Effective Immediately (05 February): A clarification has been made to 7.04 B, pages 93-94 as noted below in **bold**:

B. Main Draw – Doubles

1) Advance Entry – ATP Tour Only

- a) No team shall be considered entered or withdrawn from an ATP Tour tournament* unless their written entry or written withdrawal is received on or before the entry or withdrawal deadline by a player relations staff member or ATP Supervisor. A team must have entered in order to be moved into the main draw as a direct acceptance because of the withdrawals of other players.
- b) Once a team enters they are subject to all the withdrawal provisions.

*The top 13 teams from the final 2018 ATP Doubles Team Rankings shall receive automatic Direct Acceptance into the first 5 Masters 1000 events in the 2019 season (if not included as a Direct Acceptance on their own merit). To qualify for automatic acceptance a team must have competed as a team in 11 ATP World Tour or Grand Slam events during the 2018 season.

For each of the remaining four (4) Masters 1000 events, the top 13 teams in the Team Race at the advanced entry deadline for that event, shall receive automatic Direct Acceptance into that Masters 1000 event (if not included as a Direct Acceptance on their own merit).

To qualify for automatic acceptance **into the first 5 Masters 1000 events** a team must have competed together as a team in each week of the 2019 season where both players were playing in that week. The exception would be when they were both involved in the singles of different events.

To qualify for automatic acceptance into the final 4 Masters 1000 events, once a team has competed together as a team, they must compete together as a team in each week of the 2019 season where both players were playing in that week. The exception would be when they were both involved in the singles of different events.

Effective Immediately (04 March): Please add a new section: **3.18 Tournament Audit Rule**:

3.18 Tournament Audit Rule

- A.** Each ATP Tour tournament is required to annually provide complete and accurate actual Gross Revenue, other financial information and supporting documentation as requested by Committee Auditor, and provide reasonable cooperation to Committee Auditor, who will examine and verify the accuracy of the information.

B. The following terms used in this section shall have the corresponding meanings.

Committee - The ATP Board of Directors will appoint a Committee comprised of an equal number of tournament and player representatives, the ATP President and an independent member. The Committee will be delegated authority to implement this rule and for deciding any and all issues that may arise including but not limited to selection of events to be subject to full onsite audits (audit for purposes of financial disclosure should be the agreed upon procedures as determined by the Committee), the process of receiving financial information, auditing it, determining how often an audit may be performed on an individual tournament, resolving questions and issues that may arise, and implementing any other aspect of this rule. Actions of the Committee require a unanimous vote of both player and tournament representatives unless otherwise provided in this rule. The Committee will meet regularly as deemed necessary to properly administer this rule.

Committee Auditor - An independent accounting firm appointed by the Committee to receive each tournament's Submission, perform agreed upon procedures regarding financial information included in the Submission, and prepare reports to the Committee and to the ATP Board of Directors summarizing the Submissions. Committee Auditor will also act as advisor to the Committee on financial and accounting related matters and Gross Revenue reporting issues.

Player Auditor - An independent CPA/financial advisor who meets the appropriate level of expertise and experience selected by the player members of the Committee and approved by the Committee (which for purposes of the this approval the ATP President would be considered a voting member) to act as advisor to the player Committee members and to provide comfort to them of the accuracy of the Submissions. The Player Auditor will be required to sign a statement of confidentiality and non-disclosure of any individual tournament financial or other information.

Gross Revenues - the total gross revenues related to a tournament determined on the basis of GAAP or IFRS (depending on the applicable accounting rules in the tournament's country) consistently applied, and including all revenues related to the tournament operations regardless of what entity or in which jurisdiction such revenues are reported. Such revenues shall be reported in the tournament's domestic reporting currency. For combined events, total gross revenues should be categorized by those identifiable only to the men's event, those identifiable only to the women's event and all other revenues. The Committee will create reporting rules for Gross Revenues.

Submission - the mandatory annual financial information report for each tournament which includes Gross Revenues and any other information required by the Committee but limited to revenue information or information directly related to such revenues. Submission must be provided to the Committee Auditor within 120 days following the end of each tournament's event. In the first year of implementing this rule the Submission must include the current and two past years (total of 3 years) Gross Revenues and other required financial information.

- C.** Each ATP Tour tournament is required to provide its Submission annually to the Committee Auditor. Submission must be certified by the Tournament member as

complete and accurate and in accordance with this section. Committee Auditor and Player Auditor will be instructed not to disclose any individual tournament information to the Committee, its members, ATP or any other party.

D. Committee Auditor will perform an agreed upon procedures audit (as directed by the Committee) of selected tournaments' Submissions and report to the Committee any issues it may identify as a result of these procedures which it is unable to resolve with the respective tournament. Once this process is completed Committee Auditor will provide the results of its procedures and the supporting audit work papers to the Player Auditor. The Player Auditor will undertake a review of the provided information and results. After completing this review, if the Player Auditor has any outstanding issues or questions, the Player Auditor will work with the Committee Auditor to resolve those issues or questions. If issues or questions remain unresolved after this collaboration due to the lack of cooperation of the event as determined by the Committee (which for purposes of this determination will include the Independent member of the Committee as a voting member) the revenue for that event would be excluded from the prize money formula calculation and that event will be subject to a prize money adjustment pursuant to paragraph F. below.

E. The Player Auditor will be instructed not to disclose any individual tournament information and/or documentation he receives under the terms of this clause to the Committee or any of its members, ATP or any other party.

F. Any tournament that fails to comply with this section or that submits a report or document that contains a material misstatement or does not fully cooperate with both the Committee Auditor and Player Auditor may be subject to a prize money adjustment in addition to any prize money adjustment approved by the Committee for each respective tournament category. Such prize money adjustment can be in an amount up to a maximum of \$250,000. The Committee shall evaluate the circumstances that lead to the failure to comply and assess an appropriate prize money adjustment. In the event that the Committee is unable to unanimously agree on an adjustment the Independent Member of the Committee will be considered an voting member for this purpose.
