Buczkowski was a member of several youth national teams. She was a member of the U-19 World Cup team in 2003 and played every minute of the U-21 Nordic Cup tournament in 2005, in which the team won the championship.

Clubs: Sky Blue FC (WPS)-Buczkowski was a sixth-round selection (39th overall) in the 2009 WPS College Draft for the New Jersey Sky Blue. The team went on to win the national championship...**Philadelphia Independence (WPS)**-The following season, Buczkowski was selected in the first round of the expansion draft by the Philadelphia Independence. During the 2011 season, Jen won the "Iron Women Award" for playing every minute of the season...**Chicago Red Stars (WPSL Elite)**-After the folding of the WPS in early 2012, Buczkowski joined the Chicago Red Stars, in the semi-professional WPSL Elite.[4] The team would go on to come in second to the Western New York Flash after penalty kicks during the WPSL final

College: Buczkowski attended the University of Notre Dame from 2003-2007 and set the Notre Dame record for 103 career games played. During her career at Notre Dame, she scored 77 points (22nd in Notre Dame history), 20 goals, 37 assists and 97 starts. Buczkowski was a three-time NSCAA All-American. She was among the final 15 candidates for the MAC Hermann Award in 2005 and 2006. Buczkowski was involved with the US youth national team programs from U-16 through U-21.

Buczkowski never missed a game in her college career while setting the Notre Dame record for career games played (103; sixth-most in the NCAA record book). Her other career stats with the Irish included 77 points (22nd in ND history), 20 goals, 37 assists (13th) and 97 starts (6th). As part of one of the winningest classes in Division I women's soccer history, Buczkowski played a lead role in Notre Dame's 92-8-3 record (.908) from 2003-06. The only time that the Irish were outshot in her career came in the 2006 NCAA title game, a 2-1 loss to North Carolina that saw Buczkowski battle courageously despite suffering a major leg injury two days earlier. Buczkowski and her fellow 2006 seniors averaged a 23-5 shot margin in their career and were nearly unbeatable at home, going 53-2-1 at Alumni Field.

A starter with the Under-21 National Team that won the prestigious Nordic Cup in the summer of 2005, Buczkowski was one of three U.S. players to log every minute of that tournament. The Americans rolled up a 15-1 scoring edge during the four games played in Sweden, capped by a 4-1 win over Norway in the Nordic Cup final.

Buczkowski joined her Notre Dame teammate Kerri Hanks and two others as the only players among the final-15 candidates for both the 2005 and 2006 M.A.C. Hermann Award (national player of the year).

RULES AND REGULATIONS

SINGLE TABLE:

Teams will be aligned into a single table:

Seattle Reign FC
Sky Blue FC
Washington Spirit
Western New York Flash

REGULAR SEASON:

POINT SYSTEM:

Teams will receive three points for a win, one point for a tie and zero points for a loss.

REFEREES:

All referees in NWSL are either USSF (United States Soccer Federation) or CSA (Canadian Soccer Association) National Referees. Referees for all NWSL games will be trained, assigned and evaluated by PRO (Professional Referee Organization).

GAME CLOCK:

The official game time for all National Women's Soccer League games will be managed on the field by the referee. If necessary, the referee may also allot extra time (a.k.a. "stoppage time") at the end of each period (first half, second half, and if applicable, first overtime period and second overtime period during playoff matches) to allow for injuries, time-wasting or other disturbances.

The stadium clock will display the time from 0:00 to 45:00 and from 45:00 to 90:00. For statistical purposes, the minutes for goals, substitutions, yellow cards, etc., will be listed from the first minute until the 90th minute. A goal scored at 15 minutes 10 seconds will be listed as having been scored in the 16th minute. Events occurring during stoppage time will follow the international norm by being demarcated with a "+" sign and the extra minutes. For example, a goal scored three minutes into first half stoppage time will be officially identified as happening at "48+".

GAME DAY ROSTERS:

Each team can nominate 18 players for a game day roster. Teams are allowed three substitutions per game.

CAUTIONS AND SUSPENSIONS:

A Player will be suspended for one game upon receiving her fifth yellow card -regardless of the nature of the infraction which resulted in her being awarded the yellow card. A second suspension of one game would result after the awarding of an additional three cards as would a third suspension after the awarding of card number eleven.

NWSL RULES AND REGULATIONS

NWSL Playoffs:

Format

WHO QUALIFIES:

Four clubs, the top four in points from the League standings at the end of the regular season, qualify for the 2014 NWSL Playoffs.

The two Semifinals will be decided by a single knockout game, the winner of which will advance to the Championship Game. If the aggregate score is tied after 90 minutes of play, two 15-minute extra time periods will be played in their entirety, followed by penalty kicks, if necessary.

