainder and right of reversion, and to the heirs and assigns of said survivor, the following described property·

All that tract or parcel of land lying and being in Land Lot 105, 11th Land District, Hall County, Georgia, consisting of 1.827 acres, more or less, as shown on a plat prepared for Roger L. Stover & Rena K. Stover by Patton-Patton & Associates, dated April 4, 1987 and recorded at Plat Book 126, Page 69, Hall County, Georgia Plat Records, which plat is hereby incorporated herein by reference for a more complete description of subject property.

TO HAVE AND TO HOLD the said tract or parcel of land, with all and singular the rights, members and appurtenances thereof, to the same being, belonging, or in anywise appertaining, to the only proper use, benefit and behoove of the said Grantees, as joint tenants and not as tenants in common, for and during their joint lives, and upon the death of either of them, then to the survivor of them in **FEE SIMPLE**, together with every contingent remainder and right of reversion, and to the heirs and assigns of said survivor.

THIS CONVEYANCE is made pursuant to Official Code of Georgia Section 44-6-190, and it is the intention of the parties hereto to hereby create in Grantees a joint tenancy estate with right of survivorship and not as tenants in common

AND THE SAID Grantor will warrant and forever defend the right and title to the above described property unto the said Grantee against the claims of all persons by, through and under the above named grantor

IN WITNESS WHEREOF, the Grantor has hereunto set grantor's hand and seal this day and year first above written

Signed, sealed and delivered in the presence of

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.

2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.

3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

By my signature, I, Joshua William Stover **, hereby acknowledge that I have read and understand the sign posting requirements. I further certify that the required public notice sign was posted on** 1-2-26 **for** Stovers Certified Auto & Tire **.**

PLANNING AND ZONING

NOTICE OF PUBLIC HEARING

December 17, 2025

Dear Property Owner:

The Hall County Planning and Zoning Department has a policy of notifying property owners within 500 feet when an application is filed with the Planning Commission.

The application of:

5953 & 5965 Yellow Creek Road | Special Use | for rural business | on a 2.21± acre tract located on the south side of Yellow Creek Road approximately 340 feet from its intersection with Walden Road | Zoned AR-1; Tax Parcels 11105 000019 & 11105 000002C (pt) | **Proposed Use: Rural Business** | Commission District 2 | **Joshua Stover, applicant**

The Hall County Board of Commissioners voted at the Oct. 7 voting meeting to temporarily suspend the Hall County Planning Commission to complete an investigation, effective immediately.

While the suspension is in place, all new and pending planning and zoning applications, including rezoning, special uses, conditional use, and/or variance requests scheduled to be heard by the Hall County Planning Commission, will be heard by the Hall County Board of Commissioners to minimize delays in the application process.

The Board of Commissioners will hold a public hearing for final determination of the request at their meeting scheduled for 6:00 p.m. on Thursday, January 22, 2026, in the 2nd Floor Meeting Room, Hall County Government Center, 2875 Browns Bridge Road, Gainesville, GA, 30504.

The Board of Commissioners extend an invitation for you to attend this meeting or express in writing your opinion of this matter.

The meetings will be available to the public through two options: in person or virtually, livestreamed on the Hall County website www.hallcounty.org.

Those who wish to view the meeting in the virtual option may find more information on the County website, https://www.hallcounty.org/1097/Online-Meetings.

Individuals who wish to participate in the public comment portion of the meeting may submit online comment in advance of the meeting.

- Written comments will be accepted until 8:00 a.m. the day of the scheduled meeting.
  - To submit a written comment for the Hall County Board of Commissioners meeting visit the following website: (https://www.hallcounty.org/1097/Online-Meetings).

Josh Stover Rural Business Request

Good Evening,

My name is Brian Forgea, I own the properties at 5960 & 5968 Yellow Creek Road.

My parcels are directly across the street from the applicants dwelling.

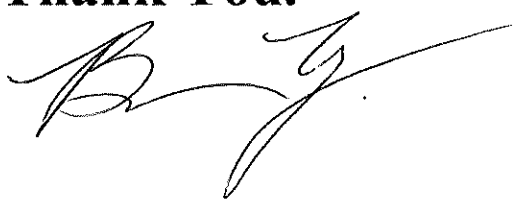
I have owned these properties since 2007.

The applicant's property has never been a concern. Not from noise, or traffic.
Have never been an issue.

I Completely have no objection to the applicants request.

In my own opinion, the Stover's are a part of the Yellow Creek Road Family, and a part of the Fabric of Murrayville.

Thank You.



Applicant: JOSHUA STOVER

HALL COUNTY BOARD OF COMMISSIONERS
STAFF REPORT

Applicant ..... Jim Rizqallah

Request ..... **Rezone** |from Agricultural Residential (AR-1) & Planned Industrial Development (PID) to Light Industrial (I-1)

Proposed Use ..... Uses permitted in I-1

Size ..... 14.11 acres

Zoning ..... **Current:** Agricultural Residential (AR-1) & Planned Industrial Development (PID) | **Proposed:** Light Industrial (I-1)

Location ..... **3294 & 3290 Athens Highway |** Tax parcel 15014 000192

Commission District ..... Three

County Commission Date ..... January 22, 2026

Staff Recommendation ..... **Denial,** as the proposed zoning is not consistent with the "Suburban Neighborhood, Low-Density" future land use designation in the Comprehensive Plan.

Record Number..... HZON25-0054

Staff recommends <u>DENIAL</u> of the applicant's request. However, if the County Commission chooses to approve this request, staff recommends the following conditions:

1. The property shall be developed in accordance with the site plan dated November 19, 2025, and as described in the project narrative dated November 20, 2025, modified as necessary for compliance with conditions herein and development standards enforced at the time of site plan approval.

2. All development shall meet Gateway Corridors Overlay District requirements of the Hall County Unified Development Code.

