To the Millions of Midwest League Fans:

I am thrilled to begin my 4th season as Midwest League President. Each day I realize how lucky I am to have the privilege of working with our 16 teams who are the best in Minor League Baseball. We have consistently exceeded 4 million fans coming through Midwest League Park gates each season. Therefore, I have the luxury of welcoming our fans in a way which highlights the fact each of you are not only "1 in a million", but 1 in 4 million!!!

The success of the Midwest League does not happen by accident. Each time I visit the parks around the League I find smiling faces, families holding hands and laughing at the entertainment, and cheering the play on the field. This affordable opportunity each of our Clubs provide to our fans is done with a welcoming smile and a true desire to treat you all as valued guests.

What makes me most proud is how our Clubs are excellent corporate citizens and each year either lead or are among the top 2 or 3 Leagues in Charitable Contributions of all of Minor League Baseball. In fact, more than a dollar per ticket goes back to worthy causes in each of our cities. For this philanthropy I thank our Clubs and fans.

We had a great 2017 Championship Season with the Whitecaps maintaining the best record for a Minor League Team, the TinCaps fielding the youngest team in Minor League Baseball and making it to the final Championship Series, and our Astros affiliate Quad Cities River Bandits winning it all, just like the parent Club in Houston.

So, saddle up, and get ready for another exciting season in the Midwest League; 2018 will be the best ever! A new set of players and teams will be thrilling our fans April through September. Don't miss an opportunity to take in a Midwest League game, as you'll experience a lifetime of memories. Play Ball!!!

Sincerely,

Dear Midwest League Fans:

On behalf of Minor League Baseball and the Midwest League, I want to welcome you to the ballpark for another exciting season of Minor League Baseball!

The 2018 season will see the opening of a new ballpark in North Augusta, South Carolina, and based on the success of a program launched in four cities in 2017, this year we are introducing the "Copa de la Diversión," or "Fun Cup," a season-long event series between the 33 teams that have adopted Spanish-language identities in an effort to be more representative of their community.

While you may see some new logos and team identities this spring and summer, what remains the same is the quality, affordable family entertainment in a clean and safe environment that is a staple of Minor League Baseball across the country.

With 20 leagues and more than 250 clubs, Minor League Baseball is where you will find the next wave of baseball's brightest stars on their way to the big leagues. You just might be watching the next Kris Bryant in South Bend tonight, the next Mike Trout in Cedar Rapids or the next Carlos Correa in the Quad Cities!

The Midwest League is a terrific league with a long history of clubs making a difference in their community while also providing a great product on the field and in the stands. The Midwest League is among the most charitable of our leagues when it comes to giving back to the community as the 16 clubs made gift in kind contributions of over \$5.4 million in 2017, second only to the Triple-A Pacific Coast League.

Minor League Baseball also remains an integral part of the sports landscape, and of the communities it represents. Last season, Minor League Baseball's philanthropic endeavors included donating almost \$40 million in cash and value in kind contributions to local and national charities. We are proud to support our National Charity Partners: The ALS Association, the American Cancer Society, Big Brothers Big Sisters, The BairFind Foundation and Ed Randall's Fans for the Cure, as well as other worthy initiatives and causes.

In 2017, a remarkable 41.8 MILLION fans attended Minor League Baseball games and I am certain that with your continued support, Minor League Baseball will continue to prosper for many years to come. As stewards and fans of the game, it is our responsibility to build, nurture and protect this great game for the future generations of fans.

Thank you again for your passionate support of Minor League Baseball, and particularly the Midwest League. I wish you a healthy and enjoyable season of baseball. Let's play ball!!

Sincerely,

Pat O'Conner

*Dayton's Jose Siri broke the all-time Midwest League record with a 39-game hitting streak. The old record of 35 had stood since 1977. Siri broke the record on July 31 at Fort Wayne.

*On August 3, Great Lakes Loons batters Carlos Rincon and Cody Thomas hit back-to-back home runs two times in the same inning. They did it in the first inning at Dayton as the Loons collected five home runs as a team and scored 11 runs in the inning.