The NWSL Championship will be a single championship match hosted by the finalist with the most regular season points. If the two finalists have the same number of regular season points, the tiebreakers for playoff qualification will be applied to determine the host team.

If the score is tied after 90 minutes of play, two 15-minute extra time periods will be played in their entirety, followed by kicks from the penalty mark, if necessary.

Team-Standings Tie-Breaking Procedures

The team awarded the highest position in the NWSL standings will be the team with the greatest number of points (three points for a win, one point for a tie, zero points for a loss). In the event that two teams finish the regular season with an equal number of points, the following system will be used to break the tie:

When two or more teams are tied in the standings on points (3 points for a win, 1 point for a draw, 0 points for a loss), the following tiebreakers will be used in the sequence below, until one team ranks ahead of the other(s):

- 1) The highest position shall be awarded to the team with the better win/loss record in current Regular Season games against all other teams equal in points. (head-to-head competition)
- 2) If the teams are still equal in the standings, the highest position shall be awarded to the team with the greater goal difference against all other teams during the Regular Season. (goal differential)
- 3) If the teams are still equal in the standings, the highest position shall be awarded to the team scoring the greatest number of total goals against all other teams during the Regular Season. (total goals)
- 4) If the teams are still equal in the standings, the procedures described in this section shall be applied only to games played on the road by each team against all other teams during the Regular Season. (road 1-3)
- 5) If the teams are still equal in the standings, the procedures described in this section shall be applied only to games played at home by each team against all other teams during the regular season. (home 1-3)

If the teams are still equal in the standings, the highest position in the standings shall be determined by the toss of a coin.

The first tiebreaker in a three-way tie is also head-to-head, but it is determined via points-per-game versus the other two teams. If two teams are tied in points-per-game head-to-head, the next tie breaker is goal difference.

NOTE: If two clubs remain tied after another club with the same number of points advances during any step, the tie breaker reverts to step 1 of the two-club format.

NWSL RULES AND REGULATIONS

ROSTER RULES AND REGULATIONS

Roster Composition

The full roster shall be no less than 18 and no more than 20 total Players. All Players are eligible for selection as part of the game-day squad during the Regular Season and Playoffs Games. Once preseason begins, Teams must make a decision on Non-Contracted Players, whose rights they hold, within 10 days once the Player reports. For Players whose rights a Team holds from the previous Season, the decision must be made by March 10, 2014.

Domestic Players

A domestic Player is either a U.S. Citizen, a permanent resident (Green Card holder) or the holder of certain other special status (e.g., has been granted refugee or asylum status). There is no limit as to the number of domestic Players on a Team's roster within general roster limits.

International Players

Each Team has three (3) international slots which may be traded, with the only condition being time (slots can be traded for one year, two years or forever). With trades, there is no limit on the number of international slots a Team may have. Any Player who does not qualify as a domestic Player in the U.S. shall be considered an international Player. Any international Player must occupy an international slot on a Team's roster (with the exception of Canadian or Mexican Allocated Players).

Allocated Players

The term "Allocated Player" refers to a Player who is designated by her Federation to play in the League.

Amateur Players

An amateur Player is any person other than a professional Player. An amateur Player may not receive or retain any remuneration for playing except expenses directly related to a game or games which have actually been incurred by the Player.

SOURCES OF PLAYERS

Teams may add Players to their roster through one of the following mechanisms:

- A. Allocations
- B. College Draft
- C. Trades
- D. Discovery
- E. Waivers
- F. Injury Replacement
- G. Goalkeeper Replacement
- H. Amateur Call-up

In order for a Team to add a Player to its roster, it must use one of the above mechanisms. Once it has been determined that a Player may be added pursuant to one of the above mechanisms, it must then be determined if the Player's addition would be within the relevant roster limits and guidelines.

NWSL RULES AND REGULATIONS

College Draft

The 2014 NWSL College Draft will be held on Jan. 17 in Philadelphia, consisted of four rounds of nine (9) picks for a total of 36 player selections.

All Players who have exhausted their college eligibility or who will graduate in the 2013-14 year are eligible for the College Draft. Players must be registered by Jan. 15, 2014 to be part of the College Draft. If a Player is eligible and does not register, that Player will not be able to be on the Roster of a NWSL Team until Jan. 1, 2015 – at which point that Player will become eligible as a Discovery Player.

The draft order is based upon the Teams' on-field performance during the previous year. If Teams are tied, the Tie Breaking Procedures set forth in Exhibit 6 shall be utilized.

Undrafted Players

A Player who is on the College Draft List and is undrafted may be added to a Team's Roster via a Discovery claim on a first-come, first-serve basis. If more than one Team selects the same Player on the same day, priority will be determined in accordance with the League's Discovery Order.

