# GAMEDAY INFO

Old Glory DC is proud to call Segra Field in Loudoun County home during the 2021 Major League Rugby Season. The stadium is still under renovations for the next few weeks and we kindly ask you to excuse our mess for the next few games. As we refine our skills on the pitch, we are working to refine our game day experience in our new home.

**There are new guidelines in place this season at our new stomping grounds. Please review the whole guide at [our website](#).**

# LETTER FROM THE OWNERS

Old Glory Family,

Welcome to Major League Rugby 2021. What a feeling to be back!

It has been just over a year since the cancellation of the 2020 MLR season. This has been a difficult year for all of us, and we realize that we are not yet out of the woods with the challenges facing our nation. Today, however, we are on the comeback trail. And, as always, Old Glory intends to be at the vanguard.

Today's game marks the first professional sports event open to fan attendance in the DC area during the 2021 emergence from the pandemic lock-down. For our campaign to secure the 2021 MLR Shield, Head Coach Andrew Douglas has assembled a team comprised very much of the same core of players that leapt to a 4-1 record last year, but with a number of high-impact additions whose presence is sure to be felt on the pitch. Operations Manager John Manson has upgraded the infrastructure backbone of the team, getting the players into living quarters and training facilities that are second to none in MLR. Most notably, our move to Segra Field means we will now present professional rugby to greater Washington in optimal viewing conditions, on a field properly dimensioned and lined for our sport, with a 360-degree seating bowl boasting excellent sight lines from every seat. We can't wait to share the excitement on the pitch with you!

Of course, leadership must be exercised responsibly. As we push forward, we must adhere to strict safety guidelines for the protection of our players, our staff, and you our fans. As a result, you will notice that our first two games will be held in front of restricted-capacity crowds, with firm seating assignments to maintain social distancing, and relatively few game-day activations and celebrations for which Old Glory games are known. We assure you that Old Glory will return to a fully active game-day, complete with kids' play zone, live music, beer garden, in-game entertainment, and a variety of other attractions for the entire family – as soon as allowable under public health and safety regulations.

Until then, on behalf of Scottish Rugby and ourselves, please enjoying the best rugby in North America.

Go Old Glory!

Chris Dunlavey and Paul Sheehy

# LETTER FROM THE COACH

Dear Old Glory Supporters,

It is really great to see you at Segra Field today. It was exciting for players to get onto the field against NOLA Gold last weekend, and although we didn't get the result we wanted, the effort and desire to win could not be questioned.

The players have spoken about how passionate the Old Glory fans are, and the players who are new to the squad this season are excited to get out and play in front of you. The team has had to deal with adversity in the last two weeks, but they have come through it as better men, and it shows the true character of the team.

They are building well for the 2021 season, and we know that Atalanta will be a tough challenge, but we can't wait to play in front of you.

Thank you again for your ongoing support.

Best,

Andrew Douglas

# WELCOME HOME TO SEGRA FIELD!

**Andrew Douglas**  
Head Coach

“

It is a beautiful turf pitch, and having 5,000 fans right alongside the touchline will create a great atmosphere. To have a pitch that allows us to play a wide, expansive game is exciting for players .

### **A new place to call home**

Segra Field, which is located in Leesburg, Virginia, will offer Old Glory's fans the best possible presentation of the sport of rugby, from the properly dimensioned, top-quality turf field, to the clear sight-lines, comfortable seating, and festival-like match day experience that Old Glory fans have come to expect, with activations, a beer garden, and kids' play zone.

# WEEK 2 PREVIEW AGAINST RUGBY ATL

## Rugby ATL Returns for Old Glory DC's Home Debut at Segra Field

**Written by Evan Lappen**  
**Photos by Craig Boudreax**

After battling to a draw versus its first-round opponent, Old Glory DC makes its new home debut at Segra Field in Leesburg, Va. against a familiar adversary on Saturday. DC edged out a 31-29 hard-fought victory over Rugby ATL in the final match last year, and now, the Ratlers return to even the score. The Old Glory defense and scrums highlighted last week's performance; however, DC may have met its equal with Saturday's challenger. It will be a test of whoever breaks first and brings the almighty "W" to its fans. The game will be broadcast on Saturday at 5:00 pm EST on NBC Sports Washington Plus and The Rugby Network.