*On September 1, Kane County's Connor Grey tossed the first perfect game in franchise history and the first in the Midwest League since 2004. Grey retired all 27 batters at Clinton.

BASEBALL RULES OF INTEREST

All-Star Selection: The Midwest League All-Stars are selected by the league's field managers. They may not vote for their own players.

Batting Average: Divide the number of safe hits by the total number of at-bats (at bats do not include walks, sacrifices, hit-by-pitch or times awarded first on obstruction or interference).

Consecutive Hitting Streak: A consecutive hitting streak shall not be terminated if the plate appearance results in a base on balls, hit batsman, defensive interference, or a sacrifice bunt. A sacrifice fly shall terminate the streak.

Consecutive Playing Streak: A consecutive game playing streak shall be extended if the player plays one half-inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance only shall not extend the streak. If a player is ejected from a game by an umpire before complying with these requirements, his streak shall continue.

Designated Hitter Rule: A hitter may be designated to bat for the pitcher in any spot in the batting order in any game without affecting the status of the pitcher. The designated hitter must be selected and be included in the lineup card presented to the umpire-in-chief prior to the game. The designated hitter is locked into the batting order, but may be removed for a pinch-hitter or pinch-runner who in turn becomes the designated hitter. The replacement player may stay in the game defensively, but the pitcher must take the place in the batting order of the replaced defensive player. This would terminate the role of the designated hitter for that game.

Doctored Bat: If a filled or "doctored" bat is used, the player is to be called out, ejected from the game and is subject to additional penalties. Any balls hit by an illegal bat do not count. If the umpire sees the illegal bat before it is used, he issues a warning, but there is no penalty.

Earned Run Average (ERA): Multiply the total number of earned runs by 9, then divide the result by the number of innings pitched.

Earned Runs Rule: A run for which the pitcher is held accountable. In determining earned runs, the inning should be reconstructed without errors and passed balls. The benefit of the doubt is always given to the pitcher in determining which bases would have been reached with errorless play.

Fielding Average: Divide the sum of putouts and assists by the total of putouts, assists, and errors (total chances).

Magic Number: Compute the number of games remaining, add one, then subtract the number of games ahead in the loss column of the closest opponent. This is the number of wins a team must have to secure the pennant.

Night Game: Any game scheduled to start after 5:00 pm (i.e. 5:01 pm) will be considered a night game. If a game is scheduled to start before 5:00 pm and is delayed for any reason, it shall be considered a day game.

On-Base Percentage: Add the total number of hits, walks, and hit-by-pitch and divide by the total number of at-bats, walks, hit-by-pitches, and sacrifice flies.

BASEBALL RULES OF INTEREST, CONT.

Player Eligibility: There are no age restrictions on player eligibility in the Midwest League, however, no more than two players on a team's active list may have five or more years of prior service. A player shall be credited with one year of minor league service for each season he was active or on the Disabled List of a minor league club for at least 30 days.

Qualifying Marks: To qualify for the league batting championship, a player must have a minimum of 378 plate appearances. To qualify for the ERA title, a pitcher must have at least 112 innings pitched.

Saves Rule: One save per game may be credited to a team. Credit a pitcher with a save when he meets all three of the following criteria:

- 1) He is the finishing pitcher in a game won by his club; and
- 2) He is not the winning pitcher; and
- 3) He qualifies under one of the following conditions:
 - a) He enters the game with a lead of no more than three runs and pitches for at least one inning; or
 - b) He enters the game with the potential tying run either on base, at bat, or on deck; or
 - c) He pitches effectively for at least three innings.

A "blown save" occurs when a pitcher who has entered a game in a save situation departs with the save situation no longer in effect because he has given up the lead. If the save situation still exists when he leaves the game, he is not charged with a save opportunity. If he has not given up the lead when he leaves the game, even though the save situation may no longer exist, he is not charged with a save opportunity.

