## ABOUT RED BULL NEW YORK

### ACERCA DE RED BULL NEW YORK

Red Bull New York is one of 18 teams that comprise the top-flight professional soccer league in the United States – Major League Soccer. On the field, the team is led by World Cup, European Championship and UEFA Champions League winner Thierry Henry, and his former Barcelona teammate, Mexican National Team Captain Rafa Márquez. The team is coached by second year leader Hans Backe, a finalist for the league's Coach of the Year award in 2010. Red Bull New York is owned by Red Bull GmbH, an Austrian company that produces the world's leading energy drink.

In March 2010, the Red Bulls moved into their new home, Red Bull Arena, a 25,000-seat soccer-specific stadium in Harrison, New Jersey. Red Bull Arena was voted the best arena in the MLS by fans according to a poll conducted by MLSsoccer.com. The stadium opened on March 20, 2010, when the Red Bulls defeated Brazilian club Santos FC by a 3-1 score. Newcomer Joel Lindpere's 11th minute goal was the first ever goal scored at the stadium. Seven days later, the Red Bulls played their first MLS match at Red Bull Arena, and were victorious again thanks to Lindpere, who provided the lone goal in a 1-0 victory against Chicago.

The 2010 season was a historic one, as the Red Bulls completed the best single season turnaround in Major League Soccer history. The Red Bulls rebounded from the 2009 season by setting MLS-best marks in win increase and point increase in back-to-back seasons. The 2010 Red Bulls won 10 more matches in 2010, amassing 15 victories and 51 points while topping the Eastern Conference. The regular season Eastern Conference title was the second such feat in the club's 15 year history.

The year was highlighted by the midseason addition of two international superstars. On July 14, the club announced the signing of Henry, who notched two goals and three assists in 11 league games. Just weeks later, on August 2, the club acquired Marquez. Márquez helped the Red Bulls finish atop the Eastern Conference, picking up a goal and an assist in ten regular season appearances. Aside from the high-profile mid-season acquisitions, the Red Bulls' turnaround due largely in part to the performance of other new faces. Estonian International Lindpere was one of the league's top newcomers, and led the club in assists with six while also notching three goals. Rookie defender Tim Ream had an astounding first professional season, and was a finalist for the league's Rookie of the Year award. Ream led MLS outfield players in minutes played, having not missed a single minute of the entire season.

*Red Bull New York es uno de los 18 equipos que componen la Liga Profesional de fútbol en los Estados Unidos - Major League Soccer. En el campo, el equipo está dirigido por el ganador de la Copa del Mundo, Campeonato de Europa y la UEFA Champions League Thierry Henry y su ex compañero de Barcelona y Capitán del Equipo Nacional Mexicano Rafa Márquez. El equipo es entrenado por segundo año por uno de los finalistas para el Premio Entrenador del Año de la Liga en el 2010, Hans Backe.*

*En marzo del 2010, los Red Bulls se mudaron a su nueva casa, el Red Bull Arena, un estadio específico de fútbol de 25.000 asientos, situado en Harrison, Nueva Jersey. Red Bull Arena fue elegido como el mejor escenario en la MLS por los aficionados de acuerdo a una encuesta realizada por MLSsoccer.com. El estadio abrió sus puertas el 20 de marzo del 2010, cuando los Red Bulls derrotaron al club brasileño Santos FC por un marcador de 3-1. El recién llegado Joel Lindpere convirtió en el minuto 11 el primer gol en el estadio. Siete días más tarde, los Red Bulls jugaron su primer partido de la MLS en el Red Bull Arena y obtuvieron la victoria gracias de nuevo a Lindpere, que proporcionó el único gol en la victoria por 1-0.*

*La temporada 2010 fue un acontecimiento histórico, ya que Red Bulls completó el mayor giro registrado por un equipo en la historia de la Major League Soccer. Los Red Bulls se recuperaron de la temporada 2009 pasando del último lugar ese año al primero en la temporada regular. En el 2010 los Red Bulls ganaron diez partidos más acumulando 15 victorias y 51 puntos, encabezando la Conferencia del Este. Ganaron el título de la temporada regular de la Conferencia del Este por segunda vez en la historia de 15 años del club.*