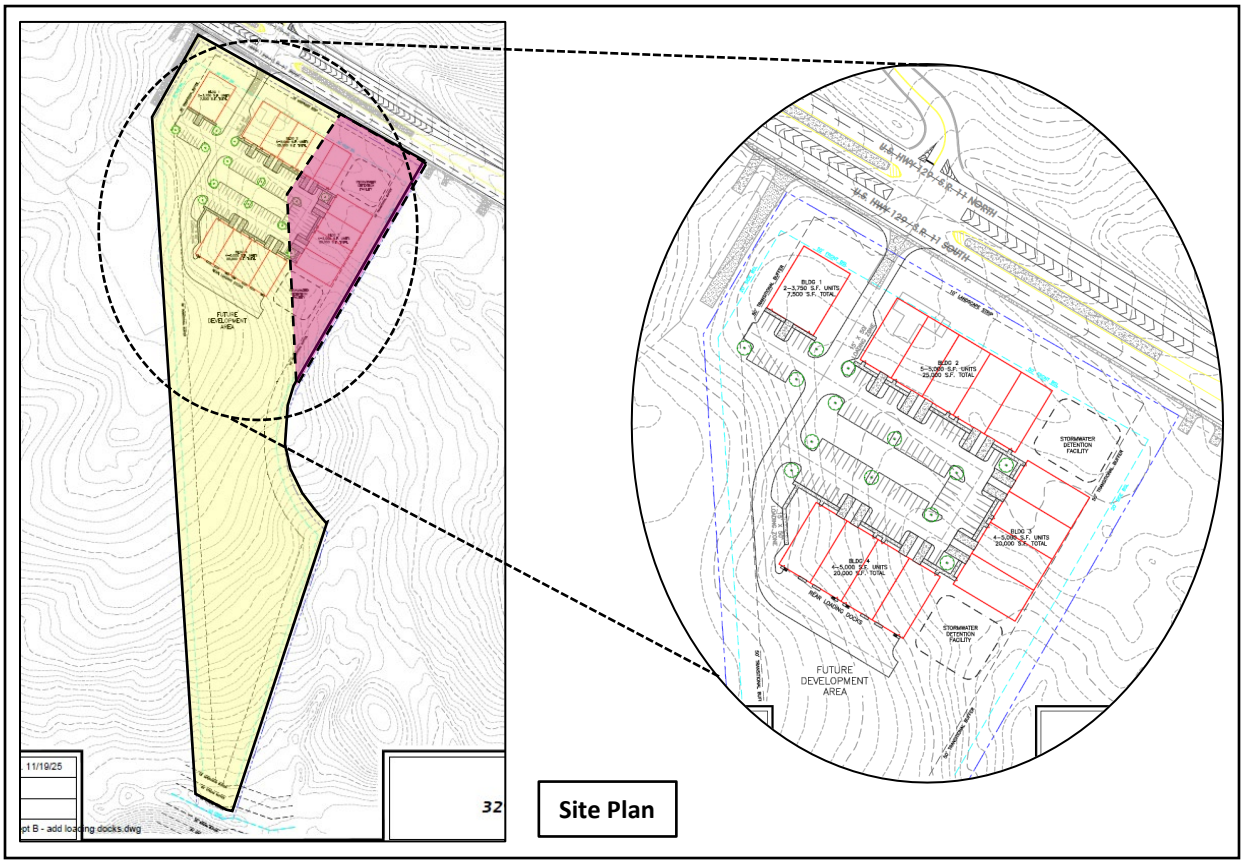
3. No variances or development exceptions are granted as part of this request that are not explicitly granted by board approval. The development shall be compliant with the Unified Development Code of Hall County, as well as any other agencies or reviewing departments,

including, but not limited to Environmental Health, the Fire Marshal, and Hall County Engineering.

4. All conditions of zoning shall be made a part of any plats or construction plans created for the property.

Summary Analysis

The applicant is requesting to rezone a 14.11± acre portion of a tract from Agricultural Residential (AR-1) & Planned Industrial Development (PID) to Light Industrial (I-1) to allow for uses permitted in the I-1 zoning district. Currently, the subject property is developed with one single-family residence, and two accessory structures used as a storage building and a pole barn.



A part of the subject property (shown in pink highlight) was approved by the Board of Commissioners to be rezoned to Planned Industrial Development (PID) on July 24, 2008, to allow mixed use commercial and manufacturing with the following conditions (ZON2008-00070):

1. The development of the site shall occur as generally depicted and described in the concept plan and project narrative, modified as necessary for compliance with development standards in force at the time of site plan approval.

2. Development shall be limited to a 13,200 sq. ft. manufacturing and repair building and 6,900 sq. ft. retail/office building.
3. The Applicant must connect to City of Gainesville water before the issuance of any permits.
4. All development shall meet Gateway Corridors Overlay District requirements section 17.420 of the Hall County Zoning Regulations.
5. Final driveway design and placement are subject to approval by the Hall County Engineering Department and/or the Georgia Department of Transportation.
6. Any access or adjacent intersection improvements required by the Hall County Engineering Department or the Georgia Department of Transportation are the financial responsibility of the Applicant/developer.
7. All conditions of zoning shall be made a part of any plat created for the property.
8. The hours of operation will be Monday through Saturday from 7 a.m. to 9 p.m.

The surrounding properties are zoned and developed as outlined below:

North: Planned Industrial Development (PID) – Truck Terminal
Agricultural Residential 1 (AR-1) – Sugar Hill Elementary School

East: Agricultural Residential 1 (AR-1) – Vacant

South: Agricultural Residential 1 (AR-1) – Developed with single-family residences

West: Agricultural Residential 1 (AR-1) – Developed with single-family residences

Per the submitted narrative, the applicant is requesting to rezone the subject property from Agricultural Residential (AR-1) and Planned Industrial Development (PID) to Light Industrial (I-1) to allow uses permitted within the I-1 zoning district. The applicant specifically proposes the development of warehouse buildings with associated office space. The property also falls within the Gateway Corridor Overlay District (GCOD).

The proposed development consist of multiple warehouse buildings totaling approximately 72,500 square feet across 4 buildings/15 units. The proposal includes one 7,500-square-foot building with the potential to be divided into two units; one 25,000-square-foot building containing five units; and two 20,000-square-foot buildings containing four units each. The associated site plan shows approximately 85 to 90 parking spaces.

Per the submitted narrative, the applicant states that each unit will be accessed by individual roll-up doors, which will also function as loading areas. Additional designated loading zones are also proposed throughout the site. The applicant also states, all GCOD standards will be met and no variances are being requested as part of this application.

Water service will be provided by the City of Gainesville Department of Water Resources as confirmed by an availability letter dated October 27, 2025, and sanitary sewer services will be provided by private on site septic.