BASEBALL RULES OF INTEREST, CONT.

The “Hold”: The hold is not an official statistic, but it was created as a way to credit middle relief pitchers for a job well done. Starting pitchers get win, and closers get saves, but the guys who pitch in between the two rarely get either statistic. So what’s the most important thing one of these middle relievers can do? “Hold” a lead. If a reliever comes into a game to protect a lead, gets at least one out and leaves without giving up that lead, he gets a hold. But you can’t get a save and a hold at the same time.

Slugging Percentage: Divide the total bases of all hits by the total number of at-bats.

Suspended Game Rule 4.11(d) (Official Baseball Rules): A called game ends at the moment the umpire terminates play. **EXCEPTION:** If the game is called while an inning is in progress and before it is completed, the game becomes a SUSPENDED game in each of the following situations:

1. The visiting team has scored one or more runs to tie the score and the home team has not scored;
2. The visiting team has scored one or more runs to take the lead and the home team has not tied the score or retaken the lead;
3. The game has not become a regulation game (4.5 innings with the home team ahead, or five innings with the visiting club ahead or tied).
4. Any regulation game tied at the point play is stopped because of weather, curfew, or other reason.
5. If a game is suspended before it becomes a regulation game, and is continued prior to another regularly scheduled game, the regularly scheduled game will be limited to seven innings.
6. If a game is suspended after it is a regulation game, and is continued prior to another regularly scheduled game, the regularly scheduled game will be a nine inning game.

EXCEPTION: The Suspended Rule will not apply to the last scheduled game between the two teams during the championship season, or League Playoffs.

Winning and Losing Pitcher: The winning pitcher is the pitcher who is in the game when his team assumes a lead that it does not relinquish. The starting pitcher must complete five full innings to be eligible to earn the win. If the starting pitcher does not complete at least five innings, and his team holds the lead at the time he is removed from the game and maintains the lead over the remainder of the game, then the official scorer shall award the win to the relief pitcher judged to have been most effective. The losing pitcher is the pitcher who is charged with the run that gives the winning team a lead that it does not relinquish. Whenever the score is tied, the game becomes a new contest insofar as the winning and losing pitcher is concerned.

Won-Lost Percentage: Divide the number of games won by the total number of games played.

GROUND RULES

BELoit SNAPPERS

Pohlman Field - Beloit, WI

1. Facing of both dugouts is live. If ball bounces off facing and lands in playing area, ball is live. If ball hits facing and drops into dugout, ball is dead.
2. A chalk line near the batting cage in the left field foul area marks the boundary between live and dead ball territory. If a ground ball crosses the line, the ball is dead. However, a player must come back into live ball territory to throw.
3. All balls hit into the bullpen area are live except for those that become lodged beneath the bullpen benches. Lodged balls are dead.
4. The first row of fence signs in the outfield are in play. The second row of fence signs, message center and scoreboard are recessed behind the fence and are out of play. Any ball striking the second level of fence signs, message center or scoreboard on the fly shall be a home run.
5. Any ball that goes beneath the deck area along the right field foul line is dead.
6. Players may lean on the tarp to catch a ball but cannot go on top of the tarp. Any ball caught while standing on the tarp shall be a dead ball.
7. The break on the backstop is anything above the horizontal wire located at the top of the support poles. Any ball going above the break shall be a dead ball.

The Greatest Comeback

On May 7, 2014 at Community Field in Burlington, Iowa, the Clinton Lumber Kings pulled off what is believed to be the biggest comeback in Minor League Baseball history. The Burlington Bees led the Lumber Kings 17-1 at the end of five innings. Clinton scored six runs in the sixth and added five more in the eighth to pull to within five at 17-12. The Lumber Kings then scored once in the ninth and loaded the bases with one out when Marcus Littlewood connected on a grand slam home run to tie the game at 17-17. The game eventually went to extra innings. In the top of the 12th, Clinton broke the tie with three more runs and held on to win 20-17, overcoming a 16-run deficit.