Although last Sunday's game against NOLA ended in a tie, Old Glory's coaches learned many valuable lessons for the road ahead. The

positives taken from NOLA were the defensive effort, the scrum success, and the retention of the creativity in the backs and thunder in the forwards.

DC was the second busiest team in the MLR on defense with 151 total tackles, with flanker Callum Gibbins leading the team and tied for the league total with 19 tackles. Man of the Match Jamason Fa'anana-Schultz was everywhere with 15 tackles, 14 ruck arrivals, and three momentum-grabbing breakdown steals.

As for the scrum success, the results were clear. The new front row of Jamie Dever, Mikey Sosene-Feagai, and Steven Longwell held its own and won all eight scrums versus NOLA compared to only winning 68.6% in the five games last year. While it's early in the season, Old Glory hopes the trend will continue. However, the lineout started well but faltered down the stretch.

Lastly, with opportunity, the offense

caught fire. Danny Tusitala and Jason Robertson controlled the tempo and provided the theatrics leading both to be selected to the MLR's Geico First XV. Tusitala, the league's Player of the Week, scored both of DC's highlight reel tries, and Robertson was perfect with the boot going 4/4 on penalties and one conversion. The two combined for nine carries for 134 meters and 12 kicks for 312 meters.

Player/coach Gibbins liked the grit

**"It's a big ask of us. We are expecting a very physical game from Atlanta." - Andrew Douglas**

and effort he saw and how the team is adopting the playing style the coaching staff is preaching in training. “Defensively, [NOLA] scored an early try on us from a lineout maul, and when that happens early in a game, it’s hard to come back from. They played that corner maul for the first thirty minutes of the game, and they scored in the first five minutes.

“After that, we held them out. They had a crack; our forwards defended really well there. They spun it wide, and our backs came up with that [defensive] connection and turned them over. They had another crack. The same thing, we stopped their maul, they went wide and dropped the ball. When you are attacking a try line and you are not coming away with points, it’s tough on the team that is attacking. That first-half defensive effort was quite vital in how we win.

“On the back of the [defensive pressure], Mikey [Sosene-Feagai] grabbed the ball from a turnover, and Danny [Tusitala] was under the posts,” Gibbins continued. “Similarly, we had a lineout drive; Danny went short side and scored again in the corner. We feel like we can turn the ball over and score from anywhere on the field, so we are quite dangerous in that aspect. It was built on the defensive effort from the first 20 minutes.”

With Rugby ATL coming to town on Saturday, the Ratlers will be on a mission to avenge its two-point loss from a year ago. Atlanta showed that it is not messing around by knocking off the perceived favorites in the Eastern Conference last weekend, 21-14. The Toronto Arrows were limited to just two tries in the first 15 minutes of the game and were shut out for the rest of the match. ATL led the league with 163 tackles and was locked in with its lineout winning 15 of 16 balls. However, the club also led the league with 21 penalties and lost half of their own scrums.

“They are a very good team,” head

coach Andrew Douglas said. “They are very structured and physical with a good set-piece. It’s a tough one, to be honest, especially with a short turnaround. It’s a big ask for us. We are expecting a very physical game against Atlanta.”

The Atlanta forward pack is filled with heavy hitters led by captain Matt Heaton. Lock Johan Momsen and Marno Redelinghuys were very active on both sides of the ball combining for 27 tackles, 33 ruck arrivals, 15 carries for 73 meters, and 11 lineout takes in week one. Flanker Connor Cook is one to watch after joining the club from Colorado, and prop Chance Wenglewski scored a bulldozing try early in the match.

“Their lock (Johan Momsen) is a vital player to their forward pack,” Gibbins said. “All of their lineouts run through him. He carries really well; he’s strong and competes at everything. Their captain (Matt Heaton) on the open side was another hard worker. He will be in the game for 80 minutes. Their whole forward pack is based around that mentality. It’s great to see big ball carriers wanting to stay in the game all game. They are a very dangerous pack. Their inside center (Bautista Ezcurra) is another great ball carrier. They have firepower all over the park.”