The development standards for the project are identified in the table below and compared to the GCOD requirements:

GCOD Analysis

Standard	Proposed	Notes	Compliance
6.2.5.A.– Transitional buffers	The submitted site plan indicates 50-foot buffers along the perimeter	Where an industrial zoning district abuts property zoned for residential or agricultural use, the width must be at least 50 feet.	Complies
6.2.5.B.5.d – Screening of storage and accessory equipment	No screening is proposed	Outdoor storage or sales displays must be screened from view from public streets and adjacent property by a solid fence or wall at least 8 feet in height	Unknown
6.2.5.C.1 – Parking Lot Design - Required number of Parking Spaces	85-90 parking spaces are proposed per site plan	1 per 300 sq. ft. of office plus 1 per 5,000 sq. ft. additional indoor area. The maximum number of parking spaces that may be constructed on impervious surfaces shall be no more than 125 percent of the minimum number of parking spaces	Unknown
6.2.5.C.2.d – Parking Lot Design - Surface	Paved with asphalt	All parking areas must be paved with asphalt, concrete or pervious materials approved by the director.	Complies
6.2.5.C.2.e – Parking Lot Design - Location	The proposed parking is located between buildings.	Off-street parking must be located to the side or rear of the principal building and may not be located between the building and the street.	Complies
6.2.6.A.4 – Architectural Standards	Unknown	Shall comply with GCOD standards.	Unknown
6.2.7 – Signs	Unknown	Signage shall comply with GCOD standards.	Unknown

Based on the future land use plan, staff finds the requested rezoning *is not consistent* with the Hall County Comprehensive Plan and the future land use designation of "Suburban Neighborhood, Low-Density". These areas consist of low-density, detached single-family housing. In less developed areas of the county, they should be focused where there is existing water and sewer infrastructure, or where future infrastructure is expected to be located. Future infrastructure may be driven by the Sewer System Master Plan & Rate Study or by developers willing to fund access where it isn't already planned. Depending on the character area and what zoning districts they allow, residential densities can be up to 2 dwellings per acre or up to 8 dwellings per acre.

(A) Zoning Analysis

When considering a zoning amendment to the zoning maps, the Commission must study the need and justification for the change based on a determination of the facts applicable to the particular case, and the following general lines of inquiry must be considered:

a) Whether the zoning proposal will permit a use that is suitable in view of the use, development and zoning of adjacent and nearby property; **The proposed rezoning is not consistent with the future land use designation identified in the Comprehensive Plan. However, the surrounding area contains a mix of residential, agricultural, industrial, and commercial uses, reflecting a diverse development pattern in the vicinity.**

b) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; **It is not anticipated that the use would adversely affect adjacent or nearby property, provided required buffers are maintained.**

c) Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; **The property has reasonable economic use as currently zoned.**

d) Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, schools, police protection, fire protection, public health facilities or emergency medical service; **The proposed rezoning is not expected to cause an excessive or burdensome use of the existing streets, transportation facilities, utilities, schools, police protection, fire protection, public facilities, or emergency medical service.**

e) Whether the zoning proposal is in conformity with the policy and intent of the future land use plan for the physical development of the area; **The proposed use is not consistent with the Comprehensive Plan future land use designation of Suburban Neighborhood, Low-Density.**

f) The extent to which property values are diminished by the existing zoning restrictions; **Staff is unable to determine the extent to which property values are affected by the existing zoning restrictions.**

g) The extent to which the destruction of the subject property's value under the existing zoning promotes the health, safety, morals or general welfare of the public; **Staff is unable to comment on the impact of property values without a full market analysis. Multiple factors impact property values including construction types, proposed uses, and maintenance. Often it is**

difficult to determine the effect of a development on adjacent properties until the development is completed.

h) The relative gain to the public as compared to the hardship imposed upon the individual property owner; **Staff has not identified a hardship imposed on the property owner as the property is currently zoned.**

i) The length of time the property has been vacant as zoned considered in the context of land development in the area in the vicinity of the property**; A portion of the subject property is zoned Planned Industrial Development (PID); however, the site was never developed in accordance with the approved zoning. The property is currently developed with a single-family residence and a pole barn constructed in 1957, as well as a storage building constructed in 2018.**

j) Whether there are other existing or changing conditions affecting the use or development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; **Staff is not aware of any changing conditions affecting the use or development of the property.**

k) Whether the change would create an isolated district unrelated to the surrounding districts; **The proposed Light Industrial (I-1) zoning would not create an isolated district, as portions of the subject parcel and adjacent properties are already zoned for similar industrial uses.**

l) Whether the present zoning district boundaries are illogically drawn in relation to existing conditions in the area; **There is no evidence that the present zoning district boundaries are illogically drawn.**

m) Whether the change requested is out of scale with the needs of the county as a whole or the immediate neighborhood; **No, the request is not out of scale with the needs of the County as a whole.**

n) Whether it is impossible to find adequate sites for the proposed use in districts permitting such use and already appropriately zoned; **There are other properties within the County that support Light Industrial uses based on the Future Land Use Map and the current zoning map; however, the development as proposed requires rezoning approval by the Board of Commissioners.**

o) Whether the need for rezoning could be handled instead by a variance request to the Planning Commission; **The request could not be handled alternatively as a variance.**

p) Whether there would be an ecological or pollution impact resulting from major modifications to the land if the request is granted; **Any land disturbance activities on the property shall be required to go through the land development permitting process, and as a result are subject to local, state, and federal regulations. As a result, there are no anticipated ecological or pollution impacts resulting from any modification to the land if the request is granted.**

q) Whether there is reasonable evidence based upon existing and anticipated land use that would indicate a mistake was made in the original zoning of the property; **There is no indication that a mistake was made in the original zoning.**

11.2.6.E - Submission requirements

1. Any person or persons requesting a change in the official zoning map or use subject to approval of the County Commission must file an application with a plat or map of the property attached thereto, together with payment of such fees set forth in this Sec 11.2. to cover administrative and advertising costs, in the Planning and Zoning Department office. Such person or persons or their authorized agent must appear in person at the public hearing held to consider the district change. **The proposal meets the requirement. The applicant has paid the appropriate fees and understands that someone must be present at the voting meeting of the Hall County Board of Commissioners.**