*El año se destacó por la adición en mitad de temporada de dos grandes estrellas internacionales. El 14 de julio, el club anunció la firma del delantero francés Thierry Henry. Henry, ganador de una Copa del Mundo, Copa de Europa, la UEFA y de la Liga de Campeones, anotó dos goles y tres asistencias en 11 partidos de liga. Pocas semanas después, el 2 de agosto, el club hizo oficial la firma del Capitán del Equipo Nacional Mexicano Rafa Márquez. Márquez ayudó a los Red Bulls a terminar en la cima de la Conferencia Este, marcando un gol y una asistencia en diez apariciones de temporada regular. Además de las adquisiciones a mitad de temporada de alto perfil, la gran actuación de los Red Bulls fue en gran medida gracias a algunos recién llegados. El internacional estoniano Joel Lindpere fue uno de ellos liderando al club en asistencias, seis y marcando además tres goles. El novato defensor Tim Ream tuvo una asombrosa primera temporada profesional, siendo finalista para el premio 'Rookie of the Year'. Ream no perdió un solo minuto de juego en toda la temporada de la Liga.*

### SOBRE RED BULL ARENA

Red Bull Arena changed the landscape of American soccer stadiums when it opened on March 20, 2010 when the Red Bulls hosted legendary Brazilian club, Santos. Located in Harrison, NJ, Red Bull Arena, a completely privately funded project, gives spectators across the tri-state area a one-of-a-kind sporting experience, with modern facilities and premier events to entice every soccer fan in the region. Red Bull Arena will host to the 2011 MLS All-Star Game on July 27 and a CONCACAF Gold Cup doubleheader June 13.

Key to the design is the way the arena is structured to create atmosphere, as fans in the front row are just seven yards from the touchlines. In addition, the two arena seating levels are designed to provide fans a very compact, close-to-the-action feeling.

Also key to the design is its dynamic form roof – a curving structure that wraps the entire stadium in an elegant shell. The unique roof design creates a distinguished identity and atmosphere for Red Bulls fans. It extends from its leading edge over the entire seating bowl and then curves down to the concourse, creating the dominant architectural statement of power and elegance. The roof extends 120 feet from the last seat to just over the field's touchlines, with 60 feet of the roof being translucent, letting in natural light.

Red Bull Arena also has two video boards suspended from the roof at each end of the building, and a 360 degree fascia message board, as well as video flat-screen panels throughout the arena for event viewing. The venue also has unique media seating, as members of the media are located in the 100 Level directly behind the player benches, placing them right in the atmosphere and action. #### TRADITIONAL SEATS

Traditional Seats make up most of the non-premium seating areas throughout Red Bull Arena. Seats are individual 'flipup' seats with chair-backs, and the low-profile design of each seat provides more room to move throughout each row. At the highest point of the 100 Level sections, there are just 17 rows of seating, and at the highest point of the 200 Level (midfield section) there are just 23 rows. This means no matter where you decide to sit you will be closer to the action than ever before!

Our supporters clubs are made up of three unique groups: The Empire Supporters Club (ESC), The Garden State Supporters (GSS) and Viking Army. All three groups will be sitting together in the South Ward, the south end of the arena across the three (3) 100 Level sections behind the goal. If you prefer to stand and sing throughout the match, then this is where you need to be! More information on all three groups can be found at [newyorkredbulls.com](http://newyorkredbulls.com) and you can decide for yourself which group you would like to join.

Club Seats are located on the 100 Level, directly adjacent to the team benches on the west side of Red Bull Arena. Approximately 1,000 seats have been designated as Club Seats, making up just 4% of Red Bull Arena's total capacity. Backe returns for his second season as head coach. In his first season at the helm, Backe led the Red Bulls to the biggest single season turnaround in Major League Soccer history, taking the club from the bottom of the table in 2009 to the Eastern Conference regular season championship in 2010. Backe turned New York into a defensive force, as the team led the Eastern Conference in goals against, and Backe's 2010 Red Bulls allowed the fewest goals in franchise history (29). For his successes, Backe was a finalist for the MLS Coach of the Year award.

Backe was named head coach by the club on Jan. 7, 2010. He has enjoyed success in a number of European leagues, capturing four Danish titles with FC Copenhagen (2000-01, 2002-03 and 2003-04) and Aalborg BK (1998-99). He also won the Danish Cup in 2004 and the Danish Super Cup in 2001 and 2004 with Copenhagen. Backe was with Aalborg from 1998-2000 and headed Copenhagen from 2001-05.

The 59-year-old Swede joined the Red Bulls after a short stint with English League Two side, Notts County. Prior to being hired by Notts County, Backe worked as an assistant manager at Manchester City in the English Premiership with former England National Team manager, Sven-Goran Eriksson, from 2007-08. Backe later joined Eriksson's staff when Eriksson became the Mexican National Team head coach on June 3, 2008.