Coach Douglas knows that his team

will be in for a fight. “Our set-piece has to improve, especially the lineout. We have to defend really well because they have big bodies charging at you. We have to be patient and control the ball for long periods of time because we threw a lot of ball away against NOLA. It would be nice to hold the ball for longer periods of time.”

Gibbins echoed that sentiment saying, “If we attack the way we did against NOLA, we won’t have much of a chance. We didn’t look after the ball that well, and every time we built up pressure, we turned it over. We have to look after the ball and go through phases. We can’t expect to score off one play so we have to build pressure, stick to the gameplan that Douglas got us playing and training, and trust the systems in place. Hoping from there, we can build pressure and find space. We got to go through a lot of hard work before the try is scored.”

Without a preseason, the team is a work in progress, but the squad isn’t making up any excuses. This is a professional competition, and every win starts with the effort and determination on the practice field and in the meeting room to build a true champion. A new tradition starts on Saturday at Segra Field when DC returns to Nation’s Capital to victory for the Old Glory faithful.

Sean Hartig and Danny Tusitala will debut at #9 and #10. The Doug Fraser and Thretton Palamo find the center of the backline with D'Montae Noble and Sam Cusano on the wings. Renata Roberts Te-nana will sweep the field at full back.

Congratulations to the entire 2021 squad for a momentous 2021 season debut at Segra Field!

## Tips & Techniques

# Shortcut Success

No time to cook? Turn a weekend of sous vide cooking into a week of always fresh-tasting, quickly reheated meals.

By Sara Johnson

Preparing healthy home-cooked meals during the workweek can be challenging. Some weekdays, it feels like there's not enough time to boil water for eggs, let alone roast a chicken. That's where sous vide meal prep comes in. Set the circulator as you're making your Saturday morning coffee, and by the time you're pouring a glass of wine on Sunday night, you'll have a full week's worth of proteins ready to reheat and serve.

### SATURDAY, 8 AM: START WITH BREAKFAST

Eggs are one of the most popular foods to cook sous vide—and for good reason. Sous vide easily produces a soft yet cooked egg every time without the need for standing at the stove. To make the perfect egg, place whole eggs in a perforated strainer inside a 145.7°F (63.2°C) water bath for 50 minutes. After cooking, serve warm for a mid-morning breakfast, and chill the rest in ice water before storing in the refrigerator. Sous vide eggs will keep for 5 days in the refrigerator. Reheat to serve by placing in a 132.8°F (56°C) water bath for 15 minutes.

### SATURDAY, 12 PM: TRY TURKEY

After the eggs have been cooled and stored, move on to turkey breasts. Set circulator for 144.8°F

(62.7°C) and place breasts in a sous vide pouch, then place in the water bath. After cooking for 2 hours and 30 minutes, remove the breasts. Chill in an ice bath. Turkey will keep in the refrigerator for 5 days, or in the freezer for up to a month. During the week, use as the base for simple meals like turkey salad sandwiches or chili. If you're serving hot, reheat turkey at 132.8°F (56°C).

### SUNDAY, 8 AM: STEAK DAY

Save the longest cook for the laziest day.

In the morning, quickly sear flank steak on each side, then chill for a minimum of 45 minutes. Set circulator for 141.8°F (61°C), season steak, and place in a sous-vide pouch and seal. Cook for 10 hours. After cooking, rest for 10 minutes and then chill in an ice bath. Steak will keep in the refrigerator for 5 days. When ready to serve, sear once more on each side. Serve as a salad-topper or with a side of vegetables.

For more recipes of all skill levels check out [sousvidemagazine.com](http://sousvidemagazine.com).

## Masters of Sous Vide meet Masters of Rugby

Recognized by the world's top chefs, Cuisine Solutions is the authority on sous vide—the innovative slow-cooking technique that they pioneered, perfected and popularized.

Thank you to the Cuisine Solutions Chefs and team for stopping by our team headquarters to teach the Old Glory squad a lesson on preparing quick, healthy, and delicious meals, using their signature sous-vide cooking methods, so that our athletes can use to stay on top of their daily nutritional goals.

## Next up... Master Chefs learn to play rugby.

They can sear, zest, and blanch. Put can they pass, kick, and step? We challenge Cuisine Solutions to meet us on the pitch for a fun and informative lesson on rugby!