2. All applications for a change of zoning classification or use subject to approval of the County Commission must include:

    a. A narrative statement identifying the existing and proposed use of the property and addressing each of the criteria set forth in this Sec. 11.2. **The proposal provides a narrative outlining the intent of the development; however, the applicant has not prepared a response to each of the criteria listed in 11.2.6.E.2.**

    b. A site plan drawn to scale designating the area covered by the application and identifying existing and proposed buildings and uses, adjacent existing land uses, zoning on contiguous parcels, including those across an abutting public right-of-way, and any other significant site improvements proposed to accommodate the proposed use or buffer adjacent uses, etc., or a plat of the subject property where no specific land use is proposed. In cases where only a plat or map is provided and no land use is proposed, the Planning Commission and County Commission may evaluate the application based on the most intense possible land use permitted in the proposed district. **The proposal meets the requirement.**

    c. For any application for a slow rate land treatment system as defined in 7.6.9.D.1, additional requirements apply. **This standard is not applicable to the applicant's request.**

    d. For any application proposing the development of 100 or more residential dwelling units, a traffic impact study must be submitted prior to consideration of the application by the County Commission. At the applicant's expense, the traffic impact study must be prepared by a professional engineer in accordance with requirements established by the Hall County Engineering Department. The Engineering Department must review the traffic impact study and forward any comments to the County Commission. **This standard is not applicable to the applicant's request.**

Development Support and Constraints

Hall County Environmental Health
In an email dated December 16, 2025, Emily McGahee stated "Must meet all Environmental Health commercial septic system permitting requirements. A detailed business plan must be submitted to Hall County Environmental Health for review. Additional items, including, but not limited to: recorded plat, soil evaluation, and septic system installation/modification may be required after review of business plan."

Georgia Department of Transportation
In an email dated December 11, 2025, Christopher Hash, P.E. D1 Traffic Operations Supervisor, stated "Will need to permit with our office. Driveway will need to align, and a right turn lane will be required. Intersection will need to be studied."

Hall County Public Works and Utilities
In a memorandum from Public Works and Utilities dated December 17, 2025, Assistant Director Jason Skarda stated the following:

Engineering:
This site may require a stormwater management report should the site plan indicate the proposed development meets stormwater thresholds for impervious surfaces and/or disturbed acreage.
Show FEMA and Hall County studied flood plains that are present on site.

Traffic:
GDOT access Permit is required.

Utilities:
Hall County Sewer Service area – No infrastructure in vicinity.

Hall County Fire Marshal
In an email dated December 16, 2025, John Hornick, NPQ Fire Service Plans Examiner 1, stated, "The Hall County Fire Marshal's Office considers the plan conceptual and if approved may require modifications during development review to meet fire code."

CAMPAIGN CONTRIBUTIONS DISCLOSURE FORM

This form must be completed by the applicant and property owner, or person representing the property owner, for all zoning actions.

OCGA § 36-67A-3[C] Disclosure of campaign contributions:

(b) When any applicant for zoning action has made, within two years immediately preceding the filing of the applicant's application for the zoning action, campaign contributions aggregating $250.00 or more to a local government official who will consider the application, it shall be the duty of the applicant to file a disclosure report with the governing authority of the respective local government showing:

(3) The name and official position of the local government official to whom the campaign contribution was made; and

(4) The dollar amount and description of each campaign contribution made by the applicant to the local government official during the two years immediately preceding the filing of the application for the rezoning action and the date of each such contribution.

(b) The disclosures required by subsection (a) of this Code section shall be filed within ten days after the application for the zoning action is first filed. (Code 1981, Section OCGA § 36-67A-3[C], enacted by GA L. 1986, page 1269, Section 1, GA L. 1991, page 1365, Section 1).

I hereby certify that I have read the above and that:

Zoning Narrative (revised) 11/20/2025

Applicant seeks to rezone a 14.1-acre tract of land from a combination of Planned Industrial Development (PID) and Agricultural Residential (AR-1) to Light Industrial.

History of Use. All of the property is currently utilized as a single-family residence. There is a single home built in approximately in 1957 located on the property. There are several other accessory structures located on the property.

A 3.5-acre portion of the property was rezoned in 2008 to PID for potential use as a 13,200 square foot manufacturing repair building and 6,900 square foot retail office building. That development never occurred as proposed.

The property was purchased by the existing owner as two (2) tracts, but has been combined into a single tract for tax purposes.

Current Zoning. Current Zoning is a mixture of AR-1 and PID.

Proposed Use. As shown on the attached site plan, the applicant intends to construct four industrial buildings of various sizes. Each would be constructed so that the building could be subdivided into multiple units.

One building would be approximately 7,500 square feet, with the ability to subdivide into two (2) units.

Second building, as depicted on the site plan, would be approximately 25,000 square feet. The applicant proposes that the other two (2) buildings would be approximately 20,000 square feet.

All parking would be separated from Highway 129 by the buildings themselves.

Each building would have the ability to be further subdivided to provide for combination of office and warehouse space for various small businesses. The applicant believes there is a high demand for this type of development in the area. Inspiration photograph showing the intended look of the buildings have been included.

As shown on the revised site plan, the buildings 1, 2 & 3 will be accessed via a front facing 12x12 (approx.) roll up door and a driveway from the door to the drive aisle on front of the building. This will allow occupant to store and load vehicles inside the buildings. Building 4 will have rear loading docks as shown.

Property will be subject to the Gateway Corridor Overlay. Applicant will propose to comply with all aspects of the Gateway Corridor Overlay and is requesting no variances or other deviations from applicable zoning.

Development Schedule. Property will be developed as soon as practical following rezoning. Applicant will build one building at a time.

Surrounding Uses. Property directly across the street is currently zoned PID and a large-scale warehouse is under construction. Other properties along Athens Highway are a mixture of Highway business and Agricultural zoning.

Utilities. The property will be served by City of Gainesville water. A water availability letter is included with the application. There is no current sewer availability in the area.

Zoning Narrative

Applicant seeks to rezone a 14.1-acre tract of land from a combination of Planned Industrial Development (PID) and Agricultural Residential (AR-1) to Light Industrial.

History of Use. All of the property is currently utilized as a single-family residence. There is a single home built in approximately in 1957 located on the property. There are several other accessory structures located on the property.