Backe started his illustrious career with Swedish club, Djurgardens IF, before moving to other major teams in Scandinavia including Stabek, Hammarby IF, Osters IF and AIK. He has also coached at SV Salzburg and Greek Super League team, Panathinakos. Before coaching, Backe played professionally for a number of Swedish clubs, including AIK and IF Brommapojkarna. Backe also worked as a soccer analyst and commentator for Swedish TV4 and was an advisor to Osters IF.

*Backe regresa para su segunda temporada como Director Técnico. En su primer año al frente, llevó a los Red Bulls a la mayor vuelta en la historia en una sola temporada en la Major League Soccer, pasando el club del fondo de la tabla en el 2009 a ser campeones de la temporada regular de la Conferencia del Este en el 2010. Backe transformó a Nueva York en una gran fuerza defensiva, ya que el equipo fue líder de la Conferencia del Este en goles en contra en el 2010 permitiendo la menor cantidad en la historia del equipo (29). Por sus éxitos fue nombrado como finalista para el Premio 'Entrenador del Año de la MLS'.*

*Backe fue nombrado Director Técnico por el club el 7 de enero del 2010. Ha disfrutado del éxito en una serie de ligas europeas, capturando cuatro títulos con el FC Copenhagen danés (2000-01, 2002-03 y 2003-04) y Aalborg BK (1998-99). También ganó la Copa danesa en el 2004 y la danesa Supercopa en el 2001 y 2004 con Copenhagen. Luego estuvo con Aalborg desde 1998-2000 y posteriormente dirigió al Copenhagen del 2001-05.*

*El sueco de 59 años de edad, se unió a los Red Bulls después de un breve período con el equipo inglés Notts County de la League Two. Antes de ser contratado por el Notts County, trabajó como asistente del Manager en el Manchester City en la Liga Premier Inglesa con el ex manager de la Selección Nacional de Inglaterra, Sven-Goran Eriksson entre el 2007-08. Más tarde se unió al personal de Eriksson cuando éste se convirtió en el Director Técnico de la Selección Nacional de México el 3 de junio del 2008.*

*Backe comenzó su ilustre carrera con el club sueco, Djurgardens IF, antes de trasladarse a otros equipos importantes en los países escandinavos como Stabek, Hammarby IF, Osters IF y el AIK. También ha entrenado al SV Salzburg y al equipo de la Super Liga griega, Panathinakos. Antes de ser Director Técnico, jugó profesionalmente por varios clubes de Suecia, incluyendo AIK y el IF Brommapojkarna. También trabajó como analista de fútbol y comentarista de la TV4 de Suecia y fue consultor para Osters IF.*

## CARLOS MENDES

DEFENDER #44

<b>Pronunciation:</b>	MEN-dez
<b>Height:</b>	5-11
<b>Weight:</b>	178
<b>Born:</b>	Dec. 25, 1980
<b>Hometown:</b>	Mineola, NY
<b>College:</b>	Old Dominion University
<b>Previous Club:</b>	Rochester Raging Rhinos (USL-1)
<b>How Acquired:</b>	Signed March 21, 2005

After missing much of the 2009 season due to a severe hip injury, Mendes returned to action in 2010 with perhaps his best season since joining the club. The longest tenured Red Bull took over a starting spot in central defense midway through the season, and helped the New York defense become the stingiest in the Eastern Conference. In 2011, the veteran, known for his physical and cerebral game, will continue to be an important part of the defense as the team looks to replicate its performance of a year ago.

*Después de perder gran parte de la temporada 2009 debido a una severa lesión en la cadera, Mendes volvió a la acción en el 2010, con quizás su mejor temporada desde que llegó al club. El jugador con más partidos como titular de los Red Bulls se hizo cargo de un puesto como titular en el centro de la defensa a medio camino a través de la temporada y ayudó a la defensa de Nueva York a ser la mejor en la Conferencia Este. En el 2010 el veterano defensa seguirá siendo una parte importante ya que el equipo busca repetir sus resultados de año anterior.*

## NEW YORK RED BULLS LAMAR HUNT U.S. OPEN CUP

Created in 1914, the Lamar Hunt U.S. Open Cup is the oldest soccer competition in the United States. The single-elimination tournament, which is similar to the prestigious English FA Cup, is open to all amateur and professional teams affiliated with the United States Soccer Federation (U.S.S.F).

The competition was re-named the Lamar Hunt U.S. Open Cup in 1999, in honor of the late Columbus Crew and FC Dallas owner-operator Lamar Hunt. New York began their participation in the Cup in 1997.

