## The Firesign Theatre

**Peter Bergman, Phil Austin, David Ossman and Phil Proctor** teamed up in the '60s to create some of the most profound, hilarious, and influential recordings in radio's history. They've inspired whole generations of comedy, and after 30 years, millions still look around and grin when a total stranger quotes, "he's no fun, he fell right over!"

Taking radio theatre into the multitrack studio, Firesign liberated the artform, sending it so far into the future that we're all still catching up. Their productions are so densely packed with ideas, cross-references, and layers of jokes that there's new laughs and discoveries even on the thirtieth listening.

The Firesign Theatre re-formed in 1993, and created **MORE SUGAR** in partnership with **LodesTone** to meet the demand for Firesign's wit and wisdom.

We present this timeless story as a modern operetta inspired by Herbert Mason's brilliant verse narrative published in 1970.

## The Atlanta Radio Theatre Company

"There is adventure in sound..."

Since 1984, the Atlanta Radio Theatre Company, or ARTC, has been performing, recording, and broadcasting dramatic audio.

They specialize in classic old-time radio, as it would sound with today's technology and dramatic techniques.

Although ARTC is best known for their adaptations of the works of H P Lovecraft, their performance portfolio covers a wide range of subject matter. From the horror of Lovecraft, to the seminal science fantasy of H G Wells, to their own original works in dark fantasy, science fiction, romance, pulp adventure, parody and humor; wherever your imagination can take you... You can also find ARTC romance production "The Hoyden" on page 21 of this catalog. Their horror masterpieces are listed on this page!

All ARTC does is set the scene in your mind. ARTC gives you voices, sound effects, ambient atmosphere:

You build the sets, you give faces to the voices, you design the costumes.

This is truly the "Theater of the Mind."