A 3.5-acre portion of the property was rezoned in 2008 to PID for potential use as a 13,200 square foot manufacturing repair building and 6,900 square foot retail office building. That development never occurred as proposed.

Current Zoning. Current Zoning is a mixture of AR-1 and PID.

Proposed Use. As shown on the attached site plan, the applicant intends to construct four industrial buildings of various sizes. Each would be constructed so that the building could be subdivided into multiple units.

One building would be approximately 7,500 square feet, with the ability to subdivide into two (2) units.

Second building, as depicted on the site plan, would be approximately 25,000 square feet. The applicant proposes that the other two (2) buildings would be approximately 20,000 square feet.

All parking would be separated from Highway 129 by the buildings themselves.

Each building would have the ability to be further subdivided to provide for combination of office and warehouse space for various small businesses. The applicant believes there is a high demand for this type of development in the area.

Property will be subject to the Gateway Corridor Overlay. Applicant will propose to comply with all aspects of the Gateway Corridor Overlay and is requesting no variances or other deviations from applicable zoning.

Development Schedule. Property will be developed as soon as practical following rezoning. Applicant will build one building at a time.

Surrounding Uses. Property directly across the street is currently zoned PID and a large-scale warehouse is under construction. Other properties along Athens Highway are a mixture of Highway business and Agricultural zoning.

Utilities. The property will be served by City of Gainesville water. A water availability letter is included with the application. There is no current sewer availability in the area.

STATE OF GEORGIA

COUNTY OF HALL

Christopher D. Elrod
4209 Oakwood Rd., Suite 9
Oakwood, Georgia 30566

THIS INDENTURE, made this 12 day of September, in the year Two Thousand Seventeen, between **KB RE, LLC**, as party or parties of the first part, hereinafter called Grantor, and **JOHNNY WALKER**, as party or parties of the second part, hereinafter called Grantee (the words "Grantor" and "Grantee" to include their respective heirs, successors and assigns where the context requires or permits).

WITNESSETH that: Grantor for and in consideration of the sum of **TEN ($10.00) DOLLARS AND OTHER VALUABLE CONSIDERATION**, in hand paid at and before the sealing and delivery of these presents, the receipt whereof is hereby acknowledged, has granted, bargained, sold, alienated, conveyed and confirmed, and by these presents does grant, bargain, sell, alien, convey and confirm unto the said Grantee:

Tract One: All that tract or parcel of land lying and being in Tadmore District, GMD 268, Hall County, Georgia, and being Tract 1 of the "Alvin Patton Estate," consisting of 12.61 acres, as shown on a plat entitled "Survey of Alvin Patton Estate," dated December 11, 2001, recorded in Plat Slide 810, Page 147A, Hall County, Georgia Records, which plat is incorporated herein by reference and made a part hereof.

Tract Two: All that tract or parcel of land lying and being in Tadmore District, GMD 268, Hall County, Georgia, containing 1.50 acres of land, and being more particularly shown on a plat of survey for Alvin M. Patton, prepared by Tommy J. Phillips, GRLS, dated May 11,

BK7967PG468

2000, as follows: TO FIND THE TRUE POINT OF BEGINNING, begin at an iron pin found on the southerly right-of-way of U.S. Highway 129(S) at a point where the southeasterly side of a 20 foot graded drive extending from the highway to the cemetery of the Sugar Hill Baptist Church and the property of Alvin M. Patton adjoin the right-of-way of said highway; thence from said point running South 59-55-08 East a distance of 164.08 feet to a point marked by an iron pin on the right-of-way of U.S. Highway 129, the TRUE POINT OF BEGINNING, thence continue along the right-of-way South 59-51-23 East a distance of 210 feet to a corner marked by an iron pin set; thence South 32-24-52 West a distance of 311.50 feet to an iron pin set; thence North 59-59-33 West a distance of 210.02 feet to an iron pin set; thence North 32-24-52 East a distance of 312.00 feet to an iron pin set on the right-of-way of U.S. Highway 129, the TRUE POINT OF BEGINNING.

TO HAVE AND TO HOLD the said tract or parcel of land, with all and singular rights, members and appurtenances thereof, to the same being, belonging, or in anywise appertaining, to the only proper use, benefit and behoof of the said Grantee forever in FEE SIMPLE.

AND THE SAID Grantor will warrant and forever defend the right and title to the above-described property unto the said Grantee against the claims of all persons whomsoever.

IN WITNESS WHEREOF, the Grantor has signed and sealed this deed, the day and year above-written.

Signed, sealed and delivered in presence of:

Legal Description

Tract One:

All that tract or parcel of land lying and being in Tadmore District, GMD 268, Hall County, Georgia, and being Tract 1 of the "Alvin Patton Estate," consisting of 12.61 acres, as shown on a plat entitled "Survey of Alvin Patton Estate," dated December 11, 2001, recorded in Plat Slide 810, Page 147A, Hall County, Georgia Records, which plat is incorporated herein by reference and made a part hereof.

Tract Two:

All that tract or parcel of land lying and being in Tadmore District, GMD 268, Hall County, Georgia, and being Tract V of the "Alvin Patton Estate," containing 1.50 acres of land, and being more particularly shown on a plat of survey for Alvin M. Patton, prepared by Tommy J. Phillips, GRLS, dated May 11,2000, as follows:

To find the true point of beginning, begin at an iron pin found on the southerly right-of-way of U.S. Highway 129(S) at a point where the southeasterly side of a 20 foot graded drive extending from the highway to the cemetery of the Sugar Hill Baptist Church and the property of Alvin M. Patton adjoin the right-of-way of said highway, thence from said point running South 59-55-08 East a distance of 164.08 feet to a point marked by an iron pin on the right-of-way of U.S. Highway 129, the True Point of Beginning, thence continue along the right-of-way South 59-51-23 East a distance of 210 feet to a corner marked by an iron pin set, thence South 32-24-52 West a distance of 311.50 feet to an iron pin set; thence North 59-59-33 West a distance of 210.02 feet to an iron pin set; thence North 32-24-52 East a distance of 312.00 feet to an iron pin set on the right-of-way of U.S. Highway 129, the True Point of Beginning.

All matters recorded in caption property at Plat Book 76, Page 28, aforesaid records.