The U.S. Open Cup has taken the Red Bulls to play in various places such as Virginia, Tennessee, Louisiana, North Carolina and South Carolina.

## RED BULLS PLAYER DEVELOPMENT

### SISTEMA DE DESARROLLO DE JUGADORES DE RED BULLS

The New York Red Bulls Player Development System is a multi-layered program that provides a professional training environment for youth players. The programs are operated as part of the Red Bulls global approach to player development. With academies in Austria, Germany, Brazil, Ghana and New York, the Red Bulls are able to draw on extensive support and expertise to offer the highest level of youth soccer programs in the Tri State area. There are four levels which make up the pyramid. At the base is our Training Programs which serves players at the grassroots level. The next level, our Regional Development School, operates as a satellite program for talented players that are looking for additional training. Additionally, the RDS also acts as a recruitment platform for our academy teams. At the academy level, players are selected to represent Red Bulls teams; where players can ultimately progress to the Red Bulls first team. The Red Bulls have four players who have graduated to the first team, including forward Juan Agudelo, who became the first Academy product to feature for the senior national team.

*El Sistema de Desarrollo de Jugadores de Red Bulls consiste en diferentes niveles de apoyo profesional a los jugadores. Es parte del compromiso de Red Bulls para el desarrollo del fútbol juvenil en el área Tri-Estatal.*

*Cada nivel de la pirámide se ha estructurado para ofrecer un amplio apoyo a los jugadores, entrenadores y organizaciones juveniles.*

*En la comunidad local, se ofrecen programas para jugadores de todas las edades y habilidades. Los jugadores que posean una excelente capacidad futbolística, tendrán la oportunidad de progresar y poder llegar en última instancia al primer equipo de Red Bulls.*

RED BULLS  
**BOB MONTGOMERY**  
DIRECTOR OF YOUTH PROGRAMS

Bob Montgomery enters his fourth year as Director of Youth Programs after joining the Red Bulls on Sept. 1, 2007. In this role, Montgomery oversees the Red Bulls Player Development System, including RBNY's Academy and Grassroots Training Program.

The 2011 season sees the graduation of two more Academy members to the Red Bulls' first team. Former Academy standouts Matt Kassel and Sacir Hot both signed with the Red Bulls prior to the season after successful Academy and collegiate careers.

In 2010, three more players were selected to the United States Under-17 Residency Program in Bradenton, Florida, the prestigious program that has seen the likes of Landon Donovan, Kyle Beckerman, DaMarcus Beasley and Michael Bradley. Last season, Santiago Castano, Russell Canouse and Adam Najem were all selected into the program.

Prior to joining the Red Bulls, Montgomery was the head men's soccer coach at Adelphi University, where he led the Panthers for 29 seasons. Posting a 258-224-39 record, Montgomery guided a program that had consistently been in the Top 25 in the country. He had taken seven of his teams to the NCAA tournament and his 1987 squad made it all the way to the quarterfinals. Montgomery has also led the Panthers to their first Atlantic Soccer Conference regular season and tournament titles, as he won Coach of the Year honors. Montgomery served as an Associate Athletic Director at Adelphi since 1989, where he was responsible for compliance and eligibility for over 250 athletes.

Montgomery, who possesses a USSF 'A' License, was the 1990 New York State Coach of the Year and a Adelphi University Athletic Hall of Fame member. He became involved with the U.S. Youth Soccer Association in 1985 and coached top players from ages ranging from 12 to 19 in Region I. He has also traveled to International events all around the world. Montgomery attended Nassau Community College before transferring to Adelphi. He was a defender for the Panthers from 1972-73 and went on to receive his Bachelor's degree (1975) and Master's degree (1984) from Adelphi.

## RED BULLS REGIONAL DEVELOPMENT SCHOOLS

The New York Red Bulls set the pace for player development in Major League Soccer as the first professional team to boast a satellite based, academy feeder system: the Regional Development School (RDS).

As the benchmark for all professional pre-academy programs, the RDS has graduated over forty five players to the full Academy teams in the past three years alone, with three RDS alumni now representing the U.S. youth national teams.

The RDS offers boys and girls aged 8 - 14 an opportunity to receive supplementary training from New York Red Bulls' professional trainers. Intended solely for competitive and elite travel players, the advanced curriculum is specially designed to target individual, technical aspects of the game, and is widely recognized as the premier training program in the New York / New Jersey area.

Acceptance on the RDS is strictly subject to try-out to ensure the highest level of competition at each location. An open try-out is held for each satellite location a week prior to the start date, with successful participants being invited back to join the training program on a regular basis.

