# ECONOMIC CHARACTERISTICS

## Income

	Jefferson County	Kentucky
Median Household Income (in 2016 dollars)	\$50,099	\$44,811
Change since 2000 Census (inflation-adjusted)	-12%	-8%

## SNAP and Public Assistance

The Supplemental Nutrition Assistance Program (SNAP), formally called Food Stamps, is a Federal program that provides nutrition benefits to low-income individuals and families that are used at stores to purchase food. A household is eligible for SNAP benefits if the household's income falls at or below 130% of the federal poverty level. Households are counted in this measure if any individual in the household received SNAP benefits in the last twelve months.

Public assistance income includes general assistance and Temporary Assistance to Needy Families (TANF). In Kentucky, the TANF program is the Kentucky Transitional Assistance Program (KTAP), which has income and resource limits for eligibility. Public assistance income does *not* include medical vendor payments, SSI income, or non-cash benefits (such as public housing, Medicaid, and food stamps). Households are counted in this measure if any individual in the household received cash public assistance in the last twelve months.

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Households receiving SNAP Benefits	43,764	14%	290,270	17%
Households with public assistance income	8,468	3%	40,810	2%

## Vehicles Available

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Households with no vehicle	31,017	10%	133,316	8%

Data Source: U.S. Census Bureau, 2012-2016 American Community Survey

# ECONOMIC CHARACTERISTICS

## Poverty Status

Poverty status is determined by comparing a family's income to defined income thresholds that vary by family size and composition. If a family's total income is less than the established threshold for a family of that size, then that family and every individual in it is considered in poverty. The official poverty thresholds do not vary geographically, but they are updated for inflation annually. The official poverty definition uses money income before taxes and does not include capital gains or non-cash benefits (such as public housing, Medicaid, and food stamps).

The 2016 Poverty Guidelines as established by the U.S. Department of Health and Human Services:

<u>Number of persons in household</u>	<u>Poverty guideline</u>
1	\$11,880
2	\$16,020
3	\$20,160
4	\$24,300
5	\$28,440
6	\$32,580
7	\$36,730
8	\$40,890

## Poverty Status of Families

	<u>Jefferson County</u>		<u>Kentucky</u>	
	<u>Estimate</u>	<u>Percent</u>	<u>Estimate</u>	<u>Percent</u>
Families below federal poverty line (FPL)	20,980	11%	162,371	14%
Families below 150% of the FPL	34,830	19%	265,317	23%
Families below 185% of the FPL	45,179	24%	337,105	30%
Families below 200% of the FPL	49,728	27%	368,266	32%
Families with related children below FPL	16,707	19%	118,969	22%

Total Not in the labor force, age 16 and over	207,404	34%	1,425,632	41%

Data Source: U.S. Census Bureau, 2012-2016 American Community Survey

An **unemployed** person is someone who does not have a job, but is actively looking for a job and is available for work. The unemployment rate is calculated as the number of unemployed persons in an age group divided by the sum of the number of employed and unemployed persons in that age group.

A person who is **not in the labor force** is someone who does not have a job, and is not looking for one. This includes students, retirees, those taking care of children or other family members, and others who are neither working nor seeking work. The rate of labor force participation is calculated as the number of persons not in the labor force in an age group divided by the population in that age group.

Licensed and certified child care capacity	38,484	-	166,254	-
Children receiving child care assistance (CCAP)	7,470	-	26,775	-

## Early Childhood Support Services (2015-2016)

The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) provides federal funds for supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, and to infants and children up to age five who are found to be at nutritional risk.

First Steps is a statewide early intervention system that provides services to children with developmental disabilities from birth to age 3 and their families. First Steps is Kentucky's response to the federal Infant-Toddler Program. First Steps offers comprehensive services through a variety of community agencies and service disciplines for children with developmental delay.

The Kentucky Health Access Nurturing Development Services (HANDS) program is a voluntary home visitation program for any new or expectant parents. HANDS supports families as they build healthy, safe environments for the optimal growth and development of children. HANDS provides support throughout pregnancy and the first two years of a child's life for families facing multiple challenges and burdens.

	Jefferson County	Kentucky
Children receiving WIC	11,073	83,354
Families served by the First Steps program	757	4,237
Families served by the HANDS home visitation program	678	10,697

# HOUSING CHARACTERISTICS

## Subsidized Housing (2017)

Since passage of the U.S. Housing Act of 1937, the federal government has provided housing assistance to low-income renters. Generally, households pay rent equal to 30 percent of their incomes while the federal government pays the remainder of rent. To qualify for a subsidy, an applicant's income must initially fall below a certain income limit. Assistance provided under HUD programs falls into three categories: public housing, tenant-based, and privately owned project-based.

In public housing, local housing agencies receive allocations of HUD funding to build and operate housing. The housing is owned by the local agencies. Low-income renters may receive assistance only if they agree to live at a particular public housing project.

The housing choice voucher program is a tenant-based assistance program, which allows participants to find and lease housing in the private market. Subsidies are provided to the landlord to supplement the rent paid by low-income households. Under tenant-based programs, assisted households may move and take their subsidy with them. By contrast, subsidies provided to landlords within project-based programs are tied to the rental unit. The subsidy arrangement is termed project-based because the assisted household may not take the subsidy and move to another location. Unlike public housing, project-based units are built and operated by private landlords. The largest project-based program is the Section 8 program.