Re: Water Availability
Proposed Warehouse Development
3294 Athens Hwy
PIN: 15014 000192

Dear Mr. Rizqallah,

The purpose of this letter is to confirm the availability of water service to the above-referenced property.

The City of Gainesville owns and operates an existing 8-inch DIP water main in the right-of-way of Athens Highway along the frontage of the subject property.

Currently, the City has adequate domestic water capacity to serve your proposed warehouse development.

This confirmation of water availability is good for one year from the date of this letter at which time, it will become null and void unless engineered plans have been submitted for issuance of a development permit.

Please call me at (770) 538-2452 should you have any questions.

Sincerely,

Nick Swafford
Permitting Services and GIS Manager

Subject: Public Comment

Dear Commissioners,

Staff received an objection letter from Ms. and Mr. Shore concerning our notice letter mailing procedure and expressed their concerns regarding timely notification. The Shores reside at 3286 Athens Highway, Gainesville, GA 30507.

In accordance with our established policy, notice letters were mailed approximately one month prior to the first public hearing (December 17, 2025 for the January 22, 2026 BOC meeting). Under Georgia state law, mailing notice letters to neighboring property owners is not required; therefore, no law has been violated. Nevertheless, as a courtesy, our policy provides this notification to surrounding property owners.

The Shores' objection letter is included in the packet for the upcoming BOC meeting on January 22, 2026.

Thank you,
Katie Ahmed
Planning and Zoning Administrator

Steve Klacik & Karen Shore 3286 Athens Hwy Gainesville, GA 30507 Email: [redacted] Phone: [redacted] December 20, 2025

Hall County Planning and Development P.O. Box 1435 Gainesville, GA 30503

Subject: Rezoning Application – 3290 & 3294 Athens Highway (AR-1 & PID to I-1) Applicant: Jim Rizqallah Hearing Date: January 22, 2026

Dear Planning Staff and Hall County Board of Commissioners:

We write as directly adjoining property owners and formally object to the above-referenced rezoning request. We respectfully urge the County to deny this application. At minimum, we request postponement until proper notification and full public review have occurred.

Lack of Required Notification: Despite our property touching the subject parcels, we did not receive timely notice of this rezoning application. Hall County policy requires mailed notification to owners within 500 feet at the outset of the rezoning process. We were only recently notified of the Commission hearing, placing us at a clear disadvantage. This alone justifies postponement of the hearing.

Incompatibility and Harm to Adjacent Property: Rezoning these parcels to I-1 threatens surrounding agricultural and residential properties. Industrial zoning will introduce incompatible uses, including truck and equipment traffic, warehousing, storage yards, and fabrication or manufacturing activities. These uses will significantly harm our peaceful property use, livestock safety, and the rural environment. This corridor is not suitable for industrial intensification.

Traffic, Lighting, Noise, and Property Value Impacts: The proposed rezoning poses unacceptable risks: increased heavy traffic on Athens Hwy, nighttime lighting spillover, noise disruption to horses and livestock, stormwater runoff issues, decreased property values, and permanent change to the rural character of the area. These impacts have not been publicly evaluated.

Request for Documentation and Transparency: We request access to the full application packet, site plans, staff reviews, environmental reports, and proposed conditions. We also request confirmation of all mailing records and dates to adjoining owners. Full transparency is necessary for an informed decision.

Conclusion: Given the notification concerns, land use incompatibility, and potential harm to surrounding properties, we urge the Board to deny this rezoning request. At the very least, this case must be postponed to allow proper neighbor notice, document review, and meaningful participation. We intend to speak at the public hearing.

Sincerely,

Steve Klacik

FORMAL WRITTEN OBJECTION – PROCEDURAL NOTICE DEFECT

Date: December 24, 2025
To: Hall County Board of Commissioners
Via: Hall County Planning & Zoning Department

Re: Rezoning Application – 3294 & 3290 Athens Highway
Rezoning from Agricultural Residential (AR-1) / Planned Industrial Development (PID) to Light Industrial (I-1)
Applicant: Jim Rizqallah
Commission District 3

Dear Chairman and Members of the Board,

We are adjacent property owners entitled to notice under Georgia's Zoning Procedures Law and Hall County's zoning ordinance. We submit this written objection to the above-referenced rezoning application on procedural grounds, and respectfully request that it be entered into the official record.

We received our first mailed notice regarding this rezoning on December 17, 2025, as reflected in the County's Notice of Public Hearing. However, the rezoning process had already commenced prior to that date.

The County's notice references action taken at the October 7, 2025 meeting, at which time the Planning Commission was temporarily suspended and zoning matters were redirected to the Board of Commissioners. Regardless of that internal administrative change, Georgia law requires that affected property owners receive notice prior to the first public hearing on a zoning request, so that they may meaningfully participate in the process.

Because notice was not provided to us until after the rezoning process was already underway, we were deprived of the opportunity to participate at the outset of the proceedings, including the opportunity to prepare, present evidence, and raise concerns before staff review, recommendations, or procedural momentum occurred. An internal suspension of the Planning Commission does not eliminate or postpone statutory notice obligations owed to affected property owners.

This procedural defect is particularly significant given the nature of the request, which seeks to rezone property from Agricultural Residential to Light Industrial, a substantial change with material impacts on land use compatibility, traffic, noise, and surrounding property interests.

Accordingly, we respectfully object to the continuation or approval of this rezoning in its current posture and request that the Board take appropriate corrective action, including but not limited to:

1. Tabling the application;
2. Remanding the matter for re-notice and rehearing in compliance with Georgia law; or
3. Restarting the rezoning process to ensure full procedural compliance and meaningful public participation.

This objection is submitted to preserve our rights and remedies under Georgia law. We appreciate the Board's consideration of this matter and request that this correspondence be included in the official record of proceedings.

Property Address: 3286 Athens Highway, Gainesville, GA 30507

Respectfully submitted,

/s/ Karen Shore
Karen Shore

PUBLIC NOTICE REQUIREMENTS

Zoning regulations require that public notice must be given prior to all zoning hearings as follows:

1. The Planning Department shall publish a legal advertisement no less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing.

2. The Planning Department shall send notification by letter of all other property owners within a 500-foot radius of the applicant's property, which is standard administrative policy of the Planning Department.