The coaching ratio of 1:12 allows players to receive excellent individual attention and coach interaction, all leading to a comprehensive electronic evaluation at the end of the program. These evaluations provide qualitative feedback that provides parents and coaches with an invaluable tool to aid their player's development, even beyond the conclusion of the course.

An exciting feature of the program is that the highest level players from within the RDS are selected to represent the New York Red Bulls in showcase tournaments across the area. Showcase tournaments offer a one off opportunity for players to represent the Red Bulls' youngest teams in competition, and play in a truly select environment.

The select few who truly excel in the RDS will earn the opportunity to try out for the full Academy teams, which begin at the age of U14. This begins a player's journey towards a career as a professional player in one of the country's premier Academy programs.

Entering Major League Soccer in 2011 as one of two expansion teams, Vancouver Whitecaps FC continues the long legacy of soccer in British Columbia's most populous city. The Whitecaps first played in the North American Soccer League in 1974 and won the league championship in 1979. The club also won four straight Canadian Soccer League titles from 1988 through 1991. The club joined the United Soccer Leagues in 2004 and captured the title in 2006 and 2008. Vancouver was awarded an MLS expansion team on March 18, 2009.

The club won a coin-flip against fellow expansion side Portland Timbers for the right to choose first in the 2011 MLS SuperDraft, and took United States Under-20 forward Omar Salgado. Heading into their first season, the club also signed United States International defender Jay DeMerit, who will serve as the club's first captain. Vancouver Whitecaps FC is coached by former Iceland International Teitur Thordarson, who coached the USL Whitecaps from 2007 through 2010.

The Timbers have been around since they joined the North American Soccer League in 1975, and competed in the league until 1982. In 2001 the club was reborn and played in the United Soccer Leagues until 2010.

Portland also boasts former New York Red Bulls defenders Jeremy Hall and Kevin Goldthwaite. ## 2011 MLS PLAYER RULES AND REGULATIONS SUMMARY

### I. MLS ROSTER COMPOSITION

A Major League Soccer club's first team roster is comprised of up to 30 players. All 30 players are eligible for selection to each 18-player game-day squad during the regular season and playoffs.

#### Salary & Budget:

- ▶ Players occupying roster spots 1-20 count against the club's 2011 salary budget of \$2,675,000, and are referred to collectively as the club's Salary Budget Players.
  - Roster spots 19 and 20 are not required to be filled, and teams may spread their salary budget across only 18 Salary Budget Players. A minimum salary budget charge will be imputed against a team's salary budget for each unfilled senior roster slot below 18.
  - The maximum budget charge for a single player is \$335,000.\*
  - A Designated Player counts \$335,000 against the club's salary budget, unless the player joins his club in the middle of the season, in which case his budget charge will be \$167,500.

\* See section entitled Allocation Money below, under Player Acquisition Mechanisms, for details on buying down a player's budget charge.

- ▶ Players occupying roster spots 21-30 do not count against the club's salary budget, and are referred to collectively as the club's Off-Budget Players (maximum of 10 per team).
  - All Generation adidas players are Off-Budget players.
- ▶ Players occupying roster spots 1-24 will earn at least \$42,000 in 2011.
- ▶ Players occupying roster spots 25-30 will earn at least \$32,600 in 2011.
  - Clubs may elect to leave up to two of these roster spots (25-30) vacant and use \$35,000 for each empty spot as allocation money.
  - Clubs may sign up to two Home Grown Players to Generation adidas contracts.

#### Age Designations:

- ▶ Any player making \$32,600 must be under the age 25 (does not turn 25 or older in 2011).

#### Domestic/International:

- ▶ In 2011, a total of 144 international slots are divided among the 18 clubs. Each club began with eight international slots, which are tradable. There is no limit on the number of international slots on each club's roster.
  - The remaining roster slots must belong to domestic players. For clubs based in the United States, a domestic player is either a U.S. citizen, a permanent resident (green card holder) or the holder of other special status (e.g., refugee or asylum status).
- ▶ The two MLS clubs based in Canada — Toronto FC and Vancouver Whitecaps FC — began with eight international slots, but their domestic slots may be filled with either Canadian or U.S. domestic players.
  - MLS clubs based in Canada are required to have a minimum of three Canadian domestic players on their rosters.
  - Players with the legal right to work in Canada are considered Canadian domestic players (i.e., Canadian citizen, permanent resident, part of a protected class).

