

THE WORLD'S MOST TRUSTED BOND

EZ FLUSH™ PIPE LUBRICANT

The quick, safe, and effective solution for lubricating metal- and plastic-gasketed plumbing pipes.

WHY EZ FLUSH IS A PLUMBER'S FIRST CHOICE

Weld-On EZ Flush Pipe Lubricant offers a quick, safe, and effective solution for lubricating metal- and plastic-gasketed plumbing pipes. EZ Flush is designed to lubricate slip-on or "O"-ring-type joints without harming rubber or plastic gaskets. Specially formulated to not coagulate in pipelines and to completely flush out, this pipe lubricant transfers no taste or odor to potable water systems. The plumbing lubricant is nontoxic, noncorrosive, and does not promote turbidity.

- Easily rinses off in clumps without altering the water (even during the initial system flush).
- Requires much less water to flush out excess material.
- Will not separate if stored in hot conditions.
Temperature use range: 0°-150°
- No taste or odor transferred to fluids in the piping system.
- Applications include municipalities and industrial.
