Peer Review Problem: Paper Mills

"Cookie Factory" by [timshortt](#) is licensed under [CC BY-SA 2.0](#).

- Profit-oriented
- Potentially illegal organizations
- Sell and produce fraudulent manuscripts
- May also handle submitting the article(s)
- Usually produce large outputs at scale
- May be similar in layout, approach, and have similar images or figures.

Ethical Peer Review: What's the Point?

Potential Consequences

- Conflict of Interest
- Replication in real world
- Retractions
- Ethical investigations

A Peer Review Problem

- Finding peer reviewers is a perennial challenge
- Researchers have less time
- Tendency to re-use reviewers
- Younger researchers lack confidence and experience

Peer Review Workshop

- Two-hour workshop teaches how to review submissions
- Workshop requires completion of pre-workshop exercise
- Learn the role and responsibilities of a peer reviewer
- Receive personalized instruction from a team of experienced researchers and authors
- Work with a group of individuals with similar backgrounds to gain skills to become a confident reviewer

At Completion

**Participants are often ready for
our mentorship program**

Peer Review Mentorship Program

- Targeted program educating early career professionals and PhD candidates
- Selective 6-month training program
- Connect with an experienced mentor
- Work virtually and at a custom pace
- Peer review an unpublished paper as capstone

Outcome

**Enroll with journal as a peer reviewer
and receive recognition**

What is our long-term goal?

- **Grow and diversify** the pool of reviewers
- **Provide opportunities** for young professionals
- **Provide pathways** for individuals to remain involved with the scientific community and our Societies
- Help **foster valuable professional relationships** between experienced professionals and early career scientists
- **Ensure that all peer reviewers provide expert and objective reviews of the research papers we publish**