**NOTE:** The terms Home Grown and Generation adidas are used to describe mechanisms by which players are acquired. They are not roster designations. All players' roster slots are determined by their compensation and/or age as outlined above.

### II. PLAYER ACQUISITION MECHANISMS

MLS teams may acquire players and add them to their rosters via the following mechanisms:

#### (A) ALLOCATION RANKING

The allocation ranking is the mechanism used to determine which MLS club has first priority to acquire a U.S. National Team player who signs with MLS after playing abroad, or a former MLS player who returns to the League after having gone to a club abroad for a transfer fee. The allocation rankings may also be used in the event two or more clubs file a request for the same player on the same day. The allocations will be ranked in reverse order of finish for the 2010 season, taking playoff performance into account.

Once the club uses its allocation ranking to acquire a player, it drops to the bottom of the list. A ranking can be traded, provided that part of the compensation received in return is another club's ranking. At all times, each club is assigned one ranking. The rankings reset at the end of each MLS League season.

#### Allocation Money

Allocation money is a resource available to clubs in addition to their respective salary budgets.

A club may receive allocation money for:

- (1) failure to qualify for the MLS Cup Playoffs;
- (2) the transfer of a player to a club outside of MLS for value;
- (3) expansion status;
- (4) qualification for the CONCACAF Champions League;

Each year the MLS Competition Committee determines the allocation amount to be made available to each club. Allocation money can be traded by clubs. Allocation money does not count against a club's salary budget and can be used:

- ▶ To sign players new to MLS (that is, a player who did not play in MLS during the previous season).
- ▶ To re-sign an existing MLS player, subject to League approval.
- ▶ To "buy-down" a player's salary budget charge below the League maximum of \$335,000.
- ▶ In connection with the exercise of an option to purchase a player's rights or the extension of a player's contract for the second year provided the player was new to MLS in the immediately prior year.

**NOTE:** To protect the interests of MLS and its clubs during discussions with prospective players or clubs in other leagues, amounts of allocation money held by each club will not be shared publicly. (Similarly, most clubs in other countries do not announce the amount of money they plan to spend during a given transfer window.)

#### (B) DESIGNATED PLAYER

The Designated Player Rule allows clubs to acquire up to three players whose salaries exceed their budget charges, with the club bearing financial responsibility for the amount of compensation above each player's budget charge. Designated Player slots may be used to acquire players new to MLS or to retain current MLS players, subject to League approval.

In 2011, a Designated Player's salary budget charge will be \$335,000, unless the player joins his club in the middle of the season, in which case his budget charge will be \$167,500.

Each club has two Designated Player slots, and clubs are allowed to "purchase" a third Designated Player slot for a one-time fee of \$250,000 that will be

dispersed in the form of allocation money to all clubs that do not have three Designated Players.

Designated Player slots are not tradable.

Clubs have the option of "buying down" the budget charge of a Designated Player with allocation money. The reduced charge may not be less than \$150,000.

#### (C) SUPERDRAFT

The 2011 MLS SuperDraft, held Jan. 13 in Baltimore, Md., consisted of three rounds of 18 picks for a total of 54 player selections. A supplemental draft was held Jan. 18 via teleconference and consisted of three rounds.

The majority of draft prospects are NCAA college seniors who have exhausted their college eligibility. Generation adidas players and non-collegiate international players are also eligible for selection in the SuperDraft and supplemental draft. Clubs may nominate players for the League's draft-eligible list, and only players from that list may be selected.

Generation adidas is a joint program between MLS and adidas that is dedicated to developing exceptional domestic talent in a professional environment. Each year, a handful of top domestic underclassmen and youth national team players are signed to the league and placed in the SuperDraft through this program. Generation adidas players also receive an educational stipend.

**Draft Order:** Through the Expansion Priority Draft, Vancouver Whitecaps FC earned the first selection in the 2011 MLS SuperDraft while the Portland Timbers selected second. The next six selections went to clubs that did not qualify for the 2010 MLS Cup Playoffs beginning with the club with fewest regular season points (3 points per win, one point per tie). The remaining eight positions were ranked by fewest regular season points among the teams that were eliminated in the same round of the MLS Cup Playoffs.

Unless claimed on waivers, a player who was drafted by a particular team through the SuperDraft or supplemental draft and did not sign with the League, is placed on that team's "College Protected List" until the second December 31 following the draft in question, after which the team loses the rights to the player.