Stay tuned for more info.

# The power to do great things.

Leidos is seeking powerhouse talent for positions in IT, engineering and science. Our diverse workforce is dedicated to solving some of the world's toughest challenges – join us and help make a difference.

To learn more about our people, programs and opportunities, visit:

**[careers.leidos.com](https://careers.leidos.com)**

An equal opportunity employer/disability/vet.

Learn about how Leidos is helping military members transition into civilian life on the next page.

## *Helping transitioning military members: Our partnership with Hiring Our Heroes*

David Wells found it tough to transition from 25 years in the Air Force to the civilian workforce without support or guidance. "I stumbled along trying different things until I found something that matched what I wanted to do — with a company that had strong ethics and a culture I wanted to be part of," he says, reflecting on his difficulties.

10 years down the road, Wells works as the Colorado Springs Site Manager for Dynetics, a Leidos subsidiary. His struggles inspired him to help ease the path for others making that leap to the civilian workforce by championing Hiring Our Heroes at Dynetics.

For Patrick Walsh, the decision to become a mentor in the Hiring Our Heroes program when he came to Leidos was effortless after his positive experience as a military fellow during his own transition from the U.S. Army almost four years ago. He notes that veterans and military spouses can be a big source of unemployment, "so if (Hiring Our

Heroes at Leidos) can help match some of those skills to different roles as these military members ease out of service, it's a win-win situation."

Leidos has a strong track record of hiring veterans. In fact, Hiring Our Heroes fits right in line with Operation MVP, our company-wide initiative to hire, train, and support veterans. The Hiring Our Heroes Corporate Fellowship Program offers professional training, job search guidance, and hands-on experience to transitioning service members. Participants in the 12-week program are placed in civilian fellowships with corporations that understand the value veterans bring to the workplace.

Leidos has a strong track record of hiring veterans. In fact, Hiring Our Heroes fits right in line with Operation MVP, our company-wide initiative to hire, train, and support veterans. The Hiring Our Heroes Corporate Fellowship Program offers [www.example.com](http://www.example.com) job search guidance, and hands-on experience

to transitioning service members. Participants in the 12-week program are placed in civilian fellowships with corporations that understand the value veterans bring to the workplace.

"This program allows you to focus entirely on your transition for 32 hours a week and then use that time to reflect and not worry about a normal full-time job while you're still developing, and I can unequivocally say that I would've had challenges finding a job in the time frame I needed if I was not a military fellow," says Walsh.

## You should call us too.

[www.ascendintegrated.com](http://www.ascendintegrated.com)

“At the end of every training, we do a cheers call. One of the boys said ‘Mi Familia’ today,” Mason stated. “‘My Family’ and it does feel like that. We’re lucky that we are with our mates for however many hours per day, four or five days a week. We are building a family-oriented culture. Many of the boys have their wives and family over if they’ve come from overseas, and, obviously, the local boys have their partners and wives and families here. We are trying to create a family-based team and environment that knows rugby is awesome, and we are lucky to be playing it, but it more about the bigger picture.”

**MUNGO  
MASON**

# PROUD FOUNDING PARTNER OF OLD GLORY DC

Iron Vine Security is a Washington D.C.-based cybersecurity company specializing in Program Development, Security Engineering, SOC Management, Forensics and Examinations, and Cloud Infrastructure Security, serving federal agencies and commercial organizations — anywhere in the world.

[IRONVINE.COM/OGDC](https://ironvine.com/ogdc)

# CULTURE MATTERS

**Whether it's in the office or on the rugby pitch, we recognize top talent.** As lifelong rugby players and fans, we know that the same qualities that make a player successful on the pitch will make them successful in the office: **Humility, integrity, character, and teamwork.** Just like Old Glory, the best teams are built with individuals who have a sweep the sheds mentality. We founded Iron Vine to be the kind of company we always wanted to work for: a cybersecurity company with a strong culture, that values the individual, respects the team, and grows the person.

