

ABS Y5 DS

High Visibility Yellow Solvent Cement

Less Drip. More Grip. Confident Results Every Time.

Introducing Schwartz Y5 High Visibility Yellow Solvent Cement—a game-changer for contractors working in low-rise, multi- and single-family residential environments. Designed for maximum efficiency and reliability, this premium heavy bodied, high-performance cement is engineered for use on a wide range of ABS pipe and fittings. **Key benefits include:**

Fast and clean application.

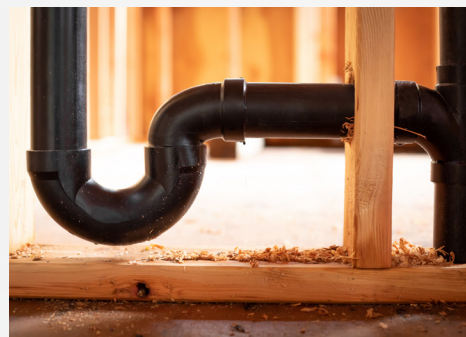

Y5 premium low drip formula grips pipe and fittings fast – no stains or messy worksites.

All weather performance.

Y5 is designed to perform in extreme weather, including freezing or high temperatures and in wet conditions.

Widest application range.

Y5 heavy bodied solvent cement is approved for ABS pipe and fittings up to 315mm (12").

Compliance and Certifications

Complies with Canadian Low VOC requirements based on new 2024 standards