3. The applicant/property owner shall place the public notice sign in a conspicuous location on the property not less than fifteen (15) days and not more than forty-five (45) days prior to the public hearing.

The Planning Department shall post the legal advertisement and notify property owners within a 500ft radius to the subject property.

The applicant is required to post the public notice sign not less than fifteen (15) days and no more than forty-five (45) days prior to the public hearing. A photo of the sign placed at the location is required and must be sent to the Planning Department.

Multiple sign postings on a site may be required as determined by the Planning Department. The sign must be in a location where it is clearly visible from the roadway. The sign cannot be obstructed in any manner, placed too far from the road, or placed in such manner as would cause it to blend into the landscape.

Should you find the sign missing or vandalized in any manner, contact the Planning Department for a replacement sign. When the proceeding is complete and final Board action has occurred, the sign shall then be removed from the property by the applicant.

THE ZONING SIGN MUST BE POSTED NO EARLIER THAN DECEMBER 19, 2026 AND NO LATER THAN JANUARY 02, 2026.

THE ORGINAL SIGNED AFFIDAVIT MUST BE RETURNED TO THE PLANNING DEPARTMENT NO LATER THAN JANUARY 02, 2026 ALONG WITH A MINIMUM OF ONE PHOTO SHOWING THE SIGN POSTED AT THE SUBJECT PROPERTY.

Failure to comply will result in a delay of the application.

AFFIDAVIT

By my signature, I, Jim Rizgallah (Please Print Name), **hereby acknowledge that I have read and understand the sign posting requirements. I further certify that the required public notice sign was posted on** 12-19-2025 (Date) **for** Choice FSC (Name application filed as).

Signature Jim Rizgallah (The original document is required)

Attn: Chris Milligan
2567 Athens Highway
Gainesville, GA 30507

Dear Mr. Milligan:

Please be advised that in its meeting of July 24, 2008, the Hall County Board of Commissioners voted to approve the application of CRM Fabrication & Repair, Inc. to rezone from AR-IV to PID, a 3.5± acre tract located on the west side of Athens Highway; a.k.a. 3290 Athens Highway; Tax Parcel 15014 000207(pt). Proposed Use: Mixed use commercial and manufacturing. Commission District Three.

The following conditions of zoning apply:

1. The development of the site shall occur as generally depicted and described in the concept plan and project narrative, modified as necessary for compliance with development standards in force at the time of site plan approval.
2. Development shall be limited to a 13,200 sq. ft. manufacturing and repair building and 6,900 sp. ft. retail/office building.
3. The Applicant must connect to City of Gainesville water before the issuance of any permits.
4. All development shall meet Gateway Corridors Overlay District requirements section 17.420 of the Hall County Zoning Regulations.
5. Final driveway design and placement are subject to approval by the Hall County Engineering Department and/or the Georgia Department of Transportation.
6. Any access or adjacent intersection improvements required by the Hall County Engineering Department or the Georgia Department of Transportation are the financial responsibility of the Applicant/developer.
7. All conditions of zoning shall be made a part of any plat created for the property.
8. The hours of operation will be Monday through Saturday from 7 a.m. to 9 p.m.

If you have questions or require any additional information you may reach me at 770.535.8288.

Sincerely,

Heather Bates

Recommendation:
Approve and execute the donation resolution and permanent stormwater easement agreement to the City of Gainesville related to the Athens Street Pedestrian Corridor Improvement project.

Purpose of Request:

Approve and execute the donation resolution and permanent stormwater easement agreement to the City of Gainesville related to the Athens Street Pedestrian Corridor Improvement project.

History:
The County has determined that 333 SF of Hall County owned property located at 1280 Athens Street Southeast, Gainesville, GA 30501 (Tax Parcel No. 01140 000011) is needed order to construct necessary stormwater infrastructure related to the Athens Street Pedestrian Corridor Improvement project. The County desires to grant the City of Gainesville a permanent stormwater easement upon the property by virtue of the execution of a Stormwater Easement Agreement.

Facts and Issues:

Options:

The County has determined that 333 SF of Hall County owned property located at 1280 Athens Street Southeast, Gainesville, GA 30501 (Tax Parcel No. 01140 000011) is needed order to construct necessary stormwater infrastructure related to the Athens Street Pedestrian Corridor Improvement project. The County desires to grant the City of Gainesville a permanent stormwater easement upon the property by virtue of the execution of a Stormwater Easement Agreement.

An appraisal was not performed on this parcel. Athens Street is currently maintained by the City of Gainesville. By granting a permanent stormwater easement at this location, the City will own and maintain stormwater infrastructure installed during the Athens Street Pedestrian Corridor Improvement project.

Resolution

STATE OF GEORGIA

COUNTY OF HALL

RESOLUTION GRANTING TO THE CITY OF GAINESVILLE A PERMANENT STORMWATER EASEMENT RELATED TO THE ATHENS STREET PEDESTRIAN CORRIDOR IMPROVEMENT PROJECT

WHEREAS, Hall County, Georgia (hereinafter referred to as "the County"), is the owner of a tract of land in Hall County, Georgia located at 1280 Athens Street Southeast, Gainesville, Georgia 30501 (hereinafter referred to as "the Property") identified by the Tax Parcel Number 01140 000011.

WHEREAS, Hall County, Georgia desires to grant to the City of Gainesville, Georgia (hereinafter referred to as "the City"), a permanent stormwater maintenance easement on the Property by virtue of the execution of a Permanent Stormwater Easement (hereinafter referred to as "the Agreement") attached hereto as "Exhibit A".

WHEREAS, the County has determined that the establishment of a stormwater easement upon the Property in favor of the City as shown by "Exhibit B" attached hereto is necessary for the Athens Street Pedestrian Corridor Improvement project; and

WHEREAS, the City already owns and is responsible for the portion of Athens Street adjacent to the Property, the adjacent Right of Way and the stormwater facilities already existing adjacent to the property; and

WHEREAS, the Board of Commissioners has determined that the establishment of a permanent stormwater easement in favor of the City of Gainesville on the property would support the general welfare of the citizens of both the County and City; and

NOW THEREFORE, on behalf of Hall County, Georgia the Hall County Board of Commissioners establishes and grants to the City of Gainesville a permanent stormwater maintenance easement upon the Property. The Board further authorizes the Chairman to sign

any and all documents necessary to effectuate the establishment of the permanent stormwater easement upon the Property, including but not limited to the Agreement attached hereto as "Exhibit A" subject to the review and approval of the County Attorney.