**Old Glory as an organization and as a team has the same mentality and culture.** From our first conversations, we could see alignment of purpose. This is evident in their Academy and youth programs, where they are investing in the next generation—**not only to grow the sport of rugby but also to grow character and resilience.** To bring together our love of the game with such an organization that embodies rugby's ethos so tangibly made our partnership an easy decision. Their management approach and long-term strategy aligns with our core values and starts at the grass roots level. The opportunity to be part of that is something special.

**Culture and purpose go hand-in-hand. Leadership may define culture, but purpose sustains it.** And in rugby, teams driven by common purpose are unstoppable. No matter how hard the hit, they keep getting back up. **Common purpose breeds dedication, focus, and passion.** It's the difference between a win or a loss, a losing season or a championship trophy. It's the same for business. In cybersecurity, a lack of purpose leads to real consequences—information loss, profit loss, and reputational damage. Regardless of the end goal, teams that try to operate without a unifying purpose eventually run into trouble. So, when you can bring together a team of experts, who bring their passion and enthusiasm for the field, and provide a culture and a purpose to keep driving, customers notice.

**We invest in passion.** The thrill of a long multiphase attack that ultimately creates a gap in the defense to score a try, the payoff of all the hours of practice and planning, the moment when the bigger picture becomes clear. These moments don't just happen, they require something more. At Iron Vine, we are proud to be a company focused exclusively on cybersecurity and helping our customers, whether they are in government, healthcare, financial, or international sectors, to build innovative cybersecurity programs. To do that, we invest heavily in the right people—those who bring their passion and love of the game out onto the pitch.

**We believe passion fuels creativity, and creativity drives innovation.** Our people, our innovative approach, and our purpose-driven culture enable us to consistently deliver world-class cybersecurity programs, anywhere in the world.

**We can't wait to see what the 2021 Old Glory season holds.** If it is anything like what we saw at the beginning of last season, we are in for a great ride.

Visit [ironvine.com](https://ironvine.com) to learn more about our story.

## THRETTON PALAMO CO-CAPTAIN

"The first half of the season is more about growth. It's whoever can develop faster and stay healthy into the backend of the season. In the first few games, I'm excited to see how we grow each week and how we can assess ourselves midseason to see if we are striding and developing from there."

## Clonakilty Captain's Bottle

In rugby culture, each post match social includes team captains congratulating the competing sides and sharing a drink in camaraderie. Old Glory DC Rugby in partnership with Clonakilty Distillery has developed "The Captains Bottle". This exclusive Captains Bottle has been customized for post match celebrations. Each Bordeaux cask finished Irish whiskey bottled is 46% ABV. Old Glory DC Rugby will present this classic bottle to our opposing captains during the 2021 season in the true spirit of the game.

By the coast, on the southwestern tip of the island of Ireland, is Clonakilty, one of the most beautiful locations in the World. My family, the Scully family has farmed this coastal land for 9 successive generations. Our mission is to create Clonakilty Whiskey utilizing the best resources that nature has to offer, prime land, pristine water and salt sea air. The perfect ingredients for a maritime distillery. We grow our own heritage barley on the family farm in the shadow of the Galley Head lighthouse. Centuries of sea mist, soft rain and ocean spray provide a complexity to the soil that permeates through to each individual grain. The state-of-the-art distillery is located a few short miles away at the waterfront, in the heart of Clonakilty town, the three gleaming copper pot stills are an inspiring sight to behold.

It is here that we distil the World's best new make single pot still, an accolade proudly received at the World whiskey awards in 2020. By the oceans edge on the family farm is the whiskey warehouse, ideal for maturing and finishing the finest of whiskeys. Pure clean air, transported across thousands of miles of the Atlantic Ocean, provides a freshness unspoilt by human intervention. This is where the magic really happens, blending, ageing, bottling and hand-labelling. it is here where we fill the casks and let the Irish salt sea air to work its magic. With a passion for innovation at Clonakilty we strive to use only the best casks to finish our whiskey. These include Imperial stout, Port, Bordeaux red wine and Cognac casks. So, when you receive a bottle of Clonakilty Whiskey you know it is something special.

## Rules of Rugby 15

Two teams of 15 players have 80 minutes to advance the ball past their opponents' side of the field (pitch) and touch it to the ground for a score worth 5 points (try). Participants may only pass the ball backwards or sideways with no blocking allowed; using a variety of phases such as lineouts, mauls, rucks and scrums to retain possession during play. Rugby is unique in that play is continuous even after players are tackled on the field. Kicking is the only method by which both teams may move the ball forward.

