QUOTE SHEET

BEN BENDER

On coming off the bench for the last two matches:

“I’ve honestly been enjoying these past couple games a lot because the games are very open in the last 30 minutes. And coming off the bench. You know, whatever my role is, I’m going to try and give a spark of energy and try and finish out the game strong and to come on.”

“With 10 minutes left against Nashville, it was super fun. Because, you know, I knew that my role was to bring more energy and to press the other team and to try and finish and seal the deal. So the last couple games, yeah, I’ve enjoyed it. I definitely would rather be starting but you know, it’s super important to win these games. So, however we win them is, is awesome.”

On keeping the momentum going through a critical summer stretch:

“Yeah, the momentum, we want to keep that going for this Inter Miami game. Lattanzio always talks about being ambitious but staying humble. And I think that’s, that’s our goal this season. We’re a very ambitious team.”

“So you know, those two wins, were super important for us. And we’re going to take that energy, and everything we have and give it our best shot as we go into that game on Saturday. I think the energy is high in the locker room. The camaraderie is great throughout the team. And yeah, I think we’re going to do well in Miami on Saturday.”

CHRISTIAN LATTANZIO

On his thoughts following the win over Nashville:

“I couldn’t feel better. I feel really good, I thought it was a complete performance from our boys. Similar – but even better because of the atmosphere here that the fans bring – to Houston in the sense that if we have to play, we play. And when we have to defend, because we played against for me a very, very good team, very strong, the boys adapt so well quickly to the different tactical changes.”

“Because at one point I think it was getting very tactical. They started to fight and went 442 then they changed again to 4231 and so we had to counteract every time because if they get the best of you, they have so many good players up front that can hurt you. As they showed, they had chances as well.”

“But I think our boys went toe to toe with them which is in my opinion one of the best teams in the league.”

On having multiple different goalscorers:

“For me, one thing that is very important in the team is to have many players that can score and make assists. And we had four different goal scorers, our players making assists, and this is so important because it means the team is rich. And from this point of view we have a rich team.”
