

Residential and Commercial Roofing

Product Solutions Catalog

QUALITY INNOVATION PERFORMANCE

IPS Corporation has long been recognized for its commitment to improving residential and commercial construction products. From introducing America's first plastic pipe solvent cement, the first plastic recessed Washing Machine Outlet Box, to the first adjustable multi-size roof vent flashing, IPS Corporation has always sought to help professional contractors work faster and smarter.

IPS leaves nothing to chance by using the highest-quality materials, which are fully tested for ultraviolet, ozone, and weather resistance. With continued devotion to research, product development, and superior service IPS will continue to bring innovative products with unsurpassed service to the roofing market.

IPS Corporation Roofing Products Division Focus:

Creating value for our customers

Product innovation

Superior workmanship

Unsurpassed customer service

Professionalism at all levels

Thank you for choosing IPS Corporation's Roofing Products!

GALVANIZED FLASHINGS

Multi-Size 4N1® Galvanized Steel Base Roof Flashings

81711

- 20 mil galvanized steel base
- 4 sizes in 1 for on-the-job convenience — fits pipes 1-1/4" to 4"
- Can be installed on 12/12 pitch roofs or higher dependent on vent pipe size, see specification sheet
- Large base and nailing flange for extra coverage in freeze-thaw climates

PRODUCT	DESCRIPTION	MODEL	UPC	CASE	PALLET
81711	4N1 12" x 16" Base – Mill Finish	GB41	012181817117	20	720

Caution: Ensure any sealant, mastic, or adhesive used is compatible with Flexible PVC, Polypropylene, EPDM, and Silicone. Do not apply any substances on the collar portion of the flashing.

PERMA-BOOT FLASHINGS

HIGH PERFORMANCE ROOF FLASHING

Fast, reliable repair for as long as you need it.

The most common cause of roof leaks is caused by a worn gasket around vent pipes that penetrate the surface of the roof. This allows water into the home, potentially causing significant property damage.

The Perma-Boot® vent pipe flashing system was engineered specifically to repair and prevent this type of leak with a patented gasketless design.

Long-Term Leak Protection

Perma-Boot® vent flashing is made of a durable and weather-resistant plastic, engineered to provide permanent protection from costly vent pipe gasket leaks.

Product Features

- Made from a UV stabilized polymer for enhanced durability
- Installs in minutes, no tools required
- Available in black or brown to match a variety of roofing materials
- Suitable for asphalt shingles, wood shake, slate, and composite roofing materials

82875

Repair Models

These options are designed to quickly and easily fit over worn or leaking existing pipe and flashings without having to remove shingles or worn out collar. No tools are required!

Mushroom Vent Cap

81753

- Fully assembled for easy installation
- Made from heavy-duty PVC that stands up to rain, hail, snow, and UV rays
- Stainless steel hex head bolts are corrosion resistant
- Charcoal gray cap complements any type or color roof
- Product can be installed on 3" or 4" Schedule 40 pipe
- Will work on other exterior pipes that need protection

PRODUCT	DESCRIPTION	MODEL	UPC	CASE	PALLET
81753	Mushroom Vent Cap for 3- or 4-inch pipes	34MCL	012181817537	5	750

Caution: Ensure any sealant, mastic, or adhesive used is compatible with Flexible PVC, Polypropylene, EPDM, and Silicone. Do not apply any substances on the collar portion of the flashing.

Multi-Size 4N1™ Rain Collar

- Can be used to repair the elastomer sealing collar on all types of residential "no caulk" roof vent flashings quickly and easily
- Eliminates the need for a mastic or caulking type messy repair job
- Can be used to instantly repair a leak during a wet period, until the flashing can be replaced at a later time

- Large size covers the entire existing elastomer collar
- Fully tested for ultraviolet, ozone and weather resistance
- Individual sizes and multi-size adjustable models available
- Better appearance than a mastic

Caution: Ensure any sealant, mastic, or adhesive used is compatible with Flexible PVC, Polypropylene, EPDM, and Silicone. Do not apply any substances on the collar portion of the flashing.

Type B Vent Flashings

- 28 gauge G-90 ASTM-A653 CS Galvanized steel
- Conical shape allows adjusting from 0/12 to 8/12 roof pitch
- Steep pitch models adjust from 8/12 to 12/12 roof pitch
- Cone and base seams have sealant on the inside of flashing
- Complies with ANSI / UL 441

Multi-Cap™ Type B Vent Caps

- Recommended for flue, hot stack, or Type B installations.
- Constructed from heavy-duty aluminum for durability.
- Resists rust and corrosion, ensuring long-lasting performance.
- Prevents weather, debris, and birds from entering the flue
- Non-clogging positive draft design
- Clamp fittings adjustable for all standard sizes
- Aluminum construction
- Complies with ANSI / UL 441

SMARTVENT™ ATTIC INTAKE & EXHAUST

IMPROVE YOUR EAVE INTAKE

EASIER INSTALL

SmartVent™ is light weight, nail gunnable, easy to cut with a knife and keeps the roofer on the roof.