#### (D) TRADES

Players, SuperDraft and supplemental draft picks, allocation money, allocation rankings, and international player slots may all be exchanged in trades approved by the MLS League Office, provided all of the necessary rules regarding roster and salary budget compliance are met and the trade is completed during a valid trading period. No trades may occur after the Roster Freeze Deadline of September 15, 2011 at 5 p.m. ET.

#### (E) DISCOVERY SIGNINGS

Clubs may make discovery claims on players not yet under MLS contract who are not subject to the allocation ranking or lottery mechanisms.

Each club has the opportunity to make six discovery signings per season (expansion teams may make 10 discovery signings in their inaugural season). A club may have up to 10 discovery claims on unsigned players at any time and may remove or add players at any time. The last day for discovery player signings is September 15, 2011 — coinciding with the roster freeze date and trade deadline.

The six discovery signings can be used to fill senior roster spots only. If multiple clubs claim the same player using a discovery, the club that filed the claim first will have first rights to the player. Discovery claims expire following each season. If the League and player are unable to reach an agreement during the season, the club that first filed the discovery retains the right of first refusal in the event the player is later signed by the League.

**Note:** To protect interests of MLS clubs in scouting and negotiations with prospective players, the League office will not publicize the names of players

on club discovery lists, nor specify if a discovery claim has been filed on a particular player.

#### (F) HOME GROWN PLAYER SIGNINGS

A club may sign a player to his first professional contract without subjecting him to the MLS SuperDraft if the player has trained for at least one year in the club's youth development program and has met League criteria. Players joining MLS through this mechanism are known as Home Grown Players.

There is no limit to the number of Home Grown Players a club may sign in a given year.

#### (G) RE-ENTRY PROCESS

The 2011 Re-Entry Process will commence after MLS Cup. The priority order for the Re-Entry Draft is reverse order of finish in 2011, taking into account playoff performance.

Available to all teams in Stage 1 of the Re-Entry draft will be:

1. Players who are at least 23 years old and have a minimum of three years experience in MLS whose options were not exercised by their clubs (available at option salary for 2012).
2. Players who are at least 25 years old with a minimum of four years of MLS experience who are out of contract and whose club does not wish to re-sign them at their previous salary (available for at least their 2011 salary).
3. Players who are at least 30 years old with a minimum of eight years of MLS experience who are out of contract and whose club does not wish to re-sign them (available for at least 105% of their 2011 salary).

Players who are not selected in Stage 1 of the Re-Entry Draft will be made available in Stage 2. Clubs selecting players in Stage 2 will negotiate a new salary with the player.

Players who remain unselected after Stage 2 will be available to any MLS club on a first come, first serve basis.

#### (H) WAIVERS

A team may place a player on waivers at any time during the regular season at which point he is made available to all other teams. The waiver claiming period shall commence on the first business day after the League delivers notice to teams and shall expire at 5 p.m. EST on the second business day after the Waiver Period Commencement Date. The claiming period is 48 hours.

The Waiver Draft order is determined via points per game once all teams have played at least three MLS League games. If the waiver takes place prior to all teams playing in at least three League games, priority shall be granted based upon the prior year's performance, taking playoff performance first, with teams eliminated from playoff contention at the same stage separated according to their point totals through the end of the regular season. New expansion teams shall be at the bottom of the waiver order.

Once a team selects a player off waivers, that club is automatically moved to the bottom of the priority list for subsequent waiver selections in a given season, regardless of its points-per-game total. Players who may be placed on the MLS waiver wire are as follows:

- (i) A player waived by an MLS team in the current season;
- (ii) A player who completed his college eligibility within the past season, who was not made available in the SuperDraft or supplemental draft;
- (iii) A player who has remaining college eligibility (and was not made available in the SuperDraft or supplemental draft), but the League at its discretion and after taking into account exceptional circumstances determines the player may be offered an MLS contract;

(iv) A player who has played in MLS previously where his last MLS team does not wish to exercise their right of first refusal, except in the case of returning U.S. National Team players as stated above.

(v) A player who was drafted in the SuperDraft or supplemental draft, and who after a trial with the club is not offered a contract by the first Monday of June.

#### (I) LOTTERY

Some players shall be assigned to MLS teams via the weighted Lottery process. Any team assigned a player through the lottery in any particular season shall not be assigned another lottery player that season unless and until all teams have received a lottery player or have agreed to waive their option to participate in a Lottery. The players made available through lotteries include:

- (i) Generation adidas players signed after the MLS SuperDraft;
- (ii) Draft eligible players to whom an MLS contract was offered but who failed to sign with the League prior to the Draft.