College Protected List

If a college Player is drafted by a Team in the College Draft, the League will attempt to sign the College Player to a contract in a salary range predetermined by the League Office.

Any college Player who has refused to sign an NWSL contract or who has refused to report to the Team to be evaluated does not need to be placed on waivers and may remain college protected.

A Player on the College Protected List is not a roster Player and may not play for the Team, since she has not signed a Player contract.

A college Player would come off a Team's College Protected list by the Roster Compliance Date of the following Preseason (March 9, 2015) if she is not contracted by that Team. Any Player not signed at that point will become available to be claimed as a Discovery Player. The Player would then be available to all Teams through the Discovery process.

Discovery

A discovery player is a domestic or international Player who is currently not under contract with the League. A team may claim her rights by adding her to their Discovery List.

The term "Discovery Player" may refer to both players on the Discovery List and those players under contract with the league who have been acquired through Discovery Process.

A Discovery Player request must be made to the League on an official Discovery Player Request Form (Exhibit 8) during the "Discovery Period." If approved by the League, the Player will be added to the Team's Discovery List.

Teams may take a Player off their discovery list at any point in time.

Teams may sign up to 10 Players from the Discovery List per year during the designated Discovery Periods: six (6) in the period of September 3 – March 10 as well as an additional four (4) in the period of March 11 – August 31.

If a signed Discovery Player is traded, the Player will continue to occupy one of her former Team's 10 Discovery List slots. The Player will not count as a Discovery Player on her new Team's Discovery List. Teams may not trade Discovery player "rights" or "slots" to another team.

NWSL RULES AND REGULATIONS

Trades

Players may be acquired in trades with League approval. See Standard Trade Agreement Form. All Player trades are subject to League approval and to salary cap as well as roster size and composition constraints. Player trades cannot be made for finite periods (i.e., Players may not be “loaned” by one Team to another or temporarily swapped by Teams).

Trades may not be conditioned upon a Player passing a physical examination or unwound because she failed to do so – it is a case of “buyer beware.” Teams are advised to undertake any inquiries regarding a Player’s medical condition before executing a Trade Agreement. It is also a case of “buyer beware” with regard to a Player failing to report to her new Team.

Bona fide consideration (either an exchange of Players, future Draft choices) is required in each trade of a Player. No financial consideration is permitted. Teams are able to trade future draft picks and International slots as well as Players. Teams may not structure trades such that a Player may not play against her previous Team.

The League should be consulted early in any trade discussions so that Player salaries and other Player Agreement provisions can be confirmed, Team Salary Cap impacts can be determined, any Draft positions to be traded can be confirmed, and any other matters, including the Players’ physical condition, can be discussed.

Teams must respond fully to all inquiries in anticipation of a trade regarding Player injuries, illnesses, or other matters, and provide copies of medical records as requested. It is anticipated that Team trainers and physicians will communicate directly on these matters. A Team’s failure to respond fully and accurately may result in sanctions imposed by the League as set forth under “Binding Agreement and Approval”. There is, however, no prohibition against Teams trading an injured Player.

Trades of Signed Discovery Players/Slots

Teams may trade signed Discovery Players that were on their discovery lists, but may not trade Discovery Player “rights” or “slots.” If a Team trades one of its signed Discovery Players, the Player will still count against its 10 Discovery slots for the Season. That is, the Player’s name will remain on the Team’s Discovery list for the remainder of the Season.

Trades of Allocated Players

Trades involving Allocated Players may take place regardless of the nationality of the Allocated Players. Teams trade an Allocated Player for any another Player or College Draft Pick.

Trades for International Roster Spots

Teams may trade International roster spots, provided that the only condition can be the length of time the slot is traded (e.g., a slot can be traded for 1 year, 2 years or forever).

Trades for College Draft Picks

Teams trading college draft picks may not place conditions on those draft picks.

Teams are only permitted to trade selections for the next College Draft. The sole exception to this is that

Teams will be permitted to trade selections from the next two College Drafts during the period of time from the conclusion of a Season through the end of the subsequent draft.

Trade Deadline

No trades may take place between the Roster Freeze and the NWSL Championship.

NWSL RULES AND REGULATIONS

National Team Call ups

If a National Team Player is being called up for a National Team match, a team may bring in an Amateur player to count towards the 20 roster spots. The team is not to pay a salary to the amateur player, but may cover necessary expenses.

Disabled List

In the event a Player suffers an injury that will prohibit the Player from participating for at least 45 days, a Player may be added to a Team's roster as a "Disabled List" replacement as set forth below. Any Player placed on the Disabled List will have to remain unavailable for a minimum of 45 days.

Disabled List replacement Players must be signed prior to the Roster Freeze Date. Any Player coming off the Disabled List following the Roster Freeze Date may be added to the Roster, but Teams must comply with the relevant Roster limits.

