# PROFESSIONAL RUGBY IN WASHINGTON, DC

Old Glory DC is a professional rugby team based in the District of Columbia and officially joined Major League Rugby (MLR) in 2018 and entered its first season in 2020. Playing its home games at Segra Field in Leesburg Virginia, Old Glory will compete in MLR's Eastern Conference against teams from Atlanta, New England, New Orleans, New York, and Toronto, as well as play games against Western Conference teams Austin, Dallas, Houston, San Diego, Seattle, and Utah.

The Old Glory ownership team is led by DC natives and life-long rugby players Paul Sheehy and Chris Dunlavey and includes the Scottish Rugby Union, represented on Old Glory's board by the SRU's COO Dominic McKay. The organization seeks to grow the sport of rugby in the region through community engagement, by promoting an alternative path for personal development through sport, embracing the unique values of rugby: respect, determination, diligence, teamwork, and commitment.

### Name

# WHY OLD GLORY DC?

Old Glory is a nickname for the flag of the United States. The original "Old Glory" was a flag owned by the 19th-century American sea captain William Driver (March 17, 1803 – March 3, 1886), who flew the flag during his career at sea and later brought it to Nashville, Tennessee, where he settled. Driver greatly prized the flag and ensured its safety from the Confederates, who attempted to seize the flag during the American Civil War. In 1922, Driver's daughter and niece claimed to own the original "Old Glory," which became part of the collection of the Smithsonian Institution, where it remains at the National Museum of American History.

After considering hundreds of options proposed by our fans and advisors, we have selected a name and logo that speak to our region's patriotism and the unique role of our home city as the nation's capital. Old Glory DC will be known for valuing the traditions of rugby, but also for our appreciation of the strong connections between the Mid-Atlantic rugby community and our military personnel and their families. Beyond that, our name is a nod of respect to so many of our corporate partners, whose missions are to serve the people and agencies who serve all Americans.

"The response to our Name the Team challenge was incredible, with close to 1,000 fans participating," Co-owner Paul Sheehy said. "We had so many great names to choose from, but in the end, we felt we had to choose a name that could only really work in Washington, and that is inclusive of all of the diverse members of our community."

"And we think our fans will see the deeper meaning," Co-owner Chris Dunlavey added. "Yes, it's a flag, but Old Glory has been places. It's battle-scarred. It's weather-beaten. But still it flies proud. It symbolizes all the strength, resilience, commitment, and substance over style that are the hallmarks of rugby and, for that matter, the American character."

# **RUGBY VALUES**

Rugby provides a unifying spirit that leads to life-long friendships, camaraderie, teamwork, and loyalty, which transcends cultural, geographic, political, and religious differences. Our values set rugby apart from any sport out there and are central to the fabric of the game.

There's no talking back to the referees. We go to war with our opponents and then help each other up and share a meal. Fighting is frowned upon, and standing up for your teammates is encouraged. Our fans and supporters are the foundation of every win, always.

# HARD-HITTING AND FAST-PACED

Rugby is fast, hard-hitting, and thrilling, a distinctly American interpretation of the international game that hooked. Rugby embodies elements of the country's most popular sports. The physicality of rugby reminds us of football, except in rugby, you don't play with pads or helmets. The flowing grace reminds fans of soccer. The constant ball exchange is similar to basketball, while the intensity is like hockey.

Rugby brings together many of the great characteristics of major sports that are already here, but with the unique rugby elements that set our league apart. If you like sports, you're going to LOVE rugby.

## **PLAYER ACCESS**

Meet our players up close and personal at your event. No need to wait in line for an autograph signing. Old Glory players want to interact with our fans as much as possible.

it's the ability to be coached by a professional rugby player in the afternoon and then later that same day cheer on their mentor taking the pitch themselves.

# COMMUNITY

We have a term for our supporters at Old Glory DC - the 16th OG. A rugby team fields 15 players at a time during a match. Old Glory fields an extra player - the 16th OG.

They are the power behind every scrum, the force behind every tackle, the fortitude across the defensive line, and the unbreakable spirit in the 79th minute. You won't see an extra Old Glory jersey on the pitch, but you'll hear the beat of an extra heart. The 16th OG is the core of Old Glory DC.

# DELIVERING HOLISTIC Security assessments

**IRON VINE BRINGS A UNIQUE APPROACH TO CYBERSECURITY** 

As a recognized top security assessment service company and top workplace for several years, Iron Vine takes pride not only in the acknowledgment of what we do but also our approach and how we do it. Like any well-fought endeavor, the methods and care taken can be as important as the outcome.

While we provide a wide range of cybersecurity services — from security and cloud engineering, security operations management, forensics and examinations — often the most valuable first step to our customers is our security assessments. That's why we take a holistic approach. After all, a big-picture view of your overall security can help you make the smartest decisions on what to address first.

We use our unique security operations methodology, which combines industry best practices and our years of experience, to develop a tailored cybersecurity program for each client's specific requirements. This methodology helps us assess the maturity of a client's operations, determine the effectiveness of their tools and personnel, and identify weaknesses in policy and process. Compliance is a byproduct of a cybersecurity program that institutionalizes organizational discipline and awareness while securely enabling the business.

