CONDENSED RULES OF SOCCER

- RULE 1 The Field of Play. (Diagram above)
- RULE 2 The Ball (NASL approved ball Adidas) circumference 27"-28", weight 14 oz.-16 oz.
- RULE 3 Number of Players. Each team consists of 11 players, one of whom must be the goalkeeper. A maximum of three substitutes may be used.
- RULE 4 Player Equipment. Consists of a shirt, shorts, stockings and shoes. Goalkeeper must wear colors which distinguish him from the other players.
- RULE 5 Referees. One referee is appointed for each match. He is responsible for control of the game and his decisions are final.
- RULE 6 Linesmen. Two linesmen assist the referee by indicating offside, when the ball is out of play, and which team is entitled to the corner kick or throw in.
- RULE 7 Duration of the Game. Shall be two equal periods of 45 minutes unless otherwise agreed upon.
- RULE 8 The Start of Play. A flip of coin decides which team will kick off. Each team must stay on its own half of the field and the defending players must be at least 10 yards from the ball until it is kicked.
 - After a goal the team scored upon will kick off. After halftime the teams change ends and the kickoff will be taken by the opposite team to that which started the game. A goal cannot be scored directly from a kickoff.
- RULE 9 Ball In and Out of Play. The ball is out of play when (a) it has wholly crossed the goal line or touchline, whether on the ground or in the air, or (b) when the game has been stopped by the referee.
- RULE 10 Method of Scoring. A goal is scored when the whole of the ball has passed over the goal line, between the goal posts and under the cross bar.
- RULE 11 Offside. A player is offside if he is nearer his opponents' goal line than the ball at the moment the ball is played unless, (a) he is in his own half of the field of play, (b) there are two of his opponents nearer to their own goal line than he is, (c) the ball last touched an opponent or was last played by him or (d) he receives the ball direct from a goal kick, a corner kick, a throw in, or when it was dropped by the referee.

Note: This is the Traditional Rule. In 1973 the NASL introduced a "Blue Line" Concept with a line drawn the width of the field 30 yards from each goal (see diagram). Under it, an attacking player is not offside until he is within 35 yards of his opponents' goal rather than midfield, as under the Traditional Rule.

RULE 12 — Fouls and Misconduct. A player who intentionally attempts to or actually: (1) kicks, (2) trips, (3) jumps at, (4) charges violently, (5) charges from behind, (6) strikes, (7) holds or (8) pushes an opponent, or (9) intentionally handles the ball shall be penalized by a direct free kick. Any one of these nine offenses committed in the penalty area by a defender will result in a penalty kick to the offensive team.

A player committing less flagrant violations such as offside, dangerous plays, obstruction or ungentlemanly conduct will be penalized by an indirect free kick.

RULE 13 — Free Kicks. Are classified into two categories: "Direct" (from which a goal can be scored directly against the offending side) and "Indirect" (from which a goal cannot be scored unless the ball has been touched by a player other than the kicker before entering the goal).

For all free kicks the offending team must be at least 10 yards from the ball until it is kicked.

RULE 14 — Penalty Kick. A direct free kick taken at the penalty mark. All players except the player taking the kick and the goalkeeper must stay outside the penalty area and at least 10 yards from the ball (hence the arc at edge of penalty area).

RULE 15 — Throw In. When the ball has wholly crossed the touchline it is put back into play by a throw in from the spot where it went out and by a player from the opposite team that last touched it. A goal cannot be scored directly from a throw in.

RULE 16 — Goal Kick. When the ball has wholly crossed the goal line after being last touched by a player from the attacking team, it is put back into play by a kick from the goal area by the defending team.

RULE 17 — Corner Kick. When the ball has wholly crossed the goal line after being last touched by a player from the defending team, it is put back into play by a kick from the corner on the side the ball went out by the attacking team.

1977 TIE BREAKER PROCEDURE — THE SHOOTOUT

NASL games which are tied at the end of regulation play will be extended by 15 minutes of "sudden death" overtime (two 7½-minute periods). A flip of the coin will decide which team will kick off. The first team to score a goal, either from the field or by penalty kick, shall be the winner. If no score occurs in the first period, play shall be halted by the referee. The teams will change ends of the field. Play will be restarted with a kickoff by the team opposite that which started the overtime period.

If the game remains tied at the end of the second overtime period, the outcome will be decided by The Shootout which involves players on each team challenging the opposing goalkeeper in a one-on-one situation.

The visiting team will kick first and each team will take five chances in alternate order. Attacking players will start with the ball on the 35 yard line and must take their shot within five seconds. Goalkeepers have no movement restrictions within the five-second period.

The kicks shall be ended when one team has achieved an insurmountable advantage, such as scoring on its first three kicks while their opponents miss their first three.

If the teams remain tied after the prescribed five attempts, they shall continue to take alternate kicks until one has scored more than the other after an equal number of attempts. Only players in the game at the end of the overtime period shall be eligible to take such kicks. No player may take a second kick until all other eligible members of his team have done so, at which time they shall continue in any order the team may wish, i.e. they do not have to kick in the same rotation.