After each try, worth 5 points, the scoring team is allowed an opportunity to kick the ball through the posts for an additional 2 points (conversion). Certain penalties also earn the non-offending team a kick through the posts, worth 3 points (penalty) if made. At the conclusion of the match, the team with the most points wins.

### LOOSE PLAY

**MAUL** A maul occurs when a player carrying the ball is held by one or more opponents, and one or more of the ball-carrier's teammates bind on the ball-carrier.

**RUCK** A ruck happens when one or more players from each team, who are on their feet and in contact, close around the ball on the ground. Once a ruck is formed, players can't use their hands to get the ball, only their feet.

### THE SET PIECE

The set piece is a means of restarting the game.

**SCRUM** A contest for the ball involving eight players who bind together and push against the other team's eight for possession of the ball.

**LINE-OUT** Looks somewhat like a jump-ball in basketball, with both teams lining up opposite each other, but one team then throws the ball down the middle of the tunnel.

### WHY DID THE WHISTLE BLOW?

**OFFSIDE** Rugby's offside law restricts where on the field players can be, to ensure there is space to attack and defend. In general, a player is in an offside position if that player is further forward (nearer to the opponents' goal line) than the teammate who is carrying the ball or the teammate who last played the ball. Being in an offside position is not, in itself, an offence, but an offside player may not take part in the game until they are on-side again. If an offside player takes part in the game, that player will be penalized.

**FORWARD PASS OR KNOCK ON** Sometimes an attack which seems to be heading towards the try line will be stopped by the referee's whistle. If a pass has gone forwards, or a handling error has resulted in a knock-on, a scrum will have been awarded to the non-offending team.

**FAILURE TO RELEASE PLAYER OR BALL** After a tackle, the tackler must immediately release the ball carrier, and the ball carrier must immediately release the ball. Failure on either of these counts limits a fair contest for possession. If release does not occur within a reasonable time frame, the referee will award a penalty to the non-offending team.

**FAILURE TO ROLL AWAY** Any players on the ground when a ruck or maul is formed must immediately roll away from the ball, so as to allow continuity of play for the team in possession. Failure to do so will result in the award of a penalty to the non-offending team.

**JOINING RUCK/MAUL FROM THE SIDE** When joining a ruck or maul, all players must do so from behind the feet of the last teammate. If they join from the side, they are in an offside position and taking part in the game, then this will immediately be penalized, then a penalty will be awarded to the opposing team.

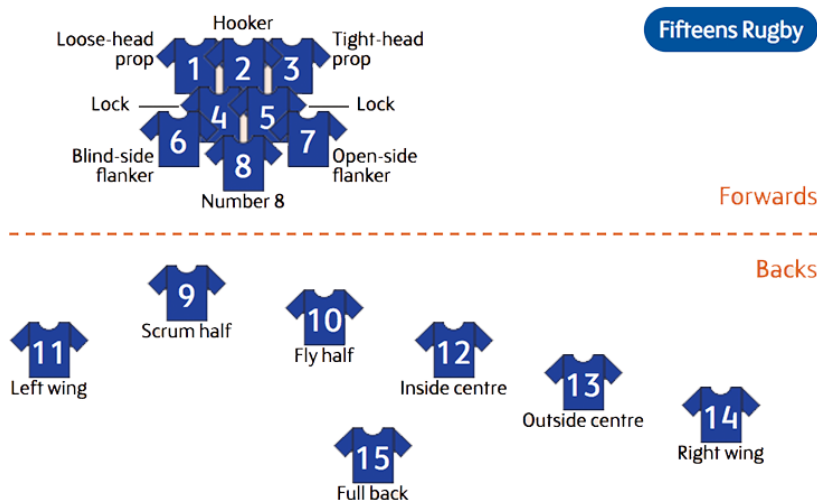

**UN-PLAYABLE BALL IN RUCK OR MAUL** If the ball becomes un-playable in a ruck or maul, e.g., underneath players on the ground, but neither team is at fault, the referee will award a scrum to the team who was in possession before the ruck or maul was formed.