SO RESOLVED this the ___ day of _____, 2026.

PERMANENT EASEMENT FOR THE MAINTENANCE OF STORMWATER DRAINAGE STRUCTURE
BOARD OF COMMISSIONERS
HALL COUNTY, GEORGIA

Georgia, Hall County

Project Name: __Athens Street Pedestrian Corridor Improvements_____

THIS CONVEYANCE made and executed this _____ day of _____, 20_____;

WITNESSETH that Hall County, Georgia (GRANTOR), the undersigned, is the owner of a tract of land in Hall County, Georgia through which the Athens Street Pedestrian Corridor Improvements project will be constructed, including the construction of new sidewalk and new stormwater improvements.

NOW, THEREFORE, for and in consideration of ONE DOLLAR ($1.00) in hand paid, the receipt whereof is hereby acknowledged, Grantor does hereby grant to the City of Gainesville, hereafter referred to as "Grantee", a permanent stormwater drainage easement for the purposes and uses hereafter set forth, within the easement area being more particularly shown on the attached description and the attached plat, incorporated herein by reference, over, through and across the following lands, lying and being in the City of Gainesville, Hall County, Georgia, to wit:

See Exhibits "A" and "B" attached hereto

Said permanent stormwater easement is a permanent maintenance easement shown on Exhibits "A" and "B" and is a permanent easement shown on Exhibits "A" and "B" and is granted for the right to maintain, repair, and rebuild any required drainage structures and/or the stormwater drainage system, located, relocated, or added, within the easement area, said permanent stormwater maintenance easement to commence upon completion of construction and acceptance of the stormwater drainage facilities by Hall County.

Grantee shall exercise reasonable diligence in doing necessary work on connection therewith, so as to avoid damaging the property. Any costs associated with the maintenance of any stormwater facilities within the easement shall be the responsibility of Grantee.

This Agreement is to be constructed as a Covenant not to sue as well as a full accord and satisfaction of any and all claims as set out above, and the conveyance of all claims or rights shall be deemed to be in perpetuity.

The undersigned hereby warrants that is has the right to sell and convey said easement and binds itself, its successors and assigns and shall insure to the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the undersigned have hereunto set their hand and seal the day above written.

HALL COUNTY
RIGHT OF WAY DEED
2875 Browns Bridge Road, Gainesville, GA. 30504

GEORGIA, HALL COUNTY

THIS CONVEYANCE made and executed the 31 day of December, 2025.

WITNESSETH that **Joshua Robert Nelson**, the undersigned, (hereinafter referred to as 'Grantor'), is the owner of a tract of land in Hall County through which Azelia Drive, known as the paving of Azelia Drive, has been laid out by Hall County being more particularly described in a map and drawing of said road in the office of Hall County, 2875 Browns Bridge Road, Gainesville, Georgia, to which reference is hereby made.

NOW, THEREFORE, in consideration of the benefit to said property by the construction and maintenance of said road, and in consideration of ONE DOLLAR ($1.00), in hand paid, the receipt whereof is hereby acknowledged, Grantor does hereby grant, sell and convey said to **Hall County** and their successors in office so much land as to make a right of way for said road as surveyed, being more particularly described as follows:

All that tract or parcel of land lying and being in Land Lot 156, 11th District of Hall County, Georgia, and being more particularly described on Exhibit "A" attached hereto and made a part hereto by this reference.

Said right of way is hereby conveyed, consisting of 2,074 square feet (0.048 acres), more or less, as shown on the plat of the property prepared by Rochester and Associates, LLC dated October 21, 2025; said plat attached hereto and made a part of this deed as Exhibit "B".

TO HAVE AND TO HOLD the said conveyed premises in fee simple and any rights Grantor has or may have in and to existing public rights of way are hereby quitclaimed and conveyed unto Hall County.

Grantor hereby warrants that Grantor has the right to sell and convey said land and bind himself, his heirs, executors and administrators forever to defend by virtue of these presents.

IN WITNESSETH WHEREOF, Grantor has hereunto set his hand and seal the day above written.

Signed, Sealed and Delivered

Email: surplus.property@doas.ga.gov
Website: doas.ga.gov
Lead. Empower. Collaborate.

$132,000/ 110 Radios = $1200.00 Per radio

Current State Contract Price 12/29/2025 = $6952.49 x 110 = $764,773.90

$764,773.90 - $132,000 = $632,773.90 in Savings.

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

STATE OF GEORGIA DEPARTMENT OF ADMINISTRATIVE SERVICES

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☐ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . .

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☑ Other (see instructions) GOVERNMENT

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any)

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any)

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

5 Address (number, street, and apt. or suite no.). See instructions.

200 PIEDMONT AVENUE, SUITE 1820 WEST TOWER

Requester's name and address (optional)

6 City, state, and ZIP code

ATLANTA, GA 30334

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

5	8	–	1	1	2	5	8	4	4

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here | **Signature of U.S. person** Paulette Petty | **Date** 3/25/2024

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

Sheriff's Office

REPORT TO: **Work Session (01/20/26)**

REPORT TO: **Voting Meeting (01/22/26)**

ITEM NO: 10/2026

SUBJECT: Approve the purchase of ten (10) new 2025 Ford Explorer Pursuit Vehicles for the Sheriff's Office to Billy Howell Ford Inc. of Cumming, GA, in the amount of $442,980.00.

Meetings:

Work Session Date: 01/20/26

Voting Meeting Date: 01/22/26

Executive Summary:

Presenter: JM

Recommendation:
Approve.

Purpose of Request:
Approve the purchase of ten (10) new 2025 Ford Explorer Pursuit Vehicles for the Sheriff's Office to Billy Howell Ford Inc. of Cumming, GA, in the amount of $442,980.00.

History:
Billy Howell Ford of Cumming, GA is a vendor in good standing with the County.

Facts and Issues:
Billy Howell Ford Inc. is the lowest and responsible bidder for this purchase of ten (10) Ford Explorer Pursuit Vehicles.

The pricing for the recommended vendor is below state contract pricing for the same vehicle type.

Options:

Funding Requested	$ 442,980.00