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Total subsidized units	21,032	-	84,420	-
Percent occupied	-	89%	-	91%
Public housing units	4,413	21%	22,401	27%
Percent occupied	-	87%	-	94%
Housing choice voucher units	10,860	52%	36,624	43%
Percent occupied	-	87%	-	87%
Project-based section 8 units	4,751	23%	23,017	27%
Percent occupied	-	95%	-	93%

# HOUSING CHARACTERISTICS

## Housing Cost Burden

According to the U.S. Department of Housing and Urban Development, households that spend more than 30% of their income on housing are considered cost burdened and may have difficulty affording necessities such as food, transportation, and medical care.

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Renters paying 30% or more of income on housing costs	52,840	47%	237,142	47%
Owners paying 30% or more of income on housing costs	37,824	20%	219,639	19%

Note: Housing costs as a percentage of income is only calculated for households that pay rent and report income.

Data Source: U.S. Census Bureau, 2012-2016 American Community Survey

## Severe Housing Problems (2010-2014)

The U.S. Department of Housing and Urban Development, defines severe housing problems as households with at least one or more of the following housing problems:

1. housing unit lacks complete kitchen facilities;
2. housing unit lacks complete plumbing facilities;
3. household is severely overcrowded; or
4. household is severely cost burdened.

Severe overcrowding is defined as more than 1.5 persons per room. Severe cost burden is defined as monthly housing costs (including utilities) that exceed 50% of monthly income.

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Households with severe housing problems	47,880	16%	244,740	15%

Note: Housing cost burden is only calculated for households that pay rent and report income.

Data Source: HUD, Comprehensive Housing Affordability Strategy, 2010-2014

# HEALTH CHARACTERISTICS

## County Health Rankings (2017)

The County Health Rankings measure the health of nearly all counties in the nation and rank them within states. Kentucky's counties are ranked from 1-120.

The Health Outcomes overall ranking represents how healthy a county is. It is derived from two types of health outcomes: how long people live (length of life) and how healthy people feel while alive (quality of life).

The Health Factors overall ranking represents what influences the health of a county. It is derived from four types of health factors: health behaviors, clinical care, social and economic factors, and the physical environment. In turn each of these factors is based on several measures:

Health Behaviors	Clinical Care	Social and Economic Factors	Physical Environment
■ Alcohol and drug use	■ Access to care	■ Community Safety	■ Air and water quality
■ Diet and exercise	■ Quality of care	■ Education	■ Housing and transit
■ Sexual activity		■ Employment	
■ Tobacco use		■ Family and Social Support	
		■ Income	

### Jefferson County

Health Outcomes overall ranking (out of 120)	28
Health Factors overall ranking (out of 120)	57

# HEALTH CHARACTERISTICS

## Health Insurance Coverage

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Population under 6 years without health insurance	1,537	3%	13,663	4%
Population under 18 years without health insurance	5,063	3%	47,178	5%
Total population without health insurance	65,333	9%	415,778	10%

Data Source: U.S. Census Bureau, 2012-2016 American Community Survey

## Disability Status

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Population with a disability	108,826	14%	745,988	17%

Data Source: U.S. Census Bureau, 2012-2016 American Community Survey

## Violent Crime (2012-2014)

	Jefferson County	Kentucky
Number of violent crimes	4,241	9,438
Violent crime rate per 100,000 population	562	215

Note: Violent crime is defined as cases of reported homicide, rape, robbery, and aggravated assault within the Part 1 Uniform Crime Report (UCR) hierarchy.

Data Source: County Health Rankings 2017

# HEALTH CHARACTERISTICS

## Food Access (2015)

	Jefferson County		Kentucky	
	Estimate	Percent	Estimate	Percent
Population who are low income and do not live close to a grocery store*	34,653	5%	255,593	6%
Census tracts designated a food desert*	13	7%	131	12%
Population who are food insecure <sup>+</sup>	122,030	16%	699,590	16%
Children who are food insecure <sup>+</sup>	29,190	17%	202,050	20%

Population who are low income is defined as living at or below 200 percent of the federal poverty line. Not living close to a grocery store is defined as living further than one mile from a full service grocery store in urban areas and living further than ten miles from a full service grocery store in rural areas.

Food deserts are defined at the census tract level, when the tract is considered low income and low access. A tract is considered low income if the tract's poverty rate is 20% or greater, or if the tract has a median family income less than or equal to 80% of the metropolitan area's median family income. A census tract is considered to have low access if a significant number (at least 500 people) or share (at least 33%) of individuals in the tract is greater than one mile from the nearest grocery store in urban areas or greater than ten miles from the nearest grocery store in rural areas.

\*Data Source: U.S. Department of Agriculture, Food Access Research Atlas

Food insecurity refers to a lack of access, at times, to enough food for an active, healthy life for all household members and limited or uncertain availability of nutritionally adequate foods. Food-insecure households are not necessarily food insecure all the time. Food insecurity may reflect a household's need to make trade-offs between important basic needs, such as housing or medical bills, and purchasing nutritionally adequate foods.
