Leagues

USL League Two is the leader in pre-professional soccer in North America. The League holds a vital role as it continues to provide the elite platform for those pursuing professional careers domestically and internationally. Throughout the United States and Canada, League Two franchises continue to provide top pre-professional players the opportunity to train and compete at the highest level while maintaining their collegiate eligibility.

League Two is more than the leading national pre-professional league. League Two is the defined and proven pathway for players to progress to the ranks of professional soccer, while its clubs become fixtures in the communities where they operate.

The USL W League strives to use women's soccer as a force for societal good by creating a national platform to increase opportunity, gender equity, and career development. The League and its member clubs are committed to investing in women's soccer – through not only financial resources but also with time, energy, and attention – and are united in our mission to grow the women's game.

The USL W League will serve as the nation's premier pre-professional league developing the next generation of women's talent both on and off the field, enhancing the women's soccer pipeline between college and professional soccer. With 44 teams across 20 states in its inaugural season, the USL W League will bring elite women's soccer to communities across the U.S., creating more opportunities to play, watch and work in the women's game.