## FORWARDS

1. PROP (TIGHTHEAD)
2. HOOKER
3. PROP (LOOSEHEAD)
4. LOCK
5. LOCK
6. FLANKER (BLINDSIDE)
7. FLANKER (OPENSIDE)
8. NO. 8

## BACKS

9. SCRUMHALF
10. FLYHALF
11. WING (LEFT)
12. CENTER (INSIDE)
13. CENTER (OUTSIDE)
14. WING (RIGHT)
15. FULLBACK

MedStar Health

**Ascend Integrated creates advanced solutions through constant innovation and training. We're proud to train alongside Ascend Integrated this season to create high-performing teams.**

Connect DevOps applications to current infrastructure workflows.

Automate without scripting or coding.

Simplify multi-tool & server use through AI-guided issue monitoring + resolutions.

JetDock is a low code/ no code platform which helps to streamline and modernize DevOps workflows and processes by using AI, Cloud agnostic factories, and rich API's.

The complexity of the DevOps cycle often requires teams to use a variety of tools on different cloud servers in order to achieve what is needed for project completion.

The Cloud Agnostic Factories are fully customizable to do any task in the DevOps chain, nothing is hard coded.

## Paul Sheehy

Old Glory DC Co-founder  
and Sheehy Auto Stores  
Used Vehicle Director

In 1966, Sheehy Ford began as a small, suburban, family-owned car dealership just off the brand-new Washington D.C. Beltway.

Today, Sheehy is the 32nd largest dealer group in the nation. Sheehy Auto Stores is still primarily family-owned and has grown to more than \$1.6 Billion in sales with 25,000 new and 20,000 used vehicles sold per year. We have 29 dealerships located from Hagerstown and Baltimore, MD to Richmond, VA. We are the largest retailer of Fords and Nissan in the region and have the largest selection of inventory in the Mid-Atlantic. Our other franchises include Honda, Lincoln, Subaru, Lexus, INFINITI, Toyota, Volkswagen, Hyundai, Nissan, Buick, GMC, Mazda and Harley-Davidson.

In addition to our exceptional employees, our success has been driven by our customers' response to our unique and innovative selling approach. At Sheehy we make buying your next vehicle easy with our No Haggle, No Hassle, Sheehy Easy Price.

With our Sheehy Easy Trade, you always get up to 125% KBB value. Sheehy also buys cars – no purchase necessary from us! Most recently, we launched Sheehy Direct, which allows you to shop for and purchase your vehicle from the comfort of your home. We'll even deliver your vehicle right to your door!

Sheehy also supports many organizations in the greater Washington D.C., Baltimore, Hagerstown and Richmond areas. We are proud to give back to the community that has given so much to us. Some of the organizations that we've helped support over the years are Gonzaga, the Innocence Project, Toys for Tots, local food banks in our many different communities, the American Heart Association, Ashland Christian Emergency Services, Mercy Mall of Virginia, Food for Others, Inova Children's Hospital, Washington County Humane Society, Loudon Hunger Relief, Fauquier FISH, St. Lucy Project, Arundel House of Hope, the Arnold House and so many more!

# REBOOTING EDUCATION WITH FURNITURE AND SANITATION

It's 2021 and schools are faced with the complex task of getting students, faculty, and staff back into classrooms safely. This task will require a variety of well thought out plans. Plans that address the logistics and scheduling of a greater number of smaller class sizes and plans that support keeping those spaces clean. With extensive experience, Impact Office can help ease the stress of designing and executing these plans.

## FURNITURE

Desk and table shields with mobile and multi-functional furniture is one key factor in making spaces both safe and flexible. Creative plans will include scenarios for how and when to turn a gymnasium, cafeteria, or common area into a classroom and back in minutes. Flip-top tables can be nested and moved aside quickly when not in use. These tables and shields can also create health checkpoints, sanitation stations, and help direct the flow of traffic at building entrances and in common areas. This combined with clear and consistent signage will ensure students and faculty have the time and space to keep safe.

## SANITATION

Knowing the difference between cleaning, disinfecting and sanitizing and when to do each is the second key to developing your plan. To start, what is the difference?