LIFETIME WARRANTY

SmartVent™ carries a warranty for the lifetime of the roof on which it is installed.

UNMATCHED VERSATILITY

SmartVent™ offers a continuous venting area that can be used all the way up the roof from eave to ridge.

BETTER SOLUTION

SmartVent™ is unnoticeable from the ground, provides cross-channel airflow to the exhaust vents and is an alternative for soffits that could be blocked.

ICC-ES APPROVED

ESR-2484

SmartVent Off Peak

SmartVent

- Use on eaves, mid-roof, off-wall, shed-wall, off-peak, dormer and valley
- Intake or exhaust for all climates
- 9 square inches of NFA per linear foot (18 when used on both sides)
- Tapered for a natural look
- Fabric Weather Guard protects against rain and snow infiltration

PRODUCT	DESCRIPTION	MODEL	UPC	CASE	PALLET

THE ALL-PURPOSE INTAKE & EXHAUST SOLUTION

MID-ROOF & OFF WALL

SHED ROOF

DORMER PEAK

SMARTRIDGE™ HIP & RIDGE VENTILATION

SmartRidge™ I

One Sided Ridge Ventilation

IPS SmartRidge™ I is the most efficient ridge exhaust system. By exhausting air on one side, the SmartRidge™ I siphons 100% attic exhaust without pulling in exterior air, rain, snow or ice from the opposite side of the vent. The SmartRidge™ I produces a natural look with no street side lift making it the most effective and cleanest looking ridge vent system.

SmartRidge™ II

Two Sided Hip & Ridge Ventilation

IPS SmartRidge™ II is a versatile vent that can be used for hip and ridge ventilation. Equipped with protective weather fabric, the SmartRidge™ II prevents rain, sleet and snow from penetrating the attic and damaging the roof structure. SmartRidge™ II cuts with a utility knife and can be hand or nail gunned for easy install.

SMARTRIDGE™ HIP & RIDGE VENTILATION

ValleyVent™

80756

- Provides airflow in difficult-to-ventilate and obstructed areas
- Polyethylene construction is easy to handle and install
- Helps prevent ice dams, "hot spots" and mold growth
- Increases the efficiency of the ventilation system

PRODUCT	DESCRIPTION	MODEL	UPC	CASE

SnapCap™

Bathroom, Kitchen, & Dryer Exhaust Vent Cap

SnapCap™ is the highest performance, most versatile bathroom, kitchen, and dryer exhaust vent cap available. Equipped with a counterbalanced damper, SnapCap works with any CFM fan and provides a secure connection to 3", 4" and 6" flexible or rigid duct. SnapCap™ is constructed of heavy gauge aluminum or galvanized steel to provide unmatched durability and is backed by a Life of the Roof™ warranty. Each SnapCap™ package includes an adapter set and cable tie.

Low-Profile, Durable Gauge Design

SnapCap™ has a lower profile on the roof and a heavier gauge base and housing for improved aesthetics and increased performance. SnapCap™ is available in aluminum and galvanized steel.

Easy "Snap-In" Installation

SnapCap™ adapters easily snap into the vent cap for a secure connection. Easily connect ductwork with a cable tie, duct tape, or a sheet metal screw

Galvanized Steel SnapCap™

- All-Flow™ capability: patented counterbalanced damper works with any CFM fan
- 3", 4", & 6" adapters for multiple application sizes
- Heavy gauge flange and housing
- Three powder coated finishes available
- Adapter set and cable tie included with each SnapCap™

COMMERCIAL ROOFING PRODUCTS

APE-2000 One-way Air Pressure Equalizer

99100

Recommended for all types of roofing systems.

NOTE: Available with or without one-way insert. Also available with removable caps (please specify).

- .063 gauge aluminum
- "One-way air pressure equalizer" vent system
- Constructed of heavy gauge aluminum
- Fully insulated to eliminate condensation
- Engineered to withstand extended exposure to the elements without deterioration

- Will reduce the risk of ballooning, blow-offs, graver spreading, deterioration of roof insulation and deck seam separation
- 20-year warranty

Cap Height: 4.25"

Ballard JL-10 One-way Vent

99104

Recommended for all types of roofing systems.

- .063 gauge aluminum
- "One-way" vent system
- Constructed of heavy gauge aluminum, and fully insulated to eliminate condensation
- One piece spun aluminum construction eliminates the possibility of split seams and blown off caps

- Layer of one-way fabric allows moisture and air to escape, but not to enter the roofing system
- Unlike other vents on the market, there are no moving parts to wear out or clog due to insects or debris
- 20-year warranty