# So, what does it take to be a top security assessment service company?

### SUPPORTING CRITICAL STAKES

Iron Vine works with industries that have unique cybersecurity requirements and need a practiced, holistic assessment process. We're proud to support the Federal Government, healthcare, financial institutions, and select international enterprises, as these industries often directly touch the public and are custodians of public trust. Starting our assessment with that in mind, and helping the customers to remember what's at stake can help with the rest of the assessment process.

### THOROUGH, ENGAGED ASSESSMENTS

Many organizations view security as paperwork requirements or a checklist-driven process. At Iron Vine, we ensure that our customers both understand and appreciate the importance of engaging their businesses in the security assessment process. We emphasize security policy and processes as part of our security assessments. In fact, it is part of the core of our risk management framework, to ensure that there is understanding and buy-in at all levels on the recommendations.

### **CONTINUAL IMPROVEMENT**

What worked yesterday for security may not always work tomorrow. That's why Iron Vine also emphasizes to customers that a security assessment is a point-intime review, but security and security programs are constantly-evolving. We remind them not to view the security assessment as a box checked or the end, but as the beginning of that process and Iron Vine is here to help support them along every step of the way.

If you need a proven, top security assessment service company by your side, to put you on the right first step for your security journey, call Iron Vine.

#### **About Iron Vine**

con Vine Security is a leading Cybersecurity services company specializing in delivering Cyber Operations, Risk Management, and Mission Support to public and private sector enterprises. We provide proven expertise in Cybersecurity program development, security engineering, SOC management, cloud infrastructure security, and igital forensics. Our multiple ISO certifications and our Level 3 CMMI for Services appraisal demonstrate our ommitment to quality using defined practices that reduce risk for our customers. Nothing heralds the arrival of spring like the bright flavors of crisp, crunchy salads. Take a gander at some of our favorites and toss up something fabulous.

By Marilyn Kitzes

As any food lover knows, salad is so much more than a mound of greens on a plate. Depending on the ingredients, salads can serve as appetizers, main courses, and when made with fruit, dessert. They're the ideal creative medium for cooks who delight in nutritious foods—and especially satisfying for those of us who grow our own vegetables. In fact, perhaps more than with any other recipe, fresh produce matters when you're making salads, and if you can get to your local farmers' market to buy your ingredients, all the better.

#### POACHED EGG SALAD WITH LEEKS AND MUSTARD VINAIGRETTE

This simple recipe ingeniously pairs sous vide eggs (the best way to cook eggs, we think!) with steamed leeks. It also calls for homemade croutons made from a sourdough bread and a simple Dijon mustard vinaigrette. To serve, combine the leeks with fresh radish (for a hit of crisp zestiness) and top with the eggs and croutons. Sophisticated and absolutely delicious.

#### WOOD SKIN HALIBUT & CHICKPEA SALAD

A main course dish that's light and flavorful, this recipe conjures up a Middle Eastern mood thanks to fiery harissa and fresh lemon. You'll need cedar paper for this recipe, soaked in white wine and placed with the halibut in a sous vide bath for 17 minutes. The fish is then quickly seared on a non-stick pan. Chickpeas, first soaked overnight, also get the sous vide treatment, and are later tossed with cucumber, fresh parsley, mint, and a harissa vinaigrette. The combination of ingredients is delightful.

#### MICHEL RICHARD'S TUNA & COMPRESSED WATERMELON SALAD

Pay tribute to the late, great Michel Richard with this inventive salad. Here, compressed watermelon (you'll need a vacuum sealer) is paired with raw tuna for a simply elegant presentation. These main ingredients shine bright on the palette thanks to a yuzu vinaigrette. All ingredients for the vinaigrette dressing are commonly found in the pantry, with the exception of yuzu juice and xanthan gum. Garnish with scallions, sesame seeds, Bibb lettuce, and green tobiko for next-level wow.

#### GRILLED SALAD WITH BEER-HONEY VINAIGRETTE AND GOUDA SPREAD

Impress your taste buds—and any guests—with this flavorful salad. Belgian endive, romaine lettuce, and fennel are prepared to perfection thanks to 45 minutes in a sous vide circulator and 6 minutes on a grill. Served with a fantastic beer-honey vinaigrette and a homemade Gouda spread—that's also prepared through sous vide—it's a winning salad that works any time of year.

#### **SOUS VIDE COOKING TIME 3 hours**

#### EQUIPMENT

#### Sous vide circulator Sous vide pouches Vacuum sealer Ice cream machine Paring knife Small saucepan Baking sheet Baking rack Grill

#### INGREDIENTS HONEY LIMONCELLO

10 organic lemons 2 C sugar 1 C clover honey 1 liter vodka 3 C water

#### COCKTAIL

1 1/2 fl oz sous-vide honey limoncello 1 1/2 fl oz vodka 1 fl oz fresh lemon juice 1 fl oz canned low-sodium chickpea liquid, strained Angostora bitters

#### DIRECTIONS FOR THE HONEY LIMONCELLO

Preheat water bath to 140°F (60°C).
Wash and peel lemons, trimming off any of the white pith from the peels. Juice the lemons and reserve.
In a large sous vide pouch, combine the lemon peels with the rest of the ingredients. Chill liquid to 37°F (3°C) or colder, then seal the pouch.
Cook in water bath for 3 hours, gently shaking once or twice to make sure the

sugar is evenly dissolved. Remove the pouch from the water and strain the

- limoncello, while still warm, through a coffee strainer.
  - Chill, then transfer to a bottle or lidded container. Makes two liters.

