

Mushroom Vent Cap

Features

- Fully assembled for easy installation
- Made from heavy-duty PVC that stands up to rain, hail, snow, and UV rays
- Stainless steel hex head bolts are corrosion resistant
- Charcoal gray cap compliments any type or color roof
- Product can be installed on 3" or 4" Schedule 40 pipe
- Will work on other exterior pipes that need protection

Installation

1. Place cap on end or top of pipe using the molded steps on the inside of the cap.
2. Using a wrench or drill, tighten the three hex head bolts gradually until snug.
3. DO NOT over tighten or damage to the DWV pipe can occur.