- **Cleaning:** removes visible dirt, soil and debris – it does not disinfect.
- **Disinfecting:** eliminates bacteria, fungi and certain viruses – it does not remove dirt.
- **Sanitizing:** reduces the number of germs on surfaces or objects to a safe level, as judged by public health standards or requirements – it does not fully eliminate them.

Sanitizing and disinfecting products also vary in their dwell time (the length of time that a chemical must be in contact with the surface and remain wet, in order to achieve the product's advertised kill rate.) Dwell times can range from a matter of seconds to 10 minutes. Our janitorial and sanitation experts are here to help recommend the best products for your space and put your plan in place.

While the situation with the pandemic is rapidly evolving in every direction, it is important that the solutions you create are adaptable and resilient. Designing a creative plan to keep your faculty and students safe with the ability to flex will help reduce infection and create a stable learning environment. Let's start a conversation – visit our website or call to get help with your plans and implementation today.

Old Glory DC launched the Old Glory Academy, the high-performance player pathway for age groups 16-18. Beginning Fall of 2020, the Old Glory Rugby Academy's role is to identify and develop talented young athletes from the Mid-Atlantic Region aged 16 to 18 and engage them in a performance development program led by Old Glory DC coaches and staff.

"As Old Glory becomes established as a professional organization in USA Rugby and the MLR, it is important we start growing the franchise's high-performance pathway," said Head Coach Andrew Douglas. "The Old Glory Academy is an essential step in that pathway. It gives high school players a genuine avenue to professional rugby. It exposes them to professional coaching and practices that will not only make them successful rugby players but, more importantly, better people."

"Old Glory's future largely depends on our ability to develop lo-

cal talent," adds owner Paul Sheehy. "The Old Glory academy is our first significant step in the player pathway development. Putting players in this type of environment, locally and under coach Douglas's guidance, will be a game-changer for those players."

The Old Glory Academy is based on the New Zealand Rugby Union (NZRU) 6 Pillars of Player Development and includes:

Technical: Catch & Pass, Tackle, Running Lines, Positional Specific

Tactical: Understanding your role, game plan, rugby laws

Physical: Aerobic fitness, speed, power, strength

Nutrition: General, pre & post-training/game, individual needs, hydration, supplements

Mind Skills: Routines, mindfulness, visualization, dealing with pressure

Leadership and Professional Development

A New Zealand native, Douglas emphasized NZRU's culture-based approach to rugby development when designing the Old Glory Academy.

**We are driven to grow a rich rugby pathway, from youth to professional level**

## THE ROAD TO GLORY PODCAST

RETURNING THURSDAY, MARCH 18

PRESENTED BY

**leidos**

### Old Glory DC Is Excited To Announce The Return Of The Road To Glory, The Team's Official Podcast!

The Road to Glory aired weekly during the inaugural season in early 2020 on popular podcast streaming websites. It quickly became OG supporter's favorite way to consume game highlights, team analysis, interviews, and behind-the-scenes content. 2020 Hosts Brianna Kim and Roland "Roly" Pratt will return this season for weekly podcast episodes airing Thursday evenings throughout the Major League Rugby (MLR) season. Bri and Roly will cover all that is rugby on The Road to Glory. The duo will tackle men's and women's rugby in all of its forms – international, domestic, collegiate, 7's, youth, MLR, and of course Old Glory DC! For long-form interviews, expert analysis, features, and in-depth coverage of Old Glory DC and rugby taking place in the DMV, listen to The Road To Glory weekly on your favorite podcast hosting website. Go to [www.oldglorydc.com](http://www.oldglorydc.com) for more details on how you can engage with DC's first professional rugby franchise.

# THANK YOU TO THE 16TH OG!

Old Glory is building for the long haul. We plan to be a fixture in this community and a force in North American rugby for many years to come. In these difficult, pandemic-affected early years, we ask for your continued patience, cooperation, and support. We'll do everything in our power to make this a safe but forward-looking return to rugby, which one day we will all look back on with pride.

We believe there has never been a more important time to see the sport of rugby thrive in the United States. We know our sport connects people, communities, and nations. We look forward to the day we can enjoy our beautiful sport together, and we are committed, more than ever, to making that happen.

Thank you for supporting Old Glory DC and rugby in Greater Washington!