#### **TO BUILD**

5.

Place all ingredients in a cocktail shaker and shake for about 20 seconds. Remove shaker lid and fill with ice, then cover and shake well for another 20 seconds. Strain into a chilled martini glass. Garnish the top of the drink with a few drops of bitters, running a toothpick through the drops to create a swirled effect.

Old Glory Returns Home to Face Houston in First of Final Two Home Matches

# Week 16 Preview

Old Glory Returns Home to Face Houston in First of Final Two Home Matches

Written by Evan Lappen Photos by Paris Malone

#### A Stark Defeat in NOLA

Under sweltering conditions last weekend, Old Glory couldn't match the pace and intensity of NOLA Gold and lost 50-21. DC could not recover from the threetry barrage to begin the match and played catch-up from the opening whistle.

"It was a rough game," Cory Daniel said. "We definitely didn't play our best and got away from the good things we were doing in the past few weeks. Our defense wasn't there, our spacing was pretty poor at times, and we didn't have much attack until the end of the game. We need to correct those things to get back to play how we know that we can play."

"Defensive assignments went out the window for a little bit there," head coach Nate Osborne echoed. "It's something we'll work on this week, and it's an understanding of what our roles and responsibilities are in the patterns of defense.

Likes James Willocks said in his review, it's very hard to attack when you turn the ball over so frequently and quickly... To lay an egg like that is something we don't want to do again and something we take responsibility for."

#### **New Lineup for Houston**

The coaching staff is switching up the lineup, hoping change can usher in different results, especially in the forwards. Stan South and Luke Campbell have the week off while five new starters enter the fray in the pack. Jack Iscaro is joined by Mo Katz and Jake Ilnicki in the front row and Api Naikitini takes over for South in locks with Tevita Nagali. The new back row features Dom Bailey and Cory Daniel at flanker and Fintan Coleman making his first start at eightman.

In the backs, Renata Roberts-Te Nana returns from injury at fullback. His experience should stabilize the backline as it remains mostly unchanged. The unit of captain Danny Tusitala, Rohan Saifoloi, Junior Sa'u, Willie Talataina, and Peni Lasaqa are back, with John Rizzo slotting in at wing.

Coach Osborne has decided on a 5-3 split on the bench. One of the original OGs is back as Josh Brown joins Kyle Stewart, Rob Irimescu, Felix Kalapu, and Will Vakalahi as the forward reserves. John Lefevre, Owen Sheehy, and Doug Fraser will be the impact subs in the backs.

#### **Houston on a Mission**

The SaberCats have been on a tear lately, with their first visit to DC coming on Saturday.

At 8-5, Houston is in third place in the MLR Western Conference and only trails LA by three standing points. However, the next three tests are crucial for Houston's playoff hopes, and a team it has never beaten is on deck this weekend.

"They are very South African [with many players and coaches]," Osborne said. "They have a very good set-piece and very good at controlling the territory by kicking a lot... We're expecting them to be physical and play the territory game. We are looking forward to the physical encounter and proving people wrong. As much as we all would like to forget last week, we want to prove we're better than what we showed [against NOLA]."

Houston is led by captain Dean Muir, who along with center Louritz van der Schyff, each have three tries in the last three games. With solid performances on both sides of the ball, Juan Pablo Zeiss and Dan Coetzer were named the MLR's First XV in last weekend's 31-27 win over Utah. Combine that with Eagles Christian Dyer, Siaosi Mahoni, Malon Al-Jiboori, and Matai Leuta, the Sabercats are playing their best rugby of the season.

"Houston is a very physical team," Daniel said. "They have a lot of big strong ball carriers, and they want to punish you upfront. A lot of phases are around the corner with their forwards and eventually get the ball out to the backs. It's a pretty simple game plan that they have, but they execute it very well."

#### **Return to Winning at Segra Field**

Getting back to the comfort and security of home is exactly what Old Glory needs after a grueling road trip. DC won its last two games at Segra and hopes to shock the MLR on Saturday.

"We just need to be better on defense," Osborne said. "They are going to give us a lot of ball, and we are either going to hang ourselves or look like cowboys. So when they give us opportunities, we need to take them."

"We need to find the space and exploit it in attack and kicking," Daniel added. "After our forwards run up and hit the middle, we need to do a better job of getting the ball out and letting our playmakers go to work. Find that kick and running space and exploit it." "This week is about beating them up as a team and winning and losing as a team," Osborne said. "It's a 'prove it' week for them and for us as well, as they have never made the playoffs. It's one of those games where they need to win to get in, and we need to end some people's seasons."