The weighted lottery takes into consideration each team's performance over its last 30 regular season games and the most recent postseason. The team with the worst record over its last 30 regular season games (dating back to previous season if necessary and taking playoff performance into account) will have the greatest probability of winning the lottery. Teams are not required to participate in a lottery. Players are assigned via the lottery system in order to prevent a player from potentially influencing his destination club with a strategic holdout.

#### (J) EXTREME HARDSHIP CALL-UPS

Teams may add players to their roster in cases of "extreme hardship" as follows: (1) a club with three goalkeepers on its 30-man roster, but has less than two available goalkeepers or (2) a team has less than 15 available players. Extreme hardship call-ups are made on a game-by-game basis.

#### (K) SEASON-ENDING INJURY REPLACEMENTS

A team with a player lost to a season-ending injury can replace that player on its roster, while remaining responsible for the full amount of the injured player's salary. A player can be placed on the season-ending injury list once another player has been signed as a replacement (provided the team has budget space). International player limits still apply at the time a season-ending replacement is made (with the player being replaced not counting against those limits).

#### (L) SHORT-TERM INJURY REPLACEMENTS

A team with a player who has a short-term injury can replace that player on its roster, while remaining responsible for the full amount of the injured player's salary. A player can be placed on the short-term injured reserve list once another player has been signed as a replacement (provided the team has budget space). Note that the injured player will have to sit out a minimum of six MLS League matches before he can rejoin the team's roster. International player limits still apply at the time a short-term replacement is made (with the player being replaced not counting against those limits).

NOTE: No changes may be made to a team's active full roster during the period beginning on September 16, 2011 (day after Roster Freeze Date) through the day after MLS Cup. Nevertheless, a team may obtain players in accordance with the extreme hardship rules and procedures to replace players who are injured or otherwise legitimately unavailable after the Roster Freeze Date. Any other replacements after the Roster Freeze Date may only be made in exceptional circumstances in the League's sole and absolute discretion.

### (III.) METHODS OF RELEASING PLAYERS

#### (A) WAIVERS

Teams may waive players based on performance at any time during the MLS season. Players with guaranteed contracts will continue to have their salary budget charge applied to the team salary budget, subject to any settlement. Players on semi-guaranteed contracts can be waived prior to July 1 of any year and free up the corresponding budget space. If a player on a semi-guaranteed contract is waived after July 1, his salary budget charge will count against the team's salary budget and the team waiving the player will not receive a replacement except under the normal player acquisition mechanisms. Any settlement amount will be charged to the team's salary budget.

#### (B) TRANSFERS AND LOANS

An MLS player may be transferred or loaned at any time to a team outside the League (subject to that team's Federation's transfer window), subject to the consent of the player.

The registration windows — the dates between which MLS may request the transfer certificate of a player under contract in another country — are as follows:

- January 21 — April 15 (Primary Window)
- July 15 — August 14 (Secondary Window)

#### (C) CONTRACT EXPIRATION

When a player's contract expires, the player does not count against the roster or budget of the team in question. Subject to the Re-Entry Draft rules, a team retains the rights to the player indefinitely following the expiration of a contract only if attempts were made to re-sign the player.

#### (D) BUYOUT OF GUARANTEED CONTRACT

Teams may have the ability to buyout one guaranteed player as follows:

- ▶ A Team may buy out one (1) guaranteed player (including a DP's) contract during the off-season and free up the corresponding budget space. Such a buyout is at the particular MLS Team's own expense.
- ▶ A Team may not free up budget space with a buyout of a player's salary budget charge during the season. Such a buyout will be conducted by the League and count on a Club's budget in a manner consistent with current MLS guidelines.

#### (IV.) RIGHT OF FIRST REFUSAL

Right of first refusal grants one MLS club the first opportunity to add a player to its roster in the event that the player signs with MLS. Holding a right of first refusal applies only within MLS and does not indicate holding of the player's International Transfer Certificate.

**OUT OF CONTRACT PLAYERS / OPTIONS NOT PICKED UP:** Subject to the Re-Entry Draft rules, a team retains the right of first refusal to the player indefinitely only if attempts were made to re-sign the player.

**DRAFTED BUT NOT SIGNED:** A player who was drafted by a particular team through the SuperDraft or supplemental draft and did not sign, or who as of the first Monday in June is not offered a contract after a trial and clears waivers, is placed on that team's "College Protected List" until the second December 31 immediately following the draft in question, after which the team loses the rights to sign the player.

**PLAYER TRANSFERRED OUTSIDE MLS:** If a team receives allocation money as a result of a player's transfer, the team does not retain a right of first refusal.
