### Contest

**Step 7: Post a link to your mix in the course discussions area. And once a month the person with the best mix wins access to one of my courses for FREE. (I will inbox the winner and you can tell me which course you want)**

**Also if you want to submit to the contest again after you already post your mix to the beat in the course, you can mix one of your original beats and post a soundcloud link in the course as well.**

**Thank you so much for taking this course and I really hope that this course helps you get better mixes. Please leave a review and I look forward to hearing your successful progression. And remember don't be too hard on yourself. This takes time, but if you work at it you will improve fast!**