Where the League determines that a Player has sustained an injury that will prohibit the Player from participating for at least 45 days during the League Season, it may provide the Team roster relief, provided the full amount of the injured Player's salary is charged to the Team's Salary Cap in the relevant Season. Therefore, the Team is given Roster relief, but not Cap relief.

In the event where a Team has two (2) or more Players on its Disabled List, Salary Cap relief may be considered by the League.

Teams that carry or can create extra salary cap room will therefore be able to temporarily replace Players who are on the Disabled List. The budget number for the replacement Player will be calculated in the same manner as any other roster Player.

Also, if the Player suffering the injury is an international Player, the Team may replace such Player with an international Player.

Season-ending Injury Replacement

Where the League determines based on certification from a Team's medical staff that a Player has received an injury that is beyond reasonable doubt Season ending, it may provide the Team roster relief, provided the full amount of the injured Player's salary (or any settlement amount paid to that Player) is still charged to the Team's Salary Cap in the relevant Season. In the event of such a determination, the injured Player shall not be eligible to play for the Team again during the Season in question. Therefore, the Team is given Roster relief, but not Salary Cap relief. Also, if the Player suffering the Season-ending injury is an international Player, the Team may replace such Player with an international Player.

Unexpected Recovery from Season-ending Injuries

In the event a Player, who had suffered a Season-ending injury and had been replaced on the Roster by another Player, unexpectedly rehabilitates and recovers prior to the end of the Season, she will nonetheless be barred from playing for the Team through the end of the Season.

Goalkeeper Replacement

It is up to each Team to structure its roster to ensure that it has the best make-up to field a Team throughout the year. Teams are required to carry two (2) goalkeepers.

In the case of an injured goalkeeper, and where a Team has less than two available goalkeepers, a Team will be able to add a goalkeeper to its roster until its injured goalkeeper is back to full participation with the Team. This must be done within the salary cap.

NWSL RULES AND REGULATIONS

Waivers

Players may be added to a Team's roster from the Waiver wire, through a Waiver Draft or "On-going Waivers." See Waiver Request Form.

Current NWSL Players Waived

Teams may waive Players based on performance at any time prior to the Roster Freeze date during the NWSL Season. Teams may not waive Players between the Roster Freeze date and the date of NWSL Championship.

A Team wishing to waive a Player must first obtain a favorable medical examination of the Player – an "exit physical", and then submit its waiver request to the League.

Claiming Period

Provided the League approves the Player being placed on waivers pursuant to the above, it will distribute a waiver notice to all Teams. A Team claiming the Player must notify the League of the measures it will take to remain roster compliant, if any such moves are necessary. Notice must be received by the League from a Team claiming a waived Player within the "Waiver Claiming Period."

The "Waiver Claiming Period" shall commence on the day (the "Waiver Period Commencement Date") the League gives notice to Teams and shall expire at 5:00 p.m. EST on the first business day after the Waiver Period Commencement Date (the claiming period is 24 hours).

If a Team claims a Player and no other Team claims the same Player during the Waiver Claiming Period (having regard to the time of League deadlines, set forth in the Competition Calendar attached to this document), the Player shall be assigned to the claiming Team.

Waiver Order

The waiver draft order is determined via reverse order of the standings from the previous Season until Teams have played at least three (3) League games. If the waiver takes place prior to all Teams playing in at least three (3) League games priority shall be granted based upon the prior year's performance according to their point totals through the end of the Regular Season.

In the offseason, once a Team claims a Player from waivers, it is moved to the bottom of the Waiver Draft claiming order.

New expansion Teams shall be at the bottom of the waiver order. If there is more than one expansion Team in a given year, they shall be listed in reverse priority order of the College Draft order.

Multiple Claims for Same Player (Out of Season)

In the event a Player is requested by more than one Team on the same day the League shall assign the Player to the Team with the lowest points per Regular Season Game average during the previous League Season and then move up from lowest to highest. Once a Team wins a tie it is moved to the bottom of the Waiver Draft Claiming Order.

Waiver Forms

All waiver forms should be submitted to the League Office.

NWSL RULES AND REGULATIONS

Amateur Players

During National Team call-ups U.S. amateur players will be called in by teams. An amateur call-up form will be submitted and amateur players will sign an Amateur standard agreement. They must be registered amateur players with US Soccer. Teams may cover necessary expenses.

Players are expected to be located in the local market. If there are no local amateur players for any team, the NWSL will work with the teams to set up appropriate guidelines.

Roster Freeze

No changes (including waiving players) may be made to a Team's Roster from the "Roster Freeze Date" through the day after the League Championship Game. The Roster Freeze and Trade deadline date is July 31, 2014.
